MAY DEMAND A PORT IN THE YUKON

Canada Wants Entrance By Sea to Yukon Territory.

THE PRICE OF CONCESSION

United States Must Give Up Something in Return for Pelagic Sealing—British Foreign Secretary to Confer With Sir Wilfrid Laurier on Subject—May Effect a Settlement — Modus Vivendi.

London, April 29.—Foreign Secretary Grey is taking advantage of the presence of the Colonial Premiers in London to obtain the first-hand views of Sir Wilfrid Laurier and Sir Robert Bond on the questions pending between the United States and Canada and Newfoundland respectively.

The Secretary already has had one conferenec with Sir Robert, but it was largely taken up with the discussion of the modus vivendi, which the United States and Great Britain signed to cover the last fishing season, and to which the Newfoundland Premier strenuously objected on the ground of "interference with the rights of the colony."

Against Interference.

Further interviews will occur, looking to the permanent settlement of the fisheries dispute. It is recognized that this is not easy of accomplishment, as there is a strong sentiment against any interference of the Imperial Government with the affairs of the colonies.

The Canadian negotiations are giving the Foreign Secretary even more trouble than those in which Newfoundland is interested, but every effort will be put forth to bring about an agreement. Premier Laurier has been too busy thus far with the Imperial Conference and special engagements to discuss questions with the Foreign Office, but he has made an appointment with the Foreign Secretary for the coming week when the whole matter will be gone over.

Sir Wilfrid expressed to the Associated Press his satisfaction with the hands in which the negotiations were left, and spoke hopefully of the outcome, but from other sources it was learned that there are wide differences of views between United States Secretary of State Root and the Canadians.

Demand Compensation.

In almost every case the Canadians demand some national compensation in return for what they are asked to concede. As an example, to give up pelagic sealing they not only ask the United States to buy out the sealers, but also want a further concession from the United States, which might take the form of a port in Alaska to give traders an entry into the Canadian Yukon district without passing through American territory.

At a dinner of the National Liberal Club, Sir Robert Bond took the occasion to again protest against the modus vivendi, repeating what he said in the Legislature before his departure from Newfoundland.

BLAMES SIR WILFRID.

Says Laurier Killed the Imperial Council Idea.

London, April 29.—The Saturday Review says the proposal of an imperial council has been killed by Premier Laurier with the help of Gen. Botha.

The Spectator says the abandonment of an imperial council was largely due to the line taken by Sir Wilfrid Laurier.

Mr. Haldane, referring to the conference proposals, thought they had made a step forward towards the organization of a scientific force for the defence of the Empire as a whole.

The Pall Mall Gazette hopes Premier Bond's appeal for Newfoundland will not go unconsidered amid the greater issues of the Premiers' visit.

Dr. Charles Harriss is to be admitted to the Worshipful Co. of Musicians on Tuesday.

"COPS" ROUGHLY USED.

Have Exciting Time Arresting Man For Theft.

Hamilton, April 29.—Detectives Bleakley and Miller had an exciting time on Saturday afternoon placing Charles Crisp, wanted at Windsor on a charge of theft, under arrest.

They came across their man in a bar room in the M. and M. Hotel, at King William and John streets. There were about fifty men in the bar and when the officers went to make the arrest Crisp's brother and about a dosen others interfered.

There was rough house for a time and the officers were mauled considerably, but came out of the scrap with their men, though they were both scratched and bruised.

NEW PIER GAVE AWAY AT BALTIMORE

Plunged Into the Water At Baltimore Inner Harbor.

CAUSED TREMENDOUS WAVE

Feared Many Workmen Have Perished—Three Dead Bodies Taken From Wreckage — More Believed to Be Beneath the Ruins—Immigrants In Panic on the Steamer—Vessel Lifted High in Air.

Baltimore, April 29.—With a roar that terrified thousands and a rush that drove a wave six feet high to distant parts of the inner harbor of Baltimore, nearly half of a new pier under construction at Locust Point Saturday broke away from the shore end and plunged into the water.

Three dead bodies have been taken from the wreckage, five men are missing and their bodies are almost certainly beneath the ruins, and eighteen men are suffering from injuries more or less serious.

The dead includes Howard L. Ellender, civil engineer. The missing are laborers.

It is not certain why the catastrophe occurred. The new pier was being built by the Baltimore Bridge Co., and the McLean Contracting Co., for the Baltimore and Ohio Railroad, and was to have been used by the steamers of the Johnson Line. It was a two-storey structure, 930 feet long, about 500 feet of which was on land.

Plunged Into the Harbor.

The water end was built upon piles, upon which a thick bed of concrete was laid and above this rose the superstructure of steel. The water section of the pier was approaching completion, and was under roof. This section was separated from the land end by a heavy fire wall of masonry. Saturday morning crackllngs were heard, and the workmen were called to places of safety. Just as many of them were struggling through the doors in the fire wall, this collapsed, and, with 430 feet of the water end of the pier, plunged into the harbor, carrying a number of men with it. Ellander, the dead civil engineer, who was acting superintendent for the McLean Contracting Co. lost his life in an effort to warn the men of their danger. His body was recovered. Police, firemen and others including Mayor E. Clay Timanus responded quickly to calls for help and everything possible was done to aid the injured and recover the bodies of the dead.

Immigrants Badly Scared.

At the pier adjoining the wrecked structure, was moored the North German Lloyd's steamer Cassel and on board her were a large number of immigrants. The immense wave that followed the plunge of the new pier into the water lifted the Cassel high in the air, dashed her against her pier and was crushed in badly, tore the steamer from her moorings and cast her adrift. The immigrants were for a short time in a state bordering on panic, and two of them jumped overboard, but were rescued. The Neptune line steamer Ripon was also torn from the dock, where she was moored, as was also the Norwegian steamer Fortuna, loaded with steel rails. Her wire hawsers snapped like twine. The harbor is narrow, where the accident occurred, and the wave and its rebound from the opposite shore cast a number of smaller vessels adrift, and caused much confusion for a time.

BRICK WALL COLLAPSED.

Four Dead and Eighteen Injured At Chrome, N. Y.

New York, April 29.—Four men were instantly killed, three others were badly injured, and 15 others were more or less seciously hurt by the collapse of a brick wall at the De La Mar Copper Works At Chrome, N. Y., Saturday.

The victims were all Hungarians. The settlement is chiefly composed of foreigners, and following the falling of the wall there was a wild rush to the vicinity and something like a riot resulted. When the frenzied men and women found they would not be admitted within the walls of the works they stoned the small guard and threatened vengeance. Most of the colony have members of their families working for the company.

Fatal Storm In Texas.

Fort Worth, Tex., April 29.—One village is totally destroyed, extensive damage done to property and crops at other points, and eight lives are known to have been lost as a result of a storm which was general over this state Saturday.

HOUSE OF COMMONS IS PROROGUED

Governor-General Brings Session to a Close On Saturday.

REVIEW OF LEGISLATION

Congratulation that Country is Still Prosperous—Earl Grey's References to Work Accomplished—Question of Subsidies Disposed of—Satisfied With Immigrants—Postage Changes and Tariff Revision.

Ottawa, April 29.—A significant feature of Saturday's prorogation was found in the fact that only 45 people were in the gallery and that only about one-half of the Senators' seats (always gallantly surrendered place aux dames) were occupied by the ladies of the smart set.

Although prorogation was announced for 3, it was 3.55 before His Excellency arrived. He read his speech in both French and English, and, as always, spoke with much musical resonance.

His Excellency said:

"Honorable gentlemen of the Senate; gentlemen of the House of Commons:

"In bringing to a close the third session of the tenth Parliament of Canada, I desire to express to you my thanks for the care and assiduity you have shown in the discharge of your important duties, the results of which are apparent in many important acts which must prove of great benefit to the country.

"I am glad to observe that the fiscal period terminating on the last day of March was, in proportion to its length, the most prosperous in the history of the Dominion, and that the present indications are that the expansion of the country's trade and revenue will continue during the year that we are now entering upon; a fact that is particularly gratifying in view of the important undertakings to which Canada is committed.

"The stream of immigrants entering the Dominion continues yearly to expand, and it is very satisfactory to note that a larger number is coming from the British Isles than in former years. The recent revision of the tariff will, it is believed, meet with the general approval of the trade, removing as it does many inequalities heretofore existing.

The Matter of Subsidies.

"One of the most important of the subjects which have engaged your attention is that of the subsidies and allowances to be paid out of the Dominion treasury to the several provinces. I trust that the proposed changes in the imperial legislation respecting which you have adopted an address to His Majesty will, if enacted, go far towards removing the grievances of which the Provincial Governments have complained as to the insufficiency of their revenues.

"The substantial aid now offered towards the establishment of cold storage should stimulate the erection of those necessary adjuncts for the preservation of perishable foods.

"I have observed with gratification the passage of an act having for its object the maintenance of industrial peace in all public utilities. This legislation has already been applied with success. It is confidently expected that when the provisions of the act for the settlement of industrial disputes are fully understood both employes and employers will be ready to refer their differences to boards of investigation and conciliation and thus avoid the evils following strikes and lockouts.

Postal Changes.

"The arrangements lately made between the Imperial and Canadian postal departments, providing for a substantial reduction on newspapers and periodicals coming from the United Kingdom, have, I am glad to know been received with much satisfaction as a measure likely to promote a freer communication between the mother country and Canada.

"Gentlemen of the House of Commons, I thank you in His Majesty's name for the liberal supplies you have granted for the public service.

"Honorable gentlemen of the Senate, gentlemen of the House of Commons: In now relieving you from your duties let me express the forwent hope that when we meet again at the next session an equally prosperous condition will prevail throughout Canada, and in the meantime let us not forget to express gratitude to a kind Providence for the many blessings conferred upon our country."

ENGINE LEAPS BRIDGE.

Falls Into Creek But Passengers Have Miraculous Escape.

Pittsburg, Pa., April 29.—Two trainmen were killed and one hundred passengers had a thrilling escape from death in a wreck on the Wabash Railroad yesterday when the engine and one passenger coach of westbound train No. 27 left the tracks half a mile west of the Bridgeville Station, near here, and plunged into Chartier's Creek, forty feet below. Scores of people were saved by a circumstance which is now regarded as providential. The dead: Marion Boyd, engineman, Rooks Station; Frank McIsaacs, fireman, Barberton, O. The train was crossing a trestle when without warning the engine suddenly leaped from the rails and shot into the stream underneath, carrying the first coach with it. Luckily all the passengers were in the other coaches.

Turks Clash With Brigands.

Athens, April 29.—A detachment of Turkish troops and a band of Greek brigands had a sharp fight April 26 near Merihoven in Macedonia. The Turks' ultimately routed the raiders. The Greek chief, seven of his men and twenty Turks were killed.

Two Drowned While Fishing.

Binghamton, N. Y., April 29.—John Kelly and William Lee, while fishing in Otsego Lake Saturday night, were drowned. They started out in their boat, which had a small hole in it, and which gradually filled with water, until it went down.

Lords and Commons.

London, April 29.—According to The Daily Telegraph this Government's plan for dealing with conflicts between the House of Lords and the House of Commons will be a proposal that in cases of disagreement both Houses shall sit and vote together, the majority vote of the combined Houses deciding the dispute.

Sends Out Agitators.

Tangier, April 29.—The bandit Raisuli and the pretender, Bu Hamara, have sent out a number of clever semi-religious agitators to foment a revolt against the Sultan, who is accused of having sold Oudja to France. The crusade is likely to result in widespread rebellion.

Bole Holds Seat.

Winnipeg, Man., April 29.—The election petition against D. W. Bole, M.P., for Winnipeg, was dismissed by Judges Richards and Perkne on Saturday.

Do you enjoy Kidney Trouble?

It looks as if some people really enjoyed suffering with their Kidneys. Because they wont take Bu-Ju when they know it will cure them. How about YOU? You KNOW Bu-Ju will take away the pain, soothe the irritated nerves, neutralize uric acid, and make the Kidneys well and strong. YOU KNOW THIS. *Then why don't YOU take*

Bu-Ju
The Gentle Kidney Pill

52 Shirley Street,
Toronto, Ont., Feb. 10, 1906.

"I have used five boxes of your Bu-Ju and find it has done me a great deal of good. My Kidneys have troubled me for a long time—have been forced to get up as many as ten times in the night before I could go to sleep.

My first box of Bu-Ju convinced me that it was just the medicine for me.

You may use my name as recommending Bu-Ju, for I cannot say enough for it for troubles like mine."

Yours truly,
ALEX. BRODIE.

You can cure yourself easily at home. Simply take Bu-Ju regularly and faithfully, and a cure is certain. Moreover, it is guaranteed. For if Bu-Ju does not relieve and cure you, we will promptly refund the money.

50c. a box. At druggists, or sent direct.

FORCED TO JUMP FROM UPSTAIRS WINDOW

Narrow Escape From Midnight Blaze of Mrs. Vanzandt—House and Contents Consumed—Husband Lost $100 in Bills—Fire Alarm Box Refused to Work.

AN OLD LAND MARK GONE

A disastrous fire occurred at an early hour this morning on Lansdowne street, which completely destroyed the house, the greater portion of the contents, and from which one of the occupants narrowly escaped with her life. The house was owned by Mr. Jno. Haggart, auctioneer, and was one of the oldest landmarks in the southern part of the city. It was occupied by Mr. D. Vanzandt, who, in addition to the loss of furniture, was unfortunate enough to have $100 burned by the flames.

The fire began about 1.30 o'clock, presumably from the chimney, as shortly after it commenced the flames were seen to shoot through the roof. Mrs. Vanzandt barely escaped through an upstairs window, from which she was forced to jump to the ground. The exit by the stairway was rapidly cut off, making it necessary for her to jump for her life.

Mr. Vanzandt lost no time in getting to the nearest fire alarm box, which is situated at the corner of Perry and George streets, but here he found fate against him. The fire box refused to work, and he was forced to come to the C.P.R. station to send in an alarm.

The fire brigade were quickly on the spot, but by this time the flames had consumed the greater part of the building and furniture. The firemen were only able to save the piano and a couple of pieces of furniture.

Mr. Vanzandt had recently disposed of a horse, and had left the money in a drawer. This, which amounted to about $100, was also destroyed, and he escaped with nothing but some clothing which he wore.

The loss of the house, which was of timber, will amount to about $800, and the contents between four and five hundred dollars. It was situated on the old Bronle property, a short distance east of the Exhibition Grounds, and was an old landmark of the city.

SIGN BY-LAW WILL COME UP AGAIN

If Some of the Members of the Council Desire It—The Fire Escape By-law.

Whether the sign bylaw discussion will be re-opened to-night or not depends upon the members of the Council. If some of them want the matter brought up again it will be thrashed out once more, and if not it will come into force at once. The Council meets to-night in Committee of the Whole in the committee room, when, in addition to considerable routine business, there will be the fire escape bylaw and other matters to keep the city legislators busy.

WHAT IS GOING TO HAPPEN?

Lock Company Decides to Repaint Its Buildings and Put New Windows in Its Factory on Simcoe Street

The Peterborough Lock Manufacturing Company has had new windows placed in the whole front on the buildings on Simcoe street, and the side facing that street will be repainted. It is said that to meet this expense a reduction in the wages of the men will be made. At least that is what the men are afraid of to-day.

Mr. T. Fortye, the managing director, could not be seen to-day to verify or deny this report, and the public will have to await developments.

HORSE BROKE WARSAW BLACKSMITH'S LEG

Mr. Harry Clements Suffers From a Fracture Above the Knee.

Mr. Harry Clements, a Warsaw blacksmith, met with an accident the other day which resulted in the breaking of the right leg, near the ankle. He was leading a horse along the road in front of his shop, when the animal reared up and jumped on his leg, breaking it. His condition is not serious, however, and he is expected to soon be conducting his work again.

Bolivia: "The Land Of To-morrow"

Rev. F. J. Scott, Former Pastor of Murray Street Baptist Church, Writes Letter of Absorbing Interest, in Which He Describes His Six Weeks' Trip to South America and the Conditions He Met With There.

Every Building in Kingston, Jamaica, was Damaged by the earthquake. This is the statement made by Rev. F. J. Scott, who visited Kingston on his way to Bolivia, and spent a day there. Some strange freaks of the 'quake are described.

South America Socially and Mentally Inferior to the North—Procrastination the Dominating Feature of the Life of the Inhabitants of "The Land of To-morrow"—A Continent Rich in Promise for the Future.

The Examiner is pleased to publish to-day, for the benefit of its readers, a letter received from Rev. Freeman J. Scott, formerly pastor of the Murray street Baptist church, in this city, and now a missionary in Bolivia, South America. Mr. Scott, as those who read this will remember, resigned his pastorate of a progressive and prosperous church here, to accept the trying and, often, dangerous, lot of a missionary; how great the sacrifice was, may be judged—by inference, for no complaint is made—from Mr. Scott's letter, which was received on Saturday, having been considerably more than a month on the way.

The letter is as follows:

Oruro, Bolivia, March 18, 1907.

Editor Examiner,

Dear Sir,—Allow me, through the the columns of your paper to apprise my friends in Peterborough, of the safe arrival in Oruro, Bolivia, South America, of my wife, my son, and myself. Our trip was in many respects pleasant, but was exceptionally long, wearisome and trying. We were six weeks, one day and some hours, en route. We found in some places the tropical heat very oppressive. In the six weeks trip we tested every kind of climate. Such changes are supposed to be somewhat trying on the constitution, though we were not seriously affected.

We left New York on January 21st. Our first sight of land was the West Indies. It seemed very strange to find ourselves in a few days in a warm climate, where, on deck or on land, we were welcoming every breeze. We thought of the place far north, called Peterborough, where the people were shovelling coal and snow. By a strange perversity of nature, when we are too warm we think we would rather be too cold, and when we are too cold, we think we would rather be too warm.

We found the tropical West Indies very interesting. There is a glamour about the tropics that impresses a stranger greatly. The golden sunlight, the balmy air, the luxuriant and variegated vegetation, the stately palms, the golden fruits — oranges, bananas, etc., which in northern climes we prize so highly — the mountains, as they appeared in Cuba and Jamaica—all these combined to produce a charm, to which we gladly yielded ourselves captives. At night we passed the ever-to-be-renowned San Salvador, where Columbus made his initial landing. At the very point where it is supposed he and his men landed, there is a revolving light. As we beheld that light, and realized the importance of that discovery, and the history that has flowed from it; as we let imagination run forward to the future to behold ages yet unborn influenced by that discovery, and backward, to realize the emotional experiences of Columbus, strange emotions surged through our hearts. But some men have a humour that expresses itself even on very serious occasions. There was on board an editor from Detroit (are editors always funny?) and, said he, Columbus took this as a serious thing, but now they are making light of it."

Cuba was beautiful to behold, and we felt glad to see the land which has taken such a prominent place in the world's notice of late years. Our first stop was at Port Antonio—perhaps the most beautiful place we saw in the entire trip. A beautiful bay is there, surrounding

New Ontario Makes Rapid Strides Towards Material Prosperity

His Lordship Bishop Scollard, of the Diocese of Sault Ste. Marie, Visiting in the County for a Few Days—Tells of Conditions There

THE NEW CHURCHES BUILT

His Lordship Bishop Scollard, of the diocese of Sault Ste. Marie, is a visitor to the city to-day, on his way to Ennismore, where he will visit his father and mother, for a few days.

At St. Peter's Cathedral yesterday morning His Lordship preached at one of the services and his many friends in this parish were delighted to have the opportunity of hearing him again.

The work in the diocese over which he has charge, in the newer portions of the province is prospering. New churches are being erected in different parts of Algoma and Nipissing, and the membership of all the parishes is increasing. The population, which is increasing rapidly, is made up to a large extent of families from Quebec, and they are making excellent settlers. The mining operations are being carried on on an extensive scale, and agriculture, too, is making rapid strides, the opening up of mines and the increasingly active nature of the mining operations creating a demand for the products of the farm, and those who are engaged in this business are reaping satisfactory benefits.

Bishop Scollard still makes his home at North Bay, where he spent a number of years as parish priest.

He will remain in the city and in Ennismore visiting his relatives and His Lordship, Bishop O'Connor until Wednesday, when he will leave again for his home. His visit is purely personnal, no business matters being connected with it.

SCOTT'S COLLOSEUM
402 George Street
All New pictures to-night—don't forget change of pictures twice a week, Mondays and Thursdays
Admission 5 cents.

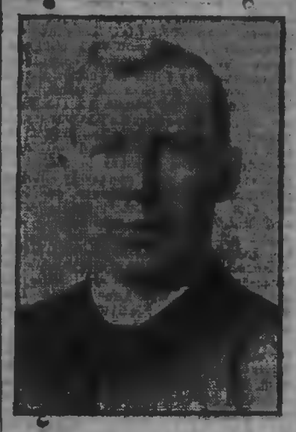
A GOLD LETTERED SIGN FOR THE OPERA HOUSE

Makes Very Attractive ther Font of the Theatre.

Messrs. J. J. Turner & Sons have erected an artistic new opera house sign above the doors of the theatre. The words "Grand Opera House" are written in raised gold letters on a green back ground, and on top an oval-top board. It presents an attractive appearance and greatly enhances the theatre front. A couple of tin posts for horses have also been installed in front of the opera house.

Will Donate Altar To New Catholic Church In South Of The City

BISHOP OF SAULT STE. MARIE VISITING AT THE BISHOP'S PALACE



HIS LORDSHIP BISHOP SCOLLARD
who Preached at St. Peter's Cathedral Yesterday Morning

St. Peter's T. A. S. Makes Generous Offer to Bishop O'Connor—Altar Will be Given to Cost in the Neighborhood of $1,000.

A VERY GEOERous OFFER

St. Peter's T. A. S. have made an offer to Bishop O'Connor and Father McColl to provide the altar for the new Catholic church, to be erected in the south end. A number of the members of the society waited upon His Lordship a week ago and asked that the honour of furnishing the altar be granted to the T. A. S.

Bishop O'Connor was pleased that the society had thought of the matter, and expressed his willingness that the altar should be provided by them. At the meeting yesterday two members finally decided to make arrangements for collecting the necessary funds. The society is in a flourishing condition and should not be long in making the payment. The altar will cost, at the very least, $1,000, and it is assured that it will be in keeping with the church and its furnishings.

This will be a splendid memorial of the success of the T.A.S., and it is needless to say that the gift is appreciated by the clergy and the parishioners.

EIGHTEENTH ANNIVERSARY OF HIS ORDINATION

His Lordship, Bishop O'Connor Has Been 18 Years Bishop of Peterborough.

On Wednesday, May 1st, His Lordship Bishop O'Connor, will celebrate the 18th anniversary of his elevation to the dignity of the episcopate. His labours in this diocese have been featured by progress on every hand. Many institutions and churches have been built under his administration and the population has rapidly increased, this city being an example of the general advancement manifested in the whole diocese. The late Bishop Jamot was the first to occupy a Bishop's chair in Peterborough, and at his death, Bishop Dowling, now of London, succeeded him.

Bishop O'Connor has been Bishop of Peterborough for 18 years and was formerly a dean of the diocese of Toronto, being pastor of the church in Barrie. On Wednesday he will officiate at a High Mass and as many of the people as possible are expected to attend.

Remember the Y. L. M. B. Concert at St. Andrew's Hall on Tuesday Evening, April 29th, 1907. Tickets 25 cents. 2d100

$165,000 WORTH OF DEBENTURES

Of This Amount $60,000 Will be for New Collegiate Institute—Balance for Last Year's Work.

It is understood that the City will shortly offer for sale $165,000 worth of debentures. These debentures will bear interest at four per cent. Of this amount $104,000 is for last year's work, the greater portion being for local improvements, and the balance, $61,000 is for the new Collegiate Institute.

ADVANCE IN THE PRICE OF THE LOCAL HOGS

Has Raised to $6.50 Per Cwt. Since Last Week.

Since last week the price of hogs has risen 25c. on the hundred. On Friday hogs sold at the local market at $6.25 per cwt., and to-day local buyers were paying $6.50 for them. This morning's market was rather brisk and several hogs were weighed before 11 o'clock.

ITALIAN THREW GLASS

Was Struck by Nicholas Renzetti, A Fellow Countryman, in a Hotel—Was After Revenge for Wrongs of the Past.

THREE STITCHES REQUIRED

With a beer tumbler for a weapon, Nicholas Renzetti, an Italian, struck Donato Cascino of Lakefield this morning in one of the hotels inflicting some severe injuries on his face. Cascino with a friend stepped into the hotel to have a social glass of beer, when Renzetti, it is stated, interfered in the conversation. He accepted the hospitality of his Lakefield countryman, but as soon as he had drained the glass he threw it at the face of the other with such force that it broke and cut Cascino in several places.

The injured man was taken to Dr. Greer's office where it was found that he had been wounded above the eye and on the side of the nose. Three stitches were necessary to close the cuts.

It is stated that Renzetti's assault was made with a revengeful spirit in order to get even with Cascino for something he claimed the latter had done to his detriment.

CHOIR COMPLAINS OF SHABBY TREATMENT

Members of St. Paul's Choir Are Not Pleased With Railway Company's Transportation Facilities.

The members of St. Paul's choir, which gave a concert in Norwood, on Friday night, are complaining of the treatment accorded them by the railway company, from which they engaged a special train to convey them to that town and return. They say that the coach was attached to a freight train and it stopped about half a mile from the station of Norwood, and the vocalists had to walk from there to the hall, where the concert was to be given, arriving there about nine o'clock, the audience having been waiting for them since eight o'clock. Coming home, the coach was again attached to a freight, and considerably more than an hour was occupied in the return journey. When the train arrived at Peterborough the coach in which about fifty members of the choir and their friends were, was left at the east end of the bridge, while the engine took water, and again a delay was caused.

Music and Drama

SHEA COMPANY HERE

The Thomas E. Shea Company, who present the Bells, the play that made Sir Henry Irving famous, to-night at the Grand, arrived in the city to-day at noon. With them was a car of scenery and costumes and the scenic effects promise to be the most sumptuous ever seen in this city. The Company recently filled a week's engagement with great success in Toronto.

T. A. S. PICNIC TO BE HELD ON DOMINION DAY

Promises of a Greater Crowd and With Good Weather an Excellent Time

At a meeting of the T.A.S. yesterday it was decided that the annual picnic will be held this year the same as last year. That is, the date will be Dominion Day, July 1st, and to the same place, T.A.S. Point. The committee was empowered to go ahead and make further arrangements and to provide ample steamer accommodation as it is expected that the crowd this year will be even greater than that of last year. The excursion committee from their experience of last year are prepared to provide more pleasure than that of their first attempt last Dominion Day.

The idea of making the trip a short one proved successful and a greater crowd is expected and an excellent time is promised.

OMEMEE PREACHER AT ST. LUKE'S CHURCH

Rev. J. H. Teney, Rector of Christ Church Was the Preacher at Both Services Yesterday

Rev. J. H. Teney, rector of Christ church, Omemee, preached at St. Luke's church yesterday. His sermon at the morning service was on "The Incarnation of the Son of God" and at the evening service on "The Atonement" Rev. E. A. Langfeldt was not well enough to preach, but took some part in both the morning and evening services.

A Revival Of The Men's Interest In The Church; Male Choir Led Singing

Interesting Service Was Held in Charlotte Street Methodist Church Last Night—Male Choir—Special Sermon Preached to Young Men.

HEROES ARE DYING OUT

Men of To-day Are Made of Softer Fibre Than Those of the Past, So Says Pastor of Charlotte Street Church—Young Men of Courage Needed.

Are men becoming more, or less, interested in the work of the churches? The evidence is conflicting. The complaint is made in some quarters that men are leaving the observance of the ordinances of the church to women, but, in pleasing contradiction to this alleged state of lethargicity on the part of the men, is the fact that at the service in Charlotte Street Methodist Church last night the musical portion was led by a choir of male voices, and, not only was the service unique by reason of this fact, but their contributions to it were of a quality that gave evidence of the possession of much musical ability on the part of those taking part, as well as careful and systematic preliminary training, for which credit is due and must be given in large measure to Miss Clarry, the efficient organist and choir leader of the church.

The members of the male choir, who wore surplices, led the singing of the hymns and, in addition, gave three independent numbers, "Loyalty to Christ" and "He's Knocking," which were sung as glorious and a quartette and chorus, "Cling a little Longer," those singing in the quartette being Messrs. Frost, Clarke, Harmer and LeBer.

The male membership of the regular choir was augmented by a large number of members of the congregation, and their work was most favourably commented upon by the large congregation which filled the church.

Special Sermon

The sermon, too, was of a special character. It was preached by the pastor, and was directed especially to the young men, upon whom, he said, the responsibility for the salvation of the church—if it was to be saved—rested.

The story on which the sermon was based was that of Isaiah, who, the text stated, went down and slew a lion in the pit in time of snow.

Courage Needed

The quality of courage, as exemplified in the hero of the story, was emphasized, and its importance to the young man of to-day was pointed out. Moral courage was referred to as a quality possessed by two few modern young men, in spite of the fact that the present time is one when men of moral courage are greatly in demand. The speaker stated that the best positions in the world—and by best positions he meant the best in the best sense—were going begging for young men to fill them. A Y.M.C.A. secretary had informed him that there were 300 positions in that branch of work unfilled because the men were not available. Last year the Methodist Church had found it necessary to send a man to England to secure fifty young men for work in the Canadian Northwest, and in Ontario the same scarcity was being felt. In this district there was one station in which no Methodist services are being held because the man could not be secured. The greater opportunities for making money in other callings was given as the cause, why comparatively few young men were taking up the work of the ministry.

There is, he remarked, no scarcity of young men; the trouble is that they are all on a level—or nearly so—they are content to stay down.

Heroes Dying out

The speakers opinion was that heroes are dying out, and, as evidence, referred to the early days of Methodism, when, closely following the pioneer settlers of Canada, there came the men with the saddle bags—the itinerant Methodist preachers—who cheerfully took whatever fell to their lot, and thought little or nothing of the pecuniary reward for their work. "We, to-day," said he, "are made of softer mould, and those following us are softer still."

Upon the young men he declared, devolved the responsibility for stamping out the evils of intemperance and social impurity; and to them the world looked for the salvation of the church if it was to be saved.

Nurse Tells Of Eczema Cure

Mrs. C. Stanley Jones, professional nurse, 283, Simcoe street, Toronto, writes: "In my occupation as nurse I have come across many cases in which Dr. Chase's Ointment has been used with extraordinary results. One case is that of a sixteen months old child who was cured of scald head and another that of a woman cured of eczema on the face after the doctors had given her up."

CANCELLED CHEQUE 25 YEARS OLD IS FOUND

On Saturday Mr. Chris. Wood, of the Bank of Commerce, picked up a cancelled cheque on Bethune street, which has some interest because of its age. It was dated June 16th, 1882, twenty-five years ago. The amount of the cheque was $6,001.50, and it was signed by Geo. Dunsford, who, in his life time was known well to the citizens of Peterborough. The cheque was on the Bank of Commerce and was made payable to "note, self and Pousette or bearer," and was not endorsed.

FIRE BELLS REFUSED TO WORK

Only Six of the Firemen Heard the Alarm Last Night—A most Serious Condition of Affairs.

THEY SHOULD BE REPAIRED

The fire this morning, which burned down Mr. Dan. Van Zant's house, revealed a very serious state of affairs, as only six members of the fire brigade were present at the fire. The fault is not the brigade's, the small turnout being due to defective alarm system in the firemen's houses. In many cases the bells in the residences of the firemen did not ring this morning, with the result that the fire ladies did not know there was a fire. It is said that the authorities lately have not bothered fixing the fire alarm system when it get out of order, because the new system is to be installed shortly.

In the meantime a serious fire may occur and if the bells act, or rather refuse to act, as they did this morning, a great deal of damage might be done, while two-thirds of the brigade were in slumberland. The central alarm is not sufficient to awaken those who do not live near it and with the private alarm out of order the brigade is seriously handicapped.

This morning, to make matters worse, the box at the corner of George and Perry streets refused to work and a man had to run as far as the C. P. R. station to give the alarm.

OBITUARY

VIOLETTA DUNFORD

The funeral of the late Violetta Dunford, the 13-year-old daughter of George A. Dunford, of North Douro, was held on Friday of last week to St. Mark's Cemetery, Warsaw. The death occurred on Wednesday after an illness of only three days' duration, from an attack of pneumonia.

FORMER SMITH LADY DIED AT PORT HOPE

Mrs. Hugh Walker, Whose Maiden Name Was Fitzgerald Passed Away Last Night.

Many Peterborough county friends will regret to learn of the death of Mrs. Hugh Walker, who passed away at her home at Welcome, Port Hope, last night at the ripe old age of 73 years. The deceased, whose maiden name was Fitzgerald, was born on the old Fitzgerald farm on the 7th line of Smith, near Lakefield, and has yet many relatives in that locality. Her husband predeceased her some ten or twelve years. Surviving her are five brothers and two sisters. They are Messrs. Geo. W., London street; Alex., East City, Gerald and Thos., of Lakefield, Edward, of Smith; Mrs. H. Devine, Peterborough, and Mrs. Murphy, of Bobcaygeon. Eight children, four sons and four daughters, are left to mourn the mother's loss. The funeral will be held on Wednesday afternoon, and the burial will take place in the cemetery at Welcome.

BUY YOUR DOGS A TAG; GIVE THEM LICENSE TO LIVE

Chief Hoezel Says There Are 863 Dogs Still Without the Little Metal Stamp

There are just 863 dogs that must be tagged by to-morrow night or they will be sent to the "happy hunting grounds." Chief Hoezel remarked to-day that 137 tags have been purchased already and there are at least 1,000 in this city, so many the ranks are being gradually thinned out during the past two weeks.

Beginning with Wednesday there are two alternatives for the owners. Either they must pay a greater sum and may be summoned to appear at police court or the dogs will be disposed of with warm lead. The chief has given sufficient warning and the people will have to suffer any consequences.

One Section—640 Acres

Land for Sale in Alberta

One fine section of good land, about **nine miles from the Town of Bantrerly on the Canadian Northern Railway.** The district is first-class, **settled by Americans, Scotch and English. There are no Galicians or Doukhobers in the immediate vicinity, and the country round and about is filling up fast.** The class of people coming into that locality is good. The farmer owning the place adjoining this section threshed about 9,000 bushels of wheat last year. The soil is not quite so heavy, as in the Edmonton district and on that account is considered better and the crops are considerably earlier. On this property there is a fine creek. About three-quarters of the section is open prairie, the remainder having some brush upon it. Price $12.50 per acre, $3,000 cash, balance may be arranged mortgage at 6%. This is an excellent chance for two young enterprising farmers, desiring to locate in the West, to divide up the section between them and have a first class Farm. Further particulars may be had at the **EXAMINER OFFICE**, where full information may be had.

FISH AND BRAINS

Whether the theory of fish being a brain food and their consumption conducing to mental pre-eminence, is founded on fact or fiction, the fact remains that our fishery region of the Dominion, provides more men if brains than any similar expanse of the whole tremendous area to which it belongs. The Maritime Provinces of Canada have furnished to the intellectual and political life of Canada, more pre-eminently clever and capable men in proportion to population, than all the rest of the Dominion taken together. This fact is further emphasized by the circumstance of another Maritime Province man, this time a Haligonian, being chosen to fill the important and difficult post of President of the Toronto University. It we knew of no other qualification the circumstance of his birth, in the province by the sounding sea, is prima facie evidence that he was born with brains to begin with and that by virtue of such an equipment, he has qualified himself by putting his brains to good use. On the roster of eminently clever Canadians who have distinguished themselves by service to the state or by achievement in literary or scholastic fields, many names of Maritime Provinces men appear. Among these names a few suggest themselves off hand, including, Hon. Joseph Howe, one of the most brilliant orators and estute statesmen of our history; Judge Haliburton, "Sam Slick," who was a pioneer in the class of literature which he inaugurated and which has never yet been surpassed; Sir Charles Tupper, still living, hale and intellectually alert, at the age of eighty-six years; Sir Leonard Tilley, another father of Confederation; Sir John Thompson, one of the most eminent of Canadian public men, in brains, ability and quality of character. We have also Hon. W. S. Fielding, Minister of Finance; Hon. Geo. E. Foster, an ex-Finance Minister; the late Hon. A. G. Blair; Hon. H. R. Emmerson, late Minister Railways and Canals; the late Hon. John Costigan, Hon. J. W. Longley, the late Sir Louis Davies, Sir F. W. Borden, Minister of Militia; Mr. R. L. Borden, leader of the Conservative Opposition in the House of Commons. Outside of politics the late Principal Grant was an intellectual stalwart, and Roberts, Dr. Stockton, Dr. Weldon and others who might be named. This list is one that merely suggested itself in the process of writing, and by a little research might be enlarged to more fully justify the claim that the piscatorial provinces of the Dominion in proportion to area and population have produced more men of brains, great ability and high character and prominence in public life and fields of intellectual achievement than any other part of the Dominion. The very fact that a native product of one of the ichthyophagic provinces has been made a President of the provincial University has, apart from other considerations, of itself a sort of satisfying effect.

CANADA FIRST

The appointment of a president of Toronto University is a matter of capital interest to the people of this Province. Not only is it a matter of vital concern to those directly interested in the academic functions the Provincial university performs, but to the people at large, since the Province has a large sum invested in it, there having been guaranteed only recently $2,000,000, to be devoted to the educational purposes of the university. The selection of Robert A. Falconer, M.A., B.D., D.D., LL.D., of Halifax, by the Board of Governors, as president, is gratifying, since all authorities agree that, in the matter of scholarship and special fitness for the position, the right man has been taken; and it is an additional reason for gratification that, contrary to a practice that has been somewhat too closely followed, a native-born Canadian has been given preferance. This is both a sign of growing national sentiment, and constitutes a proper recognition of the growth of scholarship and culture among Canadians. There is no doubt of the new president's scholarship. Dr. Falconer has achieved important scholastic distinction on both sides of the Atlantic. He is universally acknowledged to be possessed of the administrative ability and cognate talents necessary to his position—breadth of view, tact, sympathy, and personal knowledge of the character, ambitions and aspirations of the student constituency he will represent in his new capacity. His large, educational sympathies will enable him to hold the balance of importance as between the respective claims and importance of the several departments. He has been a particularly outstanding, intellectual and scholarly figure in that region of intellectual giants, the Maritime Provinces. He is in the prime of life, being forty years of age, and there is every reason to believe that, from whatever point of view — indeed, from all points of view combined — the selection of Dr. Falconer as president of the Provincial University is a happy one, not one of the least gratifying features being the recognition of the principle, Canada First.

"BOLIVIA THE LAND OF TO-MORROW"

Continued from 7th page.

ed on three sides by mountains. Tropical vegetation is very conspicuous and the whole scene is entrancing. We feared the boat, which usually stops at Kingston, would not on this trip, on account of the earthquake, but our fears were not realized, and in due time we reached the port of Jamaica. Its surroundings are grand and charming. The bay affords the only good harbour in Jamaica; therefore Kingston must be rebuilt. Back from the city are the mountains, which both from within and without the city are very majestic and picturesque. Tropical vegetation abounds in the place. We arrived there Saturday evening before dark, and stayed until Sunday afternoon, so that we had ample time to view the city, which had been so sorely stricken just eleven days before. We drove over much of the city—a city of 50,000 people—and not one house in our miles of drive did we see undamaged by the earthquake. The fire swept over part of the ruins, and made the destruction seem more complete; but the city was ruined anyway by the earthquake. It shook the country for miles around. I understand the only houses in the entire city that were undamaged were the miserable huts of some negroes, huts that were of no commercial or aesthetic value. As we saw vast edifices, and every edifice, shaken and seriously damaged, we realized the great force the earthquake must have been. Some buildings that at first sight appeared intact, were found on closer approach to be shattered beyond repair—the front standing but the sides and back down. We saw that some strange freaks were performed. Sometimes the outside walls were down, exposing to view the interior of the rooms in comparative order. Sometimes the rooms were in the greatest disorder, tables, overturned, chairs broken—another evidence of the awful force of the 'quake. A gentleman told me that four times, I think it was, the 'quakes knocked him down, as he was in the middle of the street. Our only wonder was that more people had not been killed. We felt that the Providence, which had caused the earthquake, had bounded its destruction. We saw the homeless crowds, in improvised hovels in parks, etc., and we thought that while tropical climes have their fascinations, northern climes, as e.g., our fair Canada, are free from such dreadful cataclysms.

One thing that remains to be referred to, is the promptness with which order was restored. Though the Governor, whom I had the the pleasure of seeing, may have erred in his treatment of the U. S. Admiral, British rule promptly restored perfect order. Late at night I walked the ruined streets with two other men, and there was no sign of the slightest disorder in the city, only soldiers would occasionally demand name or business. In all our travel we have felt the advantage and honour of belonging to the Empire, whose prestige and good and honourable name in foreign lands are no dream, but palpable realities.

Leaving Jamaica, "the black man's island," we crossed the Caribbean Sea, and came to Colon, at the isthmus — a dirty, negro town. We then took train on the Panama R.R., and crossed a distance of 50 miles to Panama, on the Pacific Coast. Here, as at Colon, we found ourselves in a foreign land. Panama is a better, brighter city than Colon, though it too, is dirty, and quaint. It is Spanish in speech and character, and tropical in heat. Here we had to stay some days before we could get a Pacific boat. Crossing the isthmus we saw the great works on the Panama Canal, which will mean so much to the commerce of the world. In Kingston we felt ourselves in a socially and morally inferior climate, and at the Isthmus, where we were out of British territory, the inferiority of the civilization was very evident—painfully so.

Taking steamer, we went down the west coast of South America. From Panama the trip was very tedious. The boat stopped at many ports. This was how so much time was consumed. The delay was very trying. At Guayaquil, Ecquador, where the climate was almost insufferably hot, and where yellow fever was raging, and millions of mosquitoes biting, we had to stay for some days. All down this coast we realized ourselves to be amid foreign surroundings. The English language was a comparative rarity in Panama, and down the coast. On board Mrs. Scott was the only English-speaking lady. Some commercial men of different nationalities had learned English for commercial purposes.

The western coast of South America, so far as we voyaged, was in general very uninviting to the eye. It was rugged, but almost totally barren. However, by a strange irony, this same barren coast produces the great bulk of the fertilizing material of the world. The absence of rain enables the promoters of the industry to prepare the nitrate whict farmers sow to enrich their lands. Along the coast of Chili there were a few towns very picturesque. Small towns nestled at the water's edge while immediately behind them rose precipitous mountains thousands of feet high. At last we reached our final port, Autofagasta, a busy commercial place, but quaint, premitive in many respects to the extreme, dirty, barren, sandy, and with a crude populace in general. Here we had to wait two nights and a day for a train inland into Bolivia. At Autofagasta, and throughout all the foreign part of the trip, we had considerable anxiety and difficulty at times because we did not know the Spanish language. There was considerable red tape to observe, and much business to be done in regard to our baggage. We generally were able to find someone who knew, both English and Spanish to assist us—but nevertheless the difficulties were great, for the inferiority of the civilization of this continent does not always reassure one as to the safety of one's baggage, at least.

At last we began our inland journey. The railway was narrow gauge, and the cars somewhat after the crude form of North American cars. We travelled during the day, and had to put up in towns at night. Though we were driving most of the time, in altitude, the first part of the three days' inland journey was comparatively hot. The country through which we passed was almost entirely barren. We crossed vast plains, and came repeatedly into the immediate vicinity of snow-capped peaks. Nevertheless, this same barren country represents vast wealth. We passed rich lakes of borax and vast hills where it was evident, even to the unskilled, in mining enterprises, that there was great wealth in copper. We saw extensive mining plants—or plants for the preparation of nitrate. Bolivia especially, I believe, of South American countries, is rich in minerals. I wish I could describe the weird towns and strange hotels at which we stayed. The towns were quite barren of vegetation, streets dirty, houses low — and all after one pattern. On the second day we reached the highest point on the road. At this point—at the very point—many get the mountain-sickness. I will not say whether anyone of us was affected here or not, but on we pushed, and the next day, at 5.30 p.m., we reached our destination—Oruro, the Light, treeless, barren, quaint town of 15,000 people. Were people ever glad to reach their destination? Then we were.

Our impression of South America is that, potentially, it is a great land. It is known as the "Land of To-morrow." It needs much development, however — commercially, politically, educationally and religiously. Foreigners are needed here to improve every one of these departments of life. Missionaries in all these departments are needed. The native character will not of itself rise to achieve rapid development. In the hopefulness of the country, it is called the "Land of To-morrow," but in a more unworthy sense it may be so called, for the representative native always says "to-morrow," manana, and that spirit of inactivity, indifference, procrastination, is inimical to rapid progress. Foreigners are seeing the advantages here, and are coming in in increasing numbers. They will teach the natives "a more excellent way."

Notwithstanding this "to-morrow" spirit just referred to, there is, in general, much native industriousness in the country. The people are mostly Indians and half-breeds (Spanish and Indian). They are, mentally, not an inferior people—that is, their natural mentality is not inferior. The Indians are more industrious than those of North America, and keep their farms, and work in the mines. They are descendants of the famous Incas, whose civilization before Columbus' discovery was higher than the Indian civilization of to-day. We saw many Indians on the way inland and grieved for their evidently abject condition. Centuries of oppression have made them sad wrecks. There is much squalor in the land. Indians and half-breeds constitute the great mass of population in all the cities. I think. They know little of sanitary precautions. Their homes are often the filthiest hovels, and their persons are no better than their homes. As one walks the streets and enters the markets, the filth, vulgarity and indecency of the people are often unpleasantly obtrusive. Their dresses are very crude, in keeping with their general manner of life. They are exceedingly ignorant and very superstitious. Marriage is often considered an unnecessary form to permit a man and woman to live together. The great majority of people in the land are illegitimate; stealing is very prevalent; lies are more often told that the truth. The moral and religious condition of the country is rotten to the very core, and positively defies anything like an adequate pen description. It must be seen and known to be realized. What above all things the people need is the gospel of Jesus Christ, which can wash them from the guilt and save them from the power of sin. Material improvements will then follow the more important spiritual improvements.

Politically, the country is in a better state than it was a few years ago. Revolutions have been a bane to the land, but the Government is more stable of late. Progressive laws have been passed, encouragement given to railways and education; liberty of worship has been granted, and, in many respects, the legislators of Bolivia are showing an awakened and progressive spirit.

We might add that there is, in Bolivia, the so-called "upper class." This class is in many ways greatly superior to the class I have described, and which constitutes the great mass of the population. The better class of people are educated, and have attained to some refinement. Unfortunately, they are greatly in the minority.

Mrs. Scott and I are very grateful that we and our infant son of now eight months stood the journey well. We intend to stay in Oruro for some months with our pioneer missionary to this country, Rev. A. B. Reekie, until we learn the language. Then we expect to go to some other city. Mr. Reekie has a school here and does much gospel work in and out of it. He has secured a large property on a hill overlooking the city—an ideal spot for an educational institution. For residence, and as a site for a college, this is no doubt the best location in the city. Here we are living in the college building, which some day, we believe, will be a university. Any way we look, the scene is beautiful. The whole city is in view, with distant plains and mountains. The only thing we miss in the way of beautiful landscape is the beautiful vegetation of home. But the air is very exhilarating, the climate salubrious for the majority of people, and the sunshine is very tenacious and resplendent. The climate is temperate, and so far we have not suffered at all, either from heat or cold. The winter at Oruro is a little cooler than at this season of the year, but even then the weather is not severe. The natives never burn fuel to heat their homes.

Have I imposed upon your space, Mr. Editor? I have dared to do so, believing that you and your readers would be interested in learning of the conditions I have described. Much kindness was shown us in Peterborough, and we felt that we were not presuming in believing that personal interest would not find this account too long. We have the kindest remembrances of Peterborough, and of the church we laboured with, and of friends, and in all our future days these remembrances will prove to us a joy and strength.

Yours truly,
FREEMAN J. SCOTT.

SPECIALS IN

Go-Carts and Carriages

For one week we will give a reduction of 10 per cent on all GO-CARTS AND CARRIAGES in stock. This means that the price we are asking you for these will be only a slight margin on the cost. Call and examine our stock.

R. J. SODEN, 369 George St.

PREACHED SERMON ON TEMPERANCE

Rev. Dr. Crothers Last Night at George Street—Special Song Service

There was a large congregation at the George street Methodist church last night, when Rev. Dr. Crothers preached a special sermon on the Temperance and Moral Reform Work of the Church, paying particular attention to the temperance problem. There was a special song service by the choir.

Rev. Dr. Crothers referred to the great harm done by the liquor traffic, which, he said, was the greatest obstacle in the way of the church. Statistics were given to show the vast amount of money that was, the said, wasted on liquor every year. In Canada alone over $40,000,000 was spent in a year. Drink not only wasted a man's substance, but it had other more serious effects and in support of this the speaker quoted from well known Canadians, who spoke of the evil it caused.

The speaker strongly denounced the statement, "Let drink alone and it will let you alone." It would not let people alone, but they had to endure passing through crowds of hoodlums chewing vile tobacco on the streets and insulting passers by, because of the liquor traffic.

The speaker stated that progress was being made along the lines of temperance, and gave figures which showed that the number of licenses was on the decrease.

The choir gave a splendid rendition of Maunder's "Magnificat," while during the service Mr. Sid. Mitchell sang in excellent voice "The Gates of Dawn" by Schnecker. Mr. Freeland was heard to great advantage in a solo during the offering.

MR. EARLE ON YEAR'S TRIP TO COAST

Will Go to Vancouver and Will Visit Relatives En Route—Has Sons in Winnipeg

This morning Mr. Barton Earle left on the 8 o'clock train on a trip to the Pacific Coast. Mr. Earle will probably take a year for the trip, and will visit a number of relatives in different cities in Western Canada. He has four sons in Winnipeg, one of them being head of the stores department of the C.P.R., and another is manager of two departments in Eaton's store.

On Saturday night a few of Mr. Earle's friends gathered with him for a farewell banquet prior to his departure.

EVANGELISTIC BAND CONDUCTED MEETING

An Impressive Service Was Held Yesterday Afternoon at the Y.M.C.A.

Though the fine weather yesterday had the effect of lessening the attendance at the evangelistic meeting for men at the Y.M.C.A. on Sunday at 4 o'clock, yet the meeting was a very impressive one. The Evangelistic Band had charge and several of the members spoke on the theme "What to Seek First."

Miss Chasty sang a solo in a very impressive manner.

Health And Vitality For Old People

As old age creeps on vitality is lowered, the heart beats more slowly, the blood becomes more thin and watery, and the power of resistance is lowered. It is the old people above all others who require the new life and energy which come with the use of Dr. Chase's Nerve Food. Thousands of old people depend on this treatment, because it calms and quiets the nerves, gradually and certainly enriches the blood, builds up the system and instils new life and vigour into their shrivelled arteries.

Seasonable Information About Low Priced Homes

My "Western Avenue" subdivision is one of the prettiest blocks in or about the city and adjoins the Sandstone Brick Co's. grounds, not more than fifteen minutes walk from the Electric, Carriage and Shovel Factories. Three minutes from school and corner where car line must pass to river.

The Large Blocks of 6 Lots are now surveyed, staked off, plan made and registered. Lots sold, orders received and all arrangements made to commence building not later than Tuesday next, weather permitting.

Although my prices and terms for Blocks, $10 cash and $5 per month letter them within the reach of all, man or woman, I have decided to sell a few single Lots for $75 each on easy terms, for a few days only. I will build a neat and substantial Cottage 14 story to cost about $650, also on easy terms. Very little in addition to what you are now paying your landlord will make you a well off landlord yourself. A personal interview will give you a better understanding, and and do not forget that it means money for you. 100 acre Farm for sale, exchange or rent cheap.

THE STRANGERS' TEA WAS WELL ATTENDED

An Interesting Hour Spent at the Y.M.C.A. Yesterday—Many New Comers Welcomed to the City

The monthly strangers' Tea at the Y.M.C.A. yesterday afternoon was attended by a goodly number of new comers to the city.

Mr. R. E. Harding presided over the "introductions."

The tea was provided by the Ladies of St. John's church. Mesdames Best and Gliddon were the committee in charge.

PROMINENT RESIDENT OF KINMOUNT DEAD

Mr. H. Graham, a Brother of Mr. Wm. Graham, of Smith, Passed Away After Long Illness

A despatch dated Kinmount, April 26th, states that Mr. H. Graham, a well-known man in the counties of North Victoria and Haliburton, and brother of Mr. Wm. Graham, well known and highly respected resident of Smith, and brother of Mr. John Graham, Fenelon Falls, died the previous Thursday. He had been ill for about seven months. Thirty years ago he and his family came here from Fenelon Falls. In 1900 he moved to Toronto, but returned in about two years. Deceased was interested in the Kinmount Creamery, and also had been a merchant. Much of his energy was directed in behalf of the Baptist denomination, and he was successful in establishing a church in this village. His politics were Liberal, and he was convenor of a number of political gatherings. Deceased was 73 years of age, and was born in Quebec. The funeral was held last Saturday, many coming long distances to be present at the last ceremonies.

A Tamarac Cough Cure

We like to hear people talk about this remedy, for every one who tries it speaks well of it.

It soothes the inflamed bronchial tubes.

It stops the tickle.

It does not disturb the stomach like most Cough remedies.

—Two Sizes—

Family Size 50c. Regular Size 25c.

Your money back if you ever tried a better Cough Remedy.

ITALY AND ARMAMENTS.

Attitudes of Powers At Coming Hague Peace Conference.

Rome, April 29.—The discussion that has been going on concerning the Italian proposition of the limitation of armaments has served in a measure to elucidate the attitudes of the various powers on this subject.

Great Britain, which is the only country to send a Minister of Foreign Affairs to the conference, is in favor of the discussion, and in this she is thoroughly supported by Spain.

Russia, while insisting on the discussion of its own program of April 19, 1903, agrees with Germany and Austria on the question of armament to the point to referring to it in official documents as "An entente," but Russia is favorable to any step that is likely to result in a correct and reasonable solution of the matter.

Germany and Austria do not favor the limitation of armaments; they will, however, permit the presentation of the proposal, although they are not willing to participate in its discussion.

France, there is reason to believe, is of the opinion that here exists international as well as inter-nation reasons against limitation, but she will allow the presentation of the question She has not yet decided whether to participate in the discussion or not.

The situation of Italy is delicate and difficult. The general opinion is in favor of limitation, but Germany has called upon her to fulfil the duties of an ally. There is no desire to have a repetition of the Algeciras incident when rightly or wrongly, Germany accused Italy of having deserted her. Consequently Italy is very much interested in bringing about an understanding on this subject prior to the opening of the conference.

POLICE OUTWITTED.

Gained Bunch of Feathers Only as Result of Raid.

Hamilton, April 29.—The police have a table and a bunch of chicken feathers carefully locked up at No. 3 police station. That is all they got out of a Sunday morning raid on a shed on West King street, near the brickyards. There was a gang of about 60 in the vicinity of the shed, but they got wind of the coming of the police and got out before the police arrived. The officers captured a table and some other paraphernalia, and some chicken feathers. They regard the find as prima facie evidence that there had been gambling and a chicken fight in progress before their arrival. They failed to secure any names.

ENGINE BOILER BURSTS.

Three Trainmen Hurled to Death—Others Injured.

Ofallon, Mo., April 29.—While a freight locomotive on the Wabash road, drawing a caboose, was running at high speed near here Saturday, the boiler of the engine exploded, killing three trainmen, injuring two others seriously and wrecking the locomotive and caboose. Sections of the locomotive demolished the caboose and killed a brakeman. The engineer and firemen were hurled, with parts of the engine and tender, 150 feet from the track. The cause of the explosion is not known.

Rupture In Russ Cabinet.

St. Petersburg, April 29.—The lack of harmony between Premier Stolypin and the reactionary wing of the Cabinet culminated last week in an almost open rupture and a reorganization of the members appears imminent.

Comptroller of the Empire Schwane Lach, a reactionary Cabinet member, who has been engaged heart and soul in the campaign for the immediate dissolution of the Duma, has already received an intimation that his resignation was desired. He has, however, appealed to the Emperor, declaring he would resign only on the express command of His Majesty. He still retains his portfolio, although he is no longer admitted to the confidence of the Premier.

The reorganization of the Cabinet, if carried out, would bring no change in policy. The discordant elements would be eliminated and nothing more.

Scant Courtesy to Peasants.

St. Petersburg, April 29.—The deputation of Conservative peasant members of the Lower House of Parliament was received by the Emperor yesterday at Tsarskoe-Selo, and returned in a disappointed mood at the scant ceremony with which they were received.

They were bunched in a big delegation of military men and Constitutional Democrats, and were greeted with the usual perfunctionary expressions of His Majesty's pleasure at meeting his subjects.

The Emperor did not give the spokesman of the peasant delegation an opportunity to deliver the loyal speech which he had prepared,

Angry Mob Fight Workers.

Cleveland, O., April 29.—The first blood was shed Saturday in the trouble between the American Shipbuilding Co. and its striking employes. Three hundred angry men and women waited at the gates for the non-union men to leave. A fight ensued when the workers came out, in which several men were injured, one perhaps fatally. A patrol wagon loaded with police arrived in time to avert a dangerous riot. John Marion, a strike-breaker, the man most seriously injured, was taken to his home. He says he was attacked by several men. He may die.

Must Serve Life Sentence.

Binghamton, N. Y., April 29.—Frank Miner, who was convicted Wednesday of murder in the second degree for the killing of James A. Tobey, on the night of Oct. 24, 1906, was sentenced on Saturday to Auburn prison for life.

Mysterious Disappearance.

Belleville, April 29.—E. B. Davis, a well-known mining man, who has been carrying on operations in North Hastings, has disappeared. Some time ago he left Madoc for the Bannockburn mines, and before going gave a valuable diamond to James Cockram, proprietor of the St. Lawrence Hall, to keep for him. Since then he has not been seen. It is feared he has met with foul play.

FURNACE SET ALIGHT.

Fire On Pier Endangers Lives of Many Workmen.

New York, April 29.—Fire on one of the export piers at the foot of North 12th street, Brooklyn, on Saturday did about $100,000 damage and endangered the lives of several score of workmen, employed in the vicinity. Two men leaped into the bay to escape the flames. They were rescued.

When the fire broke out, the pier contained a large number of barres of petroleum, and numbers of the employes began throwing cases into the river. As the flames spread they hurried to lighters and were towed out of danger.

Burning oil flowed into the bay, and the fire spread over the water for some distance. One lighter caught fire as the oil spread over the waters, and was partly destroyed. Several persons were slightly injured.

Charge Against Minister.

Cayuga, April 29.—The Methodist Church in this town will be the scene of a big trial on Tuesday. The judge will be Rev. R. G. Elliott, of Waterloo, president of the Hamilton conference, and five pastors of this district will constitute the jurors. The main defendant is Rev. J. H. Dyke, the pastor of the church, and against him there are half a dozen charges. Alex. Mitchell, one of the church officials, laid the charges. Rev. Mr. Dyke, in turn, has laid a charge against Rev. Mr. Mathers, Hagersville, the district president. The charges against Rev. Mr. Dyke are defamation of character, falsehood, deceit, mal-administration, indiscreet and disorderly conduct in the church.

Traveler In Trouble.

Toronto, April 29.—J. J. Cummings, a Montreal cigar traveler, was arrested on Saturday night by Detective Tipton, on a warrant from Berlin, Ont., charging him with fraud.

Cummings, it is alleged, undertook to sell a quantity of wine on commission for Weiner Bros. of Berlin. He advised the firm to the effect that he had sold two casks to an Ottawa firm. Weiner Bros. sent him a cheque covering the amount of the commission. When called on for payment, the Ottawa firm denied any knowledge of the transaction.

Cummings will be taken to Berlin to-day.

Stromboli Active.

Catania, Sicily, April 29.—The royal observatory on Mount Etna registers an extraordinary eruption of the volcano on the Island of Stromboli.

The volcano is throwing out large quantities of ashes and cinders, which are damaging vineyards in both Sicily and Calabria.

Naples, April 29.—Frequent slight shocks of earthquake were felt in Calabria yesterday. The populace of Southern Italy, especially in Naples, is fearful lest there be a repetition of the disaster of 1905.

Lad Fatally Injured.

Brockville, April 29.—Rolland Harper, a lad of eight years, was fatally injured here Saturday, while playing near a derrick. A large bucket, which was being hoisted, fell and struck him on the head.

TO TRAIN FUTURE KING

PRINCE EDWARD WILL ENTER AT ROYAL NAVAL COLLEGE.

Young Princes to Follow In Their Father's Footsteps — Education to Be Truly Moral and English—Will Get Inside Knowledge of Engineering and Take Part In Manual Labor —Under Naval Discipline.

The two eldest sons of the Prince of Wales will proceed to the Royal Navy College at Osborne to become naval cadets.

Prince Edward will enter his 14th year next June and thus he will be about the same age as was the Prince of Wales when, in company with the late Prince Albert Victor, he proceeded to the old cadet training ship at Dartmouth.

This decision to enter the two young princes as naval cadets at Osborne is particularly noteworthy because the system of training which is adopted there is entirely novel. It is essentially the type of training which would

PRINCESS AND SON.

have commended itself with particular force to the late Prince Consort, who in matters of education was so far in advance of his generation and time.

When the Prince Consort wrote to his old friend Baron Stockmar for his advice as to the upbringing of his young sons he was advised that they should receive a system of education "truly moral and truly English."

This definition exactly describes the training which the sons of the Prince of Wales will receive at the Naval College at Osborne. It is English in its character, and, though scientific, is eminently practical. They will have to work with their hands and work hard.

There is a torpedo boat attached to the college and by this the young princes will obtain some inside knowledge of naval engineering. About a third of their time will be devoted to the practical side of training. The whole atmosphere of the college is naval. Cadets from the day they enter the establishment, usually about 13 years of age, are under naval discipline, and thus at an impressionable period in their lives they become familiar with naval habits and learn to take pride in sea service. The Prince of Wales in his public utterances has often referred in appreciative terms to the benefit which he derived from his early naval training.

English Sleuth Wanted.

King Alfonso has decided to revolutionize Spanish police methods by inaugurating a criminal investigation department at Madrid on the Scotland Yard model.

The post of chief superintendent has been offered to Detective Inspector Arrow, of the criminal investigation department.

A salary of $5,000 a year with special expenses is offered with the appointment. The new head of the Spanish police force will be, therefore, one of the best paid detectives in the world.

This innovation on the part of King Alfonso is the result of the high opinion of the London detective force he formed on his last visit before his marriage.

In Spain at the present time the police organization does not in any way compare with the Scotland Yard methods, and Queen Victoria, long accustomed to the security of the English system, has assisted His Majesty in drawing up the plans.

During his visits to England King Alfonso remarked on the excellent way in which our police did their work, and he expressed a wish to reform the lax Spanish methods.

The appointment as head of the Madrid "Scotland Yard" was first offered to Detective Inspector McCarthy, who always looks after the safety of English royalties.

When the bomb exploded in front of King Alfonso's carriage on his wedding day, Inspector McCarthy was riding in the procession behind Their Majesties.

Inspector McCarthy was reluctantly obliged to decline the offer of the appointment, because he has been specially chosen to accompany King Ed-

RIVAL BRITAIN ON SEA.

Germany Jubilant Over Increase In Mercantile Marine.

German shipping and commercial circles are in a fever of delight at the extraordinary progress which their overseas shipping has been recently making. A few years more of such progress, they say, and the maritime supremacy of Britain will begin to be called in question.

Undoubtedly the figures which are being published, if not alarming, afford at any rate, food for serious reflection. Take, for example, the Suez Canal. In 1882 British shipping through the canal was over 4,000,000 tons; in 1906 it had risen to 8,500,000, or a trifle over 100 per cent. increase. In 1882 German shipping was 127,000 tons; in 1906, 2,325,000, an increase of about 1,700 per cent. In 1882 England owned 81 per cent. of all shipping passing through the canal; in 1906 the percentage had sunk to 53. In 1882 Germany owned only 2 1-2 per cent., but in 1906 this had risen to over 16 per cent.

Equal jubilation has been caused by figures recently published by the Norddeucher Lloyd and the Hamburg-American Lines with regard to the enormous increase of their tonnage, which is now far in excess of that of any British rival and is rapidly increasing. Both lines are rapidly developing their trade with the Far East and in seas which until a few years ago were British preserves. Their lines to India, China, the Straits Settlements and Japan are some of their most flourishing ventures, and it now has been decided to put on steamers to trade with ports in the Persian Gulf, German captains not being above calling at any port no matter how insignificant.

Equally surprising are the figures with regard to shipbuilding. German yards have been fully employed, and during the last ten years the number of men employed in shipbuilding has increased fivefold.

Officers to Manchuria.

The Chronicle says: Manchuria has taken the place of France—that is to say, instead of visiting the battlefields of 1870, our staff officers are not going to make a study of the still more terrible battlefields of 1904-5, at least, as far as the Indian Government is concerned. In his introduction to the English version of the German history of the Franco-German war, General Maurice complains that this had become too much of a fetish with our military students, and that we had consequently suffered from the idolatry in South Africa.

Lord Kitchener seems to be of the same opinion, as he has decided to despatch twenty staff officers to study the Manchuria campaign on the spot. It is not, perhaps, generally realised that we owe the invaluable "Soldier's Scrap Book" of Sir Ian Hamilton, which we reviewed the other day, to the fact that he was the military agent of the Indian Government in Manchuria.

When the King Plays Cards.

The King is very fond of the game of bridge, and bridge parties are always a great feature wherever he is being entertained.

There is an exceedingly strict etiquette observed in all card games played with His Majesty taking a hand. One cast-iron rule is that the host must never win money from his Royal guest, and for that reason, should there be no lady present, he invariably seats himself opposite His Majesty.

Another rule is that the stakes—which are always low when the King is playing—must always be paid out in newly-minted coins or notes freshly issued by the Bank of England, the reason being that His Majesty never handles money which has been in general circulation. The host, therefore, has to procure a good supply of new coins and notes, which he shares among his guests in exchange for their old money.

Whites Wants a Refuge.

It was decided at a public meeting held recently at Malmoth, Natal, to urge on the Government the immediate necessity of building a jail and a lager for the protection of the district, owing to fears of another native arising.

Several speakers stated that the eyes of the colonists had been opened by the late rebellion, and signs were not now wanting that the natives were unrestful, their conduct being, in fact, worse than previous to the rebellion.

It was declared that one chief had only to hold up his finger to cause a general rising. It was asserted that a lagar was absolutely necessary as a place of refuge in case of necessity.

Charles Kingsley.

It has been said that Kingsley's fame as a poet is not so wide as it deserves to be. Whatever truth there may be in the assertion, there can be no doubt regarding his right to a place in the front rank of nineteenth century novelist. Kingsley's "Alton Locke," the Chartist novel, in which he eclipsed even Dickens in his vivid picture of the life of the poorer classes, somewhat outshone his later works, but even these betray indications on every page of having emanated from a master mind. As a preacher Kingsley was simple and earnest, and no less so when he preached at Westminster than when he addressed his village congregation at Eversley.

ROBBERS RAID A BANK

CASHIER REFUSES TO BE HELD UP IN DAYLIGHT.

Draws Revolver and Fires at Thieves —Fierce Fight Follows—One Man Captured by the Crowd — Other Taken to Hospital Dying—Demanded All Cash Available—Met With Warm Reception.

A daring attempt was made recently by two desperadoes to rob the National Bank in Johannesburg, and in the pitched battle with the bank officials which followed one of the men was fatally shot.

Banks and business houses generally have armed their employes in consequence of frequent burglaries in Johannesburg during the last few months. Pedestrians have been held up and robbed in lonely streets, residences have been ransacked and shops looted in the most audacious manner.

This bank raid, however, was the boldest attempt yet made.

Two men entered the Harrison street branch of the National Bank when some of the officials were at lunch, and practically no business was being transacted.

Walking boldly up to the cashier's window, one man thrust a revolver through the window and demanded all the cash available. Meanwhile the second man kept guard at the street door.

Instead of complying with the demand, the cashier drew a revolver from a half-open drawer, and fired point-blank at the robber. The bullet hit him on the jaw, and he dropped to the floor.

The second robber immediately returned the fire; and half a dozen shots were exchanged with the employes behind the counter. One bullet struck a clerk in the shoulder; but the other shots went wide, and were imbedded in the walls and ceiling.

The noise of the fusillade attracted men from the street, and they captured the second robber as he tried to bolt through the door after emptying his revolver. He was overpowered after a severe struggle. The other man was removed to the hospital dying.

Expenses of Government.

Some very interesting items appear in the Imperial Government appropriation accounts for the year ended March 31, 1906, which were issued recently. The accounts include Parliamentary grants for Civil Service classes and revenue departments, including postoffice, packet and telegraph services. The gross total grants amounted to £50,967,562, but the expenditure was kept well within bounds, so that there is left the handsome surplus of £798,308. Amongst the more curious details are £1,804 for the construction of a motor-car garage at the Royal Mews, Pimlico; £906 for the construction of a lift at St. James's Palace; and a marriage gratuity of £77 to a female warder at Holloway. Getting rid of the old laundry and bakehouse at 10 Downing street and making a new scullery cost £471, and new washhouses at Windsor Castle £187. Another notable item is the fact that, owing to absence of fog, South Kensington Museum saved £810 on its lighting bill. Coming to bigger affairs of state, we learn that the Dogger Bank outrage inquiry cost £1,868; the Algeciras Conference, £648; Prince Arthur's mission to Tokio, £2,174; and Lord Selborne's travelling expenses in South Africa, £1,200. The smallest item in the list is the New Hebrides Commission, which stands at the low figure of £15. The biggest is for the maintenance of the ex-chief of Mosquito in Jamaica, namely, £13,881.

Two Hen Stories.

One of the inmates of the Animals' hospital, Hugh street, Westminster, London, is a two-year-old hen, one of a family of nine, who is suffering from a peculiar disease in its crop. The other eight have all died, one after the other, with the same disease, and special efforts are being made to save the life of the last. "Every day," says the doctor, "an india rubber tube is inserted in the bird's mouth, and its crop is filled with warm water. Then the hen is turned upside down, and the water allowed to trickle out. At first the bird was naturally indignant, but now she seems to even like it."

At Moulton Seas End, near Spalding, Mr. Dilworth lost a fine fat hen five or six weeks ago, and it has just been found in a hovel a mere bag of bones. It could not get out, and had gone all that time without food.

Both cinnamon and cassia contain tannin, and too much of either has the same effect as excessive tea drinking. There are cinnamon and cassia tapers who are as much addicted to the habit of chewing the bark as some men are to chewing tobacco. The cinnamon tapers acquire their habit chiefly from working in the woods stripping the bark from the trees and drying it. It is graded by men who taste a tiny morsel of each lot. At first this causes the lips and throat to swell, but in time this undesirable effect overcomes itself, and a genuine love for the bark is ac-

AN AMOROUS GIANT.

Forbidden Introduction to a Giantess He Finally Wins.

All the elements of romance are bound up with the story of love of Clive Darril, an Australian giant, for Miss Marieldl, the Tyrolean giantess.

Mr. Darril is the son of a wealthy farmer of Wagga Wagga, New South Wales. He is 24 years of age, 8 feet 8 inches high, and broad in proportion. Miss Marieldl is 8 feet 3 inches high, and passably good-looking. Darril fell in love with Marieldl at Vienna, and determined to marry her, but her manager proved obdurate. He followed her to Berlin and London, and last week attended nearly every performance at the Hippodrome.

The climax came on Thursday, when it is alleged that Darril stood up in the stalls and addressed the object of his affections before the astonished audience. The first surprise of the interruption over, the officials requested Mr. Darril to desist, and he left the theatre. On Friday night although he had purchased tickets, he was refused admission to the Hippodrome.

Yesterday Darril was introduced to Marieldl in the Angel Hotel at Guildford The giant followed Marieldl in a motor-car and overtook her at the Surrey town, where in spite of renewed opposition from the manager he was introduced to the lady, who shook hands and smiled on him encouragingly. Surrounded by their friends the couple took lunch together, and Mr. Darril seized the opportunity to advance his suit.

The manager consented to write to Marieldl's parents and ask whether they would permit the young couple to become engaged.

KILLED ON RAILWAY.

Fatal Head-on Train Collision at Eden, Maryland.

Salisbury, Md., April 27.—Engineer John Phillips, of Delmar, Del., was killed in the head-on collision between a south-bound local passenger train and a north-bound freight on the New York, Philadelphia and Norfolk Railroad at Eden, Md., yesterday. No passengers were injured.

Fraternal Association Officers.

Toronto, April 27.—At Thursday's session of the Canadian Fraternal Association Past President Dr. C. B. Emory was presented with a gold-headed cane.

The officers for the ensuing year were installed by John A. Paterson, K.C., as follows: President, Thomas Millman, M.D., Toronto; vice-president, E. T. Essery, London; secretary-treasurer, William F. Montagu, Hamilton; councillor, Lyman Lee, Hamilton; representative, Dr. John Ferguson, Toronto; chairman of medical section, Dr. S. Ryan, Kingston.

SHOULD LIVE 100 YEARS

Sir James Crichton Brown's Opinion

Sir James Crichton Brown, of England, at the Congress of the Royal Institute of Public Health in London, gave a lecture on old age. He states that if every person should live right and take the proper care, to live one hundred years would be a matter of course.

There is no excuse for feebleness at the age of fifty, sixty, or even seventy. In every person there is a constant change taking place in the system, and just so long as the supply equals or exceeds the waste, just so long will old age be warded off.

When one finds their energies flagging, the organs acting slowly and less effectually, the blood sluggish, and, in fact, "feel old," then there is nothing known to medicine that will restore elasticity to the step, brightness to the eyes, vigour to the brain and muscle, and strength to every organ in the body so surely as our real cod liver preparation, Vinol.

Vinol contains, in a concentrated form, all of the medicinal body-building elements of cod liver oil extracted from fresh cods' livers, the useless oil eliminated, and tonic iron added.

We ask every old person in Peterborough to try Vinol on our offer to return money if not satisfied. McDermid & Jury, Druggists. Also at The Market Drug Store, the Ormond & Walsh Old Stand.

All Saints, Meetings

The usual meetings will be held this week in All Saints' church. Monday, Girls' Guild, 7.30., Junior Chapter St. Andrew's Brotherhood, 7.330 and the Senior Chapter, 8 o'clock; W. A. on Tuesday, 2.30; Boys' Club Concert the same day at 8 o'clock; Wednesday, cottage meeting at the residence of Mrs. W. G. Howden, Landsdowne street; Thursday, Junior Auxiliary, 4.15, service, 7.45 and choir practice at 8.30; Friday, Boys' Club.

Prominent Professional Man Has Passed Away

Late Alfred E. Belcher Was Associated With Trent Canal Construction in Early Days of Its Development.

BUILT SEVERAL LOCKS

A man who was a credit not only to the profession of which he was an honoured member, but of the city ,which for over forty years has been his home, passed away last night in the person of Mr. Alfred E. Belcher, C. E., who died at his home, Stewart street, after a lengthy illness, following complications, which came as a result of contracting typhoid fever, while engaged at work on the Crow's Nest Pass Railway. The late Mr. Belcher was a civil engineer by profession, and during his lifetime was associated with a number of important public works, notably the Trent Canal. He went over the route of the section from Peterborough to Lakefield with Mr. Stark, and was subsequently employed on the construction work, until the completion of the locks at Burleigh Falls, Fenelon Falls, and Lovesick. Following his arrival in Canada in 1884, he was associated with Mr. J. W. FitzGerald in survey work, going to the Trent Canal subsequently. After completing his work for the canal, Mr. Belcher went with Mr. Macklin, to San Francisco, where he remained some time.

After his return from California the deceased went to the Crow's Nest Pass, where he was engaged in work connected with the building of that branch of the C. P. R. It was here that he contracted typhoid fever and, with eleven of his staff, was laid up with the disease. He never fully recovered from the effects of that sickness, which was followed by pneumonia.

The late Mr. Belcher was in his earlier days, an enthusiastic oarsman and practically introduced amateur rowing into Canada—in Peterborough at any rate. He was prior to coming to Canada stroke for the famous Queen's College crew, in Ireland, and after he came here he organised a crew composed of Messrs. R. B. Rogers, the late Geo. Rogers, and Mr. Shaw, with himself as stroke. This crew won from Toronto and Hamilton, at Barrie.

The deceased was a son of the late Samuel Belcher, C. E., of Cork, Ireland, and was one of five brothers, two only of whom are now living, John E. and Sam'l, both of this city. Of the two who are dead, Thomas, was prior to the appointment of Mr. R. B. Rogers, superintendent of the Trent Canal, and had charge of that waterway at the time the present development was decided on. The other brother, William, died in India. The deceased was married to Miss Boyd, of Bobcaygeon, a sister of Mr. Mossum Boyd. She with a son, Alfred Beaufort, survive him. The funeral will take place to-morrow afternoon from the family residence, Stewart street, at 2.30, to the Little Lake cemetery.

Remember the Benefit Concert at George Street S. S. Room on Tuesday, April 30th Proceeds are in aid of the poo of the church. Admission 15 cents or two for 25 cents.

CHRISTIAN SCIENCE TO BE DISCUSSED

By The Ministerial Association at Their Next Meeting.

Some surprise has been expressed by members of the Ministerial Association at Mr. Todd's report in Saturday's Examiner of their attitude towards Christian Science, as expressed at their last meeting. It is probable that the subject will be further dealt with at the meeting of the Association next Monday.

See the special exhibit of the I.C.S. now being held at 136 Hunter Street. If you're a live one it will interest you. 3 d-9

SUNDAY SCHOOL WORK IS PRESENTED

Mr. John Gilchrist, formerly of Peterborough Addressed Service in St. Paul's Church Yesterday on This Subject.

The Ontario Sunday School Association of which Mr. R. W. Clarke of Millbrook, is president, is appealing for funds to carry on the work with greater efficiency in the growing provinces of the west.

Mr. John Gilchrist of Toronto, a former resident of Peterborough, and also a former elder in St. Paul's church, who is a member of the executive council of the Association, was in the city yesterday in the interests of the forward movement. He delivered a short but stirring address yesterday morning in St. Paul's church, calling attention to the greatness and the urgency of the work.

Two immigrant trains passed through the city yesterday on the C. P. R. Twenty four hundred immigrants arrived in Halifax at the close of the week.

THE WEEK'S MEETINGS AT ST. LUKE'S CHURCH

Adjourned Vestry Meeting Will be Held To-night, When Reports for the Past Year Will be Presented.

The following meetings will be held at St. Luke's Church during this week:

To-night at 7.30 a short meeting of the Girls' Auxiliary will take place, and also a meeting of the Bible Class at the same hour to make definite arrangements for the annual Bible Class excursion.

The adjourned vestry meeting will be held to-night at 8 o'clock. The secretaries of the various societies are requested to read their reports of their year's work.

The Brotherhood of St. Andrew will meet to-morrow night at 8 o'clock.

The W. A. meets on Thursday at 2.30, and the Mission Band on Friday at 4.15.

QUIETNESS AT THE POLICE COURT THIS MORNING

Four Dollars Was Collected For City's Treasury.

The narrow, dark stair at the police court were climbed this morning but for little purpose A young man was fined two dollars for being found drunk in a public place. Magistrate Dumble, out of pity, wanted to send him to jail until he sobered up. He was very ill from the effects of drink.

Mr. J. S. Richardson, Dalhousie street, was also fined two dollars for allowing a lime box and other building material stand on the street in front of his residence after the completion of the work of building for longer than one week. It had been there all winter and His Worship considered this carelessness and imposed a fine of two dollars to show that the by-law must not be overlooked.

Personal Mention.

Mrs. Hopwood will be at home to-morrow and not again this season.

Miss Nettie Reynolds of the city, spent Sunday with her parents, near Cavanville.

Messrs. O. H. Dunn and John Miller were in the city over Sunday, from Young's Point.

Mr. Thomas J. Lee, former market clerk, leaves to-morrow morning for Davidson, Sask.

Mr. George J. Chalmers, who has been in the north for some time scaling timber, has returned to the city.

Mrs. S. Gaskins and her daughter, Wilhelmina, left this morning for Brampton to visit their friend, Rev. Dr. Speer.

Mrs. A. Thistlethwaite and Miss Mabel Scott, of Norwood, are guests of Mrs. Wm. Thistlethwaite, 473 Sherbrooke street.

Miss Grace Johnston, from near Westwood, was in the city on Saturday on a visit to her parents, Mr. and Mrs. A. J. Johnston.

Mr. Fred Holland left this afternoon for Huntsville, where he will be engaged on one of the steamers plying the Lake of Bays, during the tourist season.

The many friends of Mr. Jas. Maher of Lang & Maher's, will be pleased to learn that he is able to be around again after more than a week's illness.

Miss Daisy Dobbin, of the Jackson Health Resort Training School, Dansville, N.Y., is home for a two weeks vacation, with her parents, Mr. and Mrs. F. H. Dobbin.

Mr. F. W. Gladman, of Exeter, formerly of Peterborough, is in the city spending a few days visiting his parents, Mr. and Mrs. Thos. Gladman. Mr. Gladman is a successful barrister in Exeter, and his friends here will learn with pleasure of his progress in his profession.

The many friends of Mr. Allan E. H. Bennett, formerly of East City, will be glad to hear of his recent success at Queen's University, Kingston. Mr. Bennett made a highly creditable standing on all subjects, securing the degrees of M.D., and C. M., and also the Barber Scholarship in Mental Diseases. Dr. Bennett left on Saturday last for Vancouver, B.C., where he intends to practice.

Interesting History Of Ice Leaving Chemong Lake

Mr. J. N. Tedford, of Smith, Has Complete Record for Twenty-Five Years—In May, 1885, the Latest Break-up Was Recorded.

1907 AN AVERAGE YEAR

It is a week ago to-day since the ice went out of Chemong Lake. This is about the average date for the last twenty-five years, according to information furnished the Examiner by Mr. J. N. Tedford, who has kept a record of the date on which that lake has been freed from the grip of the ice king for more than a quarter of a century. This record he was good enough to communicate to the Examiner, and, in the belief that it would be of interest to the Examiner readers, many of whom spend considerable of their summer on the shores of this lake, it is given publication to-day.

It is interesting to note that in the year 1885, noted in Canada as the year of the Reil Rebellion in the Northwest the ice did not leave the lake until May 2nd, and that year there was scarcely any seeding done before the 5th of May. On the 28th of April about four inches of snow fell that year, when the spring was a particularly backward one. This was the latest opening of spring during the whole twenty-five years.

The earliest opening of the lake on record by Mr. Tedford was in 1878, when the ice went out on March 23rd, and a great many of the farmers were plowing at this date, seeding being general about April 5th.

The record of dates, as kept by Mr. Tedford is as follows:—

1907 on April 22nd.
1906 on April 14th.
1905 on April 17th.
1904 on April 28th.
1903 on March 28th.
1902 on April 6th.
1901 on April 17th.
1900 on April 23rd.
1899 on April 26th.
1898 on March 28th.
1897 on April 19th.
1896 on April 21st.
1895 on April 23rd.
1894 on April 28th.
1893 on April 23rd.
1892 on April 10th.
1891 on April 22nd.
1890 on April 16th.
1889 on April 15th.
1888 on April 28th.
1887 on April 28th.
1886 on April 21st.
1885 on May 2nd.
1884 on April 29th.
1883 on April 26th.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

To the Editor of the Examiner:

Dear Sir,—I received a letter, written in the city, from the Peterborough Post Office to-day, which was said to have been mailed to me on Feb. 31st or thereabouts. The envelope bears no marks of having been through the post office nor is the stamp cancelled. Can you explain? This is not the first time I have had letters remain for over a month, notwithstanding that I call every week. If the government is going to do business let them do it right.

Yours truly,
DISAPPOINTED.

PARK STREET BAPTIST CHURCH SERVICES

Liberal Offerings for Christian Education—Meetings of the Week.

At the Park street Baptist church yesterday liberal offerings were taken for Christian education, and a reception service was held after the morning sermon.

The B.Y.P.U. meets to-night at 8 o'clock, the subject being "What Separates from God?"

To-night the Finance Committee meets at 8 o'clock, and on Tuesday afternoon the Ladies' Aid meets at 3, with Mrs. M. Mowry in the chair.

On Wednesday night, public service will be held with the pastor in charge, and on Friday the Busy Workers at 4.30 p.m. will have a Band of Hope session, with covenant.

The ordinance of baptism will be celebrated next Sunday.

WEST ENDERS SUFFER FROM TOO MUCH DOG NOISE

Would Appreciate a Few Well-Delivered Doses of Strychnine.

A gentleman from the west end is in hopes that the dog poisoners will commence operations in that part of the city. Mr. Geo. Ball states that there are far too many quadrupeds of the dog persuasion in that portion of the city, and that the people would gladly pay to see some of them disposed of. Every night there is a general "bow-wow," and the night air is disturbed by every noise that dogs have ever been known to make. Although a lover of good dogs, those that are public nuisances should be put out of the way. Mr. Ball thinks and he is sure that the people would appreciate some movement in this direction.

One good dog was poisoned on a Sunday afternoon about a month ago, but the poisoner must have become frightened and fled away. The policeman's revolver, or blunderbuss, policeman's revolver, or blunderbuss, will be in active use, according to the general proclamations of the police.

THREATENED TO TAKE HIS OWN LIFE

East City Resident in Police Court This Afternoon

This afternoon, Mr. Colquhoun, of James street, East City, was brought to the police station by P. C. Newhall and appeared before Magistrate Dumble charged with threatening to take his own life. It appears that his brain is singularly affected, and last night it took several men to hold him in bed.

IS A BROTHER OF THE REV. CANON DAVIDSON

The Crown Prosecutor at the Galt Assizes Last Week.

Mr. M. S. Davidson, who acted as Crown Prosecutor at the Galt Assizes last week at which Conductor Thompson was found guilty is a brother of Rev. Canon Davidson and is well known in Peterborough.

TATE OPTICAL CO'Y

G. N. BABCOCK, Eye Specialist

412½ GEORGE STREET, PETERBOROUGH

UNSOLICITED TESTIMONY

The Tate Optical Co., Peterborough:

DEAR SIRS:—During the last three or four years (prior to May last) my eyesight had failed to such an extent that I was unable to read or see anything at close range and could get no Glasses that would help me. I tried two different Opticians in Toronto and was told by both that they could do nothing for me, and that my sight would never be better. A statement of my case was sent to Montreal by a Hamilton optician and several pairs of Glasses sent me, but with the same result my vision could not be improved. Last May, while looking at a Pair of Glasses you made for Mr. John Fife, Keene, and talking with him he advised me to consult your Mr. Babcock, and I am pleased to say that the Pair of Glasses he made for me have given me entire satisfaction and I can do now what I have not done for years past—read any ordinary print and see distinctly at close range. I feel very grateful, not only for the interest you have taken in my case, but particularly so for the blessing of good eyesight. Thanks to your knowledge and skill.

Yours truly,

(Signed) JOHN CARTER, Sr.,

The Bowling Tournament Was A Great Success

Three Days' Event Brought to a Close on Saturday Night---Moncrs, Breen and Guerin Win the Doubles---The Prize Winners and Complete Scores.

Novice Event, Five-man Teams

Winners — The Nationals, 1927 pins; prize, silver loving cup, donated by hotels of the city.

Open Event, Five-Man Teams.

Open Event, Five-man Teams

Winners — The Merchants, 2009 pins; prize, gold lockets.

Doubles, Open

First, J. Guerin and W. Breen, 849 pins, prize, $10 in gold; second, C. Gutterson and Frank Lawless, 845 pins; prize, $5 in gold.

Singles, Open

First, T. T. Boyd, 538, prize $10 in gold; second, J. Houlihan, 454, prize $5 in gold; third, W. McIlroy, $3 in gold.

Special Events

Highest pinnage in the nine games, won by T. T. Boyd, 1347, prize, gold locket donated by C. E. Frost; second, W. McIlroy, 1316.

Highest score in one game, T. T. Boyd, 233; prize, box of cigars, donated by J. T. Smythe.

The above are the events of the three days' bowling tournament which closed at the Majestic alleys, Water street, on Saturday night. The affair was a gigantic success, the events being well contested, the prizes well divided, and the greatest interest being shown in the contests. It was the first event of the kind held for a long time and has done much to develop an interest in this healthful and fascinating pastime. There have been good crowds present all through the three days' bowling, showing that the public is being awakened to an appreciation of the many fine points of the game.

Saturday afternoon's bowling made a great difference in the standing. In the first place Tommy Boyd put on a score of 538 in the singles, after J. Houlihan's score of 454 had stood for two days. Frank Lawless and Claire Gutterson set the high mark for the doubles with a score of 845, in the afternoon, and looked sure winners, but early in the evening Joe Guerin and Billy Breen went them three pins better, with a score of 849, which proved to be the highest rolled.

Following are Saturday afternoon's and evening's scores.

Singles Open

				Total.
W. Crowley	144	124	167	435
W. Breen	124	133	114	370

The tournament, as has been said was a great success, and the thanks of the bowlers are due Mr. J. T. Smythe, the proprietor of the alleys, who very kindly turned them over to the bowlers free of charge, to Mr. T. T. Boyd, who as secretary, had a great deal of the work to do, and to the others who helped in the work, and to Mr. C. E. Frost, and others, donating prizes.

Strikes and Spares.

The big tournament came to an end at 11 o'clock on Saturday night with three cheers for Mr. J. T. Smythe, the proprietor of the Majestic alleys.

The Farriers, the tall striders in the open event, and Munro's Colts, the cellar champions of the novice, will roll a game to-morrow night for the novice championship.

The Pleasure Club are after the scalps of the Merchants, and a game will likely be arranged between the two.

Tommy Boyd's average in the nine games was 159.

D. Davidson and Graham Ferguson's good bowling rolled the Merchants up to the top.

The prizes are on exhibition in Mr. C. E. Frost's window to-day and are attracting a lot of attention.

The bowlers who took part in the tournament will be admitted for fifteen cents at the game to-night between the Royal Canadians of Toronto and a local picked team. The general public will be charged a quarter. The Royals hold the championship of Toronto and will send their strongest team down to-night.

Claire Gutterson and Frank Lawless, who bowled together in the doubles, made exactly the same score in the singles.

Joe Guerin, after bowling 443 in the novice and 444 in the doubles, fell down in the singles and only put on a score of 279. A good score in the singles would have put him right in the running for the special prizes.

Only four bowlers made over 200 in a single game. They were Tommy Boyd with 233, Joe Guerin, 219; Claire Gutterson, 213 and J. Houlihan, 201.

The pin boys had a busy time for three days.

Claire Gutterson holds the record for the local alleys with 249. Some of the Royals to-night may take a notion to break records and set up a higher mark.

ROYALS WILL BE HERE TO-NIGHT

To Meet the Local Bowlers—A Great Game Expected

Great interest is being taken in the bowling game to-night between the Royal Canadians of Toronto and a local picked team. The event will take place at the Majestic Alleys and will no doubt be attended by a large crowd. The Royals who are the bowling champions of Toronto, will send down their five strongest bowlers for to-night and a great game may be looked for. The following five will represent the locals: Messrs. W F Crowley, W Warrham, T T Boyd, W McIlroy and C E Frost. Arrangements are being made to royally entertain the visitors to-night after the game.

BASEBALL

The local ball team had their first practice on Riverside Park Saturday afternoon. Among those out were Burns, Johnston, Quinlan, Callaghan, Treanor, Darocher, McDonald, Crough and Beasley.

• • • •

A local team will likely play an exhibition game in Port Hope in the near future.

• • • •

The Intermediate Baseball Club, of the Y.M.C.A. will practice to-night in Central Park at 6.45 sharp. A good turnout is requested.

MARKET REPORTS.

HINDOOS ARE RESTLESS.

Race Hatred Fomented in India, Riots Are the Result.

Lahore, British India, April 29.—Rifles and twenty rounds of ball cartridge have been served out to the local volunteers in consequence of signs of marked unrest among the Hindoo student elements.

The publication of inflammatory and seditious articles in the native newspapers, inciting race hatred against the Europeans and demanding native control of the Government of India by means of an elected Parliament, has been followed recently by riots here and elsewhere in the Punjab, and by attacks on Europeans.

Professional and political agitators are now fomenting strikes on the railroads and the government has concluded that it is time to suppress the rioting by forceful means if necessary. The authorities are satisfied that a determined front will speedily end the outward signs of disaffection, especially as they have the unanimous support of the great Mohammedan population, who, at numerous mass meetings, have emphatically condemned the anti-European movement.

Recent events have given a remarkable impulse to enlistment in the volunteers. The recruits include five members of the executive council, the director of public instruction, university professors, high Government officials and leading bankers and merchants, all of whom have entered the ranks as privates.

Killed in Prize Ring.

Walsenburg, Colo., April 28.—Thomas Miller, a miner, died Saturday from the effects of a blow on the solar plexus given by Samuel Irons in a prize fight Friday night. Irons was arrested.

Miller's mother became delirious when informed of her son's death, and it is feared the shock may terminate fatally.

Stands For Spools of Cotton.

Women who do a great deal of sewing will find a little stand to hold spools of cotton a great convenience. The only materials required are a solid piece of wood perhaps an inch thick and either round or square for the base and either a knitting needle or a round piece of wood some six inches long for the upright piece. If the needle is used it can be forced into the wood of the base, but in case the slender round piece of wood is preferred it can be kept in place with a screw or long tack. This holder has place for three or four spools of cotton, which revolve freely when you take hold of an end of the thread and begin to draw it off. The point of the holder makes a convenient resting place for a thimble. Of course if you are of a decorative turn of mind you will sandpaper your wooden base and then paint or stain it.

How to Walk Upstairs.

A physician, describing how a person should walk upstairs, says: "Usually a person treads on the ball of his foot in taking each step. This is very tiresome and wearing to the muscles, as it throws the entire suspended weight of the body on the muscles of the legs and feet. You should in walking or climbing upstairs seek for the most equal distribution of the body's weight possible. In walking upstairs your feet should be placed squarely down on the step, heel and all, and then the work should be performed slowly and deliberately. In this way there is no strain upon any particular muscle, but each one is doing its duty in a natural manner." The doctor might have gone a little further in the same line and protested against the habit which many persons have of bending half double when they ascend a flight of stairs.

How to Keep Furs.

If garments are not cleaned before they are laid away and there are moth eggs in them, neither camphor nor any other preventive will keep them from developing and eventually destroying the fur.

If furs are well brushed and freed from dust, they need not be packed away in any of the much used moth preventives.

In packing furs away for the summer they should first be well aired, cleaned and sunned or moths' eggs that are not visible now may develop during the hot weather.

The whipping of the furs should continue until no dust arises. Then the pieces should be put out in the sunshine [illegible] to move it before putting the garment away.

A Pair of Whys.

She (coming down late)—Why do you wear that yachting cap? You are never on a yacht. He—Why do you wear that watch? You are never on time.

When a man says "I can hear a noise," it probably never occurs to him that there is nothing in this wide world that anybody can hear but a noise.

Stork Beats Fast Train.

While a Michigan Central immigrant train was speeding its way to Windsor a boy was born to Mrs. Mary Rosenbloom, a Russian immigrant on her way to the United States. The mother was anxious that the child be born in the United States, the land of her adoption, and the engineer put on full speed at her request, but the stork took matters in his own hands, and the youngest member of the Rosenbloom family will have to claim the Dominion of Canada as the land of his nativity, though he missed being born under the stars and stripes by only a few hours. One of the railroad surgeons remained with the mother and her child until the train arrived at Windsor.

Signs of Spring.

With glad delight we greet each welcome comer;
It counts not though it chirp or croak or sing,
For, though one swallow cannot make a summer,
We know that just one frog can make a spring.

"I have generally found that the man who is good at an excuse is good for nothing else," said Franklin to a servant who was always late, but always ready with an excuse.

Sign By-law Goes Back To Committee Of The Whole

Was Not Discussed by the Council Last Night---Merchants Were Present---Much Routine Business Was Gone Through by the Aldermen.

The sign bylaw, together with the bylaw in regard to the obstruction of the streets by packing boxes, etc., is once more in the hands of the Committee of the Whole Council, and will be taken up by that body on Monday night next before being presented at the meeting of the Council. A deputation of merchants was present at the meeting of the Council last night, but Messrs. Jordan and Mason were heard in reference to the farm that would be done the florists if they were prohibited from displaying their goods on the outside of their stores. The bylaws were not discussed last night, but, on motion, were referred to the Committee of the Whole Council. A large number of bylaws were given their three readings and passed, and, in addition, there were reports from the various standing committees and one special committee.

A number of communications were read, and referred to their proper committees.

Dickson Property Sewer

Ald. Bradburn read the report of the Special Committee in connection with the sewerage for the Dickson property, as follows:

Gentlemen,—

"Your Special Committee, appointed in regard to a method for providing sewerage for the property of the Dickson Company on Harvey, Waterford and Dublin streets, beg leave to report that we have visited the property and conferred with a committee of the Board of Health and the City Engineer in regard to the matter. We cannot recommend allowing the Dickson Company to run sewerage into the river, and as nothing can be done in the way of providing sewers for the property until such a time as their outfall sewer is built on Aylmer street, at a lower depth than the present one, so that a sewer can be built from the corner of Harvey and Dublin streets, west along Dublin street, to connect with a new outfall sewer, the only recommendation your committee can make is that the owners of the property be allowed to use cess-pools, but that they must first obtain permission and authority from the local Board of Health, and the construction of the cess-pools to be under the supervision of the said Board.

Finance Committee

Manufacturers' Committee

The Manufacturers' Committee reported [illegible]

The Famous By-laws

Ald. Elliott stated that there was a clause in the sign bylaw that had escaped his attention at the last meeting, meaning that prohibiting merchants from displaying goods on stands at the front of their stores. He thought that this was hardship on the merchants.

Messrs. Jordan and Mason, two of the deputation present, were, on motion, heard in respect to the matter.

Mr. Jordan said that it was necessary to have a shelf outside of the store for about six weeks in the year, and all that was put on this shelf was goods that would spoil inside. The shelf did not extend more than 18 inches outside, and they took care that it always presented a good appearance. Some plants would turn yellow if left inside.

Mr. Frank Mason also spoke, asking that the bylaw be amended to allow of these stands.

Ald. Wilson moved, seconded by Ald. Bradburn, that the whole matter be referred back to the Committee of the Whole Council.

By-laws Passed

Bylaw No. 1299, to authorize a grant of $650 to the Peterborough Horticultural Society.

Bylaw No. 1300—A bylaw to amend Bylaw No. 395, and to regulate the size of bread.

Bylaw No. 1301—A bylaw to define the sewerage area in Peterborough.

Bylaw No. 1302—A bylaw to lay out Welsh street in East City.

Bylaw No. 1303—A bylaw to authorize the construction of sewers upon certain streets.

Bylaw No. 1304—A bylaw to authorize the construction of a main sewer along the right of way of the Grand Trunk Railway from Smith street to Aylmer street.

Bylaw No. 1305—A bylaw to authorize the construction of certain granolithic sidewalks.

ONLY WELL BRED DOGS GET POISON

A Dog Friend Contributes Another Letter on This Question—Says The Mongrels Ever Allowed to Live.

Another letter was received this morning by the Examiner from the young Peterborough man in Montreal on the dog poisoning question. He says:—

To the Editor of the Examiner:

Dear Sir,—I thought I would just write a few lines to Peterborough's pest—the dog poisoner. Is he a pest? Yes, he is a pest, something like a mosquito which will bite or even poison. Maybe his life has been miserable and he is jealous of others having a peaceful life and so he has to poison dogs to make the happy people feel discouraged by poisoning fine dogs which like mine had been raised with every care from puppyhood. Some of these dogs were of very great value. The funniest part of it all is that all these half-breed dogs very seldom get a taste of poison, but it is the good, first-rate dogs that get it. 'Tis true that if a half-bread dog belonging to some old lady or man should get poison and die they would feel the loss considerable and no one would expect anything else. When I referred above about the half-bread dogs, I mean the loafers and homeless dogs. Probably the poisoner is a loafer in one sense, and he is very popular with the mongrels. On the other hand he does not loaf in the poison game. It is here where he is on the jump, as some of the owners of dogs would like to do to him. He does very little poisoning in winter as probably the money that would be spent on an overcoat is stored away to buy poison. He needs to buy some more sense for himself instead of losing all. Well, I hope this shameful work will stop. Thanking you for your valuable space, I am,

Yours truly,

"A Dog Friend."

FOR SALE.

Well Known Violinist Wins Honours In London

Prof. Paul Stevens, Brother-in-Law of Loch Brothers, is Meeting With Splendid Success in England.

WINS SIGNAL HONOURS

It will be pleasing news to many in this city who remember Mr. Paul Stevens, of London, England, husband of one of the younger daughters (Florence) of the late William Loch, and now professor at the Guild Hall School of Music in London, England, to learn that an edition de luxe of his great work, "The Story of the Violin," which was published by the Walter Scott Publishing Company some time ago in London, has been issued in Germany. The Examiner had the pleasure of reviewing in these columns this splendid work, which has recently appeared in Berlin in a very expensive and artistic edition. The translation was done by the author. This work is meeting with unusual success in the land of music and adding to the laurels of the author. Not only in the press unanimously enthusiastic in its praise but Mr. Stevens has been the recipient of many congratulatory letters from eminent musicians, including one from the celebrated St. Sarcick, the master of Kubelik and Marie Hall, who writes of the work as "a veritable treasure-box filled with good things from which a young violin-playing generation will draw inspiration for further study of, and affection for, these august grandsires." It is noted by the musical journals that Mr. Stevens, whose artistry as an executant is known to many in Peterborough who have heard him, that London greatly appreciates his wide knowledge as a musician that he has just received the important appointment of Professor of Music at Trinity College, a chair he is very eminently qualified to fill. Trinity is one of the most conservative and wealthy and a chair on its faculty gives great prestige to the possessor. The Examiner, with pleasant memories of Prof. Stevens's music, as well as his courtesy, begs to offer its cordial congratulations on his recent splendid success.

A Collision Near Whitby; Lindsay Man Reported Dying

Locomotives Smashed Into a String of Freight Cars—David Farrell, of Lindsay, Had His Leg Broken in Two Places and His Head Hurt.

BOTH ENGINES DAMAGED

The following despatch refers to a young man, David Farrell, who is very well known in Peterborough:—

Whitby, Ont., April 29.—Brakeman Farrell of Lindsay is reported dying and Engineer McCutcheon of the same place, had a chunk taken out of his leg as the result of a smash-up on the northern division terminal here last night.

Special freight trains were operated by the Grand Trunk yesterday between here and Lindsay. Two engines and a caboose, with a train crew, at 9.15 p.m., in entering the yard at Whitby Junction ran into a string of cars from the west switch that had been pushed onto the northern main line by the train crew from the west on the G.T.R. main line. Both engines and caboose were striped along their sides. Farrell had a leg broken in two places and his head hurt. Drs. Warren and McGillivray set the fractures. Farrell was taken home to Lindsay, and this morning is reported to be dying.

The crash and the escaping steam were plainly heard by many citizens.

It is a practice of late to run special freight trains on Sundays over the northern line from Whitby Junction to Lindsay.

THE GIFT SHOP

Brides' Chosen Gifts

Could they be consulted, would often be Diamond Rings or Beautiful Pearl Brooches.

SUNSHINE FURNACE

The Sunshine is differently and better constructed than common furnaces. It's stronger, safer, more healthful

The dome, the two sections of the fire-pot and the frame of the ash-pit are all securely fastened together by our famous "cup joint." Three "cup joints" in all, you see.

All sections, you will notice, fit together perfectly, and are lined with a layer of asbestos cement, which unites them so firmly together that they become, in every purpose, one solid piece of metal. Can never spring or fall apart.

And that's not all! The top of the dome is fastened to the sides with cement and boiler rivets, making the Sunshine just as smoke, gas, heat and dust tight as a steam boiler. From a hygienic standpoint it takes precedence in the furnace world.

Notice, too, the Sunshine is equipped with an automatic gas damper. This damper automatically opens when the gas in the furnace reaches a certain pressure and allows it to escape up the chimney. Eliminates all danger of an explosion or gas escaping through the registers

Safest as well as most healthful, easiest managed, cleanest, greatest labor-saving and fuel-economizing furnace you can buy.

If your local dealer does not handle the Sunshine write direct to us for **free booklet.**

TALE OF THEIR CRIMES.

Offences Committed by John Chinaman on the Rand.

The annual report of the Foreign Labor Department, Johannesburg, 1905-6, has been published.

Dealing with the administration of the law, the report states: "One then found oneself face to face with a veritable Chinoiserie. The coolies, having been protected against rough-and-ready justice, administered by unauthorised persons, inveighed against the justice meted out to them in the regular courts of the colony, and, on one minute at least, petitioned for a reversion to the status quo ante."

Long List of Crime.

The tale of crime for the year is a long one. The average number of laborers employed during that period was 47,600, and the total number convicted for all offences was 13,532. Of these, 11,754 were convicted of offences against the regulations made under the ordinance, most of them being of a very trivial nature. Cases of desertion, in the accepted sense of the word, amounted to about 1,700. This left a balance of between 1,700 and 1,800 to be accounted for, and official returns show that 243 have been convicted before a judge and jury, 26 of murder, seven of attempted murder, and 210 of housebreaking.

On these figures the report says that the Chinese coolie has undoubtedly been guilty of acts, involving serious loss of life, calculated to cause righteous indignation and alarm, and these no one seeks to palliate. Still, in the case of white residents, robbery, not murder, has been his motive, and it was only when resistance on the part of the male householder was offered that the latter came to an untimely end, and it should be particularly noted that not a single case of assaults upon women has even been proved.

All Born Gamblers.

The great predisposing cause of all Chinese crime in the mines is gambling, and its resultant debt, to a lesser degree supplemented by illicit traffic in opium. The opium habit is fostered and kept alive by certain unprincipled whites, who combine to do almost as great an illicit trade in this commodity as is done in liquor sold to the Kaffirs by the same class.

During the quarter ending June last, the average month's mining population was: White, 19,512; yellow, 51,020; black, 111,034; a total of 181,568. The number of coolies repatriated during the year was 3,008.

Father Vaughan Asks "Why Not Rats?"

Members of the "Smart Set" still go to Farm street Church to enjoy the luxury of hearing themselves denounced by Father Vaughan. Every Sunday morning the occupants of many motor-cars and carriages have to return disappointed, unable to find room in the crowded building.

Some of the congregation pay a shilling each and others sixpence for their seats.

Father Vaughan said that as many people thought his denunciation of cat-and-dog worship in "Society"

FATHER VAUGHAN.

was condemnation of what did not exist in fact, he might refer them not merely to servants who were kept up during the night nursing the little beasts, and to cooks who cater for them, but to veterinary surgeons who attended them in their diseases, and to undertakers who furnished their funerals, as well as to printers who sent out in deep mourning memorial cards with invitations to drawing-room services, ending with the salutation, "Not adieu, but au revoir," whatever that might mean. Did it mean they were all going to the dogs?

Women would be better employed dandling children on their knees than scandalizing the community by pouring out god-like love on these creatures. Fie upon them and upon the—

How Athletes Keep Strong and Healthy

Their Diet Should Be a Revelation To All Men and Women.

Physical perfection, great endurance and unfailing health are positively essential in severe athletic work and great attention is given to the diet.

In schools where a "training table" is provided for the athlete, only the most nutritious food is served, and in cases where there is no training table the athlete is advised to eat the most healthful food only. Whether or not he follows such advice is soon shown by his physical condition. If the average man—the business man—the lawyer, the teacher, the clerk, the mechanic, the laborer—took such care as to the food he eats as the athlete does, there would be far less of sickness and suffering in this world.

Among athletes the food value of whole wheat is recognized. They have demonstrated what scientists have long declared to be true: that the various food elements found in wheat are the food elements with which the blood and muscle, the tissues and cells, the bone and brain of the human body must be replenished if life and perfect strength are to be sustained.

Every nutritive element of the best white wheat grown is found in Malta-Vita, and it is fast becoming as popular among other people as it long has been among athletes.

And Malta-Vita is so good to eat! Always crisp! All grocers, 10 cents.

---

was encouraged them. Why did not they go on to rats and mice; if one animal has a right to it, all animals had.

He was assured that a noble lord who lived in a hunting county had never heard of such people as he had referred to. All he could say was that it did his lordship great credit.

No More Seasickness.

Sir William H. White, one of the greatest British experts on shipbuilding, said at a meeting of the Institution of Naval Architecture the other day that from personal observation he could certify to the remarkable steadying effect on a vessel of Dr. Schlick's gyroscopic apparatus. In all cases its effect was to extinguish the rolling motion of the ship almost immediately. The vessel on which he observed the workings of the apparatus was practically deprived by it of all rolling motion as she lay broadside to the sea. Sir William expressed the opinion that the apparatus would have great utility attached to Channel and coasting passenger steamers. Gyroscopes could also be designed which would have a steadying effect on the largest ocean steamships. Applied to warships, they undoubtedly would give greater steadiness to gun platforms.

Deed of a Gallant Nobody.

It is not always the information carried by the recognised aids-de-camp to and from the commanding officer in battle which is of highest value. There was a supreme moment during the battle of Waterloo when the Duke of Wellington was left absolutely alone, and that not when he was running the risk of capture by sailing through the enemy's lines. It simply meant that every galloper had gone his way, each with his message. At this moment a stranger rode up to the duke and quietly asked, "Can I be of any use, sir?" The duke took one glance at him and unhesitatingly answered, "Yes, take this pencil note to the commanding officer," pointing to a regiment in the heat of the battle. The stranger took the note and galloped away with it through the thick of the fight. He delivered it, but what happened to him no man knows. The duke always declared that to be one of the most gallant deeds that had ever come under his notice. It was done without prospect of acknowledgment or reward, and neither attended its successful accomplishment.—London Standard.

A Frost Desolated Land.

I learned from an eyewitness something about Spitzbergen, that desert arctic island 500 miles north of the North cape of Norway and within 700 miles of the north pole; a frost desolated land, where the grass grows longer than the trees and huge glaciers in the ice bridged valleys amid the jagged mountains move majestically down into the sea until mighty icebergs, a monstrous birth, break off and rise to the surface amid thunderous reports—once the only sound that broke the profound silence of those awful solitudes. Spitsbergen is the only spot of earth that is positively known as No Man's land. It is the possession of no country and has nothing even resembling a specified government. The island seems likely to remain No Man's Land, though it is said that an effort has been made by Norway to establish some sort of protectorate over it.—National Magazine.

Edward III.'s Drum Corps.

Probably introduced from the east, is frequently mentioned in the accounts of the first crusade. When Edward III. and his queen made their triumphal entry into Calais, "tambours," or drums, were among the instruments which were played in their honor. Another of these was called a "naker," or kettledrum, taken, together with its name, from the Arabs. The poet Chaucer also mentions this instrument in his description of the tournament in the "Knightes Tale:"

Fyfes, trompes, nakeres and clariounes,
That in the batallie blewen blody sounes.

The king generally kept a troop of these bandsmen or minstrels in his employ, and we read that Edward II. on one occasion gave a sum of 60 shillings to Roger the trumpeter, Janino the nakerer and others for their performances.—Chambers' Journal.

The 1906-07 woman has decided upon three vagaries for her tailored appearance. Her separate waists and boots, with colored tops and curved heels, are among them. The first named article may be a plaided silk waist of simple form and trimmings, or it may be made of fine linen modeled in shirt style, but frilled down its front with a fine lace edged, knife plaited double frill, with tiny yoke tucks band run, giving breadth to the shoulders. To be de rigueur the seams must be hemstitched, while the collar worn with it should be of stiffened linen, dicky style, heavily embroidered and tied with a tiny bow.

TO VISIT KING EDWARD.

Heiress to "Carmen Sylva's" Throne One of His Cleverest Nieces.

The Crown Princess Marie of Roumania and the Crown Prince are to be the guests of King Edward and Queen Alexandra during several weeks of the London season, and will be present with their Majesties at Ascot races.

The princess is the eldest daughter of the late Duke of Coburg and of the Duchess Marie, and is one of the most gifted of King Edward's nieces.

She was little more than a child when she was married to the heir of the Roumanian throne. Ignoring conventions, she is frequently to be seen walking in the streets in Bucharest with one or more of her beautiful children, but otherwise unattended, and while the exhibition was open there last summer visitors would meet her roaming through the courts with her little girls like ordinary tourists.

The princess is greatly beloved in her husband's country—indeed, her popularity is second only to that of her mother-in-law, Queen Carmen Sylva. She spends most of the summer at a charming country seat at Sinaia, on the borders of Roumania and Hungary, where King Charles and Queen Carmen Sylva have their summer palace.

Two years ago the princess visited England, and lived during a part of the summer, with her children, in a little villa at Cowes.

Her beauty and her magnificent dresses and jewels made the princess a notable figure at King Edward's coronation fetes. She is very fond of outdoor sports, and her hobby is wood-carving.

BOY BURGLAR'S OUTFIT.

Arms and Make-Up of Leader of Juvenile Band.

An amusing story of the exploits of Frank Taylor, the boy burglar of Robin Hood Lane Station, who was charged with shooting at Mr. Damon, a solicitor, of Carshalton, was told recently.

Taylor was caught in Mr. Damon's house, and when his story of having entered it by mistake was not believed, he fired a shot at Mr. Damon from a revolver, and attempted to escape He was captured after a struggle, in which he bit Mr. Damon's hand severely.

Edwin John Barrett, 14 years old, was also arrested as one of his accomplices, and he made a confession in which he declared that he had accompanied Taylor on ten expeditions, the object of which was robbery. He said that Taylor forced him to accompany him, and stand outside while Taylor entered the houses.

The police stated that they found the following articles in his room:

A pair of handcuffs.
Black velvet coat, with ruffles and trimmed with lace at the cuffs.
Pair of jack boots with spurs.
Three sword bayonets.
Three air guns.
A breech-loading fowling piece.
Several wigs and moustaches.
A theatrical make-up box.

They also found a large quantity of sensational literature, and they learned that the boy had taken lessons in wrestling and in the use of firearms.

How an Earl Won a Bride.

The "ashes" were not the only trophy Lord Darnley brought back in triumph from Australia. He brought back a bride as well. At one of the cricket matches the tall young Englishman lost his handkerchief, and the day being extremely hot, enquired of his friends if any one of them had a spare handkerchief that he might loan.

Immediately a very feminine 'kerchief, sweet scented and of delicate fabric, was handed to him from some invisible source. It was a most acceptable convenience that hot day, and after the match he expressed his desire to thank the kindly lady. An introduction to Miss Florence Murphy followed. She was the daughter of a Victoria magistrate and a member of Sir W. J. Clarke's household as governess to the younger children.

The acquaintance so romantically commenced ripened under the kindly chaperonage of Lady Clarke, an engagement following which stood the test of a long absence in England after the cricketing tour. Then the faithful swain, who is now a representative Irish peer, returned to Australia, claimed his bride, and bore her off in triumph.—Tit-Bits.

To Save Starch.

After using cold water starch, let what remains settle. Then pour off the water and allow the starch to dry. When dry, it can be replaced in the starch box for future use.

"You Will Suffer all Your Life."

SAID ALL THE DOCTORS

Half a dozen of the best physicians told Mr. Baker that he had Chronic Rheumatism, and would have it as long as he lived. One day Mr. Baker read in a paper of a man who had Rheumatism just like him—who had been told by doctors that his case was hopeless—and who had been completely cured by GIN PILLS.

The two cases were so much alike that Mr. Baker decided he would invest 50c in a box of GIN PILLS and give them a trial.

It was the best investment he ever made. Before the first box was taken, he felt better all over, so he got another. He took that and bought a third, getting better all the time.

Hinesville, May 8, 1906.

I have been greatly benefitted by your Gin Pills, and all who have used them in this neighborhood speak very highly of them.

One of my neighbors, Mr. K., who suffered for years with Rheumatism and who has spent hundreds of dollars with specialists without receiving the slightest benefit, was entirely cured by two boxes of Gin Pills. He is proclaiming their virtues from the "housetops."

Yours truly, D. L. BAKER.

We don't even ask you to buy Gin Pills—but to try them at our expense. Write us, mentioning this paper, and we will gladly send you a free sample of these wonderful Kidney Pills that cure Rheumatism. The Bole Drug Co., Winnipeg, Man.

Sold by all dealers—50c. a box, or 6 boxes for $2.50—or sent on receipt of price.

WHO SHE WAS

SKETCH OF THE LIFE OF LYDIA E. PINKHAM

And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused It to be Offered for Public Sale in Drug Stores.

This remarkable woman, whose maiden name was Estes, was born in Lynn, Mass., February 9th, 1819, coming from a good old Quaker family. For some years she taught school, and became known as a woman of an alert

and investigating mind, an earnest seeker after knowledge, and above all, possessed of a wonderfully sympathetic nature.

In 1843 she married Isaac Pinkham, a builder and real estate operator, and their early married life was marked by prosperity and happiness. They had four children, three sons and a daughter.

In those good old fashioned days it was common for mothers to make their own home medicines from roots and herbs, nature's own remedies—calling in a physician only in specially urgent cases. By tradition and experience many of them gained a wonderful knowledge of the curative properties of the various roots and herbs.

Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and power over disease. She maintained that just as nature so bountifully provides in the harvest-fields and orchards vegetable foods of all kinds; so, if we but take the pains to find them, in the roots and herbs of the field there are remedies expressly designed to cure the various ills and weaknesses of the body, and it was her pleasure to search these out, and prepare simple and effective medicines for her own family and friends.

Chief of these was a rare combination of the choicest medicinal roots and herbs found best adapted for the cure of the ills and weaknesses peculiar to the female sex, and Lydia E. Pinkham's friends and neighbors learned that her compound relieved and cured and it became quite popular among them.

All this so far was done freely, without money and without price as a labor of love.

But in 1873 the financial crisis struck Lynn. Its length and severity were too much for the large real estate interests of the Pinkham family, as this class of business suffered most from fearful depression, so when the Centennial year dawned it found their property swept away. Some other source of income had to be found.

At this point Lydia E. Pinkham's Vegetable Compound was made known to the world.

The three sons and the daughter, with their mother, combined forces to restore the family fortune. They argued that the medicine which was so good for their woman friends and neighbors was equally good for the women of the whole world.

The Pinkhams had no money, and little credit. Their first laboratory was the kitchen, where roots and herbs were steeped on the stove, gradually filling a gross of bottles. Then came the question of selling it, for always before they had given it away freely. They hired a job printer to run off some pamphlets setting forth the merits of the medicine, now called Lydia E. Pinkham's Vegetable Compound, and these were distributed by the Pinkham sons in Boston, New York, and Brooklyn.

The wonderful curative properties of the medicine were, to a great extent, self-advertising, for whoever used it recommended it to others, and the demand gradually increased.

In 1877, by combined efforts the family had saved enough money to commence newspaper advertising and from that time the growth and success of the enterprise were assured, until to-day Lydia E. Pinkham and her Vegetable Compound have become household words everywhere, and many tons of roots and herbs are used annually in its manufacture.

Lydia E. Pinkham herself did not live to see the great success of this work. She passed to her reward years ago, but not till she had provided means for continuing her work as effectively as she could have done it herself.

During her long and eventful experience she was ever methodical in her work and she was always careful to preserve a record of every case that came to her attention. The case of every sick woman who applied to her for advice—and there were thousands—received careful study and the details, including symptoms, treatment and results were recorded for future reference, and to-day these records, together with hundreds of thousands made since, are available to sick women the world over, and represent a vast collaboration of information regarding the treatment of woman's ills, which for authenticity and accuracy can hardly be equaled in any library in the world.

With Lydia E. Pinkham worked her daughter-in-law, the present Mrs. Pinkham. She was carefully instructed in all her hard-won knowledge, and for years she assisted her in her vast correspondence.

To her hands naturally fell the direction of the work when its originator passed away. For nearly twenty-five years she has continued it, and nothing in the work shows when the first Lydia E. Pinkham dropped her pen, and the present Mrs. Pinkham, now the mother of a large family, took it up. With woman assistants, some as capable as herself, the present Mrs. Pinkham continues this great work, and probably from the office of no other person have so many women been advised how to regain health. Sick women, this advice is "Yours for Health" freely given if you only write to ask for it.

Such is the history of Lydia E. Pinkham's Vegetable Compound: made from simple roots and herbs; the one great medicine for women's ailments, and the fitting monument to the noble woman whose name it bears.

ATTRACTIVE TRIFLES.

Brown Boots For Spring—Practical Girdle—Gray Popular.

Brown boots are going to be very much worn this spring. With a brown costume russet boots are particularly attractive, but they are now worn with gowns of all colors, even black, save in mourning.

A pretty girdle is formed of two bias folds of the goods, or silk may be used if the frock is not self trimmed, the lower fold being attached to the skirt, while the upper is set on the bodice. When adjusted, which work is done by means of any one of the patent devices

FOR THE WEE TOT—5691.

for fastening, the juncture between bodice and skirt cannot possibly be detected.

Gray is one of the smart spring colors and is a prominent shade among the new tailored suits, ranging from pearl gray to dark oxford tones. There are many invisible plaids and checks in this color. Pretty, too, are the gray silks and plain toned gray pongees.

When yellow, which this season is such a modish color, is becoming, try wearing it with a lace yoke to keep the trying yellow tint away from the face. By this means very often a really unbecoming shade of any color can be adapted to the wearer.

Ribbon threading is a decoration successfully applied to lingerie, lace and silk blouses and bodices.

There is no cessation in the elaborate use of lace and the lavish employment of ribbon in decorating gowns, the only difference being in the new designs concocted by the manufacturers and the pleasing conceits modistes weave from ribbons for beautifying costumes.

Although the tailored shirt is to be popular, the intricately exquisite lingerie blouse with its incrustations of hand work and insetting of fine lace is in no danger of being ousted.

The tiny tot's dress illustrated is of Persian lawn trimmed with lace and embroidery consisting of tiny flowers somewhat conventionalized.

JUDIC CHOLLET.

GLIMPSES OF THE MODE.

Smart Effects in Tailor Mades—New Ginghams Are Charming.

Many of the new tailor mades for spring show the popular hip length coat and jaunty Eton.

New plaids in gingham are charming, nor are the tartans the only varieties. Sizes vary from a quite large pattern down to the smallest check.

Other smart skirts have hip yokes of varying depth, cut under which fall wide and narrow stolelike pieces.

Trimmed skirts are in vogue, but on the new models the principal ornamentation is put on above the hem. As all these dress skirts must be quite long, there is none of the barrel effect so much in favor and so unbecoming about two or three years back. There is little or no fullness allowed about the waist and hips, for both the princess and empire designs are still popular, and neither allows of any fullness above the knees.

All white costumes are always smart,

IN SAILOR STYLE—5597.

Fine muslins, dainty lingerie, iron easier, look better, last longer if the laundress uses the only cold-water (no boiling) starch that really saves work and really won't stick. Try it. Get

PEN-ANGLE

Pen-Angle Underwear is form-knit so it can't help fitting your figure,—it's made of long-fibred wool so it won't shrink—and it's guaranteed besides. The whole idea is to make it so good you can't afford not to buy by the trademark (in red).

In a variety of styles, fabrics and prices, for women, men and children. Firm-fitted. Dealers are established to replace instantly and at their cost any Pen-Angle proved faulty in material or making.

UNDERWEAR

but this year the striped ones are the fad. White with a hair line of black or dark blue made with facings of black on collar and cuffs is a favorite pattern, and there is an endless variety in the width of the stripe. In dark colors the hair line of a darker or lighter shade is far smarter than the shadow check or plaid of last year, and the colors are most charming.

There are not many long coats this season. The three-quarter length in the cutaway design with round front is a winner, while the much shorter half fitting pony coat is also popular.

Sailor costumes for girls are always worn. The one in the cut is of white linen banded with blue. The usual emblems are worked on sleeves and shield.

JUDIC CHOLLET.

FOR THE SMALL GIRL.

Four-in-hand Ties Smart on Sailor Suits.

The little tailored linen and duck dresses in variations of the Russian blouse and sailor style to be worn by small girls this spring and summer display an added charm in the effective disposition of the colored collar, cuffs, belts or strappings in combination with

A STYLISH MODEL.

the white material of which the dress is made. Hand embroideries in blind effects are another feature of this type of dress, while the narrow, stiff linen collars to be worn with long and narrow four-in-hand ties are by far the smartest trimmings in the new season's models.

A New Skirt Hanger.

A skirt does not always keep its shape when an ordinary hanger is used, and so one ingenious woman has evolved the following simple arrangement for accommodating a considerable number of skirts in the smallest possible space.

First she screwed in a few inches from the back of the closet on each side a small brass hook such as is used in china closets.

The next step was to get a piece of strong but slender cord long enough to extend across the closet from hook to hook.

On this cord she strung a dozen or more large safety pins by running the cord through the opening in the clasp of the pin.

She folds her skirts exactly in half, sticks the point of a pin through the waistband at back, front and halfway between these two points; then she fastens the safety pins, and her skirts hang in their natural folds, with little strain and away from the wall.

The pins slide freely up and down the cord, and skirts may be hung three deep and not get crushed or wrinkled.

Amusement For the Tots.

However soon children tire of playing with toys, they always find endless amusement in making new playthings for themselves. The fabrication of paper dolls out of colored fashion plates is a work which will easily serve to pass away a wet afternoon in the nursery. The figures should be cut neatly round, pasted on to cardboard and this in turn cut out, so as to stiffen the figures, says Woman's Life. The arms and legs can be made to move if these are divided in the first instance, mounted separately on cardboard and attached to the dolls by means of small paper fasteners, the heads being treated in like manner.

Use For Daily Papers.

The careful housewife has a use for everything, and the daily papers are by no means an inconsiderable factor toward insuring a clean kitchen. For instance, a supply of paper folded in eight and hung up over the kitchen sink will be found most convenient to slip under a hot kettle that has just been lifted from the stove, says Woman's Life. A store of full sized sheets should likewise be kept in the kitchen table drawer, so that there is always one handy to spread over the table if necessary during work, which can be afterward burned to a cinder.

SARTORIAL NEWS.

Something New Under the Sun—Cretonne Parasols—Silk Petticoats.

Parasols of brilliantly gay cretonne are being carried at the winter resorts. This is actually something new under the sun, and if they "take" will make the landscape gay when next summer's light frocks come in.

If one expects to give hard wear to a silk petticoat it is false economy to buy a cheap skirt, and one can today get a taffeta in a serviceable quality. There is a firm in New York city that makes to order black silk petticoats of a certain taffeta and guarantees them to stand everyday wear for six months without splitting or cracking or otherwise showing wear. If they fail to do this the purchaser receives materials for a new skirt and one-half the purchase money. Under such conditions the wearing of a silk skirt is not the extravagance it once was.

ONE OF THE NEW LINERS—5612, 5605.

Next to white, pale shades, with shrimp pink in the lead, are colors that will be favorites next summer. Brightest peacock blue appears now and then in the spring color schemes, but looks out of harmony with its surroundings.

An unbleached canvas weave of linen is very popular for shirt waist gowns, and the dainty model in the picture is made of this new fabric.

JUDIC CHOLLET.

MODISH MATTERS.

Light Tones In Tailored Suits—Japanese Influence in Sleeves.

White grounds figured conventionally with black are designs much liked in the new materials. White with black, not black with white, is in high favor among silks and wools alike. The vogue for light tones is deep seated, and the woman given to economical middle and dark tones for her tailor made will find herself a dun colored figure among her daintily clad associates.

The influence of the orient is constantly being felt in some form or another in the west. Just now Japanese

A POPULAR GOWN—5592, 5604.

influence is evident in the art of making clothes for fashionable women. Kimono shaped sleeves are a smart fad.

For dressy coat and skirt costumes this spring crepe de chine and liberty satin are favorites.

Hand embroidered gowns are seen in many fabrics. The latest thing is the embroidered taffeta frock.

A linen butterfly, the markings embroidered on with linen thread, is a pretty little French idea to wear with a linen collar.

The cabbage rose that has adorned the fashionable winter hat now blooms on filmy dress goods, which are uncommonly flowery this year.

Particularly dressy is the skirt of the frock illustrated both for wash and other thin fabrics. The skirt is made in three sections, each of which is straight at its lower edge. The waist is a dressed up blouse affair and comes with its sleeves in three lengths.

JUDIC CHOLLET.

For the Chafing Dish.

Tomatoes and Nuts.—Stew for half an hour two cupfuls of canned tomatoes with one cupful of chicken stock or gravy thickened with a little flour. This may be cooked beforehand and strained and left until needed. When wanted reheat in the chafing dish, adding half a cupful of chopped English walnut meats, pepper, salt, a little butter and one beaten egg. Let simmer for one minute, then pour it over slices of bread slightly toasted and place on leaves of lettuce on separate plates. Place one spoonful of whipped cream, slightly salted, in the center of each and serve.

To Clean Wall Paper.

An English method of cleaning wall paper is one well worth knowing, for it is simple and better than any dusting. Make a paste by mixing four pounds of common wheat flour and two pints of cold water. Knead this into a stiff dough and form into two or three balls.

Well Cared For Hands.

A well cared for hand always lends a distinct touch of refinement to one's appearance, and the well groomed girl will give it careful attention, keeping the nails immaculately clean and nicely manicured as well.

It is quite possible with the proper tools to do this oneself without the expense of employing a manicure.

A good "silk file," some emery boards with which to even off the edges after using the other file, a pair of scissors, a good buffer, with some reliable polish and an orange stick for pushing back the cuticle, are all that is necessary.

If these are used every few days in conjunction with the nailbrush daily, astonishingly attractive results will follow.

A tiny bit of pumice stone for removing ink stains, etc., from the fingers should be kept on the washstand. If not pumice, then lemon juice will answer the same purpose.

HEART TROUBLE CURED

In the rush, hurry and worry of modern times, we overwork the heart. Is it any wonder then that there comes a breakdown of this wonderful little engine, when such a continued strain is placed upon it day after day. There are many forms of heart trouble and the slightest derangement of this important organ is extremely dangerous. To strengthen the weak heart it is necessary to use a remedy that will act upon the heart tissue, restore and revitalize it and at the same time tone up and invigorate the nervous system, we have such a combination in

MILBURN'S HEART AND NERVE PILLS

Mrs. Ella Dingman, Morganston, Ont., writes of her experience with them: "It is with the greatest of pleasure that I recommend Milburn's Heart and Nerve Pills. I was troubled for a long time with my heart; I had weak and dizzy spells, could not rest at night, and I would have to sit up in bed the greater part of some nights, and it was absolutely impossible for me to lie on my left side. At last I got a box of Milburn's Heart and Nerve Pills and they did me so much good I got another box and they effected a complete cure. I have not been troubled with my heart since."

Price 50 cents per box or 3 boxes for $1.25 all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

5 Cups of Tea 1¢.

Synopsis Of Canadian North-West HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land is situate.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act, as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

Ahead, Yet Behind.

The nervous foreigner got up and went back to the conductor of the street car.

"Pardong, m'sieur," said he, "but zee car, he run so slow, and why, if you pleese? Ees it not so?"

"Yep," replied the conductor. "We can't help it, though. You see, the car ahead is behind."

The foreigner's eyes opened wider. "Would you mind saying him again?" he asked apologetically.

"I say," replied the conductor, louder than before, "that the car ahead is behind. See?"

The foreigner returned to his seat. "Zee car-r-r ahead, he ees behind?" said he to himself. "Most wonderful. most astonishing is sis country!"

Her First Birth.

Black Sarah was busily employed about our northern kitchen, remarked a prominent housekeeper, when I had occasion to go out there and by way of being pleasant said:

"You are from the south, are you not, Sarah?"

"Law, yes, miss!" was the answer.

"Born in the south?" I continued.

"Originally bawn in Richmond, miss," was the astonishing reply.

Her Fear.

A little girl remarked to her mother, "I am not afraid in the dark."

"Of course not," said the mother.

"I was afraid once, though, when I went into the pantry to get a tart," she added.

"What were you afraid of?"

"I was afraid I would not find the tarts," was the reply.

No Need to Cry.

"Don't cry, Buster," said Jack after the catastrophe. "Napoleon didn't cry every time his brother hit him accidentally on the eye."

"I know that," retorted Buster. "Napoleon did all the hittin' on the eye hisself."

Pensions For Mothers.

In an interesting article on old-age pensions in the current number of The Empire Review, Mr. A. C. Brownlow declares that the class of the community which deserve pensions most are the wives of working men—the women who, on a wage of sometimes less than 20s. a week, have brought up a large family.

"Without the mother where would the nation be?" he asks. "Yet what is the State doing at present for the mothers of England? Surely these women above all others should be able to look forward to a period of rest after fighting the battle of life.

"With a State pension how much lighter would the burdens of the working man's wife become? What an influence for good would she be in her old age to the young mothers of a rising generation, instead of as at present a drag on the energies of her offspring, young people who ought to be able to give all their time and devotion to their own families."

Blood Poison

Speedily and permanently cured by INDIAN SALVE, the greatest remedy ever discovered for BLOOD POISON, GANGRENE, POISONOUS BITES, CANCER, PIMPLES, etc.

INDIAN SALVE is purely vegetable, non-poisonous, and can be taken internally as well as applied externally.

Don't waste your time and money experimenting with worthless imitations. Your money refunded if we do not effect a cure.

On sale at all druggists and department stores, or will be sent under plain sealed wrapper upon receipt of $1.00.

FREE A sample box, just enough to convince you of the great merit of INDIAN SALVE, will be sent to you free upon receipt of 10c, which pays for the cost of mailing. We will also send you our booklet on general diseases, and list of testimonials, etc.

USEFUL PRESENTS.

Pretty Little Articles Popular With Fancy Work Makers.

Among the pretty things popular with makers of fancy work this season are the lavender sachet and the hot water bottle cover illustrated herewith.

Linen is often used for this sachet, but mousseline de soie is considered a

LAVENDER SACHET.

more appropriate material for the model, which is four inches wide and eight inches long. After making the cover, which is sewed all around, turn it inside out and outline a little pocket with featherstitch in red silk to hold the lavender. Finish it with red ribbon tied about the center and ending in a bow on top.

The cover of the bottle is made of light blue eiderdown flannel, but any

COVER FOR HOT WATER BOTTLE.

attractive woolen goods will do as well. The prime requisite of this cover is that it must be considerably larger than the bottle, so that the latter can be easily slipped into it. The edge may be overcast or bound with some pretty wash ribbon that matches the material. The bag should never be more than half full of water, the heat of which is better retained by means of this soft cover than by the towel ordinarily used to wrap it in.

The dainty little sun hat can easily be made at home in a couple of even-

BABY'S SUN HAT.

ings. It is made of heavy white linen embroidered in scallops and dots. It will outwear several straw or swiss hats.

When Buying Bananas.

When you are buying bananas, never purchase the long, thin ones unless you want fruit which will pucker your mouth. No matter how well ripened these thin bananas are, they will always be found both sour and acid.

That is because the bunch containing them was picked too soon. The banana grows fastest at first in length. When it has reached its fullest development in that direction, it suddenly begins to swell and in a few days will double its girth.

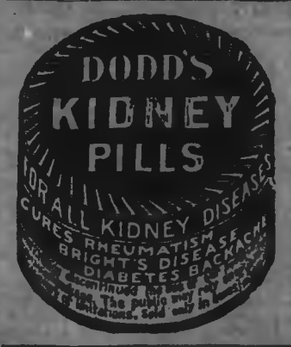
At the same time very rotund bananas should be avoided, for many knowing venders can produce this effect on the fruit by artificial means.

School Children Boycotted.

A curious deadlock has arisen between the education authorities of Durham County and the Borough of Gateshead. Recently Gateshead took a census of the county children attending its schools, and demanded payment for some four to five hundred coming from Durham. This demand has been refused by the county, and the Gateshead Education Committee approved of a circular to send the parents of the children living over the borough boundeary, informing them that their children will not be admitted to the Gateshead schools after the end of next month.

Queensland Fibre Plants.

Queensland is particularly rich in fibre plants, one called by the aboriginals "boorgay" being so tenacious that if the leaf is simply twisted into a rope it will bear the strain of several hundredweight. It is now found that there is growing around Brisbane a fibre plant called by botanists "murva," that will yield fibre of great value. Major Boyd of the Agricultural Department netted some "murva" leaves and sent a sample of fibre to a rope-making firm in Germany for test, and these manufacturers are now prepared to purchase it at $170 to $200 a ton.



KILLS HIS THIRTEENTH LION.

Explorer's Narrow Escape—Life With the Pigmies.

A Friday adventure with his 13th lion was, the superstitious will note, one of the most exciting incidents in Major Powell-Cotton's novel honeymoon.

The famous explorer has just returned after 27 months of travel in Africa. In 1905 he intended to return to England to be married, but hesitated about breaking his journey, and so his fiancee went out to East Africa, where the wedding took place. Since then they have explored together the land of the pigmies of the Ituri Forest.

It was in October last, while on the bank of the Sassa river, near Lake Albert Edward, that Major Powell-Cotton had his most exciting adventure. A lion which he had wounded sprang on him, digging its claws in the major's back and legs.

It tore its victim's coat to shreds, and then attempted to tear open the abdomen, but owing to a folded copy of Punch which Major Powell-Cotton had in his pocket, the brute's claws were unable to penetrate to the flesh. Finally an Askari shot the lion dead.

It was then found that Major Powell-Cotton had received 17 wounds. He, however, rode to the nearest Belgian camp, where he was nursed back to health by Commandant Bastien.

This incident happened on a Friday, and it was the explorer's 13th lion.

Among the Pigmies.

Speaking of his experiences with the pigmies, Major Powell-Cotton says:—

"The excitement of these little people when they first saw my wife was extraordinary, for they had, of course, never previously beheld a white woman. Perhaps the chief source of wonder was her long hair, which, for the special benefit of the dwarfs, she would let down, while they crowded round our tent in speechless wonder.

"Occasionally when away I would leave my wife alone. She had learned a little of their language, and did excellent medical work among them. In my absence she took charge of the caravan, and was always treated with the greatest respect by the people."

On the conclusion of the work in the forest the expedition proceeded to Lake Albert Edward, where the explorer visited a tribe of lake dwellers, who spend their whole lives on the water. Their houses are all built on floating platforms, anchored to long poles. The main floating village consists of 30 huts, while two others comprise 10 and seven respectively.

"Some of these grass huts," says Major Cotton, "were built round a small square platform about 25 feet by 10. This forms the common back yard and practically the world of the children. The people were healthy, well fed, and good-looking. They rarely marry outside their own community, for they say a land woman would be useless and unhappy if compelled to live on their lake villages."

Boers Hate Chinese.

The new Transvaal Ministry will adopt no heroic measure with regard to the repatriation of the Chinese coolies.

The Imperial Government will be thoroughly disillusioned if it expects the Boers to display any anxiety in the direction of sending the Chinamen home.

General Botha, the new Premier, and his colleagues do not love the Asiatics, but they are wise enough to approve their stay in the country so long as it is to the Boer interest.

The Boers are far more interested in farming than in gold mining, but the success of one depends on the other. If the Chinamen were sent away, the demand of the mines for Kaffir labor would be so great that the Boer farms would be depleted of their hands.

If the Radical party knew how the average colonial in that country regards them, they would understand why people say they prefer Boer rule to being left to the erratic mercies of Downing street under a Liberal dispensation.

The real cause of the distress that prevails in Johannesburg among men whose wealth ran well into six figures only a few years ago is not far to seek. There are many capitalists who have retired to Europe, and have lent money on mortgage of real estate at 7 or 8 per cent. through the medium of the bankers.

Owners of property find it almost impossible to pay mortgage interest, and the mortgagees are foreclosing in every direction. There are no buyers, and absentee lenders can become owners of first-class properties at any price from a third to a half of what they cost to erect.

Laundry Suggestions.

Things to remember in washing:

That flannels are washed first.

That white things come next.

That colored things are done while white things are boiling.

That dirty kitchen aprons and cloths come last of all.

That soaking is done in tepid water.

That rinsing is done in tepid water.

That extremes of heat and cold cause shrinking.

That soap jelly is necessary for woolen things.

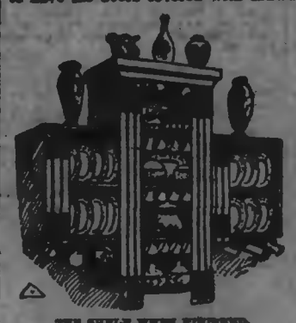
That soap must be thoroughly rinsed out before bluing.

That blue must be well mixed through the water.

A CHINA CUPBOARD.

How to Make and Decorate One That Is Both Pretty and Useful.

Much cheer may be brought into a small apartment by the method of furnishing. It is a mistake to get the conventional "suits," especially where means are limited and the furniture must necessarily be ordinary. Pretty chints is so cheap nowadays and is so decorative that it is better to upholster with it as much as possible. It gives a cosy look to a sitting or dining room to have the doors covered with drawn



THE SHELF WHEN FINISHED.

folds of chints to match that of the curtains and the decorations of the mantelpiece. China, too, is a great addition to a dining room, and, instead of having it shut up in a pantry, it is prettier to display it in an open cupboard, hanging everything with handles on hooks underneath the shelves.

The accompanying sketch shows a pretty model for a hanging cupboard, which may be either entirely covered with chints or may be made of planed pitch pine and painted white, with only the curtains of chints, while the construction is so simple that any ordinary carpenter can make it in half a day. Little brass hooks with screws may be bought at any hardware shop to hang the cups on. Nothing gives a more cheerful look to a room, combined with pretty chints, than white woodwork, and, contrary to the general idea, nothing is more desirable, for a damp cloth will remove all stains, and it is easy at any time with a brush and tin of white paint to freshen up the whole. Moreover, it takes twice the amount of light to illuminate a room finished in dark colors as it does one where white predominates.

Hidden In Gully.

A strange discovery of sovereigns, for which, up to the present, no owner can be found, was reported to the Wandsworth Borough Council recently.

The surveyor, Mr. Marten, stated that a total of $105 in gold was found by employes of the council in a gully in Clapham Park road the other day. Twelve pounds were found in three separate amounts, the other nine pounds being discovered after a special search.

The men who made the strange discovery refused to surrender the money at first, but were at length prevailed on to do so. The matter was reported to the police, but despite this fact, nobody has yet claimed the money.

Ald. Lorden suggested that "the least said the soonest mended," and the subject was dropped.

Historic Relic Doomed.

The house in which Daniel Defoe wrote "Robinson Crusoe" is doomed to demolition. This is the old manor house standing back from the road opposite Tooting Junction and surrounded by an old-world garden. The house is seldom visited by English people, but many Americans alight to inspect it on their way to view Merton and what is left there relating to Nelson.

With rye, scotch or brandy, York Sparks adds zest and improves flavor, because no salts overload it; it does wonders in bringing out the bouquet of spirits. Ask for it at good hotels and clubs; or tell your wine merchant you want it.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing shold be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

SOLICITORS, 134 Hunter St., Peterboro

FAST TRANSIT TO CANADA.

24-Knot Boats Will Run In Near Future.

London, April 30.—(C. A. P.)—The Canadian Associated Press yesterday had undoubted authority to state that the fast Atlantic service which has been so long in contemplation will in the very near future be an accomplished fact. There is to be a 24-knot service across the Atlantic and a fast service on the Pacific, cutting down the time to such an extent that the route will practically command business. It is regarded as the greatest Imperial project approached for many years, making, as it does, the route from the Mother Country and Canada to Eastern countries the world's thoroughfare. It is very well understood here that Lord Strathcona and Clifford Sifton have devoted a great deal of time and consideration to the matter, and will probably, if an agreement is reached with the Government's consent, undertake to make the necessary arrangements to carry the enterprise into effect. There will be then no more need of addressing letters to Canada via New York.

It is believed that the project will have the endorsement of the conference. It will no doubt involve a heavy subsidy from Canada, and no doubt Great Britain will participate equally.

ATROCIOUS CRIME.

Little Girl Assaulted and Murdered By Her Uncle.

Bennington, Vt., April 30.—News was brought here yesterday of an unusually atrocious crime in North Bennington Sunday night, the victim of the tragedy, a child less than 4 years old, having been criminally assaulted and then murdered.

The victim of the crime was Ethel Mahan, the daughter of Jerman Mahan, a carpenter. The alleged assailant and murderer is Alfred Mahan, 23 years old, a brother of the child's father, who had volunteered to accompany the little girl from a pond where her father was fishing, to her home.

When the fishing party returned home there was no trace of the little Ethel. Search was made, and in a clump of bushes the body was found with the throat horribly cut and bearing other evidence of fiendish mistreatment.

Alfred Mahan, who is said by the authorities to have been the last person seen with her, was arrested.

ON TRIAL FOR GRAFT.

Municipal Officials Appear in Criminal Court For Bribery.

London, April 30.—The first trial here in a long time of municipal officials for receiving bribes began yesterday, when six members of the West Ham (an eastern suburb of London) board of guardians and four workhouse and infirmary officials appeared in the dock of the criminal court, charged with accepting money for awarding contracts for coal and other supplies, and for appointing minor officials.

The sums involved are comparatively small. It is charged, for instance, that a doctor paid $500 for a hospital appointment.

Attorney-General Walton and three assistants are prosecuting the officials, who are defended by a large array of counsel.

Adopt the Same Policy.

London, April 30.—(C. A. P.)—When the Imperial Conference opens for the discussion of preference on Tuesday, it is stated that the Premiers from Australia and Cape Colony will press their resolutions with vigor, while Laurier and Botha will take the line that it is not for the colonies to dictate a policy to the Imperial Government no more than for the latter to dictate a policy to the colonies.

The Imperial Government will, of course, adopt a nonpossumus attitude in the debate, which will probably extend over more than one sitting. In fact it is anticipated that at the present rate of progress the conference cannot conclude before another fortnight elapses. The keenest interest continues to be manifested in the question here, and appeals are being made from all quarters for publicity.

To the fact that the Premiers have accepted an invitation to luncheon from John Redmond, some signification is attached.

HR By Elevator.

Toronto, April 30.—A serious accident occurred in The Saturday Night Building yesterday afternoon. A boy named Charles Pitcher, who lives at 23 Morse street, and is employed in The Saturday Night composing-room, was lounging on the third floor. He had his head bent over the safety wire trellis watching the operations of the elevator. As it came up the weights descended, catching him on the back of the head, and causing a gash almost from ear to ear and laying bare the skull.

He was taken to St. Michael's Hospital.

A similar case was only discharged from that institution in the morning.

Mail Carrier's Trial.

Springfield, Mo., April 30.—The trial of Garland Moore, the mail-carrier, who, in December last, at Boise d'Arc, near here, shot and killed Clara Vest, a young society woman, because she had spurned his attentions, was begun here yesterday.

Shot Dead in His Cabin.

Vancouver, B. C., April 30.—News was received yesterday morning of the murder at Kemano of J. A. Pocklington. He was found in his cabin shot through the head. He was first cousin to Lord Curzon, and the Duke of Portland was his godfather.

FOR ALL HUMOURS

Eczema, Salt Rheum, Pustules, etc.—no remedy heals more quickly than Mira Ointment.

Mira relieves inflammation, soothes pain, causes new tissue to cover raw surfaces, and reduces the skin to healthy smoothness.

Mrs. J. Webb, 175 Dovercourt Street, Toronto, writes: "It is a wonderful cure." J. Trussell, Hamilton, says: "I highly recommend your Mira Ointment for Eczema."

Mira Tablets and Blood Tonic help to a more thorough cure. At druggists—or from The Chemists' Co. of Canada, Limited, Hamilton—Toronto. Insist on getting

CATTLE MARKETS.

Cables Lower—Cattle Easier, Hogs Lower at Chicago.

LONDON, April 29.—Liverpool and London cables are easy at 11½c to 12½c per lb., dressed weight; refrigerator beef is quoted at 8½c to 9c per lb.

Toronto Junction Live Stock.

TORONTO JUNCTION, April 29.—Receipts of live stock at the Junction Market were 35 carloads, composed of 758 cattle and 102 calves, and a few sheep.

Exporters.

Prices were easier, ranging from $4.90 to $5.25, the bulk selling at $5 to $5.12½ per cwt. Export bulls sold at $3.75 to $4.25.

Butchers.

Trade in butchers' cattle was fairly good at following quotations: Prime picked lots sold as high as $5 to $5.25; fair to good loads sold at $4.75 to $4.90; medium at $4.50 to $4.65; cows at $3.50 to $4.50 per cwt.

Milch Cows.

A limited number of milkers and springers sold at $40 to $60 each.

Veal Calves.

The supply of calves was larger than usual at this market, and prices ranged from $3.50 to $6.50 per cwt.

Sheep and Lambs.

A few sheep and lambs sold as follows: Export ewes at $5 per cwt.; yearling lambs at $7.50 per cwt.

Hogs.

H. P. Kennedy reports selects at $6.40 and lights and fats at $6.15 per cwt.

Montreal Live Stock.

MONTREAL, April 29.—(Special.)—There was a good demand for cattle to-day. About 350 head of butchers' cattle, 40 milch cows, 100 calves, 50 fat hogs, 20 spring lambs and a few sheep were offered for sale at the East End Abattoir, while the offerings at 60 St. Charles' stock yards were 1000 head of cattle, 829 hogs, 145 calves and 47 sheep and lambs. Trade was fair, but the price of cattle had a downward tendency, a few of the best beeves selling up to 5¼c; but they were better than those which sold at equal rates last week. Pretty good cattle sold at 4c to 5c, and the common stock at 3c to 4c per lb. Milch cows sold at $25 to $35 each. Calves sold at from $1 to $6 each. Sheep that were shorn sell at 5¾c to 6c per lb., and the unshorn sheep at about 4¼c per lb. Spring lambs sell at $3.50 to $6.25 each. Good lots of fat hogs sold at about 7c per lb.

East Buffalo Cattle Market.

EAST BUFFALO, April 29.—Cattle—Receipts, 4000 head; slow; cows, bulls and feeders steady; others 10c to 20c lower; prime steers, $5.65 to $6; shipping, $5.25 to $5.60; butchers, $4.60 to $5.40; heifers, $4.25 to $5.35; cows, $3.80 to $4.75; bulls, $3.50 to $5; stockers and feeders $3.85 to $4.75; stock heifers, $3.25 to $3.75; fresh cows and springers in good demand and steady, $30 to $55.

Hogs—Receipts, 16,200 head; fairly active; pigs a shade higher; others 5c to 10c lower; heavy, $6.75 to $6.90; mixed, $6.90; yorkers and pigs, $6.90 to $6.95; roughs, $5.90 to $6; stags, $4.50 to $5.

Sheep and Lambs—Receipts, 18,000 head; active; yearlings and mixed sheep steady; others easier; lambs, $5.90 to $7.80; yearlings, $6.75 to $7; wethers, $6 to $6.25; ewes, $5.50 to $5.75; sheep, mixed, $3 to $4.

New York Live Stock.

NEW YORK, April 29.—Beeves—Receipts, 3576; steers slow and 10c to 15c lower; bulls lower; bologna cows steady; others 10c to 15c lower; steers, $4.60 to $6.25; bulls, $3.75 to $4.75; cows, $2.20 to $4.25; few extra heavy, $4.60 to $4.60. Exports to-morrow, 900 cattle and 4000 quarters of beef.

Calves—Receipts, 7815; veals 25c to 75c lower; general sales, 50c off; veals, $4.50 to $7; few choice, early, $7.25.

Sheep and Lambs—Receipts, 5398; sheep steady; lambs firm and 15c to 25c higher; clipped sheep, $4 to $5.90; no wooled sheep offered; clipped lambs, $6.50 to $7.50; unshorn do., $7 to $8.50; spring lambs nominal.

Hogs—Receipts, 10,436; market easy at $7.10 to $7.20 for state hogs.

Chicago Live Stock.

CHICAGO, April 29.—Cattle—Receipts, about 22,000; market weak to 10c lower; common to best steers $4.40 to $6.40; heifers, $3.25 to $5.60; cows, $3.80 to $5.25; bulls, $3.85 to $4.75; calves, $3 to $5.50; stockers and feeders, $3 to $5.25.

Hogs—Receipts, about 12,000 head; market 5c lower; choice and heavy shippers, $6.50 to $6.52½; light butchers, $6.52½ to $6.55; light, mixed, $6.52½ to $6.55; choice, light, $6.55 to $6.57½; packing, $6 to $6.50; pigs, $3.50 to $6.50; bulk of sales, $6.50 to $6.52½.

Sheep and Lambs—Receipts, about 22,000; market steady; sheep, $4.25 to $5.25; yearlings, $5.25 to $7; lambs, $6.75 to $8.75.

Toronto, April 30.—Provincial Detective Rogers left for Caledon Township, in Peel County, yesterday morning, where he is to continue an investigation into some alleged cases of poisoning cattle.

WILL OF THE PEOPLE.

Local Option Not to Be Thwarted by Technicalities.

Toronto, April 30.—It is reported that the Government has under consideration a definite policy to be pursued in the case of the quashing on mere technicalities of local option by-laws carried in the older sections of the province by the necessary three-fifths majority or more. In respect to New Ontario the veto power contained in the license act gives all the necessary authority required by the Government to deal with the situation. As to the older portions of the province, the situation is not so clear. One report yesterday was in effect that the Government would overcome the difficulty by flatly declining to approve of licenses issued by Boards of Commissioners where the bylaws were quashed on technicalities, provided that the evidence was clear that no improper or wilfully wrong acts could be shown.

Premier Whitney practically confirmed the report that the matter was under consideration when in answer to questions by the newspapermen he said yesterday morning:

"As far as possible some standard should be set beyond which technical objections would not prevail. I am quite satisfied that the judges would welcome something of that kind, and I shall be glad indeed if the Government can aid in bringing about some such standard."

ARGUES AGAINST PREFERENCE.

Because, Says Australian, Colonies Will More Than Supply Empire.

London, April 30.—(C. A. P.)—Pulsford, an Australian Senator, has issued, in connection with the meeting of the Colonial Conference, a lengthy memorandum upon the question of the preference containing a statement of the economic position as it affects the colonies. Pulsford argues that the demand for a preference cannot be justified in view of the fact that the production of the colonies in nearly all food and natural products will, in a short time, be in excess of the consuming capacity of the Empire.

The Duke of Connaught yesterday gave a private luncheon to the Colonial Premiers and ladies at Clarence House, St. James' Palace. Later there was a reception, and a large number were present.

MAY VISIT TRANSVAAL.

Sir Wilfrid Laurier Will Go If at All Possible.

London, April 30.—(C. A. P.)—The Canadian Associated Press understands that Sir Wilfrid Laurier promised, if he found it possible he would accept Gen. Botha's invitation to visit the Transvaal, but when Sir Wilfrid extended a like invitation to the Transvaal Premier, Gen. Botha replied that it would not be possible for him to leave the Transvaal again for some years.

Sir Wilfrid has accepted an invitation of the London Gaelic Society to a Scottish concert to be given in honor of the Colonial Premiers on May 11.

The freedom of the city will be presented to Sir Robert Bond on Wednesday morning at Guild Hall.

SHIPS THAT WILL FLY.

Aerial Navigation to Shorten Atlantic Voyage to Twenty Hours.

London, April 30.—Dr. Alexander Graham-Bell said Sunday night that it was only a question of a brief period when the progress of aerial navigation would make it possible to have dinner in America and breakfast the next morning in Europe, covering the distance across the Atlantic in considerably less than twenty hours.

"My expectation," said Dr. Bell, "is that an airship will be perfected capable of making 150 to 200 miles an hour. My opinion, however, is that the next step in aerial flight will take the form of such improvements as will make possible the creation of aerial battleships."

London, Ont., April 30.—Richard Evans was arrested Sunday night by Detectives Egleton and Nichol charged with stealing a horse valued at $250 from the stock farm of Ald. Stoddard, of Buffalo. The farm is located in Nissouri, and it is stated that Evans went there on Saturday night and stole the horse.

Admires Canada's Way.

London, April 30.—(C. A. P.)—Sir Francis Channing, M. P., has an informative article on "Agricultural Education" in the May number of the Fortnightly Review. The manner in which Canadians have applied themselves to the furtherance of agricultural education has Sir Francis' greatest admiration.

Fire Insurance

The most important point in Fire Insurance is the selection of a Company which offers absolute security. Experience of the recent great conflagrations in Baltimore, Toronto and San Francisco shows that the English and Scottish Companies stood the severe strain of those appalling losses better than any other, and proves that the following are among the leading Companies in the world:—

BRITISH

Alliance Assurance Company, Commercial Union, Liverpool & London & Norwich Union, London Assurance, Northern, Sun, Globe, Caledonian, Union.

AMERICAN

Hartford, Insurance Coy of North America, Queen

The above, as well as a number of other first-class Canadian and American Companies are represented by

BLAZE AT TORONTO THIS MORNING

Davies Brewery Company's Premises Destroyed By Fire.

LOSS MAY REACH $200,000

Outbreak Occurred In Old Elevator—Flames Breaking Through Roof Before Alarm Was Given—Several Buildings Gutted — No Lives Lost—Firemen Had Dangerous Task — Property Insured.

Toronto, April 30.—Fire swept the buildings of the Davies Brewing Co., at Queen street and the Don Esplanade this morning. The loss may reach $200,000.

Those who suffer loss are:

The Davies Brewing Co., $80,000.
The Ontario Storage Co., $40,000.
The Dustless Method Cleaning Co., $5,000.
The Crown Bottling Works, $5,000.
John Dick, owner of a portion of the buildings, $30,000.

The blaze originated in the old elevator of the brewery, now occupied by the Ontario Storage Co. The cause is unknown.

At 12.30 a.m. P. C. Hawthorne saw flames coming from the roof of the building, a two-storey brick structure, and he pulled an alarm from box 217.

General Alarm.

Chief Thompson was one of the first to arrive and promptly sent in a call for reinforcements, the firemen from Bay, Queen, Yonge street and Rose avenue stations responding.

There was a dense smoke, and the fire was hard to get at.

At 1.30 John Dick, who owns the building, warned the firemen to beware of the east wall, which, he said, was in danger of collapsing.

A few minutes later the blaze got into the malthouse of the brewery, and in less than an hour the roof had fallen in.

It was feared that the storage department would ignite.

A corrugated iron building, occupied by the Dustless Method Cleaning Company, was badly damaged. Two tanks of gasoline were in the building, and made the task of the firemen very dangerous.

A building occupied by the Crown Bottling Works was scorched. Arthur H. Davies is proprietor.

The Davies Brewing Company includes Arthur H. and Franklin J. Davies. They estimate the loss to the malthouse at $60,000 on contents and $30,000 on building. The storage warehouse is valued at $60,000.

The building occupied by the Storage company is owned by John Dick, and was valued at $30,000, and fully insured.

John H. King is proprietor of the Storage Company.

Three horses were taken from a stable which was threatened.

The residence of A. H. Davies, on River street, was in the danger zone, and the contents were removed.

Firemen Hampered.

The structure of the buildings, with few doors and windows, greatly handicapped the firemen in getting at the blaze. The storage building was beyond saving when the firemen reached the spot, and the attack of the sheets of flame on the surrounding buildings could not be resisted.

The engines from Berkeley, Lombard and Bay streets were in commission, and a good water pressure was the result.

Ransom Paid.

Constantinople, April 30.—Seventy-five thousand dollars was the ransom paid for the release of Robert Abbot, the son of a prominent British subject residing at Salenika, who was kidnapped from his father's garden March 24, and eventually liberated when the demands of his abductors had been conceded. The brigands originally demanded $100,000. The British Government will insist that the ransom be repaid by the Turkish Government.

Fatal Boiler Explosion.

Watertown, N. Y., April 30.—One man was killed and several others injured yesterday afternoon by the explosion of the boiler of a locomotive on the Cranberry Lake Railroad at Wanakona. The dead man is Horace Tussel, a passenger. Among the injured is William Reynolds, another passenger of Watertown, and the engineer and fireman.

Murder and Suicide.

Philadelphia, April 30.—Because she said she would rather die than marry him, Martha Corlan, aged 22 years, a German servant girl, was shot and killed almost instantly here yesterday by Franz Andrewsky. The murderer turned the revolver upon himself.

STILL OUT ON STRIKE; A MISUNDERSTANDING

Miners Lack Confidence and Misunderstand New Act.

ALL LIABLE TO PAY FINES

Government Anxious Lest Industrial Disputes Act Prove Dead Letter—Overwhelming Majority Against Return to Work — Mention of Armed Troops Angers Workmen—Situation Is Serious.

Fernie, B.C., April 30.—The miners, by a referendum vote, have refused to return to work, pending the meeting of the board of arbitration. It is significant that at Fernie, where Mackenzie King explained the law to the miners, the vote was unanimously in favor of returning to work at the old scale until the board can complete its investigations and render a verdict. Mr. King says this shows clearly that if the other camps could understand clearly the effect of the new law they would return to work. The vote was as follows:

Fernie, unanimous for return to work.

Lundbrek, 39 to 19 in favor of resumption of work pending investigation.

Michel, 111 to 67 against.
Coleman, 68 to 74 against.
Frank, 64 to 14 against.
Hillcrest, 22 to 5 against.
Lille, 97 to 7 against.
Bellevue, unanimous against.
Bankhead, 190 to 7 against.
Canmore, 101 to 3 against.

A serious situation is at hand. The labor men themselves seem unable to figure out the situation, and it seems that the leaders are unable to control the men. The whole question is one of faith, and the difficulty now is to do more than outline the fact that there was a breach of agreement somewhere. President Sherman says the men were afraid to go back to work without an agreement, and they had no confidence in the new legislation.

The question of armed men is freely discussed, and miners are angry on account of statements as to enforcement of law by the use of armed troops or the Northwest Mounted Police.

How to Enforce Law.

The next question turns on the enforcement of the law. More than three thousand men are on strike, though they claim to have quit as individuals. They are anxious to learn the attitude the Government will now assume. There is much excitement over rumors of using the mounted police. The authorities are in no position to arrest three thousand men, and the jails are inadequate if the men refused to pay the fines.

The feeling is general that the new law will be given a severe test.

Reports of fuel famine are very general.

What the Government Thinks.

Ottawa, April 30.—The Government has had no advices since Saturday as to the conditions in the western coal fields, but enquiry at the Department of Labor elicits the information that the striking miners were expected to return to work with the exception of those employed by the Crow's Nest Pass Coal Company at Michel.

Cloudburst Causes Flood.

Oklahoma City, Okla., April 30.—A cloudburst over Capitol Hill, a suburb of this city, just south of the Canadian River, flooded that place. Seven persons are missing, and believed to be drowned. Many persons encamped on the lowlands near the river were caught unawares, and had but little time to make their escape. The river is bank-full, and it will be some time before it can be determined whether any lives really were lost. There was another heavy rainfall yesterday, which caused the river to rise higher, endangering property in the lowlands.

Snow in Saskatchewan.

Lumsden, Sask., April 30.—Severely cold weather prevails here. The flood in the Qu'Appelle Valley is passed. All the streams emptying into the Qu'Appelle have fallen. It was eight above zero at nine last night. The sloughs west of the town are filled, and the river is ten feet below the high water mark of 1904. There was a big snowstorm yesterday morning.

Trainman Killed.

Oswego, N.Y., April 30.—Carlton Meyers, a trainman, was killed, and Thomas Bracken and William Coy, also trainmen, were seriously injured yesterday when an engine and seven loaded cars on the N.Y.C. Railroad ran into an open switch here.

Sir Charles Is Returning.

London, April 30.—Sir Charles Tupper sails for Canada on Aug. 9.

GIRL HELPS THE POLICE MATERIALLY

Child of Nine Years Renders Assistance At Fire.

SAVES FAMILY OF FOUR

Was Badly Scorched Herself—Directs Constables to Room Where Mother and Children Were Lying Unconscious — Nearly Suffocated by Dense Smoke—Rescuer Faints on Sidewalk—Rescued Bills.

New York, April 30.—Five women and children overcome by smoke were carried yesterday from a blazing tenement house at No. 12 McKinney street, Brooklyn, by policemen who were themselves almost suffocated in their act of heroism. And a little girl proved herself a real heroine.

Policeman Gallagher heard a boy crying out an alarm, but was unable to learn the cause until he had soothed the child. As he turned in an alarm, Gallagher directed the boy to run to the Fulton street police station, telling him to get the reserves to the scene as quickly as possible.

As Gallagher ran toward the house, a little girl was waving her hands frantically from a window on the second floor. Flames were bursting from the third floor. Policemen Green and Denny dashed upstairs, broke open the door, and saw Mrs. Mary Page, with a two-year-old girl baby in her arms, unconscious on the floor. A few feet away lay William, seven years old, and Teddy, five. The little child at the window was Hannah, nine years old. Denny picked up the mother and child and staggered to the street with them in his arms. Green turned to Hannah.

"Take the others. I'll follow you," the child said resolutely.

She clung to his coat tails as he went downstairs with the other children in his arms. They were all scorched pretty badly, for the flames had reached the second floor and quickly gutted it, as had been the case on the third floor. Denny fell unconscious when he reached the sidewalk.

Dr. Prentice, from the Brooklyn Hospital, resuscitated mother, children and policeman.

After the fire had been extinguished Gallagher went up to the rooms of Mrs. Page and recovered a purse containing $140. Then Mrs. Hannah Dolan sent him up for hers and he brought it back. It contained $300 in scorched bills.

EMMERSON LIBEL SUIT.

Writ Has Been Served On The Fredericton Times.

Fredericton, N.B., April 30.—James H. Crockett, managing director and editor of The Fredericton Gleaner, was on Saturday served by Sheriff Sterling with a writ issued by the supreme court at the suit of Hon. H. R. Emmerson, for $25,000 damages, on account of the publication of an article charging the ex-Minister of Railways with immoral conduct. The advocates acting for Mr. Emmerson are Hon. Dr. Pugsley, Premier and Atorney-General, and J. H. Barry, K.C., of this city. It is also said that Mr. Emmerson will institute criminal proceedings against the same party.

To Remember Ireland.

London, April 30.—Mr. Birrell, speaking at Halifax, said it was surely an inconceivable thought that the imperial conference should meet to consider how best to consolidate the empire and leave Ireland out of account.

Mr. Haldane, referring to the confessence proposals, thought they had made a step forward toward the organization of a scientific force for the defence of the empire as a whole.

New Bailiff In Huron.

Toronto, April 30.—George A. Pippen, Wingham, has been appointed to succeed F. Patterson, as bailiff of the eighth division court of Huron County. Mr. Patterson resigned.

Bridge Across Straits.

St. John, N. B., April 30.—N. J. Butler, Deputy Minister of Railways, has not, but will, prepare plans this summer for a bridge across the straits, thoroughly satisfied that the scheme is practical. Captain Joseph Read, M. P. P., Summerside, who from years of experience as marine and shipping master, differs, and says a northwest gale would sweep cars into the ocean, as at Souris breakwater. The entire island is excited, and the supporters of the modern tunnel scheme are ardently at work to connect the troublesome six and one-quarter miles.

Considering this winter's, and the last few months' difficulties in reaching the island, plans of any magnitude will be attempted to better conditions.

ESTABLISH NEW INDUSTRY.

Chain Trust Will Build Big Plant at Walkerville, Ont.

New York, April 30.—Another United States corporation is about to enter the Canadian manufacturing field so as to escape the Dominion tariff, the Standard Chain Co., known as the "Chain Trust," having decided to build an extensive plant at Walkerville, Ont. The Standard Chain Co., Limited, will operate the new works, which are to be constructed at a cost of $200,000.

Three Babes Found In River.

Chicago, April 30.—A despatch from Elgin, Ills., says: While fishing in Fox River yesterday, Stephen Borns hooked a bundle of clothing which he pulled ashore and found to contain the bodies of three infants, two boys and a girl.

Coroner Norton is of the opinion that the bodies may have been hurled from a passing train. The clothing found with them was of fine quality, but had no marks.

Poured Acid On Boy.

Lethbridge, Alta., April 30.—John Cunningham, a boy of ten years, was maltreated by Norman Steward and Joseph Kakis, employes of W. Whitney, the liveryman. The men got the youngster in a stable and poured carbolic acid on his body. Alarmed by his cries, they then applied water, which increased the pain. They were locked up.

Appointment Was Not Made.

Ottawa, April 30.—At the session of the Ontario Legislature which closed last week an act was passed dividing the judicial district of Nipissing into two parts, with a judge for each. The statute of the Ontario Legislature on the subject, however, only reached Ottawa on Thursday or Friday last, and there was not time to put the matter through before prorogation, and the appointment accordingly will have to stand over till next session.

AN EAGLE

Clifford Chapman Shot One Saturday

ME GOT IT AT LILY LAKE

A Young Peterborough Hunter's Good Fortune—Measured Five Feet Between the Tips of the Wings—A Lucky Shot.

Eagles which measure five feet from tip to tip of the wings, are not very plentiful in this section of the country. They are scarce — about as scarce, in fact, as the proverbial hen's teeth — but one was secured by an enthusiastic young Peterborough hunter on Saturday afternoon. That day Mr. Clifford Chapman was out shooting at Lily Lake, when he saw a strange bird of immense proportions floating through the air. He took a shot at it and was successful in bringing it to the ground when, upon examination, he found that it was an eagle, and that it was an extraordinarily large one, measuring just five feet across the wings. Mr. Chapman bore his prey home in triumph, and will have it mounted, and preserve it as a memento of his Saturday afternoon expedition.

Made Attempt on President's Life On James River

Roosevelt's Yacht Was Fired Upon by Two Men in a Motor Boat Which Dashed by the Presidential Party's Boat.

Examiner Special.

Norfolk, Va., April 30.—It is stated here to-day that a motor boat with two, or perhaps more men in it—a swift craft—dashed by the President's yacht on Saturday night up the James River, while the Roosevelt party was on a cruise up the river, and that three shots were fired at the yacht.

The shots came from a rifle. Local authorities know, or appear to know, nothing of the matter. The Secret Service and the crew of the President's yacht were sworn to secrecy, but the information was secured from one of the crew.

A CONTINUOUS SUBSCRIBER SINCE THE FIRST ISSUE

This year the Examiner celebrates its sixtieth anniversary. Publication of the weekly issue, under the name of the "Despatch," changed to the "Examiner," in 1856, was commenced in 1847, and every week since that time, the Examiner has been issued. In response to the request to be favoured with the name of the oldest subscriber, the following letter was received yesterday from a gentleman well known in Peterborough for many years. In it he states that he has been a continuous subscriber to this paper since the first issue, and, in that event, if he has had had to read the read for sixty years, he deserves some reward. There may be others who have a record to equal that of Mr. Fowler, and, if such be the case, the Examiner would like to receive a letter from them. Mr. Fowler writes as follows:—

To the Editor of the Examiner,—

Dear Sir, — I have been observing in the Weekly Examiner that you are on the look-out for one of the oldest subscribers to that journal. I think that I can lay claim to having that distinguished honour, as I have been a continuous subscriber to the Examiner since the first year of its publication.

I see my friend Mr. Robert Graham, of Lakefield, has been a subscriber also for a very long period of years, forty-eight.

I cannot remember the exact year in which the Examiner was first published, but I have no doubt whatever of the fact that I have been a continuous subscriber since the first year of its publication; that point is quite indelibly impressed upon my memory, so that you will have to decide for yourself whether I am the oldest subscriber or not, and it will depend absolutely upon whether the Examiner has been published for over fifty years or not. I believe that it has been.

I am in my eightieth year, and I have watched the progress of the Examiner, and its advancement under the present management has been remarkable, as has been the growth of the city of Peterborough, the province, and the Dominion, generally.

I would like to know, for my own information, when the Examiner was first published, and then I would be absolutely certain as to whether I am one of the oldest subscribers or not.

Yours truly,
JOHN A. FOWLER,
North Menaghan.

Mr. Fowler seems to be warm for first place, as the oldest subscriber to the Examiner. If he has taken it from the beginning of its publication under that name he has been in receipt of that paper for fifty-one years, if from the beginning, as the Despatch, in 1847, sixty years. The Examiner has been issued since 1856. The Examiner is the oldest paper in Peterborough, having been established in 1847, as "The Despatch," a name which was changed to "The Examiner" by Mr. Augustus Sawers, in 1856. In 1864 the late Mr. James Stratton became publisher, and in 1877 it came under the ownership of the present publisher.

NEW DEVELOPMENTS IN THE STRIKE SITUATION

George Shipman, 4th Vice-President of the International, is in the City, and May Order Collar Makers Out.

A STATEMENT IS MADE

Mr. George Shipman, the fourth vice-president of the International United Brotherhood of Leather Workers on Horse Goods, of Toronto, is in the city in the interests of the union men who are out on strike from the factory of Messrs. B. F. Ackerman, Son & Co. Mr. Shipman is the Canadian representative of the Brotherhood, and, it is stated, that a probable result of his visit to the city will be that a further extension of the strike among the members of the other unions employed in this shop will be ordered, unless the demands of the strikers are complied with in a few days. It is stated that the Collar-Makers' Union is the one referred to and that they may be ordered out.

Peterborough Boy Sends A Report Of A Vermont Storm

Mr. Bruce Chowen, of Ludlow, Vt., a former Peterborough boy and a son of Mr. B. J. Chowen, of Steward street, sends the Examiner an interesting post-card from his Vermont home. That part of the State is noted for its maple sugar and syrup, and on the postal card sent is a picture of a maple tree surrounded with sap buckets. On the side in view there are no less than twenty-three buckets.

With the same mail, a copy of the Vermont Tribune was received, and it contained a report of an April snowstorm in that State. It will be seen that snowstorms are by no means as bad in this Province as they have been in Vermont. The Tribune says:

The snowstorm of Monday and Tuesday deserves more than a passing notice by reason of the depth of the fall and the lateness of its appearing. In the section a foot of snow fell on Monday and six inches more on Tuesday—clinging, clinging material, which filled the roads, clogged the walks, loaded down the wires almost to the breaking point, weighted the tree branches so that not a few of them gave way, and generally interfered with travel and business. It was a fine storm from the standpoint of the sugar maker, and was worth considerable to grass lands. But it was something of a surprise to the natives who, to a considerable extent, were getting ready for a different sort of weather.

A Ludlow man, who keeps track of the weather, says: "This storm makes some people think of the two feet of snow we had about 20 years ago, near the 18th of May; but it all disappeared in 24 hours."

NEW DOMINION BANK OFFICES A CREDIT TO THE CITY OF PETERBOROUGH

Handsome Bank Premises Opened Yesterday Morning—Interior Finished in Italian Marble and Copper.

ARE ELEGANTLY APPOINTED

Mr. Crane, the Popular Manager, Is Being Congratulated on His New Premises—Few Better in the Province.

Yesterday morning at ten o'clock the new Dominion Bank offices at the corner of George and Simcoe streets, the most elegantly appointed bank offices in the city, and, for that matter, without doubt the finest bank premises in any city of its size in the Province, were opened for business, and during the day many citizens called at the bank and personally congratulated Mr. Crane upon the new quarters, which are a credit not only to the institution, but to the city as well. The public had been led to believe that the new offices would be something different from anything yet attempted in bank offices in the city, but it is safe to say that few who visited the building yesterday and to-day were prepared for what they really saw.

A Transformed

The corner has been completely transformed. The whole first flat has been rebuilt, the exterior being built in Indian limestone, and presents a bright and cheery appearance. The bank premises extend from George street to the lane running at the rear of the row of buildings, and entrance is secured at both the front and rear, the outer door in each case being of iron. The vestibule at the George street, and main entrance is lined in marble, while the interior of the offices are almost entirely of marble and copper. The floor is of Vermont white marble. The wainscoting and panels below the desks are in Sienna marble, while the trimmings are of Alps green and Covananza marble, the Covananza and Sienna marble coming from Italy, and the shipment was made direct from the quarries to the bank here. The rich appearance of the whole interior may be imagined. The marble is something different from any style of the interior work ever attempted in the city before. Surmounting the marble on the desks is the grill work of copper.

Manager's Office

To the left of the entrance the office of the manager is situated. It is furnished in weathered oak, and is connected with the different departments by a private telephone

(Continued on 8th page.)

AN ENTERPRISING AND PROGRESSIVE BANK MANAGER

MR. JOHN CRANE,
Manager of the new Dominion Bank Branch, Opened Yesterday.

DOGS DESTROYED THE TULIP BEDS

At the Grounds of the Charlotte Street Methodist Church—Jumpid the Fence to Do It, Too.

More stories of the depredations of the dogs are being received. To-day a gentleman who is a member of the Board of the Charlotte street Methodist church stated to the Examiner that last fall the Board went to considerable expense in having flower beds prepared and tulips planted. It now transpires that this expense was useless because this spring the dogs which are said to be much in evidence in that part of the city have jumped the fences and have destroyed the tulip beds.

In view of this fact it is natural that the members of this body are not feeling in any too good humour, when the question of dogs is brought up in the course of conversation.

TO PREVENT SPITTING ON THE SIDEWALKS

The council at its meeting last night decided to have the City Solicitor prepare a bylaw prohibiting spitting on the streets in street cars, etc. The matter was taken up by the Board of Health recently and it was decided to ask the council to take steps along this line.

Ald. Leary, in seconding the motion, expressed the opinion that something should be done to abate the dog nuisance, referring in strong terms to the harm done by the canines.

The council will likely introduce some measure preventing dogs from running at large.

Former Peterborough Man Died To-day In Toronto

Late Frederick G. Cox, a Son of Hon. Senator Cox, Passed Away After Short Illness from Pneumonia.

WAS BORN IN THIS CITY

Word was received in the city early this morning of the death in Toronto of a former Peterborough man, in the person of Mr. Frederick G. Cox, son of Hon. Senator Cox. The late Mr. Cox was well known in this city, where he was born, and deep regret will be felt at his death. The Toronto Globe, referring to it in this morning's issue says:—

Mr. Frederick G. Cox, Vice-President of the Central Canada Loan & Savings Company, and second son of Hon. Senator Cox, passed away at his home, 47 Queen's Park, at 12.30 this morning. For several days he had been unwell, but on Saturday night he developed pneumonia. There were no alarming symptoms, however, till yesterday afternoon, when he took a sudden turn for the worse. After a consultation of doctors, called by the attending physician, Dr. J. L. Davidson, it was reported that there was no chance for recovery. Hon. Mr. Cox and the other members of his family were at the bedside when the end came. Notice of the funeral arrangements will be announced later.

The late Mr. Frederick G. Cox was born forty years ago in Peterborough, where he was educated, subsequently coming to Toronto with his father some eighteen years ago. From the organization of the Imperial Life Assurance Company in October, 1897, until January of this year, he was its managing director, retiring to become President of the Provident Investment & Mortgage Company. Mr. Cox was closely associated with the Central Canada Loan & Savings Company, of which he was Vice-President. He was also a director of the Toronto Savings & Loan Company of Peterborough. Mr. Cox was a great lover of horses, and an ardent yachtsman, having been at one time part owner of the Canada. He was a member of the Toronto Hunt, of the Royal Canadian Yacht Club, the Toronto Club and the Masonic Order. In religion he was a Methodist, having been connected with Sherbourne street church for some years. Besides his widow, a daughter of the late Dr. Swann of Woodstock, and his father, Hon. Mr. Cox, he is survived by two brothers, Messrs. E. W. Cox, Vice-President and General Manager of the Canada Life Assurance Company. Mr. H. C. Cox, Manager for eastern Ontario of the Canada Life, and two sisters, Mrs. A. E. Ames and Mrs. A. E. Davis, both of Toronto. Mrs. Ames is at present in New York in a very critical condition, and too ill to be removed to her home on Sherbourne street here. She has been in poor health for about a year.

A few of the citizens are making arrangements to attend the funeral of the late Mr. Fred Cox in Toronto. Persons desirous of joining the party are requested to communicate with Ald. H. Phelan. The date of the funeral will be announced later.

BAD FALL

Italian Section Man Hurt Last Night

A GASH ON HIS FOREHEAD

Injured Man Was Brought to St. Joseph's Hospital Last Night—Is Doing as Well as Can be Expected.

Last night, while returning from work at 6 o'clock on the C.P.R. section at Indian River, an Italian, Gesco Criaziano, who was a member of the gang of George Spicer, fell from the hand-car and sustained serious injuries on the head. A gash was cut on his forehead and he was knocked unconscious by his fall, his head striking on the end of a railway tie. Dr. Grey, the C.P.R. doctor, was summoned, and left on the local for Indian River to attend the injured man, who was brought to St. Joseph's Hospital on a freight train during the evening.

He was doing as well as could be expected to-day, and no serious results are anticipated now.

There's Danger in Every Cold

Once you come to realising the danger of neglecting coughs and colds you will not run the risk of depending on any cough mixture the druggist may choose to hand out to you, and you will insist on getting a medicine with a reputation such as Dr. Chase's Syrup of Linseed and Turpentine. Croup, bronchitis, asthma and coughs and colds are promptly and thoroughly cured by this treatment.

SCARCITY

Houses to Rent at Moderate Price

NEWS WILL SAY THIS

Special Commissioner Finds That These Are Plenty of Houses of the Better Class, but Those for Workingmen Are Scarce.

The special commissioner sent to Peterborough by the Toronto News, to inquire into the housing problem, will report to his paper, that while there is no apparent scarcity of houses of the better class and medium class, which cost from $2,000, and upwards to build, and which rent from $15 to $20 a month, there is a scarcity of dwellings which are suitable for men earning wages which will not permit them to pay that amount for rent. He interviewed during his stay here yesterday a number of men interested directly in the building trades and this is the opinion he formed, as a result of his investigations. The majority of the houses being erected in the city this year are above the average price, and will not meet the popular demand.

To Cure a Cold in One Day

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

A DENIAL

M. J. Healy, Asphodel, Makes Statement

THE ENGLISHMAN'S CASE

His Late Employer Issues Statement in Which He Denies Having Received Any Money—Paid His Wages.

Mr. M. J. Healey, of Asphodel, writing to the Examiner makes a statement in reference to an article which appeared in the Examiner in which the story of an Englishman, who alleged ill-treatment was told. Mr. Healey's name was not mentioned in the article referred to, but it appears that it was at his place that young Renoy was employed, and in view of this fact he wishes to make the statement. He says in it that the Englishman was engaged at $20 a year and that he worked two years less two months, and was paid his wages in full, receipts being held for the money paid. In regard to the statement that he received three pound sterling from England Mr. Healey denies that he ever received a cent in any form from Renoy, and never wrote a letter to his friends for money. The man's clothes, the statement adds, are still at the house. Mr. Healey states that the man's hands were not frozen, but a felon, a result of an injury, was the cause of his having a sore hand.

He characterizes as false any statements at variance with those made by him.

HAVELOCK STILL HOPES FOR DIVISIONAL POINT

Report in Circulation to the Effect That the C. P. R. Has Purchased Land There for That Purpose.

ACQUIRING PROPERTY

Havelock still holds out to itself the hope that it will be made the divisional point of the C.P.R., when the Georgian Bay Line is constructed, and in support of this hope it is stated that the Company has purchased considerable land contiguous to that already owned by it in that town. The following despatch to the Toronto Star describes the situation:

Havelock, April 28.—It is reported that the C.P.R. Company have bought a considerable amount of property here to the south of the yards, which will be used for sidings. When the Georgian Bay grain route from Victoria Harbour is completed it is likely that Havelock will be a divisional point.

DIRECTORS ARE LIABLE FOR $30,000 WORTH OF STOCK

Six of the directors in the old Peterborough Cold Storage Company will, by a judgment handed down in Osgoode Hall, yesterday, at Toronto, be held liable for the amount of the stock subscribed for by them. About $30,000 is the amount involved and this will be divided among the six directors. The Toronto Globe, reporting the case, said:

Re Peterborough Cold Storage Co. —Judgment (H.) on appeal of the liquidator of the company in winding up proceedings from order or decision of local Master at Peterborough. The letters patent for this company issued on November 13, 1903, incorporating the original subscribers to the memorandum of agreement, and such others as should become subscribers for stock therein. Subsequent stock was applied for and obtained by other shareholders upon the terms of paying a deposit of 25 per cent. of the par value of the stock, and an agreement to pay a further sum of 25 per cent. upon allotment. The original incorporators avoided making such payment of 25 per cent. and took steps to get rid of the bulk of their stock by transferring to persons of little or no substance, not a great while before the company's insolvency. This transfer of stock by the directors en bloc, was impeached upon this appeal. Held, that the position taken by the appellant was well founded, viz., that the directors were incapacitated from making the transfers while yet the 25 per cent., representing the first payment on the shares, was an outstanding liability. The transaction is within the mischief guarded against by sec. 20 of R.S.O., chap. 191. The transaction cannot be upheld. There was a violation of duty on the part of the directors, a breach of trust which renders them liable to make good, as damages any sums which in the winding up may be required, and which cannot be made good by the ostensible transferees, who are to be called upon in the first instance. The liquidator's costs of the appeal to be paid by the respondents. R. E. Wood, Peterborough, and W. E. Middleton, for the liquidator; D. O'Connell, Peterborough, for the respondents.

WANT AND REAL ESTATE ADS.

Get In The Best And Be In It Always

Male And Female Help

Can bequickly supplied by using EXAMINER WANT ADS. They bring speedy answers and are dependable for first-class help.

HELP WANTED—MALE.

PAINTERS WANTED — NONE BUT first class men need apply. Duncan & Doupe. 8d101—3264

Seasonable Information About Low Priced Homes

My "Western Avenue" subdivision is one of the prettiest blocks in or about the city and adjoin the Sandstone Brick Co's. grounds, not more than fifteen minutes walk from the Electric, Cordage and Shovel Factories. Three minutes from school and corner where car line must pass to river.

The Large Blocks of 8 Lots are now surveyed, staked off, plan made and registered, Lots sold, orders received and all arrangements made to commence building not later than Tuesday next, weather permitting.

Although my prices and terms for Blocks, $10 cash and $5 per month bring them within the reach of all, man or woman, I have decided to sell a few single Lots for $75 each on easy terms, for a few days only. I will build a neat and substantial Cottage 1½ story to cost about $800, also on easy terms. Very little in addition to what you are now paying your landlord will make you a well off landlord yourself. A personal interview will give you a better understanding, and and do not forget that it means money for you. 100 acre Farm for sale, exchange or rent cheap.

UNION LABEL

TUESDAY, APRIL 30, 1907.

ON FIRM FOUNDATIONS

The Examiner has referred to the unique success of the British as colonisers — to their magnaminous and equitable treatment of conquered peoples, who are re-conquered by kindness. The splendid success of that policy has been strikingly exemplified in Canada, and South Africa, and if this policy had produced only such types of these results as Laurier and Botha — premiers of alien extraction, raised to the highest positions of trust and responsibility in British colonies, it had justified itself. It only needed to further test the success of the British policy, to quote from the addresses delivered by Sir Wilfrid Laurier, and General Botha, in London, during the Colonial Conference. These demonstrated that the pen that signs the order for a constitution guaranteeing the fullest measure of self-government is mightier than the sword. A scrape of a pen has done more to effectively conquer the Boers than the military skill and legions of Roberts and Kitchener:

"When in 1902 strong pressure was put on the British Government, to suspend the constitution of the Cape, they would not hear of the proposal, and they did more. They did not hesitate four years after the war to give full citizenship of the British Empire to the Transvaal. There is only one country in the world who would have dared to do this, and that is England. (Cheers.) The wisdom of that policy has been fully vindicated. It is possible that at the next conference we may have represented a united South Africa, composed of the Cape, Natal, Orange Colony, the Transvaal, Rhodesia, and others to be added as time goes on. That is a truly Imperial policy, and so long as the British Empire is maintained on these lines it will rest on foundations firmer than the rock, and as enduring as the ages."—Sir Wilfrid Laurier, at the Guild Hall.

"We, in the Transvaal, have received with gladness and gratitude, the Constitution which conferred upon us the inestimable privilege and right of self-government. The confidence reposed in us by His Majesty the King, by His Majesty's advisers, and by the great British nation, is a fact which we in the Transvaal shall never forget. We shall prove by our acts that we are worthy of the confidence reposed in us. And we are determined to make the greatest success of this institution which the Transvaal and the whole of South Africa have ever witnessed. The Government have extended to us the hand of cooperation, and I am glad to say, that not only the party who supported me in the Transvaal, but the whole of the people of the Transvaal, have grasped that hand of friendship, and will not let it go again. The manly and courageous confidence shown by the people of the Transvaal by His Majesty's Government is the best seed that has ever been sowed in South Africa, and I make bold to say that the harvest of that confidence will tend to the union of all peoples and all nationalities in South Africa, and will form a source of great strength and power in your glorious Empire." — General Botha at the Eighty Club Dinner.

In these two utterances may be said to be contained the whole case for the Liberal view of British Imperial policy. That policy is not universally accepted. British Toryism is as hostile to it as ever. Without the lucky accident of the last general election, happily remarks the marks the Montreal Herald, General Botha's speech, even his presence, would have been impossible. Under the Constitution granted by the Conservative Government, by the men who are to-day claiming all Imperialism for their own, there was little or no place for General Botha in the public life of the Transvaal. "The particular feature," says the Westminster Gazette, "of the present Conference, which inspired Sir Wilfrid's eloquence, and which is now applauded as the unique characteristic of the British system, was rendered possible by the courageous act of the present Government, which discarded the Lyttleton Constitution and proceeded at once to bestow the full freedom which was promised to the Transvaal. That looks simple enough in retrospect, but it was carried through against a storm of criticism to which a weaker government might have yielded." This, be it remembered, was not in the early years of the last century, but only a few months ago. The feeling that white men cannot be dealt with in the best way unless they are treated as free men. And unless respect is shown for their national independence has underlain every successful experiment in British colonial policy from the days of Lord Durham to the day of General Botha. That is a good thing to remember.

EDITORIAL NOTES.

The recent decision of the Privy Council against Toronto, figuratively reduces the situation to a "streak of Rust."

The press branch of the Chambre de Commerce, of Montreal, has passed a resolution urging the government to reimburse Canadian publishers for the amount they expend in increased postage, caused by the new arrangement with the United States. Such a scheme, if permanent, would scarcely be fair, but there would be some justice in recouping the papers for their losses up to January next, owing to the most of their subscribers being at present paid up to that time. The new postal laws are nation-building and the publishers, the Brantford Expositor thinks, are prepared to stand their temporary loss.

The Whitney Government is showing a belated sense of responsibility. It is stated that in districts where local option was carried by a three-fifths majority, and subsequently quashed on a pure legal technicality, there will be a disinclination to issue licenses, and an organ of the Government says that "it is understood to be the intention of the Government, having regard to the three-fifths majority enactment, to see that the expressed will of the people is carried out." This is very like adding insult to injury. The Whitney Government should have had some greater respect for the expressed will of the people when it passed the three-fifths majority clause, specifically designed to nullify "the expressed will of the people."

CARE OF THE INSANE

An important departure in connection with the treatment of the insane, is at present under the consideration of the Provincial Government.

The system at present under contemplation is based upon that in vogue at the Munich psychiatric clinic—a hospital for mental diseases, which has a remarkable record of cures. It serves the purpose of a receiving station or sieve for all cases of insanity appearing in the community. The first duty of the authorities of this institution is to determine whether or not the patient can be cured. Should the case be hopelessly chronic, it is sent to an asylum, similar to those in Ontario. If however the case yields the slightest hope of responding to treatment, everything possible is done to effect a cure. And most gratifying, indeed, have been the results of treatment at the Bavarian institution, no less than 70 per cent. of the 2,000 patients received in the first year having been restored to reason. The remaining 30 per cent. having been found to be chronic or incurable, were sent to asylums. So complete are the facilities and staff that each patient receives more individual attention than even in a large general hospital. The stay of a patient rarely exceeds a month. There need be no fear that an hospital such as that described would, if established in this province, interfere with, or hamper our present system. The best medical authorities of the present day, unhesitatingly declare that the early treatment of mental disease must, under no circumstance, be carried on in an asylum where there is an indiscriminate mingling of acute and chronic cases. The function of the psychiatric clinic is to separate them, leaving to the asylums the work of caring for none but the chronic cases.

Such an institution would, it is hoped, in a short time greatly relieve the congestion of our overcrowded asylums, save the government the necessity of adding to present buildings, or erecting new ones, and thereby effect a saving in the province of a no inconsiderable sum. But above all, it would be the means of saving to families and to societies, many valuable lives. The experiment is well worth trying.—London Advertiser.

NO GREASE OR DANGEROUS DRUGS

In "Herpicide" the New Scientific and Successful Dandruff Treatment

Have you dandruff? Then you have a contagious parasitic disease, unpleasant, unhealthy, and one that will eventually lead to baldness. To cure it, you must destroy the parasite that eats at the root of the hair. The only preparation for destroying these germs is Newbro's Herpicide. Charles Klein, of Laramie, Wyo., says, "Herpicide allayed the itching, cured the dandruff, and stopped my hair's falling out; and it is bringing a new crop of hair." Herpicide is free from grease or dangerous drugs, and makes hair glossy and soft as silk. One bottle will convince you of its merits.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. The Market Drug Store. Two sizes—50c and $1.

NOTICE TO ATHLETIC CLUBS

All clubs who use Riverside Park, unless they have made the necessary arrangements with the managers, will be prosecuted as trespassers.

BIRTH

BRADBURN—On Tuesday, April 30, 1907, the wife of Mr. R. H. Bradburn, of a son.

MAN AND WIFE AMUSE BYSTANDERS

The Husband Was Charged With Having Created Disturbance on Hunter Street.

The police courtiers were provided with some amusement this morning when Mrs. Wm. Richards had to be forcibly ejected from the court room. There was only one case on the docket, and that was a charge against William Richards for raising a disturbance on Hunter street last night.

It seems that Richards and his wife came to Mrs. Kerr's on Hunter street to room until they could find a house. Their original intention was to stay not longer than one week, but, as time passed, they became very much taken up with the residence, and were loth to leave. As for rent, they paid about two dollars for the whole four weeks. Not only this, but they often quarrelled, and raised a general disturbance, as Mrs. Kerr testified, and became drunk.

Last night was the climax, and Mrs. Kerr decided that she had put up with enough. The neighbours complained, and she thought it was time to call the police. Accordingly, Richards was locked up, and appeared before Magistrate Dumble this morning. Richards is quite deaf, and P. C. Newhall had to shout the Magistrate's words into his ear. He told him he had to get out of the house at once, and judgment was enlarged for one week, pending Richard's behaviour.

Mrs. Richard's Arrives

Mrs. Richards arrived with a hat for her bare-headed husband, just as the court was over. Apparently, her nerves had been strengthened, and she was prepared to tell the court a few of the nice things she thought about it. P. C. Newhall, in other words, told her to "vamoose," but it was no use. The Chief said that she would find herself in a cell. Finally, the policeman forcibly put her out down the stairs and on to the street.

Talking loudly, she started up Water street with her husband, who was still hatless. She scouted to him to put his hat on, but he did not hear, and off they started, to the amusement of the bystanders.

To the Chief, Mrs. Richards said that she came from Campbellcroft, and he replied that it was a pity she had not remained there.

NEW DOMINION BANK
CREDIT TO PETERBOROUGH

Continued from page seven.

system, with 'phones in both tellers' cages. He also has a push button connecting him with each of the desks in the general office, so that he can summon any clerk at any time of the day.

On the right, from the main entrance there is a ladies' writing room, where writing facilities are provided. A short stairway leads from this room to a ladies' lavatory. On the left the desks of the different clerks are located, the accountants' desk being next to the manager's office, with two tellers' cages, ledger, and clerk following. In the basement, entrance to which is made at the rear, there is a safety deposit vault, lavatory, steak room, and a large board room, which will be available for any organization wishing to use it for meetings. The vault upstairs is fitted with the most modern means of protective appliances, the safe being of the Goldie and McCullough make, of steel, and fitted with time locks, etc.

Conveniences for the Public

In the general office there is abundant room both before and behind the desks. In the former there are desks placed for the convenience of the public, while tables are provided for writing, and visitors to the city, or anyone in fact, is at liberty to make use of them. All the desks in the offices are fitted with glass tops.

The lighting is one of the most pleasing features of these offices, windows having been placed as close together as is practicable along the north side, while at night the offices are a flood of light, with the electric lighting. Four chain drop electroliers are suspended in the main office, while desk lights with green shades are provided for the clerks.

The Contractors

As far as possible the work in fitting these offices has been done by local workmen. The architects were Messrs. Carriere and Hastings, of New York, and the associate architects Messrs. Huestis and Bird, of Toronto. The contractor was John E. Webb, also of Toronto. The desks and counter fittings were supplied by the Canadian Office and School Furniture Company, of Preston, while Messrs. Alexander and Miller, of this city, were the contractors for the electric light fixtures.

A new sign, with raised bronze letters will be erected at the front of the bank, while on the side on the two piers, tablets will be placed, with the name of the bank in raised letters.

A Strong Bank

The Dominion Bank is one of the most substantial financial institutions in Canada. It was incorporated in 1871, and it has an authorized capital of $5,000,000, three fifths of which is paid up. The reserve fund amounts to nearly a million dollars more than the paid up capital of the bank, while the total assets amount to over $49,000,000. The local branch was opened on October 17th, with Mr. John Crane as manager, and immediately following its opening the business came to it, and has been constantly increasing. Mr. Crane is a most popular, as well as a careful manager, and under his care there is no doubt of the future of the Dominion Bank in Peterborough. The bank has about sixty branches in Canada, and the connection is being rapidly extended.

A NEW SITE

Building to be Placed on High Ground

EXCAVATIONS NEXT WEEK

Contractor for the Normal School Building in City and States That Work Will be Commenced in a Short Time.

The Provincial Government has changed the site of the Normal School from that which was previously decided upon, and the building will now be placed on the side of the hill, among the trees, and on higher ground. No more land than that already owned by the city was purchased. The above information was given to an Examiner representative this morning by Mr. E. F. Whitham, the contractor, who arrived in the city last night from Brantford.

Mr. William Whitham, the contractor's nephew, will arrive in the city this week, with his family, and will have charge of the work. The cutting down of the trees and the extracting of the stumps, will be done this week. On Monday next the excavating work will be begun, and, Mr. Whitham states, will be completed within a week or ten days.

The class of brick with which the school will be constructed, has also been changed from the common stock to the pressed brick, which will have to be brought from Toronto, but Mr. Whitham does not know from which firm he will obtain it. The interior layer will be constructed with the stock brick, which will probably be obtained from the Curtis Bros.

The contractor intends to push the work with all possible speed, but he could not form any idea of when the contract will be completed. He will open an office in the city as soon as possible where the business of the Peterborough end of his contract will be done. He will go to North Bay next Monday to look after the work there.

The Stratford and Hamilton schools are well under way, and the work, Mr. Whitham states, is proceeding satisfactorily. Mr. John Moss of this city, who has the contract for preparing the stone for the four buildings, left this morning for Stratford.

During the course of construction, the contractor will visit the city each week, and will have to travel miles weekly to the four schools.

Piles Cured in 6 to 14 Days

Had a Nasty Bronchial Cough

AS AN AFTER EFFECT ON PNEUMONIA—NOTHING PROVED EFFECTIVE UNTIL WE USED

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

Many a mother will say, in this Mrs. Harker, in the following letter, that Dr. Chase's Syrup of Linseed and Turpentine, has proved a friend to me in times of colds with my little ones. I have tried many others, but have found none just as good. My little boy, about a year old, had pneumonia and was left with a nasty bronchial cough, but Dr. Chase's Syrup of Linseed and Turpentine is helping him wonderfully and I am sure it will cure him.

"We have also used Dr. Chase's Kidney-Liver Pills with splendid results and have great faith in all of Dr. Chase's medicines."

It may not have occurred to you that both bronchitis and asthma are diseases of the nerves of the bronchial tubes and lungs and that is why severe attacks of coughing are brought on whenever these nerves are irritated by changing temperature, the breathing of dust or emotional excitement.

It is by its remarkable facility for soothing the nerves and sheathing the delicate membranous linings with a protective coating that Dr. Chase's Syrup of Linseed and Turpentine has proven so thoroughly effective as a cure for bronchitis and asthma. Its power in these disease is unquestionable.

Relief from coughing comes almost immediately and by persistent use a cure is gradually and certainly brought about.

When the system is greatly run down it is advisable to use Dr. Chase's Nerve Food in order to assist in restoring vigour to the wasted nerves.

Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle; family size, 60 cents; at all dealers, or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

A MUSICAL TREAT PROVIDED

Mr. Herbert Sanders and Associated Artists Delighted An Appreciated Audience in George Street Church.

TWO VOCALISTS HEARD

A small but very appreciative audience attended the organ recital and concert at the George Street Methodist Church last evening, a larger audience undoubtedly being prevented by the wet weather from being present. Those who did attend were accorded a musical feast, and one of the most enjoyable programmes of a similar nature ever presented in Peterborough. The work of Mr. Herbert Saunders, sole organist, was the feature of the evening, and, while he undoubtedly catered to the popular taste in his selection of a programme, he clearly convinced his auditors that he is capable of any demands made upon him in association with the pipe organ. His playing shows all the attributes of the artist, and not only does he excel in numbers of technical difficulty on pedal and manual, but in the finer effects he betrays a deep sense of effective and charming orchestration.

In his accompaniments he was at his best, and the vocal artists must have experienced considerable pleasure in having such a responsive assistant. Mr. Sanders was assisted by Miss Helen Davies and Mr. Norman Jolliffe.

Miss Davies again demonstrated her claim as a finished vocalist; her singing is a pleasure to an audience—clean enunciation, clear intonation, and withal, the interpretation of an artist, making Miss Davies worthy of much praise.

Mr. Jolliffe was in excellent voice last night and acquitted himself with great credit. He shows improved style on each appearance, and ere long will doubtless rank high in the vocal world.

The choir gave a spirited number early in the programme.

Miss Reesor, through illness, was unable to be present.

Following was the programme rendered:

(a) Scherzo..... .....Hoffman
(b) Postlude in A Flat..... .....
....Herbert Sanders
Mr. Herbert Sanders.

"From Egypt's Bondage Come"..... .....Page
Choir.

Senerata..... .....Moszkowski
Toccata in F..... .....Faulkes
Mr. Herbert Sanders.

Solo—"Crossing the Bar"..... .....
Miss Davies.

Solo—"Abide with Me"..... .....
Miss Davies.

Solo—"The Lord is My Shepherd"..... .....Liddle
Solo—"King David's Lament"..... .....
Mr. Norman Jolliffe.

(a) Communion in G..... ...Grison
(b) Toccata..... .....Batiste
Mr. Herbert Sanders.

Solo—"Star of Eve" from Tannhauser .....Wagner
Solo—"Oh Canada! Our Fathers' Land of Old..... .....Lavallie
Mr. Norman Jolliffe.

Solo—"O Divine Redeemer" ...Gounod
Miss Davies.

March Aux Flambeaux..... .....Guilmant
Mr. Herbert Sanders.

OBITUARY.

MRS. WM. CHRISTIE

The death of Mrs. Wm. Christie, of Douro, occurred yesterday morning at her home in Douro, after an illness extending over a period of about a year. The late Mrs. Christie was 60 years of age, and had been a respected resident of Douro for a number of years. Her husband pre-deceased her by seven years. She is survived by one daughter, Mary, who lives at home. One brother, Mr. Martin McCamus, lives in Peterborough, and another, Anthony, in Douro. She is also survived by one sister, Mrs. Daniel O'Shea, who resides in Douro, as well.

The funeral will take place to-morrow morning at 9 o'clock to St. Joseph's Church, Douro, and thence to the Douro Cemetery for interment.

FLORENCE KEARNS

The death occurred yesterday afternoon of Florence Kearns, the 18-year-old daughter of Mr. Francis Kearns, 271 Smith street. The deceased had been ill for about five months and her death was not unexpected. She had resided nearly all her life in Emily township, her father coming to Peterborough year to reside.

The deceased was a bright young girl, who had many friends in Emily township. She is survived by her father and one brother, Mr. William Kearns, of Emily.

The funeral will take place to-morrow morning at 8.30 o'clock, from the family residence, Smith street, to St. Martin's church, Ennismore, and thence to the Ennismore cemetery.

MRS. WM. MAHONEY

The death occurred in Ennismore on Monday of Mrs. William Mahoney at the age of 88 years. The funeral will take place on Wednesday at 9.30, from the family residence and proceed to St. Martin's church, and thence to the Roman Catholic cemetery at the Cross for interment.

TORONTO BOWLERS LOST GAME

Lost to the Locals on the Total Score by 36 Points—Pleasure Club Beat Brunswicks.

VISITORS ENTERTAINED

Two bowling teams from Toronto representing the High Rollers and the Brunswicks, journeyed to Peterborough last night and were defeated in a friendly game at the Majestic Alleys by 36 pins on the total score. The Pleasure Club defeated the Brunswicks by 1,963 to 1,842, while the Merchants fell victims to the prowess of the High Rollers, the score being 1,925 to 1,840 in favour of the visiting five. There was a large gallery of spectators and the game proved decidedly interesting. McIlroy with 472 and Whitcroft with 462 were the top scorers for Peterborough, while Foster, 416, and Archambault, 413, were high for the visitors.

Following is the complete score:—

High Rollers—Toronto.

Archambault	156	125	135	413
J Lee	127	123	118	368
T Payne	132	150	119	401
G Gatterson	104	101	135	339
C Jenkins	141	122	141	404
Total				1,925

Merchants.

McIlroy	142	150	180	472
Davidson	100	126	97	323
Bradburn	107	108	120	329
Frost	128	132	97	357
Ferguson	101	141	117	359
Total				1,840

Pleasure Club.

Crowley	130	135	105	370
Whitcroft	127	146	189	462
Connors	124	115	151	390
Boyd	116	110	102	328
Wareham	125	116	172	413
Total				1,963

Brunswicks—Toronto.

Hartmann	110	122	110	372
Foster	127	168	121	416
Neill	126	113	137	376
Thomas	95	115	115	325
Graham	88	112	143	343
Total				1,842

Total Merchants and Pleasure Club, 3,803.

Total High Rollers and Brunswicks, 3,767.

Majority of pins for Peterborough, 36.

Scorers—J. Sheridan and W. Lang. Umpire—W. S. Wesson.

After the game the visiting bowlers were very pleasantly entertained by the local Knights of the Alleys at a banquet at McCallum's restaurant. Everything was done to make the visit of the Toronto boys enjoyable and it is hoped that more friendly games of this kind may be played.

PAT. M'DONOUGH TO BE HERE TO-MORROW

Great Lacrosse Player Will be on Hand To Play With Locals.

The Toronto Telegram remarks in its jocular vains "And now let's have a game of 'Button, button, who's got the button?' with Pat. McDonough playing the part of button."

It might be remarked that Peterborough has a corner in buttons just now, as the redoubtable "Patsy" will be here to-morrow to play with the local seniors for the season, despite the reports that have been circulated from almost every lacrosse town in Ontario.

Remember the Y. L. M. B. Concert at St. Andrew's Hall on Tuesday Evening, April 29th, 1907. Tickets 15 cents. 2d100

A CITY BALL LEAGUE TO BE ORGANIZED

A Meeting is Called for To-morrow Night at the Windsor Hotel.

A meeting will be held in the Windsor Hotel parlours to-morrow night for the purpose of organizing a City Baseball League. A number of teams have expressed their willingness to enter such a league, if one is formed, and it is important that these teams should be represented to-morrow night. It is said that the Strathconas, Shamrocks and the Charlotte Street Guild will enter teams, and another should be secured without difficulty, which would assure a very successful season.

LACROSSE

If the weather permits, the Peterborough Shamrock Lacrosse Club will hold its first practice to-morrow night. All players are asked to be on hand in uniform.

A very successful sale of horses took place at Bruce Lee & Co.'s livery barns on Saturday, with Mr. J. H. Gardiner acting as auctioneer. These sales will be conducted every Saturday during the summer. On Saturday next some very fine horses as well as a number of new buggies and other vehicles will be offered for sale.

Kidney Disease For Twenty Years

Mrs. Saswell Reid, Orrville, Muskoka, Ont., writes: "For twenty years I was troubled with kidney disease, and have recently been completely cured by using three boxes of Dr. Chase's Kidney-Liver Pills. I had tried many remedies but nothing appeared to do me much good until I used this splendid family medicine."

Battle With Bears.

After a desperate battle, in which he narrowly escaped losing his eyesight, Jacob C. Smith, an old farmer whose home is in North Babylon, succeeded in killing a large and hunger-crazed chicken hawk, which chased his chickens into the chicken house and then followed them in to feast upon them at leisure. Time and again the feathered marauder flew at the eyes of Smith, who had hurried into the chicken house to save his pets and closed the door after him to prevent the hawk flying out and escaping. It was only by covering his face and eyes with his arms and letting the beak and talons of the infuriated bird sink into his forearm and hands that the doughty old farmer saved his sight and killed the hawk. It was measured the other day. The stretch of its wings from tip to tip was three feet. Its beak and talons were long and almost as hard as steel.

Bathurst Church.

The first place of worship in Western Australia was unique in two respects—the material of which it was built, and also the several purposes to which it was devoted. This remarkable building was made at Perth by soldiers, shortly after their arrival in 1829, and was composed almost entirely of bullrushes. In addition to its use on Sundays for divine worship, it occasionally served as an amateur theatre during the week, and during the whole time as a barracks.

Scheme to Banish Smoke.

According to statements which have recently been made, Londoners are on the eve of the exploitation of an invention which will practically abolish smoke.

A clever inventor, announces Sir William Bailey, of Manchester, has hit upon "an ingenious and absurdly simple process" to eliminate from ordinary coal the ingredients that make smoke and decrease coal's caloric value.

"Coalite," as the resultant substance is termed, will be cheaper than common gas coke, but will have at least a third greater heating power.

There is a movement on foot to start large works for its production at Trafford Park, near Manchester, and the new industry will be watched with interest.

It is stated that the King has had the qualities of the new fuel tested at Buckingham Palace.

LARDER LAKE

Proprietary Goldfields, Limited

Owing to the phenomenal rush for shares in the above company, the first limited amount of stock at our first offering of $1.00 per share will be exhausted sooner than expected. The price will then be materially advanced.

The advance will take place any day and probably without notice—just as soon as the stock has been introduced by placing a very limited amount at our initial price of $1.00 per share—most of which is sold.

I am not urging anyone to take on Larder Lake Proprietary. The stock is fast selling itself, and in a short time will all be placed in Canada and the United States.

I am anxious, however, that my Canadian following get what they want at the first price. Hence this Canadian advertisement to give you notice that the ground-floor opportunity will not last much longer.

My following has consistently made money by acting on my advi Thousands will testify to that.

I have never advised the purchase of a stock without it materially advancing in market value within a reasonable time.

My method after placing a stock with the public is to see that it is listed on the Exchanges. In every such case the result has been a legitimate market at an advanced price.

That is my record.

Larder Lake Proprietary will shortly be listed on the Exchanges and placed on the New York and Boston curbs.

I predict that very soon indeed it will stand at several dollars a share. I furthermore know that after the stamp mill materializes results, and it should be running within six weeks, that they will be of a sensational nature and I know that the stock will then surely see $10 a share. A bold prediction, I hear some say, but those who shortly accept my invitation to take the trip to Larder on the special train I'm going to run from New York, Boston and Toronto will think my prediction conservative enough when they are on the ground and see what I and my engineers have been investigating and verifying for six months past.

The facts about the Larder Lake Goldfields, and the Proprietary Company in particular, are far too great to present here.

Full particulars, however, may be secured on request by calling personally, o ry mail, telegraph or 'phone.

Again I say, I am not urging the purchase of this stock, for it is selling itself even faster than we can take care of the orders from Canada and the United States—two days behind now—but I am anxious that my Canadian following get into this, by far the best thing I have ever recommended, at our first offering price.

BRANCH OFFICE AT LARDER CITY

Bishop for Sunday Games.

The Bishop of Carlisle declared himself in favor of Sunday games in the course of a speech which he delivered at Carlisle recently at a meeting in support of the national Sunday observance movement.

"I am distinctly in favor of opening museums and picture galleries on Sunday, but I would have people of leisure act as custodians and guides to visitors to these places," he said.

"It is the same with Sunday games. Recreation is not a sin. We have enough sins in the world without going about manufacturing artificial sins.

"Those people, however, who have all the week in which to play golf might well go down on Sunday among the poor and join in their games. It would be a beautiful thing if the people met their servants and other employes on Sunday.

"If you ask me if banqueting on Sunday is right, I should say it is not. I am not sure that many banquetings on any day of the week are not wholly wrong.

"If rich people want to give banquets on Sunday, let them give them to their servants and other employes. I could see some sense in that."

Brass in a Room.

Brass can make a wonderful difference in a dreary room. A large jardiniere with a plant in it placed in a dark corner will lighten up marvelously. The andirons, too, will give a cheery reflection. Even candlesticks help, and little trays and bowls, be they ever so small. The importance of brass in a useless room cannot be too strongly emphasized. Mirrors brighten up, and so do pictures with well polished glasses and gilded frames. But these little points are too seldom taken into consideration.

364 GEORGE STREET

"They Will Not Shrink"

"Why Won't They Shrink?"

"Because they are not simply sponged before cutting, but the cloth is thoroughly shrunk."

"That will do to tell: but I guess your clothes will shrink just the same as ready-mades."

"Excuse me: One result of our method of shrinking is to so shorten the bolt of cloth, that less Suits can be cut from it than under the cheaper process. That's the only way you can get a Suit that will keep its shape."

Proposed Italian Tax Discussed In The Council

Ald. Morgan's Scheme Was Considered Last Night — Council Agrned That Too Much Money Was Being Lost Through Poll Tax.

SOLICITOR LOOKING INTO IT

Ald. Morgan's scheme to tax Italians of which so much has been heard recently, was introduced at the meeting of the Committee of the Whole Council last night and was discussed for some time by the aldermen. The main purpose for which the scheme was devised—to render it possible to collect poll tax—was heartily approved of by the council. It was pointed out in the discussion that a large amount of the poll tax was never collected because no attempt was made to do until next year, by which time many of those who should have paid poll tax have left the city.

It was decided to have the City Solicitor look into the matter and see how early each year it might be possible to collect poll tax.

The fire escape bylaw was discussed and approved of and will be passed next Monday night after an amendment has been made by the City Engineer.

There were present the Mayor, Ald. Johnston, Bradburn, Elliott, Morgan, Duncan, Wilson, McIntyre and Phelan.

Fire Escape By-law

The first matter taken up was the fire escape bylaw which had been left over from a meeting several weeks ago and referred to the Committee of the Whole. A number of changes have been made and the revised bylaw was taken up last night night. The most important change proposed was that allowing owners of buildings adjoining which are lean-tos to run a ladder from their building to the roof of the lean-to, where the roof is not within five feet of the third story and in cases where the lean-to is within five feet a ladder is not required.

The City Solicitor was instructed to make the proposed changes and the bylaw will be passed on Monday next.

The Market Square

Ald. Bradburn referred to the state of the cattle pens on the market square. The stench, he said, yesterday was awful and either the pens were not kept clean or else the hogs were allowed to remain there too long. Ald. Bradburn moved, seconded by Ald. Duncan that the Property Committee should be instructed to have the pens kept clean and also the market hall free of paper, etc.—Carried.

Ald. Morgan in introducing the proposed tax on Italians, said that those people were enjoying all the privileges of the city and were not paying a solitary cent of taxes. He thought that they should pay a tax even if it were only a dollar. They were not any particular benefit to the municipality. They should pay poll tax either to the City Treasurer, City Clerk or tax collector, and be given a certificate.

The Mayor remarked that there was no doubt that there was too much money being lost in poll taxes. It was hard to distinguish between the Italians and on account of this their poll tax was often not paid.

Ald. Duncan suggested that the foremen under whom the men were working might keep it out of their wages.

Ald. Wilson thought that there was a whole lot of other people who should be taxed

Ald. Johnston thought that after assessors had made their rounds a certain time should be given in which poll tax must be paid.

On motion of Ald. Morgan, seconded by Ald. Duncan, the City Solicitor was instructed to advise the council as to the earliest date at which poll tax could be collected.

ANNUAL TOUR OF THE BOARD OF WORKS

Aldermen Will Inspect the City Tomorrow—All Day Tour.

The Board of Works will make their annual spring tour of inspection of the city to-morrow, and an invitation has been extended to all members of the Council to take part in the expedition. The party will leave the City Hall at 8 o'clock, and it is expected that the tour will occupy most of the day. A large number of places are to be visited, and the Board's action in connection with them decided upon.

Music and Drama

THE BELLS

Last night at the Grand Opera House, Henry Irving's great success, "The Bells," became Thomas E. Shea's marked success. The tragedy, "The Bells," is a very simple tragedy, founded upon so common-place a theme as murder for money—not for the mere, sordid lust of gain, but murder for love of wife and child—the taking of life to save life. Mathias (incarnate in Shea) a humble inn-keeper in an Alsatian village, on Christmas Eve, is told by the village doctor that his child, stricken with disease, and his wife, worn with watching, will both die unless removed to a warmer climate at once. Mathias is distracted, for he is poor, and loves his wife and child. A rich Polish Jew, with much money on his person, becomes a temporary guest at the inn. This is Mathias' temptation and opportunity. After a terrible struggle between love and duty, and conscience and crime, he yields, and slays the Jew, to the jingle of his sleigh bells and the booming chimes of midnight that usher Christmas in. Wife and child are saved. The story of the death of a rich uncle in America accounts for the money, which helps to make Mathias, outwardly, a happy man, the burgomaster, and beloved of the village. Still the undying worm of conscience gnawed ceaselessly at his heart. But, after the lapse of fifteen years, conscience was newly aroused by the relation of the story of the murder by village gossips all the inn to a new comer, a new captain of the local gendarmerie, who makes it his chief business to discover the murderer of the Jew, and to fall in love with Annette, the daughter of Mathias. This galvanizes into new life the conscience of Mathias, and from this on the silent struggle with the lashings of conscience, like the sergent scourges of the mythic furies, tear his soul. This terrible lesson is the essence of the play, and in this Shea does his great work. The subordinate characters of the play, some twelve or fifteen, play their parts well — exceedingly well—but their personalities and their parts seem dwarfed to nothing by the dominating personality and performance of Shea and the lurid play of his tortured conscience. His agony of conscience is kept alive by the ringing of the bells which, to his guilty ears, never ceases, and while, at all times through three acts, this manifestation of a guilty conscience stands out supreme and gruesome under Shea's acting, it is never more gruesome and "creepy" than in his mad and reckless outburst of defiant gayety, fiercely jubilant abandon, in the dance at the signing of the wedding contract. Shea was superb throughout the entire play, which was first-rate in every respect—scenic effects, subordinate acting and general ensemble,—affording, on the whole, a high class representation. In spite of the deluge of rain, there was a good house, as there should be to-night, when Shea appears in "Napoleon, the Great," for which, in physique, he is especially qualified. In the first act of "The Bells" last night every observer was struck with his exact facial resemblance to the accepted portraits of "the man of destiny."

PURCHASING HOGS FOR BUCKHORN FACTORY

Mr. Nathan Stabler in Northern Townships For That Purpose.

Mr. Nathan Stabler has for the past two days been in Smith and Harvey townships buying hogs for Bucktorn cheese factory. He has already purchased 120 and placed them at the factory. These, when fattened, will be brought down by way of the Trent Canal to the Geo. Matthews' pork-packing establishment.

Remember the Benefit Concert at George Street S. S. Room on Tuesday. April 30th Proceeds are in aid of the poo of the church. Admission 15 cents or two for 25 cents.

A SUCCESSFUL FURNACE

A Good Article Effectively Advertised Finds a Ready Sale.

McClary,s "Sunshine" Furnace in Use from Halifax to Vancouver.

With this issue of the Examiner, the McClary Manufacturing Company of London, Ont., commence their advertising for this year, using a series of ten attractively illustrated ads. The illustrating in these ads. is the work of an artist as can be readily seen, and while the quality of the drawings is of a very high order, every ad. deals with a practical feature of the furnace. From glancing over the advertisements you are quickly impressed with the many good features of the "Sunshine." The reading part is also very clear and forcible. The McClary Company claim to be the largest manufacturers under the British flag of stoves, ranges and furnaces, employing over twelve hundred people all the year round. Their London factories cover nearly three city blocks and are considered to be about the best equipped in the world.

The McClary business was established in 1852, and has grown steadily since the beginning. Branch warehouses have been established in all the leading Canadian cities and a large force of travelling salesmen are constantly calling at every city, town and hamlet, in the interests of this mammoth concern. The McClary Company freely admit that a large measure of their growth is due to carefully planned and persistent newspaper advertising, which is a strong evidence of the influence and force of the Canadian press.

THE CLYDE STALLION DUNURE BARNUM

Mr. Maurice O'Brien, of Douro, has purchased the three-year-old thoroughbred Clyde stallion, Dunure Barnum, from Mr. T. H. Hazzard, of Port Hope. The stallion was imported from Scotland in August, 1906, having been bred by Wm. Dunlop, of Dunure Mains, Ayrshire, Scotland. He was purchased and brought to Canada by Mr. Hazzard, and is said to be one of the finest Clydes in Ontario. He weights 1800 pounds and was sired by Barnum's Pride.

SOLO CORNETIST IS LEAVING PETERBOROUGH

Mr. Arthur Seward Going to Port Hope to Take Position in the Band.

The Port Hope Guide of yesterday stated that Mr. Arthur Seward, of this city, a member of the 57th Band, had accepted a position as pattern-maker in the factory of the Standard Ideal Co., and that he would leave to commence his duties on Monday. He has also been secured as solo cornetist in the Port Hope Brass Band. Mr. Seward's removal from Peterborough will be a distinct loss to musical circles. He is a cornet player of more than usual ability, his tone being of exceptional clarity and sweetness, and he will be greatly missed in the 57th Band, of which organization he has been a member for a number of years.

CONDITION OF THE ROMAINE ST. SEWER

The condition of the sewer on Romaine street has been the cause of much adverse comment from those who have inspected it, and Ald. Phelan is evidently determined that a report shall be made to the Council, so that the public may have an idea of the state of affairs.

At last night's meeting of the Council it was moved by Ald. Phelan, seconded by Ald. Bradburn, that the City Engineer be instructed to make a report to this Council upon the condition of the sewer on Romaine street, and stating whether it is in a proper condition for use or not, and also showing the exact cost of the same up to date, including all material and damage to horse, etc.—Carried.

First Reading Contest Was A Most Successful Event

Misses Dean, Yenny and Ellis, Were the Contestants Who Carried Off the Prizes---Presentation of Nicholls' Scholarship Prizes---The New Departure Proved to be Popular---An Interesting Programme.

The regular meeting of the Collegiate Institute Philomathean Society was held last night at the Y.M.C.A. Hall. The meeting which was open to the public took the form of a reading contest, and incidentally, the presentation of the Nicholls scholarship, and proved to be one of the most interesting in the history of the society.

The first prize in the reading contest was awarded to Miss Lilian Dean, the second to Miss Gertrude Yenny, and the third to Miss Minnie Ellis.

Mr. F. Brown, president of the society, occupied the chair, and opened the meeting with a short address, in which he thanked the audience for turning out in such large numbers on such a disagreeable night. He mentioned the previous open meetings of the society, their purpose and aim, and stated that although this was a new feature, he was sure those present would be well repaid.

The readers, seven in number, were all worthy of high praise. The selections, involving story, humour and sentiment, were well chosen, and the reading showed careful preparation and forethought. Clearness of tone, well rounded and well pronounced words, emphasis and force, were characteristics of last night's contest. The reading, too, and especially that of Miss Dean and Miss Campbell, was marked with a realistic effect that inspired the audience with the thought of the selection and held their closest attention from start to finish.

Between the readings, Miss Sanderson favoured the meeting with a violin solo, which was received with loud applause. Misses Wallis and Burnett also rendered a violin duet.

A new departure in the history of the society was the "Mad Tea Party," a scene from "Alice in Wonderland, the principal characters of which were The Hatter, Miss Jean Campbell; The Dormouse, Miss M. Burnett; The March Hare, Miss G. Todd; and Alice, who was represented in a most admirable manner by Miss Lilian Dean. All the young ladies performed their parts exceedingly well, and, as a first attempt, were worthy of high praise.

Then followed the most important part of the programme, (especially to three) the presentation of the Nicholls scholarships.

Mr. Fessenden explained that each year fifty dollars in gold was awarded the pupil making the highest aggregate marks on the senior teachers' examinations, and fifteen dollars to each of the pupils making the highest marks on the junior teachers and matriculation examination. The first prize that for the senior teachers' examination, he took great pleasure in presenting to Miss E. Kells, and the other two to Mr. W. Harvey and Mr. B. Ingham. Mr. Harvey, however, was unable to be present.

Mr. D. Walker, public school inspector, then spoke on behalf of the judges, Mrs. R. F. McWilliams, and himself. He said that it was very difficult to arrive at a decision, as all the readings were good; they had, therefore, classed them as good, better and best. They showed good selection and were well pronounced and clearly read, which indicated that they were fully understood. The first prize was then awarded to Miss Dean, the second to Miss Yenny, and the third to Miss Ellis. The prizes were donated by Messrs. Wm. Pringle, Geo. Edmison, C. G. Graham and R. M. Glover, to which gentlemen the society is deeply indebted.

Mr. Alan Munro moved a vote of thanks to the judges, who had so kindly consented to act, and who had decided the contest to the satisfaction of both contestants and audience. Mr. Conroy seconded the motion, and the audience showed their appreciation by loud and long applause. The meeting was then brought to a close by the singing of the National Anthem.

The following was the programme:—

Reading, Miss Yenny.
Violin solo, Miss I. Sanderson.
Reading, Miss Merrill.
Reading, Miss Edwards.
The Mad Tea Party, Miss Dean, Miss Todd, Miss Campbell, Miss Burnett.
Reading, Miss Ellis.
Reading, Miss Young.
Reading, Miss Dean.
Reading, Miss Campbell.
Violin Duet, Misses K. Wallis and M. Burnett.
Presentation of scholarships.
Decision of judges and presentation of prizes.

Have Orders Now For 1,000 Street Car Motors; Made 1,000 in 1906

A Period of Industrial Prosperity Being Experienced by Manufacturing Concerns in This City--C. G. E. Company Has Number of Orders Booked--Building Operations Will be Active This Summer

A more than usually encouraging report is that submitted to the Labour Gazette this month by Ald. W. J. Johnston, the correspondent to that publication, from Peterborough. The situation in this city is decidedly satisfactory at the present time, as the report indicates. It is as follows:—

The month of March has been exceptionally active, the weather being very mild. Many buildings left unfinished from last year are now under construction again. All trades were busy, and when the frost is out of the ground, general building operations will be resumed. It is not expected that as many houses will be erected this year as last, but with the larger biuldings, including armouries, Collegiate Institute, North Ward Public School, and the Roman Catholic church, that are projected, it is anticipated that every class of workmen will be busy. The large transformer building of the Canadian General Electric Company will be rapidly pushed to completion. Drilling and blasting for the deepening of the river bed in the channel east of the Quaker Oats Company's building is under way. The Public Works department of the city had a busy month keeping waterways open. Street cleaning work was in full progress. Banking was active, and wholesale and retail trade in all lines was good.

The carpenters are asking that their minimum rate be increased from 25 cents to 27 1-2 an hour; bricklayers, from 30 to 40 cents, and builders labourers from $2.25 to $2.50 per nine-hour day. It is not yet settled that these changes will be granted. There were no strikes or lockouts reported.

Condition of Local Industries

Agriculture.—The marketing of all kinds of produce has been in progress. Many farmers were busy making maple syrup.

Lumbering.—Active conditions prevailed. The several sawmills were making preparations for a large season's cut, while waiting for the ice to go out of the river.

Manufacturing.—All industrial establishments were more or less busily engaged. The development of the Canadian General Electric Company has been remarkable, every year seeing buildings added to its already extensive plant. Over 1,000 workpeople are employed in its various departments. The company fills orders for electrical machines and supplies to firms in various parts of the globe. It built and delivered last year 1,000 street car motors, and has now on hand orders for 1,000 more. This firm is also supplying transformers and motors for the Lakefield Cement Company's plant, which is starting a branch industry in the city of Montreal. The Canadian Canners Company, Limited, will operate the Port Hope factory this season. Arrangements for a supply of raw materials are being made with the farmers and gardeners. Work on the Cavan swamp drain has been started; a large number of workmen will be employed. The Cavendish Lumber Company has 23,000,000 feet of lumber out and ready to drive to its mills. Two small industries have started in to cut lath out of pine slabs. Laths have advanced very much in price lately, and are scarce. These small factories will get all they can do, and will relieve the scarcity.

Mining.—Operations were quiet.

Railway Employment.—All systems of transportation were busy handling the heavy traffic.

Condition of Particular Trades

Building.—Carpenters, joiners, lathers, plasterers, painters, decorators and plumbers were active. Bricklayers, masons, gas and steamfitters, and builders' labourers were comparatively dull.

Metal, Engineering and Shipbuilding.—All were either busy or active, excepting bicycle workers, who were somewhat dull.

Woodworking and Furnishing.—Active conditions prevailed in all branches, with varnishers and polishers very busy.

Printing.—These trades were exceptionally active.

Clothing.—Active conditions prevailed in all lines.

Food and Tobacco Preparation.—Employment was active. Ice cutters and drivers were slack towards the end of the month.

Leather.—Employment was active.

Miscellaneous. — Activity prevailed in every branch.

Transport. — Busy conditions prevailed. Street railway men were active and teamsters somewhat inactive.

Unskilled. — Employment was a little dull.

District Notes

Work of all kinds in the district was active. General stores, blacksmith shops, saw and flour mills were doing a good business. Wood sawing for summer use was giving employment to a number of men. Meetings of dairymen in various parts of the county are being held with the object of making preparations for the season's work. A scarcity of farm help is reported in the district.

Lakefield. — The Cement Company has purchased a large tract of land of land for supplying clay to its factory; it is also installing a plant for operating the same.

Hastings. — The Peterborough Radiator Company has resumed operations and expects to have its building ready soon.

TATE OPTICAL CO'Y

G. N. BABCOCK, Eye Specialist

412½ GEORGE STREET, PETERBOROUGH

UNSOLICITED TESTIMONY

The Tate Optical Co., Peterborough:

DEAR SIRS.—During the last three or four years (prior to May last) my eyesight had failed to such an extent that I was unable to read or see anything at close range and could get no Glasses that would help me. I tried two different Opticians in Toronto and was told by both that they could do nothing for me, and that my sight would never be better. A statement of my case was sent to Montreal by a Hastings optician and several pairs of Glasses sent me, but with the same result my vision could not be improved. Last May, while looking at a Pair of Glasses you made for Mr. John Fife, Keene, and talking with him he advised me to consult your Mr. Babcock, and I am pleased to say that the Pair of Glasses he made for me have given me entire satisfaction and I can do now what I have not done for years past—read my ordinary print and see distinctly at close range. I feel very grateful, not only for the interest you have taken in my case, but particularly so for the blessing of good eyesight. Thanks to your knowledge and skill.

Yours truly,

(Signed) JOHN CARTER, Sr.,

Fire Water and Light Committee

The Fire, Water and Light Committee of the City Council will meet to-night to take up some matters in connection with the new firetrail.

Bought a Pacer

Mr. Bert McCollum has purchased a speedy pacer from the McKay Bros., of Orillia. The animal is a pretty black, and will be used as a street horse.

Cottage Meeting

The weekly cottage meeting of Rev. E. A. Langfeldt, will be held on Thursday, May 9th, Ascension Day, at the residence of Mr. George Curtis, Douro.

Put on a Good Front

"My Valet" can help you do it by pressing, cleaning or steaming men's spring suits and overcoats and ladies' coats, costumes, etc. Wesley Bros., 204 Charlotte street.

Cabbage Lettuce

We are now receiving very fine, large, cabbage-head lettuce. Also rhubarb, radishes, tomatoes and cucumbers. S. A. OKE, 376 George street. Machine 'phone 18; Bell 'phone 18.

Election Postponed

The election of officers of the Charlotte street Methodist Epworth League, which was to have taken place last night, was on account of the disagreeable weather, postponed until next Monday night.

Annual Meeting

To-night the annual meeting of the Retail Merchants' Association, will be held in the Y.M.C.A., and the reports of the different officers of the year will be presented. At this meeting the new officers will also be elected.

Letter not Signed

The Examiner received to-day a letter signed by "Citizen," in reference to the present trade trouble. The name of the writer did not accompany the letter, and, consequently it cannot be given publication. This is an invariable in newspaperdom, and the Examiner does not make exceptions.

Personal Mention.

Rev. E. A. Langfeldt went to Orillia to-day to attend the funeral of a friend.

Miss Farrel, of Stirling, is visiting Mr. and Mrs. Nicholas Bibby, 101 Lake street.

Mr. F. Gresland sang, in splendid voice, a solo on Sunday night at the George Street Methodist Church.

Miss Edna Hutchison left last night for Toronto, after a few days' visit with her mother at 340 Water street.

Miss Annie Cameron has returned home from Ottawa after a pleasant visit with Mr. and Mrs. Thos. McJanet.

Rev. Father Joseph O'Sullivan, of Victoria Road, left this morning on a trip to Ireland. He will accompany Rev. Dr. O'Brien.

Rev. Dr. O'Brien left on the noon C.P.R. train to-day for St. John's, and thence to Ireland, where he will rest and enjoy a well-earned holiday.

Miss C. Hutchinson and Miss J. J. Hutchinson, of Peterborough, spent Sunday, the guests of Mrs. W. Hutchinson, William street. — Lindsay Post.

Miss Carrie Steele, nurse at Nichols Hospital, Peterborough, returned to that city on Saturday, after spending a week's holidays with her sister, Mrs. A. Beavis, of Dunsford.—Lindsay Post.

Mr. and Mrs. Thos. Kilenbeck, of Peterborough, are in town the guests of their daughter, Mrs. Philip Moore, Mill street. They were called here on account of the illness of their daughter, Ethel.—Port Hope Guide.

Miss Kathleen McGrath entertained a number of her friends on her birthday on Saturday last. She was attired in a pretty costume of point d'esprit over taffeta, and wore a diamond ring, the gift of her father. She was the recipient of many pretty presents, tokens of respect from her friends. The guests spent a very enjoyable afternoon in playing games, and various other ways.

BRANTFORD REGIMENT IS NOT COMING

Official Word has been Received From Col. Ashton, the Commander.

A letter has been received by Col. Miller from Col. Ashton, commander of the Dufferin Rifles of Brantford, stating that the regiment will not be able to come to Peterborough this year. The letter merely referred to the fact that the proposed trip would not be made, and thanked the local regiment for their kind invitation. Col. Ashton also expressed the hope that the Rifles would be able to come to Peterborough another year.

Although no reason was assigned for not taking the trip, it is believed that the financial situation of the Brantford regiment will not warrant it.

The proposition was to have the Rifles here on May 24 for their military celebration, but this idea will now have to be cancelled.

WILL SOON OCCUPY BAR IN THE HOLEL BASEMENT

New Departure in Snowden House to be Completed This Week.

The new bar which is being installed in the basement of the Snowden House will soon be completed. The proprietor expects to have it in commission by the end of the week when the furnishings from the present bar will be moved down stairs. This is a new departure in Peterborough and as Mr. Snowden has the new apartment finished in beautiful style it should prove popular.

MOUNTED ELK'S HEAD FROM MANITOBA

Ald. Leary Received it from his Cousin Mr. Reginald Orr.

Ald. Leary was the recipient of a beautiful mounted elk's head on Saturday night which came all the way from North-western Manitoba, from his cousin, Mr. Reginald Orr. The animal was shot by the latter's brother, Mr. Fred Orr, and judging from the head it was a fine specimen of the elk family.

The horns are six feet in length and measure four feet two inches across at the top. Each has six prongs projecting so that the animal would certainly present a very formidable appearance in its native haunts. Mr. Leary has the mount erected in his store on Water street, and it is attracting a good deal of admiration.

ADJOURNED MEETING OF VESTRY

Auditors of St. Luke's Church Presented Report on the Finances.

The adjourned vestry meeting of St. Luke's Church was held on Monday night. In spite of the inclement weather, a fair congregational representation was present.

After devotional exercises, the auditors presented their report on the finances, which are in a very good condition, the total receipts from all sources amounting to about $3,200. The missionary contributions from the church amounted to $275. The various reports from the different societies manifested excellent work done. The Woman's Auxiliary raised about $200 for missionary purposes, and sent two bales of clothing, etc., to the missionary field.

It was decided to construct a granolithic sidewalk from the gate to the rectory, payment for which was guaranteed by the Bible Class.

Hearty votes of thanks were passed to the organizations of the church for their excellent work.

The meeting adjourned, the Benediction being said by the rector.

MR. WM. VASS OF C.P.R. SECTION GOES TO BURKETON

Will be in Charge of Men Engaged in Building of Fences.

Mr. William Vass, of the C.P.R. section between Peterborough and Kendry's siding, leaves in the morning for Burketon, where he will assume charge of a gang of men to construct fences along the line between Pontypool and Toronto Junction. The work will engage him all summer and autumn, and will not be finished then. Two summers have already been spent in the work, and Mr. Vass and his men will endeavour to accomplish as much as possible. There will be eight or nine men under his control, and his experience on the line in Peterborough should be of great assistance to him. The fencing is of the Page wire fence along both sides of the track, and is an excellent move on the part of the C.P.R., thus replacing the old rail fences.

WEDDING BELLS.

DUFFUS-SULLIVAN

Two of Peterborough's most popular young people were quietly wedded at St. Peter's Cathedral this morning, when Miss Gertrude Sullivan, daughter of Mr. Michael Sullivan, George street, was given in marriage to Mr. Jos. J. Duffus, son of Mr. Jas. Duffus, Otonabee. The ceremony was performed by Rev. Father O'Leary at 7 o'clock, in the presence of a number of the friends of the contracting parties. The bride was charmingly attired in her travelling suit of blue lady's cloth with hat to match. She was assisted by her niece, Miss Leahy who is attending the Convent in Lindsay. Mr. John Gorham performed the duties of groomsman.

A dainty dejeuner was partaken of at the home of the bride's father before going to the church, and after the hymenal knot was tied the happy young couple started on an extended honeymoon to Toronto, Detroit and Chicago and will spend a fortnight in the trip.

The bride is a charming young lady of rather quiet disposition and favourite among her friends. She was a member of St. Peter's choir for a number of years and it is an interesting fact that Mr. Duffus' grandfather was the organizer of the first choir at St. Peter's. She also took an active interest in the theatricals of the T.A.S. at which she was very successful.

Mr. Duffus is one of this city's men of to-morrow. He is a member of the firm of Duffus & Drummond, dealers in agricultural implements and started in business six years ago. By an active interest, business ability and industrious application he has been influential in making the firm as strong as it is. He is a staunch member of St. Peter's T.A.S., and has been an officer almost since its institution and is a strong debater in the Debating Club. In connection with the Prince of Wales Canadian Dragoons he is a Regimental Sergt.-Major, and was chosen from this city to be present at the mass meeting of troops on the occasion of the visit of the Prince and Princess of Wales. He was also selected as one of the Canadians to attend the coronation of His Majesty in London in the year 1901.

Mr. and Mrs. Duffus received many beautiful remembrances from their friends, one of them being an elegant quartered oak dining table from Mr. Drummond. Their many friends join in wishing them an enjoyable trip and a happy wedded life.

ALLAN-CLARKE

The marriage took place this morning, at St. Peter's Cathedral, of Miss Amelia Clarke and Mr. James Allen. Miss Margaret Allen was bridesmaid and Mr. Ed. Scully the best man. Rev. Father Galvin performed the ceremony, after which the bridal party drove to the residence of Mr. E. J. McCarthy, Hunter street, in whose family the bride has lived for a number of years, where a dainty wedding breakfast was served. The happy young couple left on the 8.25 G.T.R. train for Toronto and Niagara Falls. On their return they will reside on McDonel street.

WILSON-HIGGINS

The residence of Mr. and Mrs. E. Kemp, Douro, was the scene of a very pretty wedding last night, at which Mr. George William Cooper Wilson was married to Miss Harriet Higgins. The bride is a recent arrival from England, and is a cousin of Mr. E. Kemp, while the groom, also from England, is a cousin of Mrs. Kemp. Rev. E. A. Langfeldt officiated at the ceremony. The young couple were attended by Mr. and Mrs. Kemp. After the ceremony a sumptuous wedding supper was served and a happy evening was spent, Miss Ettie Kemp giving several musical selections. Mr. and Mrs. Wilson will reside in Ashburnham.

Eton's Odd Punishment.

A new form of punishment has been adopted at Eton College. Offenders against the school rules have now to write a certain number of "lines" with the left hand. The scheme has met with general approval among the governing body, though it is said that some boys would rather be birched than have to undergo the new penance.

The headmaster, the Hon. and Rev. E. Lyttelton, who is a great believer in ambidexterity, is of opinion that everyone should be taught to use the left hand. If the left side was not as active as the right, the left side of the brain was affected. Writing with the left hand would have a good effect upon the brain, and there would be no such thing as writer's cramp. The boys will not be kept in school longer than they were formerly, and the number of lines allotted will be much fewer.

A number of boys, it is said, are practising the art of writing with the left hand during their leisure time.

JUST KEEP ON KEEPIN' ON.

If the day looks kinder gloomy,
An' your chances kinder slim;
An perplexities keep pressin',
And the prospects awful grim,
An' perplexities keep pressin'
Till all hope is nearly gone,
Jus' bristle up an' grit your teeth,
An' keep on keepin' on.

Fussin' never wins a fight,
An' frettin' never pays;
There ain't no good of broodin' in
These pessimistic ways—
Smile just kinder cheerfully
If hope is nearly gone,
An' bristle up an' grit your teeth,
An' keep on keepin' on.

There ain't no use in growlin',
An grumblin' all the time,
When music's ringing everywhere
An' everything's a rhyme—
Jus' keep on smilin' cheerfully,
If hope is nearly gone,
An' bristle up an' grit your teeth,
An' keep on keepin' on.

KNOCKED A MAN OVER.

Three Flying Fish Pursued By Hungry Benito Bump Steward.

The steward of the barque Savoia engaged in the timber business had a queer experience the other day.

It was at the close of the day off the Bahamas, with the wind from the nor'east and the barkentine on it, making a fair picture, with square sails and fore and aft cloths all set, as they had been all the passage, and the vessel dipping and recovering to roll the other way.

While Capt. Fernandes and the mate were at tea the steward, who has had a heap of experience with leaping herring, went forward to cool his brow in the fresh, smart breeze. The air was clear as a bottle of gin and the nor'east breeze pushed up the uneasy surface of a semi-tropical sea in regular pyramids of green edged and capped with white.

Like Fox and Hounds.

While the steward gazed and the breeze caught his hair a tragic procession, one of nature's dog-eat-dog exhibitions, headed, like the flight of fox and hounds, for the bouncing barkentine, distinctly marked in the red glare of the sinking sun, at which time pursuing fish are the most voracious.

In the van were three flying fish, which had sprung from a rising wave about eighty fathoms to windward, the impetus of the sea, their own jump, the wind and their poised fins bearing them in a graceful curve for the ship. Indeed, they had seemed, previous to their final jump, to have put their tails hard over in order to steer their flight for the Savoia's foredeck, there to seek safety.

Chasing the flying fish was a huge bonito, some ten fathoms astern and gliding down the descending roof of a wave, while only six fathoms astern of the hungry bonito was a still hungrier shark keen for its preying prey.

Kept As a Trophy.

As the flying herring came on, the ship fell as if to receive them over the bulkwark and the three of them struck the steward with mighty force on the breast and face, bowling him over upon his back, while the bonito smote the rising side of the vessel and the shark, disturbed by the onward rush of the barkentine, dived and the bonito fell to windward of his enemy.

The steward picked himself up unhurt and gathered up his flying fishes, which he varnished and mounted up on a placque, where they are to be seen in the cabin of the Savoia.

The Juvenile Offender.

Law-makers in general will, before long, reflect, with deep contrition upon the barbarity which has for so long marked the treatment meted out to juvenile offenders. Although the democracy can be a little vulgar, once in a while it stands, when all is said, for humanity, and it is in the great democracy in the United States that we find youthful offenders dealt with for the first time, with sympathy and consideration.

To clap any sort of offender into jail and keep him there, is easy and stupid and barbarous. To think out and carry out, for that offender, a plan by which he will be redeemed to usefulness and good citizenship—that is work worthy of the most god-like intelligence and love. In many parts of the States, and notably in the west, where thought is fresh and magnanimous, and where conditions are not hardened beyond recovery, the juvenile offender is not clapped in jail, but set to work under kindly auspices and direction. The atmosphere is homelike. From the wages he makes he pays his board.

Honesty and manliness and the saving grace of work, these grand things are taught. Treated with kindness, the boys respond. They are not wicked. They are not lost, though ignorant. Dogberrys would think so. A bylaw does not necessarily consecrate a moral principle. It may be against the law to coast down a hill, but it is not a moral offence. It may be an infraction of the Criminal Code to steal a loaf of bread, but if necessity can be shown the act is the act of nature, and nature is larger and more enduring and peremptory than the corner policeman.

Germany and Peace.

Unless an agreement can be reached by Germany and Great Britain regarding the latter's proposal to limit armaments, The Hague Peace Conference will probably be a complete fiasco.

The Russian Government is reported to be greatly discouraged at the result of Prof. de Martens' tour of the European courts, on behalf of the Czar, to urge the participation of the Powers in his scheme of disarmament.

It is stated on reliable authority that Germany objects to Great Britain's proposal for the limitation of armaments, and demands its withdrawal. Should Germany be successful in this, Great Britain will probably withdraw from the conference, and the United States may do likewise.

If Great Britain's proposal is maintained on the programme of the conference, it is probable that Germany, and, perhaps, Austria, will withdraw.

The Czar is reported to be endeavoring to secure an agreement between Great Britain and Germany on this point, and he is in personal communication with the Kaiser.

BISHOP O'CONNOR CELEBRATES THE 18TH ANNIVERSARY

Of His Consecration as Bishop of Peterborough—He Celebrated Pontificial High Mass.

MANY PARISHONERS PRESENT

His Lordship Bishop O'Connor celebrated the eighteenth anniversary of his consecration to the office of Bishop of the Diocese of Peterborough, this morning. There was a large number of the members of the congregation present at the High Mass, which His Lordship sang, and the children from the three schools attended.

At the conclusion of the service Bishop O'Connor expressed his appreciation of the esteem and love which the congregation has always shown towards him and especially on this occasion, when so many assisted in the mass offering their prayers for his benefit. He referred to the many obligation that fell to his lot, which are not fully appreciated, perhaps, by the congregation, as they do not know the full extent of the work. He hoped that he might be spared for many more years to labour with a flock that had become most dear to him.

HIS LORDSHIP BISHOP O'CONNOR who to-day celebrated his 18th anniversary as Bishop of Peterborough

SOUGHT DEATH IN THE OTONABEE

Matthew Edwards Tried to End His Life by Jumping Into the River To-day.

Matthew Edwards, an Otonabee man, was tired of living to-day, and, in a despondent mood, a mood, which it is expected will be but temporary, he tried to throw himself off the Hunter street bridge into the waters of the river corresponding to that of his native township in name. He was prevented, however, from carrying out his design, and instead found himself in the police cells, where he will be given an opportunity of sobering up, and of repenting of his rash act.

THE CUSTOMS RECEIPTS INCREASING

In April They Were $4,064.48 More Than Same Month in 1906.

The customs receipts for the month of April this year shows an increase of $4,064.48 over those of the corresponding month in 1906. The receipts for the past month were $35,183.66, as compared with $31,119.18 in 1906.

BIG MEETING OF TRUE BLUES LODGE

A Number of Candidates Will be Initiated To-night—Will Adopt Style of Regalia.

A big meeting of Loyal True Blue Lodge, No. 240, will be held this evening on Simcoe street. This meeting will give the final decision of the regalia to be adopted by this local lodge. Also, it is expected that they will have several initiations and confer the degrees on several who have been waiting for the mysteries connected with them. All applications that have been handed in and found favourable will no doubt be dealt with to-night, and a large number of initiations take place. All members of the other True Blue Lodges are cordially invited to be present.

Kidney Disease For Twenty Years

Mrs. Saswell Reid, Orrville, Muskoka, Ont., writes: "For twenty years I was troubled with kidney disease, and have recently been completely cured by using three boxes of Dr. Chase's Kidney-Liver Pills. I had tried many remedies but nothing appeared to do me much good until I used this splendid family medicine."

IMPORTANT CHANGE IS PROJECTED

Banking Information of Interest—Change in Management is Looked for Soon.

A local gentleman, associated with one of the city's leading financial institutions, called the Examiner's attention to-day to the following article in the Montreal Star of yesterday. It refers, it is believed, to a bank which at present has no branch in Peterborough, but which has been considering the advisability of establishing one here:

The Star learned upon excellent authority to-day that a change will shortly be announced in the directorate and management of one of the most progressive of the Canadian banks. This bank, it is learned, has been making remarkable progress lately, but by a change in management it will extend its activities still further and assume an international connection that will probably make it one of the best known Canadian banking institutions in the States and Europe.

FROST'S
JEWELERS PETERBOROUGH

QUAKER OATS COMPANY LOSER IN TORONTO FIRE

$10,000 Worth of Goods Destroyed by Fire in Storage Warehouse—The Property is Insured.

THE LOSS NOT DETERMINED

The Quaker Oats Company is the loser to the extent of $10,000 by a fire which occurred in Toronto yesterday morning. The Toronto News referring to the fire, says: "Over a score of firms are interested in the loss, estimated at about $210,000, caused by the fire which broke out at midnight in the warehouse of the Ontario Storage and Cartage Company, in the rear of the old Don Brewery, immediately west of the Don and north of Queen street. So far as can be ascertained, over 75 per cent. of the loss is covered by insurance. The storage building and the adjoining structure, all of which was formerly occupied by the Don Brewery Company, was owned by John Dick & Co., Limited, who purchased it four years ago."

Inquiry at the office of the company here was productive of the information that the goods belonging to the local company, stored in the burned building, were insured. There will be loss, but the extent cannot be determined yet, since a report on the actual quantity of goods destroyed has not been received at the office here.

BRINTON CARPET COMPANY FORMS JOINT STOCK CONCERN

Present Partners of the Company Will be the Shareholders of the New Company—Capital Stock is $250,000.

WILL BE NO STOCK FOR SALE

Last night's Toronto Star contained a despatch from London, England, which is to a certain extent misleading. It is as follows:

London, April 30. — Kidderminster manufacturers have formed a company with £50,000 capital, to acquire the business of the Brinton Carpet Company in Canada.

The company above named has a factory at Peterborough.

This morning, Mr. R. G. Press, the manager of the Peterborough works, stated, in reply to a question as to the truth of the above statement, that there was no truth in the report that the Canadian company was to sell out. It is simply a change in the formation of the company. Up to the present time it has been a partnership company, but now it is being formed into a joint stock concern, with the present partners as the stockholders. The new company will be known as the Brinton Carpet Company of Canada, Limited. No stock will be offered for sale, either here or in England, the capitalists who are at present interested having subscribed the full $250,000 worth of stock in the new company.

SAYS THE TRENT CANAL IS A COLOSSAL MISTAKE

If This Waterway is Constructed it Will Kill the Welland Canal, Says a Buffalo Man.

A LETTER OF PROTEST

St. Catharines, April 30.—The enlargement of the Welland Canal is the theme of a long letter of protest which James McClive, a prominent business man of Buffalo, has addressed to W. M. German, M. P., for Welland. Mr. McClive characterizes the building of the Trent Valley Canal as proposed a colossal mistake, and urges that the Welland Canal be enlarged sufficiently to accommodate the largest vessel afloat. He says in part: "We note that preparations have been begun and structural steel is being laid down in Port Colborne, for the construction of a great $2,000,000 elevator to be there erected for lightering purposes, to accommodate the insufficiency of the present Welland Canal. Long ago thirty-five Boards of Trade throughout the Dominion of Canada, which number has no doubt since been increased largely, by petition urged the Laurier Administration to at once begin operations to so enlarge the Welland Canal to a capacity capable of accommodating not only the largest vessels that now float on the Great Lakes, but from a reasonable conjecture of what may be required through the expansion of trade in the next twenty years.

To Avoid Lightering

"The present Welland Canal should be so enlarged at once that no lighterage plant shall be necessary at the entrance of the canal, and in order that the great body of grain from the Canadian West and the Northern States be satisfactorily handled in unbroken cargoes. The Welland Canal should be made 250 feet wide and at least 25 feet deep, with locks 800 feet long and wide enough to lock up or down two at a time of the largest vessels afloat.

Mr. McClive contends that if the Trent Valley Canal, which the Laurier Government proposes to build at a cost of $100,000,000, is constructed, it will mean the abandonment of the Welland Canal altogether."

"If Mr. McClive is as much astray in his other facts and deductions as he is in regard to the cost of the Trent Canal, his letter must be taken with a liberal pinch of salt.

THE RETAIL MERCHANTS WILL HOLD A BANQUET

Last night's meeting of the Retail Merchants' Association was attended by a fair representation of the merchants of the city. The question of the banquet for the merchants, which has been under consideration for some little time, was finally brought to a head last night, when the Executive Committee of the Association was given authority by that organization to arrange for a banquet to be held during the next fortnight. At this banquet, to which all the retail merchants of the city will be invited, an address to the business men on a topic which will be of interest to them will be given by a gentleman from Toronto.

Mr. Robert Fair, the retiring president of the association, presided at the meeting last night, and in his address reviewed the work accomplished by the association during the past year.

The election of officers followed a general discussion of the present situation, so far as the retail merchants of the city were concerned. Those who will fill the offices for the present year are:

President—Mr. C. B. Routley.
Vice-Pres.—Mr. J. H. Counsil.
Secretary—Mr. J. R. Bell.
Treasurer—Mr. Walter Oke.
Executive — The officers, and Messrs. R Fair, H LeBrun, R J Kingan, Jas T Lang, J Lynch, C J Brown, J D Craig, T C Elliott, R Mc Whinnie, T. Barrie, E R J Mitchell, W Adamson and S D Hall.

A discussion in reference to the banquet followed, and, after a motion, expressing thanks to the Y.M.C.A. and the Press, the meeting adjourned.

It is understood to be the intention of the officers to make a vigorous canvass of the merchants of the city with a view of enlisting them as members of the association.

WILL ATTEND FUNERAL OF F. G. COX TO-MORROW

A Number of Peterborough Citizens Will Go to Toronto for That Purpose—A Special Car Arranged.

The funeral of the late Fred. G. Cox, whose untimely death was recorded in the Examiner yesterday, will take place to-morrow afternoon at 3 o'clock, from his late residence, 47 Queen's Park, Toronto, to Mount Pleasant Cemetery. The funeral will be private.

Arrangements have been made, however, for a number of Peterborough citizens to attend the funeral, and for that purpose a special car will be attached to the 7.20 G.T.R. flyer to-morrow morning.

NOTIFICATION.

To whom it may concern—I hereby forbid any person or persons negotiating with Thomas J. Moore for falsified claim of balance of account against me or my property.

S. E. HANNA,
642 George street.

Seasonable Information About Low Priced Homes

My "Western Avenue" subdivision is one of the prettiest blocks in or about the city and adjoin the Sandstone Brick Co.'s grounds, not more than fifteen minutes walk from the Electric, Carriage and Shovel Factories. Three minutes from school and corner where car line must pass to river.

The Large Blocks of 8 Lots are now surveyed, staked off, plan made and registered. Lots sold, orders received and all arrangements made to commence building not later than Tuesday next, weather permitting.

Although my prices and terms for Blocks, $10 cash and $3 per month bring them within the reach of all, man or woman, I have decided to sell a few single Lots for $75 each on easy terms, for a few days only. I will build a neat and substantial Cottage 1½ story to cost about $650, also on easy terms. Very little in addition to what you are now paying your landlord will make you a well off landlord yourself. A personal interview will give you a better understanding, and and do not forget that it means money for you. 100 acre Farm for sale, exchange or rent cheap.

WESTERN FUEL SUPPLY

The inconvenience and suffering from lack of fuel in the Northwest the past winter—partly due to labour troubles and partly due to inefficient railway management, scarcity of rolling stock, etc., and somewhat to the lack of foresight of dealers—seems to have created the idea that the west is without an adequate natural supply of fuel. The Manitoba Free Press always capably alert in exploiting the advantages and emphasising the resources of the West, comes to the rescue of the reputation of the West in regard to its fuel supply. It points out that the fuel value of western lignite (something in quality less than bituminous coal) is not questioned, but the wide surface it covers, is yet undreamt of. Thus, recently, south of James Bay, large deposits of anthraxolite and lignite have been discovered. This lignite of the Moose River basin is peculiar in that it is found in post tertiary deposits of sand, gravel and boulder clay, instead of in a solid rock formation, as in the case of the lignites of the west. It is, therefore, the newest lignite formation known in Canada. The lignite, when dry burns readily, and the deposit promises to yield, under certain conditions and for certain purposes, a fairly satisfactory fuel. With the development of railway facilities it will be an appreciable addition to the supply of superior dignite of central Canada. Prof. Ells does not believe that coal will be found north of Lake Superior. "The finding of occasional veins of anthraxolite in these old rocks," he says, "sometimes give rise to reports of the discovery of deposits of anthracite coal in this area, but so far as known geological conditions of this part of the Dominion are adverse to any such conclusion." Of the abundance of coal in the great central plains, of the vast resources of British Columbia, however, the professor speaks with the greatest optimism. The coal beds of the Peace River and the Skeena valleys are declared to be of great value. Important discoveries have been made in the Yukon territory. Coal was first reported by Mr. William Ogilvie as occurring on the Pelly River. Large fields of anthracite are known to exist on Graham Island. Along the lower part of the Mackenzie River there is a large development of coal, bearing rocks. Thus to the confines of the Dominion can a supply of fuel be developed to supplement that which is so abundant at its eastern and western extremities. We may look forward to the day when the development of water power and electrical energy will greatly reduce the demand for fuel for industrial and transportation purposes; but even if it were not so, there is no fuel question which stands in the way of the development of western Canada. All that is needed is a little foresight. Well may Prof. Ells conclude that in the western half of the Dominion the supplies of mineral fuel are practically inexhaustible. The analyses of these coals show that their quality is greatly superior to those now mined in the Pacific States of the American Union.

MAN-OF-ALL-WORK

When Sir Wilfrid Laurier left for London, Hon. W. S. Fielding, Minister of Finance, became a man of all work. That he has discharged his duties to the satisfaction of his colleagues is shown by that he deserved, and was given at the closing of the session, the appreciation of the Liberal contingent in the House for having brought to a successful conclusion the business of the House. He was richly deserving of this recognition, as is easily demonstrated. He showed one of the great qualities of a patriotic statesman when he sacrificed himself to the exigencies of Parliamentary duty. He sacrificed a brilliant role in the Colonial Conference, has worked like a slave to bring the affairs of the session to a satisfactory close, in spite of the unprecedented temporary reduction of Cabinet strength. As a correspondent points out, he indeed overworked himself, and it is fortunate that he did not have to undergo another week of the terrific strain of leading the House, receiving deputations, attending to the finances of the country and looking after another great department and its estimates. But it is not merely the amount of work a man can do that qualifies him for the task of leading the House of Commons. It has, in fact, been done—more often in Great Britain than here—by some of the laziest men who ever decorated public office. But a congenial and tactful personality, an extremely ready wit, and a complete knowledge of Parliamentary work are indispensable. Mr. Fielding has had the advantage of being not unpopular with the Opposition, a fact which undoubtedly contributed much to the smoothness of the proceedings. He has never been baited by his opponents. And, so far as his followers are concerned, he has been able to keep them in order and restrict their energies to the carrying on of the public business in a way that has surprised his best friends. Whether or not Mr. Fielding has any aspirations for the leadership, it is not to be denied that he possesses, to a satisfactory degree, all the qualifications. As statesmen go, he is comparatively young. He will be fifty-nine years old in November next.

A FLAG DESIGN BY A LOCAL MAN

Toronto Globe Speaks Highly of Mr. Baker's Ideas for a Canadian Flag.

In Saturday's issue of the Globe reference was made to a design for a Canadian falg designed and drawn, by Mr. Robert H. Baker, of Peterborough. The Globe speaks very highly of the design, a copy of which is in the possession of the Examiner.

The field is divided in three vertical sections. On the first is the Union Jack in the upper corner; below that is a white strip with the word "Canada" written across it in red letters and below that a blue rectangle broken by a small fleur-de-lis in the centre. In this section Mr. Baker wishes to convey the idea of loyalty of both the British and the French element to their common home—Canada.

The central section conveys a beautiful idea. In the centre of it is the maple leaf, the emblem of Canada, in autumn tints illustrating liberty of all creeds and classes by its variegated colours. Surrounding the leaf are two stems bearing nine oak leaves—the emblem of strength—representing the nine provinces of the Dominion, all strong within themselves and all encircling the great central leaf of liberty and unionism. Beneath all is the beaver, the symbol of intelligence, industry and thrift.

The third section is a ground of red symbolizing love and the desire for peace. The whole design is a most beautiful production of consistent thought and there is every possibility that some of Mr. Baker's ideas will be moulded into the construction of Canada's flag. Mr. Baker is a printer and is employed at the Examiner office.

There's Danger in Every Cold

Once you come to realizing the danger of neglecting coughs and colds you will not run the risk of depending on any cough mixture the druggist may choose to hand out to you, and you will insist on getting a medicine with a reputation such as Dr. Chase's Syrup of Linseed and Turpentine. Croup, bronchitis, asthmaa and coughs and colds are promptly and thoroughly cured by this treatment.

GOOD PROGRESS MADE ON ENTRANCE PIER

The New Concrete Pier at Youngs Point Nearing Completion—Mr. M. Buchanan in Charge of the Work.

Examiner Special.

Young's Point, May 1. — About two-thirds of the entrance pier at the locks here has been completed, and i ts a splendid piece of work. Under the management of Mr. Buchanan rapid progress has been made with the work. On the opposite side of the new pier they are putting in a rip-rap wall, and the old bridge will be taken down and the ground graded and sodded. A new fence will be erected on one side, and the government house will be painted and renovated. When the work is completed the local look will be one of the prettiest looks on the canal. Mr. Buchanan is a practical man, having had about 25 years experience in excavating, erecting piers, bridges, building dams, etc.

Piles Cured in 6 to 14 Days

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, or money refunded. 50 cents.

WAS PRESENTED WITH A SIGNET RING

Mr. Fred. Roddy Left This Morning for Fort William

Last night Mr. Fred. N. Roddy was surprised by a number of his fellow associates in hockey and baseball, at his home on Stanbrooke street, and presented with a signet ring, accompanied by an address. Mr. Roddy left the city this morning for Fort William, where he has secured a position.

The address was read by Mr. Ira D. Moore, and Mr. Geo. Crowe made the presentation. Mr. Roddy was taken completely by surprise, but responded, expressing his appreciation of the kindness of the boys. He will be greatly missed by his many friends in the city, in both social and sporting circles.

BARTENDERS' LICENSES RENEWED

License Inspector Had a Busy Time—Those Who Received Licenses.

License Inspector Joseph Stewart had a busy day yesterday when he issued the yearly licenses to the various bartenders of the city. Last year's licenses expire to-day, and they must be renewed before the persons holding them can sell liquor.

Following is a list of those granted by the Inspector:

Louis Reilly, Oriental.

TELEPHONE CABLE UNDER STONY LAKE

Juniper Island Store Will be Connected This Year by Bell System.

The steamer Majestic went up to Stony Lake to-day to lay the telephone cable from McCracken's Landing to Juniper Island. The cable only goes to the southern end of the island, and from there the wires will be erected on poles and trees as far as Mr. T. W. Robinson's store. The wires have already been erected as far as McCracken's Landing. The new office at Juniper Island will be placed on the Warsaw exchange.

LARGE NUMBER ATTENDED THIS MORNING'S MARKET

Cattle, Hogs and Hay Were Chief Offerings by the Farmers.

The local market was a busy spot to-day and several scores of men were exchanging merchandise. About 75 hogs were brought in, most of which were purchased for the Geo. Matthews Company by W. A. Stabler. Hogs still remain at $6.50 per cwt.

There were about 75 cattle, principally stockers, also weighed this morning. They were bought by Mr. Jas. Ruth and were shipped to Toronto. Stockers are now being bought at from 2 1-2 to 3 cents per pound.

Several loads of hay were also noticeable, the price being $14.00 per ton.

A dessert spoonful in a glass of water every morning

is the popular dose of ABBEY'S SALT. This small quantity regulates the bowels—makes the liver active—strengthens the kidneys—steadies the nerves—improves the appetite—and brings sound, restful sleep.

Abbey's Effervescent Salt

is the ideal tonic laxative—pleasant, mild and effective.

At All Druggists 25c. and 60c. a bottle. 140

You have No Reason for Not Using

Zutoo

Some people think that all headache cures are alike—that they all undermine the health, even if not perceived at the time of taking them.

Well, we'll admit that their drug cures do this, but that is no reason why you should not take Zutoo.

Zutoo is a harmless vegetable remedy. One ingredient is soda—just old-fashioned soda that our grandmothers used to take to settle the stomach, when they had sick headache. And there is nothing better.

The principal ingredient—the one that stops the headache, is a vegetable ingredient, imported for us from Japan. It wont hurt you any more than will the soda.

There is absolutely no reason why you should not use Zutoo.

If you suffer from headache there is every reason why you should.

Taken in time, two tablets will ward off a headache. Taken later, they will stop it in twenty minutes, and leave you feeling good every time.

If you are using a drug remedy, why not discard it?

Zutoo will cure just as quickly and will save you the penalty, that all must sometime pay, who take the drugs which these cures contain.

If you will give Zutoo one trial, you will never take any other headache remedy again.

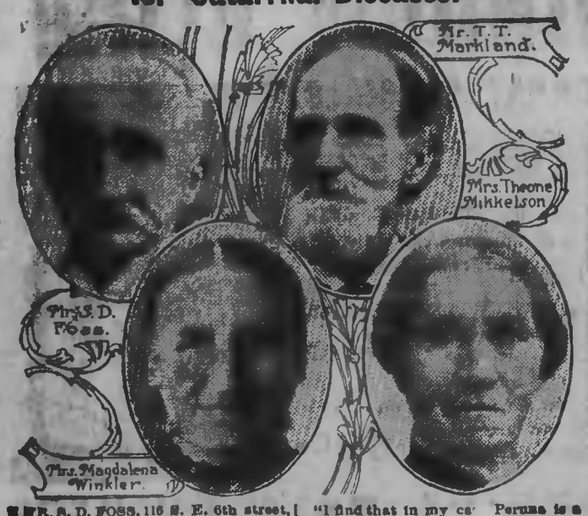
THE OLD FOLKS AT HOME

Are Never Without Pe-ru-na in the Home for Catarrhal Diseases.



MR. S. D. FOSS, 116 S. E. 6th street, Minneapolis, Minn., writes:

"I wish to congratulate you on your medicine, Peruna. I have been a sufferer with catarrh of the stomach for over two years, but since I have commenced to take your remedy I have been steadily improving until now I can safely say I feel no more of my old trouble, and as a matter of course, I will always have a good word for Peruna.

A GOOD WORD FOR PE-RU-NA.

"I recommend it to all my friends."

Mrs. Magdalena Winkler, Route 4, Westminster, Md., writes:

"I thank you very much for your advice. I can safely say that Peruna and Manalin have saved my life.

"When I wrote to you the first time, asking your advice, my condition was so poor that I did not expect to live through the winter, but now I am perfectly healthy. I cannot praise your medicine enough and I recommend it to others."

PRAISE FOR PE-RU-NA.

T. T. Markland, a well-known business man of Cincinnati, O., writes from 3249 Woodburn Ave., as follows:

"I find that in my case Peruna is a flesh builder. I am now at work every day, and have gained ten pounds. I took your Peruna according to directions, and the result was more than I expected.

GAINED 10 LBS. IN WEIGHT.

"I can now breathe with ease, and also my cough is stopped. I had it for six months before I took down with the grip.

"I took no other medicine but Peruna and it accomplished all. You told me in your first letter that Peruna would cure me and it has.

"I am seventy-three years old and can attend to my work and business as usual."

Mrs. Theone Mikkelson, Brigham City, Utah, writes:

"I wish to thank you for all the good Peruna has done me. I am entirely free from the cough which used to bother me so much every winter.

"My kidneys are also in good condition, and I feel stronger and better all over. For all these I give the credit to your excellent medicine, Peruna. I am pleased to recommend it to everybody."

GIVES PE-RU-NA CREDIT.

QUARTER OF MILLION OF AN INCREASE

Port Hope Assessment This Year is $1,847,906—Nearly $250,000 More Than That of 1906.

The Port Hope assessors, Messrs J. T. Henwood and J. H. Magill, have completed their work and returned the books to the town clerk. The assessment this year amounts to $1,847,906.

The total assessment last year was $1,599,317, so this year there is an increase of $248,589. The assessors state that they were instructed to raise all the assessments but were given the assurance that the rate this year would be lower than last year.

NORWOOD MASONS GAVE AT HOME

An Interesting Social Event at Which Members of the Masonic Fraternity Were Hosts Was Held.

Examiner Special.

Norwood, May 1st. — Norwood Lodge A. F. and A. M., which has always been far famed for its hospitality, retained its reputation last Monday night when its members entertained a large number of their friends to an at home.

The guests first assembled in the Lodge room and then adjourned to the town hall where Mine Host McKelvie had prepared a sumptuous repast.

After ample justice had been done to the many good things, Wor. Bro. Harper acted as toastmaster and filled the position acceptably. He then called on Wor. Bro. Pearce, who proposed the toast to His Majesty the King. This was heartily drunk, and succeeded by the singing of the national anthem.

Wor. Bro. Sherry, in proposing the Craft, spoke at some length of the history of Masonry, coupling with the toast the names of Wor. Bros. Ford and Pickford, who made able responses. The last toast, but a very important one, was to the Ladies, and was championed by Wor Bro. Cuffe, and gallantly responded to by Bros. Ghent and Adams. After this a musical programme of rare excellence was presented, closing with the National Anthem. Some of the younger members remained to trip the light fantastic toe, thus bringing a most successful entainment to a close.

"BELVIDERE," STONY LAKE NEW SUMMER RESORT

Mr. McKelvie, of Norwood, Says There Will be "Something Doing" at Crowe's Landing This Summer.

This new, modern and beautifully situated summer resort will be open for the reception of guests about the 24th of May. Mr. J. R. McKelvie, of Norwood, the proprietor, has erected a comfortable and convenient house, planned to the best advantage, special attention being given to ventilation and sanitary arrangements. It is adapted for either large or small families or parties, and should receive a good share of patronage.

The situation of "Belvidere" is an admirable one—at the head of Stony Lake—and said by many of our tourists to be the most attractive part of the whole of these island-dotted waters. It is in close proximity to the Blue Mountains, the mica mines, Eel's Creek, Jobe's Creek and Lake Koshkobogamog. The grounds faces the lake, where there is always a cool breeze, and where the fishing, hunting and yachting privileges are unexcelled. Just such a spot as to make one dream of

"The happy days we squandered, you and I,
In the hazy, lazy summer days gone by."

Mr. McKelvie will have a good general store in connection, well stocked with groceries, meats, bread, fruits, and other of the wants of cottagers and campers. Already inquiries are being received, asking for information regarding the house, and how to reach the "Belvidere." Mr. McKelvie's present address is Drawer 27, Norwood P. O.

Back So Lame Could Not Walk

DOCTOR'S EFFORTS WERE IN VAIN BUT CURE CAME WITH THE USE OF

DR. CHASE'S KIDNEY-LIVER PILLS.

It is not always the doctor's fault when he tries to give temporary relief instead of lasting cure. Sometimes patients demand it.

The thorough, far-reaching and lasting effects of Dr. Chase's Kidney-Liver Pills are well illustrated in this case, in contrast with the doctor's failure to even bring relief:

Mr. Geo. Tryon, Westport, Leeds Co., Ont., writes:—"For two years I was completely laid up with lame back, and could neither walk nor ride. I tried many treatments and the doctor put on a fly blister, which only increased the suffering and did not do me the slightest good.

"A friend told me about Dr. Chase's Kidney-Liver Pills, and I had not finished the first box before I was completely cured. I have never had a lame back or kidney trouble since, and it has been the means of selling dozens of boxes of Dr. Chase's Kidney-Liver Pills. We are never without them in the house and think there is no medicine like them."

The urea, uric acid and other poisonous waste substances which are left in the blood after the process of digestion has taken place are eliminated from the system by the action of the kidneys. Failure of the kidneys to perform this important work of filtration means a poisoning of the whole system and consequently the most painful of diseases, such as Bright's disease, lumbago, backache and rheumatism.

The cause of such ailments are most promptly removed by the use of Dr. Chase's Kidney-Liver Pills. This great family medicine has a combined action on the liver, kidneys and bowels which is not possessed by any similar preparation. The whole system is quickly and thoroughly cleansed and the vital organs invigorated by this treatment. One pill a dose, 25 cents a box, at all dealers or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

DRIVER WAS THROWN FROM HIS SEAT

In an Exciting Runaway on George Street Yesterday Afternoon.

The horse attached to Mr. F. R. J. MacPherson's delivery rig did a runaway stunt on George street yesterday afternoon that for quickness of action and dramatic suddenness in stopping has not been surpassed for some time. The animal became frightened at something at the corner of George and Hunter streets, got beyond control, and dashed down the main thoroughfare, at a pace that would have done credit to a horse on the turf. The flying horse turned east at Simcoe street, throwing the driver, Ed. White, headlong from the seat. Fortunately however he escaped unhurt.

The rig turned over a moment afterwards and the horse was brought up by his feet slipping on the pavement in front of C. N. Brown's store, and was captured before it could get up. The rig was badly damaged.

GENERAL ROAD MASTER HAS RESIGNED OFFICE

News of Interest Regarding G. T. R. Officials—Mr. Wm. Curran Confined To His Home.

Mr. McFadden, General Road Master of the Northern Division of the G.T.R., with headquarters at Allandale, has resigned his position. He has been in office for a little over a year, and is yet a young man.

Mr. William Curran, of Lindsay, Inspector of Buildings and Bridges, in the Midland District of the G. T. R., is confined to his home with illness. Mr. John Beer is taking his place.

THE BATTERY DRILL SEASON TO OPEN SOON

Sergt.-Major Fee Will be the Instructor—Horses are Required for the Camp

As soon as Sergt.-Major Fee, who is at present ill with the mumps, recovers, the drills of the 24th Field Battery will be commenced for the season. It is probable that arrangements will be made for the use of the drill hall, on Murray street for drill purposes, the battery hall, in East City being too small for artillery purposes.

This year 16 days' drill will be indulged in, the Battery going to Petawawa, on June 17th. Any farmers who have horses which they will rent for the drill season are asked to communicate with Dr. W. H. Blanchard, Vet. Lt. The owners of horses will be paid $1.00 a day, and good forage during the sixteen days of camp. Should any injuries be sustained by the horses the Government pays for them.

WEDDING BELLS.

GIBSON--GUTHRIE.

The waning days of April have been the occasion for many pretty weddings in the city, and yesterday was no exception. Among that evening's nuptial celebrations was the marriage of Miss Annie E. Guthrie to Mr. Arthur J. Gibson, of the real estate firm of Wilson & Gibson, which took place at the home of the bride's mother, 308 Aylmer street, at 7.30 o'clock. The interesting ceremony was performed by Rev. J. G. Potter, with about forty guests, friends of the bride and groom, in attendance. The house was prettily decorated for the occasion with flowers and ferns, and especially in the dining hall, where the supper was served.

The bride was attired in a pretty costume of white crepe de chine, with all-over lace and silk braid trimmings, and she carried a bouquet of bridal roses and lilies of the valley. The bridesmaid was Miss Violet Guthrie, sister of the bride, who was dressed in a costume of beautiful white Swiss muslin with Valenciennes lace trimming and carried pink carnations. The groom was attended by Mr. C. Milson Blewett.

When the strains of Mendelssohn's wedding march, played by Miss Florence Kitney, had died away, "The Voice That Breathed O'er Eden" was sung by Miss Minnie Kitney, during which the bride and groom entered the parlour, where the ceremony was performed.

The tables were artistically decorated with pink and white carnations and the asparagus fern. In the centre was a pyramid of white silk ribbon, with flowers clinging to it, extended to the chandelier above. The presents were numerous. The groom's gift to the bride was a cabinet of silver, complete, consisting of 109 pieces, and to the bridesmaid a pearl and diamond ring. Presents also came from New York and Regina.

Mr. and Mrs. Gibson leave this evening on the 5.15 C.P.R. train for Regina, where they will reside, but will visit friends in Toronto and Winnipeg on their way. The bride's travelling costume was a navy blue suit with hat to match. The many friends of the happy couple extend to them their best wishes for a prosperous and bright future in the Canadian West.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.

BENEFIT CONCERT A SUCCESS

Large Number Attended Concert at the George Street Methodis Church in Aid of the Poor.

INTERESTING PROGRAMME

The Benefit Concert held in the George street Methodist Sunday School hall last night attracted a large audience who listened with a great deal of pleasure to the excellent musical and literary programme presented. The concert was given under the auspices of the Ladies' Aid Society, the proceeds being in aid of the poor.

The chair was occupied by the Rev. Dr. Crothers. The various selections were of a pleasing character and great care was certainly exercised by the ladies in procuring some of the best local talent. Little Miss LeBar, one of Peterborough's promising young elocutionists was one of the contributors and in two recitations delighted the large audience by her graceful manner and expressive articulation.

At the conclusion of the first half of the programme a sale of candy took place, under the supervision of Mrs. Devins and Mrs. Lindsay, which gave an opportunity for conversational intercourse among the attendants. The programme presented was as follows:—

Instrumental solo—Miss Wilhelmine Gumpricht.
Recitation—Miss LaBar.
Vocal solo—Miss Muriel Crothers.
Recitation—Miss Eva Stevenson.
Vocal solo—Miss C. Belleghem.
Reading—Mr. Moore.
Duet—Misses Chasty.
Sale of candy.
Instrumental solo—Miss Gumpricht.
Recitation—Miss LaBar.
Vocal solo—Miss C. Belleghem.
Recitation—Miss Powell.
Male Quartette.
Violin solo—Miss Crothers.
Vocal solo—Miss Mowry.
Recitation—Miss Eva Stevenson.

SWISS DANCING.

This inimitable life-like picture will be shown to-night, with many others, at Scott's Colosseum 432 George street. Refined performances with illustrated songs. Afternoon 2 to 5, evening 7 to 10. Thursday, a masterpiece, "The Demon Horse." Admission 5 cents.

OFFICER FOUND ELEVEN TRUANTS IN ONE DAY

Claims of Illness Were Frequently Given As Excuses.

Mr. Geo. Cochrane, truant officer, gathered in no less than 11 truants yesterday. He spent a considerable portion of the afternoon on Parnell street and in other portions of the south end. Excuses were many and varied, but the claim of sickness seemed to be the chief claim of the absentees who were neglecting their education.

ARE YOU SUBJECT TO HEADACHE?

If you are, and have never tried Burdock Blood Bitters it will pay you to profit by the experience of others and give it a trial.

A healthy stomach, right acting liver and bowels that properly perform their important duties, will render anyone free from headache. If these organs are not in perfect condition, headache must follow. The proper course is obvious—restore the stomach, liver and bowels, to health, and headache cannot exist. For this purpose no medicine equals

BURDOCK BLOOD BITTERS

It removes the cause of the headache by its splendid cleansing, strengthening and tonic properties, whereby the entire system is brought into healthy action. Miss Celina Dubal, Letellier, Man., writes: "I suffered for fifteen years from sick headache. To the advice of a friend I owe my complete cure, and it is with great pleasure that I testify to you that I have not suffered since using your wonderful remedy, Burdock Blood Bitters. I can recommend it as an efficacious remedy for sick headache, which caused me so much misery.

Price $1.00 per bottle or 6 bottles for $5.00 at all dealers."

OUR STOCK OF MOUNTED
DIAMONDS

was never so large, and for variety it is unexcelled. It also includes other precious stones in combination with the Diamonds making our stock the most attractive we have ever placed before our customers.

Diamond Rings, $5.00 to $300.

YOUNG LADIES' MISSION BAND GAVE CONCERT

St. Andrew's Young Ladies Entertained a Large Number Last Night.

The Young Ladies' Mission Band of St. Andrew's church held a very successful concert in the Sunday school room last night. There was a fairly large attendance and the entertainment provided was of the usually high merit that has been noticed in the past. Mr. Packenham occupied the chair and spoke a few words as to the purpose of the concert, making reference to the splendid work the Mission Band is accomplishing. During intermission candies, etc., were sold by the ladies and at the conclusion those taking part in the programme were served with light refreshments.

The following is a synopsis of the various numbers.

Instrumental solo—Miss J. Titterson.
Song—Miss Hunter.
Recitation—Miss M. Titterson.
Song—Miss King.
Duet—Miss Anderson and Mr. Mackie.
Piano solo—Miss Mabel Pringle.
Song—Miss Laing.
Dialogue, "Courtship Under Difficulties"—By a number of young ladies.
Song—Mr. Mackie.
Recitation—Miss M. Titterson.
Solo—Mrs. Davidson.
Selection by Mandolin Club.
Musical sketch, by a number of the young ladies.

The following composed the Mandolin Club: Messrs. A. Cranfield, J. Brightman, B. Holland and A. J. Tovey, mandolins; Mr. Hooker, guitar, and H. Theobald, piano.

The several dialogues given by the young ladies were quite amusing. Mrs. Davidson's vocal solo was splendidly sung as was also a second number demanded as an encore. Miss Janet Titterson gave a delightful piano solo and promises to become accomplished at the piano.

Music and Drama

NAPOLEON THE GREAT

The audience that greeted Mr. Thos. E. Shea in the great historical play, "Napoleon, the Great," at the Grand last night was not nearly so large as the merit of the presentation warranted, but they made up in enthusiasm what they lacked in numbers, and Mr. Shea and his talented support were given a warm reception. The play was written especially for Mr. Shea by Channing Pollock, the well-known New York playwright and dramatic critic, and deals with the principal events in the life of "the man of destiny" from his return from Egypt to the battle of Waterloo.

Mr. Shea was seen at his best in his personation of the Little Corporal. Physically and historically, he is eminently fitted for the role, and his presentation of the insatiable ambition of the great general was at once vivid and accurate. His realistic acting won for him round after round of applause, and at the end of the second act he was recalled five times. Perhaps his best work was done in the fourth act, where his ambition, intermingled with his love for France, leads him to divorce Madame Josephine against the dictates of his heart.

Able support was given him by Miss Alice Endres, as the "Duchess Guiche," and Miss Charlotte Burkett, as "Madame Josephine," while the minor parts were in good hands.

The play is superbly staged, the scenery throughout being magnificent, especially that which brought the play to an end, the representation of the battle of Waterloo.

OPENING TEA BUSINESS IN THIS CITY

Mr. J. John, of Lachute, is Here To-day For That Purpose—A House-to-House Canvass.

Mr. J. John, late of Lachute, has arrived in to city to open a tea business. Mr. John has been in this line of business in Canada for the last two years, but prior to that time conducted it in the Old Country, and is thoroughly familiar with the business. His method of conducting the business is by a house to house canvass. His tea is put up specially for him, in packets with his name on them, and is of a superior quality.

Referring to his departure from Lachute, the Watchman, of that town says:—

"Our well known and enterprising young townsman, Mr. J. John, left this morning for Peterborough, to open up a new branch of his tea business, and his many friends throughout this county wish him the same success as has characterized his efforts here."

MR. HARDING'S WORK MUCH ENJOYED

This Week at Scott's Colloseum He is Singing Mr. A. C. Yokome's Song, "The Flower of Japan."

Mr. A. E. Harding, of Toronto, is, this week, singing at Scott's Colloseum, Mr. Croyland Yokome's new song, "The Flower of Japan." It is making a hit, too, and Mr. Harding is doing much to popularize this production of a local song-writer. It is being given a splendid reception at each performance, and is repeated several times each night.

A RELIABLE MEDICINE.

Why Our Local Druggists, McDermid & Jury, Recommend Vinol.

So many patent medicines and advertised cures are now offered to the public that our readers will be glad to know the opinion of a man who has spent years in handling them, and profit by his advice.

Said Mr. McDermid, of the above firm: "There is no one medicine that will cure everything, but this I do know, that if the people of Peterborough only realized the wonderful curative and strength-creating power of Vinol I would not have clerks enough in my store to put up the orders for it.

"You see, Vinol is not a patent medicine, and it actually does contain every one of the fifty odd medicinal curatives actually taken from fresh cods' livers, with the useless oil eliminated and tonic iron added. It contains no poisonous drugs, and you know just what you are taking.

"Therefore, in the strongest manner we endorse and recommend Vinol to increase the appetite, cure stomach troubles, give strength to the run-down, tired and debilitated, invigorate and build up old people, make rich, red blood, cure chronic colds, colds and bronchitis. If it fails, we return your money. McDermid & Jury, Druggists, Also at The Market Drug Store (the Ormond & Walsh Old Stand).

PRESENT CONDITION THE RESULT OF INJURY

Mr. Wm. Colquhoun Will be Taken to Toronto and Submitted to an Examination.

Mr. Wm. Colquhoun, who, on Monday, was taken in charge by the police, is at the present time under Mr. Henderson Nesbitt's care. He will be taken to Toronto and examined as to his mental condition. Since he received an injury in the head, about six months ago, he has not been well, and it is believed that there is a pressure on the brain. The statement that he had threatened to take his own life is not correct.

INITIAL MARCH-OUT OF THE REGIMENT NEXT WEEK

Not Yet Decided Where the Annual Trip Will Be---Total Total Strength of Regiment Was 223---Manual And Company Drill.

The regimental drill last night was confined to the drill hall, on account of the unfavourable weather outside. It consisted principally of manual and company movements, which were excellently performed. Next Tuesday night the first march out—always a memorable event—will be held, with both bands in attendance.

Recruit classes begin this week, under Sergt. Major Brittain's tutorship, meeting on Thursday night and each succeeding Thursday until further orders are given.

The Trip Committee have not yet decided the objective point of the trip of the 57th for this year, but the choice lies among Brockville, Kingston, Cobourg, and St. Catharines. The committee has been strengthened and by next drill night will report to the officers.

The total strength of the Battalion last night was 223, officers and men.

The following orders were issued by Lt.-Col. Miller.

No. 1. Detail of duty for the week ending May 7th, 1907: Captain for the week, Captain Cluxton; next for duty, Captain McWilliams. Subaltern for the week, Lieut. Higgins; next for duty, Lieut. Wallace.

No. 2. The following have been taken on the strength of the Regiment from April 23rd, 1907: H Company, Pte. D. G. Cameron.

No. 3. A class for the instruction of recruits will be held under the direction of Sergt.-Major Brittain, on Thursday, May 2nd, at 8 p.m., and at the same hour on each subsequent Thursday until further orders. All recruits will attend the classes.

No. 4. The regiment will parade at the drill shed with both bands, at 8 p.m., on Tuesday, May 7th, 1907, when the first march out for the season will take place.

No. 5. The commanding officer has been pleased to make the following promotions: B Co., to be Sergt., provisionally, Corp. D'Eyncourt Stone; to be corporals provisionally, Ptes. D. Calder, J. Seymour and F. Dummitt. C Co., to be corporal, provisionally, Pte. Miller; E Co, to be Lance Corporal, provisionally, Pte. S. Abbott; F Co., to be sergeants, provisionally, Corp. Ackerman, vice Sergt. Routley, left limits; to be corporal, provisionally, Pte. Turner.

By order,
D. WALKER, Capt.,
Adjt.

If the children require physic none acts so nicely as Miller's Worm Powders; very pleasant to take. Sold by W. Madill.

FOR SALE.

That well built brick house and lot situated at the corner of George and Dublin Streets, also excellent corner lot. This property is to be sold to wind up an estate, and all particulars may be had at 580 George Street. dtf.

THE BELLEVILLE CHEESE SOLD AT LOW PRICE

At First Meeting of the Board on Saturday the Cheese Only Brought it 7-16c.

The first sale on the Belleville cheese board for the season was held on Saturday, when the product offerred sold at 11 7-16 cents, a price considerably lower than the first cheese offered on the Peterborough Board is expected to bring. The first sale here will be held and it is a splendid piece of work.

Mental and physical vigour follow the use of Miller's Compound Iron Pills. Sold by W. Madill.

WANT OF SYSTEM AND SUPERVISION

To-day, the city fathers and the city officials are making their annual pilgrimage over the streets of the city, to see what is to be seen, and, in fact, if they only see right, to be confronted with the results of civic mismanagement and want of system in connection with our streets. This annual picnic excursion over our streets is highly suggestive. It reminds one of the man who, with elaborate ceremony, took his annual bath. If he had followed civilized precedent, and taken a bath once a day, or even once a week, there would be no necessity for making a splurge over an annual bath.

If our streets were administered under any—even the most perfunctory—sort of system, if even half-an-eye supervision were in constant play, there would be less necessity, except for purposes of pleasure, to take an annual aldermanic carriage drive, to see, not how good our streets are, but how bad they are.

To any mind, and anybody except the wonderfully constituted and optimistic aldermen of all ages, a drive through the streets of Peterborough would be anything but a pleasure jaunt. There would be no moral pleasure in witnessing multitudinous mud-holes that strew our highways as thickly as a transmuted milky way; it would be no physical pleasure, either, especially if the Jehu would risk his vehicle by a brisk speed, to bump through pitch holes, bump over mounds made by improperly filled sewer and gas trenches, and over mounds resembling roughly filled graves left by carelessly-filled service trenches. It would be no pleasure to see long stretches of street destroyed, or made almost impassable by lack of drainage, which conformation of ground and other natural conditions, make easy.

It is to be hoped that the aldermen will note that on George street, our main thoroughfare, there are, or there were yesterday, muddy pools, about the size of the table of the Committee of the Whole—Committee of the Hole would be a more fitting term—and with from one to three inches of water. These disgraceful holes could have been prevented from forming by the application of a barrowful or less of street metal when the depression, the baby mud-hole, first appeared.

But there seems to be no system, no idea of keeping a fairly well made street in repair. We spend a thousand or so dollars in constructing a new stretch of street, and the Board of Works, of the present and past, leave it severely alone; pay no attention to trifling repairs which, if made in time, and continuously, as occasion required, would keep the street in good condition perpetually. The result of this omission is that the street is neglected and goes to ruin, and the people who pay the taxes have to use it in discomfort, till, at great expense, it has to be re-constructed anew.

This is all due to lack of proper system—and of intelligent and well-directed supervision. "A stitch in time saves nine" applies more forcibly to the case of our streets than to the case of a coat.

It is to be hoped that the city fathers will ride in state through the city streets to-day with open eyes and open minds. We hope that their self-complacency in regard to the proper conditions of our streets will get as many rude jolts as it is certain their bodies will get. They may tell us on their return that all is serene, that all is lovely, and that we get splendid value for the some $20,000 we expend on our streets. But we who use them know better. The aldermen cannot avoid seeing the ravages made by the unbridled, and uncontrolled, and unregulated assaults made from time to time, and collectively almost every day, upon our public thoroughfares. We have a series of assaulting parties represented by the sewer contractor, the water works, the Gas Company, Telephone and Telegraph Companies, the citizens putting in sewer services, etc., etc., who dig up, without leave, license or restriction, our streets at will, and fill trenches in such a slovenly manner that the street surface is ruined for use.

All of this could be avoided by some sort of system to regulate excavations on streets. No company nor individual, should be allowed to sink a pick into the street surface without a written permit from the proper authority, accompanied with a reliable guarantee that the street will be restored to its original condition after the excavation is done; that it will be tamped properly and made level without a cent of present or subsequent expense to the corporation. This has been shamefully neglected in the past as can be seen any day almost anywhere in the city.

On the corner of Hunter street and Aubidge over a year ago a service was put into a house and the hole was so sloppily filled with un-rammed earth that after a rain a citizen's horse was nearly swallowed up by it and nearly lost its life. This particular hole has been filled up two or three times and even to-day it is the cause of deep mudholes, which threaten the life of a vehicle. The taxpayers are bled at ever pore; they were taxed to put this street in condition; they were taxed to have the unfilled holes refilled two or three times and they will have to pay for having it done again.

This condition of things is outrageous and is all due to lack of system and lack of proper oversight of our streets; to permitting anybody that chooses, without let or hindrance or regulation or condition, to rip up our streets and leave them like a ploughed field.

The chairman of the Board of Works is very anxious to make the Special Committee charged with improvement of the little park, corner of Park and Charlotte streets, pay $45 for a few loads of street scrapings. He is wise. It will take more than $45, more than ten times $45, to repair the ruin of our streets made necessary by the operations of excavators of all kinds. This is a pure waste of money. In the first place contractors have been paid for the work of making the streets level but they haven't done the work and now the city will have to pay hundreds of dollars for what others have been paid to do, and have not done, or for restoring the streets after others who have left heaps of earth and other unsightly conditions, which never would have been left if we had had some system and some proper oversight of our streets, somebody charged with responsibility.

Speak to an alderman about this state of affairs and he will admit that things as charged above, are wrong; "but" with a shrug of the shoulders, "I can't help it." He can help it; and he must help it if the wishes and rights of the citizens are to be respected and protected, and if the taxpayers are to be guaranteed against the almost criminal waste of city money that has prevailed upon our streets for years and still prevailes, through lack of proper system and proper supervision.

WATER STREET TO BE WATER TABLED

Annual City Tour of the Board of Works To-day.

The Board of Works Committee of the City Council made its annual city tour to-day, inspecting proposed sidewalk and sewer sites and looking over streets in need of repairs. Their chief decisions were to grade the eastern extension of Hunter street to the lift look, and to have a portion of the hill cut down, and also to water-table and repair Water street, north of Smith street.

The morning was spent in East City and in the north and northwestern portions of the city. They first visited Dixon street and vicinity, and, after looking over the Court House hill locality, they drove over to East City, where the Hunter street extension and Sophia street were inspected. Their attentions were next turned to the Auburn Mills section, after which they crossed the river to the gravel pit.

Benson street was visited, and the proposed sewerage to the Normal School considered. The Board next travelled down Stewart street to McDonel street, and west into the Homewood avenue section. Cedar street also came within their visit, where the sewer is being construcoted.

This afternoon they drove to the south and southwestern sections of the city, where their tour was ended.

The Board was accompanied by the Mayor, City Clerk, City Engineer, Street Commissioner, and Ald. Elliott, Bradburn and Phelan.

BOYS' CLUB CONCERT WAS ENJOYED

Progressive All Saint's Church Organization Gave a Splendid Entertainment Last Night.

Last night the Boys' Club of All Saints' church gave a delightful concert in the school room. It was attended by a large representation of the congregation, and a most enjoyable programme was rendered. The chairman was the rector, Rev. Wm. Major, who, in his opening address expressed the pleasure it gave the members of the club to welcome such a large number to the first concert held under its auspices. The following excellent programme was given, all those taking part doing themselves credit:

First Part

Piano duet, Misses Mulholland.
Song, Mr. A. E. Wilson.
Recitation, Mr. Jas. Runnett.
Song, Miss Edwards.
Drill, Boys' Club.
Song, Miss Marguerite Fanning.
Comic Song, Mr. C. Coleman.
Instrumental Sextette.
Piano duet, Misses Mulholland.

Second Part

Song, Master Cyril Dovey.
Recitation, Mr. E. A. Roe.
Song, Miss M. Edwards.
Duet, Messrs. Wilson & Flowers.
Comic Song, Mr. C. Coleman.

St. Vitus dance rapidly cured by Miller's Compound Iron Pills. Sold by W. Madill.

OBITUARY

MARY LEA PLANT

Yesterday afternoon Mary Lea Plant, one of the little girls at the Barnardo Home, passed away at the age of 12 years. She was born in England, but was brought to Canada some time ago. The cause of her death was heart disease. The funeral was held this afternoon from the Home at three o'clock, to the Little Lake cemetery.

Health And Vitality For Old People

As old age creeps on vitality is lowered, the heart beats more slowly, the blood becomes more thin and watery, and the power of resistance is lowered. It is the old people above all others who require the new life and energy which come with the use of Dr. Chase's Nerve Food. Thousands of old people depend on this treatment, because it calms and quiets the nerves, gradually and certainly enriches the blood, builds up the system and instils new life and vigour into their shrivelled arteries.

TATE OPTICAL CO'Y

G. N. BABCOCK, Eye Specialist

412½ GEORGE STREET, PETERBOROUGH

UNSOLICITED TESTIMONY

The Tate Optical Co. Peterborough:

DEAR SIRS.—During the last three or four years (prior to May last) my eyesight had failed to such an extent that I was unable to read or see anything at close range and could get no Glasses that would help me. I tried two different Opticians in Toronto and was told by both that they could do nothing for me, and that my sight would never be better. A statement of my case was sent to Montreal by a Hastings optician and several pairs of Glasses sent me, but with the same result, my vision could not be improved. Last May, while looking at a Pair of Glasses you made for Mr. John Fife, Keene, and talking with him he advised me to consult your Mr. Babcock, and I am pleased to say that the Pair of Glasses he made for me have given me entire satisfaction and I can do now what I have not done for years past—read any ordinary print and see distinctly at close range. I feel very grateful, not only for the interest you have taken in my case, but particularly so for the blessing of good eyesight. Thanks to your knowledge and skill.

Yours truly,

(Signed) JOHN CARTER, Sr.,
Hastings, Ont

Mallory CRAVENETTE HATS

STYLE and SERVICE

We want you to see this new line of fashionable hats, if for nothing else than to learn what are the latest and most approved metropolitan hat styles

The famous Priestly Cravenette process, which makes the Mallory Cravenette Hat rain-proof, gives it added wearing qualities. A Mallory Cravenette Hat will stay new until you get the value of several new hats, and yet it costs no more than other hats of equal quality and style.

All the fashionable shapes and shades. See them before you choose your Spring headwear.

HOT BY THE POLICE IN NEW YORK

Man Receives Fatal Wound While Resisting Arrest.

WANTED ON MURDER CHARGE

Was Hiding In Upper Tenement—When Officers Sought Admittance—Reply Was a Bullet—Dashed Through Window and Over Roofs—Empties Two Revolvers At Police—Died In Hospital.

New York, May 1.—In a running pistol fight with a dozen policemen yesterday, Thomas Donahue of Harlem, whom the police had sought on a charge of murder, was shot and mortally wounded after he had emptied two revolvers at the policemen. Since March 23, when "Buck" Hanlon was shot to death in East 102nd street, the police had been searching for Donahue on suspicion that he fired the fatal shot. Early yesterday it was learned that he was hiding in an upper Third Avenue tenement, and a police sergeant, with a dozen men, was sent to arrest him. When the house had been reached two policemen approached the lower entrance and rapped for admittance. The reply was a bullet, which shattered the glass in the door and buried itself in the opposite wall.

In another instant the two policemen had hurled themselves through the door and into a room where Donahue with a revolver in either hand was in the act of climbing through a window to the fire escape. As the policemen burst into the room the hunted man turned and sent two bullets toward his would-be captors before he sprang through the window and dashed up the fire escape to the roof of the house. Running across several roofs, Donahue slid down a fire escape on the other side of the building and dashed away through back yards and over fences, exchanging shots with his pursuers almost at every turn. None of the bullets took effect until Donahue was forced to expose his whole body in climbing over a shed, and then a bullet from a policeman's revolver struck him in the shoulder and brought him tumbling back into the yard. When the officers pounced upon him both his revolvers were empty. The prisoner walked to the police station under guard, but there he collapsed and a police surgeon, who examined him said that the bullet had pierced his lung. He was taken to the hospital, where he expired.

THREE TRAINMEN KILLED.

Engine Plunged Through Bridge West of Schreiber.

Fort William, May 1.—Another serious accident occurred on the Canadian Pacific Railway about 75 miles east of here Monday night, in which three employes lost their lives.

The dead are: William Fixture, engineer; D. Vaudry, fireman; Valancourt, brakeman.

The train was the second section of No. 130, regular freight, and left here, eastbound, at 5.30 on Monday.

The accident happened at Fire Hill, a small station east of Nipigon, the bridge over a small creek being washed out, and the engine plunged into the opening, going at regulation speed.

The bodies of the fireman and brakeman were probably buried under the engine.

The body of the engineer, William Fixture of Schreiber, was found yesterday, but bodies of the fireman and brakeman are still in the wreck. Fixture leaves a widow, but no children. He has been a resident of Schreiber for 22 years, and was making preparations to abandon railroading and take up a farm in the West. The three injured are progressing favorably.

WHAT RHODES HOPED FOR.

Eventual Recovery of United States by England.

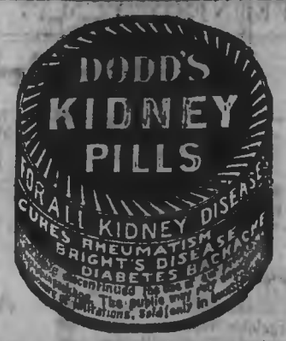
London, May 1.—The Standard yesterday morning says that among the aspirations in the will of Cecil Rhodes to which Earl Grey, Governor-General of Canada, referred in his speech at the National Arbitration and Peace Congress banquet in New York, April 17, were the ultimate recovery of the United States by Great Britain, British occupation of the whole of Africa and South America and of the seaboard of China and Japan.

Good Source of Revenue.

Victoria, B. C., May 1.—During the month of April 18. Chinamen were admitted to this province. These are the first Chinamen to enter the province for two years, and since the head tax was imposed only one had previously come in. The Chinamen bring to the province a revenue of $9,000.

Farmer Killed By Lightning.

Windsor, May 1.—Adolphe Labute of Tecumseh was killed by a stroke of lightning. He was opening his barn door to render shelter for a passing teamster, when the bolt of death struck him.



DOUMA IS SACRED.

Russian Papers Guarded In Accounts of Parliament.

St. Petersburg, May 1.—With the exception of the Novoe Vremya, which holds itself outside of the ordinary press restrictions, not one of the morning papers yesterday ventured to report Monday's debate on the Government's recruiting bill in the Lower House of Parliament, fearing suspension, and in their accounts of the executive session of the House referred only guardedly to the conflict between the House and the Government.

The Rech organ of the Constitutional Democrats, summarizing the work of the Lower House up to the present, says:—"In spite of enormous difficulties and much friction, the Douma has made considerable progress, having organized fifteen committees to handle the principal problems of social reconstruction. A number of projects are ready for presentation to the House, including reforms of the courts, providing for the inviolability of the person, and several financial laws which will be taken up immediately after the Easter recess, while a measure providing for religious liberty and other laws will be reported at the end of May."

President Golovin is quoted by the Stovo yesterday as saying:—"The conditions are now so changed that there is no prospect of an early dissolution of Parliament, and there is ground to hope that the Lower House will display creative activity resulting in the enactment of the necessary reforms."

The Rossia, Ministerial, remarks:—"The Douma is daily losing authority in the eyes of the people, owing to the absence of a working majority, but there is an under current of hope that the Constitutional Democrats will be able to create a safe majority and redeem the situation. The greatest danger to the Douma is considered to be the possibility that the reactionists in the Cabinet after Monday night's conflict between the Government and the House, may appeal over Premier Stolypin's head directly to his Majesty, on the ground of well known devotion of the army to the Emperor, the Reactionists being encouraged by the failure of M. Stolypin to compel the retirement of M. Von Schwanebach, the Comptroller of the Empire and Reactionary member of the Cabinet, who has been working hard in the campaign for the immediate dissolution of Parliament."

Trouble Expected At Warsaw.

Warsaw, Russia, May 1.—The employes of the street railroads, the printers, bakers and factory employes have decided to stop work on May Day, and the authorities are taking energetic steps to forestall expected disorders. The police are making wholesale arrests of socialists and detachments of Cossacks will patrol the streets, day and night, until there is no further danger of trouble.

Forty thousand troops are collected in and around Warsaw. The police have notified the storekeepers that they will be fined $1,500 unless their stores are opened to-day, and the socialists have issued a counterblast, promising to dynamite the shops unless they are closed. A majority of the merchants expect to close their places of business, asserting that the police are unable to protect them.

Head of Hospital Arrested.

Simperlo, Russia, May 1.—Dr. Archangefsky, in charge of the hospital here, has been arrested. A printing press, a list of members of the local fighting organization, a quantity of arms, and $7,500, supposed to be the proceeds of a recent political robbery, were found in the rooms occupied by the doctor.

Famine in Russia.

St. Petersburg, May 1.—Reports from the famine provinces show that sickness is spreading rapidly and that the mortality among the children is heavy.

In Kazan and Ufa Provinces the sufferers are eating food unfit for consumption.

100,000 Homeless.

Odessa, May 1.—One hundred thousand people are estimated to have been driven from their homes by the overflowing of the Dnieper, Dniester and Dvina.

Twelve Thrown Into Water.

New York, May 1.—While coming down the Hudson River during a dense fog yesterday the steamer C. W. Morse of the People's Line, crashed into and sank the New York Central freight boat Propellor No. 4.

The No. 4's crew of 12 men was thrown into the icy water, but with the exception of Engineer Keyes, all were rescued.

One Person Still Missing.

Oklahoma City, Okla., May 1.—The North Canadian River and Lightning Creek are receding rapidly, and the flood situation in this vicinity was greatly improved yesterday. But one person remains unaccounted for. Forty families on capital hill, across from Oklahoma City, are homeless. The loss is estimated at $100,000.

Smelters Close Down.

Rossland, B. C., May 1.—Granby, Dominion and the B. C. Copper Co.'s smelters and mines closed down Monday evening owing to the shortage of fuel. They will remain closed down for a period of two weeks, even if the coal strike is settled. This will throw about 3,000 men out of employment.

Miners Rescued.

Johnstown, Pa., May 1.—The seven men imprisoned since last Friday in the Berrymud-White Mine at Foustwell were rescued last night.

WERE THROWN INTO CAGE OF LIONS

Wire Snaps and Throws Young Ladies Among the Beasts.

SCENE IN PARIS MUSIC HALL

Savage Animals Sprang At the Girls—One Was Knocked Down and Severaly Wounded—Tamer Drove Them Back and Effected An Exciting Rescue—Wild Commotion Among Audience.

Paris, May 1.—There was an exciting scene Monday night at the Apollo, the newest of the Parisian music halls. One of the numbers on the program was slack-wire dancing by the Rosie sisters over a cage containing a couple of lions, which meanwhile were put through various tricks by Wood, the tamer. Wood, having just finished his performance, had thrown down his whip and was leaving the cage, when the wire on which the Rosie sisters were making a final pirouette snapped, and the girls fell into the cage, which had an open top. The lions, alarmed at the sudden and unusual apparition, sprang at the girls, one of whom was knocked down and received a severe wound on the right shoulder, which bled profusely. The other girl remained lying where she fell, fortunately alongside the tamer, who, though whipless, drove back the beasts while the sisters were got out of the cage. The scene caused wild commotion among the audience and many women fainted.

Summons Were No Good.

Ottawa, May 1.—All the summons in the case of the Buckingham fatal riot charges were yesterday morning declared void. They were issued without a seal being affixed thereon. This technical objection was brought up Monday and Judge Talbot now declared the service null and void under Quebec laws. The strikers are therefore released under this ruling.

The Wasting Process of Disease

Disease is a tearing down, wasting away and destroying of the tissues of the body, and a shrivelling up of the nerve cells and blood corpuscles. Nature demands assistance to overcome this dreadful wasting process and the needed help is best supplied by Dr. Chase's Nerve Food, the great blood builder and nerve restorative.

To Fight Lord's Day Act.

Brockville, May 1.—There is a snarl between the Lord's Day Alliance and the Prescott Transfer Co. over the running of the Sunday ferry between that place and Ogdensburg, N. Y., which is said to be contrary to the new Lord's Day Act. The company maintains its right to run boats in connection with the New York Central regular trains, and will contest their rights in the courts, if necessary. It is the intention to try to abolish the Sunday ferry entirely.

Latest News Of Various Sports

PRO. HOCKEY WINS THE DAY

Result of the Plebescite Shows 5 Out of Every 6 Votes in Favour of Scheme.

The plebiscite that has been held for the last three weeks in the columns of the Examiner, on whether or not professional hockey is desirable, closed last night, and the result showed a large majority in favour of professional hockey, the vote standing in the ratio of 5 to 1 for the paid article. Whether this is to be taken for the real opinion of the hockey lovers of Peterborough, the Examiner is not certain, at any rate there has been ample time for the supporters of amateur hockey to air their views, had they so desired. The result gives colour to the theory that a professional hockey team would be a paying proposition in Peterborough.

FAMOUS PATSY IS IN THE CITY

Arrived at Noon To-day and Will Play Here This Season.

Pat McDonough, the famous lacrosse player about whom so much has been heard recently, arrived in the city to-day at noon, and will play with the locals this season, having secured a position here. The great Orillia and Beaverton home player will be of invaluable assistance to the locals this season in the campaign for the intermediate C.L.A. honours. He is one of the best stick-handlers in Ontario, and has been sought after by every twelve that has pretensions of being a lacrosse team, including the Tecumsehs. Pat has, however, located in Peterborough, and other teams may whistle for him now. So ends the Telegram's amusing little play of "Button, Button, who's got the button?"

CITY LEAGTE TO BE ORGANIZED TO-NIGHT

Meeting Will be Held in Oriental Hotel For That Purpose.

The meeting called for to-night, for the purpose of organizing a city baseball league, will be held at the Oriental Hotel, not the Windsor, as stated last night. It is important that every team intending to enter such a league should be represented to-night as the league, if it is to be a success, should be gotten under way at once. It is understood that two local gentlemen will donate a trophy for competition among the league teams.

BOWLING CLUB TO HOLD A MEETING

The Annual Meeting for the Election of Officers Will be Held To-night at Dominion Bank Chambers.

The annual meeting of the Peterborough Lawn Bowling Club will be held to-night in the Dominion Bank Chambers, when the reports of the past year will be presented and the officers for the present year elected:

Miller's Compound Iron Pills; only 25 cents for 50 doses. Sold by W. Madill.

THE NORWOOD SCHOOL TEAM IS ORGANIZED

Officers of a New Baseball Club are Elected—Mr. S. E. Smithson is The President.

Examiner Special.

Norwood, May 1.—The boys of Norwood Public School held a meeting last Monday after 4 o'clock and organized a baseball club. The following officers were elected:

Honourary President — Dr. A. M. Weldon.

President — Mr. S. E. Smithson.

Captain—Frank Hendren.

Secretary—Earle Fry.

Committee — Fred Rattan, Fred Beams and Stanley Weir.

LACROSSE

Owing to the condition of the grounds at the Riverside Park there will be no practices at those grounds this week. The Young Peterboroughs will practice with the senior team at Central Park to-night.

FLAHERTY FOR STATE LEAGUE

Clever Local Twirler Reports at Waterbury This Week.

Fred "(Yebbie") Flaherty, undoubtedly the best pitcher ever turned out here, will leave the city this week, to join the ranks of professional baseball. He has signed a contract with Waterbury in the Connecticut League, and is to report this week. "Yebbie" should make good in the State League. He has done great work for Galt in the Canadian League and has the arm and the experience for the larger organization.

TORONTO JUNCTION HERE ON MAY 24

Peterborough Lacrosse Club Arranging for a Holiday Game.

The executive of the Peterborough Lacrosse Club, met last night, and decided to make arrangements at once for the use of the Riverside park. The team will get out to practice as soon as possible. It was also decided to make arrangements with the Toronty Junction Shamrocks for May 24th. The Junction team is one of the strongest in the intermediate series, and a game with them on the holiday should prove a good drawing card.

BOXING

Boston, Mass., April 30.—(Special.)—When Daly of Toronto and Doyle of New York faced each other for the final in the 135-pound class, it was conceded that the Toronto man would surely win, owing to his careful style of milling and the form he had displayed in the semi-final earlier in the evening. The Canadian landed many of his favourite combinations, inside left to the face and right cross, and had a slight advantage until near the close of the second round, when, backing out of a clinch, Doyle whipped the right over to the point of the jaw, sending Daly down and out. It took two minutes to restore him to consciousness.

FOOTBALL

The Quaker Football team will practice on Central Park to-night at 6.45 o'clock.

BASEBALL

A letter has been received from Sec.-Treas. Chas Ray, of the Kareenots to the effect that his club will enter an intermediate City Baseball League if such an organization is formed.

POPULAR YOUNG MAN ACCEPTS NEW POSITION

Mr. W. G. Menzies Assumes Responsible Engagement With the Mann Lumber Company.

The many friends of Mr. W. G. Menzies will be pleased to learn that he has to-day entered upon an engagement with The Mann Lumber and Cheese-Box Company, having accepted a responsible position in connection with the manufacturing department of that company. Mr. Menzies has for the past five years been actively associated with the firm of Messrs. R Hicks & Co., coal, wood and lumber dealers, where he gained the general esteem of the patrons of that firm for being an efficient, painstaking and obliging salesman. The varied duties which Mr. Menzies has been called upon to discharge qualifies him for dealing with the public and workmen under him in an equitable and considerate manner. In his vocation he will bring with him a buam as experience and activity which fits him in an especial manner for the satisfactory discharge of his new duties.

To Cures Cold in One Day

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

OFFICERS CLASS TO BEGIN NEXT WEEK

Examinations Will be Held in Toronto in August.

An officers' class in the 57th Regiment will be begun next week so that any who wish to obtain higher qualifications in the ranks may do so. The classes will be instituted at the meeting of the officers next drill night and evenings for preparation will be named. Those who take the classes will try their examinations in Toronto in August.

Consumption is less deadly than it used to be.

Certain relief and usually complete recovery will result from the following treatment:

Hope, rest, fresh air, and—*Scott's Emulsion.*

ALL DRUGGISTS: 50c. AND $1.00.

AN OMEMEE WOMAN FELL BY THE WAYSIDE

Helplessly Drunk at the G. T. R. Station Making Love to the Policeman.

A portly old lady who had imbibed too freely of the liquid which makes one forget, was this afternoon conveyed to the police station from the Grand Trunk station, and certainly attracted a good deal of attention, if not admiration. In plain language she was hopelessly drunk—so drunk that she didn't know her own name.

P. C. Newhall and P. C. George Meharry had the pleasant experience of bringing the old lady to the police station in the mail carrier's vehicle. Although most of her thoughts were obliterated, her affection was keen and it was with difficulty that P. C. Newhall prevented her from twining her arms about his neck and indulging in the game of osculation. In the cell she asked to be allowed to hold hands with one of the officers, but her request was again refused.

Her name up to the present is a mystery but it is supposed she hails from Omemee, and couldn't return. She is about 50 years of age, weighs in the neighbourhood of 200 lbs., and has a husband living somewhere.

LINDSAY BOARD OF TRADE ADVERTISES

A Competition Results in Number of Good Advertisements Being Submitted —After New Industries.

Sometime ago the Lindsay Board of Trade decided to offer prizes for advertising, with a view to encouraging the people to take up the matter of advertising the town and also with a view of possibly getting hold of something good that the town itself would think worthy of taking hold of and doing some advertising on its own behalf. The matter was advertised in the local papers, and as a result the Board received quite a few ads. from local competitors. They were referred to a committee to judge, and they have decided as follows:—

1st prize to Mr. W. J. Ferguson, of Lindsay.

2nd prize to Mr. F. Homer Moore, of Little Britain.

3rd prize to Mr. Hilfae Williams, of Lindsay.

BANDSMEN OF THE ARMY WILL BE COMMISSIONED

Special Meeting To-morrow Night for That Purpose—Thirty-six Bandsmen

Thursday night a special meeting of the Salvation Army band is called for in the barracks, when the officers and bandsmen will be commissioned for the coming year. The custom in the Army is to give the commissions for one year at a time, and this entails an annual appointment. These commissions are sent from headquarters wher a complete record is kept of the strength of the various bands and it is known just where the bandamen are.

There are 36 men, including officers, in the local band, and th granting of their commissions will be the object of the special meeting tomorrow night, when all the bandsmen are expected to attend.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Editor Post Card Column:

Sir,—I see by your paper that the Light and Power Company is advertising a two weeks' discount sale of gas stoves, and that gas pipes will be laid and connected free of charge. Now, I have been trying to get the gas put into my house for the past three years, along with six others on the street, and have not, as yet, accomplished it. I cannot see where the consistency is in advertising for business and not attending to that already in hand.

Yours truly,

"A woman who would like to know."

Police Court.

The month of May was ushered in with a bracing spring wind and a warm sun, and at the police court there was no business on hand, which is a very good augury for civic peace during the coming month.

$2500 WILL BE SPENT ON THE EQUIPMENT OF NEW FIRE HALL

Fire, Water and Light Committee Took Up the Matter Last Night---Salaries of Drivers and Engineer Increased--- Mr. Larmouth Refers to Open Arc Lamps As a Back Number.

The Fire, Water and Light Committee held a busy session last night at which some important matters were taken up Among other things it was decided to increase the salaries of the two drivers in the fire hall and of the engineer. Additional equipment for the new fire hall will be purchased the cost not to include $2,500. A new hook and ladder wagon is needed according to Chief Rutherford as well as a combined hose and chemical wagon.

There were present, Ald. Johnston, chairman; the Mayor and Ald. Morgan and Duncan.

Ald. Duncan moved, seconded by Ald. Morgan, that the two drivers in the fire hall be given an increase of $50 a year.—Carried.

The salary of Sam Wainwright will be increased $35 a year as engineer of the fire department, and pressure will be brought to bear on the Board of Works and Property Committee to grant a proportionate increase for the work he does for those departments. Wainwright's salary is made up from three sources as follows: From Fire, Water and Light Committee for duty as engineer in fire hall; from Property Committe for heating of city buildings; from Board of Works for work with steam roller.

Mr. Larmonth informed the committee that but very few more open arc lamps for street lighting are available. Should any more street lamps be required the closed lamps would have to be installed. This means that where many additional lights are demanded that particular circuit would have to be renewed to provide for a closed lamp circuit of 40 lamps. Again, Mr. Larmonth would not commit himself to change one circuit without transforming all circuits. He also pointed out that the machines for open arc lights are not made to-day; they are only to be found in junk shops. Should any one of the present open lamp machines burn out, it is altogether probable that the company would be unable to furnish that particular circuit with light through their inability to renew said machine.

This matter was left in abeyance.

New Fire Equipment

The committee have $3,200 in hand yet for expenditure in connection with the new fire hall.

Chief Rutherford offered that Maltese Cross rubber hose should be secured especially for street purposes, to save wear and tear on present fire hose in flushing sewers. Mr. Rutherford also reported that the department have now some 3,000 feet of effective fire hose, which is not up to standard requirements.

Chief Rutherford advised that the department needed a No. 4 Seagrave hook and ladder wagon with a nest of ladders, the longest to be of 54-foot length; will be purchased at say $1,200 or $1,400; 400 feet rubber hose at $1 a foot; a combined chemical and hose wagon, which he thought could be built in town for $625 or $650.

It was also advocated that the yearly supply of 400 feet of hose should be supplied to keep up the standard requirements in fire hose, this is necessary to replace the natural wear and tear in fire hose. This item of course does not come out of the bylaw appropriation.

The new furnishing of the hall is estimated at approximately $400.

The Mayor moved, seconded by Ald. Morgan, that the chairman of the committee and Fire Chief Rutherford be authorized to report as to what equipment can be procured for $2,500.—Carried.

Fire Hall Opening

The new fire hall will be opened with general festivities, comprising refreshments, a musical entertainment in the evening, followed by a dance. The hall to be opened to visitors all day.

Ald. Johnston offered that the hall will be opened about the middle of May.

The committee will go into this matter in detail before next meeting.

The men on duty at the hall will be uniformed.

Chief Rutherford reported that the firemen had not been supplied with uniforms for 13 years.

The foreman will report as to the conditions of the fire hall men's uniforms.

Personal Mention.

Capt. White is in Toronto to-day on business.

Miss Clara McGill has returned to the city after spending a few days at her home in Kinmount.

Miss Fellon, of Fellon & Allen, millinery firm, is in Toronto, attending the summer millinery openings.

Messrs. W. T. C. Boyd and W. W. Boyd, of the Trent Valley Navigation Co., Bobcaygeon, are registered at the Snowden House.

Miss Margaret Cleary Stewart street, left this morning for Toronto, Buffalo and Syracuse, N.Y. She will spend some weeks in the latter city visiting her sister, Mrs. M. F. Casey.

THE MINISTER OF TELEPHONES

For Manitoba Visited Peterborough Yesterday—Inspected Machine Telephone Plant

Peterborough had a distinguished visitor yesterday in the person of the Hon. J. H. Howden, M.P.P., of Neepawa, the newly created Minister of Railways and Telephones for Manitoba.

Mr. Howden, who was on a visit to his old home in Milton, Ontario, had heard so much about the Canadian Machine Telephone Co's system, that he decided to remain a day in Peterborough and inspect the plant. He expressed himself as being greatly impressed with the system and the ease and accuracy with which it operates.

The Manitoba Governmennt is making arrangements to instal a telephone system to be operated by the Government and the Machine Telephone has been considered in this connection.

FUNERAL OF A. J. BELCHER WAS LARGELY ATTENDED

Many Friends Assisted in Last Rites—Several From Outside Cities.

The funeral of the late Mr. A. J. Belcher took place yesterday afternoon from the family residence, 607 Stewart street, and was largeattended by friends from the city and from other places. The floral offerings were beautiful and numerous, testifying to the esteem in which he was held by his many acquaintances. The funeral services, conducted at the house, at St. John's church, and at the grave were conducted by Rev. Canon Davidson, assisted by Rev. Wm. Major.

Among the many floral designs, was a handsome remembrance from the Corinthian Lodge of Masons.

The pall bearers were Messrs.. J. H. Burnham, Chas. Wallace, J. A. Aylmer, F. Tate, —. Hartshorn, Wm. Snowden.

Among the friends and relatives from outside places were Mr. Mossom Boyd, Mr. Wm. F. C. Boyd ,and Master Boyd, of Bobcaygeon, Mr. Wickham, Toronto, and Mr. Tate, Toronto.

Velvet Skin' Soft And Clear

What one or two applications of Dr. Chase's Ointment will do for a rough, inflamed and irritated skin, is almost as wonderful as the complete cure of eczema by its persistent use. By its healing, soothing and antiseptic influence, Dr. Chase's Ointment quickly cures chafing and skin diseases, and eruptions, and leaves the skin, clear, soft and velvety.

A CONDUCTOR OF LARGE PARTY OF IMMIGRANTS

Staff Capt. Boddy, of London, Visited His Friend, Mr. R. C. Braund, After Many Years Absence.

Mr. R. C. Braund has received a visit from Staff Captain Boddy, of the Salvation Army in London, Eng. The latter was formerly in charge of the Barrie division of the Army in Ontario, and Mr. Braund acted as his chancellor. It was 17 years ago that he left Canada for the Mother Country, and during the past ten years has been on the retired list.

Staff Captain Boddy returned to Canada a short time ago as conductor of a party of 200 immigrants. Conductors are very scarce among the Army officers at home, thus the staff captain was asked to take the trip for his health, as well as the duties on the voyage. He reported that the people who came under his charge have all been placed at work, and that the Army's plans were carried out without a hitch. Staff Captain Boddy left on the noon C.P.R. train to-day for St. John's, and will sail on Friday on the Empress of Britain for his home. He may return again with another party.

WEDDING BELLS

CLARKE-WAREHAM

A quiet, but pretty wedding was celebrated last evening at 7.30 o'clock when Miss Ada Wareham became the bride of Mr. William Henry Clark, of Springville, and son of Wm. Clark, of Aylmer street. The ceremony was performed in the Charlotte street Methodist church by Rev. H. M. Manning in the presence of only a few friends of the contracting parties. The bride and groom were unattended. After the ceremony the bridal party repaired to the home of the bride's mother at 179 Aylmer street were supper was served. Mr. and Mrs. Clark afterwards drove out to Springville where they will reside.

PROPRIETORSHIP OF CROWN HOTEL CHANGED

Mr. Fred. A. Clarke Took Over the Business To-day.

Mr. Fred A. Clarke to-day took charge of the Crown Hotel, which has been for the past number of years under the proprietorship of Mr. R. H. Jackson. At the last meeting of the License Commissioners the license was transferred to Mr. Clarke's name and to-day he took over the business.

Torn By Wild Beasts

HISTORY OF A GREAT DISCOVERY

The old Roman heroes, who were torn by wild beasts at their fights in the now ruined Colosseum at Rome, the Greek charioteers and the gladiators who made fighting a profession, all knew the virtues of herbal essences for skin injuries and diseases. They would emerge from a combat sore, bleeding and covered with wounds. They would apply all night their secret herbal balms, and in a few days would again be ready for combat. Their ideal of a balm or salve was the correct one—a preparation which must combine power with purity; and that ideal is realized in Zam-Buk.

Ordinary ointments, salves and embrocations are generally composed of rancid animal fats and mineral poisons.

Zam-Buk, on the contrary, is a healing balm, composed of highly refined oils and joulces got from certain rich medicinal herbs, and every household may rely on its healing aid.

When the little one runs in from his play with a smarting, dirt-filled scrape on his hand or knee, simply wash the part, and smear with Zam-Buk, bandaging if necessary.

When father returns from work with a cut hand, the handy box of Zam-Buk again meets the emergency, and the housewife or mother continually finds it a real friend in need for the burns, the scalds, scrapes and bruises of general household duties. For eczema, ulcers, itch, fistulas, abscesses, scalp sores, and all skin diseases it acts like a charm. It eases the pain and stops the bleeding of piles and cures this painful ailment quickly and surely. All druggists and stores sell at 50c a box, or from Zam-Buk Co., Toronto, for price. 6 boxes for $2.50.

The Dominion Exhibition.

Ottawa, May 1.—A deputation from Sherbrooke, Que., waited on Hon. Sydney Fisher, Minister of Agriculture, yesterday morning with reference to the Dominion Exhibition at Sherbrooke, Sept. 2 to 14 next. The Government grant to the exhibition is $50,000, and arrangements are being made in accordance with the terms of the grant to give the exhibition a national character. Hon. Mr. Fisher has consented to open the exhibition, and His Excellency Earl Grey will attend.

Suspected of Shooting.

Windsor, May 1.—Police officers Reid and Livingstone arrested Dominic Ponsonci on suspicion of being the man who shot and stabbed Tony Costi in a fight in a box car on the railroad near South Sandwich.

Costi is now in Hotel Dieu suffering from four bullet wounds and a knife cut. He is thought to have but a slight chance for life.

SUFFERED EIGHT YEARS FROM KIDNEYS

Doctor's said Female Trouble.

Mrs. Charles Lewis, Collingwood, Ont., writes: "For eight years I suffered from Kidney Complaint, and until twelve months ago doctors' said I was suffering from 'Female Trouble.' Last November (1905), I was extremely ill, resulting I believe from kidney troubles. Finding doctor's medicine doing me no good, I persuaded my husband to purchase me a box of Doan's Kidney Pills, after having read of a case somewhat resembling mine. I commenced taking them according to directions (not taking the doctor's medicine), and on second day a swelling commenced in my feet, legs and body. The following day I was so changed and swollen my husband, in alarm, hastened to Mr. Johnson's drug store, who told him to tell me he thought the pills were drawing something out of the blood, and to keep on taking them. I did so and after taking them a week, the swelling disappeared leaving me with a complexion free from pimples, tired, weary feeling gone, constipation, from which I suffered for years, gone, pain in the back, gone, and a general feeling of joy and light heartedness. I have not felt since a child, took place in me.

My sister-in-law (Mrs. Bryan), seeing the action of Doan's Kidney Pills, and the change for good they accomplished in me, sent for a box and they completely cured her. When there is an opportunity of telling people what Doan's Kidney Pills did for us, we always take advantage of it, and tell them to give them a fair trial."

Doan's Kidney Pills are 50c. per box or 3 boxes for $1.25, for sale at all dealers or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

H. LeBRUN & CO., TWO ENTRANCES

MAN SOLD HIS WIFE FOR SIXTY DOLLARS

And the Woman Was Delighted at the Change—She Did Not Want Any Hitch in the Deal.

Montreal, May 1.—The society for the protection of women and children to-day made known that they were dealing with a case resulting from a man selling his wife for $60. The couple had only recently reached here from Europe.

The woman was quite agreeable to the bargain, and a first payment of $10, a silver watch, and overcoat, supposed to represent $20 in all, was made, and the remainder was to be paid in weekly installments of $5.

The woman went to the society officials to have them act as witnesses to the bargain, because, she said, she did not want any hitch.

Chief Roszel Celebrates The 19th Anniversary

Of His Arrival in Peterborough—Nineteen Years Ago the Chief of Police Arrived in This City to Assume Duties.

SOME REMINISCENCES

Here it is again—history, or rather, the weather, repeating itself. Chief Roszel came to assume the baton of office in Peterborough nineteen years ago last night, and the weather was of the same backward variety—cold and dreary. It was, therefore, a cold day for Peterborough lawbreakers when the Chief came to town, and it has, in this respect, been a cold day ever since. The Chief was a little old-fashioned then, like the good gossips of a past generation, who when they went out to tea, took their knitting with them. He brought his work to Peterborough with him. Probably the same train that brought the Chief to Peterborough brought also Greenfield, the burglar, who that day was released from the Central Prison. The same night of his arrival, he "went through" Le-Brun & Co's clothing store. He escaped that time, and in August following he rifled Stetham's hardware shop, and in September was caught burglarizing Gough Bros., convicted and sent to Kingston.

The weather in 1888, was a shade shadier than it is now. In that year many had their coal stoves running till June. On the third of June the weather was as cold as it is to-day. But about the 10th of June the thermometer plucked up its spirits, and hot weather set in. Therefore, with patience, we shall perhaps this year, within a month or so have some weather that will permit us to snap our fingers at the coal dealer.

New Roadmaster Has Relatives In Peterboro'

Mr. Wm. Bibby, is Brother-in-Law of Mr. Jos. Maher, and is Brother of Mr. N. Bibby of This City.

HE ONCE LIVED HERE

Mr. Jos. Maher is connected with railway men who have a habit of getting promoted. Mr. P. H. McFadden who is leaving the G.T.R., to go to the Great Northern with Mr. McGuigan, is a cousin of Mrs. Maher, while Mr. Wm. Bibby, who succeeds Mr. McFadden, is Mr. Maher's brother-in-law. Mr. Bibby's promotion will be learned with pleasure in Peterborough, where he is well known. He lived here for a time after coming to Canada upon leaving the Pere Marquette Railway with which he was connected prior to moving to this country. He also has a brother living in the city at the present time, Mr. Nicholas Bibby, of the Peterborough Light and Power Company.

Mr. Bibby's new position is one of some considerable importance. He will be general roadmaster of the lines west of Belleville on the main line, and branch lines and as far north as North Bay. He will have his headquarters at Allandale.

New President At The Head Of Savings Bank

Local Shareholders and Banking Men Interested---J. P. Morgan Now in This Financial Institution

A STRONG CONNECTION

Local shareholders in the Sovereign Bank of Canada will be interested in a change in the presidency of that bank, as announced in to-day's despatches. Those who are holders of stock in this bank in Peterborough and the immediate vicinity are: Mrs. Mary Aylmer, Mrs. Elizabeth Davidson, Rev. Canon Davidson, Miss Laura Davidson and R. J. Munro, of Peterborough; Rev. A. E. Camp of Havelock and Mr. W. E. Wasson of Warsaw.

The Toronto Globe, referring to the change, says:

Several important changes took place yesterday in connection with the Sovereign Bank of Canada, the head office of which is in this city. Mr. Aemilius Jarvis was elected a director and becomes the new president in place of Mr. Randolph Macdonald of Toronto, who has resigned. Mr. D. M. Stewart, the general manager, resigned from the vice-presidency and directorate, and Mr. J. H. Dunn of London, England, was elected to succeed him as a director. The change will make the bank more directly a Toronto financial institution.

For some time it has been understood that Mr. J. Pierpont Morgan, the powerful financier of New York, and his associates have been acquiring a firmer hold on the stock of the bank in conjunction with the Dresdener Bank of Germany. Having become heavily interested, it is further stated that Mr. Morgan desired that some modification should be effected in the policy of the bank. The changes now made and those that may take place later are apparently the result of this purpose.

Strike Now Extended To Union Collar Makers

This morning at 8.30 o'clock nine union collar-makers and one union cutter marched out of the B. F. Ackerman & Son's harness-making establishment on account of the strike in progress there. Their action was due to the conference held last night between the strikers and the company, which may cause new developments in the situation.

Mr. Geo. Shipman, who is here in the interests of the strikers, in conversation with an Examiner representative this morning, hinted at the formation of another stock company in the city, similar to that which has leased a factory in Kingston, as a result of the recent strike in Gananoque.

The striking of the collar-makers this morning leaves no union men in the establishment now. Altogether there are now 29 men out on strike, which number constitutes all the union journeymen in the factory.

Strikers' Statement

The following is the statement made by the strikers to-day:

"We desire to let the public know the stand taken by Mr. Ackerman in the present strike of the leather workers on horse goods. Our fourth vice-president, and Canadian representative, arrived in the city on Monday, and the firm were asked for a conference. Mr. Ackerman stated that he had given his word that he would not meet a committee from the union under any consideration. After receiving this report it was decided to call the collar-makers out in the morning unless the conference was granted. In order to get eight hours' work out of his men before they were out, this man breaks his word and meets a committee last evening. To show the friendly attitude of Mr. Ackerman towards our organization, on being introduced to Mr. Shipman, our representative, he refused even to shake hands with him. He told the committee that, while he would agree to pay higher wages, the men must return to work the same as those who are employed at the present time, and whom we call 'strike-breakers.' This proposition, of course, we could not agree to. In this proposition, Mr. Ackerman denies us our God-given right to belong to an organization.

"The collar-makers were called out this morning at 8.30. We are backed up by our International Union, and receive strike benefits of $7 for married men and $5 for single men as long as the strike lasts.

"(Signed.) LEATHER WORKERS."

THIS SPACE IS RESERVED FOR

THE WHOLE THING IN A NUT SHELL

Is a nice house or a nice lot in a nice location, desirable as a residence or an investment—something worth the money asked for it. See our list of properties yourself and then deliberately decide if what we have to offer is or is not a Bargain. We also rent, collect rents and insure your house and contents.

CAN SPEND SUNDAY IN TORONTO

An Opportunity to do This is Afforded by the Special Excursion On Saturday.

The excursion to Toronto on Saturday will in all probability be taken advantage of by a number of persons, affording, as it does, an opportunity of spending the week-end in the city. The return fare is $2.05, with the privilege of returning the same night or remaining until Sunday or Monday. The special train leaves at 12.45 p.m., which allows those who have to work until noon ample time to get to the station. The train will arrive in Toronto at 2.45 sharp.

BRIDGE MIGHT HAVE BEEN BADLY DAMAGED

Mr. R. N. Scott, Bridge Commissioner, Reports the Matter.

Mr. R. N. Scott, reeve of Smith, and commissioner of the Chemong bridge, has reported that the actual cost of the damage sustained by the bridge in the recent ice jam on the lake, will be less than fifty dollars. Mr. Scott says that through the efficient services of Mr. O'Leary, the caretaker, the actual cost will be merely the readjustment of the bridge, several sections of which were let go with the wind and ice, this means it is estimated, that between $200 and $500 has been saved for the county. Mr. Scott has words of praise for Mr. O'Leary's management. When he saw the ice driving before a northwest wind he let several sections of the threatened part go and thus saved the bridge. Thus the bridge is in an excellent condition and traffic was not impeded for any length of time.

MAY USE PROVIDENCE FENDER ON CARS

Peterborough Radial Railway is Given Permission by Railway Board.

The Peterborough Radial Railway Company have been granted permission by the Ontario Railway Board, to use the Providence fender on their street cars, as the following despatch from Toronto will show:

The Ontario Railway Board this morning approved an application from Peterborough to use the Providence fender on their cars. The board has also appointed J. H. Larmouth as examiner of motormen there. Mr. Larmouth is a civil engineer, electrical engineer and a graduate of McGill University.

WILL TAKE TRIP TO LIFT LOCK OPENING

Mr. R. M. Roy Will go up on the Rob Roy—In Splendid Condition This Season.

Mr. R. M. Roy was out for a trip on the Rob Roy this morning, and this trim little yacht is in better condition this season than it has ever been before, which is saying considerable. Mr. Roy will make a trip to Kirkfield on the 24th on his steamer and will likely take a small party up with him for that event.

Housekeepers! See the Davis Sewing Machines at the J. M. Greene Music Co, George Street, Sole Agent 3-d-103

DOGS ARE NOT ALL FITTED WITH TAGS

550 Have Been Issued So Far at the City Clerk's Office.

There must be a large number of dogs still wandering around without a tag, judging by the returns from the city clerk's office. At noon to-day some 550 tags had been passed over the counter and there are still a large number of dogs whose owners have not presented them with the 1907 fashion in neck wear. Going on the principle that a stitch in time saves nine, dog owners should secure a tag at once and not wait for a memory prodder in the shape of a police court fine.

"SEMI-READY WARDROBE"

What "Semi-Ready" Guarantee Means

Every Garment in our Wardrobe is absolutely guaranteed by the SEMI-READY COMPANY on the following points:

Look for the Semi-Ready Label in the right hand pocket of each Garment.

Cressman's

THIS CONDUCTOR IS UNFORTUNATE

Conductor Seaton Has Been in Two Wrecks in One Week—Slight Smash-up At Cambray Yesterday.

Lindsay, May 1. — A slight wreck occurred on the G. T. R. at Cambray this morning at 6.30. A car on a double header freight from Midland, in charge of Conductor Seaton, broke a truck. The auxiliary was despatched from Lindsay and traffic was delayed for about an hour and a half. Conductor Seaton was also in charge at Whitby, when the wreck occurred on Saturday night.

EVERYWHERE THE SAME PRICE

No Man Need Pay More Than His Neighbour Pays.

The plain-marked price has helped to build up many a large business. It is an evidence of the faith in the value which a merchant sets on his goods. The buyer accepts it as such.

Two of the leading manufacturers of Canada accepted this truth, and they have conquered by adhering to it, despite the many temptations held out to them. "We would not sacrifice this principle for a $100,000 order," emphatically retorted the President of the Semi-ready Company, when urged to accept a large order for Blunos suits, marking them up $2 higher. Semi-ready garments are made and marked at the factory. The man who buys a Semi-ready Blunos suit in Vancouver or Winnipeg, gets it at the same price as the man who buys in Peterborough or Montreal, $20.

THE GIFT SHOP

Brides' Chosen Gifts

Could they be consulted would often be Diamond Rings or Beautiful Pearl Brooches.

Besides, our store is replete with Art Goods and Fine China suitable for Wedding Gifts that will be appreciated.

Seasonable Information About Low Priced Homes

My "Western Avenue" subdivision is one of the prettiest blocks in or about the city and adjoin the Sandstone Brick Co's. grounds, not more than fifteen minutes walk from the Electric, Cottage and Shovel Factories. Three minutes from school and corner where car line must pass to river.

The Large Blocks of 8 Lots are now surveyed, staked off, plan made and registered. Lots sold, orders received and all arrangements made to commence building not later than Tuesday next, weather permitting.

Although my prices and terms for Blocks, $10 cash and $5 per month bring them within the reach of all, man or woman, I have decided to sell a few single Lots for $75 each on easy terms, for a few days only. I will build a neat and substantial Cottage 1½ story to cost about $800, also on easy terms. Very little in addition to what you are now paying your landlord will make you a well off landlord yourself. A personal interview will give you a better understanding, and and do not forget that it means money for you. 160 acre Farm for sale, exchange or rent cheap.

A WOODEN SUBJECT

We are not allowed to forget, nor ignore, the truthfulness of the trite saying, that history repeats itself, and it seems true that the barbarous practices of our far-away forebears crop up in some form or other in our self-satisfied days of civilization and refinement. Our remote ancestors had a way of going to war with a club, and therewith banging their enemies over the head into a permanently incapacitated condition. In another form, we are in this boasted twentieth century employing, in a changed form, the military expedients of the savage days in the destruction of our enemies. True, we do not use a primitive bludgeon, cut from a convenient thicket, but we use a club in the refined form of wood ground to a flour, to be used in the making of explosives, to be used, in turn, on our enemies. There is this difference, however. Our far-away ancestors took their lives, as well as the lives of their enemies, into their hands, when they seized the war-club, and took to the war-path. Now-a-days, we use our refined form of war-club, at a safe distance—for ourselves. We can, at a distance of from five to ten miles, with comparative safety to ourselves, comfortably knock our enemies on the head, with a steel shot, or a lyddite shell. These reflections are suggested by reading an article in a trade journal upon the use of wood flour, used for making explosives to charge war guns, and torpedo projectiles, for the purpose of slaughtering our fellow-men in a highly scientific and civilized manner. The proper kind of wood, by a special process, is ground to flour of different degrees of fineness, for use in the manufacture of explosives. For this purpose the chips of pulp wood, resulting from the manufacture of paper pulp, are ground fine—literally reduced to flour, to be employed, not to sustain life, but to destroy it. The use of chips and other wood refuse, informs us that we are becoming more careful of our wood resources. In Canada, there has been no more formidable form of destruction, than in the matter of our national timber supply. Stately forests that covered our land like a mantle, have been ruthlessly laid low. After we have swept these away—burned to ashes—to make farms, we have in a different degree carried on the same reckless slaughter. Thousands of acres of pine, that witnessed the signing of the Confederation pact, have disappeared, and now there is left a comparatively insignificant fringe of comparatively inferior timber, on our northern borders. So that it behooves us to be careful of our timber supply, to cut it with a view of conserving the immature timber, and to develop it by growth into merchantable timber. It also behooves us to be more economical in the use of lumber. We all know that we are now using a quality of lumber at fancy prices for the finishing of fine houses, that our ancestors of a little more than a generation ago, would have scorned to use for building a barn. The manufacturers of lumber, are forced by the scarcity and almost prohibitory prices of lumber, to utilize every scrap that formerly was burned, or turned adrift into our streams, to become water-soaked, to sink, and rot, and poison the fishes. A bit of sound board end, the size of one's hand, is carefully saved now, and used for making the "slats" of blinds, and, in a score of ways, formerly waste products are converted into commercial forms. Even the chips of pulp wood are ground into wood flour, to be used in the manufacture of explosives. Our previous waste has made necessary this belated and expensive economy of materials. Should we not take the lesson to heart? Should we not enter upon a policy of the rational cutting of our remaining timber—saving the growing trees, and felling only the mature ones? Shall we, by a systematic employment of national and farm re-forestry, take steps to repair, in part, the waste of tree growth we have committed, and permitted? Of all national questions, that of forestry — the economical and rational cutting of existing growth—the preservation of existing areas, and the replanting of our waste lands, unfit for agricultural purposes, to repair the wanton destruction of timber that has obtained in the past, and, to a certain degree, is obtaining to-day—is the most important and, perhaps, receives least effective attention from the custodians of our wealth of timber resources.

EDITORIAL NOTES.

Toronto people will have to learn how to walk or ride the bicycle. On the top of the eternally tiresome street car complications, comes the strike of the cab-drivers. The walking delegate decrees that people must walk.

Rev. Mr. Silcox, of Bond street church, Toronto, has been asked to resign his pastorate. In other words his salary has been so reduced as to suggest his resignation. It is to be hoped that with a new pastor of ability and judgment the church will regain its ground and go on to prosper.

Mr. W. T. Stead, the irrepressible knocker has destroyed another illusion. He is visiting Canada and in one of his interview outpourings declares that "woman is a human being." This knocks in the head the illusion of the young man in the first fierce stages of puppy love, that woman—especially "his girl"—is an angel.

The last issue of the Canadian Horticulturist has reports from a dozen fruit districts. These reports lead to the conclusion that fruit trees and bushes have passed the winter in good shape and that while it is perhaps too early to speak confidently there is a fair prospect of a good fruit crop. Peach trees have suffered a little but not enough to decrease the prospects of a fair crop. Unprotected strawberry plants have also suffered somewhat.

In 1886, says the Montreal Herald, Mr. Gladstone went to the polls with a Home Rule bill and a Land Bill for Ireland. If Campbell-Bannerman has to go to the polls it will be with a Home Rule measure for Ireland and a Land Bill—for England and Scotland. And he will not lose anything from the fact that his opponents provided, in the Irish Land Bill of 1903, the model for the English Land Bill of 1907, which will enable the poor to possess their homesteads.

"Augustus" in the Calgary Prairie, whose local knowledge gives weight to his statements, says that the Government and the C.P.R. "are up against, in the west, the ever-recurring evil and inconvenience of strikes originating from a small body of clever scoundrels in the States who wont mind their own business." International connection of an organic kind existing between Canadian and United States labour organizations seem to work out as incongiously as two families in one household.

Mr. W. T. Stead is not always an Ishmaelite—his hand against every man. In an interview in Montreal he said that, "Sir Wilfrid Laurier is a very, very level-headed man. He regarded him as the greatest statesman of the British Empire. There was something which made the people from the north keener and more efficient than the peoples from the south. Constitutional government did not seem to thrive in the tropical belt; perhaps it was because it was too hot to go to public meetings and listen to policital speeches."

CURIOSITY

Leads to Investigation and Truth

What shall we do to be saved? was the title of one of Robt. Ingersoll's lectures. People of faith and people of no faith flocked to hear it. Thousands are asking, "What shall I do to get rid of dandruff?" The answer is, "Kill the germ that causes dandruff, falling hair, and, finally, baldness"; and the only thing that will do it is Newbro's Herpicide. That is the very latest discovery of the laboratory, and it is the only preparation that claims to, or that will, kill the pestiferous dandruff germ. It also is a delightful hairdressing, free from oil or grease, or sticky substances. Try it and be convinced of its actual merit.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. The Market Drug Store. Two sizes—50c and $1.

TAKES POSITION AT THE PACIFIC COAST

Mr. R. S. Merrell Will Go There in About Two Weeks—Visiting in Peterboro' For a Couple of Weeks.

Mr. and Mrs. R. S. Merrell, of Toronto, are in the city, and will remain here about two weeks. Mr. Merrell has resigned his position with the Ontario Lumber Company and has accepted a position with a lumber firm in British Columbia, and will leave for the Pacific Coast in about two weeks to enter upon the duties of that position.

PAINS

CANADIAN WOMEN FIND RELIEF

The Case of Ellen Walby Is One of Thousands of Cures Made by Lydia E. Pinkham's Vegetable Compound.

How many women realise that it is not the plan of nature that women should suffer so severely?

Ellen Walby

Thousands of Canadian Women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs these periods of their terrors.

Ellen Walby, of Wellington Hotel, Ottawa, Ont. writes:

"Your Vegetable Compound was recommended to me to take for the intense suffering which I endured every month and with which I had been a sufferer for many years getting no relief from the many prescriptions which were prescribed, until, finally becoming discouraged with doctors and their medicines I determined to try Lydia E. Pinkham's Vegetable Compound, and I am glad that I did, for within a short time I began to mend and in an incredible short time the flow was regular, natural and without pain. This seems too good to be true and I am indeed a grateful and happy woman."

Women who are troubled with painful or irregular periods, backache, bloating, (or flatulence), displacement of organs, inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising women free of charge. Thousands have been cured by so doing.

LITTLE folks say all candy is good but see how quickly they learn to choose Hooper's G. B. Chocolates. Pure wholesome and better for them too.

Just chocolate---rich and nourishing --- and sugar blended with ripe fruit-juice and flavoring.

Take a treat home with you tonight.

MR. MIGHT SPOKE ON DEMOCRACY

Peterborough Young Man Represented Broadway Tabernacle in Interesting Debate in Toronto.

Mr. P. G. Might, of this city, took part on Tuesday night in a debate held under the auspices of the Methodist Young Men's Association of Toronto, representing Broadway Tabernacle in the debate. Referring to Mr. Might's address the Toronto News says:—

The addresses of Mr. P. G. Might, of Broadway Tabernacle, won for him considerable applause. His subject was "Democracy." The crowning example he found in Canada. "Here, if anywhere, the voice of the people is listened to; the people are the kings of this land."

SPECIALS IN Go-Carts and Carriages

For one week we will give a reduction of 10 per cent on all GO-CARTS AND CARRIAGES in stock. This means that the price we are asking you for these will be only a slight margin on the cost. Call and examine our stock.

R. J. SODEN, 369 George St.

LARDER LAKE

Proprietary Goldfields, Limited

Owing to the phenomenal rush for shares in the above company, the first limited amount of stock at our first offering of $1.00 per share will be exhausted sooner than expected. The price will then be materially advanced.

The advance will take place any day and probably without notice—just as soon as the stock has been introduced by placing a very limited amount at our initial price of $1.00 per share—most of which is sold.

I am not urging anyone to take on Larder Lake Proprietary. The stock is fast selling itself, and in a short time will all be placed in Canada and the United States.

I am anxious, however, that my Canadian following get what they want at the first price. Hence this Canadian advertisement to give you notice that the ground-floor opportunity will not last much longer.

My following has consistently made money by acting on my advice. Thousands will testify to that.

I have never advised the purchase of a stock without it materially advancing in market value within a reasonable time.

My method after placing a stock with the public is to see that it is listed on the Exchanges. In every such case the result has been a legitimate market at an advanced price.

That is my record.

Larder Lake Proprietary will shortly be listed on the Exchanges and placed on the New York and Boston curbs.

I predict that very soon indeed it will stand at several dollars a share. I furthermore know that after the stamp mill materializes results, and it should be running within six weeks, that they will be of a sensational nature and I know that the stock will then surely see $10 a share. A bold prediction, I hear some say, but those who shortly accept my invitation to take the trip to Larder on the special train I'm going to run from New York, Boston and Toronto will think my prediction conservative enough when they are on the ground and see what I and my engineers have been investigating and verifying for six months past.

The facts about the Larder Lake Goldfields, and the Proprietary Company in particular, are far too great to present here.

Full particulars, however, may be secured on request by calling personally, by mail, telegraph or 'phone.

Again I say, I am not urging the purchase of this stock, for it is selling itself even faster than we can take care of the orders from Canada and the United States—two days behind now—but I am anxious that my Canadian following get into this, by far the best thing I have ever recommended, at our first offering price.

5000 Muskrat Skins Is Lindsay's Record

Trappers of That Town Have Had a Successful Season—Prices of Skins Have Increased Greatly.

A VERY SUCCESSFUL SEASON

Lindsay, May 2.—With a total catch of about 5,000 muskrats in the vicinity of Lindsay, the season of 1907 has been the most successful one in a decade. With rats plentiful, fur in good condition, and prices — already high—still further raised by the competition of buyers, many hunters were tempted to pack up their traps and camping outfit and betake themselves down or up the Scugog for a week or two's trapping. With prices ranging from 30 to 36 1-2 cents per skin, their labours were generously rewarded.

So far as can yet be ascertained, the most successful trappers were D. Hudson and son, who secured 450 skins. Messrs. J. Dickson and F. Bushnell laid their traps near Green Point, Goose Lake, and secured, in round numbers, 400 rats, for which they received 36 1-2 cents per pelt.

Great Medicinal Discovery Made By Peterboro' Man

Mr. S. R. Mitchell Discovers a Remedy Which Cures Catarrh and a Company Will be Formed to Manufacture It.

PATENTS APPLIED FOR

Mr. S. H. Mitchell, of this city, has compounded a remedy for the cure of Catarrh which will prove a great boon to suffering humanity.

Mr. Mitchell had been a sufferer from Catarrh for many years, and had tried every advertised remedy on the market, commencing with Dobbin's Sure Cure twenty years ago, and had also consulted some of the best specialists, without obtaining permanent relief.

Feeling sure that there must be some remedy for this prevalent and persistent disease, he set earnestly to work and experimented in his own case.

The result, after several year of application, is a medicinal composition, which cure completely and effectually cured him of this dreaded disease, and which, he claims, is superior to any in the market.

Those who have tried the preparation are enthusiastic in its praise, and have urged Mr. Mitchell to put it on the market in order that others who are similarly affected may find relief.

In view of the many requests made to him, and having every confidence in the healing properties of the remedy, Mr. Mitchell has applied for patents in Canada and the United States.

It is a remarkable coincidence that remedies should be discovered by Peterborough men for both Consumption and Catarrh, two of the most insidious and difficult diseases to cure known to the medical profession.

BOARD OF WORKS BUSY DAY

Annual Tour Was Taken Yesterday—The Places Visited During the Afternoon.

ROMAINE STREET SEWER

The Board of Works Committee of the City Council spent a very busy day yesterday on their annual tour of inspection of the city. All sections of the city where repairs are needed were visited during the day and the Board as a result of their expedition are in a position to more intelligently deal with the problems that come up for discussion.

It took all day to make the trip around the city. The Board started out at 8.30 o'clock and it was after six before they were through.

An account of their morning's work was published yesterday. In the afternoon the first place visited was Boswell avenue where a sewer and sidewalk are to be built. Being on the ground the aldermen were able to see just what is needed for this section.

The Board next visited Romaine street where the sewer, about which so much has been heard lately, was inspected. The work of repairing it is going ahead rapidly and it is anticipated that a few days will see the work completed. From there the Board visited the new King Edward school and were shown through the building, which made a most favourable impression on the aldermen. It was felt that the school is most modern in its architecture and a credit to the city. The new fire hall was the next point visited and this building was also inspected. The building is of thoroughly modern design and and will fill a long-felt want.

From there the Board went to Victoria Avenue by way of Aylmer, McDonel and Downie streets. Victoria avenue is in bad condition and some much needed repairs will be made there as a result of the Board's visit.

The Board of Works will hold a meeting to-morrow night at which some of the matters that came up during their trip yesterday will be disposed of.

They were accompanied upon their tour yesterday by the Mayor, the City Clerk, the City Engineer, the Street Commissioner and Ald. Bradburn, Elliott and Phelan.

Radical Change in Nervous System

STRENGTH OF NERVES AND VIGOR AND HEALTH OF BODY FULLY RESTORED

Dr. Chase's Nerve Food

The process of revitalising a nervous system which is on the verge of collapse, must of necessity be slow, but the results are certain and highly satisfactory when Dr. Chase's Nerve Food is used.

It took 24 boxes to cure Mr. Branton, but the cure is in many respects a most extraordinary one, as you will realize by the following description:

Mr. William Branton, Victoria street, Strathroy, Ont., writes: "Before using Dr. Chase's Nerve Food, my nervous system seemed all unstrung. I could not sleep, had no appetite, hands and feet cold, my digestion was poor, and I had jerking of the limbs. The first box of Dr. Chase's Nerve Food helped me and I continued until I had taken 24 boxes. This treatment has made a radical change in my condition, building up the system and strengthening the nerves. I would strongly recommend it to all suffering from nervousness."

Paralysis in some form is the natural result of neglected diseases of the nerves, but paralysis, instead of coming on suddenly, as is generally supposed is almost invariably preceded by months or years of warning symptoms.

Sleeplessness, headache, failing memory, loss of vigour and energy, stomach troubles, weakness in the mornings, dizziness, weak heart action and despondency are some of the indications of exhausted nerves, which gradually and certainly yield to the reconstructive influence of Dr. Chase's Nerve Food, or, if neglected, lead to paralysis, locomotor ataxia or insanity.

New nerve force must be added to the body and this can best be accomplished by the use of Dr. Chase's Nerve Food which is sold at 50 cents a box, 6 for $2.50, at all dealers or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box. 6

DUTCH BIBLE USED IN NEW PARLIAMENT

Premier Botha Will be Presented With English and Dutch Bibles As a Souvenir.

When the new Legislative Assembly of the Transvaal met for the first time at Pretoria, the Committee of the Bible Society provided two Bibles, one in English and one in Dutch, to be used by the members of the Assembly in taking the oath. These books will be suitably inscribed and afterwards presented to General Botha, the first Premier of the Transvaal, as a souvenir of this historic occasion.

THE SEPARATE SCHOOL BOARD MET

In Regular Session and Transacted Routine Business—Attendance Reported On.

The regular meeting of the Separate School Board was held last evening, there being present Mr. J. Goodlin in the chair, and Messrs. Clancy, Carveth, Lane, Primeau, Burns, Lynch and Murty. Rev. Father McColl, the superintendent, was also in attendance.

The minutes of the last meeting were read and confirmed.

The reports of attendance for April were as follows:

The Convent School—

The Convent School	283	2.5
St. Peter's School	325	296
Lake Street School	164	662
	772	662

The following communications were received:

From Mr. Fontaine, caretaker of the Convent School, asking for an increase of salary.—Received.

From the clerk of the municipality regarding assessment for sewers on Lake street and Brock street.—Received.

The following accounts were received:

Kingan Hardware Co.	.25
The Review Co.	1.00
J. J. Lynch	1.03
Peterborough Fuel & Cartage Co.	199.62
John Shannon	4.00

—Referred to the Finance Committee.

Sundry accounts for cleaning the Convent School, aggregating $18.13, paid since the last meeting of the Board on authority of the Property Committee, were confirmed on motion of Mr. Clancy, seconded by Mr. Murty.

On motion of Mr. Carveth, seconded by Mr. Lane, the chairman and reverend superintendent were appointed to attend the Court of Revision.

On motion of Mr. Clancy, seconded by Mr. Lane, the matter of the communication from Mr. Fontaine, requesting an increase of salary, was referred to the Property Committee to report at the next meeting.

The meeting then adjourned.

To Cure a Cold in One Day

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

Fire Insurance

The most important point in Fire Insurance is the selection of a Company which offers absolute security. Experience of the recent great conflagrations in Baltimore, Toronto and San Francisco shows that the English and Scottish Companies stood the severe strain of those appalling losses better than any other, and proves that the following are among the leading Companies in the world:—

BRITISH

Alliance Assurance Company, Northern,
Commercial Union, Sun,
Liverpool & London & Globe, Caledonian,
Norwich Union, Union.
London Assurance,

AMERICAN

Hartford, Insurance Coy of North America, Queen

The above, as well as a number of other first-class Canadian and American Companies are represented by

"They Will Not Shrink"

"Why Won't They Shrink?"

"Because they are not simply sponged before cutting, but the cloth is thoroughly shrunk."

"That will do to tell: but I guess your clothes will shrink just the same as ready-mades."

"Excuse me: One result of our method of shrinking is to so shorten the bolt of cloth, that less Suits can be cut from it than under the cheaper process. That's the only way you can get a Suit that will keep its shape."

Peterborough Residents Like High Priced Houses

This is the Conclusion Reached by a Toronto Newspaper Man Who Investigated the Conditions Here

GOOD DEMAND FOR HOUSES

The *Toronto News* has a special commissioner making a tour of Ontario, reporting on the situation, so far as the housing problem is concerned. Peterborough was one of the cities visited, and on Monday Mr. Burnaides Robinson was in the city for that purpose. The result of his investigation is seen in The News of last night. In part, that paper said:

In this thriving industrial centre no absolute lack of houses is felt. There is a considerable number of them to be had if one is only prepared to pay the price. Scarcely a house is available in the city for less than $10 a month, while the generality of those seeking tenants at the present time are held for figures ranging in price between $15 and $25.

The trouble seems to be that builders find a ready market for houses of the better class, those ranging in price between $1,500 and $3,500. And, even at that, a prominent contractor told The News that scarcely a new house was selling for less than $1,800. Most people who buy, be they artisans or merchants, are called upon to disburse $2,300; they both alike desire all the modern improvements.

Want More Expensive Styles

In Peterborough, perhaps more than in any other town of a like size in the Province, the people have been educated up to a demand for houses furnished in approved style, and anything less they will disregard. Experience has shown that the residents will not coddle to a house of the poorer class. Mechanics have been known to pay $3,000 for their houses, while one contractor, Mr. H. C. Stubler, said that he had put $50 extra into the verandahs on a series of houses he was building, and that those with the extra adornments were the best sellers.

While scarcely as many houses will be built this year as last, when over 300 were rushed up, the contractors expect a busy summer. Mr. J. J. Hartley remarked that he had three houses now under way that would bring $2,000 without conveniences, and $2,300 with the necessary improvements.

"These," he said, "are about the smallest houses that you can build if you expect to suit the people. They are 20x36 feet, and two storeys in height. There are a parlour, a dining room, a kitchen and a pantry on the ground floor, and four bedrooms and a bathroom on the second floor."

$435,000 in Public Buildings

Most of the building in Peterborough this year will be devoted to public buildings, upon which a total of $435,000 is to be spent. Itemized the amounts would be distributed something like this:

Armouries	$100,000
Collegiate Institute	60,000
Normal School	55,000
Canadian General Electric	50,000
Roman Catholic Church	40,000
King Street School	35,000
Canadian General Electric (building nearly completed)	15,000
North Ward School (addition)	25,000
All Saints' Church	25,000
Colonial Weaving Co.	15,000

As may be imagined, with all this exceptional building in progress, taken in conjunction with that which goes on from year to year, there will be a great demand for labourers, to whom wages quite equal to those to b eobtained in other centres will be paid. Bricklayers are paid 45 cents an hour, labourers 28 cents, and carpenters a minimum of 27 1-2 cents, while the generality of them draw 30 cents.

Another thing which makes building operations expensive at the present time is the fact that materials have gone up in price at least 10 per cent.

Mr. William Langford, the contractor in charge of the erection of the new Collegiate Institute — an undertaking which is hoped to have completed by the end of the year—has built a large number of houses in his time and is conceded to be thoroughly conversant with the local building situation.

Should Rent at $6 to $8

"There is no doubt," he remarked, "that what the city requires more than anything else is a large number of small dwellings that can be erected for rental at from $5 to $8 a month, but these houses would have to rely for tenants upon newcomers.

"Those who have been resident in the city for some time can look back to the time when they could get a six or seven-roomed house for $5 or $6 a month. Now those figures are practically doubled, and, while wages have not advanced in anything like the same ratio, the old inhabitant could not be induced to live in a house that would better meet his abilities to pay.

"In a word, the average artisan has adopted a mode of living which he is now indisposed, if not powerless, to drop. Though unable to afford the payment of the present high scale of rentals, he prefers continuing to do so rather than live in a small house to which he is unaccustomed.

"The result is that so long as the contractor is able to build the better class of house with a fair degree of certainty that a purchaser will be forthcoming, so long he will refrain from erecting the rows of small cottages that would come within the means of every artisan.

Higher Margin of Profit

"Contractors, the way conditions are to-day, are not inclined to abandon the building of the better class of house, with the attendant advantages in the way of large profits, in order to devote their energies to the smaller houses which might or might not afford them tenants, and which, in any event, if put up for sale, would bring a comparatively small margin of profit.

"When I was in Liverpool last year I saw whole rows of small cottages, which, containing four or five rooms, rented for eight dollars a month. That is the kind of a house that the artisan here should affect, but you cannot get him to do so. As I have said, if they were built at all, they would have to be for the more recent arrivals unused to the modern luxuries that have been the lot of even the labourer in Canada during the past decade.

Rents Doubled in six Years

"To show the way rents are at present, I may say that six years ago I built two houses which rented for $8 a month. These were very neat and comfortable houses; just such as suited the desires of the artisan, both as regards price and appointments. Last year I built a third house in the immediate neighbourhood, similar to the other two in every essential respect, and this now rents for $16 a month.

"So that you see that in six years the contractor, in order to obtain an adequate return on his investment, has been forced to double the rents, the cost of building houses having advanced in just that ratio."

Mr. Vincent Eastwood, who, until recently, was closely in touch with the building trade in his capacity as manager of a large wholesale hardware firm, took very much the same view of the situation.

"Builders," he observed, "have been putting up houses at a cost very much in excess of the price which an artisan can be reasonably supposed to give when purchasing a home. The tendency has been to ward a class of house very far beyond their means.

"As a consequence, if an artisan desires to rent, he has to pay a figure that would have given him cause a few years ago, and which, even with the advance in the rate of wage all along the line, leaves him worse off than he was in the old days. The only difference is that, being paid a higher scale, he does not notice the outlay to the same extent.

Forced to Seek Cheaper Homes

"But the time is at hand when the people will be forced to adapt themselves to smaller homes. The increase in the cost of living will necessitate their seeking a cheaper class of home.

"Rents here, as elsewhere, have gone up surprisingly the last few years. Little houses which five years ago rented for $6 or $7 a month now readily find tenants at from $10 to $12 a month—figures that are beyond the price that any but the better class of artisan should be expected to pay.

"There are in the city any number of houses available that rent from $17 to $18 a month, but there is an absolute dearth of houses of the cheaper sort. One would find it difficult, if not impossible, to secure a house in the city for less than $10 a month. What we need, then—and need badly—is a five-roomed house that will rent for $8 or $9 a month.

"But, so far as I have been able to observe, there is no disposition on the part of the builders to erect the cheaper class of house to which I refer. They are devoting their attentions entirely to the house that they can sell at about $2,500. On such a house they make, say, $400 in profit, while on the cheap home, such as the artizan demands, they could not reap a profit of more than $100."

Mr. R. F. McWilliams, the Mayor, indicated his delight at the progress the city is making. This progress, in his estimation, was substantial, and the outlook never was brighter than at the present moment.

"The city," he said, "is supplied with as many good houses as are required, but there is a great lack of houses of the cheaper sort. There was a boom in building when the Canadian General Electric Company came here about fifteen years ago, but, since then, the building of houses has scarcely kept pace with the demand, especially in respect of the class of of houses to which I allude. There has been another building boom the past two years, but it has involved the erection of no terraces: it is confined exclusively to high-class houses."

Three Sources of Cheap Power

"How do you meet the demand for cheap power?"

"We are in a position to offer cheap power. Right in the city we have two power developments—the Peterborough Hydraulic Company and the Otonabee Company. The first of these has a head of 28 feet and is capable, at a minimum flow, of developing 4,000 horse power. The Otonabee Company utilizes one of the Government dams, known as No. 5, and can develop 1,500 horse power. This company has also secured leave from the Government to utilize dam No. 4, a short distance away, and they are building a new power house to combine the two dams, giving a head of 26 feet, with power nearly as great as the hydraulic company. The Canadian General Electric Company have their own power with a dam at Norwood. They use the power generated themselves, and are looking for more."

New Line From Georgian Bay

Mr. McWilliams went on to indicate the advantages possessed by Peterborough in the way of transportation facilities.

"The city," he said, "is on the main Ontario division of the C.P.R., while the G.T.R. stretches out in four different directions. What will tell more in our favour than anything else is the fact that the C.P.R. has a line under contract from Georgian Bay to connect with the existing line at Peterborough, and paralleling the G.T.R. between the two points mentioned. Added facilities will be given when the G.T.R. has double-tracked its Midland-Peterborough route, as is proposed.

"The object of both the railways," Mr. McWilliams continued, "is, as is the object of Canadian trade generally, to get the products of the West to tide-water by the shortest route, and thence to the markets of the world. Conversely, the Eastern manufacturers desire the cheapest possible route to the West for the output of their factories.

Boom From the new Canal

"Aside from the railways, the completion of the Trent Valley Canal will do much to assist the farmers of the West and the manufacturers of the East in getting together on a profitable basis. From Georgian Bay to Trenton, by the canal route, is a distance of 203 miles, and 160 miles have yet to be canalized. The remaining 43 miles consists in a large part of river stretches at both ends, where locks will have to be built at various points to overcome rapids.

"The balance of the work should be done within the next five years. What this will mean to Peterborough is clearly shown in the fact that one large concern, which already employes over 400 men, will triple its plant so soon as it becomes apparent that the Government intends to push the work on to completion."

EMINENT PROFESSOR TO GIVE LECTURE

Professor Chant, Toronto, Will Lecture on the Sun in Y. M. C. A. Hall To-morrow Night.

To-morrow night the lecture under the auspices of the Royal Astronomical Society promises to be one of more than usual interest. The lecturer will be Prof. Chant, professor of astronomy, in the Toronto University. He will give a talk on "Exploring the Solar Atmosphere." Prof. Chant will arrive in the city on the noon train, and will be met at the station by the officers of the local society, and during the afternoon it is expected that he will be driven around the city by the Mayor and the president and officers of the Royal Astronomical Society. The lecture is primarily for the members of the Society, but those of the public who would like to attend are welcome to do so, and free tickets of admission may be secured on application to the secretary, Dr. Neal.

MATT. EDWARDS WAS GIVEN TEN DAYS IN JAIL

Tried to Commit Suicide Yesterday—Boys Broke Window Pane and Had to Pay For It.

Matthew Edwards, the Otonabee labourer, who tried to fall off the Hunter street bridge yesterday while under the influence of liquor, appeared before Magistrate Dumble this morning. On the charge of attempting to commit suicide he pleaded not guilty. Mr. Dumble said to him that if he held his life of such little value he might as well be in the river as not. He was given 10 days in gaol with hard labour.

Three boys, O'Hara, Galvin and Lavergne Killenbeck were charged with having broken a window the property of the Toronto Savings and Loan Company. It was in Mr. Hunter's yard and the boys had a little fun in breaking it with stones. But it cost them a little. They pleaded guilty and between them had to pay $9.10.

A third case was that of Arthur Fowler, who acted disorderly on Hunter street on the evening of April 23rd. He pleaded guilty and was fined $2 and costs, amounting to $1.00.

OPENING OF THE EASTERN LEAGUE

Local Baseball Enthusiasts Given Good Opportunity of Seeing Toronto Team in Action.

A special excursion to Toronto has been arranged for Saturday, in connection with the opening of the Eastern League Baseball season. Opportunity will be afforded those who wish to see the Toronto team, which this year is playing great ball, stack up against the Rochester team in the opening series. The special train will leave the C.P.R. station at 12.45, which will give ample time to reach the grounds before the game commences. Those who wish may remain in the city over Sunday. The return fare will be $2.05.

NOTICE TO ATHLETIC CLUBS

All clubs who use Riverside Park, unless they have made the necessary arrangements with the managers, will be prosecuted as trespassers.

Riverside Park Syndicate. 3d-10

WILL COMMENCE THE WORK SOON

Mr. M. J. Butler, Chief Engineer of Railways and Canals, States That This is the Present Intention.

WORK AT HEALEYS FALLS

In a letter to Mr. E. Guy Porter, M.P., Mr. M. J. Butler, chief engineer of the Department of Railways and Canals, and Deputy Minister of that Department, states it is the intention of the Government to commence work on the Trent Canal, both at Healey's Falls, and at the Lake Ontario end, at once. His letter to this effect is as follows:

The engineers will go to work on the Trent Canal construction immediately, or as soon as they can be organized. The present intention is to start at Trenton and Healey's Falls, working both ways, and possibly one other point, of which I am not yet quite clear. It will of course take some time to get out the working plans and specifications for the construction work, when they will be advertised for at least six weeks before letting the contract. The intention is to push the work with all possible despatch. The work in the vicinity of Trenton naturally will be the straightening and dredging of the river, and the building of a lock in the vicinity of the Grand Trunk bridge, and so on up the river.

TOOL MAKERS GAVE AN ENJOYABLE DANCE

One of a Series of Delightful Hops Was Given in the Foresters' Hall Last Night.

A delightful dance was that held last night in the Foresters' Hall, Simcoe street, under the auspices of the Tool Makers. About fifty couples were present and enjoyed tripping the light fantastic. Refreshments were served at midnight.

The music, which was supplied by the opera house orchestra, was of an excellent quality for dancing to. The series of dances arranged by the Tool Makers this season has provided pleasure to a large number of young people, who are proportionately appreciative.

PAINTING ON THE G. T. R. BUILDINGS CONCLUDED

Painters Will Next Move to Victoria Harbour.

The painters who have been decorating the buildings of the G.T.R. in the city for the past few weeks will conclude their work to-day, after painting the gate houses at the Charlotte and Simcoe street crossings. The men who have been here will next go to Victoria Harbour for similar work.

NEW BOOKS AT THE PUBLIC LIBRARY

A number of new books have recently been placed on the shelves of the Public Library, among them the following:

The Metric System, Halsey and Dale.
Sir Walter Scott's Works, (New set.)
A Boy's Vacation Abroad, King.
A Little Girl in Old Quebec, Douglas.
Half a Rogue, McGrath.
Daniel Sweetland, Phillpotts.
Latter Day Sweethearts, Harrison.

The Davis Vertical Feed Sewing Machine sews the finest silk without puckering as there are no teeth. J. M. Greene Music Co., George Street Sole Agents. 3-d-103

A BUSY WEEK FOR THE ALDERMEN

Five Meetings in Five Days—Property Committee Meets To-night.

This is a busy week for the aldermen. Starting out with a meeting of the Committee of the Whole Council and a Council meeting, there was a meeting of the Fire, Water and Light Committee on Tuesday; the Board of Works took their annual tour of inspection yesterday, the Property Committee meets to-night, and the week's work will be brought to a close to-morrow night with a meeting of the Board of Works. After a week like that, who would want to be an alderman?

The Property Committee has several matters of importance to take up to-night, including the garbage by-law.

The Engineer has prepared new plans for the city's offices on the ground floor of the old firehall, and they, too, will be disposed of to-night.

REVIEW MEMORIES OF THE CAMP

Annual Y. M. C. A. Camp Supper Was Held Last Night in the Association Building.

MANY BRIGHT SPEECHES

The ninth annual Y.M.C.A. Boys' Camp, held at Clear Lake in July, 1906, was lived over again for an hour or more last evening on the occasion of the annual camp supper, which is always looked forward to with deep interest on the part of the boys who have attended the camp. The camp of last year was pronounced as the best one ever held, it being attended by 37 boys and leaders.

The invitations for the supper were quite unique, the design for the cover having been drawn by Mr. Harold McCrea, artist.

Camp phraseology was used to describe the different items on the elaborate bill-of-fare, and included Flynnigan's Clear Lake Soup, Pork and Beans au Tom, Biscuit, Camp Punk, Grease, Smullagon, "Lumber Jack" Pie, Essence of Limburger and Memories of Picnic Day. About 30 sat down to supper, and from the time supper began the fun commenced and continued till the close. Mr. R. E. Harding, president of the Association, who has for the past four years been a welcome visitor at the camps, occupied the chief seat at the feast and conducted the programme which followed it. Each boy responded to roll call with his camp name, those present including W. Stratton, C Dean, Frank Patterson, Walter Perks, A Gilbert, H Outram, G Minongan, W H Saxby, H E Saxby, M Turner, S Pringle, G Potter, Geo Martin, G McClennan, S Madill, R Dutton, E Sandemor., N McAllister, D Layfield, W Fortye, Jas D Patterson, G H Williamson, Jno Evans, P Wallace, R Baker and Geo K Martin.

Each boy then gave an echo of the camp of 1906 in a one-minute speech. This recalled many amusing features of the camp, and as the boys took part they were subjected to many interruptions, the singing of the camp songs and the giving of the camp yells.

The pleasant evening was concluded by all joining hands and singing "Auld Lang Syne."

All the boys are looking forward to going to the camp of 1907, arrangements for which will shortly be made.

The boys have still to secure $70 to pay for the camp lot at Clear Lake, and they are hoping that some good-hearted friend, a friend of boys, who appreciates the value of the camp, will make it possible for the boys to own their own lot and erect a permanent lodge on it.

Dressmakers, attention! Have you tried the Davis Vertical Feed Sewing Machine? It is the dressmakers' delight. J. M. Greene Music Co., George Street, Sole Agents. 3-d-103

SANITARY INSPECTOR VISITED LAKEFIELD

Reports Sanitary Conditions There Very Much Improved.

Yesterday Sanitary Inspector Geo. Ball, visited Lakefield, on an inspection tour, and reports sanitary conditions there very much improved. He drove along the edge of the river and inspected yards, etc., and states that very little detrimental to the health of the citizens found its way into the river. In Lakefield his observations led him to believe that the citizens were looking after their yards in an excellent manner.

THE FIRST OF STONY LAKE'S COLONY TO GO

Mr. E. S. Hopkins Will go up to His Cottage To-morrow.

The first of Stony Lake's summer colony has arrived in the city in the person of Mr. E. S. Hopkins of Boston, who is a guest at the Oriental, and who will go up to his cottage at Bonshink to-morrow. Mr. Hopkins is always the first to go up to Stony Lake each spring, and generally the last to leave the lake, staying well on into October every year. He is well known to those who spend their summers in the district of "sparkling waters and happy lands."

WEDDING BELLS

McNELLIS-PLUMMER

A quiet wedding took place on Monday evening, April 29th, at the residence of the bride's parents, Mr. and Mrs. A. R. Plummer, 237 Clinton street, Toronto, formerly of Peterborough, when their youngest daughter, Miss Ethel May, was united in marriage to Mr. Harry R. McNellis. Rev. Dr. Sowerby, pastor of College street Baptist church, performed the ceremony.

The bride was prettily attired in cream Surah silk, and carried a bouquet of lilies-of-the-valley. Miss Evelyn Plummer, sister of the bride, acted as bridesmaid, and was attired in a costume of light green silk, trimmed with cream lace and carried pink roses. Mr. E. A. Plummer assisted the groom.

After the ceremony the guests sat down to an elaborate dejeuner. The table being prettily decorated with roses and lilies-of-the-valley.

The groom's gift to the bride was a beautiful pearl pendant, to the bridesmaid a signet ring, and to the groomsman a gold fob.

The many beautiful presents received attested the popularity of the bride, and were received from friends in New York, London, Peterborough and Toronto. The young couple have taken up residence in Toronto.

JACKSON-JOHNSTON

Last evening a pretty wedding took place at the residence of Mr. Richard Johnston, Bethany, when his daughter, Robina May, was united in the holy bonds of matrimony to Mr. Thos. John Jackson, also of Bethany. The wedding was quiet, but exceedingly pleasing, the guests being confined to the members of the family and near relatives. The ceremony was performed by Rev. Dr. Marsh, of Springville, the bride entering the drawing room on the arm of her father, as the wedding march was played by Miss Sisson, of the Conservatory of Music, Peterborough. She was dressed in cream mull, trimmed with lace and ribbon, and carried a bouquet of brides' roses. After the ceremony the party sat down to a dainty dejeunor, and later left for their new home in Bethany. Both young people are well known in the vicinity in which they live and enter into married life with the best wishes of their many friends.

DUNFORD-NEWNHAM

A very pretty wedding took place at the residence of Mr. John Newnham, of Dummer township, last night at six o'clock, when his daughter, Miss Mina, was united in marriage to Mr. Roland Dunford, son of Lazarus Dunford of the same township. The ceremony was performed by the Rev. Mr. Nicholls of Warsaw, in the presence of about 40 guests. Mr. and Mrs. Dunford will reside in Dummer.

WILL CONSECRATE A NEW CHURCH

His Grace the Archbishop of Toronto, passed through Peterborough to-day on his way to Apsley, where he will hold confirmation services, and also consecrate St. George's church, which has recently been built. Rev. Rural Dean Davidson, and Rev. W. J. Creighton of Lakefield, are accompanying His Grace.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 35c, at all dealers or EDMANSON, BATES & Co., Toronto.

TATE OPTICAL CO'Y

G. N. BABCOCK, Eye Specialist

412½ GEORGE STREET, PETERBOROUGH

UNSOLICITED TESTIMONY

The Tate Optical Co., Peterborough:

DEAR SIRS,—During the last three or four years (prior to May last) my eyesight had failed to such an extent that I was unable to read or see anything at close range and could get no Glasses that would help me. I tried two different Opticians in Toronto and was told by both that they could do nothing for me, and that my sight would never be better. A statement of my case was sent to Montreal by a Hamilton optician and several pairs of Glasses sent me, but with the same result: my vision could not be improved. Last May, while looking at a Pair of Glasses you made for Mr. John Fife, Keene, and talking with him he advised me to consult your Mr. Babcock, and I am pleased to say that the Pair of Glasses he made for me have given me entire satisfaction and I can do now what I have not done for years past,—read any ordinary print and see distinctly at close range. I feel very grateful, not only for the interest you have taken in my case, but particularly so for the blessing of good eyesight. Thanks to your knowledge and skill.

Yours truly,

(Signed) JOHN CARTER, Sr.,

Hastings, Ont

Mallory CRAVENETTE HATS

STYLE and SERVICE

We want you to see this new line of fashionable hats, if for nothing else than to learn what are the latest and most approved metropolitan hat styles

The famous Priestly Cravenette process, which makes the Mallory Cravenette Hat rain-proof, gives it added wearing qualities.

A Mallory Cravenette Hat will stay new until you get the value of several new hats, and yet it costs no more than other hats of equal quality and style.

All the fashionable shapes and shades. See them before you choose your Spring headwear.

Happiness in a Grain of Wheat

It Contains Every Food Element Necessary for Man's Sustenance.

All authorities agree that fourteen elements are needed in the human body to sustain perfect health and that these must be supplied in the food taken into the system. Nature has provided us with one single article of food containing all of these fourteen elements in the exact proportions necessary to supply our bodies with vitality, strength and heat. This food, so wonderful in its composition, is wheat, and intelligent men and women are coming to realize more and more that in the whole of the wheat is found the secret of health and happiness. Rich in the nitrates, or muscle-making elements, the carbonates, or heat-producing elements, and the phosphates, or brain and nerve-making elements, the whole grain of wheat supplies every necessity for man's body and mind.

This is how Malta-Vita came to be known as "The Perfect Food," for Malta-Vita is simply the whole of the wheat and a little salt, thoroughly steamed and cooked in absolute cleanliness, then mixed with pure barley malt extract, which converts the starch of the wheat into maltose, or malt sugar, an active digestive agent and very nutritious as well.

All grocers sell Malta-Vita. Large package, now 10 cents.

A Rare Old Brew

O'Keefe's PILSENER Lager

Nothing finer is brewed in Bohemia, the home of "Pilsener" Beer. And there's no duty to pay on it. INSIST on having

"The Light Beer in the Light Bottle"

NOT JUST AS GOOD

Did you ever inquire at a store for certain articles and get for a reply "We have something just as good"? Did it ever occur to you that "Something just as good" is something the dealer has been able to buy much cheaper than the articles you inquire for? This is true in drugs, fabrics, groceries, hardware, and in fact every line, including silver-plated ware. If you inquire for 1847 Rogers Bros.' Knives, Forks or Spoons, don't accept any bogus Rogers' stamp because your dealer tells you it's just as good.

1847 ROGERS BROS. TRADE MARK

The above trade mark has been stamped on every article of the original and genuine Rogers Bros.' goods for over 50 years. Get this and you get the best that is made.

15,000 FURS BOUGHT BY MR. WM. LECH

Trappers Had Largest Catch in Many Years—Also Highest Price Paid.

The trapping season, which closed May 1, has been one of the best for the trappers in many years. Wm. Lech and Sons have purchased 15,000 rats, caught along the Trent River and at Rice, Chemong and Stony Lakes. Not only has the catch been very heavy, but the price has delighted the hearts of the Indians, rats selling at 35 cents each, the highest price in 25 years. The trappers, nearly all of whom are Indians, have left Mr. Lech's store with more money in their pockets than they ever saw in bulk before, and with that feeling known only to a big chief.

Mr. Lech. Whetung brought in 2500 skins, but he had previously bought the most of these, his personal catch being over 600.

Besides rats, there were pelts of the coon, skunk and mink in fairly large numbers. They will all be shipped to the buyers in the cities, except those to be used by Mr. Lech in his own business. When tanned they make excellent lining for coats, and will help fight King Frost during coming winters.

OBITUARY

EDWARD MOORE

Word was received in the city today of the death in Toronto yesterday of Mr. Edward Moore, a resident of Peterborough, where he had lived for a number of years. The deceased had been ill for about three months suffering from diabetes, which was given as the cause of his death. The late Mr. Moore was about 45 years of age and was married, his wife surviving him. He leaves two brothers and five sisters, the brothers being John of Winnipeg, and Richard, of Tondwanda, N. Y., and the sisters, Mrs. Soucie, and Mrs. Robertson of this city, and Mrs. Roberts, Mrs. Wright and Mrs. Halliday of Toronto. The funeral will take place from the residence of his sister, Mrs. Halliday, to-morrow afternoon.

MARY LAMB.

A large number of Peterborough people will regret to learn of the death of Miss Mary Lamb, niece of Mr. Geo. Davidson, 265 Brock street. The young lady passed away on Tuesday at her home in Menie, about six miles from Cameobellford at the early age of 18 years. Her death was due to lung trouble after an illness of more than half a year.

She was a talented young musician and for a number of years played the organ in the Presbyterian church at Menie. She was a frequent visitor at her uncle's in Peterborough, and has a large number of friends here. Her parents are still living and a brother, William, also survives her. The funeral was held to-day, which Mr. Davidson attended.

RICHARD HERBERT PEARSON

After a short illness of only one week, suffering from peritonitis, Richard Herbert Pearson passed away at 9.30 this morning at the family residence, Pearl avenue. In spite of the best medical aid death claimed him after a comparatively short struggle.

The late Mr. Pearson was born in the township of Smith, thirty years ago. The family moved to this city and took up residence on Pearl avenue in 1903. The bereaved parents, Mr. and Mrs. John Pearson and a family of three sons and five daughters remain to mourn his untimely demise. The brothers are Fred and Robert of this city and Thomas, in Minnesota; the sisters are Mrs. Sam. Pearson, Bethune street; Mrs. Furber, Thompsonville, Conn.; Misses Bella, Carrie and Ada at home.

The deceased was a member of Court Selwyn, C.O.F., and of the Brotherhood of Carpenters and Joiners of America. The funeral will take place on Saturday afternoon at 2 o'clock from the family residence, Pearl avenue, to Ray's cemetery, 8th line of Smith.

MISSION BAND SALE AT ST. LUKE'S CHURCH

The annual box sale and concert of St. Luke's Mission Band, which in past years has earned a reputation of being most interesting and entertaining will be held on Friday evening, May 17th, at St. Luke's Sunday school. Mrs. W. J. Scott the president is making extensive preparations assisted by effecient officers to make this year's entertainment the best ever held.

GROWING OLD WHILE YET YOUNG

What a number of women there are who feel that these words exactly suit their case.

There are thousands of females all over our land, broken down in health and dragging out a miserable existence, overburdened with disease peculiar to their sex, apparently growing old while yet young.

From early morn till late at night they have been on the go year after year, attending to the household duties. Is it any wonder then that sooner or later there comes a general collapse? Palpitation of the heart, nervous prostration, smothering and sinking spells, weakness, dizziness, sleeplessness and many other troubles follow. What a woman wants is something to build up the system and for this purpose you cannot equal

MILBURN'S HEART AND NERVE PILLS

Mrs. W. J. Russell, Vasey, Ont., writes: "At one time I suffered greatly from my heart and nerves, and the shortness of breath was so bad I could scarcely do my housework. A friend of mine advised me to try Milburn's Heart and Nerve Pills, which I did and I only took them for a short time before I was better.

The price of Milburn's Heart and Nerve Pills is 50 cents per box or 3 boxes for $1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A GREAT SNAP FOR DIVINITY STUDENTS (?)

Instead of Engaging in Secular Pursuits During Vacation They Will Get $200 for 20 Weeks Work on Missions.

A joint committee of the Missionary Society and the Educational Society of the Methodist Church have adopted a new plan, by which ministerial students of the Church will spend their vacations from college in home mission work, instead of engaging in secular employment. Under this plan, each student will be paid $200 for 20 weeks, each society paying $5 towards each student's salary.

For Tailoring, Dressmaking, Corset making, Braid making and all heavy or light work, no Sewing Machine can compete with the Davis Vertical Feed. f 3-d-103

HE WILL CELEBRATE EMPIRE DAY

Rev. E. A. Langfeldt Announces That a Special Service Will be Held On May 26th.

On Sunday morning, May 26th, Rev. E. A. Langfeldt will celebrate in his church by a special service Empire Day. He will preach a patriotic sermon, and has prepared a special liturgical service of a patriotic character. Children of St. Luke's Sunday school will attend the service in a body.

The Wasting Process of Disease

Disease is a tearing down, wasting away and destroying of the tissues of the body, and a shrivelling up of the nerve cells and blood corpuscles. Nature demands assistance to overcome this dreadful wasting process and the needed help is best supplied by Dr. Chase's Nerve Food, the great blood builder and nerve restorative.

Earl Grey, Horticulturist.

Ottawa, May 2.—Earl Grey yesterday afternoon gave the children of the separate schools a lesson in horticulture and presented each with several bulbs. The Governor-General is an enthusiastic amateur gardener and this is one of his methods of inculcating in others a love of the beautiful in plant life.

The End of a Drunken Row.

Montreal, May 2.—George Sheard (colored), lunchroom-keeper of St. Antoine street, was yesterday acquitted by Judge Choquette in the Court of Special Sessions of the charge of manslaughter. He had assaulted Joseph Gariepy in a drunken row in a saloon. Gariepy died from the injuries received.

Better Off Here.

London, May 2.—Sir Wilfrid Laurier, the Canadian Premier, addressing the Canada Club on Monday night, said he had no fear that Canada would be Americanized.

The American who crossed the border knew that his property and life were securer than in his own country.

Leopold Fails.

Brussels, May 2.—Additional information seems to confirm the reports that King Leopold's efforts to secure the support of France against the policy of Great Britain towards the Congo have failed.

SERIOUS EXPLOSION IN COAL MINE

Several Men Killed in West Virginia Coal Pit.

MANY ARE STILL ENTOMBED

Many Effect Escape Through Emergency Stairway—About One Hundred Were Below When Explosion Occurred—Forty-One Still Left —Cage and Shaft Damaged— The Boss Is Still Missing.

Hinton, W. Va., May 2.—An explosion occurred in the Whipple Mine at Scarboro, Fayette County yesterday, entombing nearly 100 miners. Fifty-one men escaped through the emergency stairway and reached the surface, but it is believed that 41 are still entombed with little chance of escape.

Of those who escaped some were seriously injured, but all will recover. Isaac Pelter, the mine boss, was left in the mine. He was closing up the air courses in an effort to force in fresh air for those remaining in the mine. He expected to follow his men out, but nothing further has been heard of him.

The Whipple Mine is within two miles of the Stuart Mine, which exploded Jan. 29, killing 80 men. Both mines are owned by the White Oak Fuel Co. The mine is one of the best equipped in this field, and has always been considered safe.

The cage and shaft were damaged, but were in operation at 9 o'clock last night, and the work of taking out the bodies will continue throughout the night.

The cause of the explosion was probably the result of firing a heavy shot at the face of the workings.

Parkersburg, W. Va., May 2.—The fast flyer express on the Ohio River division of the Baltimore & Ohio was wrecked near Ravenswood yesterday afternoon. Six people are reported killed.

SUNSHINE FURNACE

UNBREAKABLE FIRE-POT

The lower portion of a fire-pot is usually nearly or partly filled with dead ashes, leaving the live, red-hot coals in the upper part. The result is that the upper portion expands much more than the lower.

This uneven expansion causes a strain too great for a one-piece fire-pot to stand. Sooner or later it will split, allowing precious heat and sickening gases to escape.

But the fire-pot of the Sunshine is constructed to meet this condition. It is in two sections. The upper half expands, as much as necessary, independently of the lower. When cool, it contracts back to its original size, fitting to the lower half perfectly.

And this strong, unbreakable, gas and heat-tight, two-piece fire-pot is just one of the many superior features of the Sunshine.

If your local dealer does not handle the "Sunshine," write direct to us for FREE BOOKLET.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Y. M. C. A. RUNNERS ARE OUT AFTER THE EXAMINER CUP

A large number of the Y.M.C.A. Harriers was out last night for the regular Wednesday night run, and had a good practice run, leaving the building about 8.15. Quite an interest is taken in the club, and it is expected that double the number of men will soon be running with them. Last year's first and second men in the Examiner road race are turning out regularly along with a large number of beginners, and the Association should be well represented in the race this year.

WILL RUN SPECIAL TRIP TO TORONTO ON SATURDAY

Interest in the race for the pennant in the Eastern League this year promises to be the keenest in years, with the two Canadian teams well up in the fight. Arrangements have been made by which Peterborough fans will have an opportunity of witnessing the game on Saturday in Toronto, which will be practically the opening of the season so far as Toronto is concerned. A few of the baseball enthusiasts have arranged for a special train to leave the C.P.R. station at 12.45 p.m. on Saturday, arriving in ample time to get to the grounds in time for the game. There will be a special train returning the same night, allowing those who wish to attend the theatre. Those who wish, however, may remain in the city until Monday, the tickets being good until that night. The return fare has been set at $2.05, which is very low, and doubtless many will take advantage of the opportunity of seeing the ball game and visiting over Sunday with friends.

ADDRESS OF BOWLING CLUB PRESIDENT

Mr. D. H. Moore Gave His Annual Report at Meeting of the Peterborough Bowling Club Last Night.

ANNUAL MEETING ADJOURNS

The annual meeting of the Lawn Bowling Club, which was to have been held last night, was adjourned until next Wednesday evening, when the secretary-treasurer's report will be read, election of officers will take place, and other matters of business transacted. The secretary, Mr. George H. Giroux, was unable to prepare his report for the meeting last night on account of pressing business during the week, and for that reason the meeting was postponed.

A large number, however, was in attendance in the new Dominion Bank premises, and the president, Mr. D. H. Moore, presented his annual address. The prizes were also to have been presented to those who won the various events last year, but owing to the fact that the bowls had not arrived, this also was dispensed with. Although no business was transacted, the members in attendance talked over some proposed changes in the grounds, building, etc. The members this year may be called upon to wear shoes with no heels in order to protect the ground from small holes. This was spoken of last night and seemed to meet with the approval of the members present. Lockers may also be installed in the club house in which to place these along with the bowls.

The bowlers expect to begin their games this year about the 24th of May as usual and expect to have a successful season.

The following was the president's report to the officers and members of the club:

Gentlemen, — Another year has rolled by, and we are close to the opening of another bowling season. The past year has been a rather important one, in more ways than one. We have had the British bowlers with us, and although your president holds the record as the easiest mark of the tour, yet our club stood a considerable distance from the foot of the list.

The past year, too, was the first in which we have had any local competition for prizes. Owing to the generosity of Mr. C. E. Frost, who presented a beautiful cup for an inter-rink competition, Mr. Crane, who presented a pair of bowls for a singles competition, the Hon. President, Dr. Boucher, and our Vice-President, Dr. Greer, who each presented a pair of bowls for competition in Scotch doubles, we had very interesting and keen rivalry among those who competed for these trophies. The past year has therefore been unique in that we have never before had such exceptional causes for enthusiasm.

We had, however, many annoying drawbacks, which caused considerable unforeseen and unavoidable expenditures. In order to have our lawn present as favourable an appearance as possible when our visitors arrived, we decided to place and sod a bank around the sides of it; when this was done it was found that a large portion of the grass had been badly winter killed, and, owing to the very backward character of the spring there was little hope of it being ready when required, so we were forced to resod a considerable portion of it, and in order to have this newly-sodded portion in any kind of shape for playing on, we were obliged to spend a large sum in watering, rolling and filling in the uneven places. Coupled with this, we installed a new lighting system, also a new watering plant, procured new hose, and a new mower. All this caused us to fall behind somewhat in our finances, so that with the amount we were behind last year we have now a deficit. Now, however, with our lawn in the very promising condition we find it to-day, and everything in such good shape, we should pull out this year at the end of the season, square with the world, if not with a surplus.

The hose procured last year proved very defective, and the lawn mower, although an excellent machine in every other way, had soft knives, which required too frequent grinding. Messrs. Kingan & Co., have taken the hose back to replace it, and have sent the mower back to have the knives hardened. It will, therefore, be seen that beyond providing some sort of a diffusing shade for the lamps, which appears necessary, we should have little, if any more, than the normal expenditure for the coming season.

We had the lawn top-dressed and levelled up last fall, and also seeded with Kentucky blue grass. It is looking well, now, and if the players will only have patience, and not start to bowl too soon, we should have the finest lawn that has ever been in Peterborough, and one of the finest in the country.

It is generally believed that we should either require all players to wear rubber shoes or wear ruobers on their boots, as the sharp gouge form of the front of the heel of the boot, and the unrestrained enthusiasm of some of the players, have a tendency to cut up the grass and injure the lawn. This, with the matter of diffusing shades, are matters for your consideration.

Now, gentlemen, as a club I desire to thank you most heartily, for the repeated confidence you have voted in me, and the honour and kindness you have so generously showered on me. I desire to thank the members of the executive most sincerely for their cordial co-operation and advice, and where all have been so uniformly kind and generous, it may seem a little invidious to particularize, but I feel that the wise and unstinted assistance I have always received from Mr. Fitzgerald is worthy of special mention. It may have been to some extent his proximity to the grounds that cause me to consult him more frequently, anyway I always found him a useful man in every time of trouble; and the club is indebted to him for many little services, the cost of which will never be known to you.

Again, gentlemen, I thank you, and bespeak for my successor the same, unanimous, kind, generous, sympathetic and indulgent support you have given and extended to me, when there is no doubt of the continued future prosperity of our club.

Respectfully submitted,
D. H. MOORE,
Pres. P. B. Club.

BASEBALL MEETING WAS POSTPONED UNTIL SATURDAY

The city league meeting which to have been held last night, did not materialize. A number of the enthusiasts and fans were on hand, but for good reasons they decided to wait until Saturday afternoon. When even a greater number will be present. The different teams should get down to business and form a good league. There are enough men for three or four fast nines and the ball that they could provide would be of the best character. Not only that but a city league composed of those teams would surely develop the players and thus form a stepping stone to the seniors. The public wants to see city league baseball and it is up to the men to get going.

MUNRO'S COLTS WON THIS GAME

Bowled 200 Pins Better Than the Farriers Last Night.

Munro's Colts and the Farriers, who were the tail-enders in their respective events in the recent tournament, rolled a friendly game last night, and, as a result, the Colts got the Indian sign on their opponents, the score standing 1633 to 1633 in their favour. Joe Gibson was high for the night, with a score of 233. Joe Sharpe, with 373, was top scorer for the losers. Following is the score:

Munro's Colts

H. Martin	108	142	134—384
D. B. McRae	128	108	107—343
R. J. Munro	118	109	116—333
H. Munro	99	140	109—348
J. Gibson	160	111	162—433

Total—1833.

Farriers

Dr. McKercher	90	80	133—276
G. Cairns	160	98	91—349
S. Sharpe	90	107	104—301
M. Kirn	99	133	102—434
J. Sharpe	90	162	121—373

Total—1633.

Majority for Colts—200.

LIST OF EXPERTS WITH THE TRIGGER

The Winners for the Past Three Months at Yeates Bros. Gallery.

The shooting matches at Yeates Bros. gallery, George street, throughout the past three months have aroused much interest, and the trigger experts have had a great deal of amusement from the pastime. They will soon be able to resume it again under more favourable conditions, as the proprietors are making arrangements to remove the gallery to Jackson Park. It is expected that it will be in operation by May 24.

Following are the winners of the last three months:

Miss Hayes is in Toronto attending the horse show.

Mr. John Mar of Lakefield, was in the city to day.

Mr. H. G. E. Choate of Warsaw, was in the city to-day.

Mr. John Purser of Hall's Bridge, was a city visitor to-day.

Mr. T. W. McDonough was in Toronto yesterday on business.

Mr. F. G. Young of Young's Point, was in the city to-day on business.

Dr. Claris of New York, was in the city to-day on his way to Stony Lake.

Mr. Thomas Nicholls of Buckhorn, was a guest at the Munro House to-day.

Mr. and Mrs. G. H. Bull of New York, were in the city this morning on their way to Chemong Park, to visit their cottage.

Mrs. Herbert Collier, of Weller street, will not receive during May, but will be at home on the first and third Fridays in June.

Miss Hilda A. Hodgson, professional nurse, who has been visiting her home, since last July, returned to Yonkers, N.Y., this morning.

Mr. J. Adams, of Sault Ste. Marie, is in the city and will visit here for a couple of weeks with his brothers, Messrs. Frank and T. H. Adams.

Dr. McDonell and his bride, of Edmonton, Alta., are at the Presbyterian Manse, Springville, on their wedding trip. Mrs. McDonell is a niece of Rev. Dr. Mareh.

Miss Noble, head milliner, for the J. C. Turnbull Co., is in Toronto to-day, attending the Horse Show and getting the latest ideas in her line for her customers.

The friends of Mr. Robert Carey, postmaster at Drummond's Station, will be pleased to learn that he has recovered sufficiently from his recent illness to be able to return home.

Mrs. Mary Stilwell, who was expected to arrive from Chicago, in time to address a special service at Bethany Tabernacle, to-night, has not arrived. In her absence the usual mid-week service will be held and her coming announced later.

You have read the Sailor Boy a Plea buy to-day for your dinner to morrow, Sailor Boy Canned Goods Tomatoes, Corn, Peas and Salmon Your money does not buy better Goods. Do you get Sailor Boy or substitute ?

LAYING SIDINGS AT DRUMMOND STATION

About 3000 Feet Necessary Before the Digging Will Begin.

The work of laying the sidings at the Lakefield Cement Company's blue clay fields in Otonabee, according to Mr. A. A. Hagerman, who is superintending the construction, is progressing satisfactorily. At present there are six teams and 16 men engaged in the work which will soon be completed. The company has altogether about 3,000 feet of siding to install, 1,100 feet of which will be permanent.

The "Noisy Corners" which have been noted for their tranquility during the past, will soon become noisy in reality from the whistles of the engines.

PRESENTED THE LEADER WITH A BIBLE

An Enjoyable Evening Was Spent Last Night at the Residence of Mr. Carl C. Forsyth.

A delightful evening was spent at the residence of Mr. Carl C. Forsyth, last night, when the members of St. Andrew's choir, of which Mr. Forsyth has been the leader for some time, and from which he recently resigned to accept the leadership of the Cambridge street Methodist choir in Lindsay, gathered to pay their respects to Mr. and Mrs. Forsyth, and to give expression to their appreciation of Mr. Forsyth's services in their behalf, during the time that he has been leader of the choir here.

Their coming was a surprise to Mr. Forsyth, as were the events which followed. The early portion of the evening was spent in playing games, etc., and later the lady members of the choir invited the gathering to adjourn to the dining room, where they had provided and served refreshments. A number of short speeches were made, the members expressing regret at the departure of Mr. Forsyth. He has been popular with the members of the organization of which he has been the head, during his residence in Peterborough and has made many warm friends. Those who spoke last night expressed the hope that he would be equally successful in his work in Lindsay. As a mark of their esteem they presented Mr. Forsyth with a topical Bible, which he accepted in a short speech, in which he declared that he had fully enjoyed the good fellowship which had existed between the members of the choir and himself, and should never forget their kindness to him.

THE LATEST SPORTS

LACROSSE

All doubt as to whether Pat McDonough is going to play here or not have been set at rest by the oh-ver home player's signing of a Peterborough certificate. This means that the Tecumsehs, Beaverton, Newmarket and that ilk, will have to be satisfied without the celebrated Patsy.

* * * *

There will be a meeting of the executive of the Peterborough Lacrosse Club to-morrow night at 8 o'clock, in the National Hotel, when some very important business will be taken up.

The schedule for this district will be drawn up at a meeting to be held at Beaverton on Wednesday of next week.

There will likely be a practice of the team on Saturday.

FOOTBALL

The working boys of the Y.M.C.A. will practice to-night and they request a big turn out.

* * * *

The Quakers held an excellent practice on Central Park last night, when about 20 men were on the green. Before the league games begin the Quakers will journey to Norwood to give the kickers of that burg a game. It is probable that the date of the trip will be May 11th, a week from Saturday. The Quakers will again practice this evening on Central Park.

MANY FLORAL TRIBUTES WERE RECEIVED

From Friends of the Late Frederick G. Cox—The Funeral Took Place This Afternoon.

Referring to the funeral of the late Mr. F. G. Cox, which takes place in Toronto this afternoon the Star last night said:—

Before the removal of the body to its last resting place, a private service will be conducted at 2.30 at the deceased's late residence, No. 47 Queen's Park, by the Rev. Professor F. H. Wallace of Victoria College, and the Rev. C. J. James of the Church of the Redeemer.

Messrs. George H. Goodsham, J. W. Drynan, W. H. Pearson, Jr., C. A. B. Brown, Stephen Haas, T. J. Clarke, George Higginbotham, and Randolph MacDonald, will officiate as pallbearers. The body will be interred at Mount Pleasant Cemetery, and will be placed in the granite mausoleum of the family.

Many floral tributes, together with messages of sympathy, have been received.

WILL GIVE LECTURE ON FOREIGN WORK

Rev. H. J. Keith to Address Y. M. C. A. Members on Work in India.

Rev. H. J. Keith, pastor of Knox Church, has kindly consented to address a meeting of the members of the Y.M.C.A. interested in the foreign work, in the building on Thursday evening next, May 9. Mr. Keith was for two years a Y.M.C.A. secretary in Calcutta, India, the field in which the Peterborough Y.M.C.A. and those of Ontario and Quebec are particularly interested.

FOUND LETTER FIFTY-FOUR YEARS OLD

Letter Addressed to Late Mr. George Dunsford Was Found on the Street This Week.

The other day the Examiner reported the finding of a cheque twenty-five years old on the street. To-day, however, a letter, written in February, 1869 was found on the street, and, like the cheque, it was the personal property of the late George Dunsford, and had to do with his personal business matters. It was addressed to Mr. Dunsford, "Peterborough, Canada, West."

It will be seen that the letter referred to is forty-eight years old.

Wheat Acreage Reduced By About Fifty Per Cent.

Despatch From Winnipeg Says There Will Be No Seeding for Ten Days and Much Decreased Acreage.

SITUATION IN OTHER PLACES

(J. R. Heintz & Co. Special.)

Winnipeg, Man., May 3. — Turning cloudy and cold again. Had telephone messages from several points to-day, and they say they would not seed for ten days yet. Think our acreage will be cut down 50 per cent.

Bad in France

Chicago, May 3. — Le Petit Journal of Paris, says: "It looks as if France would have no spring wheat this year. Cold weather prevails, and the frost cooled the enthusiasm of those who expected a perfect wheat crop. The yields are turning yellow in some of the departments and considerable anxiety prevails."

American Situation

St. Louis, Mo., May 3. — Reports from winter wheat millers indicate not as active demand again outside of Texas and Oklahoma. Except in Northern Oklahoma that state and Texas have practically lost their crop through green bug ravages; several large producing counties in South Kansas have suffered materially by bugs and drought. Little damage by green bugs is reported elsewhere. Injury by winter killing, late frosts or floods in the more eastern states and deterioration, through lack of moisture in Kansas, is reported, but no serious damage is noted. During the last week of April favourable weather has had a beneficial effect. Most millers report improvement in the condition of the crops. Nearly all unite in the belief that seasonable growing weather will overcome the bad effect of the cold dry spells of April.

Free Methodist Camp Meeting For Peterborough

One of the Old-Fashioned Kind Will be Held in Grove Near This City During Year.

FROM UXBRIDGE DISTRICT

The old-time Methodist camp meetings—the rollicking kind, with plenty of shouting and singing — is pretty nearly a thing of the past. Peterborough citizens, however, will have an opportunity this summer of attending one of these gatherings, which, during recent years, have been becoming increasingly infrequent.

The Uxbridge district of the Free Methodist Church, the Church which practically has a monopoly of the camp meeting idea, at a meeting held recently, decided to hold their meeting this year for that district at Peterborough. A committee was sent to this city to arrange the details as to site, etc., and, after looking over the situation, decided to select a grove about half a mile west of Jackson Park, where, for about a week in June, the meetings will be held, and Peterborough people will be given an opportunity of seeing what, to many, is a decided novelty—a genuine Methodist camp meeting.

A large tent will be erected, in which to hold the meetings, while smaller tents will be grouped around the large one, and in these the visitors and delegates will live during the week in which the meetings are held.

It will be a great event, and doubtless will be attended by a very large number of persons. The Uxbridge district extends over a wide area, and the Free Methodists are very strong in it.

The Old Fire Hall To Be Turned Into Offices

Property Committee Decides to go Ahead With the Work---City Officials Will be Accommodated With Quarters There---Other Business.

Improvements that will add considerably to the comfort and convenience of the various city officials, were decided upon at the meeting of the Property Committee of the City Council last night. These improvements include the construction of offices for the different officials on the ground floor of the old fire hall, which will be vacated in two weeks' time, and also the enlarging of the committee room used by the aldermen. All the officials, with the exception of the sanitary inspector, will be given offices in the new quarters, and Mr. Ball will be accommodated with an office on the second floor of the building.

There were present Ald. McIntyre, chairman; Ald. Elliott, Ald. Morgan and the Mayor.

The first business taken up was the discussion of the revised plans submitted by the City Engineer for the city's offices in the old fire hall, which will be vacated in about two weeks. The new plans were approved of by the committee, after having been carefully considered, and the work will be done by day labour, the matter being in the hands of the chairman.

The engineer's revised plans provide an office for the assessors, accommodation for whom was not made in the first plans. The committee felt that this office should be given to the assessors, and at a previous meeting had instructed the engineer to draw up the plans with this change made.

The office for the assessors is next to the tax collector's office, in the front of the building. Behind these offices is a public room for the benefit of the people waiting to see any of the officials. At the city clerk's suggestion, the files of the three daily newspapers will be stored here where they will be available for use by the public.

The city engineer will have a commodious office at the rear of the building, and with him will be the street commissioner. The plumbing inspector will also have an office at the rear and provision has been made for a tool room.

Sanitary Inspector Ball will be provided with an office on the second floor, formerly used as a bedroom by one of the firemen. The Medical Health Officer will use the same office.

It was moved by the Mayor, seconded by Ald. Elliott, that this committee approve of the revised plans for the improvements in the old fire hall as now submitted by the City Engineer and recommend that this committee be authorised to have the improvements made and that the expenses be paid on the certificate of the City Engineer.—Carried.

Ald. Morgan moved, seconded by Ald. Elliott, that the chairman be authorized to make the best arrangements he can for the removal of the old hose tower and stables at the rear of the fire hall.

Carters' Shelter

It was moved by the Mayor, seconded by Ald. Morgan, the lease of the property belonging to the Chamberlen estate, to be used for the purpose of a carters' shelter, be approved, and that the city solicitor be instructed to prepare a bylaw.—Carried.

On motion of the Mayor, seconded by Ald. Elliott, the City Engineer was instructed to have the roof of the market scales building extended four feet at each end.—Carried.

The estimated cost is $62.

The committee next discussed the enlarging of the council committee room, which is not large enough at present to accommodate the council, especially when there are any deputations present. The purpose will be accomplished by the cutting out of the partition between the committee room and the wash room at the rear.

Ald. Morgan moved, seconded by the Mayor that this committee be authorized to have the committee room enlarged and that the expenses be paid on the certificate of the City Engineer.—Carried.

THE WHOLE THING, IN A NUT SHELL

TAX BILLS OF 54 YEARS AGO FOUND

House cleaning time usually results in the discovery of some old and half-forgotten papers. The two references in the Examiner to old papers found in the city during the last few days have resulted in others being brought into this office. This morning Mr. Robert Robertson produced two tax-bills of the municipality, dated 1853 and 1854. The taxes amounted to six shillings and one pence in 1853, and six shillings six and a half-pence in the following year. The receipts for their payment were signed by William Cumming, who was at that time the tax collector.

Department Of Canals To Open • New Offices

That it is the intention of the Department of Railways and Canals to proceed immediately with the work of constructing the southern outlet of the canal, is evident from the fact that offices will be opened within the next day or two at Trenton and Campbellford. The divisional engineers for their respective divisions will have their headquarters at these two places and plans and specifications will be rushed forward within the next month or six weeks, so that tenders will be immediately called for. The names of the divisional engineers have not been given out yet, although it is understood that the appointments have been made.

LIBERAL CANDIDATE IS CONFIDENT

Mr. A. A. Mulholland Looked Upon as the Winner in East Northumberland In Election.

Major Alexander A. Mulholland, of Campbellford, Liberal candidate for the House of Commons for East Northumberland was in the city today. Mr. Mulholland is manager of the Campbellford Paper and Electric Company. He is also the popular Commanding Officer of the 14th Field Artillery. Major Mulholland's friends speak enthusiastically of his prospects to redeem East Northumberland in the forthcoming bye-election.

GRADUATE NURSE GOING TO RED DEER

Miss Berry Accepts Position of Assistant Superintendent in Hospital in That Town.

Miss M. E. Berry a graduate of the Nicholls Hospital and who has become very popular as a professional nurse here has accepted a position at Red Deer, Saskatchewan, as assistant Superintendent of the Hospital there. The position is a very responsible one and it is certain that the authorities at that Institution have made no mistake in securing Miss Berry's services as she is eminently fitted for the position to which she has been appointed.

Miss Berry's home is in Cavan, from where she leaves early next week to assume her duties.

Her many friends in Peterborough wish her every success.

C. P. R. EXPRESS FROM MONTREAL IN 2 SECTIONS

Very Heavy Passenger Service From Eastern Ports.

The C.P.R. trains from the east have been running in two sections yesterday and to-day. The 5.10 from Montreal last evening, and the early morning train to-day, each came in two sections. One arrived at 6.30 p.m. yesterday and the other at 10.30 a.m. to-day. The reason is that there is another contingent of immigrants making their way from the Maritime ports. Two Old Countrymen got off at Peterborough this morning, one continuing on his journey to Manitoba by the G.T.R., while the other is still in the city. The latter was a ticket collector and guncher, evidently a street car conductor in England.

The Davis Vertical Feed Sewing Machine sews the finest silk without puckering as there are no teeth. J. M. Greene Music Co., George Street Sole Agents. 3-d-103

OTONABEE MEN ACCUSED OF ROBBING NESTS

Lady Claims They Stole 200 Hens' Eggs From Underneath the Hens.

If the accusation is true, an extraordinary case of theft has been committed in the township of Otonabee. A lady residing in the vicinity of Zion has accused two men of stealing the eggs from underneath her sitting hens. She has laid complaints against the men, so that the case will probably be aired in the County Police Court in the near future.

The lady in question is a bird fancier and keeps some valuable poultry. She claims that about 200 eggs were stolen, which she valued at $25. This morning warrants were issued for the arrest of the men accused.

THE CANADIAN GENERAL MACHINERY

Local Concern Instals Electrical Equipment in Strathcona and Indian Head —The Progressive West.

Strathcona, Alta., May 3.—As an illustration of the progressive spirit which prevails in western towns, it is only necessary to point to the modern electric light plant and waterworks system recently installed in this place. The contract was filled by the Canadian General Electric Company, and it is conceded on every hand that, in design, the installation is equal to any, and superior to many, of the eastern plants. The equipment comprises two large duplex fire pumps, two deep well pumps and two condensing pumps, made by the Canada Foundry Company, which operate the waterworks system. There are two generators, one of 200 K.W. capacity and one of 70 K.W. capacity, each directly connected to an engine. The generator panels are of blue Vermont marble. The Canadian General Electric Company made a similar installation at Indian Head, and in each case they have proved so satisfactory that it is altogether probable that many other towns will follow the example set by these enterprising corporations.

UNION LABEL

FRIDAY, MAY 3, 1907.

PROPEROUS YET

If brisk trade, represented by increasing volume of customs duties, and this, in turn, representing a strong, popular purchasing power, and this, again, representing active employment at good wages, are signs of good times, then the general prosperity is still booming. The Customs returns for April, the first month of the fiscal year, totalled $4,468,393, as against $3,940,994, an increase of $527,399. Under the new arrangement of the fiscal year, a comparison by periods is difficult, but, if the ten months, ending April 30, 1906, are taken as a basis, it is found that the revenue was $37,987,024. The receipts for the nine months, ended March 30, 1907, were $39,653,898, and when the April receipts are added, the ten months from July 1, 1906, show a total of $44,122,460, giving the substantial increase in the year of $6,135,267. For two or three years we have had financiers, rating high as experts, sounding notes of warning and urging everybody to go cautiously. There still seems to be, however, no lull in the breeze of prosperity that has been blowing over this happy country for the past ten or eleven years. That this period of prosperity will come to a temporary end some time there is something like certainly. But, as has been pointed out previously, dull times will come, it seems probable, more slowly to Canada than to other countries. We are a new country, and large expenditures are necessary in developing transportation and allied facilities. These large expenditures, mounting into formidable figures, and extending over a period of years, will afford abundance of employment and large outlay, thus keeping large sums of money in circulation. Still, on principle, it is wise not to tempt fortune too much. With all our enterprise, we should exercise proper caution. Our exceptional position will not justify reckless enlistment of capital and reckless expenditure, especially in private operations. A day of reckoning—a time to strike a balance—inevitably comes.

THE SCOT IN CANADA

There has been and is an extraordinary rush towards Canada from Scotland. During the past year no fewer than 15,846 of her sons and daughters succumbed to the fascination of the once "wild and woolly" West. The Edinburgh Scotsman chronicles for the past few years the number of Scots removing to Canada:

In 1899	747
In 1900	669
In 1901	1,476
In 1902	2,852
In 1903	7,046
In 1904	10,552
In 1905	11,744
In 1906	15,846

making a grand total of no fewer than 50,933, or an average of over 6,000 for each of the eight years indicated. Already this year, up to within a fortnight or so, the number is said to be somewhere over 8,000.

STOMACH TROUBLES

To wrong action of the stomach and impaired digestion a host of diseases owe their origin.

When the food is imperfectly digested the full benefit is not derived from it by the body, and then stomach troubles start to appear.

Thus you become thin, weak, nervous and debilitated, energy is lacking, brightness, snap and vigor are lost and in their place come dullness, dizziness, loss of appetite, depression and languor. The great point is to get the stomach back into good shape again so it can properly digest the food, and the easiest, quickest and best way to do it is by the use of

BURDOCK BLOOD BITTERS

Miss Lizzie Furlotte, Jacquet River, N.B., writes: "I was very much troubled with my stomach and did not know what to do. I consulted several doctors, got medicine from them, but all to no purpose, and was constantly growing worse. One day I had the good luck to meet with a friend who had been troubled in the same way as myself. My friend told me of the wonderful cure Burdock Blood Bitters had made with her and advised me to try a bottle. I did so, and what a happy change the first bottle made. I took two more and am completely cured, and I shall ever sing the praises of B.B.B."

Price $1.00 per bottle or 6 bottles for $5.00.

YOUR CHANCE.

Building Lots on Park, Dublin and Gilchrist Streets. Choice Locality— fairly central. Liberal terms to those wishing to build.

A BEAUTIFUL BOOK

Mr. Vincent Eastwood, manager of the local branch of the Royal Bank of Canada, has left with the Examiner a copy of the thirty-seventh annual report. This report is not, in its form of make-up, an ordinarily printed pamphlet, but a veritable edition de luxe, with lithographed title cover, with illuminated running head line—"The Royal Bank of Canada"—and tail pieces, illustrated with splendidly reproduced photogravures of several of the beautiful officials of the Bank. The brochure is not composed of the usual dry-as-dust statistics. In addition to the usual statements, showing the sound and thrifty financial standing, there are comparative statements of progress, list of shareholders, and agencies, and correspondents. It also contains full statistics dealing with Canada's natural and financial resources, of imports and exports, and a complete copy of the customs tariff. On the first two pages is reproduced a facsimile of the prospectus (1869) of the Merchants' Bank of Halifax, the original name of the Bank, changed to the Royal in 1901. Altogether, the annual report for 1906 is worthy of the Bank, whose local branch occupies so prominent and creditable a place among our city banks.

EDITORIAL NOTES.

McGill, Montreal, has several claims to the title of the banner university. It leads the list of Canadian institutions of learning in respect of private benefactions. It holds the record for disastrous fires, and now President Peterson has just unveiled a genuine banner, presented by Her Majesty Queen Alexandra. This banner, which was worked by Mrs. Watts, widow of the great artist of that name, is emblematic of Canada's greatness, cujus' McGill magna pars est.

The lack of respect for our elders and superiors in station, which marks the present age, does not permit the venerable ministry to escape. In Hamilton a committee was appointed to inquire into, and report upon, the feasibility of establishing a new Presbyterian church centre, in a quarter of the city offering many advantages, and presenting many claims to such an enterprise. In discussing the proposition submitted by a committee to build a $50,000 church, one of the members said the proposition should not be submitted to the Presbytery, till a matured scheme was ready, for the Presbytery, being composed of "antiquated old fossils," would kill it, if it hadn't strength enough to stand alone. This is shocking irreverence, even if it is a true statement of fact.

Studholme, the Labour representative of Hamilton, and Stead, of London, are a great team. Both are ardent advocates of woman suffrage — both demand the franchise for women. There is no very great objection to women voting—if they only would vote, or if they wanted to vote. The franchise wouldn't be of much use to ladies, who would, as a measure of their interest in the franchise, be likely to refuse a ballot, if its colour did not match their complexion or costume. And if she did vote, she would be more likely to put her mark opposite the candidate whose romantic name was Algeron, or Clarence, or Reginald, even if he were a black anarchist, than opposite the name of an Admirable Crichton of a candidate, who bore the prosaic name of John or Thomas. When the ladies of the land, as class, and not a few petticoat faddists, demand the ballot, they will not have to stretch forth their fair hands in vain.

THE MOVEMENT CANADAWARD

It is estimated that an average of 3,000 persons a month pass through Omaha on their way north to Canada. Those people are described as of the best class—farmers of Iowa, Kansas and Nebraska, who are in search of homes in the Dominion. After looking about for the cause of this continued movement Canadaward, the Boston Herald comes to the conclusion that it is found in the fact that in the Western States farming is a business and not a matter of sentiment. When therefore, a farmer who is a good man of business can sell his land at a good profit, and with only a part of the price buy as much land equally fertile, he naturally does so. The fact that his new home is in a foreign country cuts no figure with him, and, being a man of affairs, he goes where the greater profits are. Besides, in Canada, the promise is most attractive. Millions of acres are to be had in Manitoba, Saskatchewan and Alberta at from $5 to $10 an acre. On the other hand, agriculturas land in the prairie states of the republic has about reached its possible limit in price, and in the face of such opportunities as Canada offers it is little wonder that people over there are so willing to throw in their lot with us. The Herald finds comfort in the belief that the American takes his characteristics with him wherever he goes, and that the natural tendency must be to strengthen the ties that bind Canada and the United States. Our contemporary is further consoled by the thought that in exchange for those who leave Uncle Sam's domains, are many more who go there to live. Each year sees hundreds of thousands of people pour into the neighbouring republic from all parts of the world. But in the past few years the people of European countries, especially of Great Britain, like those of the United States have been looking to Canada for homes, while Canadians themselves, who have been wont to regard the great cities to the south of us as offering the best prospect, are now realizing that in their own country are opportunities at least equal those held out by any country the world over. Therein lies the reason why the annual exodus southward which has drained Canada for years, is now steadily diminishing.—Montreal Herald.

LOST AND FOUND

The Young Conservative Club courteously conveys to the Examiner the intimation of the fact that they gave three cheers for the King at their meeting last night. This is good news. It demonstrated that the Examiner has justified its existence. It has roused the dormant loyalty of the Young Conservatives which seemed to have been soundly asleep at the meeting in the Opera House last Friday night. At the latter meeting the managers forgot to give three cheers for the King and naturally the Examiner called attention to the omission in a good natured way. That this little comment touched the raw, is revealed by the fact that the Review criticised our reference with tears in its eyes and held it as monstrous, that even though the great loyal Tory party had publicly neglected the customary tribute of respect to the King which even the "disloyal Grits" punctiliously pay, the fact should not be mentioned. The Young Conservatives, however, profited by the lesson, gave the three cheers and naturally wished to have their belated loyalty widely advertised—made known broadcast to the world, through the Examiner, the best news medium in Eastern Ontario and by the way singularly effective in recovering through its "want ad" columns lost articles of all kinds, from a pair of eyeglasses to lost reputations for loyalty. The Examiner cheerfully prints the intimation of the Young Conservatives and is pleased to note that it has been the means of recovering the reputation for loyalty lost at Friday night's Grand Opera House meeting, while the audience was floundering and struggling in the snare of the Fowler.

DESTROY THE CAUSE

You Cannot Cure Dandruff Without Destroying the Cause of it

Many people wash their scalps on Saturday night or Sunday to try to keep the dandruff down for the week, but on Monday night the scalp has begun to itch, and Tuesday morning will find a good supply of dandruff when the hair is brushed. There is but one real scientific way of curing dandruff, and that is to kill the germ that causes it and falling hair, and, finally, baldness. There is only one preparation that will destroy the germ, and that is Newbro's Herpicide. It is an entirely new discovery, and the only hair preparation that is based on the new scientific principle. In addition, Herpicide is a very refreshing hair dressing for regular toilet use.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. The Market Drug Store. Two sizes—50c and $1.

MOVE TO FOSTER THE EMIGRATION

A Plan is to be Inaugurated in England Soon—New British Weekly, "The British Emigrant."

The Conference of Colonial Premiers in London has stirred up much enthusiasm amongst those interested in emigration. One of the immediate results of this is the projected issue of a new Weekly, high-class, illustrated penny popular journal called "The British Emigrant." The new paper will shortly be published by Messrs. Travel, Limited, 52 Regent street, London, who have extensive connections throughout the British Colonies. The tone and policy of "The British Emigrant" will be patriotic and many distinguished Imperialists will contribute to its columns. Connected with this journal a new British Emigration Association is in progress of formation, having for its objects the fostering of emigration to the British Colonies, the protection of the interests of British emigrants and the drawing closer of the bonds of union between the Colonies and the Mother land. Many well known names are connected with it and a meeting will be held prior to the return of the Colonial Premiers to formally inaugurate the Association.

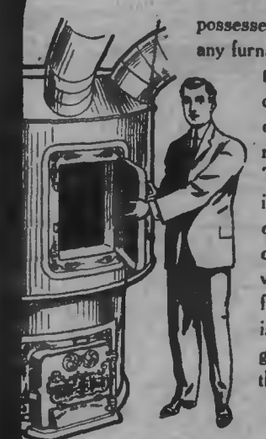
THE RECORD ADMIRAL FURNACE



possesses one of the largest feed doors of any furnace manufactured. The advantages of this are obvious when one considers that, with such a door, it is possible to use large, rough and unmerchantable wood. The construction of the "Admiral" is such as to permit of either wood or coal being used. The only change necessary when using wood is the insertion of a perforated metal wood-grate, which is easily placed inside on the grates, or removed, according to the fuel used. 103

THE MACCABEES OPEN MEETING TO-NIGHT

Important Addresses to be Delivered—Open to the Public.

An open meeting of the Knights of the Maccabees will be held in Court Langton Foresters' Hall, George street, to-night which will be honoured by two important personages. These are Messrs. Jos. Jenkins, assistant Supreme Commander, Port Huron, Mich.; and E. W. Trossler, Provincial Commander, Camelachie, Ont., who will give addresses. A programme of a musical and literary character will also be given.

After the meeting, which is open to the public, a banquet will be tendered to the visiting Maccabees giving the addresses.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Editor Post Card Column:

Dear Sir,—I hear it whispered around town to-day that Mr. Van-Zandt, who was nearly cremated last night, has a good chance to bring suit against the City for defective alarm boxes. If the City Fathers would pay a little more attention to something that is a benefit to the city, instead of threshing out a measly little sign bylaw, it would suit all interested a great deal more and then the people might say: 'Good boy, for you.'

Yours, etc.,

"One Interested."

STATE OF OHIO, CITY OF TOLEDO, } s. s.

MAKING ADDITIONS TO THE LIBRARY

Charlotte Street Sunday School Now Has One of the Best Libraries In The City.

The Charlotte street Methodist Sunday school has one of the best libraries in the city, and recently a large number of new books have been added to the already splendid assortment of good reading. The librarians are now busy preparing new catalogues including the additions to the library. The books which have been discarded will, in all probability, be given to some struggling Sunday school, not as well able to buy books as the Charlotte street school.

Baby Was Choking With Cold In Chest

PARENTS IN GREAT ANXIETY, BUT QUICK RELIEF AND CURE RESULTED FROM USE OF

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

Mr. W. F. Smith, 364 Nepean street Ottawa, Ont., writes: "My sister's little baby, Albert McDermott, four months of age, was so bad with a cold on the chest that we were afraid he would choke to death. Dr. Chase's Syrup of Linseed and Turpentine was obtained, and I am happy to say that it brought relief almost at once.

"The baby was completely cured by the use of three bottles, and my sister and her husband are very grateful for this cure. We shall all recommend this great medicine."

Under few circumstances does a mother feel herself so anxious and so helpless as when the child in whom her hopes are centred is seized with croup or bronchitis and struggles in vain to get its breath. It is then she asks, "What is the most effective treatment I can buy?" and probably remembers what her friends have told her about keeping Dr. Chase's Syrup of Linseed and Turpentine in the house for use in just such emergencies.

Any cough mixture the dealer may offer is not good enough in the face of serious illness. You insist on having Dr. Chase's Syrup of Linseed and Turpentine, because it has been proven by the test of time to be the most certain cure for croup, bronchitis and severe chest colds.

Children like to take Dr. Chase's Syrup of Linseed and Turpentine, and being composed of simple vegetable ingredients, it is well suited for their use. 25 cents a bottle, family size, 60 cents. At all dealers, or Edmanson, Bates & Co., Toronto. To protect you against imitations, the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every bottle.—6.

FAREWELL BANQUET TO A PRINTER

Mr. Garnet McBrien, Who Leaves for Brandon Next Week, Honoured By Friends.

A farewell banquet was tendered last night at the National Hotel to Mr. Garnet McBrien, who leaves Ontario next Monday morning for Brandon, Man., where he has secured a position. Mr. McBrien has been employed at the Examiner for the past year, or more as a printer, and his work in the West will be of a similar nature. The banquet guests included a number of Mr. McBrien's friends, and at the close he was presented with an address by them.

After the supper a number of toasts were proposed, with Mr. Jas. R. Bell acting as toast-master. The most important was that to the departing guest, which was proposed by Mr. B. Doucett and responded to by Mr. McBrien. The address was also read by Mr. Doucett.

Messrs. Jas. Browne and Harry Burridge sang a number of solos, and recitations were given by Messrs. M. Drysdale and N. Lee.

Mr. McBrien leaves to-morrow morning for his home in Clinton, and on Monday will leave for Brandon.

THE G.T.R. SECTION MEN GET RAISE

Came Into Effect on the First of May—Pleasing to the Trackmen.

The Grand Trunk has given their sectionmen a raise in wages, which took effect on the first of May. The wages of the foremen have been increased $5 per month, so that they are now receiving $55 per month. The other men have received a raise of 10 cents per day, which now allows them $1.30 for each day's work.

This change in the schedule of the trackmen's wages came into effect on Wednesday last, and is universal throughout Canada. This change means that several thousand dollars will be paid to these men over that which they received last year.

A NEW SCHEME TO GET RID OF THE DOGS

Ladies in the West End Will Use Stones Instead of Poison and Give the Dogs a Chance for Their Lives.

The stray dogs in the west end of the city are to be given a very short lease of life. Some of the ladies whose lawns and flower beds have been destroyed have decided that, while they will not resort to poison to rid themselves of these destructive animals, they will have to go just the same, and stones will now be used. As soon as they see one of these tabooed dogs in their premises they run for the stone basket and the first thing the intruder knows he gets a crack on the side of the head with a rock—if the aim has been good—and the chances are that a few such receptions will be sufficient. At any rate the situation has become desperate and desperate measures must be adopted.

HAVE RETURNED TO PETERBOROUGH

Mr. and Mrs. R. B. Rogers Again Take up Residence Here—Are Back From Campbellford.

Mr. and Mrs. R. B. Rogers, who some months ago moved to Campbellford, where Mr. Rogers took the management of the Northumberland Paper Company, have returned to Peterborough, and have again taken up residence in the house, corner of Hunter and Ely streets, formerly Mr. Rogers' home. He was far from satisfactory in Campbellford, and he decided to return to this city to live.

MR. J. M. GREENE IS BANDMASTER AGAIN

Salvation Army Band Re-Commissioned and Ready for a Good Season's Work.

An interesting meeting was held in the Salvation Army Barracks last night, when the bandsmen were commissioned and officers appointed. Thirty-six of the men were re-commissioned, two from the Old Country were taken on, and one new recruit enlisted. Adjutant Wiggins states that when the new instruments, that have been ordered, arrive, the full strength will then be 45 officers and men. A nominating committee, who had charge of the appointing of officers, chose the following to look after the band's interests during the coming year:

J. M. Greene, Band Master.

Mr. Wm. J. Outram, Band Secretary.

Mr. F. Gandy, Band League Secretary.

Mr. S. McDonald, Band Sergeant.

Mr. Homer Dafoe—Librarian.

Mr. Ernest Horley—Band Correspondent.

Mr. Mark Spencely, Honourary Member.

As a mark of appreciation of the acts was unable to continue in his office. Business is accountable for his declining to accept the position again, and he felt that he would not be doing his duty if he did not attend to it diligently. However, he will be seen in the ranks as bandsman, where his merit is greatly appreciated.

A meeting will be held by the officers in a week or so, when an outline of the summer's work will be discussed and general business considered.

band for Mr. Mark Spencely's services during the past in assisting the financial department. He was made an honourary member of the band. He is the third oldest soldier in the local corps.

The band of the city has as good a record as any in the country. It was formed 18 years ago and has held together, in spite of many obstacles and hindrances, until to-day it is in a flourishing condition. Mr. J. M. Greene, Band Master, has been in charge for 12 years, and it is chiefly due to his musical ability that the band has achieved so much. When he was given the baton there were 15 bandsmen under Band Master Pennington. Now there are just three times as many men. Mr. Greene has held office during these years, with the exception of a short time, which he spent in the field as an officer.

General regret was expressed by the officers and men last night that Deputy Band Master Walter North-

Mr. Edward Kelsey, of Craighurst, spent a few days in Havelock this week.

Of Interest to Miners and Investors

The North Ontario Reduction & Refining Company, Limited, who are installing a plant for the refining of Cobalt and other ores at Sturgeon Falls, have their buildings, including a laboratory and sampling plant, just about completed and have contracted for all their machinery, which will be installed as rapidly as possible. They expect to be ready to receive ore some time in June.

This is the first refining plant to be erected in the Province of Ontario, which should enable the Company to secure the bounty offered by the Ontario Government, which amounts to $165,000 a year, this will pay 30 thirty per cent. on the entire capital. In addition to the bounty, enormous profits made by refiners will enable the company with its low capitalization to pay very large dividends.

We advise you to investigate this proposition. As a bona fide investment it has no equal. Prospectus and full information will be mailed on application to

"They Will Not Shrink"

"Why Won't They Shrink?"

"Because they are not simply sponged before cutting, but the cloth is thoroughly shrunk."

"That will do to tell: but I guess your clothes will shrink just the same as ready-mades."

"Excuse me: One result of our method of shrinking is to so shorten the bolt of cloth, that less Suits can be cut from it than under the cheaper process. That's the only way you can get a Suit that will keep its shape.'

NO MORE PETITIONS WANTED

For Granolithic Sidewalks This Year—As Much Work as Can Be Done in Hand.

MANY MILES TO BE LAID

People who want granolithic sidewalks built this year, and who did not send in their petitions for the same to the Board of Works before May 1st, will have to wait until next year for them. It will be useless to send in any petitions now, as the Board of Works have as much, if not more, sidewalk work on hand as can be done this year. It was decided that all petitions sent in before May 1st, should be considered and the work done, if possible. As a result there is nine miles of sidewalk to be built in Peterborough this year, if possible, with two gangs of men at work.

With regard to sewers, the Board will finish all work called for by the petitions now in hand, and afterwards will endeavour to construct any others asked for this year.

WANT LEGAL EVIDENCE.

Intent to Deceive Can Be Proven When the Buyer Gets Legal Help.

The Slater Shoe Company recently offered $100 reward for information which would lead to the conviction of any shoe dealer selling other shoes under the name of "Slater Shoe," or "Slater's Shoes," or "Shoes made by Slater."

Many letters were received from various parts of Canada from people who had been deceived, and investigations have been conducted, but in most instances, the buyers who suffered from the unscrupulous dealer did not secure what the judges consider legal evidence. No shoe buyer need be deceived if he looks for the "Sign of the Slate" on the store door and on the shoe. This is the evidence of the true Slater Shoe. R. Neill, agent, Peterborough.

FOR SALE.

That well built brick house and lot situated at the corner of George and Dublin Streets, also excellent corner lot. This property is to be sold to wind up an estate, and all particulars may be had at 580 George Street. dtf.

A SUCCESSFUL YEAR FOR DAIRYMEN

Mr. John Riddel, the Secretary of the Cheese Board, Predicts This—Annual Meeting May 15th.

The secretary of the Peterborough Cheese Board, Mr. John Riddell, is issuing notices calling the annual meeting of the Board for Wednesday, May 15, at 10 o'clock, in the board room of the Bank of Montreal (Ontario Bank branch). At the meeting the election of officers will take place, and the reports of the past year presented. Following the annual meeting the first sale of cheese for the season will be held.

Mr. Riddell is confident that the coming season will be a prosperous one for the dairymen of this district. The prospects are that the price at the opening will be good, and, if the present expectations are realized, it will continue good during the whole season.

MANY PETERBORO CITIZENS

Attended the Funeral of the Late Frederick Geo. Cox in Toronto Yesterday Afternoon.

VERY LARGE GATHERING

Yesterday a large number of Peterborough gentlemen were in Toronto attending the funeral of the late Frederick George Cox, which took place yesterday afternoon from the family residence, 47 Queen's Park, Toronto, and was very largely attended, several hundred of the leading financial and business men of the city paying their last respects while there was also a large number of friends from other places, including, Ottawa, Montreal, Peterborough, New York, Chicago, Philadelphia and Boston. A private service for the family was held at 2.30, conducted by the Rev. C. J. James, of the Church of the Redeemer. At 3 o'clock a public service was held by Rev. Prof. F. H. Wallace of Victoria College, assisted by the Rev. George Jackson, B.A., of the Sherbourne street Methodist church.

The chief mourners were Hon. Senator Cox, father of the deceased; Messrs. Herbert C. Cox, and Edward W. Cox, brothers, and H. Swan, A. L. Davis and A. E. Ames, brothers-in-law. The honorary pall-bearers were Messrs. Stephen Haas, T. J. Clark, J. W. Dryman, George Higginbotham, George H. Gooderham, C. A. B. Brown, William Pearson, jr., and Randolph Macdonald. Among relatives present were Messrs. W. E. Cox, Alfred Cox, Edward Cox, Aaron Comstock, Henry Cox, John Cox, George W. Campbell, annd P. Lane, Hon. Senator Gibson, of Beamsville; Hon. Robert Jaffray, Toronto, Mr. A. E. Kemp, M. P., East Toronto; Mr. Claude Macdonell, M.P., South Toronto; Mr Adam Brown, Hamilton; Sir Henry M. Pellatt, Mr. E. T. Malone, K.C., Mr. W. T. White and hundreds of others were present. The staffs of the Imperial Life Assurance Company, the Central Canada Loan and Savings Company, and the Canada Life Assurance Company, with all of which the deceased was connected, attended in a body.

When the cortege moved off from the family residence it consisted of between ninety and one hundred carriages, about twenty automobiles, and many gentlemen on foot. The remains were laid to rest in the family vault of Hon. Senator Cox in Mount Pleasant cemetery.

Up to the hour of the funeral telegrams and cables of sympathy were being received from a number of personal friends, including many Torontonians who are at present in Europe. Flags were at half mast on a number of the office buildings of the city.

Special Baseball excursion to Toronto for the Eastern League Opening., to-morrow. $2.05 for return tickets. Special train leaving at 12.45 and special returning at 11.30. Tickets good until Monday.

CHILDREN MUST BE SENT TO SCHOOL

Magistrate Dumble Will Make it Warm for Parents Who Neglect This Duty.

Magistrate Dumble hit the nail on the head this morning, when he told two mothers that they had to send their children to school or the state would know the reason why. "We cannot allow the children to grow up in ignorance, to become a burden to the public in later years," he said; "the state has as much a claim upon them as have the parents and the latter must educate them, at least, as required by the law."

Mrs. Jos. McCollum stated that her boy, aged 14, had an attack of the measles, and she was going to send him back to school on Monday. A doctor's certificate showed that he could have gone back two weeks ago. Mr. Dumble said tha the was certainly going to see that the children were sent to school, and would fine the parents. In this case he suspended the sentence and in the meantime the boy's teacher in St. Peter's school will hand in a report of his attendance next week.

Mrs. Holland appeared on the same charge, neglecting to send her boy of eleven years to school. She gave a statement that he was not very well, and a number of other excuses to endeavour to shield him, but Mr. McDonnell, the principal of St. Peter's school, showed that the lad has been absent the greater part of the time since New Year's. Mr. Dumble abhors the idea of young boys loafing around and generally getting into trouble. He strongly denounced parents who knowingly allow it to take place. Mrs. Holland was treated in the same manner as Mrs. McCollum. In his remarks, the Magistrate said that it was generally the fault of the parents who unwisely indulge the child's every whim, and he said that these are the boys that give the teachers the most trouble. One of the women said her boy had been too severely punished and that she was going to take him away from school. Mr. Dumble replied that had she chastised her son a little more, the teacher would not have founnd it necessary to do so.

Mr. Cochrane, truant officer, has his eye on a number of other parents and these cases are intended as a warning to others who are negligent in this respect.

PUBLIC NOTICE

To The People of Peterborough.

All persons in Peterborough must hold themselves responsible for any weakness or suffering caused from old age, chronic coughs or colds, bronchitis, weak lungs, run-down conditions, stomach troubles, nervousness or poor blood when we are willing to sell them the real cod liver preparation, Vinol, and return their money if it does not benefit.

The reason Vinol is so successful in restoring health and creating strength is because it contains in addition to tonic iron all the medicinal elements of cod liver oil actually taken from fresh cods' livers, but without oil or grease to upset the stomach and retard its work.

Unlike old-fashioned cod liver oil and emulsions, it is deliciously palatable, agreeable to the weakest stomach, therefore, unequalled as a strength creator and tonic reconstructor.

Mr. McDermid, of McDermid and Jury, our local druggists, says:—"It is because we know so well of what Vinol is made that we ask every run-down, nervous, debilitated, aged or weak person in Peterborough, and every person suffering from stubborn colds, hanging-on coughs, bronchitis or incipient consumption to try Vinol on our guarantee." McDermid & Jury druggists. Also at The Market Drug-store. (The OOrmond & Walsh old stand.)

QUICK RETURNS FROM AN EXAMINER NOTICE

Mr. Sid. Mitchell Had Enquiries for His Catarrh Remedy Before 6 O'clock Last Night.

Yesterday the Examiner contained an article referring to a discovery of a catarrh cure by Mr. Sid Mitchell. Mr. Mitchell stated to the Examiner to-day that before six o'clock, as a result of the article in this paper he had received an inquiry for some of his medicine, an evidence, he believes, of the fact that if one wants to inform the public of anything, the Examiner is the medium to use.

GARBAGE BY-LAW UNDER WAY

Ald. Elliott's Measure Was Completely Gone Into by the Property Committee —The Service to be Given.

INSPECTOR BALL'S REPORT

Ald. Elliott's garbage bylaw gave the Property Committe food for a long and useful discussion last night and great progress was made in the bylaw. A good deal of the preliminary work in connection with the service to be given and the method of payment was gone through and the first actual labour of getting the by-law into workable shape was done. Sanitary Inspector Ball was present and gave a report of his recent trip to Brantford, which was made for the purpose of studying the bylaw in that place.

Mr. Ball said that he would like to see Peterborough adopt the system used in Brantford. There they had three wagons when he was in the city and the charge to house holders was 15c. a month. Since he had been there the area had been extended so that it took in the whole city and more wagons were to be added. The way of payment was also changed by making it by general tax. Peterborough needed such a system. Brantford in the parts in which the system was used when he was there was very clean and neat. In this respect the city was superior to Toronto.

The committee went thoroughly into the details of the scheme, taking up first the question of what service should be given. It was pointed out that residents in the outlying districts would not require as frequent services as those in the more thickly populated districts. Hotels and stores especially the establishments of fruit dealers, would need a more frequent service and the same would apply to boarding houses and factories as well. The question of what should be charged for the work was also taken up and some figures decided upon, but it would be premature to give any information along this line at this stage of the measure. There is a vast amount of work to be done in connection with the bylaw before it will be submitted to the council, and in the meantime the committee will go on with the work of perfecting the bylaw. They are armed with copies of the Brantford bylaw and the measures in use and in other cities.

The following draft of the service to be given was approved of by the committee:—

Residents in outlying districts—collected every two weeks.

Intermediate residents — collected every week.

Boarding houses in which there are five or more boarders—collected twice a week.

Stores—collected twice a week.

Fruit dealers and hotels—collected three times a week.

Factories—collected three times a week.

Ripe Pineapples 15c. each
Strawberries, 2 boxes for 25c
Oranges, 20c. to 50c. a doz.
Fresh Salmon Trout and White Fish.

DUNCAN UP BEFORE THE JUDGE TO-DAY

Charged With Assaulting Mr. George Cochrance While Discharging His Duties.

This afternoon at 3 o'clock the case against William Duncan, Sherbrooke street, who is charged with assaulting Mr. Geo. Cochrane, while discharging his duties as agent of the Children's Aid Society, came up before Judge Weller, and at the time of going to press it was not completed.

The incident, it will be remembered, which caused the arrest of Duncan a few weeks ago, occurred while Mr. Cochrane was attempting to take a son of the defendant to the Children's Shelter. This the latter refused to allow resulting in the fracas, a report of which has already appeared in the Examiner.

Go to Toronto for Sunday. Special excursion on C. P. R. leaving at 12.45 on Saturday. $2.05 return fare.

OBITUARY

HELENA FITZGERALD

After a short illness of only one week Miss Helena Fitzgerald passed away at St. Joseph's Hospital this morning at nine o'clock. She was a daughter of Mr. Michael Fitzgerald, East City, and was 26 years of age.

Her father and mother and two brothers, John and Herbert, are still living and will mourn the loss of an only daughter and sister.

The funeral will take place on Sunday afternoon from the family residence, Douro street, and proceed to St. Peter's Cathedral and thence to the Roman Catholic Cemetery.

SOLID VESTIBULED TRAIN FOR TORONTO

Cheap Excursion to the Queen City To-morrow--Good Until Monday Night.

A solid vestibuled train will carry teh excursion to Toronto to-morrow afternoon. It will leave the C. P. R. Station at 12.45 sharp, allowing those who have to work until noon an opportunity of taking in the trip. The train will arrive in Toronto in time to see the great ball game between Toronto and Rochester, and the special train will leave on the return trip at 11.30, after the theatres, or those who wish may remain in the city until Monday, tickets being valid on any regular train on Sunday or Monday. The return fare is $2.05. On sale at the C. P. R. ticket office, Examiner office, or at the station.

See the Toronto ball team in action to-morrow. Return fare only $2.05. Special train on C. P. R. leaves at 12.45.

THIS SPRING IS NOT UNUSUALLY LATE

Mr. Alex. Kidd Recalls 1859, Which Was Considerably Later Than This Year.

The belief that this spring is an unusually late one is disigated by Mr. Alex. Kidd, who, to the Examiner today referred to the fact that in the year 1859 he went to Rice Lake on May 16th, to bury his brother who was drowned, and, coming back on May 19th, he noticed that Sugar Island, on which the vegetation is usually early, had not begun to turn green. Any year when the leaves are out by May 16th cannot be called late, and he believes that this year this will be the case, in spite of the fact that we have all been thinking that this was a more than ordinarily late spring.

MANY ATTRACTIONS IN TORONTO SATURDAY

Those Who Take in the Cheap Excursion to That City To-morrow Will Have Chance of Many Places To Go.

Some of the attractions in Toronto which those who take in the cheap trip to that city to-morrow may choose from, are:—Annual Spring Horse Show, the great society event, of the year; Opening Saturday game in the Eastern Baseball League, between Toronto and Rochester; Mr. Hopkinson, at the Princess Theatre—special train returning will not leave until after the theatres at night—; Sergeant Kitty at the Grand; good vaudeville performance at Shea's; and many other events, all well worth seeing. The excursion will leave here on the C.P.R. at 12.45 p.m., and the return fare will be $2.05, tickets good to return until Monday night.

THE BARBER SIGNS WERE REMOVED

The Mayor Helps to Carry One of Them Off the Street Himself.

Although the sign bylaw will not be actively enforced until after it has come before the Council again on Monday night, and perhaps not at all, the barber signs, etc., on the sidewalks have been removed on the order of the Mayor. By the way, the Mayor is so anxious to get the signs off the street that he is helping to take them down himself. A local barber has to thank His Worship for helping to carry in his five-foot sign. In case all the signs have to come down, it might be advisable to give the contract for their removal to the Mayor.

LAYING THE CONCRETE APRONS AT FIRE HALL

The Board of Works has a staff of men at work at the new firehall on Aylmer street, laying the concrete aprons to give easy access to the hall for the fire teams. The concrete work extends out considerably beyond the present sidewalk, and across the ditch into teh level of the street. A tile pipe is being placed under the concrete to allow the water to pass along the side of the walk. When this work is completed the hall will be practically ready for use.

Piles Cured in 6 to 14 Days

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, or money refunded, 50 cents.

Men's Ties at 50c.

The Man who is looking for something in a Smart Neck-Tie at a Moderate Price will be surprised to see what an excellent choice we offer at 50c. Silk of course, and in the various popular colors and designs, the very latest novelities come to us as fast as introduced, and it's never to much trouble to show them.

CHURCH LADIES WERE ENTERTAINED

Mrs. (Rev.) J. G. Lewis Hostess at a Delightful Gathering of Ladies Yesterday Afternoon.

Yesterday afternoon and evening a delightful time was spent at Mark Street Methodist Church parsonage, when the members of the Ladies' Aid and Woman's Missionary Societies were entertained by Mrs. (Rev.) J. G. Lewis. During the afternoon a pleasant social time was enjoyed, refreshments being served at 6 o'clock, and, following it, a programme was given, the following ladies contributing: Miss Spear, Mrs. Spear, Mrs. H. Gibbs, Mrs. Payne, Mrs. Fowler, Mrs. Lewis and Mrs. McCarthy.

TATE OPTICAL CO'Y
G. N. BABCOCK, Eye Specialist
412½ GEORGE STREET, PETERBOROUGH

UNSOLICITED TESTIMONY

The Tate Optical Co., Peterborough:

DEAR SIRS,—During the last three or four years (prior to May last) my eyesight had failed to such an extent that I was unable to read or see anything at close range and could get no Glasses that would help me. I tried two different Opticians in Toronto and was told by both that they could do nothing for me, and that my sight would never be better. A statement of my case was sent to Montreal by a Hastings optician and several pairs of Glasses sent me, but with the same result my vision could not be improved. Last May, while looking at a Pair of Glasses you made for Mr. John Fife, Keene, and talking with him he advised me to consult your Mr. Babcock, and I am pleased to say that the Pair of Glasses he made for me have given me entire satisfaction and I can do now what I have not done for years past—read any ordinary print and see distinctly at close range. I feel very grateful, not only for the interest you have taken in my case, but particularly so for the blessing of good eyesight. Thanks to your knowledge and skill.

Yours truly,

(Signed) **JOHN CARTER, Sr.,**

FREE TRADE A VITAL CONSIDERATION

Mr. Asquith Tells of Obstacles in Way of Preference.

AT COLONIAL CONFERENCE

What It Means to Great Britain—People Are Against Tariff Changes—Colonies Had Built Up Wall Against Mother Country—Home Government Cannot Accept Principle—Help Other Ways.

London, May 3.—(C. A. P.)—Yesterday's precis of the Imperial Conference proceedings is mainly devoted to the speeches of Sir James MacKay of the India Office, and Mr. Asquith, Chancellor of the Exchequer. Bond and Botha are briefly summarized. The remaining speeches will be issued to-day.

Premier Botha said he had no mandate, but expressed the opinion that the 1902 resolution should stand. He did not think any good would result from pressing on the Mother Country any advance on that. Respective Governments should be free to manage their own affairs.

Premier Bond joined Premier Laurier in supporting the resolution of 1902. His Government desired to co-operated in all possible ways in a policy of preference between the United Kingdom and the colonies.

Asquith's Cold Water.

Mr. Asquith said Premier Laurier had pointed out on several occasions that the basis of unity must be that each member of the Empire must look first to what in its own interests would best serve the whole by so doing. The colonies had received full fiscal independence, and had even used it to build up tariff walls against the Mother Country. If the colonies thought this their duty, their action would not evoke remonstrance or even criticism from him. If preferential tariffs from self-governing colonies did not admit British manufacturers to compete on equal terms with local product, doubtless the colonies held this to be vital to their interests. In some way the Home Government held free trade to be vital to the interests of the United Kingdom.

After fullest discussion and examination the people of England declared in favor of free trade by a majority unexampled in size and the Government could not accept any infringement on that policy, even by way of such experiment as Premier Jameson had suggested.

Examining the preferential tariffs of the colonies he found the South African preference very liberal, but it was too early to judge its effect on British trade.

Canada's Tariff.

The Canadian tariff had been beneficial to British trade rather by the way of stopping a decrease than by an actual increase in proportion to the total trade. Canadian manufacturers, however, remained protected.

On dutiable goods the average ad valorem rate was about 25 per cent. for both the United Kingdom and the United States. Taking the average on all goods dutiable, the free ad valorem rate was, on United Kingdom goods, 19 per cent., and on United States goods 13 per cent.

Cannot Accept It.

It was a question of principle. There was no possibility of such a compromise as had been suggested by previous speakers.

Mr. Asquith proceeded to consider then what preference must be given, if at all, but the Home Government, speaking for the people, could not accept the principle of preferential trade by way of a tariff preference.

Extreme Purism.

London, May 3.—(C. A. P.)—The Times turns with a feeling of depression from the speeches of the Premiers to the reply of Asquith, and takes the line that as preference has never been clearly denied or affirmed by the electorate, the chancellor's attitude is one of extreme fiscal purism, if not prudery. It must be a disappointing future, this failure to make any advance towards the imperial states on a practical question, it says.

Elevator Collapses.

Yorkton, Sask., May 3.—The Canadian Elevator Co.'s elevator at this point collapsed and as a result 20,000 bushels of grain are spread over the C. P. R. tracks. There was 30,000 bushels in the building when the accident occurred. The whole north wall, from the roof down, fell outwards. This elevator has been filled to the roof all winter, owing to the Yorkton grain blockade, and the continuous strain was too much for it.

Amherst Foundry Destroyed.

St. John, N. B., May 3.—Fire yesterday morning totally destroyed the main building of the Amherst Foundry Co. Workmen were engaged in the lower storey at the time the fire broke out. The building is a complete ruin, and the loss will amount to $50,000, covered by insurance.

The cause of the fire was a defective smokestack. The owners say they will rebuild immediately.

Child Badly Burned.

London, Ont., May 3.—Little Katharine Handley, the four-year-old daughter of Mr. and Mrs. George W. Handley of the first concession of Westminster, east of the London and Port Stanley Railway tracks, was so badly burned while playing around a bonfire at her home yesterday afternoon that it is feared she may not recover.

Repatriation of Italy.

Rome, May 3.—The Government yesterday presented a bill to Parliament, providing for stricter emigration regulations. Messina is added to Genoa, Naples and Palermo as ports from which emigrants may leave Italy. The repatriation of emigrants returning from America will only be allowed on steamers authorized by the Italian Government. Steamers violating this rule will, on arrival in Italian waters, be fined $20 for each returning emigrant over the first twenty.

Hidden Skin Troubles

Free Box

Send this coupon and 1c stamp to Zam-Buk Co., Toronto, with name of this paper, and free trial box will be mailed you. 5 Z 1

Have you on some part of your body a sore, or eruption, or ulcer, or eczemous patch which, hidden from the gaze of others, yet causes you hours and hours of pain and inconvenience? Have you tried this, and that, and the other remedy in vain, and are you feeling disheartened and discouraged? If so read the following instances of Zam-Buk's healing power, and apply it to your case:

"I had an ulcerated leg for several years. The ulcers spread all round the limb, which was swollen to nearly twice its normal size. Several doctors treated me. One suggested amputation. None did me any good. Zam-Buk healed the sores!" So says Mrs. Gilmour, of Princess St., Kingston. Or, read this:—

"My mother tried many things for abscesses and eruptions, but in vain. In Zam-Buk she found a complete cure." So says Miss A. Coggill, of Wapella (Sask.).

Sufferers from these "Hidden Skin Troubles" of any nature should profit by such experiences as this. Zam-Buk is seen at its best when applied to cases which have defied ordinary treatment. Write for trial box, and test it at our expense

ZAM-BUK

THE GREAT SKIN-CURE.

ZAM-BUK AND A MIRACLE OF HEALING

Over and over again Zam-Buk has performed a miracle of healing when applied to sores and skin injuries which have refused to heal under any other form of treatment. Why not let it heal your trouble? Immediately Zam-Buk is applied to a sore or wound or diseased portion of flesh it commences its work in two directions. It anoints the exterior, and its antiseptic properties prevent any germs and bacilli from creating trouble. Then the herbal essences and juices so finely purified and concentrated, penetrate the subjacent layers and stimulate the weakened or diseased cells to active, healthy operation. These cells then put forth their "Building" products and replace the diseased outer layer with fresh and healthy tissue. By degrees the whole diseased surface is thus replaced by new healthy skin.

In this way Zam-Buk cures cuts, burns, bruises, ulcers, abscesses, itch, eczema, eruptions, pustules, scurvy, salt rheum, blood poison, and other forms of skin trouble. Zam-Buk also cures piles, varicose ulcers, etc. All druggists and stores sell at 50c per box, or from Zam-Buk Co., Toronto, for price. 6 boxes $2.50.

AUBURN MAN IN TOILS.

Wanted in the United States for Arson and Perjury.

Niagara Falls, Ont., May 3.—It turns out the arrest made Wednesday evening by Chief Mains and Officer McNamara of the Ontario Police, at the Clifton House, is an important one, as the man who registered as W. Warner, Toronto, is none other than Herman Bartells, the wealthy Auburn brewer who was convicted about a year ago of setting fire to his own brewery and about ten months ago jumped his bonds of $15,000.

Since his departure the grand jury of Cayuga Court, New York State, found a true bill of perjury against Bartells, and it is on this charge that the authorities from Auburn, N. Y., for the past ten months have had detectives trailing him through Canada. Bartells has successfully evaded the sleuths of Montreal, Kingston, Brockville and Toronto.

The detection was made on the strength of a photograph sent the chief, and within one hour after he had registered at the Clifton Hotel, he was under arrest. Bartells strenuously protested he was not Bartells. The authorities at Auburn were telegraphed and a reply came to hold Bartells, Attorney E. W. Barrett and Under Sheriff Thomas Walker of Cayuga County, arrived here yesterday afternoon and went with Chief Mains to Bartells' cell. He recognized both the visitors and shook hands with them, admitting his identity, but announced he would not return to Auburn, and would fight extradition.

It was only last week his bondsmen compromised with the state for $9,000 in settlement. The prisoner will be taken to Welland County jail to-day, pending extradition proceedings.

NO WORK, NO PAY.

Some Senators Lose Part of Their Salary For Session.

Ottawa, May 3.—A novel point in the payment of sessional indemnity to Senators appointed during a session of Parliament has just been ruled upon by the Minister of Justice. His decision is that the statutory fine of $15 for each day a Senator is absent from the House must be imposed for each day of the session of Parliament, prior to the appointment of the new Senator, whether the Senate was in session or not.

There are five Senators affected by the ruling, four of whom were appointed on Jan. 15 and one on March 12. Parliament met on Nov. 22 and they have been mulcted for every day from that date to the date of their appointment.

Latest News Of Various Sports

Baseball Scores Bulletined At The Examiner Office

In future, the scores of the ball games in the Eastern League will be bulletined at the Examiner office each night shortly after 6 o'clock. Many persons in the city are interested in the baseball situation this year in the Eastern League, and, with the two Canadian teams making such a good beginning in the race, this interest is intensified.

Yesterday Toronto won and Montreal lost, which fact places Toronto more securely at the head of the league.

Those who are interested in the scores may see them posted at this office, or the information will be given by telephone.

ARRANGE PROGRAMME FOR FIELD DAY

Interesting Amateur Athletic Events Will be Run Off at Nicholls Oval on Victoria Day.

The Y.M.C.A. Physical Committee met last night to talk over the sports to be held on the 24th of May. It was decided to run the events in the following order:—

100 yds. dash.
Running high jump.
Hop, step and jump.
440 yds. dash.
Running broad jump.
Putting the shot.
One mile run.

All competitors must be amateurs and must be bona fide residents of the city. There will be 1st, 2nd and 3rd place in each event; 1st place to win 3 points; 2nd, 2 points; 3rd, 1 point, and the man scoring the greatest number of points, wins the trophy.

All entries must be in by the evening of the 22nd of May, and are to be sent to the Y.M.C.A.

The winner has possession of trophy for one year, and anyone winning it three years in succession, may keep it. No fee will be charged for entrance. In case two men are tied for first place, two extra events will be run off, these to be decided on the grounds.

The contest commences at 9.30 in the morning of the 24th.

The trophy for this contest is the beautiful cup presented by Mr. John Howden, George street, and is well worth the winning.

The entrance list is now open at the Y.M.C.A.

The events are to be run off on the Oval, and are open to any amateur in the city.

LOOKS LIKE TORONTO TEAM FOR A PENANT

Kelly's Bunch Made it Two Out of Three From Buffalo—Special Trip to Toronto To-morrow for Game.

The Toronto baseball team looks like a winner this season. Yesterday in the third game with Buffalo, the Toronto team was victorious, winning by 7—6, with Rudolph pitching. This makes it two out of three from Buffalo, and the Toronto fans are satisfied. Rochester defeated Montreal yesterday, and will come on to Toronto for the opening there. It will be a great series of games with the Bronchos, and will be well worth while going to see. In order that Peterborough fans may have an opportunity of seeing this winning team, a special excursion has been arranged for to-morrow, leaving Peterborough by special vestibuled C. P. R. train at 12.45, arriving in Toronto in plenty of time to reach the ball grounds. The return fare is only $2.05, tickets good to return on special leaving Toronto at 11.30, or on any regular train up to Monday night.

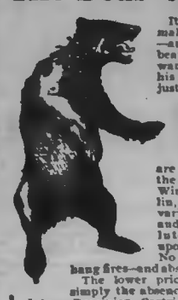
PILL POUNDERS AGAIN PLEASED THEIR GUESTS

About Fifty Couples Present at the Second Post-Lenten At Home.

The second dance of the season under the colours of the Pill Pounders Club was held last evening in the Foresters' Hall, Simcoe street, and proved to be one of the most delightful of the social events of the season. About fifty couples were in attendance, and enjoyed the pleasures of the dance for a few hours.

Splendid piano music was supplied by Mr. A. E. Hartley, whose ability in this regard is well known and whose generosity in giving numerous extras was much appreciated. Refreshments were served at midnight by the Pill Pounders, who received many compliments for the splendid manner in which they conducted the dance.

The Bear Objects!



It takes two to make a bear hunt—and one is the bear. The hunter wants to feel that his Ammunition is just right.

Dominion Cartridges

are made for all the popular Rifles, Winchester, Marlin, Savage, etc., in various Calibres and can be absolutely depended upon at all times. No miss fires or hang fires—and absolute evenness. The lower price is simply the absence of duty. Dominion Cartridges are made in Canada.

This trademark guarantees quality. 2-07

Dominion Cartridge Co. Ltd., Montreal.

LACROSSE

There will be a meeting of the executive of the Peterborough lacrosse club to-night at eight o'clock, at the National Hotel. Business of importance is to come up for discussion.

The seniors will practice to-morrow afternoon at the Riverside Park, which is now in pretty fair shape. As many seniors as possible are asked to be out in war paint.

• • • •

A meeting of the executive of the Peterborough Shamrock Lacrosse Club will be held to-night at 8.30 at the Examiner office. All the members of the executive are asked to be on hand as there is business of importance to be transacted.

• • • •

The Toronto Junction Shamrocks champions of the Intermediate C.L.A., should prove a good drawing card. They will be here for a game on May 24th.

• • • •

The score for the big minstrel show to be given under the auspices of the Peterborough Lacrosse Club has arrived here, and those taking part in the entertainment will be able to begin rehearsals at once. It is likely that the first rehearsal will be held on Monday night if satisfactory arrangements can be made.

BASEBALL

The Peterborough ball club will practice to-morrow afternoon at the Riverside Park. All ball players of the city are asked to turn out.

• • • •

"Yebbie" Flaherty is working out every afternoon and his wing is in good shape. He leaves on Monday for Waterbury.

• • • •

Kelly's Kandy Kut-ups returned home to day from their opening game at Toronto with a record of four wins out of five games played—a pretty good week's campaign away from home. With nineteen games in a row at Diamond Park, the Cnucks should have a cement-like grip on the top rung of the ladder, before they leave old Ontario again. Here's wishing them luck.

FOOTBALL

The Quakers will practise to-morrow afternoon on the Exhibition Grounds, when as many as possible are requested to turn out.

• • • •

The secretary of the Midland League received word to-day that Plainville would not be able to place a team in the field this year.

• • • •

The executive of the Peterborough Quaker Football Club will meet at the Y.M.C.A. this evening after practice on Central Park. Business of importance will be considered.

CRICKET

The Cricket Club will hold a meeting at 8 o'clock this evening at the Y.M.C.A., when matters of importance will be considered. The treasurer requests that the members pay their fees to-night, as the practices cannot begin until the materials are paid for.

ANOTHER TRAIN LOAD OF EMIGRANTS

Old Country Men Moving Westward From the Maritime Provinces.

Another long train load of immigrants from the Mother Land passed through Peterborough this morning and about a dozen left the train here. The immigrants, as a whole, were a better looking class than the average arrivals from across the seas, and those who disembarked at the local C.P.R. station looked fully able to work, and, from their outward appearance, will make good citizens. Like nine out of every ten immigrants that come here, the new arrivals wore the inevitable peak cap, and had the equally inevitable stump of a cigarette dangling from their lips. Most of them are to work for farmers in the district, and seem to feel that they would make a success in this country.

MORE DOGS EXIT BY THE POISON ROUTE

East City is the Latest Spot Selected by The Assassin.

The dog poisoner, after a rest of a few days has broken out again and this time in a new sphere of activity. East City is the latest spot selected by the assassin for his cowardly work and in the last two days six canines have eaten of the fatal strychnine and have departed from this vale of tears. Three dogs were done to death around the corner of Mark and Robinson streets yesterday and a similar number have met a like fate in the same neighbourhood.

UNDERWRITERS OF LIFE ASSURANCE TO MEET

An Important Gathering To-night—Closing With a Banquet.

To-night an important gathering of the local life assurance underwriters will be held in the Central Canada Insurance offices. Addresses will be given by a number of outside gentlemen, after which a banquet will be tendered to the visitors at McCallum's Restaurant.

MEN HELD PRISONERS.

Marooned for Ten Days in Lonely Spot on Lake Superior.

Sault Ste. Marie, Mich., May 3.—C. B. Robinson and fifteen men were marooned on a lonely spot in Lake Superior, off Point au Frene, where the Pittsburg Steamship Co. is putting up a coal dock. When the ice broke up the men were unable to get ashore, and for ten days they were prisoners and had to live on salt pork and potatoes. At times the men became tired of their imprisonment and attempted to reach shore over the drifting ice, but they were compelled to return, and one of them was rescued in an unconscious condition. The men were taken off by the steamer Waldo, which stopped for coal.

SPIRITUALIST WINS.

Archdeacon Wins Suit Against Maskelyne, the Conjurer.

London, May 3.—The suit of Archdeacon Colley against Maskelyne, the well-known conjurer, for libel in denying his right to the title of Archdeacon came to an end yesterday with a verdict of $375 damages for the Archdeacon.

Maskelyne had a counter-suit, in which he claimed $5,000 from Colley for fulfilling the conditions of a challenge issued by Colley to him to reproduce by the conjurer's art certain spiritualistic phenomena the genuineness of which Colley believed in and Maskelyne denied.

This suit was dismissed.

Escaped In Nightclothes.

Durham, N.C., May 3.—Fire last night destroyed the Hotel Carrolina, a four-storey frame structure, located in the centre of the city, entailing a loss of $175,000, fully covered by insurance. There were 50 or 75 guests, all of whom escaped without injury. Some of them escaped in their night clothes, losing all of their possessions.

A WOMAN'S BACK WAS NOT MADE TO ACHE

Thousands of Women suffer Untold Misery Every Day with Aching Backs That Really have no Business to Ache.

Under ordinary conditions it ought to be strong and ready to bear the burdens of life. It is hard to do housework with an aching back. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order.

Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from Kidney trouble.

Doan's Kidney Pills

will cure you in the same way as they have cured thousands of others.

Mrs. Thos. Craig, Almonte, Ont., writes: "I was doctoring for six months for kidney trouble and my back was so lame I had to lie in bed. I was advised to try Doan's Kidney Pills. I did so and in one week I was able to walk with very little pain, and in five months my back was as strong as ever.

Doan's Kidney Pills are 50 cents per box or 3 boxes for $1.25 at all dealers, or will be mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

Prize for Ladies

An interesting programme has been prepared for the roller skating rink to-night, when a fancy skating contest open to ladies who have not won a prize this season, will be held. The prize will be a $5.00 gold piece.

Board of Works

The Board of Works Committee will hold a meeting to-night at which a considerable amount of routine business is to come up. There will be a number of petitions for sidewalks to be considered, the last for this year.

Ladies! Your Welcome

To come and learn all about "Pure Gold" jellies, puddings, etc., at Mr. Andrew Graham's grocery, corner Aylmer and McDonel streets. Mrs. Cooper will demonstrate and prepare delicious dishes specially for your benefit, free. 3d103-3280

An Overhanging Sign

A Water street real estate firm is having new signs painted on the windows, and a wag suggests that if much more paint is put on it will come under the class of overhanging signs, and will be ordered down.

The Demon Horse and Poor Jones

The Demon Horse is still running, and Jones is having a heap of trouble with his clerks, at Scott's Coliseum, 432 George street. We will show in moving picture entertainment how this all happened. Afternoon 2 to 5; evening 7 to 10. Admission, 5c. Entire change of programme on Monday.

Lecturer Entertained

Prof. Chant, who will give the lecture in the Y.M.C.A. hall to-night, the second of the series on "The Sun," under the auspices of the Royal Astronomical Society, arrived at noon to-day, and this afternoon is being shown around the city, by the executive officers of the society.

Dogs in Newcastle

Our village assessor, Thos. Douglas, made all the returns of his completed assessment roll on Tuesday, with the name of every blessed (?) dog owner in the village duly recorded therein, with his assessed bill of damages for blessings(?) conferred upon him by those among whom he should thank the Lord (?) for casting his lot.—Newcastle Independent.

Personal Mention.

Mr. A. B. Colville, barrister, of Campbellford, is in the city.

Mr. Jno. Eastwood of Buckhorn is registered at the Snowden House.

Mr. A. A. Molholland, Campbellford, is registered at the Oriental.

Mrs. H. Hicks, Sr., has removed from Aylmer street to 201 Murray street, with her nephew, Mr. R. Harvey.

Mr. and Mrs. H. Copeland of New York are visiting friends in the city, and before returning home will visit Stony Lake.

Messrs. Henry Cox, John Cox, R. J. Soden, Geo. Campbell, and P. Main, attended the funeral of the late Mr. Fred Cox, in Toronto, yesterday.

Mr. Walter Stocker, who has been laid up for about two weeks with tonsilitis, is, his many friends will be glad to learn, improving, and will it is expected be able to be out in a few days.

The announcement of the engagement of Miss Maud Grandy, eldest daughter of Mr. Samuel Grandy, of Omemee, to Dr. J. W. Cook, of Sturgeon Falls, is made, the wedding to take place in June.

Rev. E. A. Langfeldt came up on Tuesday to attend Mrs. Stanley Smith's funeral. Mr. Langfeldt is still feeling the effects of the illness from which he lately suffered, and was looking thin and worn. He was confined to bed for rather more than three weeks.—Orillia Packet.

A very enjoyable entertainment was held on Wednesday evening at the home of Master Willie King, London street, who celebrated his 13th birthday. A large number of his friends were present. He was assisted by his sister, Miss Margaret King, who performed her part as hostess perfectly. After various games a dainty luncheon was served and at about ten o'clock the party broke up, wishing Master King every happiness.—Com.

Dressmakers, attention! Have you tried the Davis Vertical Feed Sewing Machine? It is the dressmakers' delight. J. M. Greene Music Co., George Street, Sole Agents. 3-d-103

QUARTERLY SERVICES IN THE METHODIST CHURCHES

The Last for This Conference Year Will be Held on Sunday in Methodist Churches in the City.

In the three Methodist Churches on Sunday, quarterly meeting services will be held. This will be the last quarterly Sunday in the present conference year, and in the case of two of the pastors it will be the last time that they will administer the Sacrament to their congregations in Peterborough, the terms of Rev. Dr. Crothers and Rev. J. G. Lewis expiring with this conference, which meets in Bowmanville in about a month.

"PROTECTOR" HAS A SUGGESTION

Dogs Without Tags Should be Shot—Others Should Not be Allowed to Run at Large.

HIS PROPOSITION GIVEN

Editor Examiner.

Dear Sir,—The dog, the faithful friend of man, is meeting with much wordy abuse at present. The extremists advocate the abolition of the pet canine, claiming that the destructive propensities of all classes of dogs warrant their extinction, so far as this city is concerned.

No reasonable person owner of a dog, will deny that this pet is capable of being a nuisance to the city. It is the nature of the animal to bury a bone, for instance, and a newly-made flower bed offers an excellent opportunity for exercising his trait. But the owner of the dog fondly hopes that this pet will not so display his nature, as he is a superior animal.

Every day we hear of dog degredations in various parts of the city, and it is no wonder that, at last, citizens are stealthily ridding themselves of the dog menace. But such work must be distasteful and certainly is far from commendable. There surely is a remedy for the curse, as it exists in Peterborough?

In many cities in the United States no dogs are allowed to run at large on pain of death. If a dog is loved he must be cared for. The mongrel homeless is officially invited to depart this weary world. In this, Peterborough could find worthy example, and I would propose the following regulations re dogs:

1—A tax as at present, with tag to indicate that the dog has a lawful right to existance.

2—The tag to be constantly attached to the dog's collar.

3—No dog to run at large from April 15 to October 15, but, when appearing in public, to be "in leash."

4—A lethal chamber to be provided, and the police instructed to take care of the roving canine.

Penalties

1—A dog without a tag, to meet death.

2—Dog with tag, found roving,
(a) First offence—Fine of not less than $3.
(b) Second offence—The dog to die.

Trusting that these suggestions may stimulate our city fathers to enact legislation that will be sufficiently stringent to protect our fair city from the dog curse and it's result, the dog-poisoner, with his cruel method, I am,

Yours truly,
PROTECTOR.

IRISHMEN'S NIGHT WAS A SUCCESS

Most Enjoyable of Long Series of Smokers Given by Young Conservative Club.

The entertainment given in the Young Conservatives' Club room last night, in keeping with the occasion, namely, "Irishmen's Night," was one of the best that has been put on this season. Mr. R. E. Layfield, who acted as chairman, and who was chiefly instrumental in preparing the programme, should feel gratified that he met with such success. As an introduction he expressed his pleasure at seeing such a large attendance. He welcomed all to the rooms and expressed the hope that they would enjoy themselves. At the conclusion Mr. Layfield thanked all who had assisted in the past, and referred to the goodwill that local talent had always shown in assisting the club in their efforts to provide good entertainments. The affair of last night was one of the best that the club has ever provided, and in many respects was the most enjoyable of the present season. The programme was as follows:

Instrumental, Mr. J. E. Dickenson.
Vocal trio, Messrs. Greenslade, Chambers and H. B. Paddock,
Song, Mr. Fred Freeland.
Recitation, Mr. Geo. Lynch.
Song, Mr. Frank Pratt,
Instrumental, Messrs. H. Nicoll, piano; and Mr. Geo. Howarth, violin.
Song, Mr. J. W. Chambers.
Recitation, Mr. Geo. Lynch.
Piano solo, Mr. H. Nicholl.
Recitation, Mr. D. Moore.
Song, Mr. R. H. Shepherd.

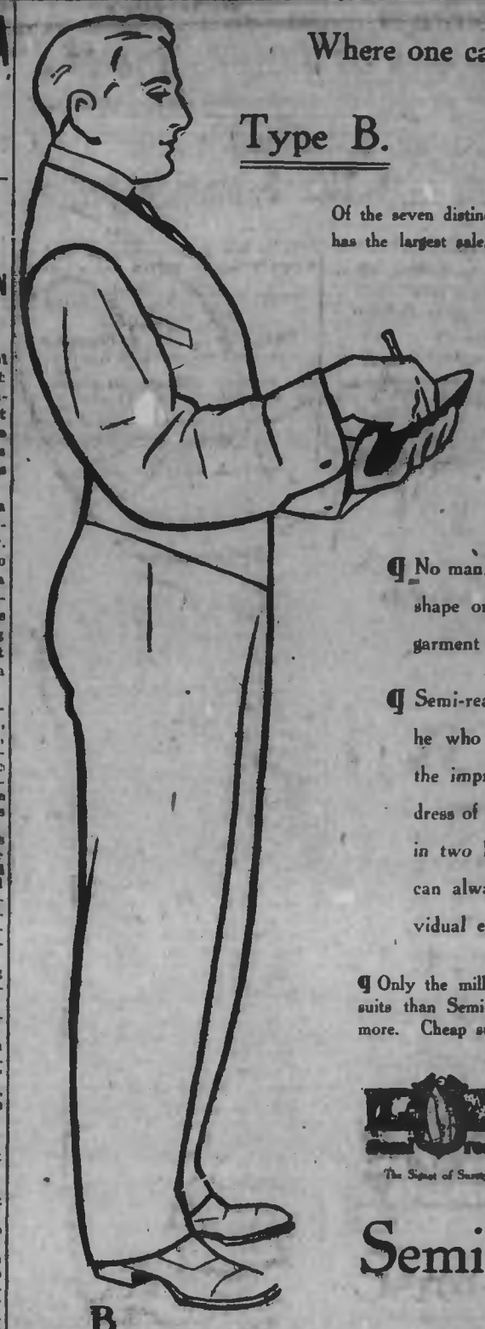
Mr. Layfield gave a short address, referring to two men who have lately passed away, viz., Hon. J. W. St. John and Dr. W. H. Drummond, two Irishmen who distinguished themselves in their respective paths of life.

The concert was brought to a pleasant close by a very hearty rendition of the National Anthem and the Maple Leaf Forever, followed by three rousing cheers for the King.

THIRTY-SIX MEMBERS IN THE RECRUIT CLASS

Began Their Lessons Last Night Under Sergt.-Major Brittain.

The recruits' class in connection with the 57th Regiment, began last night at the armouries. The class this year consists of about 36 members under the supervision of Sergt. Major Brittain. It will meet every Tuesday night for the next six weeks.



Where one can get the Real Semi-ready

Type B.

Of the seven distinct types of Semi-ready Tailoring Type B has the largest sale, for it is the type of the Average Man.

Type B is subdivided into five variations:

Normal.
High Shouldered.
Over Erect.
Round Shouldered.
Sloping Shouldered.

¶ No man, matters it not what be his height, girth, shape or figure, but may get a perfectly fitting garment from out the Semi-ready wardrobes.

¶ Semi-ready Tailoring appeals to every man but he who is vexed with improvements. It is the improved and modern method of selecting dress of the correct address. Finished-to-measure in two hours, the wearer of Semi-ready clothing can always forejudge its suitability to his individual expression.

¶ Only the millionaire can afford to waste money buying cheaper suits than Semi-ready, and there is no gain to the man who pays more. Cheap suits are too expensive for any but the rich.

The Signet of Service.

Semi-ready Business Suits, Sacks and Morning Coat styles, in fine English worsteds and tweeds, at $18 and $20.

Semi-ready Frock Suits, of fine Cheviot and Vienna cloths, silk-faced and all silk-lined, at $25, $30 and $35.

Semi-ready Tailoring

Where to get it:

A. W. CRESSMAN, Agent,
349 George Street, Peterborough.

COUNCIL TO BLAME AND NOT THEIR SERVANT

So States Market Clerk in Reference to The Hog Pens.

The market clerk claims that undue criticism has been placed upon the person in charge of the cleaning of the hog pens on the market, by certain members of the city council. He states that the pens are washed and thoroughly cleaned out two and three times a week, so that the stench complained of by the aldermen does not come from them but from the approaches to the scales and the garbage on the market square formed by hay, straw and mud.

Refuse has been allowed to gather on the approaches to the big scales for many months, and it is there in particular that the stench comes from. This is something for the aldermen themselves to look after, the clerk states, instead of blaming their servant for not cleaning the hog pens.

For Tailoring, Dressmaking, Corset making, Blind making and all heavy or light work, no Sewing Machine can compete with the Davis Vertical Feed. 3-d-103

Roller Rink

Ladie's Contest at the Roller Rink
Friday of this week

The prize to be given to the best lady skater at the Roller Rink, Friday Night, will be a $5.00 Gold Piece. The contest will be open to all ladies who have not won a prize this season. The rink will be open every morning, afternoon and evening.

The rink is absolutely free from dust.

Prosperous Season For The Chemong Park Hotel

Many Tourists Will Spend The Summer or Part of it Under This Hospitable Roof.

A DELIGHTFUL SPOT IT IS

Some of The Many Charms Attached to a Visit to This Exquisite Summer Resort.

"Don"t be led around by the nose any longer. Take a rise in the world. Come up into the cool, and see how it feels to be near the pure blue clouds, and away above the flats and hollows."

This is the invitation extended to those who are looking for a place to spend a vacation, and get close to nature. In these words Mr. George Brown, who will again be the host of the Chemong Park Hotel invites the work-weary individual to try what a sojourn at his healthful resort will do.

A new booklet has just been issued by Mr. Brown, and, after reading the description of the pleasures to be enjoyed at Chemong contained in it, one almost feels like packing one's trunk right away and inquiring what time the next auto 'bus leaves for the park. There is no suggestion, however, that the delights of that resort have been exaggerated — they have simply been dressed up in language which gives the reader the impression that the writer has been able to take in all the beauties of nature.

Mr. Brown is confident that the coming season will be a most successful one for those catering to the tourist trade. Already he has received a large number of inquiries from those wanting accommodation for the summer or some part of it.

The handsome new booklet just issued by Mr. Brown gives some valuable information concerning Chemong Park, how to reach it, and its relation to the other summer resorts in the vicinity. It is a most creditable publication, typographically and otherwise—typographically because it was printed at the office of the Examiner, and for its subject matter, because it is well written. It says, in introducing the reader to the subject:—

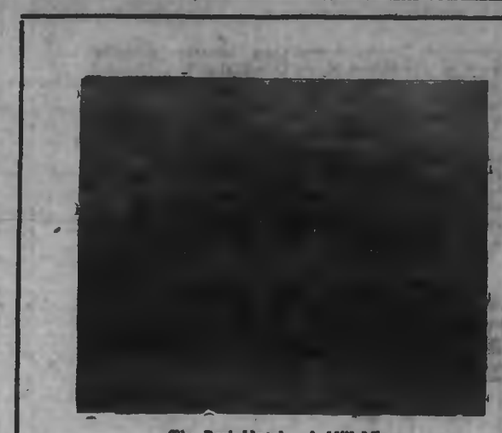
Come and enjoy Nature at our beautiful playground. Learn all about Chemong Park, in the Kawartha region of Canada. Get closer to the green earth, you fellows, and quit stepping on yourselves. Kill dull care for one delightful month, and leave its battered remains at home, locked up in the safe with the lawyer's brief, the merchant's despised yard stick, the grocer's scoop and scales, and the business man's ledger.

Have a change of scenery. See Chemong Park in operation. Examine it with the naked eye. Get right up close—distance don't lend enchantment.

The man who refuses to investigate the claims of Chemong Park Summer Resort, away up in the Highlands of Ontario, Canada, is a direct descendant of the impenitent thief—he robs himself.

Chemong Park stands high up above fresh water sea level, in a broad expanse of bewitching scenery, tanned by pine and balsam-laden breezes, where there is always to be had a delightful invigorating atmosphere, redolent with life-giving ozone; where hay fever is unknown; where new energy is imparted to the tired body or exhausted brain—a safe retreat fom all that could remind the active worker of the world of worry and strife that he has left. Malaria, nervous troubles, lung troubles, hay fever, and the hundred and other ills which make life in the crowded cities almost unbearable in the summer months, cannot exist here.

The Hotel has been renovated throughout this season by Mr. and Mrs. Brown, newly equipped, every



The Park Hotel---A Hill View.

room handsomely decorated, verandahs bountifully supplied with rockers, easy chairs, hammocks and swings, and everything that will contribute to the comfort and pleasure of guests.

The booklet makes special reference, as is to be expected, to the Chemong Park Hotel, illustrations of which are given, as well as illustrations of some of the pretty nature spots around the lakes. Referring to the hotel it says:—

Is a commodious modern brick structure situated about one hundred yards from the lake, on rising ground. The Park is laid out in avenues, and is the popular resort for many miles around. There are many beautiful woodland walks. A special feature is the cuisine. It caters to the wants of a fastidious class. The rooms are large and airy, and well furnished, while the table is always supplied with every luxury of the season.

From the neighbouring home farms a bountiful stock of garden, dairy and other products is regularly supplied, and guests are assured of having these necessaries fresh and good. In the hotel, there is a large Ball Room supplied with piano, where dancing, and other indoor amusements may be enjoyed. Reception Room, Parlour, Smoking Room, etc., are furnished with the aim of making the tout ensemble home-like in effect. Telephone in connection.

Attractions

In the park there is a large Pavilion, where those who care to do so may indulge in the mazy waltz or trip the "light fantastic."

Many Petitions For New Granolythic Walks Are In

A Busy Session of The Board of Works Last Night---Many Matters of Interest Were Taken Up---New Walk to The King Edward School---Other Important Questions Considered.

The Board of Works of the City Council met last night. There were present Mayor R. F. McWilliams and Chairman Ald. Duncan, and Alderman McIntyre.

Mayor McWilliams moved, seconded by Ald. McIntyre,—That the Bell Telephone Company be permitted to erect poles asked for on Babbs Lane at points indicated by the engineer, and on Homewood avenue, if the Bell Company will make arrangements with the power companies satisfactory to the engineer.—Carried.

Ald. Harry Morgan and R. M. Glover, asked the Board of Works for a granolithic walk on Mark street, outside the tree line. The petitioners urged that this walk going outside the trees would add to the street's appearance, and do away with six or eight feet of surplus surface, which residents have now to hoe and clean up annually in order to give a presentable appearance. Ald. Morgan contended that were the walk constructed as petitioned for a clear 34 feet of solid roadway would be guaranteed. All the residents on Mark street have signed for this walk to go outside the trees.

As two members of the Board were absent it was thought advisable to leave this matter in abeyance.

It appears that there is a considerable jog in this street that would prove a deterent to constructing the walk inside the tree line.

The Board approved of the engineer's recommendation that the stand-pipe on McDonnel street, opposite Mr. James' store be removed to a short distance west of Reid street, adjacent to the culvert. The engineer will be asked to report as to whether this change would be objected to by the street watering contractor, and also to the cost of such change.

The city engineer reported on the condition of the streets as left by the gas company after laying new mains last fall. He contended that these streets can be satisfactorily and readily graded now. This report will be forwarded to the gas company, who will be requested to have the streets graded as quickly as possible.

The engineer also reported as to the streets left by sewer contractors last year. While these streets are in fairly good condition, still some work is necessary to overcome a summer shrinkage, and the contractors will be notified to assure these roadways being in good possible condition.

A petition for a granolithic walk on King street from Reid to Park was left in abeyance pending a satisfactory agreem nt between property owners.

Wainwright's Salary

The Board decided to give Wainwright, the fire hall engineer, an additional $20 a year as the Board of Work's proportion of the man's increase in salary for 1907.

The following petitions were received;

For a sidewalk on Aylmer, from Romaine to King Edward school.—Granted.

Sidewalk on John street, from King to Bolton streets.—Granted.

For a sidewalk on south side of Townsend street, from Stewart to Rubidge streets.—Granted.

For a walk on south side of Sherbrooke street, from Bethune to Rubidge, inside tree line.—Granted subject to approval of side of tree line.

For a sidewalk on east side of College street, from Murray to McDonell street.—Granted.

For a pipe sewer on Sherbrooke street, from Stewart to Rubidge.—Granted subject to being properly signed.

For a sidewalk on Donegall street between London and Dublin streets.—Received pending investigation.

For a walk on Simcoe street, from Water to Peterborough Cereal mills.—Granted subject to being sufficiently signed.

For a walk on south side of King, from Bethune to Park.—Left in abeyance owing to doubt of being properly signed.

For a board walk on west side of Park street, from Westcott to Romaine streets.—The engineer will be instructed to do this work.

The Board of Education asked that proper sidewalk and crossing approaches to the King Edward school be provided, and that Aylmer street, from Romaine to Lake streets, be opened without delay. These propositions have already been arranged for.

For a sewer on London street, from Downie to Park.—This was left in abeyance, pending the publication of statutary notice.

The petition of Thos. Begley, for a walk on south side of Victoria avenue, from Downie street to his lot, was granted, subject to the signature for the vacant lot at the corner being secured.

Sewer connections on Lock street, must be paid or connections will be severed. There are six ratepayers in this locality who have refused to pay their $25 for connection with the outfall sewer as provided for by law.

On motion of the mayor, seconded by Ald. McIntyre, these people must pay up by May 20th, or their sewer connections will be severed.

Ald. McIntyre moved, seconded by the mayor,—That Foreman Thorndyke be instructed to proceed with all sections of pavement under 600 feet, except three adjoining longer sections.—Carried.

Mr. Thorndyke will be instructed to start operations in the center and west wards first.

The chairman was authorized to appoint a man to look after the cement crossings, the work to be proceeded with as soon as possible.

The board then adjourned.

"SEMI-READY" WARDROBE

SPRING NEGLIGEE SHIRTS

Never before in the Shirt trade have there been nicer patterns or weave effects shown in the fabrics made up into the Negligee Shirts than is shown this Season. There was a time, when the Shirt, (even in the summer time,) was a secondary consideration in the Man's Wardrobe, but now his Shirt is on a level with the rest of his apparel; justly so too, especially at this season of the year when he goes without his top clothing.

We are showing the most elegant range of NEGLIGEES that one could desire: Madras, Zephyrs, Oxfords, French Mohairs, and Silkine in all the new colors, and pattern ideas from the fashion centres.

COATS SHIRT are good this season with and without cuffs attached, some also have the double cuffs and soft collars, prices range from **$1.00 to $3.50.**

THREE YEARS TO FORGET

Before The Journeyman Cutter Can Learn the Semi-ready System.

The head-cutter of the Semi-ready tailoring establishment in Montreal says that a really first-class cutter, who has become expert in either custom tailoring or ready-made clothing shops can learn the Semi-ready system in three years. "It takes the greater part of that time for them to forget the obsolete methods which they have learned," he says.

The Semi-ready system is so utterly different from the methods which prevailed for centuries that it is oftener easier to teach an apprentice than it is to correct the erroneous ideas of the man who is "set" in his wrong ideas.

FRENCH TENOR TO BE HEARD HERE

Mr. F. X. Mercier Will Sing Here on May 21st, Mr. J. A. Gendron Arranging For His Visit to The City.

Mr. J. A. Gendron has made arrangements for the appearance in the city, on May 21, in the Grand Opera House, of Mr. F. X. Mercier, the great French tenor, who has already been heard in a couple of Canadian cities, and who has created a sensation wherever he has appeared. Mr. Mercier is a tenor robusto, and possesses a rich, high tenor voice. Peterborough people are to be congratulated upon this opportunity of hearing such an eminent musician.

One of the Greatest Wonders of the Age.

Hundreds Have Been Made Well by Taking Advantage of an Ottawa Physician's Discovery.

Everyone knows how beneficial fruit is, when eaten regularly. Fruit is nature's laxative—the finest kidney regulator—and the ideal skin tonic. Unfortunately, the medicinal principle of fruit occurs only in minute quantities. In order to consume enough fruit to relieve Biliousness, one would also consume a large amount of woody fibre or pulp, which would upset the stomach and impair digestion.

An Ottawa physician discovered a way to get around these difficulties. He pressed the juice from apples, oranges, figs and prunes—and then forced one more atom of the bitter principle from the discarded orange peels, into the concentrated juices. This formed a new compound, having all the curative effects of fresh fruit—and in a highly intensified degree. Then valuable tonics and internal antiseptics were added and the whole pressed into tablets.

These are "Fruit-a-tives" the wonderful Liver Tablets you hear so much about. "Fruit-a-tives" cure the most obstinate cases of non-action of the bowels, biliousness, headaches, sleeplessness, nervousness, kidney trouble, rheumatism, sciatica and neuralgia. They are the greatest blood purifying medicine in the world, while their action on the skin, in clearing and beautifying the complexion, is nothing short of marvelous. Ask your druggist for "Fruit-a-tives" and see that you get them. 50c a box. 6 for $2.50. By mail, postpaid, from Fruit-a-tives Limited, Ottawa. 113

YOU MAY "THROW PHYSIC TO THE DOGS" WITH IMPUNITY IF YOU BREAKFAST ON

SHREDDED WHEAT

It is a natural food, full of nutriment and easily digested. Its delicate, porous shreds are converted into healthy tissue and red blood when the stomach rejects all other food.

The Hound of the Baskervilles

Another Adventure of Sherlock Holmes.

BY A. CONAN DOYLE.

Author of "The Green Flag" and "The Great Boer War"

Copyright (1902) by A. Conan Doyle.

Continued from last week.

[illegible] I think that there are few men who know it better than I do."

"Is it so hard to know?"

"Very hard. You see, for example, this great plain to the north here, with the queer hills breaking out of it. Do you observe anything remarkable about that?"

"It would be a rare place for a gallop."

"You would naturally think so and the thought has cost several their lives before now. You notice those bright green spots scattered thickly over it?"

"Yes, they seem more fertile than the rest."

Stapleton laughed.

"That is the great Grimpen Mire," said he. "A false step yonder means death to man or beast. Only yesterday I saw one of the moor ponies wander into it. He never came out. I saw his head for quite a long time craning out of the bog-hole, but it sucked him down at last. Even in dry seasons it is a danger to cross it, but after these autumn rains it is an awful place. And yet I can find my way to the very heart of it and return alive. By George, there is another of those miserable ponies!"

Something brown was rolling and tossing among the green sedges. Then a long, agonized, writhing neck shot upwards and a dreadful cry echoed over the moor. It turned me cold with horror, but my companion's nerves seemed to be stronger than mine.

"It's gone!" said he. "The mire has him. Two in two days, and many more, perhaps, for they get in the way of going there in the dry weather, and never know the difference until the mire has them in its clutch. It's a bad place, the great Grimpen Mire."

"And you say you can penetrate it?"

"Yes, there are one or two paths which a very active man can take. I have found them out."

"But why should you wish to go into so horrible a place?"

"Well, you see the hills beyond? They are really islands cut off on all sides by the impassable mire, which has crawled round them in the course of years. That is where the rare plants and the butterflies are, if you have the wit to reach them."

"I shall try my luck some day."

He looked at me with a surprised face.

"For God's sake put such an idea out of your mind," said he. "Your blood would be upon my head. I assure you that there would not be the least chance of your coming back alive. It is only by remembering certain complex landmarks that I am able to do it."

"Halloa!" I cried, "What is that?"

A long, low moan, indescribably sad, swept over the moor. It filled the whole air, and yet it was impossible to say whence it came. From a dull murmur it swelled into a deep roar, and then sank back into a melancholy, throbbing murmur once again. Stapleton looked at me with a curious expression in his face.

"Queer place, the moor!" said he.

"But what is it?"

"The peasants say it is the Hound of the Baskervilles calling for its prey. I've heard it once or twice before, but never quite so loud."

I looked round, with a chill of fear in my heart, at the huge swelling plain, mottled with the green patches of rushes. Nothing stirred over the vast expanse save a pair of ravens, which croaked loudly from a tor behind us.

"You are an educated man. You don't believe such nonsense as that?" said I. "What do you think is the cause of so strange a sound?"

"Bogs make queer noises sometimes. It's the mud settling, or the water rising, or something."

"No, no, that was a living voice."

"Well perhaps it was. Did you ever hear a bittern booming?"

"No, I never did."

"It's a very rare bird—practically extinct—in England now, but all things are possible upon the moor. Yes, I should not be surprised to learn that what we have heard is the cry of the last of the bitterns."

"It's the weirdest, strangest thing that ever I heard in my life."

"Yes, it's rather an uncanny place altogether. Look at the hill-side yonder. What do you make of those?"

The whole steep slope was covered with grey circular rings of stone, a score of them, like the ruins of a collection of Druid huts. Each had a hole in the middle of it, and each was surrounded by a low wall of rough stones.

"What are they? Sheep-pens?"

"No, they are the homes of our worthy ancestors. Prehistoric man lived thickly on the moor, and as no one in particular has lived there since, we find all his little arrangements exactly as he left them. These are his wigwams with the roofs off. You can even see his hearth and his couch if you have the curiosity to go inside."

"But it is quite a town. When was it inhabited?"

"Neolithic man—no date."

"What did he do?"

"He grazed his cattle on these slopes, and he learned to dig for tin when the bronze sword began to supersede the stone axe. Look at the great trench in the opposite hill. That is his mark. Yes, you will find some very singular points about the moor, Dr. Watson. Oh, excuse me an instant! It is surely Cyclopides."

A small fly or moth had fluttered across our path, and in an instant Stapleton was rushing with extraordinary energy and speed in pursuit of it. To my dismay the creature flew straight for the great mire, and my acquaintance never paused for an instant, bounding from tuft to tuft behind it, his green net waving in the air. His grey clothes and jerky, zigzag, irregular progress made him not unlike some huge moth himself. I was standing watching his pursuit with a mixture of admiration for his extraordinary activity and fear lest he should lose his footing in the treacherous mire, when I heard the sound of steps, and turning round found a woman near me upon the path. She had come from the direction in which the plume of smoke indicated the position of Merripit House, but the dip of the moor had hid her until she was quite close.

"Go back," she said, "go straight back to London instantly."

I could not doubt that this was the Miss Stapleton of whom I had been told, since ladies of any sort must be few upon the moor, and I remembered that I had heard someone describe her as being a beauty. The woman who approached me was certainly that, and of a most uncommon type. There could not have been a greater contrast between brother and sister, for Stapleton was neutral tinted, with light hair and grey eyes, while she was darker than any brunette whom I have seen in England—slim, elegant, and tall. She had a proud, finely cut face, so regular that it might have seemed impassive were it not for the sensitive mouth and the beautiful dark, eager eyes. With her perfect figure and elegant dress she was, indeed, a strange apparition upon a lonely moorland path. Her eyes were on her brother as I turned, and then she quickened her pace towards me. I had raised my hat, and was about to make some explanatory remark, when her own words turned all my thoughts into a new channel.

"Go back!" she said. "Go straight back to London, instantly."

I could only stare at her in stupid surprise. Her eyes blazed at me, and she tapped the ground impatiently with her foot.

"Why should I go back?" I asked.

"I cannot explain." She spoke in a low, eager voice, with a curious lisp in her utterance. "But for God's sake do what I ask you. Go back and never set foot upon the moor again."

"But I have only just come."

"Man, man!" she cried. "Can you not tell when a warning is for your own good? Go back to London! Start to-night! Get away from this place at all costs! Hush, my brother is coming! Not a word of what I have said. Would you mind getting that orchid for me among the mares-tails yonder? We are very rich in orchids on the moor, though, of course, you are rather late to see the beauties of the place."

Stapleton had abandoned the chase and came back to us breathing hard and flushed with his exertions.

"Halloa, Beryl!" said he, and it seemed to me that the tone of his greeting was not altogether a cordial one.

"Well, Jack, you are very hot."

"Yes, I was chasing a Cyclopides. He is very rare and seldom found in the late autumn. What a pity that I should have missed him!" He spoke unconcernedly, but his small light eyes glanced incessantly from the girl to me.

"You have introduced yourselves, I can see."

"Yes I was telling Sir Henry that it was rather late for him to see the true beauties of the moor."

"Why, who do you think this is?"

"I imagine that it must be Sir Henry Baskerville."

(Will be continued next week.)

Nurses' and Mothers' Treasure

—safest regulator for baby. Prevents colic and vomiting—gives healthful rest—cures diarrhoea without the harmful effects of medicines containing opium or other injurious drugs.

Cures Diarrhoea 25c.—at drug-stores. National Drug & Chemical Co., Limited, Montreal.

Dr. Hugo's Health Tablets for Women

Make Healthy Women.

Whether you believe it or not, this incontrovertible fact remains. These tablets will change weak and diseased organs into strong, healthy organs; fast with some, more slowly with others, but sure and absolutely certain with all who persist in their use, except the few beyond the help of medicine.

Disease, even chronic, will then disappear as these organs are restored to their normal conditions.

These tablets are now recognised beyond doubt or question as best adapted to the special needs of women.

50c. at dealers or by mail. B. N. Robinson & Co., Coaticook, Que.

The Hospital

Thankful are They Who Escape The Surgeon's Knife

Thousands of surgical operations are performed every year in our great city hospitals upon women afflicted with serious female troubles. Sometimes the operations are successful—oftentimes they are not.

It is safe to say that certainly nine out of ten operations for female troubles might have been wholly avoided.

The most valuable tonic and re-builder of the female organism, the medicine with a record of thousands of cases literally snatched from the operating table, is

Lydia E. Pinkham's Vegetable Compound

Do not consent to an operation which may mean death until after you have given Lydia E. Pinkham's Vegetable Compound a fair trial. Note what it did for Mrs. Robert Glenn, whose letter follows:

DEAR MRS. PINKHAM:—Lydia E. Pinkham's Vegetable Compound is so well and widely known that it does not need any recommendation from me, but I am glad to add mine to the many which you have in its favor.

I suffered untold agonies from a serious female trouble for nearly three years, and the doctors told me I must have an operation; but I was unwilling to undergo this, and decided to try your Vegetable Compound.

I am so pleased that I did so, for it restored me to perfect health, saved me the pain of an operation and the immense bills attending the same. Please accept my hearty thanks and best wishes.

MRS. ROBERT GLENN, 434 Marie Street, Ottawa, Ont.

Thousands of women, residing in every part of Canada, bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills and creates radiant, buoyant female health. For your own sake try it.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

Synopsis Of Canadian North-West HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land is situate.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act, as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

W. W. CORY,

Deputy of the Minister of the Interior.

Department of Railways and Canals Canada Trent Canal

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Dam and Bridge," will be received at this office until sixteen o'clock on Wednesday, the 15th May, 1907, for the building of a Concrete Dam and Highway Bridge at Buckhorn, Ont.

Plans and specifications of the work can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer, Trent Canal, Peterborough, Ont., at which places forms of tender may be obtained.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES, Secretary.

Department of Railways and Canals, Ottawa, 26th April, 1907.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Edwin Elcome Taxidermist

Birds, animals, fish and snakes, stuffed and mounted, in and out of cases in the best life-like style at the lowest prices. DEER'S HEADS A SPECIALTY. A stock of foreign and native birds always on hand for sale. Dealer in Eyes, Artificial Leaves and Frosting; also importer of foreign birds and Skins from all countries. Residence—78 Harvey Street, Peterborough.

WILL KISSING BE PROHIBITED

The Osculatory Process Denounced by Scientists as Extremely Dangerous—How the Danger Can be Removed.

A keen discussion is being carried on by some of the best scientists as to the danger and "crime" of kissing, led by Dr. Somers, Health Officer of Atlantic City, and Dr. Malpasse, of the Medical Faculty of Paris. They charge the kiss with spreading grippe, scarlet fever, measles, mumps, whooping cough, typhoid fever, diphtheria, erysipelas, meningitis, tuberculosis, and many infectious skin diseases. They suggest legislation on the subject, and the posting of notices in railway stations, street cars and other public places, but they say it would be useless to post them on verandahs, in cosy corners, porches, shady nooks, or moonlit lawns. They also propose compulsory legislation for methods of disinfection of the mouth and purifying the breath, especially with a view to the protection of the innocent babies who are particularly subject to infection. The greatest and most effective purifier and germ destroyer known to medical science for the mouth, throat and breath, as well as for the blood, stomach and lungs, is Psychine, that triumph of the medical world that is attracting almost universal attention because of the wonderful results attending its use. One of its recent triumphs is told as a matter of experience, in the following brief statement:

Dr. Slocum Co.

I am sending you photo and testimonial herewith for your great remedy PSYCHINE. Your remedies did wonders for me. I was about 28 or 30 years of age when I took PSYCHINE. The doctors had given me up as an incurable consumptive. My lungs and every organ of the body were terribly diseased and wasted. Friends and neighbors thought I'd never get better. But PSYCHINE saved me. My lungs have never bothered me since, and Psychine is a permanent cure.

MRS. LIZZIE GARSIDE,
319 Bathurst St., London, Ont.

Psychine, pronounced Si-keen, is admitted to be the most wonderful of all disease and germ-destroying agencies. For building up the run-down system and curing all forms of stomach troubles and diseases of the chest, throat and lungs or head, it is simply unapproachable. It is a reliable home treatment. For sale at all druggists, 50c and $1.00, or Dr. T. A. Slocum, Limited, 179 King Street West, Toronto.

¶ More fun than ever bicycling this season. There's the new Dunlop Bicycle Tire, made by the Doughty Process. All dealers have them. They cost no more than the old style. A new shape; more elasticity; less liability to puncture; a slipless tread that won't wear off.

Look for the name embossed on the tread.

"Silver Plate that Wears."

KNIVES FORKS & SPOONS STAMPED 1847 ROGERS BROS. ARE Genuine AND Guaranteed by the MERIDEN BRITANNIA CO. THE LARGEST SILVER PLATE MANUFACTURERS IN THE WORLD

SYNOPSIS OF CANADIAN NORTH-WEST

HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

MEXICANS SHOW SIGNS OF FIGHT

Mobilizing Troops On Frontier Against Guatemala.

EMBASSY WAS SEARCHED

Authorities Were Looking for Suspected Assassins—Action May Provoke a War — Thirty Thousand Men Equipped for Campaign—Secretary Root Acting as Peacemaker — Avert Outbreak.

Washington, May 3.—The strained relations between Mexico and Guatemala arising from the failure of the latter to surrender Gen. Lima under extradition proceedings for trial in Mexico, Lima being charged with complicity in the assassination of ex-President Barrillas, is a matter of serious concern to the officials here.

War May Be Averted.

As the situation stands, it may be stated upon authority that the Mexican Government does not believe it will be necessary to go to the length of actual hostilities, but it does feel that it has a right to demand of Guatemala the surrender of fugitives who have committed the greatest crimes upon Mexican soil. It is feared that the demand for Jose Lima will ultimately be refused by Guatemala, if for no other reason than because Lima is regarded as the right hand man of President Cabrera, in whose interest he is charged with connivance at the assassination of Barrillas. But even in that event war might not follow, though the 10,000 Mexican troops now mobilized on the Guatemalan frontier would probably be maintained there.

An Insult to Mexico.

Mexico City, May 3.—The Mexican Legation at Guatemala City was searched Monday by Guatemalan authorities to ascertain whether there were sheltered in it Guatemalans who were suspected of complicity in the attempted assassination of President Estrada Cabrera in Guatemala City Monday. The search was made on the invitation of Minister Gamboa as soon as he learned of the suspicion of the Guatemalans.

FRANCE AND THE TARIFF.

Governments Will Have to Come to Terms Soon.

Washington, May 3.—The attitude of the French Government in declining to accept as sufficient for import purposes the tag of the Agricultural Department affixed to fresh meats, has convinced the United States State Department officials that the time has arrived when an effort must be made to reach a general agreement with France to govern the trade relations between the two Governments. It is believed that the present attitude of the French customs officials is the result of extreme conservatism, rather than any actual opposition to the American method of meat inspection and certification.

In view of the failure of Congress to assent to any of the reciprocity treaties to which the State Department had committed itself in principle, notably in the case of the pending French treaty, the officials are embarrassed in taking up a course of action that will prevent a general tariff war. Their course would have become easier had Congress, in declining to approve the French treaty, indicated what its own desires were. In the absence of any such definition of policy, the State Department is facing the necessity of framing some other method of dealing with the important question than the one which it favored at the beginning.

Local Option Upheld.

Weston, May 3.—Local option has been upheld in the town. Wednesday Chief Justice Meredith heard the application of James Haverson, K. C., on behalf of Lex Wynne, the Weston hotelkeeper, who sought to quash the local option bylaws on technical grounds. The chief justice held that the vote was unaffected thereby, and ordered that Wynne pay the costs of the case.

Struck by a Train.

Barrie, May 3.—William Muhlhausen, a brakeman on the Penetang mixed, had his back broken here last night. He had just stepped from his train when he was struck by the yard engine. He is in the hospital, and little hope of his recovery is entertained.

NERVOUS and WEAK

COULD NOT SLEEP AT NIGHT

To the thousands of people all over this land who are tossing on sleepless pillows night after night, or who pass the bedroom floor with nerves unhinged, and to whose eyes sleep will not come,

MILBURN'S HEART AND NERVE PILLS

offer the blessing of sound, refreshing slumber

They restore the equilibrium of the deranged nerve centres, and bring back the shattered nervous system to perfect condition.

Mrs. Wm. Richardson, Pontypool, Ont., writes: "I take great pleasure in recommending Milburn's Heart and Nerve Pills. I was troubled at times with my heart, felt weak and nervous and could not sleep at night. I have taken several boxes of the pills and am wonderfully improved.

I have recommended them to others and they have found them just what they needed."

The price of Milburn's Heart and Nerve Pills is 50 cents per box or 3 boxes for $1.25 at all dealers or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SIR WILFRID'S HINT IS ACTED UPON

Laurier's Suggestion Considered By British Cabinet.

MAY SUBSIDIZE STEAMSHIPS

Freight Charges Could Be Greatly Reduced—Indirect Form of Preference—Profitless Railroads In Africa—Premier Suggests Method For Diverting Traffic From New York—To Reduce Time.

London, May 3.—The suggestion thrown out by Sir Wilfrid Laurier, the Canadian Premier, to the effect that the Imperial Government, without violating is free trade principles, might give the colonies a quid pro que for their preferential treatment of British goods by subsidizing lines of steamers between England and the more important colonies, is being seriously considered by the Cabinet. The object of the suggestion is to bring about a reduction in freight charges, thus giving an indirect form of preference to the colonies. Those in close touch with the Government, however, point out that the British Government has spent millions of pounds sterling in profitless railroads in Africa, and that this is the legitimate form of preference which the colonies are entitled to expect. The Canadian Premier specially suggested Imperial steamship line between England and Canada and Canada and Australiasia, reducin gthe time from England to Australia to twenty, instead of thirty days, and in the end diverting some of the traffic now going by way of New York.

Scheme Deserves Encouragement.

London, May 3.—The Westminster Gazette hopes that if the scheme of communication via Canada with the Far East is put before it in a practical shape the Imperial Government will give it the most careful and sympathetic consideration.

NEW RATES APPROVED.

Hon. R. Lemieux Thanked By Postage Reform Committee.

London, May 3.—Judge Garrow visited the law courts, spending some time in the appeal court.

Progress is being made with the Collooney-Ballina-Belmullet Railway piers bill, an instalment of the Blacksod Bay scheme, before the select committee of the House of Commons. Rt. Hon. George Wyndham, the Earl of Dudley and Walter Grey all gave evidence in favor.

Six hundred emigrants left Euston Station yesterday for Canada.

The Colonial Postage Reform Committee passed a vote of thanks to Hon. Rodolphe Lemieux, postmaster-general of Canada, for his co-operation in the reduction of postage rates.

LOCOMOTIVE EXPLODES.

One Man Killed and Several Badly Injured.

Brockville, May 3.—A locomotive drawing a logging train of the Rich Lumber Co. at Wanakena exploded. Harris Keffel of Benson Mines, a peddler, who was riding on the train, was blown to atoms. Fireman Stormer of Benson Mines was badly burned and cut about the head. W. G. Reynolds of Wanakena, a timekeeper for the Rich Lumber Co., was badly hurt and is not expected to live. Reynolds has a wife and a young daughter at Wanakena. Stormer died while being removed to the hospital. Bert Keyes, Arthur Remington, Judson and Erwin Ackerman were also injured.

WOMAN'S SUDDEN DEATH.

Suspicions Entertained of Criminal Operations.

Brockville, May 3.—Investigation is being made into the death of Mrs. Henry Backus of Dekalb on account of the alleged suspicious circumstances surrounding her demise.

She went to Ogdensburg in good health, and her husband was unexpectedly called to bring her body home.

A post mortem showed that her death was due to a criminal operation. The guilty persons is yet unknown, but the district attorney has instituted an enquiry.

JUDGE IS LENIENT.

Washington Life Insurance Man Let Off With a Fine.

New York, May 3.—William A. Brewer, Jr., former president of the Washington Life Insurance Co., was sentenced yesterday to pay a fine of $500 for making a false and fraudulent report to the state superintendent of insurance in regard to the financial condition of that company. Two indictments against him, charging him with perjury, were dismissed. Mr. Brewer paid the fine.

The indictments against Mr. Brewer were an outcome of the insurance investigation and were based upon offences alleged to have been committed in 1901. When the case came up for sentence Assistant District Attorney Nott asked that a prison sentence be imposed. Judge Blanchard said he believed the accused the victim of a vicious practice, that is obtained in all insurance companies, and imposed a fine instead of confinement.

NATIVES ARE RISING.

Portuguese Expedition Leaves For Mossamedes, West Africa.

Lisbon, May 3.—A military expedition has left here for Mossamedes for the purpose of repressing native risings. Mossamedes is a district of the Portuguese colony of Ambola, West Africa. The capital, bearing the same name, has a population of about 6 500. The population of the district is in the neighborhood of 200,000.

Torrey Refuses to Apologize.

Montreal, May 3.—Dr. Torrey, the evangelist, intimated in a statement to the press yesterday that he will fight the effort of Norman Murray, the disciple of Aristotle, to make him apologize for an allusion to that gentleman at one of his meetings recently. Dr. Torrey denies that he used the words in the form imputed to him, and states that if Murray detains him here in connection with the case, he will sue him for loss of time. Dr. Torrey states that he has no intention of making any further allusion to the matter in public until the case further develops.

Home Rule for Ireland.

London, May 3.—(C. A. P.)—With every appearance of authority, says The Telegraph, the statement was made in the lobby of the House that the Government's plan of home rule in Ireland resembles the scheme Chamberlain proposed in 1886, which was to establish between England and Ireland the same relations which subsist between the Dominion Parliament and the Provincial Legislatures.

LARDER LAKE

"One Good Investment is worth a Lifetime of Labor."

UNDERWRITERS' SYNDICATE.

"A Hundred Dollars Invested in the Right Place at the Right Time will earn as much as one man steadily employed."

Telephone or Telegraph Orders at our expense. Telephone Main 2766.

Are you going to join us and make a fortune? This is the right place and now is the right time.

Read the proposition below and bear in mind that if you join us you will be associated with us on the ground floor at the bottom price and will share in the results therefrom in exactly the same proportion, according to your interest therein, as we will ourselves.

Consider what this proposition is — the return of your investment and still hold 733 shares, full paid and forever non-assessable, of the wonderful Blue Bell Gold Mine, out of each membership, which will have cost you nothing. There is no other investment that will compare with it. One or two memberships may make you a fortune—independent for life.

We believe the Blue Bell property will prove one of the richest gold properties ever known.

Bear in mind that the Blue Bell properties consist of 1,080 acres and are in the heart of the gold zone.

Fabulous prices are being offered for properties lying anywhere near Blue Bell.

We are willing to stake our reputation on the merits of LARDER LAKE.

The following report from our Consulting Engineer explains itself. Mr. Magee arrived in Toronto from Larder Lake on the 25th of April, and left Toronto for Larder Lake on the night of April 29, after purchasing boats, complete camping outfits and provisions. He will take charge of the Blue Bell properties and push the development of same. Stamp mills will be forwarded and installed without delay. Our syndicate memberships are meeting with favor and are being taken by investors more liberally than we expected.

Spoons Bay, Larder Lake, New Ontario, 22nd April, 1907.

Law & Co., Toronto, Ont.:

Gentlemen,—Acting on instructions from you, I proceeded to Heaslip by the T. & N. O. Railway, from there to Tomstown by stage, and from Tomstown to Larder Lake by stage also. I regret that owing to bad weather and snow our examination was somewhat delayed. However, we eventually were able to make an examination of the properties in which the Blue Bell Syndicate are interested, and I herewith enclose report of the result of our examination. Owing to some parts of the property being under snow, I have not made any remarks about anything we did not actually see, and have made a report as close to the actual facts as possible.

COPY OF REPORT OF EXAMINATION OF BLUE BELL LARDER LAKE SYNDICATE PROPERTIES.

Formation.—The principal formations are green schists, slates and diorite.

Lead No. 1.—Consists of a vein of quartz about six feet wide, with a strike east, northeast, west, southwest and a dip of 45 degrees to the southwest. At one point on this lead I put in a small blast, and after about one hour's work obtained over one hundred pounds of rock of which every lump of every size carried free visible gold in large quantities, which should assay not less than six or seven thousand dollars to the ton. At another point on the same lead I took some more samples and found the formation the same. This lead I did not consider a vein proper, but really a series of quartz veins running through a large porphyritic dyke at least twenty feet wide and extending right across the lots into the other Blue Bell properties.

Lead No. 2.—This is a vein of quarts about three feet wide running northeast and southwest. I traced this vein for about 130 yds., where it joined No. 1, in which we got the best samples of gold. I look upon this vein as only being one of three veins of a similar nature as factors of the main lead.

There is an ample supply of good timber on all the lots for all building and mining purposes for years to come, and as a bluff on which the lots are located runs right into Larder Lake abundance of pure water is assured.

From what I have seen from my examination of these properties and the results obtained from sampling, I have no hesitation whatever in saying (even in its present undeveloped state) the Blue Bell Mining Syndicate have some of the best located claims in the Larder Lake camp, and if active development work were to be rushed forward at once I predict the present properties will be producing gold as soon as machinery can be installed and practical mining operations begun.

J. G. MAGEE,
Consulting Engineer of Blue Bell Syndicate.
April 25th, 1907.

P.S.—Since my return from Larder Lake I have received a copy of the assay from No. 1 or main lead which shows gold values of seven thousand nine hundred and eighty dollars ($7,980) to the ton, which exceeds my estimate by nearly one thousand dollars ($1,000).

J. G. MAGEE.

EXAMPLE.

Showing Cost of and Estimated Results From One Membership

Cost of One Membership consisting of 1,000 shares..... $100

All memberships will be pooled for six months, and will be held by the Trusts and Guarantee Company, Limited, who will act as Trustees for the Underwriters' Syndicate, during which period 267 shares out of each membership will be permitted to be sold at 50 cents per share, which will amount to..... $133.50

Law & Company's commission of 25 per cent., amounting to $33.50, for selling the 267 shares at 50 cents per share, deducted from the $133.50 leaves to the owner of the membership the full amount of his investment or cost of his membership..... $100

Also, in addition to the return of $100 he will have 733 fully-paid and forever non-assessable shares of the Company, there having been sold 267 shares from his 1,000-share membership.

These 733 shares, which will be the result of each membership, will be worth at the advertised market price $366.50. We believe, however, that the dividends which will be paid upon the shares of the Blue Bell Gold Mines, Limited, within the coming summer will make the shares worth many times that amount.

Applications for membership will be received up to May 15th, 1907, unless the total number of memberships are sooner subscribed. Applications arriving too late to participate will be returned with the full amount of remittance.

Bankers, Manufacturers, Merchants and Business Men of all classes are subscribing liberally to these memberships.

The Trusts and Guarantee Company, Limited, of 14 King Street West, Toronto, will act as Trustees for the Underwriters' Syndicate. The distribution of all money and shares to the owners of memberships will be made at the time the membership pool is dissolved, which will be some time within six months from May 15th, 1907.

The Trusts and Guarantee Company, Limited, will issue receipts to all applicants or holders of memberships, showing or indicating their respective interests.

APPLICATION FOR MEMBERSHIP.

Cut out, fill in and forward with remittance.

.....1907

To the LARDER LAKE UNDERWRITERS' SYNDICATE,
Law & Co., 728-729-730-731-732 Traders Bank Building,
Toronto, Canada:

I hereby make application for..... memberships in the Larder Lake Underwriters' Syndicate, and enclose herewith Draft, Postoffice or Express Order in favor of the Larder Lake Underwriters' Syndicate for..... Dollars in payment of same, on the understanding that this money shall be deposited with The Trusts and Guarantee Company, Limited, Toronto, and be held by it until such time as Messrs. Law & Company, Toronto, shall deliver or cause to be delivered to the said Trust Company scrip representing..... shares of the Blue Bell Gold Mines, Limited, issued in my name, fully paid up and non-assessable. Upon receipt of the shares of the said Blue Bell Gold Mines, Limited, by the Trusts and Guarantee Company, Limited, the said Trusts Company shall forthwith pay over to Messrs. Law & Company the moneys so deposited, and shall hold said shares subject to the pooling conditions contained in the Official Prospectus of the said Larder Lake Underwriters' Syndicate. The copy of the said Official Prospectus of the said Syndicate filed with the Trusts and Guarantee Company, Limited, shall be deemed to be the prospectus defining the terms and conditions of the pool. And I hereby irrevocably constitute and appoint the said Trusts and Guarantee Company, Limited, my attorney to execute any and all transfers of the said shares, that may be necessary in order to properly carry out the intention of the pooling arrangement, I hereby ratifying and confirming any and all actions of my said attorney in the premises.

Signed .....

LOOKING FOR NEW TUG AT OMEMEE

Many Notes of Interest From the Village—Catching Suckers by The Barrel.

REAL ESTATE CHANGES

Examiner Special.

Omemee, April 29. — The spring rains have come, to the satisfaction and joy of the farmers, who have little or no seeding done yet.

Mr. Turner, of Peterborough, assisted at the services in Christ Church last Sunday.

Mr. Dobson, merchant, made a business trip to Peterborough last Wednesday and purchased a delivery wagon.

Mr. Parkin, of Peterborough, has been here in the interests of the Northern Life, being district agent for the counties of Peterborough and Victoria, and, assisted by Mr. J. D. Thornton, has done a large volume of business.

Rev. Mr. Perkover, Presbyterian minister, has already had large additions made to his branch churches at Fowler's Corners and Mt. Pleasant. Along with this, interest is rapidly increasing in Omemee.

Mr. Thos. Black, a prominent official in the Bank of Toronto, now of Peterborough, drove to the village with friends on Sunday.

Mr. Thos. Richardson, foreman of the Green foundry and machine stor, Peterborough, spent a day here installing one of their shingle machines in Robt. Courtney & Son's mills here. The manufacture of shingles will begin at once.

The boys have had great sport snaring suckers by the bushel.

The water is so very high at present that it will cause a temptation of snaring muskmonge on the first visit.

Mr. J. C. Eaton and Dr. Beatty with their families made their first trip to Omemee in a fine automobile. The roads were excellent on Saturday for a speed of forty miles an hour.

The Government tug "Bob Hall" will be anxiously looked for in the near future. There will be nothing to stop her from Lakefield to Omemee.

The cement factory here, for tile blocks of all sizes and descriptions, is running regularly and employing six or eight men.

Mrs. (Dr.) Yelland, formerly of Peterborough, has purchased one of the houses of the Bradburn estate for $600, besides which another was sold for $1,000.

BUILD IRON BRIDGE IN BELMONT

County Council Will Undertake This Work—Warden of the County Visited the Site to Make Arrangements

OTHER HAVELOCK NEWS

Examiner Special.

Havelock, April 29.—The At Home given by the young people of the town on Friday night last, being the last of the season, proved a great success. About 75 were present, including a number from Hastings, Campbellford and Norwood. Dancing commenced at 9 o'clock, music being supplied by Mrs. S. J. Cross, of town and Mr. Alley, of Campbellford, Mr. C. Williams officiating as floor manager. The young ladies prepared a dainty luncheon which was partaken of at 12 o'clock.

Misses Gertie McLaughlin and May Fowler, Messrs. Geo. Andrews and Carl Pickard, of Norwood, were in town on Sunday.

Mr. W. Rose, of Toronto spent Sunday with his parents, Mr. and Mrs. Alex. Rose, of town. Mr. Rose leaves Toronto for Collingwood on Tuesday, where he has accepted a position.

Misses Swann and Hickey, of Marmora, and Misses Warren and Petre, Preneveau, were in town on Saturday.

Mr. Jas. E. Fowler spent Sunday in Peterborough.

Mr. Bert Dermo, started on Saturday as "noway" on the local from Havelock to Toronto.

Dr. McClean, of Bancroft, spent Sunday in town.

Mr. and Mrs. J. D. Foster, of Norwood, were in town on Sunday.

Rev. A. E. Camp left last week for a two months' holiday trip to Vancouver, B.C. Rev. Denike, of Campbellford, took the services in the Presbyterian church on Sunday.

Miss Laura Kelly, of Victoria, spent Sunday in town the guest of Miss Maude Kelly.

Mr. W. Crawford, of Toronto, who has been under Dr. Crawford's care for the last three months left on Saturday for the city, for a few weeks, after which he will return to Havelock for the summer months.

Mr. Starke spent Sunday in Campbellford.

Miss Bessie and Allie Rose attended the opera in Peterborough on Monday, April 29th.

Miss Claudia Richards has resigned her position in W. A. McMaster's store and Miss Mabel McBurney is acting in her place.

Rev. Father Conway of Norwood, who for a number of years has been coming to Havelock every two weeks to hold service in the church, owing to his health failing him has been compelled to give it up. The parish of Havelock will now come under the direction of St. Peter's Cathedral, and services will be held in the church every other Sunday by one of the Cathedral clergy.

The Warden of the county and Mr. Joseph Johnson, Reeve of Belmont, were out to North River on Saturday looking after the building of an iron bridge over North River.

ADVANTAGES OF COW TESTING

Mr. Dargavel Gives a Few Pointers to the Farmers Who Send Milk To Factories.

GOOD WATER NECESSARY

The advantages of the Cow Testing Associations are easily seen from the following extract from the Canadian Dairyman:

Some figures that show in a striking manner how great is the difference between the money received by some farmers from their milk, from that received by other farmers sending milk to the same factory, has been furnished us recently by Mr. John R. Dargarvel, the president of the Eastern Dairymen's Association. Mr. Dargavel sends the milk from his cows to the Rockdale cheese factory in Leeds county. Recently he went over the books of the factory, and found the amounts of milk that had been received from the patrons, the money they were paid for their milk, and the number of cows they kept. Mr. Dargavel found that the 23 cows of one patron during 7 months produced 81,306 lbs of milk, or an average of 3,561 lbs. a cow, for which this patron was paid $821.-19.

"I was not at all satisfied with my own average," said Mr. Dargavel, "and I have given the man who has charge of my herd to understand that he must make a better showing next year. I found however that the average of the patrons mentioned was better than that of any other patron of the factory."

"When I realized," said Mr. Dargavel, "how much more money the farmers could make by simply paying more attention to the production of their cows, I could not help thinking how foolish it is of many of them spending so much time at their annual meetings objecting to giving a slight increase of salary to get a good cheese maker, or allowing a little more for the price of manufacture. Even supposing they were to pay their cheese maker more or allowing a little more for manufacture—and they should get good results from such expenditures—it would not cost them more than a few dollars each in the course of a year. Were they however to increase the production of their cows, and that is something that 99 farmers out of every 100 can easily do, if they will try, they would make infinitely more money than they are able to save by objecting to paying more to the cheesemaker or manufacturer."

HOW THE BRIDGE WAS SAVED

Breezy Bridgenorth Paragraphs — No Damage Done at Chemong Park by Ice—Lady of Lake Launched.

Bridgenorth, April 30—Good roads and forward weather.

Seeding has commenced, and most farmers have exercise enough for a good appetite.

Mr. J. H. Mann has returned from the Nicholls Hospital, and is recovering nicely after his severe illness.

The Ennismore people are singing the praises of Caretaker O'Leary, for the slight interruption of traffic on the Chemong bridge this spring. On Monday morning, April 22, at seven o'clock, all was in good order with a square mile of ice from one to four inches thick, lying on the south side and a solid block on the north side from the bridge to the Indian Village. A very strong south-west wind set in and the ice began to press until the middle section had a decided curve. Then it began to carry away the railing and pile up. When it was seen that there was no possibility of saving the bridge, the west end of the section was allowed to swing free, and the great strain was relieved, and there the damage ended. At noon a telephone message was sent to Peterborough to warn those who had crossed in the morning that they could not return home that way. During the afternoon the wind kept wearing away the ice till only about 25 acres remained on the south side, and the north side was completely clear. On Tuesday a few men put the bridge in place, cleared away the accumulated ice and repaired the railing and in the afternoon traffic was resumed. The wisdom of having the bridge in sections is quite evident, for if it had been otherwise the bridge would have been broken and several days would have been required for the repairs. In 1903 the bridge was broken on March 25, and in 1904 on April 25. Since its construction in 1901 these were the only occasions when the damage was serious.

Cottage owners at Chemong Park will be pleased to learn that their boathouses are safe and sound, as no damage was done by the ice.

A week ago to-day the Lady of the Lake, looking trim in a fresh coat of paint was launched and made a trial trip to the head of the lake.

Mr. Thomas Cullen, the man behind the shovel, has completed Mr. Percy Udy's well, to a depth of 26 feet and secured a good supply of pure, sparkling water.

That Chemong Park will boom this summer is a foregone conclusion, as the tourists and patrons of the hotel will be greeted by that ever-genial host, Mr. Geo. Brown, who has returned after a year's absence. With this popular manager in charge and a good auto service there should be something doing.

About two weeks ago the youths and maidens of the Gilmour Baptist church assembled for the annual spring "housecleaning," and now the interior of that place of worship is more attractive with its shining have been required for the repairing.

The clearing of the ice from the lake is always an important event here as the business of the summer really begins and the safety of travel on the bridge is assured.

Mr. Dick Freeburn is back to town to resume his duties on the Lady of the lake.

The Bridgenorth post office is right up to date with its real new hardwood floor.

Mr. A. McWilliams and Mr. W. Leary are progressing very well with their new verandahs.

No "society notes" are seen around these corners, as this is the home of the common, happy, healthy people.

Mr. Nathan Taylor has beautified his lot by planting a row of young maples on the south side. His example is a good one to follow.

The steamer Ogemah arrived at this port yesterday with a large scow to take on a load of slabs for the Trent Valley Navigation Co, of Bobcaygeon.

To-day Mr. Jas. Young is moving into his new red brick house on Bridge street.

Last Sunday with its balmy weather, opened the dreamy driving weather and several of the dapper Peterborough youths, with the neat runabouts and pretty girls passed this way.

THE TIRED SPRING FEELINGS

Are Due to the Thin, Watery Condition of the Blood and Consequent Lack of Nerve Force, Vigor and Energy.

"Why should there be tired feelings in the Spring more than at any other season of the year?" This question comes to your mind when you feel scarcely able to drag yourself about to attend to the necessary work of the day, and for an answer you must look to the condition of the blood.

So much, after all, depends on the quality of the blood in the human system. In the spring the blood is almost sure to be thin and watery. The result is a starved condition of the nervous system and derangements of the vital organs of the body. The heart's action is weak, digestion is impaired, the filtering process is carried on by the liver and kidneys in an indifferent way, the excretory organs are slow in removing the poisonous waste from the body, and hence the pains and aches, the sleeplessness and irritability, the depressed spirits and tired, languid feelings of spring.

To overcome this run-down and worn-out condition of body and mind restorative treatment such as is found in Dr. Chase's Nerve Food is absolutely necessary.

Not only is such treatment necessary for your comfort and happiness, but because in such a run-down condition you stand a ready prey to all forms of germ diseases.

In the spring the very air is filled with germs which lurk in myriads wherever winter refuse has been left to thaw and ferment, and the only resistance against disease germs is good, red blood.

Dr. Chase's Nerve Food is above all else a builder of good, red blood, and hence a restorative of the very highest class. For this reason its effects on the system are of substantial and lasting benefit. Gradually and certainly it forms new, firm flesh and tissue, puts new vigor and energy into the nervous system, improves digestion and restores health and strength.

Note your increase in weight while using this great food cure

Dr. Chase's Nerve Food

The greatest of blood builders and spring restoratives, 50 cents a box, 6 boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

DR. CHASE'S OINTMENT As a means of beautifying the skin and curing pimples, blackheads and all kinds of skin irritations and eruptions, Dr. Chase's Ointment has proven its right to a place in every home. 60 cents a box, at all dealers.

TORTURING RHEUMATISM

Suffered for Five Years—Cured by Dr. Williams Pink Pills.

Agonising pains, sometimes in one part of the body, sometimes in another, more often in the back or other, more often in the back or joints—that's rheumatism. Do not delay in finding a cure. Each day makes the disease worse—increases the torture. Dr. Williams' Pink Pills have cured thousands. They cured Mr. Horace Plante, of Sorel, Que., of a most aggravated case of rheumatism. What they did for Mr. Plante they can do for you. He says: "I was seized with rheumatism. I walked as if my boots were filled with pebbles. The pains startling in my feet, spread to all parts of the body; my back and joints became affected. For upwards of five years I suffered the greatest agony. Often I was confined to bed, hardly able to move. Nothing seemed to help me. I despaired of ever being well again. By good chance Dr. Williams' Pink Pills were brought to my attention and I decided to try them. I got six boxes—before they were gone I felt a great improvement. I continued the treatment and my health gradually came back till now I do not feel the least pain—I am totally cured. It was a surprise to my friends to see me on the street again well and strong after five years of torture. They wanted to know what brought about the change. I told them Dr. Williams' Pink Pills, for I took no other medicine once I began their use. Rheumatic sufferers give Dr. Williams' Pink Pills a fair trial; they will surely do for you what they did for me."

It is in the blood — poor blood — that such troubles as rheumatism, indigestion, dizziness, heart palpitation, anaemia, weakness and a host of other diseases find their root. It is the blood that Dr. Williams' Pink Pills act on. They make it pure, rich, red and health-giving. That is why they cure all the common ailments of everyday life. Sold by druggists or by mail at 50 cents a box or six boxes for $2.50, from the Dr. Williams' Medicine Co., Brockville, Ont.

ALL RUN DOWN

Weak---Nervous---Unstrung.

Thousands get run down and become invalids before they realize anything is wrong. By permitting low vitality to develop, the way is paved for fevers, pneumonia and diphtheria. To put off makes it all the harder to get well. The time to repair the system is right now, before the damage gets any worse. The remedy is Ferrozone; it revitalizes, renews, builds up vitality that outlasts old age.

FERROZONE is a genuine invigorator that banishes weakness, and instils surplus force and vigor into every organ of the body. Ferrozone sharpens the appetite, produces rich nutritious blood, and thereby contributes that sense of buoyancy that adds so enormously to one's pleasure and usefulness in life.

For all forms of debility, weakness, lack of blood or nerve tone, sleeplessness, tiredness and exhaustion, there is no medicine so vitalizing and potent as Ferrozone. Even one trial demonstrates its rapidly and certainty of action.

To restore the energy of youth, to get back your vital stamina and reserve force, there is positively no treatment so certain as Ferrozone. You have only to try Ferrozone to know the enormous benefit it invariably brings to all in poor health.

FERROZONE

Miss Dorothy E. Leduc of Chester gives the following convincing evidence of Ferrozone's power:—"My work compels me to rise early in the morning and work ten hours daily as a saleslady. Last Spring I was run down, lost my color, and fell off in weight. I seemed to lack ambition and the life was out of me. A friend recommended Ferrozone, and I took one tablet after meals with wonderful results. Ferrozone brought back my complexion, and has given me new strength and abundance of energy and spirits. I would advise all young ladies to use Ferrozone."

Mrs. H. G. Wilder of Dexter says:—"My daughter was not very well last Winter, and lost her strength completely when the Spring came. I gave her Ferrozone, and am glad to say it did wonders. After six boxes were used my daughter was strong, and looked the picture of health."

Gave New Strength

FERROZONE

It makes the weak strong, the sick well, and assures lasting good health.

WARNING—Beware of any substitute for Ferrozone; it alone can cure you. Sold by all druggists and dealers in medicine, only in 50c boxes containing 50 chocolate-coated tablets. By mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

LARDER LAKE

Proprietary Goldfields, Limited

Owing to the phenomenal rush for shares in the above company, the first limited amount of stock at our first offering of $1.00 per share will be exhausted sooner than expected. The price will then be materially advanced.

The advance will take place any day and probably without notice—just as soon as the stock has been introduced by placing a very limited amount at our initial price of $1.00 per share—most of which is sold.

I am not urging anyone to take on Larder Lake Proprietary. The stock is fast selling itself, and in a short time will all be placed in Canada and the United States.

I am anxious, however, that my Canadian following get what they want at the first price. Hence this Canadian advertisement to give you notice that the ground-floor opportunity will not last much longer.

My following has consistently made money by acting on my advice. Thousands will testify to that.

I have never advised the purchase of a stock without it materially advancing in market value within a reasonable time.

My method after placing a stock with the public is to see that it is listed on the Exchanges. In every such case the result has been a legitimate market at an advanced price.

That is my record.

Larder Lake Proprietary will shortly be listed on the Exchanges and placed on the New York and Boston curbs.

I predict that very soon indeed it will stand at several dollars a share. I furthermore know that after the stamp mill materialises results, and it should be running within six weeks, that they will be of a sensational nature and I know that the stock will then surely see $10 a share. A bold prediction, I hear some say, but those who shortly accept my invitation to take the trip to Larder on the special train I'm going to run from New York, Boston and Toronto will think my prediction conservative enough when they are on the ground and see what I and my engineers have been investigating and verifying for six months past.

The facts about the Larder Lake Goldfields, and the Proprietary Company in particular, are far too great to present here.

Full particulars, however, may be secured on request by calling personally, or by mail, telegraph or 'phone.

Again I say, I am not urging the purchase of this stock, for it is selling itself even faster than we can take care of the orders from Canada and the United States—two days behind now—but I am anxious that my Canadian following get into this, by far the best thing I have ever recommended, at our first offering price.

ENGLAND

Many years ago, a piece of land, called How Garden, was left to the church wardens of Wimborne Minster, with instructions that 10s 6d should be paid to the clergyman whose duty it was to preach a sermon at Holt, a village three miles distant, on Good Fridays. The church wardens a few years ago demurred to the payment of the sum, and a search was made amongst parish deeds and records, but the original document could not be found. A short time afterwards a lady who resided at Thame, Oxfordshire, and who, strange to relate, is a sister of the Wimborne vestry, purchased in the fair for one of her boys a small drum. The instrument was broken, and Mrs. Morris noticed in the end of the drum words referring to the hop gardens at Wimborne. The drum was thereupon sent to Mr, Munckton who, together with the late vicar examined it, and came definitely to the conclusion that it was the original document for which search had been made. The drum bore the words, "Made in Germany."

Passengers in an I.C.C. tramway car travelling from Tooting to Westminster recently witnessed what they probably regarded as the most comical scene they ever beheld outside a Drury Lane pantomime. A woman belonging to the working class entertained the crowded car bringing in a dirty and diminutive youngster. Firmly wedged over the child's head was a black and grimy saucepan, which came down to the child's mouth, while behind the handle stuck out like a Chinese pigtail. "Tommy's been playing soldiers," said the irate mother, "and been and jammed the saucepan over 'is 'ead. I can't git it orf; I shall 'ave to take 'im to St. Thomas' Orspital." At length an old gentleman sitting next to the boy, turned to him, and said in a kindly tone, "Well, my lad ,how did it all happen?" The boy who had been in tears all this time, turned sharply to his questioner to reply, and speak, when—crash went the handle through one of the plate glass windows of the car!

Two London motorists placed themselves in an extraordinary dilemma, at Filey, Yorkshire, recently, as the result of taking their car down to the seashore. Leaving the car on the sands they walked to the water's edge and took some photographs. Returning two minutes later they found the car sinking in the quicksands. They were unable to move it. A horseman galloped for assistance to the fish landing stage where there were carts.. But the carters were busy unloading a catch of fish from the boats, and the fishermen refused to allow the carts to assist the motorists, unless the latter consented to buy the fish. To this the two were obliged to agree, the turn of the tide being due in 5 minutes. They purchased four cargoes of fish. Then horses, and carts, two motor cars, and a crowd of men got to work on the sinking vehicle, which they pulled out of the quicksand after the wheels had disappeared from sight. A few minutes later the tide flowed over the spot.

The Lord Mayor of London, Sir William Treloar, a staunch Cornishman, is to take part in the "Furry Dance," through the streets of the ancient Cornish town of Helston. "Furry Day" is May 8th, and is only celebrated in Helston. Probaly for the first time in history, a Lord Mayor of London will trip the light fantastic toe at the head of a procession of swains and damsels when Sir William Treloar visits the town. At mid-day the real revels commence. Then a procession of dancing couples, carrying flowers, is formed at the town hall. To the strains of the "Furry Tune" played by a volunteer band they dance hand in hand through the town, passing in the front door of every house and out at the back. To avoid any house is a slight. His Lordship will lead off the dance through the streets with Miss Kendall, the daughter of a well known Helstonian, who has been the M. C., of the Flora dance for many years.

A mysterious advertisement, which is apparently a hoax on intending emigrants, is occupying the attention of the Australian Government. Attention was first drawn to it in England by the receipt from the Governor-General of the following cablegram addressed to Captain Muirhead-Collins, C. M. G., who represents the Commonwealth in London: "I understand that advertisements are appearing in the press of Great Britain as follows: Wanted, —About 50,000 men, with a knowledge of agriculture, etc., and a capital of seven or eight pounds. Apply, Federal Government of Australia. This is unauthorised; applications now being received here." Capt. Collins has searched English and Colonial newspapers without finding the advertisement, but replies are still pouring in to the Government offices in Melbourne. He warns intending emigrants against parting with any money.

A considerable number of curious people were attracted to a public house in Bow on Good Friday for the observance of a quaint custom which has been honoured there for many years. Hanging in the house are a great number of blackened buns, and each Good Friday morning a new bun is added to the collection. There is a legend to the effect that the house was once kept by a widow whose only son went to sea on a Good Friday, promising that he would return on the following Good Friday. That was 70 years ago, and the sailor has never re-appeared. Throughout her life however his mother clung to the belief that he would return, and each year she set aside a bun for him. After her death the custom was maintained by the present occupier of the house, and the sign was changed to the "Widow's Son."

SCOTLAND

Two members of the Chairman's Committee of the Edinburgh and District Water Trust had an amusing misadventure on their return journey from a visit of inspection to the works at the Talla, recently. The party travelled from Edinburgh in motor cars, annd when near Broughton, on their way back to the city, the occupants of one of the cars, wishing to reach the roadway on the other side of the Tweed, formed the plan of shortening the journey by driving the car through the river at a shallow part, which is regularly forded by carts and other horse vehicles. There is, however, a depth of three feet of water where they proposed to drive across, and in avoiding the semblance of hesitation, they neglected to consider the position of the engine of the motor car. Not until the middle of the stream was reached did the engines, then submerged, come to a standstill, having two of the trustees in a position as helpless as it was amusing. An anxious examination and hurried consultation revealed no alternative except repushing the car ashore or remaining for and indefinite period in the middle of the Tweed. The representatives of the Town Councils of Edinburgh and Leith decided upon the former course, taking off their boots, they exerted their physical strength, and ultimately succeeded in pushing the car to the bank.

An extraordinary scene was witnessed in Dundee one night recently, when the residents in Garland Place were alarmed by the sight of a middle-aged man, running down the street clad only in his night attire. He was labouring under intense excitement, and declaring loudly that he had discovered the North Pole. Hearing the uproar several passengers on a passing car jumped off, and just in time, for the madman had set upon a woman standing at the end of a close. They quickly laid him hors-de-combat, and while holding him down he gave them a long treatise on his great "discovery." He stated that his head was burning with the heat of the Arctic regions, while his feet were in the same uncomfortable condition.

The Glasgow and Belfast police are investigating a daring robbery which took place recently on the boat train from the Central Station to Ardrossan. When the train was entering the station at Ardrossan Pier, a man is alleged to have jumped from the parcels van and disappeared. A search was made in the van, and eight of the hampers were found to have been tampered with and one thoroughly ransacked. The address labels were torn off some of the parcels. It has been discovered that a valuable registered packet from Canada to Ireland is among the missing articles.

A cyclist belonging to Inverness lost control of his machine in riding down a steep incline near East Linton recently, and dashed into the gates at the railway level crossing with such force that the lock was unhinged and the gates swung across the line. Just at the moment a passenger train came along, and crashed into the gates, carrying away a large portion. The train was stopped, but it was ascertained none of the passengers were injured, whilst the cyclist escaped with some severe bruises.

Easter and spring holiday time are favourite seasons for couples entering into the married state, but in Dundee this year something like a record was put up. The east end of Dundee—St. Andrew's district —lead the way with 32 for this year, against 18 in 1906; the figures for the other districts being—St. Mary's, 25, against 20; St. Clement, 16, against 11; Lochee, 16 against 15, and St. Peter's, 15 each year. The total for the year was 104, compared with 79 last year.

IRELAND

The town of Elgin, Co. Roscommon, was recently the scene of some exciting encounters between the police and the public. Meetings of the United Irish League were called for the purpose of putting into effect resolutions passed at a previous meeting, calling upon those who held land on the 11 months' system to surrender it to the branches of the League, or be subject to a vigorous boycott. A large number of police in all present in the district guarding cattle, and they prevented the meetings from being held. In one instance the police came into contact with the people, and a free fight ensued, and not until reinforcements arrived could the onslaughts of the crowd be repelled. The other day the police endeavoured to prevent the passing of the crowd to the place where a meeting was announced to be held, but the people broke through the ranks of the police. So threatening did matters become that the resident magistrate was sent for with a view to the reading of the Riot Act. As, however, he was at another farm about two miles away, where there was a disturbance, his services were not available.

A fire was caused recently at the Londonderry Bottle Works, Seaham Harbour, by the bursting of a huge tank of molten glass. The first indication that anything was wrong was the glass coming through the masonry. An alarm was at once raised, work was stopped, and water, sand, lime, and everything available were used to stem the flow, but without success. The glass soon enlarged the breach and rushed out in a white-hot torrent, sweeping all over it. The best was terrific, and the rafters 20 feet above caught fire without any intervening flame. Soon the place was blazing furiously. The filling house was speedily destroyed, and the firemen had to direct their attention towards saving the engine and boiler houses, and in this they were successful. The stream of glass flowed out till it fell in cascades down an underground passage, over the sides of which it hung in stalactites.

A serious stabbing affray was reported to the Belfast police one afternoon recently as having occurred in the Shankill district. A man is alleged to have entered a butcher's shop and seized a knife, with which he rushed into the street. He brandished the weapon about in an excited condition, and everyone cleared out of his way. He made a blow at the first man he got within reach of, but missed him, and then he stabbed another man, whose name has not been ascertained. The man fell, and the assailant, after striking him with a knife again, bolted, leaving the victim in an unfortunate condition.

A wild scene took place on Easter Monday in the Mountain district, near Coalisland, Co. Tyrone. The disturbance arose out of a series of cock fights. Forty-five varloads of whisky and porter were brought to the spot without the knowledge of the police, and the liquor having been rapidly consumed, an altercation arose on the conclusion of a cock fight, which led to a general disturbance between the hoodlers of the district, bludgeons being freely used. A general riot ensued, the scene being described by an eye-witness as "a battlefield of bludgeons and broken heads." No lives, however, were lost.

Exciting eviction scenes were witnessed near Dublin, when the house of a widow, named Maher was raided by a bailiff and 20 policemen. Barricades placed in front of the house were broken down, and the police then effected an entrance by breaking the windows and the door. They removed the furniture, but afterwards a doctor certified that one of the inmates of the house, a woman 95 years of age, was an invalid, and that her life would be imperilled by the eviction. The High Steriff was appealed to, and he ordered the furniture to be taked back.

An outrage occurred recently at a place called Scariff, in the Cuboar district, on the borders of Clare and Galway, where the house of a farmer named John Carroll was fired into. One shot was sent through a bedroom window, while another was discharged into the kitchen, where, at the moment, several neighbours were assembled chatting with the members of the family. Some of these had narrow escapes, while a daughter of Carroll's was struck by the broken glass from the window. The outrage is attributed to a local land dispute.

Speaking at the Easter Vestry of Comfert Cathedral Parish, Co. Galway, Canon McLarney stated that he had entered on the 25th year as rector of the parish. Goldsmith's country clergyman was passing rich with £40 a year, but he, Canon McLarney, could beat that record, as he was passing rich with £30 a year, so heavy were the losses and withdrawals on his small stipend of $200.

While fishing in the River Nore, near Graigue, a young man named Finn landed a large pike which turned the scales at 31 pounds. On opening the fish there was found inside of it a set of prayer beads, part of a pocket handkerchief and a rubber tobacco pouch containing 20 sovereigns. It is believed that the pike must have eaten the pocket of some person who had been drowned.

WINDSOR LADY'S APPEAL

To All Women: I will send free with full instructions, my home treatment which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the Womb, Painful or Irregular Periods, Uterine and Ovarian Tumors or Growths, also Hot Flashes, Nervousness, Melancholy, Pains in the Head, Back or Bowels, Kidney and Bladder Troubles, where caused by weakness peculiar to our sex. You can continue treatment at home at a cost of only about 12 cents a week. My book, "Woman's Own Medical Adviser," also sent free on request. Write to-day. Address Mrs. M. Summers, Box N. 61, Windsor, Ont.

SUNSHINE FURNACE

The Sunshine way of placing coal in the furnace.

THE LARGE DOUBLE FEED DOORS

on the Sunshine furnace provide an opening deep and wide enough to admit great rough chunks of wood that would either have to be wasted, or chopped up for an ordinary furnace.

As for putting coal in the Sunshine, why, it's the easiest thing imaginable!

Such a generous opening would be next to impossible to miss. And you can easily deposit the coal in any spot you desire.

After you have experimented with small feed-doors, and hit the edge of the door frame a few times, you will recognize more completely the ease and advantage of the Sunshine method. The illustrations hint at the difference.

If you will examine the fire-pot of the Sunshine you will notice that the sides are straight up and down.

On many furnaces the fire-pots slope, forming a rest on which the ashes accumulate.

As ashes are non-conductors of heat they prevent the fire-pot from radiating as much heat as it should; they clog up the draft and deaden the fire.

But the Sunshine fire-pot is a wonderful radiator of heat. No ashes can cling to the straight, sheer sides of its fire-pot. The live, red-hot coals are always snug up to them. There is nothing to prevent the radiation of every unit of heat produced by the fuel.

The Sunshine is the most scientifically and perfectly constructed furnace. It radiates most heat with less consumption of fuel. It is the easiest-managed, cleanest, greatest labor and fuel economizer you can buy.

If your local dealer does not handle the Sunshine, write direct to us for **Free Booklet.**

A Natural Laxative

Inward cleansing is as necessary as outward bathing. To keep the bowels free and regular is of even greater importance than to keep the skin-pores from becoming clogged. The neglect of either invites disease. Everyone needs a natural laxative occasionally, to free the bowels of accumulated impurities For this purpose take

BEECHAM'S PILLS

the greatest boon ever offered to those who suffer from the ills that follow constipation. For over fifty years Beecham's Pills have been famous as a Stomach corrective, a Liver regulator and Bowel laxative. They never gripe nor cause pain. Powerful purgatives are dangerous. Avoid them. Use Beecham's Pills. They give relief without doing violence to any organ. Their action is in harmony with physical laws. Take them regularly and the necessity for their use becomes less frequent. They are a natural laxative and a positive cure for Constipation, Biliousness, Indigestion, Sick Headache and Dyspepsia.

Prepared only by the Proprietor, Thomas Beecham, St. Helens, Lancashire, Eng.

Sold everywhere in Canada and U. S. America. In boxes 25 cents.

THE WATER DROPPED AT YOUNGS POINT

The Latest News From That Village—Summer Hotels Preparing for the Tourist Season.

Examiner Special.

Young's Point, April 30th. — The ice has disappeared in Clear and Stony Lakes, but owing to the stop logs above the canal navigation will not open for a week or ten days.

The steamer Majestic made a trip up Clear Lake on Monday and is in splendid shape for the season.

Mr. Joseph Bonner of Hamilton, the engineer on the Stoney Lake this season, commenced his duties this week. He is getting the machinery in first class shape.

Mr. A. Wilson is getting the cheese factory in condition for the coming season; he has Mr. T. Wilson of Apsley to make cheese.

The trustees of the school here are erecting a new wire fence around the school property and cleaning up the grounds generally. One mistake was made in cutting so many of the pretty pine trees down.

The football is out once more and and the boys enjoy a little exercise every evening.

Mr. Bert Heard of Peterborough, is home for a few days.

The sawmill is busy these days and Mr. Miller, the sawyer, has everything in good shape.

Mr. Wm. Brooks of South Beach, is erecting a new cottage and dancing pavilion on the grounds, near the hotel. Mr. Edward Quinn of Lakeba has the contract.

The Lakeview House has been repainted and renovated for the coming summer season. The rowboats have also been repainted and varnished. Mrs. Kearney expects a large number of tourists this season.

Mr. William Welsh is in charge of the Government boat, the Empire, and Mr. T. Moran, who was formerly captain, will be on the Sovereign.

The water in the river below has lowered about two feet, during the past two weeks and is now almost down to the average height for the summer.

NORWOOD NOTES OF INTEREST

Epworth League Elected Officers—St. Paul's Choir Concert—Other Items.

Examiner Special.

Norwood, April 30.—Mrs. Davidson of Peterborough was a guest at the home of Mr. and Mrs. T. E. Finlay for a few days last week.

Miss M. Morrison was in Peterborough last Friday.

Miss Jennie McRoberts of Warkworth is visiting her cousin, Mrs. Wm. Carbray.

Miss Louise Smith spent a few days with friends in Murmora.

The sacred concert given in the Presbyterian Church by St. Paul's choir of Peterborough on Friday evening was a decided success. At the close of the programme a vote of thanks was moved by Mr. J. A. Finlay and seconded by Mr. Cuthbertson for the splendid vocal selections rendered by the choir. Before leaving, the ladies of the church served refreshments in the basement.

Rev. Father Fitzpatrick of Ennismore was in town last week.

Mr. Bert Neabel was in Toronto for a few days last week on business.

Jr. IV.—Maggie Wallace, honours; Irene Doris, Lizzie McFarlane, Harry Taylor, Lillie Wedlock, Fred Moore, Roland Weir.

Sr. III.—Hazel McFee, Lillie McFarlane, Clara Hore, Mary Moore, Willie Stewart, Anderson Graham, Stella Scriver, Etta Webb.

Jr. III.—Alphonso Bolin, honours; Hugh Renwick, Hugh McFee, Beatty Scriver, Max McNeil, Joseph McCarthy.

PEEVISH AND CROSS

Peevish, cross babies are sick babies — the well baby is always happy. Perhaps there may be nothing to indicate just what is the matter but you may depend upon it, there is something troubling the little one or he would not be cross. A few doses of Baby's Own Tablets will remove the cause and make baby happy. They are a certain cure for the minor ills of babyhood. Thousands of mothers keep them continually in the house to guard against the sudden illness of baby. A Tablet now and again will keep the little one well. Mrs. James Jewers, Beaver Harbour, N. S., says: "I have given Baby's Own Tablets to my baby as occasion required since she was a day old. They have always helped her and now at a year and a half old she is a fine healthy child. The Tablets I think are indispensable to mothers of young children." Sold by druggists or by mail at 25 cents a box from the Dr. Williams' Medicine Company, Brockville Ont.

Prominent Physician Shot.

Ironton, Ohio, May 3.—Dr. Wayne McCoy, a prominent physician at South Point, was shot and killed Wednesday night by Capt. John Davis, who asserted that he had unexpectedly returned at midnight and found Dr. McCoy with his wife. Davis fled to Kentucky.

As white as the falling snow flakes—
As light as a fairy's kiss—

PASTOR DISAPPEARS.

Leaves His Church and Wife for Fair Young Maiden.

New York, May 3.—Members of the fashionable St. George's Episcopal Church at Hempstead, Long Island, were astonished yesterday when they learned that their pastor, Rev. John Knode Cooke had departed from Hempstead, and that Miss Floretta Whaley also had left her home, and had written letters saying she would not return. Rev. Mr. Cooke is married. His wife is Miss Matilda Clarke, daughter of Rienzie A. Clarke of Hartford, Conn. She left Hempstead some time ago, and is now at her father's home.

According to stories which were circulated freely in Hempstead, the infatuation of the minister for Miss Whaley has been apparent for some time, and was the direct cause of Mrs. Cooke leaving for her father's home.

Bankers Discuss Money Orders.

Montreal, Que., May 3.—The regular quarterly meeting of the Canadian Bankers' Association took place here yesterday at the Bank of Montreal, the president, Mr. E. S. Clouston in the chair. The chief question under discussion was the issuing of money orders by the several banks, and, although it is understood that some of the members are not very favorable to the plan adopted two or three years ago, it is said that a majority still favor the continuance of the project and everything will be done to make the system as perfect as possible.

German Steamer Ashore.

Deal, Eng., May 3.—The Wilhelmina, a large German steamer, went ashore on the Goodwin Sands yesterday. Tugs and a lifeboat went to her assistance. The steamer was refloated and proceeded on her way.

Calling a water

does not certify it safe for you to drink. Water can be pure and yet be harmful. Boiled water is pure, in one sense, because heat destroyed the bacteria it contained, but heat does not remove harmful salts from water, nor the organic matter. ¶ Distilled water, used so much on shipboard, is chemically pure; but seafaring men will warn you against drinking too much "condenser" (distilled) water. It brings on bowel trouble, because the salts it should contain have been distilled out of it. ¶ Some spring water is fairly pure; but even the purest spring water contains dissolved mineral matter—sulphate of lime, carbonate of lime, magnesia, common salt, potash, iron. ¶ Even pure water, if it contains *too much* of some of these salts, does you harm. ¶ So what are you to do? You shouldn't drink boiled water because the salts are *not* boiled out of it. You musn't drink distilled water because the salts *are* boiled out of it. Most spring waters have too much of the wrong kind of salts. What are you to drink? ¶ Why not drink a water that is not only ideally pure, but in which are *naturally* present exactly the salts that are good for anybody, in exactly the proportion that is right for everybody? ¶ Why not drink a water that is zestful, sparkling, limpid, with no excess of mineral, no trace of harmful salts? That is

York Springs Water

Wholesome — Limpid — Refreshing

Bottled at the Springs for surety of purity and sold in your neighborhood by merchants who discriminate.

Ideally Pure York Springs Water is the basis of these beverages: York Springs Water (natural), York Sparks (York Springs Water charged with purified carbonic gas), York Ginger Ale, York Sarsaparilla, York Soda, York Potash Water, York Aperientis (the perfect laxative)

A New Parish Priest Commences His Duties

Rev. Father Kelly Takes Charge of The Havelock Parish — Fire Alarm Caused Some Excitement in The Village.

OTHER HAVELOCK NEWS.

Havelock, May 3.—The first football place of the season will take place on Friday afternoon, when the Marmora eleven and a picked up team of the town's sports will play a friendly exhibition game at the park and pleasure grounds. This being the first sport of the season, it is expected a large crowd will attend to encourage the boys.

The annual meeting of the Trent Valley Baseball League will be held at the Clarendon House, Hastings, Friday of this week at 2.30 p.m. A representative from here will likely attend, but as the saying is there will not likely be (anything doin') in baseball this year.

Friday being Arbor Day the school children will have the afternoon off, when the school and school grounds will be thoroughly cleaned by the many hands so willing for work.

Mr. Clarence Capp had three of his fingers severely jammed while unloading machinery at the station on Thursday last. This will mean two or three weeks holidays.

Rev. Father Kelly, one of the clergy of St. Peter's Cathedral staff in Peterborough, has been placed in charge of the Havelock parish in succession to Rev. Father Conway. Father Kelly conducted mass for the first time here on Sunday morning last, and hereafter will celebrate every other Sunday at 9.30 a.m. instead of 8.30 a.m., as has been the custom in the past. Sunday school will also be held at 3 o'clock in the afternoon at the church. Father Kelly will devote considerable time in Havelock administering to the needs of his parishioners in this small but rapidly growing parish.

A maple sugar social will be held in the Methodist school room on Friday night of this week, when a good programme will be provided.

On Saturday night about 9 o'clock the fire alarm was given, which caused great excitement and indeed travelling to find where the fire was. At last it was discovered and found to be only a burning chimney at Dr. Holdcroft's residence. Still it might have been a fire if the alarm had not been given in time.

A flash light photo will be taken of the audience at the "King of Tramps," on Wednesday night of next week, May 10th.

Some weeks ago Mr. John Barnes, C. P. R. conductor running out of Toronto Junction to Havelock, was fined $20.00 and costs by Magistrate Dumble, of Peterborough, for blocking the George street crossing in that city for a longer period than five minutes. Mr. Barnes appealed the case and on Friday last His Honour Judge Weller decided the appeal in Mr. Barnes' favour.

Mr. Harold McWilliams, of Marmora, spent Sunday in town.

Mr. Albert Switzer, of Stanwood, has moved into town.

Mr. William Russell, of Peterborough, has been engaged as clerk in Phillip Bros., Hardware store.

Messrs. R. Graham and K. Harris drove over to Marmora on Sunday.

Mr. Wm. Gibbs left on Wednesday for an extended holiday trip to Vancouver, B. C.

Mr. Harry Buchanan is home again after spending the winter months at Schreiber.

Mr. and Mrs. W. J. Hanes, of Peterborough, were the guests of Mr. and Mrs. Holcombe on Sunday.

Mr. Henry Seabrooke was kicked by a horse last week, which has caused him a short holiday.

Mr. and Mrs. Wendel, of the Thos. E. Shea Dramatic Co., were guests of the latter's aunt, Mrs. Alex. Rose, on Tuesday.

Messrs. C. A. Ghent and Wm. Andrews attended a Masonic "At Home" at Norwood on Monday night.

Mr. J. E. Henderson, General Passenger and Traffic Manager of the Otonabee Navigation Co., Peterborough, and Mr. John Londerville, manager of the Idyl-Wyld summer resort at Rice Lake, were in town on Thursday last on business.

Mr. J. H. Belleghem, of Peterborough, has secured a situation in the C. P. R. shops here. Mr. Belleghem will reside in Mr. Lewis' residence on George street.

Mr. Will Andrews has sold out his livery business here to Mr. John Weir, of Norwood, who took it over on Thursday. Mr. Andrews intends going west in a short time.

Mr. Jas. E. Fowler and daughter Olga has returned from a week's visit with friends in Peterborough.

Mr. Cecil Starke spent Tuesday and Wednesday in Peterborough.

Mr. J. W. Bryans has purchased a new delivery wagon, with his name painted in gold letters on the side.

ROYAL

—Absolutely Pure—

The greatest American baking powder. Sold the world over and approved by the highest authorities for its healthfulness.

City Has Opportunity To Secure Industries

Two Smelters Will Locate in Canada And Kingston is After Them—Why Not Peterborough?

LEAD AND ZINC SMELTERS

Kingston City Council has on the string two new industries—both of them promising—one a lead smelter and the other a zinc smelter. Either or both of them would look good in Peterborough and there is no reason why they should not be successfully operated here as at the Limestone City. The council and Board of Trade are given the hint that these two industrial concerns are likely to locate in Canada, and the suggestion is made that it might be considered worth while to get after them. The Kingston News, referring to the proposed industries, says:

After an apparent lethargy extending over several weeks, it appears that an industrial boom has again struck Kingston, with the probable result that within a few hours deals may be closed whereby the city shall welcome into her midst two flourishing industries. During the past week arrangements have been pending between the civic authorities and representatives of the two firms with the result that a special meeting of council has been summoned for this evening for the purpose of ratifying an agreement whereby two desirable industries may find a location on the long vacant civic smelter site. Messrs. W. W. Hadley and John Gray, Guelph, promoters of the zinc smelting industry, whose proposition was presented to council several weeks ago, spent several days of last week in secret conference with civic authorities, and from what can be learned, the result of their deliberations has been highly satisfactory. They will appear before council to-night and their proposition will in all probability be accompanied by a report from the Industries Committee.

The other firm with which negotiations are pending is the Stanley Smelting Works, a lead smelting industry of which R. E. Cleshman, New York, is promoter. That gentleman has been in the city several times within the past few weeks, and was expected again this afternoon to put his proposal in shape for report at to-night's meeting. So far as can be learned, the firms desire to be each allotted half of the smelting site with exemption from taxation, excepting school tax, for a term of ten years.

Moved House Three Miles And Not A Pane Of Glass Broken

Examiner Special.

Young's Point, May 1st. — Walter Young purchased a house from Mr. T. Dugan, and had it removed three miles to a lot he has near the village. Mr. Samuel Durval engineered the moving of the house and deserves credit for the manner in which everything was managed, as there was not even a pane of glass broken. He also covered as much ground daily as the house movers in the towns and cities who follow the business.

To-morrow In City's Churches

PETERBOROUGH SATURDAY MAY 4 1907

A Record Snow Fall

Between Four O'clock This Morning and Nine O'clock 8 Inches of Snow Fell—Sleighs Out On May 4th.

Cutters This Morning; A Record Snow Storm Experienced To-Day

Most Remarkable weather Conditions Ever Known by the Oldest Resident Experienced To-Day

EIGHT INCHES OF SNOW

No Damage, However, Will Be Done—Vegetation Will Be Helped —End of the Winter Now Sure

Eight inches of snow on May 4th! That's going some and then some more. A record which has, perhaps, never been equalled in this city, was made to-day, when, between 4 o'clock and 10 o'clock this morning no less than eight inches of snow fell. It was a touch of real winter, while it lasted, and when the early risers opened their blinds this morning to see the ground covered with half a foot of snow, the trees laden down with the same white mantle, and the snow still falling, they could hardly believe their eyes; the weather man had stolen a march on them. Last night at midnight there was no sign of snow, the weather was warm, and there was every prospect thadt today would be a repetition of yesterday.

Those who have lived in Peterborough more than half a century cannot remember when as much snow fell as late in the year. The official weather report is to the effect that upt o 7 o'clock six inches of snow had fallen. It continued to fall, though in decreasing quantities, until almost noon, and fully eight inches fell during the twelve hours, following midnight. There was good sleighing on some streets and several cutters were out, and managed to navigate with ease.

From an agricultural standpoint, this storm will do no harm, in fact, it will no doubt do considerable good. There was not enough frost to do any damage, and, with the disappearance of the snow vegitation will be given a great impetus; the grass will spring up anew, and grain already sown will be given a splendid start.

Apart from the discomfort and inconvenience which the snow fall will cause it will be a blessing, rather, than otherwise.

The excursion, which had been arranged, to Toronto to see the baseball game in the Eastern League, was, of course, cancelled; the grounds being in such a condition that the game could not be played.

The probabilities are that to-morrow will see a return of the fine weather of the past week.

A Scientist's Opinion

Rev. Dr. Marsh, the president of the Peterborough Astronomical Society, was communicated with to-day in reference to the unusual spectacle of a snow fall of eight inches in May, to learn, if possible, if there was anything extraordinary with the Sun to cause the present conditions. He stated that he had looked at the sun Thursday, and noticed then a very small spot, not more than 4,000 miles in diameter, but when he looked today he saw a great change, the spot had increased in size to 100,00 0miles. In addition there were also marked disturbances on the eastern limb of the sun. He did not think, however, that the present storm can be attributable to this cause.

LARDER LAKE ORE

From Blue Bell Showen at Cobalt

Cobalt, May 3rd.—J. G. Magee, the consulting engineer of the Blue Bell Gold Mines of Larder Lake, arrived here to-day with a bag of gold ore, weighing about two hundred pounds, taken from the Blue Bell properties. The free gold can be plainly seen in every piece .Assays taken here show close to $8,000 to the ton. Mr. Magee says he put in six inch shots at various places of the Blue Bell properties and found gold in every instance. Mr. Magee is on his way to Toronto to purchase boats and complete camping outfits in order to prepare for stamp mill to be installed by the company at once. Mr. Magee will return to Larder Lake and take charge of and push the development of the Blue Bell properties.

Mr. Magee is a mining engineer of known reputation and reliability. He believes the Larder Lake district will prove one of the greatest gold fields in the world and that the Blue Bell in the world and that the Blue Bell will make a great record as a producer.

Rev. J. W. Pedley, will deliver his popular lecture "Mrs. Wiggs of the Cabbage Patch" in St. Paul's Sunday School Room, on Friday Evening, May 10th, 1907. Admission 25c, children 15c. 2d105

Money Refunded for The Excursion Tickets

Those who bought tickets for the excursion to Toronto to-day, but who were unable to use them on account of the cancellation of the excursion, may have their money refunded on application to the C.P.R. city ticket office.

Word was received from Toronto early this morning, that on account of the wet grounds, there would be no game played to-day, and, on receipt of this information, those in charge of the excursion decided to cancel the trip.

AN ATTEMPT TO KILL KING

Train on which he was Travelling in France was Tampered With

Result the Axel was at White Heat when Discovered, but for Precaution Train would have been Wrecked

Examiner Special.

Geneva, Switzerland, May 4.—It is asserted by the newspapers here that the delay of a railway train, on which King Edward was travelling to France, was in reality an attempt to wreck the train. Just before entering the Simplon tunnel the train was stopped as a precautionary measure, and it was found that the grease box on one axle was missing.

The axle was all white heat. Had the train continued, the axle must have fused, derailing the train.

It was first given out that the overheating of an axle had compelled the removal of a car from the King's train. It did not state that the bolt and pins securing the box had been deliberately removed.

An inquiry has been commenced.

WILL ADDRESS THE LADY ODDFELLOWS

Rev. Wm. Major Will Speak at Meeting to be Held To-morrow Night at Rebekah Lodge Meeting.

Rev. Mr. Major will address the members of Golden Link Rebekah Lodge, No. 81, I.O.O.F., to-morrow afternoon at four o'clock in the Oddfellows Hall. Great interest is being shown in the service, which is the first of its kind in Peterborough. Golden Link Lodge of Lady Oddfellows was organized Oct. 27, 1906, and has already made splendid progress, both numerically and otherwise. The ladies confer the degree in a very creditable manner, and at almost every meeting there are a number of candidates. In addition to the ladies, all Oddfellows and any of the general

For Tailoring, Dressmaking, Corset making, Blind making and all heavy or light work, no Sewing Machine can compete with the Davis Vertical Feed. 2-d-103

MR. MULLIGAN WILL ADDRESS THE MEETING

Interesting Special Service at Gospel Hall To-morrow Night—The Subject.

Mr. G. W. Mulligan will speak at the evangelistic meeting in the Gospel Hall to-morrow night on the "Seven Special Sufferings of Christ," commencing with "His Agony in the Garden of Gethsemane." The public is cordially invited. Mr. John Williams will open the meeting, and there will be good, hearty singing.

SOME PUBLIC LIBRARY BUILDINGS WHIC PUT PETERBOROUGH'S ANCIENT LIBRARY TO SHAME

This is the Public Library Building in St. Mary's, Ont—A Town with a poplataion of 3516—How does it compare with Peterborough's Public Library, a city of 15,000 population ?

New Trunk Sewer Will Be A Necessity In Three Years

Member of City Council States That it Will Only be a Matter of a Short Time Before it Will Have to be Built.

SOME DISTURBING FACTS

"A new trunk sewer inside of three years." This is what one of the city aldermen stated to the Examiner would have to be provided for. The present trunk sewer, which runs down George street, in three years, at the present rate of increase in the city's population, and consequent increase in sewer connections, will have reached its limit of capacity, and will have to be supplemented by another main sewer.

A Defective System

The sewer system of the city, even at the present time, is not what it should be. For some time in the spring, at the time of the high water in the river, the sewage has to be forced through the pipes, the water backing up the sewer, preventing a natural discharge. This is not a pleasant situation to contemplate, but, according to the information given the Examiner, it is the situation existing.

At the present time, with the sewer system as it is now, there are sections right in the heart of the city, and in thickly populated districts which cannot secure connection with the sewers.

In the first place, it is stated that the trunk sewer should have been run down Aylmer street instead of George street, and, in the second place, the sewer was not laid nearly deep enough.

Sewer on Park Street

The result of this will be that, at the very most, not more than three years can pass before another trunk sewer will have to be constructed. It will have to run down Park street, and will have to have an outlet farther down the river than that of the present sewer.

When the Board of Works took its annual tour this week it was discovered that at the manhole on the sewer at the corner of Lansdowne street the sewer was three-fourths full to the top of the manhole, an intolerable state of affairs.

This is one of the expenditures which will have to be faced in the near future.

YOUNG'S POINT LOCK OPEN TO-DAY

Stoney Lake Navigation Company's Steamers Moving Northward to Meet the Drives

The lock at Young's Point was officially opened to-day for the first time this season, and now will be prepared to let through all steamers to and from the lakes.

To-day the steamer Majestic left the Point for Jack's Creek, from where she will bring down a tow of logs for the McBurney Lumber Co.

On Monday the steamer Stoney Lake will go to Lovesick for timber at the mouth of the Missasauza and Deer Bay creeks belonging to the Peterborough Lumber Co.

The Quaker Oats Mills Will Operate Twenty Four Hours

In a Short Time With The Arrival of Western Grain Large Increase in Staff of Employees Will be Necessary.

MANY ORDERS ARE AHEAD

Commencing as soon as possible, the mills of the Quaker Oats Company will be run on double shift, 24 hours a day. This announcement was made from the office of the superintendent, Mr. W. H. Denham, this morning. It appears that the company has had considerable grain stored in the West, but the handicaps under which the railways have been working has made it impossible to get it shipped. With the opening of navigation, however, the oats, which have been in the elevators in the West, will begin to come out, and the situation be relieved.

When the grain comes, the roller oats mill will be run 24 hours a day. This will mean an increase in the staff of about 30 men and possibly 50 girls.

It is probable that so long as the grain is available the mills will be operated for the full day, enough orders being on hand, it is understood, to warrant their full operation.

New Exclusive Feature Secured By The Examiner

The Examiner has secured what it confidently believes will be a feature of more than usual interest to its readers. The sole right to publish in Peterborough the series of copyrighted articles, "The Making of a Successful Husband," by Caspar S. Yost, has been purchased by this paper, and in a few days the first of these letters will appear.

John Sneed hears that his son is about to be married and writes him a series of interesting letters on this important subject—a subject which interests in a greater or less degree every reader of a newspaper.

The literary form selected—that of letters from a father to his son—permits the greatest freedom of expression, so we not only have sound advice, but a fadmiliar, racy style which at once attracts and holds the reader.

What John Sneed says and how he says it makes the articles of the greatest interest.

There are eleven of these letters dealing with: Choosing a Wife, The Honeymoon, Making a Home, Domestic Finances, Cooking Problem, Home Department, Home Economics, Married Man's Place, Mutual Confidence, Your Mother-in-law, Work Brings Happiness.

Everybody should read them because everybody will enjoy them, and everybody will profit by them.

These letters will be illustrated. Every reader of the Examiner should read them. They are sure to enjoy what John Sneed tells his son.

TWO BROWNE FAMILIES ARE HAVING A RE-UNION

One Member Has Been Away Twenty Years, the Other Ten Years---They're Both Home To-day For The First Time.

HE HAS PROSPERED IN THE WEST

Mr. Thos. Brown Returns to Visit His Father After an Absence of Ten Years

Mr. Thomas Brown, a son of Mr. J. Coyle Brown, Public School Inspector, who has been living in Western Canada for the last ten years, and who has been successful in his business there, has returned to spend a short time with his father. Mr. Brown has been farming in the West and during the last few years has been sharing in the general prosperity of the West. He has disposed of his farm for several thousand dollars and will, in future, engage in another line of work.

OBITUARY

LILY MILLER

The many friends of Mr. and Mrs. Thomas Miller will extend their sympathy towards them in the loss of their infant daughter, Lily. The little one was hurt three weeks ago and passed away yesterday. The funeral was held this afternoon to the Little Lake cemetery.

A PETERBOROUGH OLD BOY RETURNS

Mr. A. D. Browne, of Chicago, Here After an Absence of Twenty Years

Mr. A. D. Browne, of Chicago, business manager of the "British-American," is in the city to-day, after an absence of twenty years, and, with his wife, is visiting his mother, Mrs. John Browne, George street. Mr. Browne was during his residence in Peterborough, employed as a printer, but when he left Canada twenty years ago, he left the case, and took a step higher, and he has been going up the ladder ever since. This is his first visit to the place of his birth in the two decades since he left Peterborough, and of course notices many improvements in the appearance of the place since he left it. He will spend a few days visiting his friends here.

To-morrow morning, Mr. Browne, who is a vocalist, will sing at the Charlotte street Methodist church, and at night he will be heard at St. John's.

Housekeepers! See the Davis Sewing Machines at the J. M. Greene Music Co, George Street, Sole Agent 3-d-10

WORK ON ARMOURIES TO BEGIN AT ONCE

Contractor Was in the City Yesterday Looking Over the Ground

That the work on the new armoury will commence at once seems certain. Mr. G. H. Proctor, of Barnia, the contractor to whom the contract has been awarded, was in the city yesterday and looked over the ground at Central Park. He stated that he would commence work upon the excavation next week. This will be welcome news to the citizens generally. With two large buildings being erected there at the same time, Central Park will be one of the most busy sections of the city.

COMMITTEE WILL SEE HYDRO-ELECTRIC COMMISSION

Hon. Mr. Beck Will Talk Over Local Power Conditions with Committee From City Council

The Special Power Committee of the City Council will go to Toronto next week to interview Hon. Mr. Beck, the Power Minister in reference to the power question, so far as it relates to Peterborough. Mr. T. E. Bradburn is in Toronto to-day and it is probable that while there he will arrange a meeting with Mr. Beck for the Committee.

Piles Cured in 6 to 14 Days

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, or money refunded. 50 cents.

Two Warsaw Youths Make Discoveries

A STONE TOMAHAWK FOUND

Indian Weapons and Tools Found On Stone Shelves Several Hundred Feet Beneath the Earth's Surface —A Great Discovery

(Examiner Special.)

Warsaw, May 4.—A discovery arousing a great deal of interest and comment was made near here yesterday —one which has unearthed the work of redmen of the past and which has revealed an ancient home or temporary dwelling of representatives of that historic race. The discovery, part of which has been known to a number of residents in this locality for many years, is that of a great cave situated a few rods to the west of the head of Quarry Lake. What makes it the more interesting, however, is the fact that Indian weapons, rough tools and the handiwork of the redmen, were found by the discoverers in this great underground cavern into which possibly no white man ever gazed before.

The unique find of the cave was made by two Warsaw youths, who yesterday made their second visit to the wonderful underground domicile and explored hundreds of feet into the cavity. The walls of the various rooms are composed entirely of stone. Two entrances to the cave were found, one merely wide enough to allow a person to crawl through and the other much larger.

The explorers returned to the village after spending more than three hours underground and brought with them several souvenirs of their exploit. Among them was a stone hatchet, smoothly carved; a stone wedge with chips broken off; some pieces of pottery; a brooch, which presumably had been carved from the tusk of a bear, and a number of stone articles, which from lack of finish, are undefinable. A small wooden pipe with an Indian's face carved on its bowl was also among the unique discoveries.

Shelves Hewed Out

Five years ago the same gentlemen visited the cave, but at that time only the first room of the wide entrance hall was penetrated and then nothing to attract one's attention was seen. Yesterday, however, with the assistance of a lengthy rope, which was attached to a stick at the mouth of the cavern, so that they might easily retrace their steps, the explorers advanced into the entrails of the earth about 500 feet and explored the ancient hiding places of the almost forgotten redmen.

Their journey was facilitated by means of a lantern, which, they claim, could barely disperse light half way across the floor of the inner apartment.

The walls of the cave in places had been hewn out to form shelves and it was upon these that the crude tools and weapons were found. On the floor were the charred remains of burnt wood.

Trail to Water's Edge

Extending from the mouth of the cave is a deep canyon reaching down to the Indian River, the original and euphoneous name of which was Squaknegosippi Creek, in the language of the redmen. How many years ago these regions were inhabited by the Indians is still a mystery as no remembrance of them is held here by the oldest residents.

There are several explanations offered as to the origin of this underground cavity, but the most plausible seems to be that the earth and gravel which formed a link between the granite rock beneath and the limestone above, has been washed away in past ages, leaving nothing but the atmosphere between. Those who have looked over the situation carefully cling to that geological idea which seems to explain the cause.

An Historic Area

The cave is only one of three spots within an area of a few acres which are of great historical interest. There is the great natural falls, the sound of whose falling waters is easily within ear's reach of the cave. A few rods south of the latter is the famous Potash Kettle, a hole twelve feet in depth, worn out by the action of water upon a granite rock which for years must have been revolving the great kettle. The hole is located about thirty feet above the surface of the water in the Indian River at present, so that it must have been worn out centuries ago.

Like hands have rested off a few of the stones at the top, and the bottom of the kettle has been knocked out. Unlike the cave, this has been visited by many who have left traces of their visit by inscribing initials on the inner surface of the great hole.

The cave is but a few hundred yards north of the line surveyed by the C. P. R. last autumn which crosses the Indian River some distance south.

The discovery has aroused considerable interest in this locality and many are arranging expeditions to that remarkable spot to verify the statements of the explorers.

The articles found in the cave have been received at the Examiner office and any who wish to inspect them may do so. They consist of a stone hammer, a grooved stone wedge, four pieces of pottery, a brooch and a couple of unfinished tools.

UNION LABELLED

FRIDAY, MAY 3, 1907.

A JUST JUDGE

A Winnipeg lawyer recently withdrew from a case because the presiding judge refused to permit him—the lawyer—to browbeat and bully witnesses; would not permit him to practically practice subornation to perjury. This judge should be multiplied. If every judge restrained counsel, who seem to think it their duty to regard every witness as a liar and a legitimate object of cowardly abuse—abuse, that protected by court privileges cannot be resented—there would be more dignity in our court proceedings, there would be more probability of the "whole truth" being elicited. A timid witness may be easily bullied out of his or her wits, and under the thumb-screw of brow beating counsel, tell a story that he or she did not intend to tell, but which, becoming confused, the witness does tell. By his tactics, the counsel, instead of getting at the truth, gets something that is not the truth, and the interests of justice are not subserved. A defiant and self-respecting witness may easily have his temper so rasped by abuse that, blinded by passion, he loses sight of his oath, and out of sheer obstinancy, withholds the truth, and in this case, also, the interests of justice are not subserved. A witness in a box of a court of justice, is entitled to courtesy and decent treatment, and no lawyer can sustain a claim to being a gentleman who applies in court, towards witnesses, a privileged system of abuse, villification and insult, that he would scorn to apply in private intercourse, or which he would not employ on the streets towards some men, without danger of having his head knocked off. Witnesses in courts of justice have rights, which a wise judge, like him of Winnipeg, should assure them.

NOBODY WANTS IT

Has anybody heard, or does anybody know of, a single soul, who has had, or is likely to have, a good word for the sign bylaw, except that half-dozen of misguided aldermen, who father and fondle it. This little bit of arbitrary civic legislation, is a thorn in the flesh to not only the promoters of it, but to the important business interests it menaces with injustice and injury. It was passed, held in abeyance, referred back again and again, like a memorial to the Circumlocution Office. It is slated to come before the Committee of the Whole on Monday night, when it is to be hoped it will be given its everlasting quietus. Where did this fearfully and wonderfully made bylaw have its beginning? What was the nature of it? Who wanted it? Who demanded it? It is pretty certain that there was no public demand for it. It is certain that the merchants and business men of the city do not demand it, but execrate it, as a piece of petty tyranny, a recrudescence, in this respect, of the spirit of the Middle Ages, and the days of witch-burning, the revival of the village spirit, that would sweep away the outward and visible signs of progressive and wideawake cityhood, which give the business streets of the city an air of life and thrift and progress and enterprise, which will be sadly lacking if the bylaw is persisted in, and the signs have to be removed. A city council exists to promote—not fads—but the best interests of the citizens; and, especially, citizens with large claims to consideration, the mercantile citizens, who, on the top of heavy rents, which increase from year to year, pay over two-thirds of the taxes of the city. It is to be hoped that Monday night next will see the end, one way or other, of the sign bylaw, which from its origin was better fitted for the waste basket, than the statute-book.

EDITORIAL NOTES.

It is to be hoped that this Squaw winter will only be a snow squaw-l.

Toronto citizens have to pay seven cents a quart for their milk. They have this consolation: The milk coming from the country will not be diluted with city water.

WHAT SPRING DOES

The coming of spring has varying significance to varying persons. To the housewife it presents the inevitable duty of the semi-annual house cleaning, at once her bane and her delight. For, though housecleaning, and its sordid concomitants, banish her from society and shut out society from her for a greater or lesser time, she gloats over it. She glories in turning the house topsy-turvey, and in taking on a veritable frenzy of renovation; in inaugurating a domestic deluge of soap and water and—discomfort to and demoralization of, her men kind. There is no time nor circumstance which reduces the head of the house to such dwindled insignificance as the time and circumstances of housecleaning, when everything is disorganised, when the place that once knew his pipes and tobacco jar, his slippers, knows them no more. When his favorite dish at dinner is represented by a cold snack and colder looks if he once dares to lift his voice in remonstrance or complaint.

Spring comes with especial delights to the lover of nature, and nature's sweetest gifts to man—the flowers and the birds. What joy and even ecstasy, to invade the borders of the leafless woods on the sunny aspect, to find the first wild flower which the soft winds of spring and the golden beckon of the sun tempt to unfolding. What joy to have the re-created birds back again after their southern sojourn, called to a migration over countless leagues, obedient to the lure of reproductive nature, to nest in the budding forks of the trees and rear their downy broods, to the accompaniment of gladsome warbling. What joy and ecstasy to the lover of flowers to wander aimlessly but eagerly, about his grounds, with his eye cooked to note the first green, or pink, or purple spire of growth of his pet flowers, after the cold grasp and icy bond of winter, peeping through the mellowed soil.

Spring, so Tennyson melodiously tells us, turns the young man's fancy to thoughts of love, and we must assume, the young woman's thoughts to love. Thoughts ripen into longings, longings ripen into resolves, resolves ripen into an engagement ring, and thanks to the impulse of spring, we have our glorious crop of glorious June brides—the first fruits of spring, ripened and realized before the gardener plucks his first mess of green beans.

Spring brings into play and—work—countless activities that have hybernated through the winter like a brown bear. The farmer mends his harness, knocks stray bolts into place in his ploughs and harrows, sets the barn doors open to the spring breeze and sunshine, winnows his seed grain and fares forth to turn up the mellow soil, fecund with promises of fruitage, to receive the faith-sown grain.

The dairyman tells the housewife to put the milk cans in order; the boys are bidden to watch the new-yeaned lambs that open their eyes upon the sunny slopes amid the bleatings of the flock. The shutters are taken off the cheese factory, the vats are dusted, everything made ready and the expectant maker stands at the door, looking up and down the highway, for the first lumbering load of milk cans of the season, the pioneer of a long procession which will wend its way to the factory from every side line in the district through the mellow days of May, the leafy hours of June, the sweltering days of July, the clammy heat of August, the mild September and brown October, into early November.

In the spring, the steamers and other water crafts that have lain with a heavy list, on the bank of some cove through the storms of winter, are shoved into the water, the paint pots are busy, the standing rigging is looked after, the hawsers are overhauled and everything is made ship-shape, for the season of thrift and money making and pleasure making.

In the spring the streams take on their flow and burden of transportation, from the stone-hooker and driftwood punt to the grain carrying leviathan. The half a hundred millions of golden wheat that has been frost-locked in the Northwest, since November, begin to creep out on its way to the heart of the Empire, to come back to the farmer's purse in the form of gold, good British gold. When spring comes—from the Tadousac in the East, to Vancouver Island in the West, this robust young Dominion, stimulated with the wine of spring, like a young giant roused from refreshing sleep, wakes to vigorous motion every pulse of life, representing every form of productive activity, from a brooding hen to an ocean greyhound, from a springing blade of grass to the building of a city—starts into new life, rejoicing runs resistless in its mighty flow as the grinding onward crunch of a glacier.

A PAINFUL INJURY WAS INFLICTED

Mr. Wm. Watson, an Employee of The Cavendish Lumber Company Hurt by Emery Wheel Breaking.

On Monday last, whilst Mr. Wm. Watson was engaged in sharpening a saw at an emery wheel in the Cavendish Lumber Co.'s filing room, at Lakefield, the wheel burst, one of the pieces striking his left hand and inflicting a bad gash across the back, while another struck him very forcibly on the chest.

FOR SALE.

That well built brick house and lot situated at the corner of George and Dublin Streets, also excellent corner lot. This property is to be sold to wind up an estate, and all particulars may be had at 580 George Street.

HOW IT EFFECTS TRADE IN HIGH GRADE PIANOS

Some months ago we published, as evidence of Peterborough's prosperity, a list of recent purchasers of the celebrated Gerhard-Heintzman pianos, containing about forty names of our prominent citizens. As a further proof of the continued good times, we publish herewith another list of customers, who have purchased from the Gerhard-Heintzman Company, since the list referred to appeared, through their local representative, Mr. W. H. Isaac:

Mrs. A. C. Tremeer,
A. F. Lane,
A. A. McIntyre,
W. E. Wasson,
A. J. Warne,
William Robertson,
Miss Bernice Hayward,
Mrs. J. Scott,
F. Arnsby,
R. Holt,
William Gibbs,
S. Sharpe,
Miss Eva W. Bradd,
F. Brownscombe,
Mrs. Frank Galvin,
R. Gibbs,
Mrs. J. McGill,
W. H. Isaac,
H. R. Stewart,
Miss Mossie Henderson,
Pardee B. Wright,
L. L. Kennedy,
Miss M. A. Ferguson,
Miss M. Loomis,
Dr. Ford, Norwood.
William Shea, Norwood,
Wilmot Harrington, Havelock,
A. E. Denike, Havelock,
James E. Black, Havelock,
Thomas J. Lloyd, Havelock.

It speaks volumes for the city of Peterborough and district, that the people are buying such high-grade pianos, and which, after all, is the essence of economy.

The Wasting Process of Disease

Disease is a tearing down, wasting away and destroying of the tissues of the body, and a shrivelling up of the nerve cells and blood corpuscles. Nature demands assistance to overcome this dreadful wasting process and the needed help is best supplied by Dr. Chase's Nerve Food, the great blood builder and nerve restorative.

PREPARING IDYL WILD FOR THE SEASON

Gang of Men at Work Making Many Improvements to This Popular Summer Resort.

The steamer Water Lily, which yesterday made her usual Friday trip down the river in preparation for her Saturday run to Peterborough, took a gang of men down to Idyl Wild, who will be engaged during the next few weeks in preparing that resort for the summer. It is understood that a number of extensive improvements will be effected at this popular resort prior to the opening of the tourist season.

WATER ST. RESIDENT HAD A KICK

Objected to Paying for Sewer in Front as Well as One in the Rear.

ASSESSMENT CONFIRMED

Thirty-two appeals against assessment were heard by the Court of Revision at its meeting last night, when there were present, Messrs. Wm. Langford, chairman; A. E. Dixon and B. Morrow.

The principal matter of interest that came up was the appeal of five Water street residents against being assessed for a sewer on that street, while they already pay taxes for a sewer in the lane at the back of their property between Water street and Dennistoun avenue.

The Court confirmed the assessment.

A similar complaint was heard from residents on King street, who also pay for a sewer in a lane near their property, and objected to being taxed for another on King street. On this case, too, the assessment was confirmed.

Most of the appeals were of a trivial nature, involving a matter of a few feet over assessment.

The Court adjourned to meet again on Tuesday night.

B. LASTAR'S BARGAIN HOUSE

Removed to 166 Simcoe Street—formerly H. ENGEL'S.

HAVE YOU SEEN those Bargains which I bought from Montreal—about $4000 worth of fashionable Spring and Summer Ladies' Ready-to-wear Goods.

THE MACCABEES HELD OPEN MEETING

Addresses Given by Sir Knights Yule and Townsend—An Excellent Programme.

CONCLUDED WITH BANQUET

The open meeting of the Knights of the Maccabees, held in the Foresters' Hall, George street, last evening, proved to be a very enthusiastic event. A fairly large number was in attendance, who listened with pleasure to the splendid programme presented. The speakers from a distance, who were expected, were unable to be present, on account of pressing business, but their places were ably filled by Sir Knights C. A. Yule of Colborne, and Townsend, of Smithville. These gentlemen gave addresses referring principally to the insurance system, and work of the Maccabees.

The chair was occupied by Sir Knight J. Titterson, commander of the local Tent. Before opening the programme he expressed his regrets at the absence of the two speakers who were expected, Sir Knights S. W. Trustler and Jas. Jenkins, but was pleased to have Sir Knights Townsend and C. A. Yule in attendance, and willing to give addresses.

The programme opened with a solo, splendidly rendered by Miss Maud Titterson, entitled, "I've got him on a string," which was enthusiastically received.

The first speaker of the evening, was Sir Knight C. A. Yule, who, by way of introduction, explained the absence of the gentlemen expected. He was pleased to see that the local Tent was working hard in preparing the way for the big triennial convention in 1910. In conclusion he spoke of the insurance system of the fraternal Society of the Maccabees, and exhorted every member to do his utmost to secure a more extensive membership.

Sir Knight Packard was next heard with delight in a mandolin solo. This was followed by a recitation from a talented young elocutionist, Miss Maud Titterson.

Sir Knight Townsend was the next speaker. It was a surprise, he stated, that he was present, and regretted the unavoidable absence of the other speakers. He was much pleased to come back to Peterborough again, as it was always a pleasure to be in the city, which he considered had grown wonderfully during the last ten years. Many of the Peterborough stores were equal to those in Toronto, he said, if not in size, they were in beauty.

He next referred to the splendid work of the Peterborough Tent, which was sufficient proof that the members of the local Tent were satisfied with the society of the Maccabees.

He would like, he said, to see a great Maccabees' picnic in the city this year, to bring together the Knights and Ladies. He exhorted each representative to assist in the work of obtaining new members, for unless the effort was a united one little could be accomplished.

In referring to the financial statement of the K.O.T.M., he stated that the society had now $6,000,000 of surplus funds, so that the order was an institution of great prominence, and should be respected.

Miss Maud Titterson was again heard in a solo, and also in a recitation, and Sir Knight Packard gave a second mandolin selection, which concluded the programme.

After the programme, those present retired to Lang's palm parlours, where an enjoyable banquet was held in honour of the visiting members

A BURNING CHIMNEY BROUGHT OUT BRIGADE

Fire at Corner of George and McDonnel Does Little Damage

A burning chimney at the corner of George and McDonnel streets, in Mr. George Schneider's bakery, brought out the fire brigade last night about 10.30 o'clock. The run was made in rapid time, the firemen being on the scene about two minutes after the alarm was sent in.

The chimney received a thorough burning out, but no damage was done, owing chiefly to the fact that the building was covered by a cement roof.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. PE-RU-NA DR. HARTMAN'S FAMOUS PRESCRIPTION **THE TALK OF THE CONTINENT.**

READ AND BE CONVINCED.

Just A Few Of the Sincere Letters Written To Dr. Hartman By Honest People.

Owes Good Health to Pe-ru-na.

Miss L. Wall, 350 N. Dale street, St. Paul, Minn., writes:

"Last spring I had a very severe case of catarrh of the stomach and bowels. I was very much run down in strength and lost my appetite.

"I took three bottles of Peruna and found myself gaining very quickly in every way.

"I also had catarrh in my head, which has been entirely cured.

"I thank Peruna for the health I am enjoying."

The World's Greatest Medicine Factory.

The rapid growth of the Peruna Medicine Company is as phenomenal in the business world as the universal popularity of their famous remedy, Peruna. The plant covers a number of acres, and employs several hundred people. No other medicine firm in the world reaches anything like the volume of business done by Dr. Hartman's firm.

Although Peruna is a proprietary medicine, the details of its compounding are in strict accordance with pharmaceutical discoveries and nothing gives Dr. Hartman greater pleasure than to show his intimate professional friends through the laboratory where Peruna is made.

A Doctor's Prescription.

For years Dr. Hartman used Peruna in his private practice as a regular prescription. He had no thought of manufacturing it or advertising it as a proprietary medicine until there was a demand made upon him by his many friends, who clamored for the original prescription.

Forty Thousand Patients.

Dr. Hartman estimates that he must have prescribed Peruna for over forty thousand patients before it was advertised as a proprietary medicine.

Relieved in Four Weeks of Severe Cold on Lungs.

Miss Josie Schaetzel, Gen. Del., Appleton, Wis., writes:

"I contracted a severe cold which settled on my lungs in very short order and it was not long until it developed into a serious case of catarrh. Every morning I would raise a lot of phlegm, which was very disagreeable. My digestion was poor and my lungs sore.

"After a few doses of Peruna I began to mend, and felt that if I kept on taking it, it would not be long until I would be well. I was right, for in four weeks I was well again.

"I think Peruna is a grand medicine, and wish to add my testimony to the many others you have."

Catarrh is almost universal. Catarrh is difficult to cure. Many doctors do not care to treat catarrh at all.

Followed Doctor Hartman's Advice — A Grateful Letter.

Mrs. Anthony Rauch, 438 Johnston street, Bucyrus, Ohio, writes:

"I was suffering from obstinate constipation and torpid liver when I took your advice and purchased six bottles of Peruna and Manalin.

"When I had taken only one bottle I felt much better and since I have taken two more bottles I feel entirely well, but I will continue taking the medicine for a short time to make sure of my cure.

"I think Manalin is one of the finest remedies for constipation that I ever tried. I will never be without it. It has made me so strong. I can do a day's work and never tire.

"I am so glad I do not get those dizzy spells any more. I have'nt had one since I took your medicine.

"I cannot thank you enough for what your medicine has done for me. All sick people should give it a fair trial."

Pe-ru-na's Popularity.

Peruna is not like so many other remedies that pass away as soon as the first few bottles are used. The longer Peruna is used in any community, the more popular it becomes.

Finds Relief in Pe-ru-na After Suffering Twenty Years.

Mrs. M. S. Davis, 1505 Buena Vista street, Nashville, Tenn., writes:

"After having been a constant sufferer from catarrh for more than twenty years and after trying almost every remedy advertised, and having lost all hope, I very reluctantly began the use of Peruna about two years ago.

"Everybody says I look younger now than I did twenty years ago, and I actually feel younger and better, and weigh more.

"I am recommending it to my neighbors and all with whom I come in contact."

Pe-ru-na Removes the Cause of Catarrh.

Peruna has no bad effects upon the system and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years.

Pe-ru-na Actually Relieves.

The reason why Peruna has become a standard catarrh remedy the world over is simply because it eliminates catarrh.

This explains why Peruna has become so popular. It relieves catarrh. This is an amply sufficient reason why it should become popular.

It therefore follows that when a remedy is devised that can be used in the home at a moderate cost, such a remedy should inevitably become popular.

Keeps Pe-ru-na in the House.

Mrs. Jessie Smith, 408 Buttles Ave., Columbus, Ohio, writes:

"I have used your Peruna for catarrh of the head and stomach, and have been greatly relieved from it.

"Therefore, I cannot praise Peruna too much and can recommend it to any one having the above disease, as there is nothing better.

"I always keep it in the house."

There are a great many catarrh cures in the world. The most of them are local applications. Few of them are to be used internally.

Unfortunately, a large number of these catarrh remedies, especially the ones prescribed by the doctors, contain narcotics of some sort. Cocaine, opium, and other narcotics are used.

These remedies give temporary relief. The patient thinks he is better right away.

In a few weeks, however, he discovers his mistake. Not only is his catarrh no better, but he has acquired the habit of using some narcotic.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind.

Peruna is perfectly harmless. If taken according to directions on the bottle. So used, it can be taken any length of time without acquiring a drug habit.

Closing Exercises Of The Y.W.C.A. Were Splendid

Large Number of Friends of The Association Greatly Pleased---Miss I. Coventry, Physical Directress a Successful Teacher---The Best Demonstration Ever Presented in The Y. M. C. A. Gym.---A Financial Success.

The Young Women's Christian Association achieved a splendid success last night at the closing exercises of the gymnasium classes held in the "gym" of the Y. M. C. A. The ladies proved that everything they undertake they can carry to a successful issue. Not only does the association seek for the mental and moral development of its members, but mindful of the maxim of the ancients that a sound mind requires a sound body, they have not neglected their culture physically. In the minds of all those who attended the exhibition, using a phrase of business men, the work of the Y. W. C. A. has scored fifty per cent., and its many friends who have followed its progress since it was instituted must feel gratified after the demonstration of the excellent work that the physical culture department is accomplishing.

A Large Attendance

The gallery and all the available space on the ground floor of the Y. M. C. A. "gym" was occupied by the large number of ladies and gentlemen that were present. It was one of the largest assemblies that has ever filled the "gym," and the general consensus of opinion was that the different classes excelled anything ever seen in the city before. The lady to whom the greatest praise is due is undoubtedly the physical director, Miss Ivy Coventry, who has been in charge of the classes for some time. She must feel gratified that her efforts have been so fruitful, and that she has been assiduous in training was shown in the promptitude and precision with which the drills were carried out.

Mention should also be made of the efficient manner in which Miss M. Rannie accompanied the movements of the classes. The excellence of the work of the classes was greatly due to her efforts.

The Exercises

There were two classes taking part, a senior and junior. The dumbbell and wand exercises by both classes was very good and could not be improved upon, as were the marching calisthenics and club swinging of the seniors and the sailor drill by the juniors. Perhaps the best drill executed during the evening was the lantern drill by the senior class. There were sixteen young ladies, each carrying two Chinese lanterns suspended from either end of a T shaped stick. The lights in the "gym" were turned out and the beauty of the scene is as difficult to describe as were the intricate movements to follow. It was certainly a splendid drill, the manoeuvres being without an error.

Twenty Froggies

Perhaps the most amusing number was the appearance of the twenty froggies, little tots of girls dressed in green. They represented green frogs, hopping, playing leap-frog and even croaking. Their costumes were realistic and the little ones seemed imbued with decided frog impulses; one little girl especially giving a little kick when hopping that greatly amused the audience. Their number was repeated by request. The closing drill of the seniors, a Japanese fan drill, was another pleasing exercise.

Miss W. Gumpricht gave a piano selection that deserves mention. She was given a hearty recall. Miss Ethel Hill delighted the audience with two recitations, one being an encore. Miss C. Reesor sang in a finished manner, accompanied by Miss Wallis, violin obligato, and Miss Rannie. She was well received, but on account of indisposition, did not respond. Her song was "My Heart's Long Dream of You," from Mascagni's Cavaleria Rusticana.

Miss Rannie was presented with a bouquet after the junior class had finished their fancy steps.

The ladies wish to thank Mr. Williamson for his kindness in allowing them the free use of the "gym." It may not be out of place to pass a few remarks upon the suitable attires of the young ladies and the smaller girls. They were well adapted for gymnasium purposes, were neat and pretty and added a quiet charm to the performance and were very becoming.

The evening was brought to a close by singing "God Save the King."

Those who composed the classes were as follows:

Seniors—Ruby Adamson, Hazel Dean, Lilian Dean, Marion Denne, Marion Dean, Mae Edgar, Annie Edgar, Dora Dutton, Maud Foote, Wilhelmina Gumpricht, Edna Hill, Dot Hackett, Ada Mines, Ethel Miller, Mae Milburn, Lizzie Pollock, Elsie Pollock, Aggie Reid, Lenore Sanderson, Genevieve Sanderson, Kathleen Wallis.

Juniors — Margaret Anderson, Hazel Cressman, Jessie Cressman, Olive Conway, Emma Cox, Olive Coveney, Aimee Hill, Jean Hill, Dorothea Hill, Dorothy Harstone, Marion Kendrey, Helen Kendrey, Eleanor Latimer, Madeline Morrison, Ethel Morrison, Isabel Morphett, Robena Montgomery, Nellie Mathers, Margaret Neill, Agnes Neill, Edwina Palmer, Florence Pearce, Madeline Pearce, Gladys Patterson, Mabel Pringle, Florence Scott, Helen Stapleton, Margaret Sanderson.

The twenty Froggies were the following little girls:

Jessie Cressman, Margaret Sanderson, Agnes Neill, Dorothea Hill, Helen Kendrey, Madeline Pearce, Ethel Morrison, Emma Cox, Olive Conway, Grace Conway, Gladys Morgan, Joyce Davidson, Stephenie Davidson, Georgie Clement, Grace Yeates, Soden, Esme Aylmer, Muriel Moran.

THE REHEARSALS BEGIN ON MONDAY

For the Lacrosse Club's Big Minstrel Show—Music is Here

Rehearsals for the big minstrel show of the Peterborough Lacrosse Club will begin on Monday night in the Elks Club rooms. The music has arrived and notices are being sent out to the members that rehearsals are to begin at once. The affair promises to be the musical event of the season, and its presentation will be awaited with interest.

The Executive of the club met last night at the National Hotel and made arrangements to begin practising on Monday night at Riverside Park if the weather permits.

MORAL REFORM AT PARK STREET CHURCH

Rev. A. H. Brace Will Preach on This Subject at the Park Street Baptist Church To-morrow.

"Moral Reform" will be the subject of the morning sermon at the Park Street Baptist Church to-morrow. The pastor, Rev. A. H. Brace, has received a circular letter from the Baptist Temperance and Moral Reform Committee, appointed at the convention held in Peterborough last fall, in which attention is called to the importance of this question, and the pastors are urged to bring this claims before their churches.

You have read the Sailor Boy's Plea buy to-day for your dinner to morrow. Sailor Boy Canned Goods Tomatoes, Corn, Peas and Salmon Your money does not buy better Goods. Do you get Sailor Boy or Substitute?

Board Of Control The Solution of Difficulty

Member of City Council Says Many of This Year's Council Will Not Be Seen There Next Year.

TAKES TOO MUCH TIME.

"Unless I am greatly mistaken, there are a good many members of this year's Council who will not be seen in next year's Council," remarked a city alderman to the Examiner to-day. Asked as to the reason, he stated that in order to be a member of the Council it was becoming almost necessary for one to give up all other business and give one's whole time to attending to the city's business, and few of the present members of the Council are in a position to do this.

The alderman referred to stated that the way things were running now it simply meant that to be a member of the Council one must be prepared to spend practically every night of the week at the City Hall, attending committee meetings. Not that it was absolutely necessary to spend so much time to get the business done, but at every meeting there were always some members of the Council who did so much talking that it was nearly midnight every night that a committee meeting was held before the aldermen could get home—and, even after having spent half the night there was frequently not much business gotten through with. It literally means that some of the members are being talked out of the Council.

It is coming to the point when it will be necessary, at the present rate, to appoint a Board of Control, pay the members, and allow them to work out the details of the different propositions which come before the Council, the latter body simply dealing with the questions in their broad aspects and in their executive capacity.

Far From The Maddening Crowd

Diligent practice is being made by the male vocalists of the Methodist Church, for the culminating choral event of the season in this burg, at the League services in that church on the evening of the 12th inst., preceded over by Rev. Mounteer, of Orono.—Newcastle Independent.

Mr. Harry Clarke was in town over Sunday on his way to Colborne, where he and Miss Margaret Covert will join hands and hearts on Tuesday of this week.—Warkworth Journal.

Mrs. R. Curtis has purchased Mr. H. J. Walker's house and lot. The dwelling is one of the nicest in the village, and we congratulate Mrs. Curtis in securing so nice a home. She will take possession this autumn.—Warkworth Journal.

The doctors have been doing such a rushing business in our midst, the past week that we are thinking of organizing, say a 5,000 club, as we do not wish to discourage Port Hope, to boom our burg. And it is pretty well decided that the first step towards the goal will be to get a doctor of our own, as he would have a double advantage then, as he could kill off all rivals and save all supporters.—Kendal Correspondent to Newcastle Independent.

Trout fishing began bright and early yesterday morning, and the fellow that brought he knew exactly what he was going to do, flung his basket over his shoulder instead of his skates, but he returned in the shadows, a sadder but a wiser angler.—Orono News.

I understand that Mr. Bert Connor has bought a wood-sawing machine, and Mr. Harvey Burk a shingle and wood-sawing machine.—Matchedash Correspondent to the Orillia Packet.

Mr. John Tcorton is suffering from a badly bruised foot, the result of a green hemlock plank falling on it.—Craighurst Correspondent to the Orillia Packet.

"A Message to You"

"A Message to You" will be given by Rev. J. G. Potter, B.A., at the evangelistic meeting for men at the Y.M.C.A. on Sunday at 4 o'clock. The Torrey-Alexander hymns will be used. Mr. Potter will sing a solo. A hearty invitation is extended to every man in the city to attend.

Practically a New Store Will Open Septembe. 1st

Mr. A. W. Cressman's Handsome Store Will be Greatly Enlarged---Many New Departments to be Added---Will be One of The Finest Mercantile Establishments in The Province When Completed.

Few establishments in the city, mercantile or industrial, have increased their volume of business during the last eight years in the same proportion that Mr. A. W. Cressman has. He commenced business here two years less than a decade ago, with a selling space of 2,800 square feet. He has been gradually enlarging it to accommodate his growing business, and at the present time is carrying out improvements and enlargements which, when completed, will give him 19,200 square feet of space for selling.

This is an increase which means something.

In the first place, it means that there has been a field for the business; and, in the second place, it means that Mr. Cressman went after the business in a way which appealed to the buyers and brought them to the store as customers.

To be specific, the enlargements which are now being carried out in this store, will practically double a number of the present departments in size, and will afford an opportunity for the introduction of new departments, which, with the completion of the improvements under way—about September 1—will be opened. The taking in of the store to the west of the present store, that occupied by Mr. Nugent, will give a frontage of 60 feet, and the depth will be 100 feet, 40 feet being added to the rear of the Nugent store to effect this enlargement.

The whole interior of the store, already large, will be transformed; the present wall, dividing the north and south stores on both the first and second storeys, being removed, and, in the case of the second storey, the whole three stories will be thrown into one large sales and show room for ladies' wear, millinery and ready-to-wear garments.

There will be three entrances from George street, and a new plate front put in across the three stores, embracing the new establishment. The show windows in the front will be re-arranged and improved, while the interior of this floor will be all refitted and greatly improved. The space at present occupied by the men's furnishing store and Semi-Ready wardrobe will be thrown into the dry goods department, making it one of the most handsome and complete dry goods departments in any store in the Province. This arrangement will give space for an enlargement of the silks and dress goods departments, which will be doubled, and the installation of a new prism rear to this floor will improve the facilities for displaying goods. The elevator will be removed from its present location to the south of the building, and to the rear of the elevator a spiral stairway will be built.

In the new store to the north the men's furnishings and Semi-ready wardrobe will be located, and this will be separated from the ladies section of the store by a wall, the only connection being through an arch as at the present time. It is the intention of the enterprising proprietor to not only enlarge the present departments on the first floor, but to add several others, announcement of which will be made later.

On the second floor a transformation is being effected. A new glass front will be put in; the first of its kind in the city, and not only will it add greatly to the appearance of the building, but by its installation a much better light in the millinery and ready to wear departments will be provided. This floor, too, will be entirely refitted. It will be one of the most handsomely fitted show rooms of its kind in Ontario, very few stores, even in the larger cities comparing with it. In the millinery department mirrored pillars will be placed.

A new feature on this floor will be the fitting up of a rest room, in which ladies may meet their friends, or rest during their shopping gyrations. Lavatories and wash rooms will be near at hand, for both for the public and for the staff. To the rear will be the work rooms and fitting rooms, to accommodate the large staff employed in these departments.

The third floor will share in the enlargement general throughout the store. On this floor the carpets and house-furnishment departments are located, and with the new sections taken in, these departments will have a floor space 60 by 80 feet. Stocks here will be increased and, new departments will be added.

The Bargain Annex, which, though commenced as an experiment, has now become one of the most successful departments of this store, will be increased in size, as well, and additional selling space, which is greatly needed in this department, will be provided. The popularity of this feature of the store's business may be judged, when it is stated that on a recent Wednesday no less than 523 customers were waited on in the Annex.

The re-juvenated and greatly enlarged store will be opened about September 1st, and will be ready for the fall trade which Mr. Cressman expects will be better than ever.

Mr. A. E. Bartlett is the architect for the enlargements and the work is being done by Ald. Johnston's staff, under his supervision.

OUR STOCK OF MOUNTED DIAMONDS

was never so large, and for variety it is unexcelled. It also includes other precious stones in combination with the Diamonds making our stock the most attractive we have ever placed before our customers.

SENIOR AND JUNIOR CLASSES REMEMBERED THEIR DIRECTOR

Miss Ivy Coventry Presented With Purse and Large Boquet of Roses Last Night.

During the Y.W.C.A. demonstration last night, Miss Ivy Coventry, the physical directress, who has been so successful with the class, was presented with a handsome purse by the junior class, and a beautiful bouquet of roses by the seniors.

Miss Genevieve Sanderson on behalf of the seniors, made the presentation of the flowers, and Miss Ethel Morrison, and Miss Dorothea Hall, did likewise for the juniors. The members of the classes appreciate Miss Coventry's untiring efforts in their behalf. She has accomplished a great deal with the two classes, and it is hoped that further efforts will be even more successful, if possible.

MISS LEXIE RITCHIE WAS WINNER

Captured the Ladies' Skating Event at the Roller Rink.

There was an unusually large crowd at the roller skating rink last night, when the chief attraction was a skating contest for ladies who had won a prize in any previous contest of this kind. This proved highly interesting, and the judges had great difficulty in selecting a winner from the large field. Their final decision was given to Miss Lexie Ritchie, and the award was received with applause, showing that the decision was a popular one. The judges of the evening were Mrs. Barber, Miss Whitcroft and Miss Brightman. The prize was a five-dollar gold piece.

The roller rink is Peterborough's most popular amusement centre at present, and there is a large and jolly crowd in attendance every evening.

HOG WON IN OTONABEE SWIMMING RACE

Swam Across the River With Mr. Stabler in Pursuit

It is not often that a hog will take to the water, unless circumstances compel it, but Mr. William Stabler, one of the local buyers, had an experience on Thursday with one of the hog family directly contrary to their natural tendencies.

A number of the animals had been taken down to Mr. H. P. Kennedy's slaughter house in Otonabee, but one of them, more headstrong than the rest, jumped from the waggon, ran down the river bank, and struck out for the other shore.

Mr. Stabler started off in hot pursuit, but the hog won the race, and gained the other shore before his pursuer. The animal was captured after the bath and brought around by the bridge to the slaughter house again.

FIREMEN LAUNCHED TWO NEW CANOES

An Interesting Event Which Took Place at Foot of Charlotte Street Last Night.

An interesting launching took place yesterday, when two members of the fire brigade, Messrs. A. Ringer and A. Mitchell launched at the foot of Charlotte street, two canoes which they had made themselves during the winter. A few of the members of the brigade were present at the launching, which was attended by the usual ceremonies incidental to such occasions.

SUN AS REVEALED BY PROF. CHANT

Interesting Lecture Delivered in The Y. M. C. A. hall Last Night—The Discoveries of Recent Years.

TREAT FOR THOSE PRESENT

The lecture given by Professor Chant, Professor of Astronomy, of Toronto University, and President of the Royal Astronomical Society of Canada, under the auspices of the local branch of the Astronomical Society, in the Y.M.C.A. Hall last night, proved a decided treat to the large attendance of members present. The subject of Prof. Chant's address was Solar Physics, but the speaker confined his remarks for the most part to the more recent investigations in connection with the sun, and presented in the manner in which it was last night, the subject proved intensely interesting. Prof. Chant is a fluent speaker, and makes his explanations in such a lucid manner that they are quite easily followed by his audience.

The president of the local branch of the society, Rev. Dr. Marsh, of Springville, occupied the chair, and in introducing Prof. Chant, paid a tribute to the work done by the speaker of the evening, in connection with the Astronomical Society, and extended to him a hearty welcome to Peterborough.

Prof. Chant's lecture was illustrated with many fine photographs, thrown upon the canvas by Mr. C. Fessenden, principal of the Collegiate Institute. The method chosen by the speaker was to explain each of these as they were shown and this way proved interesting and easy to follow.

In his lecture Prof Chant referred to the manner in which Kairhoff, the German astronomer, had discovered the presence of sodium in the envelope surrounding the sun, by experiments with the spectrum of a white light. This first discovery of sodium led him to believe that other metals found on earth, were also in the sun. Eventually it was discovered that there were some forty of these metals in the sun. Silver had been found, but, so far, gold or mercury have not been detected by means of these experiments. The story of these discoveries as told by the speaker was necessarily somewhat lengthy, but was most interesting. It had been discovered that these materials were not in the photosphere or chromosphere of the sun, but between the two.

The speaker gave a lucid explanation of an instrument widely used in astronomonical work, the spectroheliograph. Several views of the instrument were shown, and also photographs of the sun taken by means of this decidedly useful invention.

In conclusion the speaker referred to the observatory at Mount Wilson, California, and some interesting views were also displayed in connection with this subject.

Prof. Chant brought his splendid lecture to a close by referring to the importance of investigations in connection with the sun. From that body comes all of our heat, and most of our light. It was hoped that if these investigations were kept up, that in time it would be possible to forecast the weather for weeks ahead, and even for a year, instead of 24 hours, as at present.

At the conclusion of lecture, a hearty vote of thanks was passed to Prof. Chant, on motion of Sheriff Hall, seconded by Mr. J. H. Burnham.

ONE MONTH IN THE GAOL FOR WILLIAM DUNCAN

Mr. Geo. Cochrane's Assailant Appeared Before Judge Weller Yesterday

William Duncan was sentenced to one month in the county jail with hard labour yesterday afternoon when he appeared before His Honour Judge Weller. Mr. R. E. Wood, County Crown Attorney appeared for the prosecution and Mr. R. F. MacWilliams defended the prisoner. Mr. Goodwill represented the Children's Aid Society.

The facts of the case are well known locally. Duncan assaulted Mr. Geo. Cochrane, agent for the Children's Aid Society, when the latter called at his home April 13th to claim Duncan's little boy, a ward of the Society. A general mixup occurred and Mr. Cochrane received a blow on the mouth when unguarded. Duncan was sent up for trial from the police court, where he was given a preliminary hearing.

Regarding the returning of the boy, Willie Duncan, to the Society, His Honour deferred judgment until Monday. The witnesses examined were the same as in the first hearing.

Many persons suffering from rheumatism have been permanently cured by Miller's Compound Iron Pills. Sold by W. Madill.

MASONIC FUNCTION PETERBOROUGH LODGE

Presentation of a Past Master's Jewel to Rt. Wor. Bro. H. Rush Last Night

Rt. Wor. Bro. Henry Rush, who is leaving shortly on a trip to the Old Country, was honoured by the members of Peterborough Lodge, No. 156, A.F and A.M., at the regular meeting of the Lodge last night. He was presented with a Past Master's jewel. Wor. Bro. John Crane who made the presentation on behalf of the lodge, referred to Rt. Wor. Bro. Rush's long and faithful service in connection with the Masonic Order in Peterborough, to the deep interest which he had taken in the Semi-Centennial Fund of Grand Lodge, as well as in prominent Masonic benevolent work. He felt sure the brethren would all wish Bro. Rush and Mrs. Rush a pleasant and safe voyage across the ocean, and that both would return delighted as well as benefitted by their trip.

The jewel is a solid gold insignia, richly chased and engraved, bearing the following inscription:—"Presented to Rt. Wor. Bro. Rush by the Brethren of Peterborough Lodge, May, 1907."

The presentation being quite an unexpected event to the worthy brother; it was some moments before he overcame his embarrassment.

With considerable feeling Bro. Rush thanked the brethren for their gift and for their kind wishes on behalf of himself and Mrs. Rush in their contemplated visit to the Old Country. He valued the gift very highly, both for the spirit which it manifested as well as for its intrinsic worth.

The fraternity has a steadfast representative in Bro. Rush, and did the "Square" thing in expressing their appreciation of the services, so modestly rendered to the craft during the past thirty-four years. A few years ago Br. Rush was unanimously elected Grand Junior Warden of the Grand Lodge of Canada.

Ripe Pineapples 15c. each
Strawberries, 2 boxes for 35c
Oranges, 20c. to 50c. a doz.

A. A. Hollingshead Manager

Presentation Made to Popular C. G. E. Officers

Mr. R. H. Shepherd honoured on the date of his departure from Peterborough—Given a Gold Watch, Chain and an Address

TO LEAVE FOR MONTREAL

Mr. R. H. Shepherd, the employment agent and premium clerk of the Canadian General Electric Co., who is leaving next week to take a position in Montreal, was the recipient of a handsome gold watch chain and an eulogistic address from the C. G. E. foremen and clerical staff at six o'clock last night, the presentation taking place in the office of the establishment.

Mr. Shepherd has been connected with the Canadian General Electric Company for the past 18 years, and is one of the seven now remaining of the seventy-eight who came here from Sherbrooke with the company. He has alwyys been most popular with the foremen and men of the works and his departure will be deeply regretted. He has been a popular member of the C. G. E. Anglers' Club, and will be missed by that body.

The presentation was made by Mr Mowry, Montreal machinist, while the following address was read by Mr. A. W. Patterson, chief inspector:

To Mr. R. H. Shepherd—

After 18 years of service in the company's employ, we learn you have severed your connection with same and are about to leave us.

We, the foremen and clerical staff, desire to express our regrets.

No doubt you have viewed the incoming and outgoing of many, yet as one of the old guard of seven, your departure feels like breaking the ties that bind.

We wish you to accept our best sentiments for you and yours, in your new position, and as a token of regard and esteem and as a reminder of the good that is between us, we present you with this chain, and in your daily wanderings, as you grasp it, in your hand, think of your friends in Peterborough.

Farewell, and we trust to see you occasionally in our midst, and if so, remember that the latch is on the door.

The following names are signed to the address: R Cottrell, T W Wilson, W A Elliott, A E Wilson, P Abbot, J J O'Brien, J Ryan, W S Robinson, E E Lord, E A Roe, J B Cunningham, J Kyle, M Breckenridge, E R Shirley, W. A Brundrett, F M Summerville, H L McCaughey, H W Cook, E J Davis, T J Carson, J D Patterson, H B Paddock, R S Rose, D Stone, W A Fitzgerald, C B Hughes, F A Stranmon, R E Layfield, R W Carson, R A Sutcliffe, A W Patterson, J G M Wilson, F A Taylor, G Perrott, M Mowry, J F Morrison, J Trombley, L B Ramsden, G J Tovey, A E Priest, B Watts, F Derrick, J E Beakman, J A Perry, W H Clurton, A Metherel.

Mr. Shepherd, who was completely taken by surprise, having received no intimation that anything of the kind was in progress, made a suitable reply. He expressed his regrets at parting with so many friends, and briefly outlined a few of the changes that had taken place since he entered the service of the Canadian Edison Mfg. Co. some 18 years ago. He concluded by thanking all who had participated in the presentation.

Funeral

The funeral of the late Miss Helena Fitzgerald, will take place from the family residence, 178 Douro street, East City, Sunday afternoon at 3 o'clock, to St. Peter's Cathedral, and thence to the Roman Catholic cemetery.

BIRTH

STRAIN — In Peterborough, on Thursday, May 2, 1907, the wife of Mr. Geo. Strain, Princess street, of a son.

MARKET TOLLS OFFERED FOR 50 CENTS

Only a Few Farmers Courageous Enough to Brave the Elements

Mr. W. A. Mollmoyle, market clerk, offered the market tolls to-day to a reporter for 50 cents, and it was afterwards reported that the income was only 45 cents. The cause of the scarcity of merchandise was, of course, the belated downpour of the beautiful, which made one imagine, Christmas was at hand.

A few chickens and eggs were there and on the market square were two farmers who had bravely faced the storm to satify the hungry. Prices were unchanged from a week ago.

LUNGE SAID TO HAVE BEEN CAUGHT

Illegal Fishing at the Locks Reported—Many Suckers

It is always sucker season on hand, and just now it is the proper season for suckers of the (water) variety. Fishing is reported to be good at the locks, and large numbers are being netted. Big hauls were made yesterday afternoon, and one gentleman reported to the Examiner that there were more than suckers landed, saying that one man had landed a 'lunge and three bass, while another got a 'lunge. The inspector, he said, was on hand at the time, but the sportsmen (?) got away with their illegal captures.

THE WEATHER

As a contrast to the weather prevailing to-day, it may be remarked that a year ago to-day the thermometer stood at 70 degrees in the shade, the grass was beautifully green, and the trees were commencing to leaf. The previous year conditions were even farther advanced. Spring was somewhat backward last year, but was much in advance of conditions at the present time.

TATE OPTICAL CO'Y

G. N. BABCOCK, Eye Specialist
412½ GEORGE STREET, PETERBOROUGH

UNSOLICITED TESTIMONY

The Tate Optical Co., Peterborough:

DEAR SIRS.—During the last three or four years (prior to May last) my eyesight had failed to such an extent that I was unable to read or see anything at close range and could get no Glasses that would help me. I tried two different Opticians in Toronto and was told by both that they could do nothing for me, and that my sight would never be better. A statement of my case was sent to Montreal by a Hastings optician and several pairs of Glasses sent me, but with the same result my vision could not be improved. Last May, while looking at a Pair of Glasses you made for Mr. John Fife, Keene, and talking with him he advised me to consult your Mr. Babcock, and I am pleased to say that the Pair of Glasses he made for me have given me entire satisfaction and I can do now what I have not done for years past—read any ordinary print and see distinctly at close range. I feel very grateful, not only for the interest you have taken in my case, but particularly so for the blessing of good eyesight. Thanks to your knowledge and skill.

Yours truly,

(Signed) JOHN CARTER, Sr.,
Hastings, Ont.

Mallory CRAVENETTE HATS

STYLE and SERVICE

We want you to see this new line of fashionable hats, if for nothing else than to learn what are the latest and most approved metropolitan hat styles

The famous Priestly Cravenette process, which makes the Mallory Cravenette Hat rain-proof, gives it added wearing qualities.

A Mallory Cravenette Hat will stay new until you get the value of several new hats, and yet it costs no more than other hats of equal quality and style.

All the fashionable shapes and shades. See them before you choose your Spring headwear.

DELIVERED EARLY GREENS WHILE THE SNOW FELL

An Odd Occurrence in These Days When Anything May Be Expected.

Nothing surprises the dazed citizens these days, as winter, spring and summer struggling for the supremacy for the next six months. Now blamy spring asserts herself and even the close proximity of summer is made evident at times, and then of a sudden the blasts and cold of winter return for a short while, but yet spring and summer combined must conquer. Yet, this morning when the snow lay six inches deep on the earth a queer coincident was noticed on Hunter street.

Mr. Frank Kitney, market gardener, was selling early vegetables, lettuce, radishes, onions, etc., to Minnicola Bros., while snow was falling. Not only that, but he had his produce in a sleigh and it May 4th. If something stange does not happen soon, then omens and signs are worth nothing.

HE WILL DECLARE THE PULPIT VACANT

Rev. Dr. Marsh Will Preach at Poptypool To-morrow for This Purpose.

To-morrow, Rev. Dr. Marsh, of the Springville Presbyterian church, will preach in Poptypool, and declare the pulpit in that church vacant, owing to the departure of the late pastor, Rev. Mr. Oswald, who last Sunday preached his farewell sermon, and who will leave in a short time for Edmonton. At the last meeting of the Presbytery, his resignation was accepted, and Dr. Marsh was appointed to declare the pulpit vacant, which he will do to-morrow.

The pulpit in the Springville church will be occupied to-morrow by Rev. Dr. Sinclair.

OPEN AIR MEETING WILL BE HELD ON SUNDAY

Salvation Army Will Meet in Outskirts of the City at 10:30 Sunday Morning

To-morrow morning the Salvation Army will begin holding open air meetings in the outskirts of the city and probably will continue all summer. The first meeting will be held at the corner of Elm and Park streets at 10.30 to-morrow. A service of thirty minutes will be conducted by Adj. Wiggins, assisted by Sergt.-Major Brooks. The band will be in attendance and all the members, bandsmen and others, are requested to assemble at the corner sharp on time. After the service the corps will return to the barracks, where the usual Sunday service will be held.

Next Sunday a different locality will be visited and so on until the city has been covered.

The New York Stock Market

(Furnished by J. R. Heintz & Co.)

New York, May 4. — At the opening stocks were generally heavy, and lower, but the market was narrow and entirely professional. The weakness in London had some influence on sentiment and the bears made the most of it. Reading, which had shown such conspicuous strength in the last hour on Friday, sold off in sympathy with the rest of the list. It rallied quickly however on what appeared to be first class buying and reached the highest point at which it has been quoted for some time.

The crowd that formerly was so successful in advancing this stock, is again a conspicuous buyer and higher prices are freely predicted. The leading copper producers are strong in the belief that there will be no material reduction in the price of copper this year. We consider the outlook for all copper stocks unusually good at present and consider that they should be bought whenever weak.

The bank statement was disappointing but it did not appear to have much influence on prices. We still think the market will work higher and advise buying on recessions.

A MAGAZINE BLEW UP KILLING MANY

Gunpowder Explodes At Canton, China, With Fearful Results.

MASSIVE CITY WALL RAZED

Fifteen Hundred Houses Wrecked—Heavy Loss of Life—Hundreds of People Injured -- Supposed That Disaster Occurred Through Man Smoking — Historical Pagoda Escapes—21 Bodies Found.

Hong Kong, May 4.—Great destruction of life and property was caused at Canton Thursday evening by the explosion of a gunpowder magazine. Twenty-one bodies have already been recovered from the ruins. Hundreds of persons were injured. Fifteen buildings were razed, and over a hundred others were wrecked.

A section, two hundred feet long, of the massive city wall, was thrown down. The historical many-storied pagoda escaped with slight injuries. The officials and staffs of the hospitals are doing their best to succor the sufferers. In the Shamien suburb, where foreigners live, a terrific shock, caused by the explosion, was felt, but the residents were unharmed.

Some idea of the force of the explosion may be gathered from the fact that the roofs of houses a mile distant were blown off.

A number of important Chinese and foreign mercantile establishments were demolished.

The bodies recovered from the ruins near the magazine were shockingly mutilated. Many corpses of men and women were without heads.

The officer in charge of the magazine was among those killed, and when the body was recovered a pipe was found clutched in his hands, which suggests the possible cause of the explosion.

The financial losses are enormous.

MINING ACCIDENT.

Three Men Killed and Six Injured This Time.

Johnstown, Pa., May 4.—Three men were killed and six others injured, three fatally, Thursday, in an accident in an ore mine at Riddlesburg, Bedford County. The men were all foreigners. A shifting crew placed a car on which the men had been unloading ore, on a trestle, while other cars were being placed.

When the engine backed to the main track it struck the car, which was derailed, and fell 60 feet into a creek below.

THROWS RED-HOT STONES.

Volcano on Stromboli Islands Still Very Active.

Naples, May 4.—The volcano on Stromboli Island is still very active, and is throwing up large quantities of red-hot stones. Prolonged subterranean rumblings are frequently heard. The lava is now taking its former course to the sea down the north side of the mountain. Showers of scoriae began again Thursday, but the inhabitants show no alarm.

Tenor Cuts Tongue Out.

Milan, May 4.—Arcangelo Rossi, the tenor, who was with the Conried Opera Co. in San Francisco during the earthquake, and who, as the result of the fright he experienced, has not since been well, endeavored to commit suicide here Thursday.

Recently he lost his voice. This calamity weighed so deeply on his mind that he went crazy, and Thursday he cut out his tongue with a pair of scissors.

Empress of Britain Delayed.

St. John, N. B., May 4.—The Empress of Britain was 12 hours late leaving St. John. Instead of getting away between three and four yesterday afternoon, she did not sail until that time this morning. The delay was due to a freight wreck on the C. P. R., near Megantic, which blocked the line and prevented the arrival of the Montreal train, bringing upwards of 200 passengers for the steamer.

Shot by His Neighbor.

New York, May 4.—A despatch from Liberty, N. Y., says that Philip Sullivan, aged 44, manager of the Liberty House bowling alleys and billiard parlor, was shot and killed Thursday night by Michael Noeth. Sullivan was romping with his children on the lawn at his home when Noeth, who is a neighbor, shot him without warning. Noeth is under arrest. No cause is known for the tragedy.

LONDON, May 4. (6.45 P. M.)—The Morning Post states that Asquith underestimated the imports of the colonies by £62,000,000. By the official returns the figures should be £127,368,-795, not £65,350,000, as the chancellor stated.

A RISING AMONG THE INDIANS

Anti-European Mobs Riot in the Punjab.

TROOPS PARADE STREETS

Power House Plant Destroyed—Motor Cars and Bungalows Burned—Post-office Looted—Armed Police Fight Crowd—Hussars Called Out—Well-Known Agitators Have Been Making Speeches.

Allahabad, British India, May 4.—Serious anti-European riots have occurred at Rawalpindi, Punjab.

A Hindu mob burned two bungalows, pillaged the mission church, looted the postoffice, burned a garage and all the motor cars in it, destroyed the plant of a power-house, and smashed the windows of the residences of many Europeans.

Armed police eventually obtained the upper hand and dispersed the rioters.

The town is now patroled by a squadron of 10th Hussars.

The outbreak is attributed to the incendiary influence of a number of well-known agitators, who have been making speeches throughout the Punjab, and who are also held responsible for the recent outbreak at Lahore.

Rawalpindi is a fortified town of the Punjab, capital of the Rawalpindi division and district. It is situated forty-seven miles from Attock, an important strategic position on the Indus, and has a population of about 90,000.

Rawalpindi is the administrative capital of the division and district of its own name between the Indus and Jhilam, on the railway from Lahore to Peshawar. There are an arsenal, a fort, a fine public park, several European churches, and the headquarters of the Punjab Northern State Railroad. Transit trade is carried on with Cashmere and Afghanistan. The Sikhs surrendered there, and in 1885 a great durbar or review was held.

MEXICO CONCILIATED.

Guatemala Sorry For Having Cast Insinuations.

Mexico City, May 4.—Guatemala has apologized to the Mexican Government for insinuating that the Mexican legation at Guatemala City was harboring the men who are suspected of attempting to assassinate President Cabrera of Guatemala last Monday morning.

Minister of Foreign Affairs Marsical received this information late yesterday in a cable despatch from Minister Gamboa, now at Guatemala City. The incident is now closed to the satisfaction of the Mexican Government.

The question of extradition of Jose Lima, charged with complicity in the assassination of ex-President of Guatemala Manual Barrillas, while the latter was under the protection of the Mexican flag, is still pending.

The Team For Bisley.

Ottawa, May 4.—The Bisley team is as follows:

Commandant Col. Hon. J. M. Gibson, 13th Hamilton; Adjutant W. Duff Stuart, 6th D.C.O.R., Van., B.C. shooting members: Sergt. Graham, 48th Toronto; Sergt. A. A. Couhill, 90th Winnipeg; Sergt. F. H. Morris, 46th; Capt. C. U. Mitchell, Winnipeg; Maj. Rennie, 2nd Q.O.R., Toronto; Capt. W. H. Hart, McHaigh, 6th D.C.O.R., Van., B.C., Col.-Sergt. Moscrop, 6th Van., B.C., Sergt. H. Kerr, 48th Toronto; Sergt. W. Creegan, Royal Gar. Artillery, Quebec, Que.; Sergt. J. McVittie, 48th Highlanders, Toronto; Sergt. D. McKay, 5th Regt., C.A., Victoria, B.C.; Sergt. S. C. Carr, 5th Regt., Victoria; Lieut. B. G. Convese, 7th Hussars, Quebec.

Replies are being waited to make up the full list from Sergt. Brayshaw, 5th Regiment, C.A.; Lieut. Cunningham, 6th, Van., B.C.; Major O. W. Wetmore, 74th, Clifton, N.B.; Sergt. W. A. Smith, The G.G.F.G., Ottawa; Lieut. Mulligan, 91st, Hamilton.

Waiting men are: Pte. A. B. Mitchell, 48th, Toronto, and Capt. W. L. Ross, 13th, Hamilton.

Stratford, May 4.—Leslie Harris, arrested some time ago on a charge of bigamy, has been found guilty and sentenced to three years in the Kingston Penitentiary. Harris married Frances McDonald in Portage la Prairie on Feb. 14, 1901, and was again married to Jessie Harwood of Zorra in Stratford Feb. 6, 1907.

Baby Murdered.

Douglas, Man., May 4.—The body of a small child was found near the railway just outside the village yesterday, and circumstances would indicate that it had been thrown from a passing tram and killed.

Remanded for Eight Days.

Welland, Ont., May 4.—Harman Bartle of Syracuse, arrested at Niagara Falls, on a charge of perjury, had a hearing here yesterday afternoon, and was remanded for eight days.

Killed Three For $16.

Middletown, N. Y., May 4.—Chas. H. Rogers, who is charged with the murder of the two Olney brothers, and Alive Ingerick, who lived on the Olney farm, was brought here yesterday. Rogers was captured in Los Angeles after a chase which continued more than a year ago. He secured $16 from his victims. Rogers seemed to be in exceptionally good spirits upon his arrival.

Three Thousand Go Out.

New York, May 4.—A strike of longshoremen at the docks of the Bush Company and along the waterfront in Brooklyn, which has been in progress for, several days, assumed serious proportions yesterday, when 3,000 men went on strike in Brooklyn alone. The strikers demand an increase in wages from 28c to 30c an hour for day work, and from 35c to 45c for night work.

Two Families Asphyxiated.

New York, May 4.—William Cross, 38 years old, his wife and their two sons, were found dead from inhaling illuminating gas in their home in Jersey City yesterday.

John McCracken, aged 72 years, and his son, William, 35 years old, were found dead in their apartments in West Forty-Eighth street. Gas was escaping from a stove in their rooms.

Seattle Welcomes Kuroki.

Seattle, Wash., May 4.—Gen. Kuroki and his staff, representatives of Japan to the Jamestown Exposition, arrived here Thursday after being delayed by a fog on Puget Sound. At daylight fireworks were set off, and a hundred Japanese girls sang the national anthem and the general's carriage was almost covered with flowers presented by school children.

Scared Wife, Shot Self.

New York, May 4.—Thinking that he had killed his wife, at whom he had fired a shot, inflicting a slight wound, John Wagner, rushed from his home in Ridgewood, L. I., yesterday and sent a bullet into his head. Mrs. Wagner was more frightened than hurt. Wagner was 50 years old, his wife [illegible].

"They Will Not Shrink"

"Why Won't They Shrink?"

"Because they are not simply sponged before cutting, but the cloth is thoroughly shrunk."

"That will do to tell: but I guess your clothes will shrink just the same as ready-mades."

"Excuse me: One result of our method of shrinking is to so shorten the bolt of cloth, that less Suits can be cut from it than under the cheaper process. That's the only way you can get a Suit that will keep its shape.'

INSURANCE COMPANIES AND INVESTMENTS

An insurance journal published at Toronto, "Money and Risks," has published an article making fun of the insurance commission, and at the same time mixing the fun with sound common sense. It was dealing with the suggestion of the commission that the only stock in which an insurance company should be allowed to invest was in the stock of a chartered bank.

The banks of Canada and Canada's banking system have been the theme of many appreciative articles. Not long ago the general manager of one of these banks delivered an address at the Canadian Club in this city, claiming superiority for the Canadian system over the system of all other countries. In fact, our banking system, like our judiciary, has had popular opinion in its favour to so great an extent that there is danger from that very fact. If any good is to come from the labours of the royal commission on insurance it will not be from their suggestions, but from the fact that every man connected with life assurance in Canada will give earnest thought to the question of perfecting the law. The final decision will not rest with the commission. Nothing will be done hastily. The principles of life assurance cannot be mastered by snatches of time taken between bites at a lunch counter. Like every other business, the men engaged in it as their life's work know most about it, and they keep on learning all the time.

It is not the intention to disturb the public faith on that of the commission or Parliament in bank stocks. That faith is well founded. At the same time it should be considered, in times of difficulty and distress, which come at only too short intervals to our banks, bringing anxiety to their managers, where these banks find their strongest support. Consider the nature of the business transacted by banks, and the class of support they need. It will be found that trust companies, loan companies and life assurance companies are steadying influences, and furnish the greater part of the funds required by the community permanently, not liable to sudden call. Their investments are uniform and in good and bad times the supply is unwavering. Whatever anxiety the management of a chartered bank may have for his ordinary customers in such times as are referred to, he knows more of it will come to these customers from the trust, loan and life companies to tide the country over the hard times, than from all other resources put together. There is no clash of any kind between them; their interests are mutual. The reason of this is the permanent nature of the investments made by these companies, as compared with the investments made by banks for current business purposes. Therefore it will be the wisest policy not only to let life companies invest in bank stocks but widen the field. Good, not harm, will be the result.

No man can foresee how long any one business will remain as it is. Who, in the early days of the oil industry foresaw its present methods? Is it not true that what is so plain in that industry applies more or less to every other business? What sudden changes come even to the most permanent of all classes of investment—real estate. At one time it is selling readily, and rapidly, and at another time is a drug on the market. You cannot lay down any rule that will make investments absolutely safe. The final decision must rest with the business knowledge, foresight and sound judgment of those making the investment, even if confined to bank stocks only. All bank stocks are not equally safe or profitable. Judgment must be used even there, and the same qualities requisite to select the bank, can as safely be trusted to select investments in any other quarter.

There never was a time in the history of the country when an absolutely free hand was more desirable. Well selected bank stocks are in reality among our best and most conservative investments. It does not follow that they are better than other stocks. The united life companies suggest that investment be permitted in the stock of any well-established corporation, bank, or other, if such corporation had earned a dividend for two years. Restriction of that nature, the evidence shows, was readily suggested by the Minister of Finance himself some years ago, and the life managers adopted it. It would be better this time to follow the Minister, rather than the commission. It would be better still to leave the way so open to Canadian companies that they will have at least an equal chance with English and American companies, who compete for business in Canada.

Let the life assurance act be Canadian as the Banking Act is Canadian, and in the future Canadian life assurance will occupy as high a place in public favour as Canadian banking does. This can be accomplished with freedom. If the banking system had its arm in a sling, it would not be as vigorous as it is. The selection of banks as the one stock in which life companies may invest is very complimentary to them and should encourage Parliament to establish another great system, the Canadian life assurance business, on lines equally broad, free, stable, and expansive.

"KILLING THE GOOSE THAT LAYS THE GOLDEN EGG."

(The Royal Commission proposes to limit security purchases to a narrow circle of Canadian bonds. The Canadian companies alone have to find investments for about 25 millions yearly, and there would not be enough of these securities to supply even them, to say nothing of the investing public. The competition for these favored bonds would greatly reduce the interest on them, thus tremendiously diminishing the profits of policyholders, and probably even requiring premiums to be increased. Companies would also be encouraged to purchase bonds of small and weak concerns simply because these would be legal, while infinitely better bonds would be barred. Stocks would be prohibited entirely, except those of banks. The Finance Minister himself suggested a much safer and wiser basis some years previously, that no restriction be placed on bonds which carry mortgage, but that no stocks be permitted unless dividends have been paid for a term of years. The Commission would have shown more wisdom had they adopted the Minister's suggestion.)

THE INSURANCE MEN BANQUETTED

Central Canada Life Underwriters' Association Honour Visiting Agents

INTERESTING ADDRESSES

Peterborough was honoured last night by the presence of some of the most prominent Canadian insurance men, who attended the banquet of the Central Canada Life Underwriters' Association, held in McCallum's restaurant. The banquet followed a brief meeting in the Central Canada Insurance Board Room, where conversations on insurance matters in general, so far as it affected the agents, took place.

The Central Canada Association is a branch of the Dominion Canada Life Underwriters' Association, and embraces the five counties of Peterborough, Victoria, Durham, Northumberland and Ontario.

The supper and addresses at McCallum's formed a most pleasant and profitable evening for the insurance men. Mr. H. P. Lindsay, president of the Central Canada Association, occupied the chair and opened the toasts by honouring "The King."

"The Insurance Interests of Canada" was proposed by the vice-president, Mr. Widdows, of Lindsay, and was responded to by Mr. Mitts, editor of the "Money and Risks," of Toronto, and secretary of the Dominion Underwriters' Association, and by Mr. R. H. Haycock, president of the Ottawa Association. Both gentlemen spoke along lines concerning the Dominion Association and the Dominion laws concerning it. This toast was followed by a solo splendidly rendered by Mr. King, who contributed again before the close of the programme.

"The Dominion and Provincial Parliaments" was proposed by Mr. Balls, of Toronto, and replied to by Mr. R. R. Hall, M.P. for West Peterborough. Mr. Hall gave an intelligent address along the lines of the Dominion Government and insurance, and, on resuming his seat, was greeted by the chorus, "For he's a jolly good fellow."

"Our Guests" was proposed by Mr. D. H. Moore, and responded to by several of the visiting insurance men.

The "Central Canada Life Underwriters' Association" was honoured by Mr. R. H. Haycock, of Ottawa, and the response made by the president, Mr. H. P. Lindsay, officers and other members.

The "Ladies" were eulogized by Messrs. Geo. Elliott and Geo. B. Stevenson, after which the banquet was brought to a close by the singing of "Auld Lang Syne."

The Chest Pains Of Bronchitis

When the cough is dry and hard, if there is pain, soreness and tightness in the chest, if you have difficulty in getting your breath, you have reason to suppose that you have bronchitis. Lest it should become chronic and lead to serious lung trouble do not delay the use of Dr. Chase's Syrup of Linseed and Turpentine, the most certain cure for bronchitis.

POLICEMEN PROMISE A FINE EXHIBITION

They Are Going on the War Path on Monday Armed With Guns and Warrants for Arrest

Chief Rossel has ordered his men to oil their firearms and put them in the best of condition. He anticipates either increased finances for the city or intermittent warlike sounds in different partsb of the city during the next month. The double barrelled shot gun has been primed and a new box of cartridges purchased so that there will be doings before long.

It is reported that several of the dogs that have been tagged have either lost the tags or they have been stolen. Two at least have been mentioned they are numbers 322 and 531. It will not prevent anyone from paying their own money as the City Clerk knows who have paid and who have not.

The Chief says that operations of extermination of some such steps will be commenced next week. So buy a tag and save trouble.

LOCAL BOWLERS WIN GAME

Defeated Royal Canadians in Toronto Last Night

A Rexm representing the local bowling club rolled a friendly game against the Royal Canadians in the Brunswick Alleys, Toronto, last night, winning their game by a good margin. The Peterborough bowlers put on the following score:

W. McIlroy	110	158	153	421
T. T. Boyd	138	156	161	455
J. Connors	107	172	125	400
G. Ferguson	138	132	152	422
C. E. Frost	141	147	159	447
				2145

Tommy Boyd will bowl with Lou Archambault, the well-known Royal bowler, in an exhibition double game this afternoon.

LITTLE INTERESE BEING TAKEN IN CRICKET

Meeting Called Last Night but Many of the Officers Were Not Present and No Meeting Was Held.

In spite of the efforts being made to revive cricket in the city by a few of those interested, it begins to look as if it was going to be a hopeless task. A meeting of the newly-organized cricket club was called last night, but as few members were present that it was impossible to hold the meeting. Dr. Burnham, though no longer an active participant in the game, is an enthusiastic supporter of the new club, composed largely of colts, and is doing all he can do revivethe English game in this city. The younger members, however, do not appear to be taking a sufficient interest in the club to insure its success.

TURF CLUB RACES ON 24 OF MAY

Horse Races and Also a Marathon Prize Man Event

The Peterborough Turf Club, at a meeting held last night in the City Hotel, with President P. Cluman in the chair, decided to hold a programme of races on May 24. In addition to the horse races, there will be an added attraction in the shape of a Marathon race of five miles on the track. This should prove highly interesting and should attract a good field of long distance runners. Another meeting will be held on Monday night to draft the schedule.

STRATHCONAS LOSE A VALUABLE MAN

Mr. Herb. McMillan Leaves the City To-morrow for Buffalo.

Mr. Herb McMillan, one of the most prominent and popular members of the Strathcona Athletic Club, leaves to-morrow night for Buffalo, where he has secured a good position. He was of great assistance to the Strathconas in the city hockey league this year and did much to bring the championship to the red and white team and in baseball was a prominent factor in the same club's success. His services will be greatly missed this season.

Miller's Compound Iron Pills. Only 25 cents for 50 doses. Sold by W. Madill.

LACROSSE

The executive of the Peterborough Shamrock lacrosse club met last night, decided to make arrangements for a game with some Juniors out of town on May 24th. The team will begin practicing on Monday night in the Riverside Park, provided the 23 sign is handed the snow.

TENNIS

The annual meeting of the Nicholls oval tennis club will be held in teh Y.M.C.A. hall at eight o'clock on Tuesday night, and all the members are asked to be present.

SPECIAL SERVICES AT ST. ANDREW'S

Anniversary Sermons Will be Preached by Rev. Professor H. A. A. Kennedy.

The 72nd year of St. Andrew's congregation, and the 22nd year of the occupancy of the present edifice will be celebrated to-morrow. The Rev. Professor H. A. A. Kennedy, D.D., of Knox College, will preach morning and evening.

CLEVER WORK OF A JUVENILE CARTOONIST

Son of Mr. Lynn of the Trent Canal Makes Drawing Which Attracts Attention

Mr. Harold G. Lynn, son of Mr. Lynn, of the Trent Valley Canal staff, has shown the Examiner a clever cartoon—pen and ink. It represents "Mooney Miggles" expressing his aspiration to the life of a policeman, with Policeman Meharry as his model. The pose, the "drapery"—"all tattered and torn"—and particularly the facial expression are brought out in very clever manner, and with a good deal of impressionist deftness, especially for a lad of fourteen years of age.

Demand the Correct Styles

Young Men want their Clothing in the style that is new, not one that was new.

We aim to please men who insist upon getting the newest out—whether it is extreme or conservative.

A Blue Serge Suit, always looks dressy, and is suitable for nearly every occasion.

Everything you need is here, priced as quality alone demands.

A ROBIN WITH A PAPER TAIL WAS SEEN TO-DAY

Who tied the paper to the robin's tail? To-day a reporter saw a robin with a piece of paper about 4x2 inches tied to its tail. The idea of guilt on a robin is not a new one, but a paper tail is certainly unique. Someone has said since that it may have been a kite, but it is believed that it is only a part of the want ad. column of the Examiner. Mr. Robin has certainly taken a sure way finding warm lodgings, and this afternoon with the rest of his family was enjoying the warm sun giving further evidence that Examiner's want columns bring results.

Most people know that if they have been sick they need *Scott's Emulsion* to bring back health and strength.

But the strongest point about *Scott's Emulsion* is that you don't have to be sick to get results from it.

It keeps up the athlete's strength, puts fat on thin people, makes a fretful baby happy, brings color to a pale girl's cheeks, and prevents coughs, colds and consumption.

Food in concentrated form for sick and well, young and old, rich and poor.

And it contains no drugs and no alcohol.

ALL DRUGGISTS: 50c. AND $1.00.

Public Library Buildings Which Do Province Credit

Many Free Libraries in the Smaller Cities of Ontario — Buildings Which Completely Overshadow Peterborough Library.

SOME DESCRIPTIONS

Movement on Foot to Secure a Carnegie Library for Peterborough—Present Building Totally Inadequate to City Needs.

The question of a public library, free or otherwise, in the city—a library which will be a credit to the intelligence and literary tastes of the citizens—is one which in all probability will be brought before the people, in a concrete form, in the course of a short time. It is recognized that the present library building is inadequate to the needs of the city, so far as a public library is concerned, and it is probable that the movement originated some little time ago to approach Mr. Andrew Carnegie with a view of securing a grant for the establishment of a free library in the city will again be brought forward, and an effort made to bring the matter to a successful issue.

The recent report of the Inspector of Public Libraries of the Province contained illustrations of some of the newer libraries in the different towns and cities in Ontario, and one looking at them is filled with a feeling of disgust to remember that Peterborough, with all her wealth and intelligence, has a public library, which, so far as building is concerned, would not be a credit to a town the size of Norwood. The Examiner to-day gives, through the courtesy of Mr. A. H. U. Colquhoun, Deputy Minister of Education, cuts of some of the library buildings in the Province, with brief descriptions of them, and in some cases floor plans of the buildings. Any one of them is much superior to Peterborough's building, and the comparison which will involuntarily be made will, perhaps, bear fruit in the revival of the movement to establish in Peterborough a building to be used as a library, of which the citizens will not be ashamed.

Brockville Public Library

Library completed: July 1st, 1904.
Library opened: August 13th, 1904.
Material used in building: Pressed red brick, grey stone with slate roof.
Size of building: 61x65.
The Basement:—
Lecture hall: 27x47.
Ash room: 5x10.
Boiler room: 10x16.
Coal room: 5x14.
Receiving room: 7-6x34.
Store room: 12x18.
Ladies' toilet room: 6x12.
Gentlemen's toilet room.
First Flat:—
General reading room: 26x28.
Reference room: 17x26.
Stack room: 26x28.
Librarian's room: 10x17.
Toilet room: 6x8.

Entering the building at the main (corner) door on the ground floor the corridor is 8x20. The corridor where the books are distributed is 8x28; the corridor at the side entrance is 10x10.

The height of the ceilings are: For ground floor, 18 ft., and for basement, 10 ft.

System of heating: Hot water.
Material used in stacks: Steel.
Height of stacks: 7 feet, 6 inches.
Material used in finishing building: Quarter-cut oak.
Material used in furniture: Quarter-cut oak.
Provision has been made for increasing capacity of stack room.
Cost of building, exclusive of lot: $15,447.
Cost of furnishing: $1,698.
Gift from Mr. Carnegie: $17,000.
Names of official staff at time of opening:—
Miss Carrie A. Rowe—Librarian.
Miss Minnie A. Rowe — Assistant Librarian.
E. A. Geiger—Secretary-Treasurer.
Free access is not permitted to books except in Reference Library.
Age limit: 14 years.
Printed catalogue: Card catalogue for librarian only.
Defects:—

The roof is a trifle too flat for the Canadian winter. A door from the basement to the street should have been provided.

The Sarnia Free Public Library

The Sarnia Free Public Library was completed and formally opened on the 26th of November, 1903. The building is of stone and red pressed brick with cut stone trimmings, a metal dome and slate roof. The size of the building is 65x80. In the basement is an auditorium 32x42, men's smoking room 19x19, men's lavatory, cloak room, furnace and coal room, and a storage room 22x22; there is also a large room 62x40 which is unused at present, but will be put to such uses as the needs of the Library may develop.

The auditorium may be used by any body of a public or semi-public nature, without charge. The Historical Society, The Children's Aid Society, The Medical Association, The Camera Club, and a number of literary and other societies regularly meet in this room.

The smoking room is supplied with newspapers and tables for chess and checkers are provided.

The rooms on the main floor are a General reading room 35 x 30, a Children's room 20x20, a Board room 12x19, Rotunda 22x22, the Librarian's office, ladies' lavatory and a combined stack and reference room 50x54.

The Children's room contains all books for juveniles on shelves around the walls. These books may be taken for reading in the room without the intervention of any attendant, or, if desired for home use, a book is taken to the Librarian's counter and charged against the borrower, in the Children's room, where there are oak wall cases.

Provision was made in the original plan for increasing the capacity of the stackroom. After moving into the building the stackroom was found to be too small, and in 1905, a second application was made to Mr. Carnegie for $5000 to enlarge this room. The total cost of the building, exclusive of lot, was $20,000.

The furniture which is of special library design, cost $1598. The building is heated by hot water, with grates in a number of rooms. This system has proved most satisfactory, the consumption of coal not exceeding 25 tons a year.

In 1902 the Board received $15,000 from Mr. Carnegie and in 1905, $5,000.

The Board in 1902 applied through the Mayor to Mr. Carnegie, for a grant for a library building. Mr. Carnegie offered $15,000, provided the council guaranteed an income of not less than ten per cent. of the gift, and furnished a site. The council accepted this offer by resolution, a certified copy of which was sent to Mr. Carnegie.

A site was given on Victoria Park. The grant was paid to the Library Board on progress certificates from the architects.

In 1905 a second application was made to Mr. Carnegie by the board directly for $5000 to enlarge the stackroom. This was granted on the usual conditions.

At the time of the opening of the library the board was composed of R. J. McArthur, chairman; J. J. Spereman, secretary; Mayor Barr, Rev. J. R. Hall, Robert MacAdams, H. W. Mills, D. D. Mosher, M. Sullivan and Norman Gurd. The staff consisted of Wm. Sweet, librarian, Patricia Spereman, assistant librarian, and Arthur Payne, janitor. Free access to all books was inaugurated in 1903, and has been permitted ever since. There is no age limit, but children cannot become members without the consent of the parents.

The system of classification in use is the Dewey Decimal System, with card catalogue.

Since moving into the new building the board has devoted special attention to the library's work for children. Books suitable for children in every department of literature have been freely purchased, so that the children's library is now an epitome of the adult's. The assistant librarian has been given special charge of the children's work. The policy of the board has not been to send out Travelling Libraries to the schools, but rather to bring the children to the library. The board has secured the cooperation of the teachers who attend the library and make lists of suitable books for the different forms. Copies of these books are given to the children's librarian. Scholars in each form are given lists of books to read during the term. Some of the teachers also bring their scholars to the library. Suggestions are also received from the teachers as to suitable books which should be added to the library.

The Library Board publishes reviews of important books in the town papers. These reviews are written by people who are specially interested in the subject covered.

No fees are collected from borrowers for cards or otherwise, except by way of fines for injury to books or for keeping books overtime. Any resident of the town on signing an application may become a member without a guarantor, whether he is property owner or not. Two books may be drawn at one time provided that only one is fiction.

The only serious defect in the building was the small stackroom. This was remedied by the extension above referred to.

Smith's Falls Public Library

In January, 1902, Mr. G. F. McKim, who had been an active member of the library board for several years, wrote to Mr. Andrew Carnegie, asking for a grant of $10,000 to aid in the erection of a new library building. The request was granted upon the usual conditions. Mr. McKim then interviewed Mr. C. H. Frost and the Hon. F. T. Frost. These gentlemen offered to donate $10,000 in twenty annual payments of $500 each towards the maintenance. Mr. W. H. Frost also offered $100 a year for 20 years for the same purpose; and Mr. Carnegie's gift was increased to $11,000. The propositions were accepted by the town council. Plans were prepared in 1903 by Mr. G. M. Bayly, architect, and the building was completed during the year under the supervision of Senator Frost, Mr. H. A. Lavell and Mr. McKim acting as Building Committee. The library was formally opened on the 25th of February, 1904. On the 28th of April, 1906, Mr. Carnegie visited the library and expressed himself as being greatly pleased with it. He pronounced the building the handsomest small library which he had yet seen.

Material used in building, stone basement with superstructure of pressed brick, trimmed throughout with white wood.

Size of building, 57 x 51.

Rooms in basement, recreation room, 14 x 42; janitor's apartments, including kitchen, dining room, bedroom, parlour and bathroom, boiler room and storeroom.

Rooms on first flat, reading room, 15 x 43; reading room, 17 x 18; rotunda, 18 x 18; board room, and ladies' waiting room.

Rooms on second flat, a hall with a seating capacity of 200.

Wood used for interior finish, white wood, stained.

Material used for stacks, white wood.

Provision has been made for increasing the capacity of stack room.

Cost of building, exclusive of lot, $11,000.

Cost of furnishings, $900.

System of heating, hot water.

Gifts from Mr. Carnegie, $11,000.

Names of persons on Library Board when library was opened—G. F. McKim, A. G. Farrell, H. A. Lavell, J. A. Houston, F. Whitcomb, W. J. Keith, R. J. Brodie, S. W. Gilroy.

Names of official staff at time of opening, Edith Sutton, librarian; F. Shepherd, janitor.

Is free access to the books permitted? No.

Is there an age limit? No.

St. Mary's Public Library

Library completed, July 18, 1905.
Formally opened, August, 1905.
Material used in building, St Mary's limestone.
Size of building, 50 x 40.
Basement—
Store room, 15 x 36.
Fuel room, 15 x 15.
Waiting room, 15 x 20.
First Floor—
Reading room, 17x25.
Board room, 9x13.
Stack room, 8x12.
Hall, 11x24.
Second Floor—
One room.
Wood used for interior finish, oak.
Wood used for fittings, oak-mission.
Material used for stacks, oak.
Height of stacks, 7 feet.
Provision has been made for increasing capacity of stack room.
Cost of building exclusive of lot, $8,961.
Cost of furnishings, $1,057.
System of heating, hot air.
Gifts from Mr. Carnegie, $10,000.
On the 8th of February, 1904, the Town Council passed a resolution asking for a gift of $10,000 from Mr. Carnegie. The request was granted upon the usual terms.
Members of Library Board when library was opened:
H. L. Rice, S K Martin, J Selater, D Currie, J Egan, R S Box, R Graham, J Robert.
Names of official staff:
H. L. Rice, Chairman.
J. Robert, Secretary.
Lottie King, Librarian.
Free access to the books is not permitted.
Age limit, 14 years.
Printed catalogue.

The Galt Public Library

At the request of the Board, on March 10, 1902, Mr. James E. Kerr wrote to Mr. Carnegie, asking for a grant for a public library. In reply to the request, and also to a similar letter written by Mr. R. Alexander, Mr. Carnegie promised a grant of $17,500.

The Town Council of Galt, on the 5th May, formally accepted Mr. Carnegie's offer. A committee was appointed to select a site, and a bylaw passed authorizing the purchase of the site chosen. Plans were prepared by Mr. Mellish, architect, and tenders secured for the erection of the library building. The first library board, after completion of the building was:
R. Alexander, Chairman.
E. Radigan, Treasurer.
James J. Kerr, Secretary.
Other members of the Board—
Charles Turnbull.
William Wallace.
John H. McGregor.
Alexander Sloan.
Louis Lang.
Mark Mundy, Mayor of Galt.
Library Staff—
Miss A. G. Millard, Librarian.
Miss L. Henderson, Assistant Librarian.
Divisions of Library Building—
Basement—
Men's smoking and reading room, 21x27.
Cataloguing room, 18x21.
Store room, 18x21.
Boiler room, 18x27.
Hall, 16x49.
Height of ceiling, 9 ft. 6 in.
First Floor—
Stack room, 22x46.
Reading room, 28x48.
Delivery room, 16x24.
Reference room, 14x16.
Librarian's room, 10-6x11.
Height of ceilings, 16 ft.
Second Floor—
Lecture room, 28x48.
Class room, 22x46.
Board room, 14x16.
Hall, 16x31.
Height of ceilings, 14 ft.
Library completed, August, 1905.
Library opened, August 8, 1905.
Materials used in building, brick and Portland cement.
Size of building, 47x68, inside measurement.
Wood used for interior finish, oak.
Wood used for fittings, oak.
Material used for book stacks, oak.
Height of stacks, 7 ft. 6 in.
Width of stacks, 20 in.
Provision has been made for increasing the capacity of the stack room.
Cost of building, exclusive of lot, $22,000.
Cost of furnishing, $2,000.
System of heating, low pressure steam.
No defects in heating system.
Gifts from Mr. Carnegie, $23,000.
During the winter a literary society holds its meetings in one of the rooms of the library. A course of public lectures is also held in the lecture room.

DESTROY THE CAUSE

How the Evil one Came to be Popularly Known as "The old Scratch"

One of the many familiar sayings worse than the evil one. A scalp full of his satanic majesty is "The Old Scratch." It is undoubtedly due to the fact that scratching is so disagreeable that people thought it not of dandruff keeps one scratching all the time; not only disagreeable, but considered very inelegant in polite society—as it should be—because one ought to keep the scalp so clean that it would not itch. To cure the scalp of dandruff effectively, use Newbro's Herpicide. It kill the germ that creates the dandruff, which is preliminary to falling hair, and, then baldness. No other hair preparation kills the dandruff germ. Herpicide also is a very delightful and effective hair dressing.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. The Only Ding Stem, Two sizes—50c and $1.00.

It is a little humiliating that Peterborough is not able to figure with a picture of beautiful public library buildings like those which appear on this page, as the possession of other cities and towns, many with much less population and importance than Peterborough. However, the above picture of a proper building for a public library for Peterborough—the Menzies building, corner of George and Dublin streets—which is proposed as a suitable site and building, suggested as a way out. It is one of the largest, handsomest, best finished and architecturally complete residence buildings in the city. It is so large that it is useless for residence purposes, unless for citizens of large means, who, by the way, already have private residences. Had it not been used for a school building for the past few years, it would have been vacant. Therefore, since it is to be abandoned for school use on July 1st, the proprietors, Messrs. Eastwood and Lankford, must, for reasons of business prudence, dispose of it forthwith. It is proposed, by some who have thought the matter over, that the city take steps to purchase the building for a public library, for which it is claimed to be excellently adapted. It is sufficiently large to provide the necessary library space, stack rooms, reading rooms, etc., and, on the second floor, a large assembly hall, as well as a residence for a janitor. The building, a fine specimen of the Italian style of architecture, is solidly built—in the days when jerry builders had not been born. It is splendidly finished inside with hardwoods. It is easy of access, being situated upon the street car line. It is surrounded with fine grounds, beautified with well-grown trees, and, if purchased for a public library, the latter would have a feature which, to the same extent, is attached to no other library building in the Province—ample and beautifully shaded grounds, bounded by important streets on three sides. If the property is not purchased for a public library, private school, or some similar purpose, the building will have to be demolished and the land divided into building lots. Here is an opportunity to, at least, seriously consider the adaptability of the Menzies residence to public library purposes, and the feasibility of the city acquiring it.

Peterborough Man Was Injured In An Accident

Mr. J. H. Yelland Hurt in Train Wreck at Lakefield This Morning—G.T.R. Mixed In Smash-up Near That Village.

SOME PAINFUL INJURIES

Broken Axle the Cause of a Run-Off—Several Cars Were Badly Smashed—Passengers Hurt.

Examiner Special.

Lakefield, May 6.—This morning there was a bad mix-up in the yards of the Portland Cement Company, when the regular G.T.R. train from Peterborough was wrecked, and partially derailed. The cause of the trouble was a broken axle on a New York Central and Hudson River car, loaded with gypsum for the Cement Company. The breaking of the axle threw the car off the track, tearing the rear trucks from under the car, and cars following were badly smashed. The third car was loaded with a traction engine for Ayotte Brothers, and, while the car was thrown from the track, strange to say the engine on the car was not injured to any extent.

The passengers in the rear coach were badly shaken up, but no one was seriously hurt. Three men are reported to have fainted, but beyond being thrown around the coach and sustaining some bruises there was no serious injury. Mr. J. H. Yelland, of Peterborough was one of the passengers on the train, and he was shaken up rather badly.

The track was torn up for several hundred feet, the rails being twisted and the ties torn up. Fortunately the line was not blocked, a side track being used by the train on its return journey, and traffic will not be delayed.

Mr. Yelland arrived in the city on the returning train when it was learned that he was so badly hurt that he could not walk. His back had been hurt by the shaking up of the coach in which he was sitting. On arriving at the station he was taken to his home in one of McCollum's cabs, and had to be lifted into and out of the vehicle.

Rev. J. W. Pedley, will deliver his popular lecture "Mrs. Wiggs of the Cabbage Patch" in St. Paul's Sunday School Room, on Friday Evening, May 10th, 1907. Admission 25c, children 15c. 2d105

Indignant Citizen's Ire Is Aroused

An citizen, a prominent one, too, came into the Examiner office this morning in a condition of towering anger. He denounced, in the most expressive language, and with indignant eloquence, the city authorities for what he described as their outrageous neglect and villainous treatment of the city streets. He charges, and his charge is correct, that dirt gravel is placed on the streets, composed principally of large stones, which are a curse and a menace to horse vehicles and bicycles. He said in effect, that the entire management of the streets is a "gigantic muddle and bungle," and that it is time the long-suffering ratepayers "broke out in open rebellion." Money is wasted in every possible manner, and there is no reasonable return, as can be seen by the disgraceful condition of nearly all the streets of the city. He says that there does not seem to be a single official or member of the Council that has the faintest idea of the first principles of road-making. Instead of the big stones being raked out of the gravel, that is placed for purposes of repair, they are left on the surface, or buried, to work to the surface, as they are sure to do, to the ruin of the roadway, and of the temper of the taxpayers. If the temper and feelings of the gentleman referred to could be translated to paper, there would be a big hole burnt in this sheet where his remarks might be printed. It is seldom one sees this staid and sober and dignified citizen "worked up" so strongly over anything as he was worked up this morning over the "abominably disgraceful neglect and maltreatment of our streets."

Italian Labourer Buried Under Tons Of Earth

Fatal Accident on Saturday Afternoon at Marl Beds of Lakefield Cement Company—Victim Had Been in Canada Only Two Weeks.

THE CIRCUMSTANCES

Examiner Special.

Lakefield, May 6.—A fatal accident occurred on Saturday afternoon at the works of the Lakefield Portland Cement Company, when Guesppe Iadioio, an Italian, who has been in this country about two weeks, was buried beneath several tons of clay and the life crushed out of his body.

Iadioio, with a number of other workmen, was engaged in wheeling marl from an excavation, made under a bank of ordinary clay. There was an overhanging bank of clay, beneath which the workmen were warned not to go, since it was considered dangerous, and liable to fall at any time. No earlier than the day before the accident happened, the foreman of this particular gang again warned the men, as it looked as if the bank might fall.

Iadioio, however, according to the statement of those on the work, ignored the warning and went under the bank, with the result that just at that moment the bank fell, burying him, with the exception of his head, beneath tons of earth. It was some time before the poor man, suffering untold agonies, could be extricated from his position, and a doctor was called from the village to relieve, if possible, some of his sufferings before death came to his relief. It was some time before the men, working like Trojans, could get their companion out, and it was then found, on examination, that he had suffered terrible internal injuries, and that it was impossible for him to live. He passed away about 5 o'clock.

Dr. Brown of Lakefield was in attendance when he died, and reported the circumstances to the coroner, Dr. Grey, who, upon learning the facts of the case, decided that an inquest was unnecessary, and ordered the body to be buried. The Cement Company will pay the expenses connected with the burial.

The dead man was unmarried and 38 years of age.

The remains were brought to the city yesterday and interred in St. Peter's Cemetary.

Popular Soldiers Receive Long Service Medals

Col. Greenwood, late of the 3rd. Dragoons and Sergt. Hay of the 24th. Battery Marked For Recognition.

TWENTY-ONE YEARS' WORK

The last issue of the General Orders contains notices of the granting of long service medals to two soldiers well known in Peterborough. To Colonel Greenwood, late of the Third Dragoons, and more recently in the Imperial service in South Africa, and Sergeant Robert Hay, of the 24th Field Battery, are to be given medals, denoting and recognizing twnety-one years' continuous service, will be given.

Sergt. Hay before serving in the 24th, was in the 14th Midland Field Battery, and prior to that was connected with the 57th Regt., Peterborough Rangers. They are both popular soldiers, and news of this additional honour, which they richly deserve, will be received with pleasure and satisfaction by their many friends in this city and vicinity.

Repudiate Statements Of The Christian Scientists

Ministerial Association Dealt With the Attitude of That Body to Teachings of Mrs. Eddy—Dr. Crothers on New Theology.

AN INTERESTING PAPER

At the monthly meeting of the Ministerial Association, held this morning, the question of Christian Science was again discussed, and the following resolution was passed. It was moved by Rev. J. R. Webb and seconded by Rev. Dr. Torrance: "Resolved, that we note with regret published statements made by Mr. Todd to his followers, regarding the attitude of this association to the teaching of Mrs. Eddy. We cannot see that Mr. Todd, while enjoying the courtesy of this association, heard any word upon which to base the remarks that we were, in any sense, favourable to so-called Christian Science"

Those present at the meeting this morning were: Rev. Canon Davidson, Rev. A. H. Bruce, Rev. L. McKinnon Rev. Dr. Crothers, Rev. J. G. Potter, Rev. Dr. Torrance, Rev. H. J. Keith, Rev. J. R. Webb and Rev. J. G. Lewin.

Arrangements for a general exchange of pulpits on May 29 in the interests of Sunday school work were left with the secretary to complete and to have published in due time in the city papers.

Rev. Dr. Crothers gave a carefully prepared paper on Rev. R. J. Campbell's "New Theology." The doctor reviewed the book, stowing points of most marked divergence from the orthodox and accepted Scripture teaching, such as the incarnation, inspiration of the Scriptures, sin, the atonement and human freedom. While, for the time these views are unsettling and will turn some from the faith, yet, in the long run, they will lead to a keener search for the truth and a firmer grasp of the things that endure.

The hospital and home visitation for the month of May is as follows: Rev. Dr. Crothers, Rev. J. R. Webb, Rev. J. G. Lewin and Rev. H. J. Keith.

CHEAP LOTS.—Why lots in East City should sell at half the price similarly situated lots in West Peterborough bring no one can explain. Twenty fine lots on Dixon and Roger Streets just South East of Alex. Dawson's residence will be offered by PUBLIC AUCTION at 2 30 p. m. on Wednesday May 22nd on the Ground. THE INJURED BOY IS RECOVERING

Blood Poisoning Interferes Slightly With Recovery of Master Melville Hartley

Mr. William Hartley arrived home to-day at noon from Toronto, where he went on Saturday to visit his son, Melville, who was injured by an accident with a revolver, a few weeks ago. Mr. Hartley stated to-day that blood poisoning has interfered slightly with the patient's recovery but it is not anticipated that the accident will result seriously. He is getting along as well as can be expected under the circumstances, and an early recovery to his usual health is anticipated. Mrs. Hartley, who left to attend her son, immediately after word of his accident was received, is still with him.

MODERATION

Enthusiasts are not noted for self-control; and lack of this quality has got Dr. Torrey, the evangelist, into trouble. He was speaking in Montreal on the evil effects of marital infidelity, when Mr. Norman Murray, from the congregation, submitted what, he thought, a poser, and asked, "What about King David?" The question was somewhat of a poser, too, to the preacher, it seems. Dr. Torrey, instead of explaining, is said to have retorted, "King David was a better man than you are, but there is hope for you, even though you were arrested for selling obscene literature on the street." The result was that the evangelist was served by Mr. Murray's solicitor with a writ in an action for defamation of character. Dr. Torrey attempted to modify the situation by explaining, but the fact that he has since publicly apologized to Mr. Murray, shows that in his zeal he said a little too much. But Dr. Torrey is not the only one who should be legally disciplined. Mr. Murray laid himself open to blame by disturbing the solemnity of a religious meeting. Though he may claim that sensationalism in the pulpit provokes such interruption, that does not justify him, though it may be held to excuse him. One effect of sensationalism in the pulpit is that it tends to destroy reverence, and as reverence is at the bottom of all true religion, sensationalism does not, therefore, conduce to the promotion of the true spirit of religion, and requires considerable defending. Ministers, members of parliament, and lawyers, in courts are apt to presume upon their privileges and claim immunity from responsibility for their utterances, such as does not attach to ordinary citizens and the press. If newspapers should say such things as are often said by ministers of the Gospel, members of parliament and lawyers in court, they would be brought to a reckoning rather summarily. But the same moral obligation rests upon all; because a class of men is held to be privileged, so much greater is the moral obligation resting upon them, not to transcend their privileges. Ministers of the gospel may dogmatise on abstract points of doctrine; members of parliament may discuss political principles as bitterly as they choose, and lawyers may wrangle about points of law, but none of them are justified in practising personal abuse, under abuse of the privilege which their offices affords.

EDITORIAL NOTES.

Toronto may win the baseball pennant, become an ocean port, settle its milk strike, subscribe $30 to the Longboat educational fund, but it is still in the grasp of the street railway octopus.

With a foot of snow in May the coal dealers will repent of having reduced coal to $6.90 a ton. However, their self-sacrifice will not last long. It will advance ten cents next month.

Toronto can cackle over a very ordinary egg. It appears that two steamers of the Canadian Lake Line are to sail from England with a full cargo of iron, which is to reach Toronto without breaking bulk. Toronto gazes upon this circumstance to swell itself into an ocean port. The Globe even gloats over it on its editorial page, and suggests that, with deepened canals, this might be accomplished. And why deepened canals? The canals are large enough now to pass vessels which can safely cross the ocean, as has been done in the past. Before the canals were enlarged to their present capacity—more than thirty years ago—an occasional sailing vessel, with the salt-spray marks upon her, has been known to ply through the Welland Canal, having previously crossed the ocean from Sweden.

NOT THE WEST ONLY

We are accustomed to place all the progress and "hustle" in the Great West of Canada, but the Maritime Provinces have their share in the "boom," indicating that the wave of prosperity is passing over Canada from end to end. Amherst, Nova Scotia, is an instance of this. Since 1896 its population has doubled; its customs returns, the index of trade, have increased from $28,000 to $120,000 in ten years, a four-fold increase. In the same time, the receipts by the Intercolonial Railway have increased from $90,000 to $310,000, and the output of the factories reached a value of five million dollars, and over a million dollars was paid in wages. This increased prosperity has come under the Liberal Government, which has ruled the country for the past ten years. It is not claimed that this progress is altogether due to the fact of a Liberal Government being in power, but it has come, anyway, under Liberal rule. When the Conservatives left office there were prophets of evil, who told us that when the originators and patentees of the National Policy should no longer have the guding of the ship of state, the craft would go to smash on the rocks. It is a pleasure to note that the very reverse has been the case. The country has never forged ahead as it has done for the past ten years, and the rate is being maintained to-day. It is a greater pleasure to note that the progress is general, not confined to any one section of province. The Maritime Provinces have been regarded as slow and unprogressive, but they are having their turn now, though the dizzy rate of advance of the West makes the progress of other parts seem slow by comparison, that progress exists in every tangible form.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

MRS. ARCHIE QUINN WON HER CASE

Judgment Has Been Rendered Giving Her the Decision—The Seizure Was Invalid.

Over a year ago, Mr. John Fairbairn, of Lakefield, had the Sheriff seize the crops and chattels of the Quinn homestead, to pay a judgment held by him against Mr. Archie Quinn. Mrs. Quinn, through Messrs. Hall, Medd and Davidson, claimed the seizure was wrong, and Fairbairn had no right to have it made. The Sheriff put in an interpleader action and the court directed a stated case to be tried to decide the validity of the seizure. The evidence of all parties and their witnesses was taken in court, and the case argued by the counsel for both parties. Judgment has been given dismissing Mr. Fairbairn's suit with costs. A. P. Poussette, K. C., and Mr. Edmison, K.C., represented Mr. Fairbairn; Mrs. Quinn was represented by Mr. Medd.

MANY MATTERS TO COME UP TO-NIGHT

Council Will Have a Busy Session—The Sign By-law once Again

The City Council has many matters to take up at its regular meeting to-night, and the session gives promise of being a busy one. Of course, the sign bylaw will come up; it wouldn't be a meeting of the Committee of the Whole Council without this familiar measure. The recommendation of the Property Committee for the alterations in the old fireball to give accommodation to the city officials, and the enlarging of the committee room will also be taken up with the telephone rates and other important business. It is hoped that to-night will settle the sign question one way or the other. The public is tired hearing of it, and the Council must be weary of the discussion that has been waged over the bylaw.

MELANCHOLY?

Can't even sleep—restless day and night, brooding over imagined troubles all the time. Your disease isn't in the brain, but in the blood, which is watery and thin, because you don't assimilate your food.

Do the right thing now and you'll be cured quickly. Just take Ferrozone; it turns everything you eat into nourishment. It puts new tone into the blood, quickens and vitalizes the worn-out nerves. The weary brain is relieved, sleeplessness disappears and brooding ceases.

FERROZONE

For health—vigor—spirits, try this grand food tonic—none better. It uplifts, braces, tones, makes you feel like new. Both old and young, male and female, derive unquestionable benefit from this grand medicine.

AVOID SUBSTITUTES!

Price 50c per box or six for $2.50, at all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A. 136

A RELIABLE STRENGTH CREATOR

Vinol is the latest scientific production of the greatest tonic rebuilder the world has ever known, namely, cod liver oil.

In Vinol the useless, system-clogging, nauseating oil is eliminated and the medicinal curative elements known to exist in the cods' liver, are administered in a highly concentrated form, with tonic iron added.

This is why Vinol is so strongly recommended by physicians and guaranteed by over five thousand of the leading druggists of America as a body builder and strength creator for old people, weak women, puny children, after sickness, and for all pulmonary diseases. The doctor knows what he is giving and the patient knows what he is taking.

Mr. McDermid, of McDermid and Jury, our leading druggists, says: "We sell Vinol on a guarantee that it is and that it will do all we claim for it, or refund money without question." McDermid & Jury, druggists; also at the Market Drug store, the Ormond and Walsh old stand.

SNOWDEN HOUSE NEW BAR OPENED

Handsome Room in Basement of Building Now Completed.

The new and beautifully finished bar in the basement of the Snowden House, was opened to the public this morning for the first time. The room has been handsomely finished in natural quarter cut polished oak, and presents a pretty appearance. It is the only one of its kind in the city and has been modelled after some of those in the American cities. Access may be had from Charlotte street or from the hotel proper.

At the back of the bar throughout its length are bevelled plate French mirrors.

Throughout the whole length of the back board below the mirrors, are cupboards, neatly made of oak and plateglass, for cigars, bottles, etc. The bar is lighted by handsome opaque glass electroliers of the latest design. Mr. Ed. Wand, who inserted the fixtures, has completed a first class job. The electric wiring was done by Messrs. McGregor & Reid.

Messrs. Oscar Halihan and Ernest Reaston will be in charge of the bar to attend to customars' wants.

Mr. Snowden will probably use the large room formerly occupied by the bar for sample rooms.

POST-CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Editor Post Card Column,—

Dear Sir, — A prominent local bank manager was telling me about the condition of a part of Downie street, where a sewer was buried last year. He says there is no need for headstones to mark its last resting place, or of the sewer connection — the graves are a foot above the surrounding mud. From what he told me I have a suggestion: I understand our city engineer is great at making pictures — fancy plans, which sometimes take a fancy to not working out just right. He should make a profile plan of Downey street from Hunter, south to Charlotte street, and place it in the Victoria Museum, in which he takes so deep an interest. It would be a "corker," as a curiosity.

Yours, etc.,

JOKER.

WATER IN CELLARS ON PARNELL STREET

Residents in That Neighborhood Complain to Sanitary Inspector.

Sanitary Inspector Ball has received complaints from residents on Parnell street, to the effect that there is water in the cellars of their houses, and asking that some action be taken. One gentleman complained that there was two feet of water in his cellar. No action can be taken in respect to the complaint, but the Council has already decided to build a sewer on that street, and the work will be done as soon as possible.

European Mails via North Sydney

An important announcement is made in our advertising columns by the Intercolonial Railway. Commencing next Friday, May 10th, a special train, with sleeping and dining car attached, will leave Montreal at 7.45 p.m and run through to North Sydney, for the purpose of carrying the European mails and such passengers as prefer the shorter ocean voyage. At North Sydney a comfortable steamer will be in waiting and immediately transfer the mails, passengers and their baggage to the mail steamship, which will have left Montreal two days earlier. This arrangement is expected to continue weekly until the northern route via the Straits of Belle Isle is free from ice, then Rimouski will become the mail port. The inward European mail steamships will also deliver their mails at North Sydney during the same period.

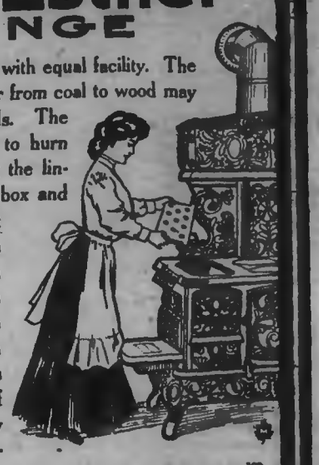
THE Penn Esther RANGE



burns either wood or coal with equal facility. The change in the Penn Esther from coal to wood may be made in thirty seconds. The only alteration necessary to burn wood consists in removing the lining of one end of the fire box and inserting a perforated, cast iron wood-grate, which is supplied free with all Penn Esther Ranges. When this end lining is removed, the Penn Esther will burn a stick of wood 24 inches long. The advantages of this are obvious in country sections where wood is extensively used for fuel.

FIRST SERMON TO REBEKAHS

Rev. Wm. Major Preached Appropriate Sermon to This Degree of Oddfellows Yesterday Afternoon.

REBEKAH'S CHARACTER

The story of Rebekah, the points in her character worthy of emulation and those which should be avoided, formed the basis of the address given yesterday afternoon by Rev. Wm. Major to the members of the Rebekah degree of Oddfellows, at the Oddfellows' Hall. There was a good sized gathering of members of this degree, as well as others, at the first public service under this auspices in Peterborough.

The good work which the Order had accomplished in the past was referred to by the speaker, who believed that, with the assistance of the ladies the sphere of influence now enjoyed by the Order could be very greatly enlarged, and the work could be much better performed. The work for which Oddfellowship existed was essentially work in which women were proficient. They could do more in five minutes than a man would blunder over in half an hour, he said.

In reading the report of the Committee of the Rebekah degree presented at the last annual meeting of the Grand Lodge held in Peterborough, regret was expressed expressed that the work of the Rebekah Degree was hindered to a large extent by the apathy on the part of the men of the Order. He hoped, for the sake of Oddfellowship that this condition did not exist in Peterborough, and that at the coming Grand Lodge meeting there would be no such complaint in the report of the Committee on this work.

He believed that the success of the Order would be very greatly impaired if the men exhibited opposition or apathy towards this degree.

The speaker gave some facts concerning the institution of the Rebekah Degree. In the year 1851 the the degree was established in the United States, but for a number of years it met with opposition, as almost every movement which had for its object the helping of humanity does. Senator Colfax, however, was one of the staunch supporters of the new movement, and it was largely through his energy that it was finally recognized as an essential feature of the Order. It was established in Ontario in the year 1890, several years after its introduction into the United States.

At the present time there are in this province 60 lodges, with a membership of 3,500. It has, however, not developed in Canada as rapidly as it has in the United States, and the cause of this slow development, he said, was attributed to the position taken by the men. He believed that this position was an infraction of the very basic principle of the Order, that of fraternity. He knew the influence of women in church work, and he believed that their influence would be as great in the noble work of caring for the suffering members of the Order and their families.

In the life of Rebekah, the Biblical character after whom the degree was named, there were many things worthy of emulation, and he believed that these qualities were emphasized in their work and ritual. It was, however, a fact, also that there were some things in the life of this woman which should be avoided, and he wished to refer to a few of these. In the first place she showed partiality in the family, giving evidence in many ways of her preference for Jacob over Esau. This was a characteristic which was bound to cause trouble, and the results showed that there was no exception in this case. In addition to her partiality Rebekah was guilty of duplicity and unfaithfulness to her husband. There were, however, the speaker said, qualities in her life which might well be copied with profit by the members of this degree of Oddfellowship. Undoubtedly she possessed strength of character, and she gave evidence in her lifetime of her willingness to help those who were in trouble.

In concluding his address Mr. Major expressed his best wishes for the continued success of the Order and of the Rebekah Degree.

Sick Headaches and Biliousness

ONLY COME WHEN THE LIVER GETS TORPID AND SLUGGISH—
THE CURE IS

DR. CHASE'S KIDNEY-LIVER PILLS.

Sickness is to some extent a habit. This is especially true of biliousness and constipation. So long as you neglect treatment or merely use medicines to move the bowels, the old trouble returns.

Isn't it worth while to follow up a treatment that has positively cured these ailments in thousands of cases?

Mrs. Jas. Monteith, Saurin, Simcoe Co., Ont., writes: "I have used Dr. Chase's Kidney-Liver Pills for liver complaint, biliousness and terrible sick headaches and have found that they are more effective than any treatment I ever tried. They cleanse the system thoroughly, remove the cause of pains and aches and make you feel fresh and strong again. Dr. Chase's Kidney-Liver Pills are also excellent for stomach troubles."

Such a host of ailments may be directly traced to disorders of the liver that the physician in the great majority of cases prescribes a treatment for the liver the very first thing, so as to eliminate poisons from the system.

On the activity of the liver, to a very large extent, depends the health of the body, and the success of Dr. Chase's Kidney-Liver Pills must be attributed to their prompt, direct and specific action on the liver.

Healthful liver action ensures a good flow of bile to aid the functions of digestion and regulate the bowels. Biliousness, headache, intestinal indigestion, bodily pains, low spirits and ill-temper, as well as a score of other troublesome symptoms of slow, torpid liver action, soon disappear when Dr. Chase's Kidney-Liver Pills are used.

The benefits obtained by this treatment are not only prompt, but also thorough and lasting. One pill a dose; 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.—7

POPULAR EMPLOYEE HAS RESIGNED

Mr. Rich. Baker Leaves The Y. M. C. A. After Two Years' Service—Will Take Another Position.

THE REGRET OF THE BOARD

Y. M. C. A. officials and members learn with deep regret of the decision of Mr. R. Baker and his wife to resign their positions as janitor and janitress, respectively, of the Y.M.C.A., which they have held for the past two years.

A special meeting of the Board of Directors was held on Saturday afternoon, when the resignations were dealt with. A strong effort was made to get them to re-consider, but without effect, the resignations being finally accepted, to take effect on June 1.

Mr. Baker expressed his gratification to the Board and the officers and members generally for the kind treatment he has received from all. His only reason for retiring was to take another position.

The directors unanimously passed the following resolution, expressing their regret at the decision of Mr. and Mrs. Baker:

"Resolved, that we place on record our high appreciation of the faithful and efficient services of Mr. and Mrs. Richard Baker as janitor and janitress during the past two years. We have noted with pleasure the deep interest taken by Mr. Baker, not only in his own work, but in the interests of the Association and members generally.

"We deeply regret the retirment of Mr. Baker and his wife, and wish them prosperity in the future."

Applications for their successors were referred to the Executive, of which Mr. Harding, the president, is chairman.

STIRRING ADDRESSES AT THE Y.M.C.A.

Rev. J. G. Potter Spoke From Subject "Prince, Prisoner and Premier" at Men's Meeting Yesterday.

At the Y.M.C.A. evangelistic meeting yesterday, Rev. J. G. Potter gave a strongly impressive address at a well attended gathering in association hall.

His subject was "Prince, Prisoner and Premier," portraying the life of Joseph. Some telling lessons were drawn from his life.

Mr. Potter also sang an appropriate Gospel song, which added much to the meeting.

A LARGE INCREASE IN CHURCH MEMBERSHIP

During Last Quarter a Number Have Been Received Into Mark Street Methodist Church.

At the Quarterly meeting of the Mark Street Methodist Church on Saturday afternoon, the business of the year was closed up. It was reported that the past year had been a successful one for this church, from a financial as well as from other essential standpoints. During the last quarter alone fourteen new members were received into the church, the greater number by card from other Methodist Churches. Mr. T. Johnston was appointed the delegate to attend the district meeting, which will be held on May 22. The prosperity has not been confined to the church in this city. At the Selem appointment on this circuit, as a result of the special services held there recently, twenty new members were received into full church membership.

MANY HORSES SOLD BY THE EXCHANGE

Weekly Sale Was a Great Success in Spite of the Weather.

In spite of the heavy snowstorm on Saturday morning, which kept many farmers from coming to Peterborough, there was a large attendance at the weekly sale of horses at the barns of the Peterborough Horse Exchange, in the rear of the Snowden House. A large number of horses were sold, and also several sets of harness, all of which brought good prices. The Exchange will hold a similar sale next Saturday, when some valuable horses and some milch cows will be disposed of. Mr. J. H. Gardiner was the auctioneer.

HAD THIRTY-TWO BOILS AT ONE TIME

Two Bottles of Burdock Blood Bitters Cured Him.

Imperfect organic action makes bad blood, so, too, bad blood, in turn, makes imperfect action of every bodily organ. If the blood becomes impure, poisoned or contaminated in any way from constipation, biliousness or any other cause, some especially weak organ must soon become diseased thereby, or the whole system may suffer in consequence.

Pimples, boils, blotches, ulcers, festering sores, sleeplessness, tumors, rashes or some serious and perhaps incurable blood disease may result. There is no medicine on the market to-day to equal the old and well-known remedy,

BURDOCK BLOOD BITTERS

for all cases of bad blood.

Mr. Ernest B. Tapper, Round Hill, N.S., says: "I think Burdock Blood Bitters a great medicine for boils. I had them so bad I could not work. I had thirty-two on my back at one time. I used only two bottles of B.B.B. and they completely cured me. I cannot recommend it too highly." Price $1.00 per bottle, or 6 bottles for $5.00.

CONTINUATION OF THE ANNIVERSARY SERVICES

To be Held in St. Andrew's Church Tonight—Notices for the Week.

The anniversary services in connection with St. Andrew's Church will be continued this evening, when a congregational re-union will be held. Addresses will be given by Rev. Dr. Marsh of Springville, Rev. H. J. Keith of Knox Church, and others. The music will be of a special character and will certainly be a treat to those who hear it. Solos will be rendered by Mrs. Davidson, Miss Clara Belleghem, Miss Edwards, Mr. Freeland and Mr. Mortlet. No fee will be charged.

The re-organization of the Woman's Home Missionary Society will take place on Tuesday night at 8 o'clock, when an address will be given by Mrs. Robt. Hall.

The regular prayer meeting will be held on Wednesday night.

Next Sunday, special services commemorative of the centenary of Morrison's work in China will be held.

The Davis Vertical Feed Sewing Machine sews the finest silk without puckering as there are no teeth. J. M. Greene Music Co., George Street Sole Agents. 3-d-103

THREE HUNDRED MEMBERS WERE AT CHURCH

St. Peter's T.A.S. Attended Communion in a Body Yesterday Morning

St. Peter's T.A.S. attended the early mass in a body yesterday morning and received Holy Communion. His Lordship Bishop O'Connor said the mass and was assisted at the communion by Rev. Father McColl and Rev. Father Galvin. There were three hundred of the members of the society present and they occupied the centre rear of the church. Mr. P. O'Donnell was marshall and was assisted by Mr. M. Zero and Mr. John O'Brien.

At the conclusion of the mass His Lordship addressed the congregation from the altar. He said that it was a great pleasure to him to testify to the Catholic spirit evidenced by the various societies attending communion. It is a true sign of practical Catholicity and a source of edification for the whole church. The two chief duties of man are to avoid evil and secondly, to do good. The world of to-day, His Lordship said, does not approve of showing piety and going to church. It is a false theory and and merely adapted to suit themselves. They believe in obeying only one part of the law, that of avoiding evil, but without frequently doing good they will not be able to avoid evil. Not everyone who says "Lord, Lord," will enter the Kingdom of Heaven.

Heaven is a reward for good deeds. As Christ says it is as a compensation at the close of a day for the many gained by the individual inless his will co-operates with that of God, the same as a man sins when his will assents to the temptations offered by Satan. His Lordship urged all the societies that have attended communion during the past two months to never be ashamed to profess their religion publically before men according as Christ has demanded.

Demand the Correct Styles

Young Men want their Clothing in the style that is new, not one that was new.

Office 314 Aylmer St. Bell Tel. No. 6.

"They Will Not Shrink"

"Why Won't They Shrink?"

"Because they are not simply sponged before cutting, but the cloth is thoroughly shrunk."

"That will do to tell: but I guess your clothes will shrink just the same as ready-mades."

"Excuse me: One result of our method of shrinking is to so shorten the bolt of cloth, that less Suits can be cut from it than under the cheaper process. That's the only way you can get a Suit that will keep its shape."

72ND. ANNIVERSARY OF ST. ANDREW'S

Celebrated Yesterday, When Addresses Were Given by Professor Kennedy of Knox College.

CONTINUATION TO-NIGHT

Large congregations were present at St. Andrew's church yesterday, both morning and evening, to commemorate its seventy-second anniversary, and the twenty-second anniversary of the present edifice. The services were conducted by Rev. Prof. H. A. A. Kennedy, of Knox College, Toronto, who delivered two impressive addresses, which will not soon be forgotten by his hearers. The music was also of a special character, and carefully selected for the memorable occasion.

In the evening Professor Kennedy's remarks were confined to the reasons why men were disposed to seek God in the hour of some great calamity, after having followed a life of sin and separation from the Almighty. He founded his remarks on the words of the 34th verse of the 78th Psalm, which are as follows: "When he slew them, then they sought him, and they returned and inquired early after God."

In these words, said the speaker, the Psalmist singles out the fact oft noticed in the past history of Israel, and one we can still see if our minds are open to things spiritual, that so long as calamity does not overtake us, God is forsaken; but as soon as we come face to face with defeat and probably death we forsake the old methods of living, and gather around the sanctuary of God. This conduct does not belong to one age, but is common to all stages of the history of mankind. But, continued the speaker, it is far better that this should be the result of trouble, than the opposite.

We cannot be assured, however, that calamity will subdue the spirit of man to the divine will. The reverse too often happens, and sorrow frequently embitters a person towards God. The most cynical men were those who had suffered some calamity, in their business or professional career. But it is infinitely better that calamity should lead men to live a more moral life than the opposite.

It often occurs that even the most reckless of men, those who are accustomed to nothing but curses and other wrong-doing, will, in the peril of shipwreck, cry out for the assistance of the Almighty.

In accounting for this turning to God in times of trouble, Professor Kennedy explained that in such instances men have been brought to the end of their own resources, and they find it impossible to continue in their own strength. Their lives have been self-centred; they have put enormous trust in human power, so that when calamity comes they are at their wits' end to know what to do. Their self-conceit and their ambition have altogether vanished. The human efforts have proved valueless so that only one hope is left, and they seek aid from God, who in the end is discovered to be the only true refuge.

We turn to God, and He receives us willingly. The speaker beleived God to be possessed with the spirit of forgiveness beyond conception, as He was always ready to accept men who had hitherto been leading lives of recklessness and of evil doing. It was almost an incredible revelation of the mercy of God, who at the last moment protects us by His divine power and love. It was a most pitiful thing, said Professor Kennedy, to reflect that calamity has to be resorted to so often to bring men into contact with Almighty God. He exhorted his hearers to at once bring their lives, if they had been misspent, to God, instead of continuing such, which would probably finally permit only the offering of the wreck of a life illspent. The compulsory method of finding Him, was not a satisfactory one. If calamity is waited for to subdue, there may be some disappointments, for the longer a person follows worldliness the longer will it take to submit to the love of God. He is too often left as the last resort; we need to seek him and to worship Him for what He is, and for what He can do for us. To know and appreciate Christ is to know the Father.

In conclusion the speaker advised his hearers not to consider that in time of exhaustion it was easy to enter into a State of peace with God. Now is the accepted time, and now is the day of salvation.

The musical portion of the sermon, as mentioned above, was of a special nature. "O. Lord, Thou hast searched me out," by Bennet, was effectively sung by Mr. Freeland. A solo was also sung by Mrs. Davidson, and a quartette, "My God and Father, while I stray," was rendered by four members of the choir. The anthem was entitled, "Saviour, when Night Involves the Day," by Shelly. Mrs. C. S. McClelland presided at the organ.

The anniversary services will be continued this evening, when a congregational re-union will be held.

SECOND FIRE TEAM IS NEEDED

Correspondent Points Out That There is Necessity for Improvements to Fire Fighting Equipment.

TO PROTECT PROPERTY

To the Editor of the Examiner:

Dear Sir,—While Peterborough in the past has been practically immune from extensive conglagrations, and which the citizens can congratulate themselves (with thanks to the voluntary brigades of fire-fighters with which Peterborough has been blessed since its inception) the fact cannot be ignored from now on. Especially since the Fire Department is about being moved into new headquarters—everything that can be done to successfully fight the fire fiend, should be adopted. To my mind, as an old resident, and a past member of the Brigade for years, the proper handling of the equipment should come first. In case of an alarm of fire the first and most important thing is to have your apparatus on hand as soon as possible after an alarm comes in. Now, to do this, to my mind, the only proper way to do so is, to have your horses and drivers on hand to respond to calls—and not out on the back and call of several civic officials, drawing charity wood, watering streets, etc. No! I say, both hose, and hook and ladder teams should be in their stalls ready to respond to a call on the shortest notice, with swinging harness, up-to-date, for both teams. Again, the prompt appearance of the fire-fighting apparatus on the scene of a fire invariably is the means of preventing what otherwise means a serious loss of property, and occasionaly loss of life. I am more than pleased that our city aldermen are installing an electric fire alarm, that will do away with the present very serious occasion of delay, which is the case with our present mode of fire alarm. As we are now a city of 15,000 population, and with large property interests at stake, I think it behooves us, as citizens, to wake up to the fact that what we want is fire protection, and up-to-date, and want it right new, not wait till it is too late, and after half the city has been wiped out, start to make a move. It will not be long until a paid department will have to be employed, and in my estimation, suggestions from a trusted and tried official like Chief Rutherford, should be acted on at not wait till it is too lake. It is believed that the Chief has the interest of the city at heart; he certainly has had the experience, in the long number of years he has been, actively, a member of the fire department, and especially of late years, as chief official, and I am satisfied that our aldermen will make no mistake in acting promptly on the serveral suggestions—which I see by reading your paper—he has made.

This is a serious matter with us all as citizens, and I hope and trust that these important matters will be attended to promptly, and not wait until it is too late.

Believe me to be, Mr. Editor,
"One who is interested in life and, Property."

THIS ENGLISHMAN IS SATISFIED

Charles Spurway Arrived in Peterboro' With Three Cents, but Has Prospered Since He Came Here.

Charles Spurway is one Englishman who has spent some time in Peterborough, and who is satisfied with the conditions as he found them here. After having spent a few months in this city he left to-day for Cobalt, and, before leaving Peterborough he called on the Examiner to express his satisfaction with this city, and with Canada in general, in view of the fact that many persons who have spent only a short time here are giving expression to sentiments which are, to say the least, not complimentary. He stated that he had landed in Peterborough with only three cents in his pocket, in circumstances which were, indeed, desperate. He did not lose courage, though, and soon found some work—not just the kind that he had been used to, or the kind that he would have chosen, had he been in a position to choose—but it was work just the same, and it was work which paid. He was soon on his feet again, and he found that the Canadians, as a general rule, are willing to give the man who is willing to work, a show. He has been in Peterborough several months now, and has saved some money, and left to-day for the Silver City to try his fortune there.

The Chest Pains Of Bronchitis

If the cough is dry and hard, if there is pain, soreness and tightness in the chest, if you have difficulty in getting your breath, you have reason to suppose that you have bronchitis. Lest it should become chronic and lead to serious lung trouble do not delay the use of Dr. Chase's Syrup of Linseed and Turpentine, the most certain cure for bronchitis.

HIRED MAN DISAPPEARED YESTERDAY

Left His Employer Before He Had Made Good for Money Lent Him.

Even the farmers have trouble occasionally, mostly with their hired labour. One of the good tillers of the soil was around this morning, looking for his hired man, who, he claimed, had taken to the stately timbers yesterday while the family was at church. His earthly goods had disappeared, and it looked as if he had gone for good.

The gentleman for whom he was working would not be so eager to have him back did he not owe his employer a sum of money. The man was hired, in the first place, to work for nine months, and was to receive $160 and his board. He borrowed $28 when he commenced work, on April 1, and was allowed $18 for six weeks' work, thus there is still money coming to the employer, who considers that he has not been fairly treated, and would like to get even. He heard that this man had started for Keene, but could find no traces of him.

WILL OPEN THE SUNDAY SCHOOL HALL IN JUNE

The 18th Anniversary of the Sunday School Will Also Be Celebrated.

The Cold Springs Union Sunday School of Otonabee expect to open their new hall on Sunday, June 9. The opening of the hall will coincide with the celebration of the 18th anniversary of the foundation of the Sunday School, which celebration usually takes place at the end of May. On the Monday night following, the annual tea and entertainment will be held.

AN EXCITING RUNAWAY DOWN GEORGE STREET

Horse Was Bitten on the Heels by a Dog Near McDonel Street.

An exciting runaway occurred yesterday which was witnessed by a large number, as the horse attached to a buggy ran down George street beginning at McDonel street and stopping at Lake street. The animal was bitten on the heels by a dog, causing the runaway. No damage was done to the vehicle, but the horse's feet were somewhat cut. It belonged to Bruce Lee's livery and was being driven by two young men.

GROWING IN POPULARITY

The More People Know Newbro's Herpicide the Better They Like It

The more it becomes known, the better it is liked. One bottle sells two, and those two sell four. Newbro's Herpicide is what we are talking about. It cleans the scalp of all dandruff, and, destroying the cause, a little germ or parasite, prevents the return of dandruff. As a hair dressing it is delightful, and ought to be found on every toilet table. It stops falling hair and prevents baldness. It should be used occasionally as a preventive to protect the scalp from a new invasion of the dandruff microbe.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. The Market Drug Store. Two sizes—50c and $1.

SUNDAY BASEBALL IN NEW SCHOOL GROUNDS

Residents in the Vicinity of King Edward School Raise Complaints.

The residents in the vicinity of the new King Edward School are complaining about the manner in which the youths of the south end of the city disturb the quietness of Sunday by playing baseball. The Examiner was informed that yesterday all day long a crowd of boys and young men played ball in the King Edward school grounds. They began in the early morning and until the shades of night began to fall there was never a let-up. Their language, the Examiner's informant stated, was most obscene and unfit to be heard any day in the week. This is a condition of affairs which the authorities should prohibit as the more such sort of thing is allowed to continue the greater will the nuisance become.

ANNUAL MEETING OF PARK STREET CHURCH

Will be Held on Thursday Night, When Officers for the Year Will be Elected.

Representative congregations gathered at the Park street Baptist church yesterday. The morning sermon was one of more than usual interest, the subject being "Moral Reform." To-night the service will be in charge of the young people of the church and the subject will be "The Power of a Converted Life." The pastor will be in charge of the prayer meeting on Wednesday night. The annual business meeting of the church will be held on Thursday night, when the election of officers will take place and the reports of the past year will be presented. The Busy Workers will meet on Friday afternoon at 4.20. Yesterday afternoon the monthly meeting of the Mission Band was held, Miss Mann presiding. Two delegates were appointed to attend the convention to be held in Port Hope in June.

WILL NOT PUBLISH REPORT YET

Board of Health Decides to Wait Until Second Reports Have Been Received —Other Business

CONDITION OF THE RIVER

At the Board of Health meeting this morning reports were received from Dr. Amyot, Provincial Bacteriologist, in reference to sample of milk sent to him from Peterborough. Reports have so far been received, but the Board decided to-day to hold back the publication of them until the reports of the second round of samples have been received. A motion to that effect was carried.

The Sanitary Inspector was instructed to prepare a list of all premises in the compulsory area not connected with the sewer.

Sanitary Inspector Ball made a report of the conditions existing along the river below the intake pipe at the water works. He reported a number nuisances along the river which should be removed and strongly condemned the use of pits and vaults especially along the route of the river. The inspector was of the opinion that a large number of the nuisances he had referred to would be removed before the next meeting of the Board.

The Medical Health Officer reported that he had heard it stated that the outfall sewer in East City was not being used properly.

On motion the Medical Health Officer and Sanitary Inspector were instructed to inspect the outfall sewer and report as to whether it is being satisfactorily used or not. The two officials are making their tour of inspection this afternoon.

BOYS THREW SNOWBALLS AT THE FRONT DOOR

While Returning From Sunday School Yesterday.

A lady living on McDonel street complained to-day that three or four boys living in the west end, threw stones and snowballs at her door yesterday. She supposes that they were returning from Sunday School, since it happened at five minutes to four. Her husband went to the door and recognized the boys. It is not the first time that this has occurred and it is likely that the boys will hear more of it before long. When boys do not know how to discriminate between proper behaviour on Sunday and every day rough-house, some one should give them a few pointers.

OLD RUBBERS FOR A CHARITABLE PURPOSE

Committee in the City Will Arrange to Have Them Gathered.

A novel scheme for the purpose of collecting money for a charitable institution has been instituted in the city, and to this method, the attention of the public is requested. The citizens are asked to save all the old rubbers, rubber hose, etc., and by so doing they will assist in the good work, which has for its purpose the assistance to the Free Consumptive Hospital at Muskoka.

A committee of ladies and gentlemen of the city are taking the matter up, and they will see that the citizens are waited upon to obtain old rubber from them.

Murray Street Baptist Meetings

To-night the Young People's Society of the Murray Street Baptist church will meet. To-morrow afternoon at 3.30, the Ladies' Aid Society will meet, and at four the Ladies' Mission Circle. The regular prayer meeting will be held on Wednesday night.

Election of Officers

To-night, the election of officers of the Charlotte Street Epworth League will be held. This election should have taken place last Monday night, but was postponed for a week on account of the small attendance, a result of the disagreeable weather conditions.

THE RECTOR CONDUCTED THE SERVICES AGAIN

Rev. E. A. Langfeldt Preached at Both Services in St. Luke's Church

Rev. E. A. Langfeldt preached at both services yesterday at St. Luke's, the first time after his recent illness. Large congregations were present. Prayers were said yesterday for blessings upon the fruits of the fields, it being Rogation Sunday. Instead of the second lesson, the Ascensiontide, appeal for Canadian missions was read. Next Sunday a special collection will be taken for the missions of the church in the Northwest.

The following meetings will be held during the week:

To-night at eight o'clock, the Men's Guild and Girls' Auxiliary will meet.

Tuesday at eight o'clock the meeting of the Brotherhood of St. Andrew will be held.

Thursday being Ascension Day, the Holy Communion will be celebrated at 10.30 a.m.

The W. A. will meet on Thursday at 2.30.

The Mission Band meeting is on Friday at 4.15.

Piles Cured in 6 to 14 Days
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, or money refunded, 50 cents.

ASKED TO BE GIVEN SIX MONTHS IN THE GAOL

John Oakley, Homeless and Friendless Has no Other Place Wherein to Pass His Last Days.

There was little on at the police court this morning. John Oakley, an old man, who is dependent on his fellowmen for mere existence, asked to be returned to jail for another six months. He is out only a short time and finds that he is unable to support himself. He was given the necessary paper and told to betake himself to the hill, and off he started without even a policeman.

If there is anything that should induce people to educate their children as far as possible, and that that should be an example to young men to lay by a little money for the rainy days of old age, it is the old men who end up in gaol and poor house to watch their waning strength slowly fade, forgotten by friends, without means, and merely a burden to the community.

WEDDING BELLS

IRWIN-NICHOLS

Mr. Thomas Nichols' home in Harvey township was the scene of a quiet wedding on Saturday morning, May 4th, at 11.30 o'clock, when his daughter Alvina Estella, was united in marriage to Wm. James Irwin, by Rev. H. D. Raymond, of All Saints' church, Toronto. The bride was attended by her sister, Miss Mary Nichols and Miss Dora Irwin, while Mr. John C. Purser attended the groom. After the ceremony the guests present partook of a sumptuous wedding breakfast and then the happy couple drove to Peterborough to take the train for Toronto, Buffalo and other points, on their honeymoon.

FOR SALE.

That well built brick house and lot situated at the corner of George and Dublin Streets, also excellent corner lot. This property is to be sold to wind up an estate, and all particulars may be had at 580 George Street, dtf

KICKED ON THE HEAD BY HORSE

Charles Belleghem Was Badly Injured This Morning—Will Recover

Charles Belleghem, son of Mr. John Belleghem, was badly injured, and had a narrow escape from being killed this morning, as a result of a terrible kick from a horse. The youth had been riding down street with a farmer and had alighted from the wagon at the corner of Murray and George streets, where the colt attached to the wagon became frightened at a street car and kicking viciously struck young Belleghem with terrific force upon the forehead, rendering him unconscious.

He was picked up by Mr. R. Sheehy and others and carried into Dr. Morgan's office, where his injuries were attended to. He was found to have a deep cut on the forehead, extending to his skull, the outer plate of which was cracked. The unfortunate youth was removed afterwards to the Nicholls Hospital where he was making favourable progress this afternoon. Unless blood poisoning sets in he will soon be out of danger.

ONTARIO FARMERS ARE AFFECTED

Demand for Western Wheat Flour Serious Injury to Farming Interests of Ontario

The fact of the steady decline in the demand for Ontario wheat, must be a matter of concern not only to the individual wheat grower, but to the public generally. Ontario people have adopted the use of western flour to a considerable extent and the building up of western industry to the detriment of the Ontario farmer and miller has been a serious economic loss to the province.

The Ontario farmer has not only lost a ready market for his wheat, but has suffered from the high prices for feed. When the business of wheat growing in Ontario was still flourishing the price of bran and shorts had not soared to the present figure of twenty to twenty-two dollars a ton. In view of the increased cost of living, and the difficulty of obtaining cheap labour, such prices for feed are discouraging to farmers all over Ontario. Giving up wheat and going into stock raising and dairying does not help the farmer, if the cost of an essential part of the feed becomes prohibitive.

There seems, however, to be no reason for regarding this state of affairs as inevitable. The Ontario wheat is conceded to have a flavour that is utterly lacking in the western flour, and were it not for the larger percentage of gluten in its western rival it would have held its own in the open market for bread making, as it still does for pastry, biscuits, etc. Those millers and bakers who have adopted the use of a blended flour, made from a proper mixture of Ontario wheat and the stronger western flour to bring up the percentage of gluten, report a great demand for their product all over the Maritime provinces. Down east the people do not care where the flour comes from or where the grain is grown, provided good flour is supplied them. The fact that they prefer the blended flours ought to be an argument for their use by the people of Ontario, to whom the increase in wheat growing is a matter of vital interest.

Anything that will help to divert some of the money now turned into western channels ought to be welcomed by the farming community. The use of the Ontario blended flour will increase the market for the farmer and prove extremely beneficial to the dairyman and stockman by bringing down the prices of bran and shorts to a more reasonable basis.

FARMER TUMBLED INTO THE MIRE

Top and Back of the Buggy Fell Off and Scared the Horse

On Saturday night, as a Smith farmer was leaving the city, he met with an accident which, although it was accompanied with no serious results, was most disagreeable. He had just turned the corner at the postoffice, when the top and seat of his buggy fell off and he tumbled out into the muddy road. The wheels passed over his body, but he pluckily held on to the reins, so that the horse did not get away. When he got on to his feet, however, he could could scarcely be recognized for the mud which clung to all parts of his clothes and face. After getting his buggy repaired, he made a fresh start, and his second effort to arrive home was successful.

EXCAVATIONS BEGUN ON NEW ARMOURIES

Mr. Geo. A. Proctor, Contractor, in the City Looking After the Work

The first sod in the new Armoury excavation was turned to-day on the old Separate School grounds. Mr. Geo. A. Proctor of Sarnia, who has been in the city for the past couple of days, has now got the work begun, and it will be pushed forward as fast as possible.

Mr. Proctor left this afternoon on the 5.15 train.

FIRE PROTECTION FOR HASTINGS

Mr. R. Cameron in the Village on Saturday for That Purpose

Mr. R. Cameron, son of Mr. Hugh Cameron, the well-known agent for the Waterous Engine Co. of Brantford, was in the city on Saturday on his way home from Hastings, where he has been interviewing the village fathers as to the possibilities of their securing better fire protection. While in Peterborough he had a conference with Ald. Johnston, chairman of the Fire, Water and Light Committee, in reference to fire matters here.

OBITUARY.

MRS. JOSEPH LATIMER

One of the oldest settlers of South Monaghan, Mrs. Joseph Latimer, died on Sunday evening, May 5, at the residence of her son, James Latimer, at the age of 76 years. Deceased had been a sufferer from dropsy for some time past, which was the immediate cause of her death. Her husband died about 34 years ago, at the homestead near Fraserville. The immediate relatives who are left to mourn her loss are her two sons, James and Richard Latimer, and her daughter, Mrs. John Jones of Fenelon Falls. The deceased was a sister of Mrs. Wm. McBain, of King street, and Mrs. George Monerief, living with her son-in-law, Mr. Robert Morrison, John street. Mr. William Clarke, Aylmer street, is a brother of the deceased.

The funeral will take place Tuesday afternoon to the Fraserville cemetery.

ROUTE OF PARADE FOR THE 57TH REGIMENT

Initial Marchout to be Held From Drill Hall To-morrow Night

The initial march out of the 57th Regiment will be held to-morrow night when the red coats will again make their appearance on the city streets. The route of parade will be from the drill hall down George street, to Charlotte street and thence to Water street; up Water to Hunter, across to George and up George street to the drill hall again.

A CELEBRATED ENGINEER VISITED IN THE CITY

Inspected the Plant of the Machine Telephone Company

Mr. K. B. Miller of the celebrated firm of McMein & Miller, telephone engineers, of Chicago, arrived in the city on Friday night and left this morning. While here he visited the Machine Telephone offices and plant which he thoroughly inspected. He was accompanied by Mr. Wisner, also of Chicago and a company promoter.

HAD AN OPERATION PERFORMED FOR APPENDICITIS

Mr. T. D. Joung of Smith Was Taken Suddenly Ill Last Night—He Will Recover

Mr. T. D. Young, the President of the Peterborough Cheese Board, of Smith, was taken suddenly ill during last night, and was brought to the Nicholls Hospital this morning, and operated on for appendicitis. Doctors Scott and Halliday performed the operation and it is anticipated that he will have a speedy recovery. Mr. Young was in the city on Saturday and was feeling in his usual good health, until last night, when he was suddenly taken ill. This morning Mr. D. Belleghem's private ambulance was sent to bring Mr. Young to the hospital, where he is now. This was the first attack Mr. Young had experienced.

MANY CATS ARE ALSO BEING POISONED

Like the Dogs, the Felines are Falling Victims to the Assassin.

The Sanitary Inspector is responsible for the statement that there are as many cats as dogs being poisoned. Nothing has hitherto been heard of the woes of the "Tortured Thomas Cat," but Mr. Ball says that there is great mortality among the felines, and that they, like the dogs, are the victims of the poison fiend.

TATE OPTICAL CO'Y

G. N. BABCOCK, Eye Specialist

412½ GEORGE STREET, PETERBOROUGH

UNSOLICITED TESTIMONY

The Tate Optical Co., Peterborough:

DEAR SIRS.—During the last three or four years (prior to May last) my eyesight had failed to such an extent that I was unable to read or see anything at close range and could get no Glasses that would help me. I tried two different Opticians in Toronto and was told by both that they could do nothing for me, and that my sight would never be better. A statement of my case was sent to Montreal by a Headlace optician and several pairs of Glasses sent me, but with the same result my vision could not be improved. Last May, while looking at a Pair of Glasses you made for Mr. John Fife, Keene, and talking with him he advised me to consult your Mr. Babcock, and I am pleased to say that the Pair of Glasses he made for me have given me entire satisfaction and I can do now what I have not done for years past—read any ordinary print and see distinctly at close range. I feel very grateful, not only for the interest you have taken in my case, but particularly so for the blessing of good eyesight. Thanks to your knowledge and skill.

Yours truly,

(Signed) JOHN CARTER, Sr.,

Hastings, Ont.

Mallory CRAVENETTE HATS

We want you to see this new line of fashionable hats, if for nothing else than to learn what are the latest and most approved metropolitan hat styles

The famous Priestly Cravenette process, which makes the Mallory Cravenette Hat rain-proof, gives it added wearing qualities.

A Mallory Cravenette Hat will stay new until you get the value of several new hats, and yet it costs no more than other hats of equal quality and style.

All the fashionable shapes and shades. See them before you choose your Spring headwear.

LOST HEAVILY BY A BIG BLAZE

Large Millinery Warehouse In Toronto Entirely Destroyed.

LOSS AMOUNTED TO $145,000

Knox Manufacturing Co. Burnt Out—Cause of Fire Supposed to Have Been Lighted Cigar — Adjoining Premises Suffered From Deluge of Water—Firemen Did Good Service—Only Partly Insured.

Toronto, May 6.—Loss in the sum of $145,000 will be entailed by fire which broke out at 5.39 o'clock Saturday evening in the second storey of the Knox Manufacturing Co. premises, 50 East Wellington street.

The fire kept all the downtown divisions of the department busy for more than an hour before it was got under control. Tons of water were poured into the building, which is a substantial four-storey brick structure. An opportunity for the use of the water tower was given and with a stream at each flat at the front and a like number in the rear the fire was literally drowned out.

Deluged.

While this undoubtedly was the only method of coping with the flames, it entailed a heavy loss to the stock of C. Kloepfer, carriage hardware, at Nos. 44 and 46.

These premises were deluged, there being nearly a foot of water on every floor and more in the basement. A veritable Niagara Falls poured out of the Knox building door, flooding the street.

Mr. Knox placed his loss at $90,000 on stock, which was totally destroyed. On this there is $61,000 insurance.

The building was completely gutted, but the walls were intact. The damage to this is placed at $25,000. It is owned by the Countess of Carnarvon, whose Canadian agent is C. Czowski. This is said to be fully covered.

Cause a Mystery.

Little light could be had on the origin of the blaze. Mr. Knox said that there could be no truth in the statement that it began with an explosion. He said he believed it was caused by a cigar butt or match being thrown among the stock of tweeds in the cap department on the second floor.

Slight damage by smoke was done to the stocks of the William Graham Co., woollens, the Canada Bag Co. and F. C. Beal, leathers. This will not total above $5,000 and is amply covered.

The department was given a second call to the Knox Building at 11 o'clock Saturday night. It was found that several bales of tweeds on the second floor where the fire started were still smouldering.

At 8.15 Sunday evening the Bay street chemical was given a run to the premises to quell an incipient outbreak.

BUCKET-SHOP CLOSED UP.

Man Settles Up With Everybody to Avoid Prosecution.

Winnipeg, May 6.—George W. Wood, president of the Canadian Stock & Grain Co., the man who is now under bonds awaiting trial on two charges of running a bucket-shop in Winnipeg, and one of the theft of $1,000 margin put up by J. Carrick of Fort William in a stock deal with the company, will not come before the higher court for trial.

After a long conference with the crown authorities on Saturday, Wood finally agreed to settle all outstanding claims against the company, and to order that no one who has dealt through his concern should lose any money. Wood will deposit with the Attorney-General for Manitoba as trustee $20,000, also to pay all the costs of the prosecution. This means that the career of George W. Wood, in the bucket-shop business in Western Canada, ends right now.

William Sutherland Dead.

Glencoe, Ont., May 6.—William Sutherland, treasurer of the Township of Ekfrid, and one of the pioneer newspaper men of Canada, passed away at his home in Ekfrid Township on Saturday night. Mr. Sutherland was born in Edinburgh, Scotland, on April 26, 1824. His father was a printer with the firm of Hunter & Blair, who had the monopoly of printing Bibles in Scotland. In 1842 he came, with his parents, to Canada, settling in Montreal. Later he came to London, where he founded the Canadian Free Press, which he conducted as a weekly Liberal newspaper for four years, also publishing for a short period a daily edition. In 1854 he disposed of the Free Press and moved to Ekfrid Township. In 1875 he bought The Glencoe Transcript, then recently established, and conducted it until October, 1881, when he sold it to his son Arthur, the present publisher.

Vivian Austin's Arm Broken.

Port Arthur, May 6.—Vivian Austin, welterweight boxer of Canada, met with a bad accident Saturday. He was employed in the lumber camps. During the night a fire burned his tents, where the men were sleeping on the ground. A train backing along the track awakened Austin. In some manner he stumbled on the track and was struck by the train. His arm was broken and he was badly bruised.

Revolver Accidentally Discharged.

Brockville, May 6.—The eight-year-old daughter of Wm. Donnelly, who lives near Lake Titus, got hold of a revolver in some way and started to show it to her mother. The revolver went off, sending a bullet through the fleshy part of the left hand of the child. The revolver had been left lying on a shelf and was supposed to be empty.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. DR. CHASE'S OINTMENT.

FOUL PLAY SUSPECTED.

Body of the Boy Marvin Discovered In the Marshes.

Dover, Del., May 6.—Lying in a marshy piece of land, the body of little Horace Marvin, son of Dr. H. N. Marvin, whose mysterious disappearance from the Bay Meadow Farm, near Dover, had baffled solution since March 4, was found on Saturday about half a mile from the Marvin farm by Ollie Pleasanton, a farmer. Pleasanton, who lives on a farm adjoining the Marvin's came upon the child's body while out gunning.

The body lay face downward in a patch of meadow grass. There was not a mark upon the little boy's body indicating foul play. It was in a good state of preservation, suggesting that it was frozen.

Pleasanton says he saw the body at a distance of 20 feet. Saturday several gunners passed over this land, but none saw the body, if it was there then. The spot where the body was found is midday between the Marvin home and the Delaware River.

The recovery of the body was reported to Governor Lea, in Wilmington, who directed state detectives to make a rigid investigation of all the circumstances.

Dr. Marvin is convinced that his son met with foul play.

There is much to make it appear that the boy wandered away and fell exhausted into the pool where his body was found. Drs. James Wilson, Wilbur B. Burton, William F. Hoey and Alfred Robyou, the latter a bacteriologist, are trying to determine the cause of death for the coroner, and have decided that the body did not drown.

The condition of the stomach indicates, according to the physicians, that the boy suffered privation for at least 40 hours previous to death.

STRATHCONA A DUKE?

King Edward May Confer Dukedom On High Commissioner.

Montreal, May 6.—The statement was going the rounds in political circles on Saturday to the effect that His Majesty King Edward VII. would, in the near futujre, confer a dukedom upon Canada's high commissioner, Lord Strathcona and Mount Royal, who will naturally resign the office of Canadian high commissioner, to be replaced by Sir Frederick Borden, Minister of Militia and Defence.

As Lord Strathcona's great wealth has enabled him to do the honors of the office with a more lavish hand than any possible successor could ever expect to attain, it is understood that the Canadian Government have decided to increase the salary attached to the position from $10,000 to $25,000. This, it is held, while not putting the high commissioner on the same footing as his predecessor, will at least enable him to discharge the social duties of the position in a manner that will not be humiliating to Canada, following the footsteps of so generous an official as Lord Strathcona had proved himself to be.

GENDARMES INSULT NUNS.

Ursuline Convent Entered — Doors Battered In.

Nantes, France, May 6.—At daylight on Saturday fifty mounted gendarmes surrounded the Convent of the Ursulines here, and when the sisters refused to open the doors they were battered in. The sisters were found assembled at prayers in the chapel, but after the mother superior had read a protest against the action taken by the authorities, the officiating priest removed the holy sacrament and the sisters withdrew. In the meantime an excited crowd gathered outside the convent, shouting maledictions on the soldiers. A number of persons were arrested, including a lieutenant of the 25th Dragoons.

JURY SCORES C. P. R.

Should Notify Agents of Meeting of Trains.

Myrtle, May 6.—The coroner's jury investigating the C. P. R. accident at this place on March 25 and which resulted in the death of Fireman Charles Jones and Brakeman Harry Howe, were in session until two o'clock Saturday morning. The jury found that Charles Jones, fireman, and Harry Howe, brakeman, came to their death as a result of a head-on collision two and a half miles east of Myrtle, and that Conductor Frank Cook and Fireman Charles Jones, deceased, were guilty of negligence, and censured the C. P. R. for not notifying the local agents of the meeting of trains.

Crown Attorney Farwell says he is not prepared to say at present what action will be taken.

LITTLE BOY DROWNS.

Five-Year-Old Child Victim of Sad Fatality.

Bowmanville, May 6.—Mrs. Robert Finley dressed her five-year-old son, Charles, in his best clothes and allowed him to go out of doors.

He strayed into South Park, near by, and fell into an unprotected well. The parents, having missed him, the neighbors instituted diligent search, but no clue was discovered of his whereabouts until about three o'clock, when his hat was found near the well. A pole with a hook on the end was obtained and the body was soon found.

Big Blaze In Kansas.

Kansas City, May 6.—Fire Saturday night destroyed the five-storey building of the Goldstandt Powell Hat Co., 822 Broadway, causing $200,000 damage.

THE PRESIDENT HAD NARROW ESCAPE

Dastardly Attempt to Assassinate Cabrera With Dynamite.

UNDERGROUND MINE LAID

American Legation In Danger—Guard of Honor Had Narrow Escape—Many Arrests Are Made—Rumored Attack on Mexican Lighthouse —May Sever Relations With Guatemala—The Situation.

Guatemala City, Guatemala, May 6.—Another mine, containing many pounds of dynamite, was discovered Saturday in this city, in front of the building occupied by the regiment called the Guard of Honor, and not far from the residence of President Cabrera. This location is not more than two doors from the American legation. Had this mine exploded the damage to property and the loss of lives undoubtedly would have been great.

Arrests are still being made in the matter of the recent attempt by the explosion of an underground mine, on the life of the president of the republic, and it is reported that the perpetrators are now known. The plot evidently was quite extensive, but the president declares he has the situation well in hand. Further developments are awaited with anxiety.

A meeting of the diplomatic representatives was held for the purposes of adopting measures for ensuring peace, and for the protection of foreign property.

News Received In Washington.

Washington, May 6.—Another attempt to assassinate President Cabrera at Guatemala, according to advices received by Minister Toledo, has been made. The news was received in a cablegram of which the following is a translation:

"Minister Toledo, Washington.—A great mine was discovered placed in front of the barracks of the Guard of Honor, 120 feet from the American legation, and 180 feet from the presidential mansion. This scandalous attempt at assassination has created great indignation among all classes of society. (Signed) Barries."

Signor Barries is Minister of Foreign Affairs of Guatemala. The Guard of Honor is the special guard of President Cabrera.

Attack Mexican Lighthouse.

Mexico City, May 6.—Telegrams received from Santa Cruz tend to confirm a report from Vera Cruz that the Guatemalans made an attack on the Mexican lighthouse at San Benito, on the west coast, about eighteen miles from the Guatemalan port of Ocos. At the State Department, and at the Guatemalan legation nothing is known of the reported attack.

May Sever Relations.

City of Mexico, May 6.—Guatemala has refused to comply with the request of the Mexican Government, that Jese Maria Lima and Colonel Onefro Boro, charged with complicity in the assassination of Gen. Manuel Lisandre Barillas, be extradited. The Cabinet is now in session, and it is said that the Ministers are debating the advisability of immediately severing diplomatic relations with Guatemala.

Murder In New York.

New York, May 6.—Summoned into a yard in the rear of a stable where he was employed in the Bronx Saturday night, Vincenzo Criscio was killed by being shot through the heart.

Following the murder the police sent out a general alarm for Joseph Criscio, not a relative of the dead man, who is alleged to have done the shooting.

Killed by Locomotive.

Port Arthur, Ont., May 6.—Ben Daniels, in the employ of the C. P. R. at Schreiber, was killed. He was crushed by a locomotive and died en route to the hospital. This is the seventh death from accident in that small town in one week.

SYNOPSIS OF CANADIAN NORTH-WEST

HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing shold be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,

Deputy of the Minister of the Interior.

TROUBLE OVER IRISH COUNCIL BILL

Threatens to Cause Split in British Cabinet.

MINISTERS SHOW HOSTILITY

John Redmond and Irish Party Desire Full Autonomy — Messrs. Asquith and Haldane Are Averse— Refuse to Have Pledges Against Home Rule Violated — Want Nothing Having Semblance.

London, May 6.—With the negotiations, which have been prolonged, extending up to the last moment, and all those participating in them bound to secrecy, little is known as to the provisions of the Irish council bill, the main proposals of which Augustine Birrell, Chief Secretary for Ireland, promised to explain in the House of Commons May 7.

There has been a keen contest going on in the Cabinet between the home rulers, represented by Sir Henry Campbell-Bannerman and Mr. Birrell, and the anti-home rulers, led by Herbert H. Asquith, Chancellor of the Exchequer, and Richard Burdon Haldane, Secretary for War, with the former desirous of giving Ireland what John Redmond has described as at least a foundation for self-government, and Messrs. Asquith and Haldane demanding that the bill shall not bear any resemblance to home rule. Mr. Asquith has gone so far as to say that if the bill contains anything, in letter or in spirit, inconsistent or in violation of the privileges he has made against home rule, he will resign, and there is little doubt that he would be followed by Mr. Haldane, and probably other members of the Cabinet.

The Irish council bill, which will be introduced in the British House of Commons by Secretary for Ireland Birrell on Tuesday, has created a wide divergence of opinion between the Nationalists and the Government officials. It is under stood that the proposed council will not have any executive powers which is far from what the Nationalists desire, and they will endeavor to obtain further concessions by amendments.

Conference of Irish Leaders.

Faced with the impossibility of obtaining an Irish Parliament with an executive responsible to it, Mr. Redmond is carrying on the fight to get as large an instalment of home rule as is possible, and now it is announced that if this scheme lays a foundation on which Ireland can build, the Nationalists will consider whether it is worth accepting. Mr. Redmond had a conference Saturday with his chief advisers, including John Dillon, Edward Blake, and T. P. O'Connor, when what the Government was prepared to offer and the attitude the Nationalists would adopt toward the measure were discussed. This will be followed by a convention at Dublin during the Whitsuntide recess, when the question will be gone over, and the Irish members of Parliament will be instructed as to the course they shall pursue. There is no doubt Mr. Redmond's advice will be closely followed. What the bill will contain, however, and whether it will be acceptable, those who have been taken into the confidence of the leaders will not say, they having been bound to secrecy.

The only expression of opinion obtainable was from a more conservative Irish member of the House of Commons, who said, "I think the bill will be found to be fairly favorable," indicating that while the Nationalists are far from satisfied, they realize that Mr. Birrell has gone as far as is possible without causing a disruption of the Government, and will accept the bill as a start towards self-government.

IRISH FAIR OPENED.

Earl of Aberdeen Reads Message From the King.

Dublin, May 6.—The Irish National Exposition was opened on Saturday. The address of welcome was read by the Marquis of Ormond.

In replying the Earl of Aberdeen, who was accompanied by the Countess of Aberdeen, read a message which King Edward sent from Paris as follows:

"I trust that the exposition which you are to open to-day will prove a success and demonstrate the international progress made by Ireland."

After a tour of the exhibition, the picturesque state procession was reformed and returned to the castle.

The exhibition is far from being completed.

Ice Cream As Food.

Hamilton, Ont., May 6.—The first case of Sunday selling under the new Lord's Day Act came before the magistrate in the police court Saturday, when James Zamboes, a Greek, was charged with selling ice cream last Sunday night. He did not deny serving a number of customers, but the magistrate said that as the court had held that ice cream was a food, he supposed Zamboes had as much right to sell it on Sunday as on any other day. The case was dismissed.

MONTREAL.

WAS NEARLY A RIOT.

Italian Parade Ends In Affray With the Police.

Buffalo, N. Y., May 6.—The nearest thing to a race riot Buffalo has seen in years was precipitated yesterday when an Italian parade attempted to spread its ranks across Main street and stop street car traffic. A motorman insisted on running his car first through the procession, and immediately a riot began, which developed into a running fight that spread along three city blocks.

Reserves of police were rushed to the scene, and weilded clubs with vigor. Policemen who were surrounded, seized switch irons from trolley cars to use in their defence. After twenty minutes of vicious fighting, during which loss than a score of policemen fought hand to hand with more than 100 armed Italians the Italians fled, leaving the worst wounded of their number with the police.

One sergeant of police was stabbed, but not seriously. The rioters retired with cut and bruised heads. Some citizens who rushed to aid the police nearly turned the fray into a race riot. The citizens were more badly hurt than the police.

MARCH OF SOCIALISTS.

Show Their Sympathy With Men Accused of Murder.

New York, May 6.—Two long lines of men and women—probably 20,000 of them marched through the streets of the upper and lower east side late Saturday, to demonstrate their sympathy for Moyer, Haywood and Pettibone of the Western Federation of Miners, whose trial on the charge of killing ex-Gov. Steunenberg of Idaho, will begin next Thursday at Boise.

Merging subsequently into a huge crowd at 40th streets and Lexington avenue, 2,000 or 3,000 of the paraders managed to crowd into the Grand Central Palace to wind up the demonstration in one of the biggest union labor and socialistic demonstrations seen in New York for a long time.

No disorderly demonstrations of any sort marked the progress of the marching lines. The first real enthusiasm came after the crowd had entered the hall, when a fife and drum corps started the thrilling strains of the "Marseillaise." The crowd cheered and scores waved small red flags.

SAVED BY FIREMAN.

Rescues London Man Who Was Stunned By Explosion.

London, May 6.—James Angus, proprietor of a bowling alley here, owes his life to the heroism of Dan McDonald of the fire department.

Saturday night Angus went into the basement and let a match. There was a leak of gas somewhere and the explosion which followed stunned Angus, blew out part of the building and set the place on fire.

McDonald had to grope his way into the cellar, but finally found Angus, who is seriously burned, but will recover.

SUFFOCATED BY GAS.

Three Men Found Dead In Bed With Gas Jet Open.

Montreal, May 6.—When the inmates of a boarding house kept by Mrs. Smith, 342 St. James street, awoke yesterday morning, three of the boarders were found to be missing, and as they did not put in an appearance at the usual time, a search was made, and the bodies of the men were found in their beds, they having been killed by escaping gas, the gas pipe having been left open. The names of the men, all of whom were working men, are Brindle, McGown and McGillick.

WILL BE TRANSLATED.

Sells His Stock and Awaits His Reward.

Great Falls, Mont., May 6.—Believing that the end of the world will come within ten days, and that he with a handful of followers will be translated to heaven, A. W. Staunton, a prominent stockman of this city, has disposed of all his property, valued at several thousand dollars, to the first bidder for $150 and taking up his home in a rented house, is calmly awaiting the end.

Staunton's followers, eight in number, disposed of their possessions in a similar manner and are with him.

WANTED TO LYNCH NEGRO.

Charged With Criminal Assault On 10-Year-Old Girl.

Calgary, Alta., May 6.—Thomas Rife, a big negro, was arrested here Saturday morning on the charge of criminal assault on a little German girl, ten year old. Rife is about 27 years old.

There was some talk of lynching, but the man who tried to work up the party said he could not find enough Americans in town to join.

Sheriff Hossie Dead.

Stratford, May 6.—After an illness of several weeks, Sheriff Hossie, one of the most prominent figures in public life in Stratford, died at seven o'clock Saturday evening. He was aged 71, and had been a member of the office, as bailiff, deputy sheriff, and sheriff for the past fifty-one years. He is survived by a widow, but no family.

Young Man Shot Himself.

Montreal, May 6.—The Albion Hotel was the scene of a tragedy yesterday, when David Parker, the young son of the proprietor, shot himself, whether accidentally, or by design, will have to be determined by the coroner's jury. Parker was a popular young felow, and as far as known, there was no reason for his taking his life.

Seized Torrey's Property.

Montreal, May 6.—Although Rev. Dr. Torrey has made a most successful evangelistic campaign, his spare cash is now tied up at the Windsor Hotel, where the noted preacher has been occupying fine apartments since he arrived in this city.

Mr. Norman Murray was not satisfied with the evangelist's apology, and consequently his lawyer, Mr. Arthur Beauchene, put a seizure on Dr. Torrey's money and belongings. He says that if Torrey returns to the States he will have him extradited.

The reverend gentleman, he says, made a very tame apology, and most likely he will have to do the whole [illegible]

MARKET REPORTS.

W. H. Hunter Appointed.

Toronto, May 6.—W. H. Hunter was on Saturday unanimously elected by the executive of the supreme court of the I. O. F. to the post of supreme counsellor.

Mr. Hunter has been for some time on the board of legal advisers to the order, is a barrister and a Toronto man. Since the death of Dr. Oronhyatekha, the supreme council has been altered, and as now constituted is as follows: Hon. Elliot G. Stevenson, supreme chief ranger; Victor Morin, B. A., LL.B., past supreme chief ranger; J. D. Clark, supreme vice-chief ranger; J. D. Clark, supreme chief ranger; R. Mathison, M. A., supreme secretary; H. A. Collins, supreme treasurer; S. Millman, M. D., M. R. C. S. E., supreme physician, and W. H. Hunter, supreme counsellor.

C. P. R. Brakeman Killed.

Fort William, Ont., May 6.—Albert Thomas, C. P. R., freight brakeman, was killed yesterday morning at 3 o'clock at Jackfish Station, east of here. In the act of stepping on the pilot of an engine, he missed his footing and was run over by the locomotive. Deceased formerly resided in Ottawa, where a brother resides.

KIDNEY DISEASE COMES ON QUIETLY

Perhaps no other organs work harder than the kidneys to preserve the general health of the body and most people are troubled with some form of Kidney Complaint, but do not suspect it. It may have been in the system for some time. There may have been backaches, swelling of the feet and ankles, disturbances of the urinary organs, such as, brick dust deposit in the urine, highly colored scanty or cloudy urine, bladder pains, frequent or supressed urination, burning sensation when urinating, etc.

Do not neglect any of these symptoms, for, if neglected they will eventually lead to Bright's Disease, Dropsy and Diabetes.

On the first sign of anything wrong

Doan's Kidney Pills

SHOULD BE TAKEN.

They go to the seat of trouble, strengthen the kidneys and help them to filter the blood properly and flush off all the impurities which cause kidney trouble. Mr. Thomas Petty, Massey, Ont., writes: "After I arrived in Canada from New Zealand, a couple of years ago, I suffered very much from kidney trouble. I tried several remedies, but they did me no good. Finally my back became so lame I could scarcely work. I was advised to try Doan's Kidney Pills and after taking them I felt like a new man.

Price 50 cents per box or 3 boxes for $1.25 at all dealers or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

The following meetings will be held in St. John's Church this week: Monday, King's Daughters and Girls' Auxiliary; Tuesday, Girls' Guild; Wednesday, Brotherhood of St. Andrew; Friday, annual entertainment, Mission Band; Thursday, Ascension Day, Holy Communion at 10.30, and festival service at 8 p.m.

A Correction

In the report of the death of Lily, the three weeks old daughter of Mr. Thomas Miller, a typographical error was made which the Examiner wishes to correct. It said that "The little one was but three weeks ago," whereas the reporter's copy was "The little one was but three weeks old." The funeral was held on Saturday afternoon from the family residence, Park street.

All Saint's Meetings

The following meetings will be held in All Saints' church this week; Monday, Girls' Guild, Women's Guild and Senior Chapter of St. Andrew's Brotherhood; Tuesday, monthly meeting of W. A., at 3 o'clock; Wednesday, cottage meeting, at the residence of Mr. J. D. Manley; Thursday, Ascension Day, celebration of Holy Communion, at 10.30, and evening service at 7.45; choir practice at 8.30; Friday, Boys' Brigade, at 7.30.

Fairweather Company, Toronto. Delivery horses—1, Duke, J W T Fairweather Company; 2, Prince, J W T Fairweather Company; 3, Sellers-Gough Fur Company.

The New York Stock Market

(Furnished by J. R. Heintz & Co.)

New York, May 6. — After showing firmness and quite a little strength in Reading, Atchison and U. P., during the first two hours this morning, the market suffered quite a severe decline, due principally to crop damage reports from the wheat belt and an advance of nearly 3 cents on wheat. The market was largely professional, but there was a large amount of profit taking in stocks like U. P., Sou. Pac. and Copper, which had advanced so far last week. Del. and Hudson dropped 7 points on light sales. C. P. R. was strong in London and advanced to 178 3-8 here early, and then lost its gain when the general list sold off. The closing was dull and heavy.

HARRIER CLUB TO HOLD A RUN

Regular Weekly Run Will Take Place on Wednesday Night of This Week.

The Y.M.C.A. Harrier Club will meet on Wednesday night for the regular run, leaving the building at eight o'clock. Quite a number of men are now taking part in these runs and more are coming in. Any new men wishing to join the club are invited to be at the association on Wednesday night.

Latest News Of Various Sports

ANOTHER BALL PLAYER WHO IS LEAVING CITY

Mr. W. Trainor Has Accepted a Position in Buffalo.

Peterborough is losing another good ball player in the person of W. Trainor, who leaves to-morrow for Buffalo, where he has secured a position with a new automobile company. He has been prominent in baseball circles in Peterborough, playing with the T. A. S. team in the Kawartha League, and afterwards with Peterborough, and he was counted upon to fill a position on Manager Johnston's aggregation this season.

CALL A MEETING TO ARRANGE SCHEDULE

A Junior Team Will be Entered From Peterborough in the C.L.A.

Mr. H. B. Clemes, of Lindsay, has written to the Secretary of the Peterborough Lacrosse Club asking if it is the intention to enter a team in the junior series of the C.L.A. this season. He is writing the secretaries of the club drawn for this district, Peterborough, Lindsay, Uxbridge, Millbrook, Oshawa, Port Hope and Bowmanville, and, upon receipt of replies will call a meeting to arrange a schedule of games. The secretary of the Peterborough club will write in reply to the effect that it is the intention to enter a junior team.

HASTINGS WILL HAVE AN ASSOCIATION TEAM

Have Entered the Midland League Ranks —Will Play This Year.

Another football club has entered the Midland League ranks. The addition is the Hastings club, which to-day notified Secretary J. E. Sullivan of their intentions. The Hastings team will be placed in No. 4 Group, with the Warkworth and Campbellford teams. Since Plainville has dropped out the Peterborough O. C. W. will be entered in a group with Omemee.

MEETING OF THE TURF CLUB TO-NIGHT

There will be a meeting of the Peterborough Turf Club to-night at the City Hotel for the purpose of making arrangements for the big programme of races, which the club intends holding on May 24. All members are requested to be present.

LACROSSE

The Peterborough Shamrock Lacrosse team will practice this evening at Riverside Park, and all those intending to play this season are asked to turn out.

• • • •

The junior lacrosse players will practice to-night on the Riverside Park at 7 o'clock.

THE KENNEL

Dr. Robinson, V.S., who is one of Peterborough's leading dog fanciers, has added another canine to his thoroughbred list. Last week he imported a French bull bitch, direct from Paris, France. It is in whelp to Murat Satan, the famous French dog, which has won a large number of prizes in the Old Country.

FOOTBALL

The Quaker football team will practice to-night on the exhibition grounds, at 6.45 o'clock. As many as possible are requested to be on hand.

There'll Be Trouble In Morocco.

Tangier, May 6.—It is evident that fresh trouble is brewing at Morocco City.

The inhabitants object to the dismissal of the governor, Abd-el-salam, and decline utterly to receive the new governor.

The Benghasi are preparing a warm reception for him.

The new governor left here Saturday for Morocco City, accompanied by his forty-eight wives. His escort which originally numbered 500 soldiers, has dwindled to 130 men through desertions.

Want Municipal Lighting.

Brockville, May 6.—Municipal lighting won a victory in Potsdam, the people of that village voting $3,500 to complete a municipal lighting plant. A proposition was also carried, authorizing a bond issue for the establishing of a municipal lighting system at a cost not to exceed $20,000.

$1,500,000 Fire.

Bremen, May 6.—Fire, which broke out in the Free Zone warehouse here yesterday, caused damage estimated at $1,500,000 before it was put out. The Bremen fire department fought hard for many hours. Some new wooden buildings on the machine wharves were also destroyed. In the warehouses 20,000 bales of cotton were burned up.

The cause of the fire is not known.

Dies From Exposure.

Brockville, May 6.—William Cook, a laborer employed at Wells Island, lost his life as the result of falling from his boat. He was accompanied by two other men, and were returning from Alexandria Bay, and when near the island lost his balance. He was in the water a considerable time and died from chill and exposure.

A Canadian Nurse.

Because the labor unions hold her coming is in violation of the contract labor laws, Miss Margaret Murray, recently brought to Grand Rapids, Mich., from Toronto to run the city's contagious hospital, may be deported. It is possible that the cook and a hall boy of the institution who were taken over on her recommendation will meet with a similar fate. It may be that Miss Murray might escape on the ground that she is a "professional person," but there are union men who hold that she is no more practicing a profession than were the Pere Marquette trainmen who were deported from St. Thomas some time ago, and they will do everything in their power to have Miss Murray removed. The case has attracted keen interest, and the outcome will be eagerly awaited.

Danger In Blotters.

A fresh danger has been probed by the Lancet, if lancets may be said to probe. It is the blotting pad. As an absorbent of moisture "any septic matter would be rapidly dried on it." We breathe upon our blotting pads, those of us who toil with the pen, so we scatter such diseases as are ours. "A fresh, spotless sheet every day" is the Lancet's prescription. One foresees a boom in blotting paper. Among all our decaying industries one at least will be stationary.—London Chronicle.

The Good Old Days are Looming Up Again

Many Bicycle Riders who have not ridden for years are getting back into the game this season. They found that after all, the wheel was a good thing, and helped them to enjoy life better.

As a healthy and pleasant means of transportation and as a time-saver the Bicycle is finding its level. Its real worth is recognized. The large increase in sales this season already demonstrates this fact.

THE DAYLIGHT STORE

Note These Facts

We're pounding out a fact or two which we would like to impress upon your mind. "Listen!" Vanity exacts heavy tolls. "Made to order" has a ring pleasing to many clothing buyers.

"My Tailor" is a phrase one pays handsomely for. The Suits or Top Coats the Tailor is obliged to ask $25.00 and $28.00 for we duplicate at **$18.00** and **$20.00.**

This statement is literally true. His woollens and findings are the same as ours and come from the same mills. Drop your prejudices this season.

SEE AND SAVE

Spring Suits, Spring Toppers and Spring Toggery. We're ready to spring good things on you, whenever you give us a chance.

Be as cranky as you like about extreme styles, perfect fit, excellent Fabrics and Tailoring...we will satisfy you.

Come in, we will save you money and please you.

The Provincial Secretary Gets A Severe Scoring

Rev. F. G. Robinson Writes a Letter in Which He Says The Three-Fifths Clause is Defenceless---The Local Option Legislation---An Insult To the Temperance Vote.

The following letter was addressed to the editor of the Free Press, Ottawa, and published by that paper on Saturday:—

Editor Free Press, — I am not a humorist and it is only on very rare occasions that I smile at a joke, but when I read Hon. W. T. Hanna's speech and resolution on the three-fifths vote on local option before the Provincial Parliament closed its labours, I was almost tempted to believe that there is a funny side to life. Mr. Hanna in his speech is reported to have said "that the three-fifths vote had made local option respectable," and in his resolution against its repeal, said, "It is the duty of the Legislature to take such steps as will minimize the drink evil in this province, etc."

Now, the question arises, "Does the three-fifths vote make local option respectable? It is just as respectable as the liquor traffic, however respectable that may be? Is it a respectable clause because it makes the votes of two liquor men equal to three temperance men? Surely it must be respectable when with a vote of 198 majority it robbed Nepean township of local option and forced several saloons upon the said township.

I must confess that I do believe that the liquor men are convinced that it is a very respectable clause and would be willing to subscribe towards a monument to perpetuate its memory when the time comes when it will be relegated to the ocean of oblivion. Why, only a few days ago a man under the influence of liquor said "that it was the best law the Whitney Government had enacted since it had been in power, for it showed the temperance people that they could not rob the poor man of his whisky." A very flattering testimony, indeed. Instead of the three-fifths majority making local option respectable it has had the opposite effect. Does it not look like an attempt on the part of the Government to make the liquor traffic more respectable than the temperance cause by giving the public to understand that it takes three temperance votes to be as good as two liquor votes, and also to force the saloon upon the country in direct opposition to the wishes of the people? If Hon. Mr. Hanna were at present residing in Nepean township (which township in the past has been most friendly to the Conservative party) and heard the sentiments of electors who have been life-long Conservatives in reference to this so-called respectable clause, (which robbed the said township of local option, although it had a majority of 198 for the abolition of the saloon, and said to over six hundred of the electors, "you will be compelled to have seven licenses in your midst no matter how you may protest,") I am quite sure he would wish he had left local option as it was for fifty years, with just a majority vote, a law that did not require anything to make it respectable, as has been proven in those places that voted to repeal local option where it had been carried by a large majority. What was the result? Why, they doubled their majorities against the liquor traffic.

If Hon. Mr. Whitney and Hon Mr. Hanna are courting the support of the liquor men in preference to the temperance party, there will probably be some startling revelations next election to those gentlemen who pass resolutions in the provincial house, deploring the evils of the liquor traffic, etc., "and then vote to keep in force a clause which makes as no doubt was intended, local option practically unworkable in some parts of Ontario (for as Hon. Mr. Graham said in his speech it is simply a question of small areas) as in the case of Nepean and other townships with their overwhelming majorities. They will find out on election day that the vote of a temperance man counts for just as much as a liquor man. Instead of the majority of temperance people having respect for such a law which tells them 'that their vote is not as good as a liquor man's vote, they have, I believe, profound contempt for it, especially in over forty townships where the temperance people have been defeated by this protector of the saloon.

The Hon. Mr. Whitney is reported to have said in his speech to the Dominion Alliance deputation "that in five or six years at the present rate of progress, the whole of the province of Ontario would be under local option," and yet the same government, of which Mr. Whitney is the head, has a law in force which has prevented local option from coming into effect in between forty and fifty townships, and Mr. Whitney is also reported to have said that the people of the country demanded a three-fifths vote." It is quite evident the premier has not visited the country places where this clause has done its deadly work. And then it is said the Dominion Alliances were told that the souls of two hotel bums were as good in the sight of the Almighty as the souls of anyone else. No one believes this more than the temperance people, and that the temperance people against a law that enables the soul of the hotel bum to be destroyed when the majority of the electors protest against it. The temperance people are convinced that although the soul of a hotel bum is just as valuable as the soul of anyone else, that his vote is no better than a temperance man's vote.

And then, just a word about Mr. Hanna's amendment. "It is the duty of the legislature to take such steps as will minimize the drink evil in the province, etc.," and can you believe it, Mr. Editor, that this amendment was introduced to vote down a resolution of Hon. Mr. Graham which had for its object the removal of the obnoxious three-fifths clause (which clause in the opinion of many was introduced to protect the licenses, after license fees had been increased, and thus insure the revenue from said licenses) which in the opinion of many also has done more to hinder the progress of local option for the time being than any other law enacted ing the past fifty years. It says to the temperance workers of those townships which did not have sixty per cent., or whose labours were quashed by some insignificant technicality which would require a powerful microscope in order to be seen. "You cannot attempt to touch the saloons for three years."

Ottawa South, Ont.

Citizen Calls Attention To Condition Of Smith St. Bridge

New Structure Should be Provided When the Old One is Unfit for Use---Remodelling of Old Fire Hall---Money For Free Hospital for Consumptives

THE COUNCIL IN COMMITTEE OF THE WHOLE

The meeting of the Committee of the Whole last night and the Council meeting following was a procession of momentous problems, interspersed with a few minor matters. Of course, the sign bylaw again formed an important and prominent feature of the first and it is probable that it now, together with the dignity stand question, are things of the past, so far as the Council is concerned.

The re-modelling of the old firehall and the raising of the Relief Officer's wages for this year were among the minor considerations.

Those present at the meeting were His Worship the Mayor, Ald. Pelan, Leary, McIntyre, Duncan, Wilson, Elliott, Morgan, Bradburn, Tovey, Stevenson, Morrow and Johnston.

The first questino before the Committee was that of the report of the Property Committee regarding the remodelling of the old firehall into city offices.

Ald. McIntyre explained that he had been speaking to two men, one of whom had offered to take down the tower and to fill in the cellar, providing that he received the material. The other offered to pull down the tower, and would give $25 for the material. The chairman also stated that the tax collector and city treasurer were not agreeable to the erection of the various offices, according to their plan.

Ald. Morrow moved, seconded by Ald. Wilson, that the matter be left over until the next meeting, until it were found out what the cost of the remodelling would be.—Carried.

More Room Wanted

The second consideration was that of the enlarging of the City Clerk's office to give more room for the Committee meetings, especially when deputations are present. It was suggested by the Property Committee that the partition between the present office and the waste room be taken out.

Ald. Morrow thought that the situation should be looked over by an architect and have the work done in a modern and permanent manner, if it is going to be done.

Ald. Wilson believed that the man who had to work in the offices were the persons who should be consulted. This was also Ald. Leary's idea. This was referred back in conjunction with the estimates of the firehall.

It was moved by Ald. Tovey, seconded by Ald. Morrow, that Relief Officer Miller be granted an extra bonus of $50 for this year, making his salary $250.—Carried.

Telephone Rates

The Mayor read a telegram, received last Tuesday from Mr. W. D. Lighthall, ex-Mayor of Westmount, stating that the Dominion Railway Commission, which met about that time, had adjourned for two weeks, and that its object is to consider the tariff and Bell telephone rates. Mr. Lighthall asked the Peterborough Council to remind him of any grievances they had.

Ald. Leary considered that the local telephone rates were favourable, but he believed that the long distance rates were too high. A number of others appeared to be of the same opinion.

In Council, the following motion, moved by Ald. Morrow and Leary, was carried—"That this Council advise the Board of Railway Commissioners that it should not approve of the telephone rates of the Bell Telephone Co., in force in the city of Peterborough, because the company, while professing to give telephones at a rental of $25 a year, charges $5 extra for putting in a modern telephone, on the plea that it is a long distance equipment, and because the rates charged by the company for long distance service are excessive, and that a copy of this resolution, also be sent to Mr. W. D. Lighthall, Hon. Secretary of the Union of Canadian Municipalities."

Smith Street Bridge

A communication was received from Mr. J. J. Turner, pointing out the need of a sidewalk from the Wolfe street wharf to George street, to be used by those from the Rice Lake waters who come to the city every Saturday to do business in the city.

Mr. Turner also pointed out the precarious condition of the Smith street bridge, and suggested that the Council make provision for a new structure to replace the present one as soon as it is out of commission. In Council, this communication was referred to the Board of Works.

Assist the Hospital

Moved by Ald. Bradburn and Tovey, that the City Treasurer be authorized to send a cheque for $100 to the Muskoka Free Hospital for Consumptives, which was previously provided for in the estimates.—Carried.

Duplicating Machine

Ald. Bradburn and Elliott suggested that the alderman be presented with reports of the various committees before they come up in Council in order that they might be able to discuss them intelligently. It was decided to have the Special Committee to Toronto regarding the purchase of the Light and Power Co.'s plant, purchase a copying machine for the City Clerk's office for the purpose.

SCHOOL REPORT OF S. S. NO. 2, BURLEIGH, FOR APRIL

Honour roll for School Section No. 2, Burleigh, for April:

Senior III.—Elma Hales.

Junior III.—Bertha Kilbourn, Annie McFadden.

Senior II.—Jane Wilson, Edith Lenn.

Best conducted pupil, F. Quinlan. Low average due to measles being in the section.

Our Own Solomon On Housecleaning

My son, considre now the woman that cleaneth house.

She ariseth in the morning and her husband vieweth her with alarm, for she girdeth her hair in a knot like unto a doughnut,

And she attireth herself in a skirt, that hath neither front nor back, but looketh like unto a tidal wave,

And she putteth on a waist which she hath cherished even from the days when they were big sleeves,

And she putteth upon her feet shoes like unto them that are worn by the minstrels,

And she sayeth unto her husband:

"Verily, this house is a fright, and I am going to put things to rights."

And her husband layeth down the paper, for the murder news cannot thrill him, neither doth he care for Cobalt booms.

For he knoweth that nothing can happen out in the big world like unto what will happen unto his house this day.

And he goeth away unto his business, and cometh not home until it is evening; yea, until it is dark.

And he findeth a coloured man even then beating rugs in the side yard with his golf sticks, the which have been broken one by one,

And his cigar jar hath been emptied of cigars and made to hold tacks,

And they have taken his sweater to wash windows with,

And there is nothing in the house to eat

Save what was left from yesterday, and it is hidden beneath fourteen flatirons and half a box of laundry soap in the pantry.

And the wife of his bosom hath soot on her nose and fire in her eyes, and she looketh like unto the breaking up of a hard winter,

And she bursteth into tears because he doth not kiss her and call her an angel for working so hard,

And she maketh him work half the night carrying things into the house,

So that he spraineth his back lifting the piano, and smasheth his thumb between the wall and a bookshelf, and falleth over against the staircase when he taketh an armful of chair upstairs, and sprraineth his wrist.

And she sayeth that if he talks to her that way again she will go home to her mother.

Is it not so, even as we have whacked it from the typewriter with the sway-backed space bar?

WILBUR D. NESBIT.

THREE FEET OF SNOW IN CHARLTON STILL

Peterborough people thought they were being badly treated on Saturday when they woke up to see six inches of snow on the ground, but they are far better off than the unfortunates who live in New Ontario. Mr. James Cleary, who has been living in Charlton township, in New Ontario, is in the city on a visit to his brother-in-law, Mr. J. P. Hart, and he states that when he left Charlton there were three feet of snow. This was about ten days ago, and he believes the chances are that on Saturday the six inches which fell here would be a foot at least in the north.

In spite of the fact that winter drags along into summer in that section, Mr. Cleary is going back in a few days. He is satisfied with the conditions there, and is willing to put up with some slight inconveniences in view of the advantages which that part of the Province possesses over the older sections.

WOMENS' NEGLECT

SUFFERING THE SURE PENALTY

Health That Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness or other female weakness.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Clara Beaubien, of Beauport, Quebec, writes:

Dear Mrs. Pinkham:

"For several years I have suffered with a female weakness which proved a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I really had no desire to live. I tried many medicines, but did not get permanent relief until I took Lydia E. Pinkham's Vegetable Compound. In two months I was much better and stronger, and in four months I was well; no more disagreeable discharge, no more pain. So I have every reason to praise the Vegetable Compound, and I consider it without equal for the ills of women."

For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction and since her decease, been advising sick women free of charge. Her advice is free and always helpful. Address, Lynn, Mass.

CONVICT ON THE ROOF

AMAZING ESCAPADE AT FAMOUS ENGLISH PRISON IN LONDON.

The Prisoner Climbs Rainpipe and Smashes Skylights — Pelts Officers With Tiles and Glass—Agile as a Monkey—Keeps Warders at Bay for Five Hours—Only Captured After Severe Struggle.

Hundreds of people walked to Wormwood Scrubs, a London suburb, the other day to gaze on the rare spectacle of a prison roof, which looked as if it had been bombarded with a Maxim gun.

In the roof of block C, not a whole pane of glass was to be seen of the hundreds in the skylight, most of the dormer windows were broken or cracked, and many tiles were missing.

The damage was done by a young convict named William McCoy, who is serving the first part of a double sentence of 18 months' imprisonment for robbery and five years' penal servitude for burglary. It is said that he has been a ringleader in mutinous outbreaks which have recently occurred in the jail.

For five hours, within full sight of an ever-increasing crowd of people, McCoy danced about the roof of block C with the agility of a monkey and the recklessness of a madman, defying the warders, threatening them with death if they touched him, and smashing all the glass within reach.

Perilous Climb.

McCoy was crossing the yard with half a dozen other convicts in charge of a warder on Saturday morning, when he broke from the rank, ran to a pipe running up the outer wall of block C, and before the warder could seize him, scrambled up out of reach, and then climbed hand over hand to the roof.

The warder sounded an alarm, and by the orders of the deputy governor all other prisoners were taken to their cells, and a force of nearly a score of warders was assembled to recapture McCoy.

The mutineer was thoroughly enjoying his prank. Having got safely on the roof, he shouted for joy, and, after jeering at the warders for a few moments, ran along the roof to a tower at the corner, and wrenched away a large piece of piping.

Within a few minutes warders made their way to the roof by the skylights and the towers at each corner, but McCoy shouted that he would fling off anyone who approached him, and tore tiles from the roof, and hurled them at the warders.

The deputy governor and the Roman Catholic chaplain went up in turn and tried to persuade McCoy to give in, but the mutineer shouted, "I'm free, and I'm going to stop here."

Chaplain's Penalty.

Having secured the freedom of the roof, McCoy entertained the spectators who had by this time gathered on the Scrubs. He sang hymns, with a boisterous air and a Scotch accent, and waved his cap and cheered. His cheers were answered by hundreds of other prisoners from their cells.

He tore off his number—C 23—and flung it right over the prison wall to the crowd, which was watching his antics with mingled amusement and fear for his safety.

His recklessness appalled the crowd at times, and they stood with fascinated eyes, expecting to see him fall to the ground. Climbing to the central ridge of the roof, he took off his coat and shirt, and stood on his head. Then he went to work methodically and smashed practically all the glass in the roof.

This work, which he performed with glee, occupied him for an hour, as he stopped now and then to sing and to pelt the warders with glass.

Window-Breaking.

When he had utterly wrecked the skylight, McCoy walked down the roof to the very edge, and tripping along it, smashed in the glass of the dormer windows one by one.

It was not until four o'clock, when the mutineer seemed a little tired, that a determined and successful effort was made to secure him. There was a rainstorm, and McCoy took shelter in one of the towers. While he was there a warder ran up the stairs to catch him, but McCoy jumped through a window to the roof and scrambled up to the ridge, within a few feet of the gable end.

While he was scrambling up one side of the roof Warder Dennis was climbing up the other side, from the opposite tower. They met at the ridge.

The warder seized him and gave him a blow on the head with his staff.

They fell, but McCoy fell on one side of the ridge and the warder on the other, and the warder succeeded in holding him there. If they had both fallen on the same side of the ridge it is probable they would have fallen off.

In a few minutes other warders climbed up to the two struggling men, and they soon tied McCoy up with a rope and lowered him slowly down the roof to the corner tower, where they lifted him like a log through the window."

"Cuddling" the Gauger.

A gauger was on his way to pay a surprise visit to a house where he had good reason to believe a still was being manipulated.

When within a hundred yards of the place he was suddenly confronted by a stalwart, handsome girl, who flung her arms around him, and began to kiss him heartily. The gauger was a small man, and he was powerless in the hands of his affectionate assailant. When he was eventually released he proceeded to the house, but found that he had been detained quite long enough to allow the "worm," i.e., the most important and valuable part of the still, to be removed.

The man told a friend of the writer in "M. A. P." that he had never received such a "cuddling" in all his life.

A Confident Conjecture.

Some racing tips. I have at last.
I'm sure to see great speed and skill,
For if my horses don't go fast
I'm certain that my money will.

OLD THEOLOGY STANDS

LONDON PRESS SHOWS "NEW THEOLOGY" SCANT COURTESY.

26,000 Copies of Rev. R. J. Campbell's Book Sold In Few Days—Severely Scored By Critics—All Sects Frown On the Author—Is Anathema to Orthodox—Views Cannot Be Admitted.

The Rev. R. J. Campbell's book entitled. "The New Theology," is probably already in the hands of many Canadian readers. Even those who have not yet read it are by now familiar with the outline of the position which he has taken up, which has been foreshadowed by him for some two or three months past in another series of sermons. It is practically a condensation and revision of these recent sermons put together during a winter holiday in Cornwall.

26,000 Copies in Ten Days.

Even the long-expected life of Mr Gladstone, by a biographer so eminent as Mr. Morley cannot compare with it in the extent with which it was greeted at length in the daily press. The first two editions were sold out before publication, and the third and fourth have been bought out and sold within a week. Messrs. Chapman & Hall are reticent about the actual figures, but it is probable that not less than 20,000 copies have now been disposed of within ten

THE CITY TEMPLE.

days. There can also be little doubt that it is one of those books which will continue to find recurring strata of fresh readers and run ultimately into very big figures.

"It Is New Religion."

It is only the London press which has treated it cavalierly and some of the more august among the religious press. The Guardian and the Methodist Recorder took but scant notice of it. The Record called it a disappointing book. The Church Times says there are few pages in it which they can recommend. The Morning Post says that it is impossible to take Mr. Campbell's book seriously. The Standard is contemptuous, the Daily Mail and Daily Chronicle noncommittal, and the Daily Telegraph concludes a rather supercilious notice by saying that the "New Theology," in fact, is not a re-statement of the Christian religion. "It is a new religion, just as much as Mrs. Eddy's Christian Science. Madame Blavatsky's Theosophy and Dr. Dowie's Zionism. Mr. Campbell has written an exceedingly interesting book, which many will find stimulating and suggestive reading; but he has not demolished the Old Theology."

Press Divided.

It was taken much more seriously by the provincial press. The more advanced religious press also recognize, although they do not all approve, the immense influence which this movement will acquire before long. The Christian Commonwealth which prints Mr. Campbell's sermons weekly and may almost be considered his organ in the press, is enthusiastic in its welcome. The Christian World sacrifices to it every other topic, and, though not in sympathy with his views, recognizes both the force of his appeal to the growing neglect of religion and his sincerity.

Of course he is anathema to the orthodox of every sect. The opinions of scores of ministers have been collected in a kind of daily census undertaken by The London Telegraph. These will have nothing to do with a man who denies the fall, and explains away the atonement, who asserts that evil is not positive, but privative, who weakens the authority of Scripture and almost abolishes free will and sin.

At Least One Friend.

He has had very little enthusiastic support from his own profession. The well-known Dr. Horton is most fervently his friend, and says very truly that whether theologians take his book seriously or not the churches and ministers will have to reckon with it, for it will be widely read and its criticisms and challenges will be in many pews. The Rev. F. B. Meyer, who is a severe but not unkindly critic, expresses the opinion that the book must precipitate a final and irreparable breach between Mr. Campbell and the evangelical party. They cannot admit his views as mere restatements of the Gospel. He concludes that humanity will retain the plainer interpretation of the Gospel in preference to any philosophical speculations.

The Influence Of What We Eat

Young People Are Especially Susceptible To This Influence.

The nourishment taken by body and mind, the extent to which this nourishment is assimilated, the form and proportions in which it is taken into the system, the amount of food and drink consumed, and the care given to the body and its various functions—all profoundly affect the health.

Some individuals think they can abuse the laws of nature with impunity, but even generous endowments of physical vigor eventually succumb, while the great mass of people, especially the young, are peculiarly susceptible to the food they consume.

As "Good Housekeeping" in an editorial suggests, health depends not so much on the nourishment taken into the stomach as on the extent to which this nourishment is taken up by the system. Malta-Vita, the perfect malted whole-wheat food, so rich in nourishment, containing every food element necessary to the sustenance of the human body and mind, is readily assimilated, even by the weakest stomach, because of the large percentage of maltose, or malt sugar, which it contains. Maltose is a natural sweetening agent and forms rich, healthy blood.

Malta-Vita is especially beneficial for children, and it is so good to eat! Now for sale by all grocers, 10 cents.

COLONIAL GOVERNORS.

Some Changes In Important Imperial Posts.

The King has approved the following appointments consequent on the retirement of Sir Henry Blake from the governorship of Ceylon:

Colonel Sir Henry Edward McCallum, Governor of Natal, to be Governor of Ceylon.

Lieut.-Colonel Sir Matthew Nathan, Governor of Hong Kong, to be Governor of Natal.

Brigadier-General Sir Frederick Lugard, late High Commissioner of Northern Nigeria, to be Governor of Hong Kong.

Sir Frederick Lugard worked for 20 years in East Africa, and he is one of the soldiers the Dark Continent has turned into diplomatists. For six years he was the administrator of the 400,000 square miles of country in Nigeria which the Imperial Government took over from the Niger Company, and from this office he retired last year.

He has led many expeditions against slave traders, and has been wounded several times. Not the least interesting incident in his career was his marriage to Miss Flora Shaw, once famous as a journalist, and the only lady witness before the Jameson Raid Commission.

The White Man In Africa.

Our freed negroes have at times been advised to go to Africa and carry the knowledge gain by their race in the midst of white civilization back to their benighted brethren. Africa, it is said, is the negro's proper home, and he can have it to himself because the white man cannot live there. But there is now going on in Africa a wondrous work of transformation and reclamation, instigated and controlled by white genius and white power. Even white farmers thrive there, and European peasantry are to be settled there with a view to making them actual tillers of the soil. European soldiers become acclimated there, and many of them remain from choice after their military service ends. And soldiering, as the white man in Africa prosecutes it, is hard work.

As a rule, of course, white men do not perform the hardest toil in tropical Africa. They do not need to. Their best hold is arousing and directing the natives, bringing them out of the torpor of ages. Steam, electricity, and machinery that the sun cannot wilt are doing the work in Africa which even the natives would sink under. Railroads now haul freight into the wilderness where it never went before except a savage chief with his spear or a white man with his gun stood over the blacks who were impressed to "tote" it. Negro women, who take to the woods at the sight of a washtub and pile of clothes, will sit all day at a sewing machine making overalls and jumpers for the black laborers, who think the white man's machine is doing all the work, as it really is. It is no wonder that the sons of Stanley's army of fighters, guides and porters will work the best that is in them to extend a railroad along Stanley's track in the Congo wilderness. Negroes are not dead to sentiment nor blind to the fact that white man are now doing things in Africa which their traditions told them could not be done except the gods interfered. So in Africa the race issue is a long way off. White and black are necessary, the one to the other, the man of brain to the man of muscle.

Disused Warships Sold.

Considerable interest was shown in the sale at Chatham dockyard of six vessels for which the Government has no further use. Agents from the United States, Germany and Italy were present, and fully prepared to make a keen fight for possession of these naval cast-offs; but the stipulation that the ships must be broken up in England stopped them bidding.

Even then the result of the sale, £62,690, was much in excess of anticipations. Following are the vessels and the prices realized:

Sans Pareil, first-class battleship	£26,600
Conqueror, third-class battleship	16,800
Undaunted, first-class armored cruiser	14,400
Alarm, torpedo-gunboat	3,650
Wave, steam yacht	925
Skate, torpedo-boat destroyer	305

An English ship-breaking agent offered £29,000 for the Sans Pareil if it could be broken up abroad.

Birds Shamming Death.

I was in our maid's room talking, writes a correspondent of Country Life, when we both heard my old tabby Persian cat coming upstairs with the peculiar muffled "mow-mow" that meant a prize of some sort.

He appeared with a fine cock sparrow that he had managed somehow to catch. Both the maid and I thought the bird was quite dead; his head was dangling limply, his eyes were half shut, and one wing was trailing. Jimmy, the cat, laid his capture at our feet with pride. I was just going to pick the bird up when he shot up and flew straight out of the window, which was wide open.

He had evidently not been hurt in the least by the cat, who was so furious at his capture escaping that he nearly went out of the window, too. It was a clear case of the sparrow "playing possum," and we have often laughed over the old cat's discomfiture.

The King's Gracious Act.

A pretty little incident, it is recorded, took place the other day at the royal luncheon table in the town and county hall, Aberdeen. The King, when conversing with Mrs. Lyon, the wife of the lord provost, who had just received the honor of knighthood, observed the card with her name on it which denoted her place at the table, and, taking it up, said, "I must alter this." With his pencil the King then obliterated the word "Mrs." and wrote in its place "Lady," graciously handing the card to her ladyship, says Woman's Life. Needless to say, this will prove one of Lady Lyon's most cherished mementos of a memorable day.

"Other Worldliness."

What is known as "other worldliness' is gradually ceasing to be a prominent feature in the religious life of our time. Church and Dissent alike recognising their duty with regard to the undesirable conditions in which many men and women find themselves living here and now

GRADUATION GOWNS.

What Materials to Select For These Important Costumes.

What materials and styles of gowns to select for the graduation exercises are problems that are already perplexing high school girls who finish their course the last week in June. White naturally is the popular color that all are agreed upon, but as to the kind of materials to choose and the models to use for the frocks there are no such definite rules to follow, and each girl is left to satisfy her own desires and to get what is most becoming and within the limits of her spending mon

GRADUATION GOWN.

ey. Since soft, clinging materials are favorites this season young girls will find that in buying veils, tulle or net for their dresses they are not only securing sheer weaves that are best suited to their ages, but are also getting those that are most worn now.

The style of a commencement gown should be in keeping with the wearer's height, the fashion of hairdress and with her age, so that the model suits each young woman.

According to the individual taste, a frock may be exceedingly simple, with long or three-quarter length sleeves and high neck, or it may be quite decorative, provided the trimmings are girlish and are made of ribbons, sheer lace, pompons or delicate flowers, such as wild roses in light pink, lilies of the valley or forgetmenots.

Bedmaking For Invalids.

The trained nurse method of bedmaking is one which might well be studied carefully by all bedmakers. There is no real reason why only invalids should be comfortable. The undersheet is tucked in carefully and tightly at both ends. On the sides at each corner it is folded back carefully in the same way that paper wrappings are folded at the corners of a package. Then the sides are tucked in. The other sheet, the blanket and the spread are tucked in at the foot in the same way and drawn very tightly under the sides.

WEAK HEART

SYSTEM WAS RUN DOWN

When the heart is healthy and performing its functions naturally, it should beat regularly seventy-two times a minute without causing the owner the slightest inconvenience or distress.

When it begins to beat irregularly or intermittently, palpitate and throb, skip beats, beat fast for a time, then so slow as to seem almost to stop, it causes great anxiety and alarm.

The least excitement or exertion seems to affect it.

Many people are kept in a state of morbid fear of death, because weak, worn and miserable, and are unable to attend to either social or business duties, through unnatural action of their heart.

To all such sufferers

MILBURN'S HEART AND NERVE PILLS

can give prompt and permanent relief. Mrs. F. Fletcher, South Ste. Marie, West, Ont., says: "I have been troubled for four or five years with weakness, and run down system. My feet were always cold and I felt almost dead. My heart was weak and I was so nervous I could hardly walk across the street. I started taking Milburn's Heart and Nerve Pills, and after using three boxes I felt much better. I continued their use until I had taken twelve boxes and I am now well."

Price 50 cents per box or 3 boxes for $1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

IN FASHION'S REALM

Linen and Lingerie Neck Frills For Dainty Femininity.

COLLAR AND CUFF SETS.

Fascinating Are the Many Styles of Cravats, Jabots and Rabats That Can Be Made by Fair Fingers—They Require Careful Washing.

Collars with cuffs to match are fashionable, like a man's high two inch turnover collar, and may be made of plain linen or pique with scalloped edges, plain or with small circles or conventional figures embroidered in each scallop. The scalloped or plain pique collars are the best for the beginner to fashion. Half a yard of pique, with mercerized linen floss for embroidery, will make three sets of collars, with cuffs to match.

Dots, circles, fleur-de-lis, conventionalized daisies and shamrocks in dainty

EMBROIDERY AND HAND TUCKS.

ative size are favorite designs for beginners, and simple, conventional vine designs sometimes run around the lower edge of the collar.

Narrow hemstitched frills are used to finish off the front plait, and the deft fingered girl can make these in sets of ruffle edged box plaits to run the entire distance down the front of the waist and a turnover collar with cuffs to match, finished first with a hem or scallops and set under this the fine gathered or knife plaited frill. The latter, of course, is made from lawn or handkerchief linen. With these sets a silk Windsor tie or tiny silk cravat is worn.

But far more fascinating to the feminine needle at this moment are the many styles of lingerie ties, cravats, jabots and rabats. A rabat looks like a handkerchief, plain or edged with lace, laid in fine plaits, so that it is snug and narrow where it joins the collar and flares out as the plaits unfold toward its lower edge. It gives a flat, tailored effect. The jabot gives a cascade effect in lace alone or lace and lawn and is worn with dressy rather than tailored waists.

The smallest lingerie cravats or made ties measure no more than three and a half inches in length and less than two inches in breadth. They are made of fine linen, batiste or lawn, edged with a very narrow scalloped or pointed French val and laid in finest knife plaitings. They are drawn in a very tight knot in the center to give a butterfly effect. They can be fastened on a bit of pasteboard covered with the linen and attached to the collar with a bit of narrow elastic. Or a pearl safety pin on a bar which comes for this purpose can be purchased and the cravat fastened to the collar by this means.

These made up ties require most skilful ironing when washed and, in fact,

CLOVER DESIGN.

never look really smart after they are washed. Many women are embroidering narrow, short ties, slightly broader at the ends than in the center, and tying them in tight, natty bows. These are less than a yard in length, from thirty to thirty-three inches, about two inches wide where they slip under the turnover collar and three inches or a trifle more at the ends, which may be made as ornate as one's ability as an embroiderer will permit.

AMY VARNUM.

DINING A LA CARTE.

The Way to Order Meals at Restaurants and Hotels.

The woman who dines at hotels and restaurants but infrequently is sometimes a little bewildered and perplexed as to just how affairs should be managed. Therefore the article in the Delineator quoted below is of much value:

In ordering a la carte you are expected to write down on the waiter's pad the orders for the whole meal except perhaps dessert, which it is hard to make up one's mind about at the very beginning of dinner. Or you may tell the waiter what you want as you consult the card, and he will write it down for you. If you do not understand what the article is from its name—the makeup of a salad written in a foreign title, for instance—simply ask the waiter what that dish is.

When you have quite finished sign to the waiter, "Will you bring my check, please?" and Henry will bring it with a slight increase in his deference of manner, which always grows more marked as the time for the tip approaches. Give him the money for the bill. Do not pay at the desk on the way out except at a low priced restaurant, where the busy waitress punches a printed check for you and passes on to the next customer. When Henry comes back with the change due you on a silver salver, return a reasonable amount of change to the tray as a tip for him. The tip varies according to your expenditure. If your cost of your bill being considered a fair basis this country it is not customary to give less than 10 cents as a tip. Don't grudge the tip and don't withhold it. Count in your tip as a legitimate part of the dinner expenses, and if you resent the tipping custom write to the papers about it or patronize a pay at the desk restaurant, but don't take it out of the waiter.

Leave your napkin unfolded on the table; leave your chair where you pushed it as you arose. Let the waiter help you with your coat and hand you your furs. He takes pride in doing the correct thing and earning his tip. And don't, pray, help yourself to a toothpick at the table and use it as you leave the place.

Now, the chances are that after you have left the unaccustomed restaurant or even earlier you will realize some blunder that you have made. Well, don't let it trouble you. You may have shown more of homespun and less of social experience than your restaurant neighbors; but, after all, you can probably give them points on something much more important than the proper way of ordering a dinner.

GLOVE AND HATPIN BOX.

A Nice Little Contrivance For the Traveler.

Here is an idea for the conversion of an ordinary long cardboard box, such as a corset or shoe box, into a useful and ornamental adjunct to the toilet table—viz, a receptacle for gloves and hatpins.

Any odd length or lengths of brocade, silk, satin or cretonne could be utilized and joined if necessary, as the joins could easily be hidden under a strip of ribbon or ornamental braid. For those who do not care for the bother of sewing glue can be used to secure the ma-

THE BOX COMPLETED.

terial to the box, the edges being carefully turned in and stuck down or finished off with narrow ribbon.

The lid can be secured to the box by a wide strip of ribbon, which should be so arranged as to allow the box to open easily.

The quilted portion, through which the pins are placed, can easily be stuck to the inside of the lid when the whole has been covered, care being taken to keep this perfectly even and the same distance all round from the edge of the lid.

When this is done, the ribbon can be secured round the center of the box, as the sketch shows, and fastened off with a bow at the edge of the lid.

Let Yesterday Alone.

If you made mistakes yesterday, forget them. No strength was ever built upon continued regret. Today is the result of yesterday, but it is more important to remember that tomorrow is the result of today. The result of the actions of today we can determine, but no amount of dwelling upon yesterday's regret will reshape today.

If we fell yesterday, there is nothing to do but to pick ourselves up, shake off the dust and start afresh. Rise above yesterday. It is hard work to hold up the head and live down a black yesterday, but the blacker the yesterday the greater the need of rising above it, the higher the head must be held.

Yesterday has passed. Let it rest in peace. Don't keep dragging it out on parade. Do not waste energy on what cannot be undone. Let yesterday alone.

In the Bathroom.

The one thing to be avoided is a clutter of small things—too many bottles and boxes on the shelves and tables, a number of rumpled towels and, above all, a rack of clothes hung up to dry.

The nickel plate should be kept shining with constant polishing and the white porcelain, tiles and enamel immaculate. The nickel collects ugly and unsightly green oxide and the white enamel a peculiar yellow stain if neglected. Any one who has attempted to correct the results of this neglect in either case has found her task a difficult one, and if the neglect has continued too long almost an impossible one. With daily care, soap and water, combined with vigorous scrubbing and rubbing, are quite sufficient. A gritty soap should not be used on either the nickel or the enamel.—Harper's Bazar.

Lace Wrist Bags.

Lovely little things now come to make the gown more feminine than before. The fat lace wrist bag covered with antique lace and lined with silk to match the gown can be mentioned as one of those fascinating small things which every woman would like. Those who make these bags at home can select for a pattern a circle as large as a tea plate. Two stiff pieces of pasteboard are covered with lace over silk, and the bag is finished by an application of lace where the pieces join. All the necessities for a vanity bag are fitted within

Richards Pure Soap

To Clean a Mop.

All furs before being put away for the summer should be thoroughly cleaned. One of the best methods is

to beat the fur piece with small rattan sticks until every particle of dust is removed, then place in heavy muslin bags which have been soaked in turpentine.

Fireplace Mottoes.

There was once a man who had the following motto carved over his fireplace: "I have had many troubles in my life, and most of them never happened." It was certainly a motto to set people thinking.

Over the fireplace in Mark Twain's home in Connecticut is this inscription: "The ornament of a house is the guests who frequent it."

A certain young couple checked many a garrulous tongue by putting above their living room fireplace the words, "In this room speak ill of none."

Here are a few other mottoes, which will serve for hall, library or chimney corner:

"A man's house is his castle."

"East or west, home's best."

"Old wood to burn, old friends to trust, old books to read."

Another good motto for the fireplace is, "Sit ye here and rest awhile."

Japanese Rice.

A Japanese cook, famous for the light, snowy appearance of his rice, washes the uncooked grains through several waters until not a trace of milkiness is seen in the water.

To two cupfuls of the rice he allows a quart of boiling water, cooking slowly for an hour without stirring. From time to time he shakes the kettle, tipping it from side to side.

When the water is all absorbed he lets it stand for awhile on the back of the stove to steam and plump.

The Doctor Said Nervous Prostration

BUT AFTER WEEKS OF EFFORT HE COULD NOT HELP ME, AND I WAS CURED BY

Dr. Chase's Nerve Food

Sleeplessness, failure of appetite and digestion, and then nervous collapse. This is the story told in this letter. But there is also new hope for similar sufferers in the cure described.

Mrs. Alf. Stevens, Burgessville, Oxford county, Ont., writes:—

"Two years ago last November I was run down, and did not know was wrong. I could not sleep or eat, and at last my nervous system gave way entirely, and I had to go to bed. The doctor told me I had nervous prostration, and, though he doctored me for some weeks, I did not get any better.

"I then began the use of Dr. Chase's Nerve Food, and by the time I had used six boxes I was completely cured. People remarked how well I looked, and I said, 'Yes, and I feel well, that is the best of it, and Dr. Chase's Nerve Food did it.'

"Twenty years ago," said Dr. Weir Mitchell, the great American authority on diseases of the nerves, "the treatment of diseases was the highest medical ideal. Now the highest ideal is prevention of disease."

In the front ranks of preventives must be placed Dr. Chase's Nerve Food because it works on the principle of restoring the quality of rich blood and nerve force in the body and thereby keeping vitality at the high water mark.

This is the only way in which nervous prostration, locomotor ataxia, paralysis and many like dreaded diseases can be prevented or cured, and cure of such diseases when once they are thoroughly established means long weeks and months of persistent treatment.

The old saying that "An ounce of prevention is worth a pound of cure" is nowhere so applicable as in diseases of the nerves, and there never was so effective a preventive as Dr. Chase's Nerve Food. This is being proven every day in thousands of cases. 50 cents a box, at all dealers or Edmanson, Bates & Co., Toronto.

The Making of a Successful Husband

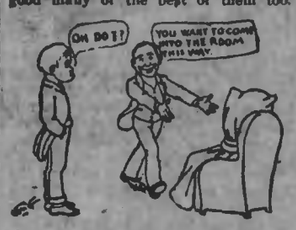
By CASPAR S. YOST.

It Is Contrary to Popular Tradition and the Newspaper Humorist, but It Is a Fact That a Man's Mother-in-law Is What He Makes Her.

[Copyright, 1906, by C. S. Yost.]

MY DEAR JOHN—Marriage always means a great deal more than merely trotting a girl up to a preacher. Most of the present day youngsters seem to think that's all there is to it and never try to see beyond. They don't realize that marriage is the passing into a new life, or, rather, the graduation into real life, where the surroundings and conditions are different and the responsibilities much heavier than before. That's why there are so many disappointments. It's just like putting a green man into a football team at the beginning of a match. He doesn't know the game, isn't prepared for the contest and is carried out in the first half. Marriage is the greatest game on earth, and there ought to be such things as matrimonial coaches to teach those who would play it not only how to line up, but how to reach the goal. Such a coach would need to have many and diverse lessons for his pupils, and one of the most important in the course would deal with the treatment of one's wife's relations.

That, I judge from the lugubrious tone of your last letter, is the problem you're "rassilin'" with now, and it's a problem that better men than you and I have tackled from the days of Cain and Abel down. It's knocked out a good many of the best of them too.



A matrimonial coach to teach the treatment of one's wife's relations.

Some of these dusty diggers after family secrets of the past are said to have found mother-in-law jokes in cuneiform inscriptions. That may not be true, but nobody can deny the fact that there were mothers-in-law in the days when men wrote their letters with a pointed stick on a gob of mud, and they were doubtless as prominent in domestic affairs then as now. Yes, I know it's the present that's bothering you now, but I just wanted to show you that you haven't butted into an entirely new proposition, as you seem to think. Why, even your mother had some relatives when I married her, and a good many of them have the temerity to be alive yet. I am rather glad of it, too, because I have become as much attached to them as to my own blood kin, and there are one or two in particular that I'd feel mighty lonesome without. There's your Grandmother Larson, for instance. Why, my dear boy, I don't know how many times that blessed woman has pulled me back from the pearly gates by her nursing, and I have a mighty distinct recollection that she helped you over the rough places more than once.

Don't Be Ungrateful.

And don't you remember what delightful doughnuts and cookies she used to make for you when you visited

Don't you remember what delightful doughnuts she used to make?

her and how she used to take you up on a cold winter night and, after you had said your prayers, bury you deep in a great feather bed, tuck the covers close around you and then sit by you and sing old fashioned songs until you wandered off into slumberland? And don't you remember—but, pshaw, I could keep on reminding you all night and not exhaust the list of her good deeds to you and me! Oh, you say, but that's my grandmother! Sure! And you don't want to forget that she's my mother-in-law. You think a whole lot of your Aunt Fanny, too, don't you? I heard you say not long ago that she was a "peach." I don't know that I would express it just that way, but my opinion is the same as yours. And there's your Uncle Bill. Did either of us ever have a better friend? Yes, it's true that both of them are your blood relations, but they are not mine. They are just my wife's people, and I want to get that pushed clear through your thinner and clinched on the other side. These kinfolk you love so well bear the same relation to me that the people you are grumbling about do to you, and I don't believe my relations-in-law will average up any better than yours.

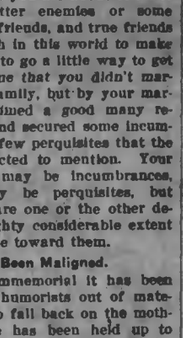
You feel aggrieved because your wife's father and mother and brothers and sisters are inclined to make themselves at home in your house. You say you didn't marry the whole demoralized family and want them to stay in their own yard. Before I say anything more I want you to descend from your elevated steed, so I can carry on a conversation with you without a megaphone. You are right at the point where you are about to make some very bitter enemies or some mighty stanch friends, and true friends are rare enough in this world to make it worth while to go a little way to get them. It is true that you didn't marry the whole family, but by your marriage you assumed a good many responsibilities and secured some incumbrances and a few perquisites that the preacher neglected to mention. Your wife's people may be incumbrances, and they may be perquisites, but whether they are one or the other depends to a mighty considerable extent on your attitude toward them.

She's Been Maligned.

From time immemorial it has been the custom of humorists out of material for copy to fall back on the mother-in-law. She has been held up to ridicule as the common enemy of married men the world over. There isn't any more real basis for these jokes than there is for the ancient one about the baldheaded men in the front row. I have always been a pretty regular attendant at the theater, and I have yet to see a greater proportion of baldheaded men in front than of those more fortunate in the matter of hair. I believe in giving even the devil his due, and I am satisfied the debt the world owes its mothers-in-law is so great that not even the interest on it could ever be paid. It is true that the mother-in-law has caused many a domestic upheaval, but the meddlesome mammas are not nearly so numerous as they are supposed to be, and if we could get at the facts we would find the chuckle headed son-in-law to blame for her meddling in most cases.

Things the preacher neglected to mention.

Your marriage to Anna May didn't make her an orphan. Her mother's just as much her mother as she was before and just as much interested in her welfare. She has a natural desire to see her happy, and she has her own ideas about the process. You must remember, too, that she has known her daughter somewhat longer and rather more intimately than you. She knows her disposition, her tastes and her wants much better than do you. She probably has her doubts about your ability to fill the role of the model husband, and she views your conduct at the beginning of your married life with some anxiety, not to say suspicion. All this is nothing more than the expression of the mother love, prejudiced, of course, and therefore getting a more or less distorted view of things, but it is the part of wisdom to give her views consideration, no matter how much they may differ from yours. It isn't advisable in any position in life to be too cocksure. You know, John, there's just a bare possibility that you may be wrong and she may be right as to some things, in which case you would be a fool if you did not accept her views and act upon them.



The proud possessor of a college degree.

Try to Be Logical.

There's another point that may not have occurred to you, although you are the proud possessor of a college degree. Your marriage did not alter your love for your mother. Neither in that ceremony did your wife concentrate all her affection on you. All her life her mother has been her most beloved counselor. Now, it is true she has transferred her allegiance to you, but a few words spoken at the altar cannot change in a moment the influence and training of a lifetime. Anna May is still her mother's daughter, still respects her advice and cherishes her love, and, although she may do as you wish in every particular, if your wishes are opposed to the influence that has hitherto guided her she cannot yield without a struggle within herself. Now, don't misunderstand me. I am not saying that you should let your mother-in-law run your house—not by a jugful. But you must take all these facts into consideration and bring your wife gradually to your

Add to her happiness by making that mother your friend.

way of thinking, if you are sure your way is the right way. Don't attempt to destroy her love for her mother. You can't do it, in the first place, but if you could you would deprive her of a friend whose help she will often need in times when you are helpless. No matter how deep her love for you, you cannot fill a mother's place, and you can add to her happiness and to your own by making that mother your friend. It isn't hard to do. She is not an ogre. Let her be once convinced that you can be depended upon to give her daughter the care and love she is entitled to, and she will become your most devoted ally. Take her into your confidence, treat her as you would your own mother, show her that you are to be trusted, and you will have made a friend you will have many occasions in after life to be thankful for. Make her your enemy, and you not only make your wife unhappy, but you lay the foundation for some mighty uncomfortable moments for yourself. Don't be a chump, my boy. Diplomacy has ever won more victories than war, and tact will accomplish what opposition cannot effect in the least.

Give Them Their Due.

It is much the same with your wife's sisters, but the conditions are considerably modified. It is quite important to obtain and retain their good will—important, I mean, for your peace of mind and comfort as well as Anna May's—and you can't get it by force of arms. Keep in mind all the time that they are your sisters-in-law and therefore entitled to greater consideration than most other women. Once make them your friends, it will take a cataclysm to change them. As to your father-in-law and brothers-in-law—well, they are men and comparatively easy to get along with. Just let them see that you are a real man and that you are going to give their daughter and sister a square deal, and they will stand by you until the lower regions become congealed.

So, John, it all resolves itself into the right treatment of your wife in the first place and the kindly and tactful consideration of her relations in the second. You are not required to yield any of your rights; you don't have

The driver who goes over obstacles will need a blacksmith.

to make a martyr of yourself; you don't need to get down on your knees to anybody. Simply be a man of sense, plain hoss sense. Keep your wagon in the middle of the road, but dodge the stumps. The driver who goes over instead of around obstacles may reach his destination, but he'll need a blacksmith when he gets there. Make tact, tact, tact, a compound with your love, and you will eventually praise the Lord that your wife has relatives. And now, my boy, right now, is the time to make them friends. Now you are on trial in a way; now they are sizing you up to see whether Anna May has drawn a prize or a blank. The judgment will be rendered soon, and your conduct toward them has much to do with that judgment. See that it is rendered in your favor and you will have provided capital for your future life that will yield interest compounded semiannually to the end.

I have treated this matter seriously, John, because it is really a mighty serious subject in spite of the jokes it has caused. Your wife's relations are of much more importance in the maintenance of your domestic happiness than your own, and you cannot do too much to secure their respect and love. Your affectionate father,

JOHN SNEED.

Games Akin to Golf.

It is probable that the little boy in the street who calls a hockey stick a golf club is only speaking the truth a few centuries too late. There are many reasons to believe that the Scotch game of golf, sometimes called bandy ball in the old accounts of it, developed into hockey with a flavor of football about it when it came south, and this is borne out by an old fifteenth century print of two bandy ball players in which the stick used, called bandy because bent, resembled a hockey stick far more than a golf club. The Gentleman's Magazine in 1795 also mentions shinty as a Scotch game similar to golf, and another writer defines shinty as "an inferior kind of golf played by young people and in London called hockey."—London Standard.

Saves A Lot of Bother

The starch that needn't be cooked..that won't stick..that gives a brilliant gloss with almost no iron-effort..isn't that the starch you ought to have them use on your clothes? Buy it by name.. your dealer sells it.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.

DR. CHASE'S OINTMENT.

SUNSHINE FURNACE

BURNS COAL OR WOOD

The Sunshine is a good, "all round" furnace. Burns, with equal facility, either coal or wood. Coke, too, if you prefer it.

And so perfect is the combustion of the Sunshine that it extracts every unit of heat from the fuel.

What's left in the ash-pan is not worth sifting.

Sunshine consumes less fuel, too. Because its perfect system of dampers prevent the escape of the hot air up the chimney—compels it to come out through the registers.

You pay for heating the inside—not the outside—of your house when you buy the Sunshine.

If your local dealer does not handle this most economical furnace write direct to us for FREE BOOKLET.

ON THE RIVIERA.

Mr. Chamberlain Slowly Recovering Health in Quiet Retreat.

Villa Suveret, Valescure, two miles from the sun-kissed shores of the Mediterranean, is where Mr. Chamberlain has well chosen his retreat, and where the once strenuous politician is confident of recovering health and strength. Villa Suveret, says The London Tribune correspondent, is a cosy, red-brick, gabled cottage, much more English in style than French. It is quite hidden amid the pines.

MR. JOSEPH CHAMBERLAIN.

You can only catch a glimpse of it by crossing the thick wood which surrounds it. The carriage drive from the road is long, and zig-zags through avenues of mimosa and eucalyptus. The entrance is smothered under the overhanging branches of a thick clump of the same trees. Villa Suveret is a veritable haven of seclusion into which no prying or curious eyes may penetrate.

Within this screen lives Great Britain's former Colonial Minister, endeavoring by Spartan effort and mode of existence to win back the health he has lost. "Is he suffering?" is a question thousands are asking. Few can answer, for Mr. Chamberlain sees no one but his family and his servants. His life is, indeed, almost that of a hermit. And he imposes the same manner of living on his nine servants, of whom only two are English. Mr. Chamberlain is certainly better than he was a few months ago. The month he has spent at Valescure has worked wonders. His face has lost the greyish-yellow hue, the haggard and worn expression it had when he arrived at Valescure.

An Occasion For Sympathy.

Nevertheless, he is still very ill. The ex-Minister cannot walk unaided. These bright spring mornings local peasants see him leaning heavily on the supporting arms of his daughter and his nurse, walking up and down the road outside the house. Often he does not get further than the entrance gates. It is a pathetic figure, and whatever one's political opinions, one's sympathy goes out to this once strong man, overflowing with vitality, in his time of weakness and dependence.

THE FATHER OF CLUBS.

White's Famous Institution Has Existed For 232 Years.

White's club, one of London's oldest and most famous institutions, has just secured itself against possible dissolution by renewing its lease of its present quarters in St. James street. The club, remarks The Bellman, is one year older than the Bank of England, dating back to 1675. In those days each branch of trade or society had its particular place of resort, and White's chocolate house in St. James street was the acknowledged meeting place of men of fashion. Some fifty of these drew up a set of rules, hired a room in the chocolate house, and paid a guinea a year each "toward having a good cook."

So London's first club was formed, and its list of members is like a roster of all the great families of England. Its collection of portraits of members, from its foundation to the present time, is an extraordinary one, and constitutes the chief glory of the present clubhouse.

Another of the club's most valued possessions is an old betting book which has been carefully preserved and forms an extraordinary comment on the social side of London life from the days of Queen Anne onward. Matters social and domestic were the principal subjects of bets, and the names of ladies both in and out of society were made the subject of most personal wagers. Marriages, births and deaths, along with separations, divorces and the paternity of children were as frequent as political and sporting bets.

One very characteristic bet was entered November 4 1754—"Lord Montfort wagers Sir John Bland one hundred guineas that Nash outlives Cibber."

Under this entry in another hand is written:—"Both Lord M. and Sir Jno. Bland put an end to their lives before the bet was decided."

Advocated For Years.

The Parliamentary career of the Deceased Wife's Sister Bill covers a period of seventy-two years. It was in 1835 that Lord Lyndhurst brought in his bill to annul all future marriages within the prohibited degrees, and six years later Lord Wharncliffe introduced a bill—which was negatived without a division—to appeal the clause prohibiting marriage with a deceased wife's sister. In 1842 Lord Francis Egerton's Bill was rejected by the Commons by 125 votes to 100, and seven years later the struggle was again renewed. Between 1850 and 1869 the bill passed through all its stages upon six occasions, and was rejected on thirteen by the Upper House. Since then it has figured intermittently in the sessional bill of fare, with more or less successful results.

NEW BRUNSWICK FOR SETTLERS

British Settler Speaks Highly in Favor of the Province.

The following paragraphs from a letter written by Mr. G. M. Rose, of Woodstock, Carleton County., New Brunswick, a settler there, to The London Daily Mail, will be of interest:

He says: "I visited the West three years ago, and after returning home I decided to emigrate to Canada. I wrote to the Hon. C. A. Duff-Miller, agent-general for New Brunswick, asking him for information about that province, which I promptly received, with all necessary instructions how to get there and what to do on arrival. He also gave me letters of introduction to gentlemen who were only too glad to give all the assistance in their power to the new-comer.

"I placed myself is the hands of Mr. Byron Grant, of St. John, who has a large number of farms for sale. This gentleman spared neither time nor trouble in showing me round the farms on his list, showing both their good points and bad, accompanied by a good deal of valuable information.

"In justice to New Brunswick, I think its claims as a home for those who desire to emigrate to Canada should be more prominently brought before the public of Great Britain. I think if the right people come here—by which I mean those who are willing to work, not those with big ideas in their heads expecting to make money with their hands in their pockets—they will do well and enjoy more comforts than those who go West, besides finding a ready market for all they are able to raise at their doors.

"Mixed farming being the rule, the farmer has not all his eggs in one basket, and has a great advantage in that respect over his Western brothers, who depend altogether on their wheat. If a bad season comes — as come they will in every country at some period or other — the New Brunswick farmer will have one or other of his crops good if there happens to be a partial failure in others."

I have received many testimonials in the last few years from people who have left England for New Brunswick, where they have rarely failed to largely improve their circumstances, and I am always happy to hear from anyone who likes to write to me for particulars regarding New Brunswick as a field for intending emigrants

FIELD FOR COMIC OPERA.

American Writer Finds Many Amusing Things in Canada.

E. W. Thomson, in The Boston Transcript, is amused at a few things he sees in Canada. He writes:

As a field of subjects for comic opera Canada merits attention. Around the governor-generalship some funny "shows" of amiable noblemen, all happy in the possession of charming, good-natured wives and daughters, condemned, for about four years each, to pose as shades of royalty in a country of the most democratic, their performance being gravely condemned on no other ground than as furnishing a sort of school of deportment for the worthy commonalty whom it doesn't affect, in any degree. Conceive a man of the essential seriousness, the ability, tact and diplomatic skill of Lord Grey, taking the chief role in that farce. He called the executive! The politicians and press so jealous of him that he can't open his mouth on any political matter without risk of being fiercely told that he has put his foot in it! Suppose him sensible of being required, by absurd prescription, to award his official-social smile to every Tom, Dick and Harry who vapors for a variety of imperialism that is absolete, and equally required to cold-shoulder any who promote the local patriotism which he himself knows to be the ruling sentiment of the present and the future. Consider his necessarily cynical amusement at the susceptibility of those whom he succeeds in flattering into such vociferous demonstrations of "loyalty" as they formerly affected to jeer. Then, to be a rare show in "vice-regal progresses" frequently! Ruminate on the tumult of small social jealousies continually rising out of the acessary discrimination, by his aides, of those "possible" for this official-social invitation, from the others who can be entertained only at some gathering of a more general nature.

He Knew.

Teacher—What is bread made of? Small Boy (baker's son)—Alum, potatoes and plaster of paris.

Italian Peerage.

It is a noteworthy and curious fact, says Tit Bits, that of our three Canadian peerages not one has an heir male to continue it. Lord Strathcona's title will presumably descend one day to his daughter, Mrs. Howard, who will thus add another to the small and select company of peeresses in their own right. Lord Mount Stephen, though he has been twice married, has no children; and the one other Canadian peerage, that of Macdonald of Earnscliffe, is now held by the widow of the first Lord Macdonald, and as yet no provision has been made for its inheritance by her only daughter.

Fish That Can Walk.

The mud skipper is one of the queerest fishes alive. It really is a fish and lives in the water, but it can climb out on to the shore and crawl. It likes to clamber up on to roots of trees and perch there. Another funny thing about it is that it breathes with its tail. The skin there is very thin, and the fish breathes through it quite easily.

A Question of Depths.

"You are beneath my contempt, sir!"

"So are you beneath mine, and I'm rising an inch every minute."

REDMEN OF CANADA.

Indians of the Dominion Are Making Much Progress.

Our Indian population is commonly associated in the public mind with the forests of the Far North, and with the Pacific Coast of British Columbia. True, these parts contain a majority of Canada's redmen, and yet one-third of our Indians are to be found in the older provinces east of Lake Superior. The total Indian population of Canada is 109,394, of whom 86,680 are treaty Indians, and 20,714 live outside of treaty limits. In this element of population British Columbia leads with 24,987, but the old Province of Ontario comes second with 23,736, which is three times as many as there are in Manitoba, and about twice as many as in Quebec. In the two new prairie provinces of Alberta and Saskatchewan there are 12,937 Indians, and in the Maritime Provinces 4,164. Last year the total natural increase was 183; by migratory fluctuations there was an increase of 150. The largest increase by births was in Ontario, among the Indians living comfortably on farms.

The Wild, Free Life.

It is to the Indians of the West that one naturally looks for the wild, free life associated with the wigwam and the chase, but there is comparatively little of that life left—practically none as it exists in the frontier stories of thirty years ago. The Indians now reside on their reserves, no longer can they chase the buffalo over the plains because the buffalo has disappeared, and the prairies are being cut up into farms and crossed here and there by railways. There are no more tribal wars, no more war parties seeking glory in the form of murder, but law and order, of which to the Indian the Mounted Police is the embodiment, are ever present, and must be obeyed. The reports of the Indian agents now deal with commonplace matters such as the Indian's health, his mode of living, his improvement in education and morals, the condition of his home, and how life in general goes with him.

Indians and Farming.

Running through these reports, and especially through those dealing with the agencies in the West, is the hope that the Indian will take more kindly to farming. As settlement increases his hunting grounds become curtailed; there is no longer the buffalo to supply him with meat, and he must learn to raise cattle, and grow wheat. "The real progress of the Indian," writes one of the agents, "depends on his adherence to the soil and its cultivation, and to the raising of cattle and other stock, its natural adjunct," Again this agent writes: "I am directing the Indians' attention from the lines of industries the white man calls sport—shooting, fishing and hunting—and leading the Indian to the sure and safe lines of mixed farming."

A Peculiar Characteristic.

"A peculiar characteristic of the Indian," to quote again, "is that one is never sure of him. He may be an industrious, promising Indian to-day, and to-morrow it may be a thing of the past. Something happens, not very much, but he is gone; he has taken his horses, his wife and family. The rest of his property he leaves to take care of itself."

But progress is being made, and it is encouraging that the tendency is in the right direction. Gleanings from the reports show this. One agent writes that his Indians are making some improvement in farming, but that it is difficult to get them to work systematically. Another agent says that they are poor tillers of the soil, but that they take fair care of stock.

Indians Accomplishing Something.

And yet the Indians last year accomplished something in agriculture. Throughout Canada they had 47,955 acres under cultivation; of grain and root crops they raised 1,405,570 bushels; of hay 116,000 tons, and the total value of their agricultural products was $1,142,347, being an increase of $13,062 over the value of the crops of the preceding year. In wages they earned $1,727,009.

Needs Watching.

The Colonial Conference is an experiment which requires watching if we would be assured against veiled interference with self-government. If the debates of the conference are not to be reported, the subjects of discussion and the resolutions at least ought at once to be made known; otherwise, instead of the increase of colonial self-government, which the conference purports to be, we may come to be practically governed on the subjects with which the conference deals by Imperial closeting of colonial Premiers. A colonial Premier closeted with the Imperial Ministers, and at the same time subjected to the influences of London society, which is not to be disregarded, may agree to a policy to which his colony might demur, but which on his return home he may impose upon his caucus, and through his caucus on the Parliament. Something like this probably our ardent Imperialists have in view. Our Parliament will not be again in session till long after the Prime Minister's return, and we may have all that time to wait for an authentic account of the measures to which we have been morally committed. We need not be suspicious, but reasonable vigilance is not suspicion. We cannot yet tell what turn events may take. The conference no doubt is likely, and it is intended, to promote closer union. It is in fact the substitute for Imperial Confederation, the projectors of which after thirty years of advocacy at last despair. Yet if differences should arise among its members its practical tendency may turn out the other way.—Bystander in Weekly Sun.

Modern Forestry.

One of the curiosities of modern forestry is the care of beautiful old shade trees. The amputation of diseased or dead limbs is as carefully performed to prevent further decay from the elements as in surgical operations on human beings. Decaying cavities are cleaned and filled with a preserving cement, as is done by the modern dentist. And the latest advance is to build a tin roof along the upper surface of wide spreading branches, where little hollows might hold dampness and promote decay. Some handsome patriarchs well deserve it.

For all disorders of stomach and liver, Bileans are a sound, safe and sure remedy. They strengthen the bodily functions in Nature's own way, being compounded from Nature's own herbal extracts. Women the world over find them a boon. Finest household remedy.

All druggists and stores, 50c. a box, or from Bileans Co., Toronto. 6 for $2.50.

Synopsis Of Canadian North-West HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Synopsis Of Canadian North-West HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba or the North west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land is situate.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act, as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

HINDU RIOTS IN INDIA NOW

Feared May Be But Prelude to Something Worse.

DRASTIC MEASURES TAKEN

Students Wreck Y. M. C. A.—Loot Houses of Missionaries — Agitation Originate in Colleges—University Is Warned—Another Disturbance at Amritsar—Alleged Desecration of Temples—Boycott.

Simla, British India, May 7.—The schools and colleges of Bengal, which are affiliated with the University of Calcutta, have become such hot-beds of political agitation, that the Government has resolved to take drastic action. A circular has been sent to the university, college and school authorities, prohibiting the participation of professors, teachers or pupils of the higher educational establishments in political movements, and notifying the university that unless it fulfils its duty in controlling the affiliated colleges all the Government scholarship endowments will be withdrawn.

The Hindu outbreak at Rawalpindi appears to have been anti-Christian, as well as anti-European. The mission buildings were the special object of the fury of the rioters. An attempt was made on the American mission church, the mob burned the Young Men's Christian Association hall, looted and damaged the houses of the missionaries and violently assaulted native Christians in the streets. A riotous outbreak, under the leadership of Hindu students, has occurred at Amritsar, about thirty miles from Lahore.

All the local newspapers print detailed accounts of serious rioting at various places in Eastern Bengal, especially in the Mymensingh district. The papers comment gravely on the situation, saying the disturbances may be the prelude to worse events, owing to the intense feeling between the Hindu and Mohammedan portions of the population. The former allege that the latter have desecrated their temples, while the Mohammedans assert that the Hindu boycott of British goods has caused a rise in prices.

OVER 600 ACCIDENTS.

Twenty-Seven Were Fatal—Reports of Factory Inspectors.

Toronto, May 7.—According to the nineteenth annual report of the provincial factory inspectors, which has just been issued, there were 636 accidents in the factories of Ontario in 1906, of which 27 resulted fatally. The majority of the accidents occurred in Toronto and Hamilton.

One of the women inspectors, Miss Annie Brown, states that she found child labor abused in a number of the concerns she visited. In mica factories especially there had apparently been no effort made to ascertain the age of the children employed. Where it was apparent that the little workers were under 14 years of age, they were sent home.

It is noted in the report that factories in general are cleaner than they used to be, but attention is called to the need for better ventilation in most of these places.

Miss Carlyle, in her report, says that one of the most difficult things to enforce is the regulation compelling factory girls to do up their hair in such a way as to best avoid accident from the machinery. They prefer, she states, to be scalped rather than put up their locks in what they consider an unbecoming style.

NO ONE WANTS SOCIALISTS.

Driven From One Place to Another They Decide On England.

Malmos, Sweden, May 7.—The Russian Socialists desirous of holding a congress here are being kept on the move in the Scandinavian peninsula. After having been ordered out of Denmark, 120 delegates arrived here Sunday night and were joined by sixty others, who came by way of Stockholm. The police, however, refused to permit the Socialists to remain here, and prohibited the holding of any conference whatever at Malmos. The Russians thereupon requested permission from the Danish authorities to go to Esbjerg, and there embark for England, where they hope to be able to hold a congress.

Newspapers Win.

Lebanon, Ky., May 7.—When the cases against The Louisville Herald, Evening Post and Louisville Times, for publishing the evidence in the Thaw trial, came up at Lebanon, the court instructed the jury to find a verdict for the papers.

A TORONADO REPORTED IN TEXAS

Fierce Wind Does Enormous Damage to Property.

SEVERAL LIVES ARE LOST

Villages Are Wiped Out—Two Deaths Reported and Many Injuries—Live Stock Suffers Heavily — Paregorage Blown to Pieces — Antioch Nearly Demolished — Crops Damaged—Narrow Escapes.

Fort Worth, Texas, May 7.—A storm of wind and rain, which was general throughout a considerable area of north Texas, yesterday, and which at some places assumed the proportion of a tornado, according to meagre reports received here, resulted in the loss of at least two lives, the injury of many persons and great damage to property and crops.

Several villages were wiped out, but because of the prostration of both telephone and telegraph wires, details are almost impossible to obtain.

At Deport, 20 miles from Paris, the storm damaged the residence quarter. The Baptist parsonage was blown to pieces, and several other residences were damaged. No one was hurt. Crops where damaged and many fences and barns were blown away.

It is reported that at Halesboro, the wife and child of Andrew Bell were hurt. A terrific wind passed over Sulphur Springs.

West of Sulphur Springs, the wind assumed the proportions of a tornado, creating great property damage.

Antioch, seven miles north of Sulphur Springs, was almost destroyed. This is the tornado belt and most of the homes are provided with storm cellars. To this is due the escape of a number of those in the path of the storm.

The home of William Lemmons was destroyed, entailing a loss of $10,000. Three barns on the place were also destroyed and many head of live stock killed.

A tenant, Brazil, with his wife and seven children, saw the storm coming and ran for the cellar. Brazil was crushed by flying debris and Mrs. Brazil and two of the children were fearfully injured.

ELLEN TERRY AGAIN A BRIDE.

Famous English Actress Weds For the Third Time.

New York, May 7.—Announcement was made yesterday that Ellen Terry, the English actress, is again a bride. She was married to James Carew, her leading man, in Pittsburg, on March 23. Mr. Carew made the announcement. The ceremony was performed by a justice of the peace.

For reasons that have not been disclosed, announcement of the marriage was deferred until the famous English actress was on the sea bound for her native land. She sailed on Saturday, and Mr. Carew, who was obliged to remain in America to look after urgent business, decided, with her consent, of course, to make the fact known forthwith. In years Mr. Carew is much the junior of his bride. He is 35 years old, while she is 59. She has already been married twice. Nevertheless it is understood by all their friends that it was purly a love match, the beginning of which was soon after their first meeting.

Mr. Carew, who is a native of Indiana, is well known on the stage.

BOMBS TO BREAK JAIL.

Thirteen Political Prisoners In Russia Liberated.

St. Petersburg, May 7.—A plot which resulted in the liberation of 13 political prisoners was daringly executed at Alexandrovik Sunday during the Easter services at the prison, where high mass was being celebrated in the prison chapel.

A band of revolutionists entered the building, killed the chief inspector and exploded two bombs.

Under cover of the confusion which followed 13 political prisoners, including several important terrorists, escaped.

Cook Likely Candidate.

Ottawa, May 7.—There are six aspirants for the position of high sheriff rendered vacant by the death of Sheriff Sweetland. The most likely candidate is ex-Mayor Fred Cook of Ottawa, though Mr. C. Berkeley Powell, ex-M.P.P., is considered in some quarters a likely man. There will be a contest between the city and the county. Edward Kidd, V.S., and R. H. McElroy, M.P.P., are the best-known county candidates.

FREE TRADE UPHELD IN ENGLAND

Lloyd George Says Government Cannot Change the Tariff.

BUT MAY SOLVE PROBLEM

President of Board of Trade Replies Premier Deakin and Dr. Jameson—Suggests Appointment of Imperial Travelers — Does Not Approve Shipping Subsidies — Cannot Tax Necessaries of Life.

London, May 7.—(C. A. P.)—At the opening of yesterday's meeting of the Imperial Conference, Premier Jameson expressed the hope that there would be a more sympathetic answer on behalf of the Home Government from President Lloyd George of the Board of Trade, than had been received from Sir Herbert Asquith. He asked to be allowed to move a resolution expressing the opinion that the Government should take into consideration the possibility of granting a preference to all portions of the Empire on the present dutiable articles in the British tariff.

Sir Wilfrid Laurier thought consideration of the proposed resolution should be postponed until the main resolution had been considered.

The president of the Board of Trade said, regarding Premier Jameson's resolution, that the Government could not change their position in reference to the tariff of the United Kingdom. Having referred to Great Britain's position in the world of commerce, he said that in Premier Deakin's resolution the Government were asked to do "what no protectionist country in the world would do, namely, tax the necessaries of either life, or livelihood which we could not produce ourselves, and which the colonies could not supply us with sufficiently for a number of years."

After acknowledging the value of the preference given by the colonies he said the question: "What is Great Britain prepared to do in return?" had its first answer in the statement that Great Britain is the colonies' best customer.

Practical Proposals.

Proceeding to consider proposals of a practical character, President Lloyd George spoke approvingly of Premier Ward's suggestion of an improved and cheapened cable communication, and also proposed the appointment of commercial attaches in the colonies to assist British trade, being the appointment of what he might term Imperial commercial travelers to investigate the trade conditions and requirements of the colonies and to report to the British Board of Trade whence the information would be disseminated confidentially. These travelers would also visit the great industrial centres of this country and ascertain for what produce from the colonies there was a real demand.

As to the third suggestion, the improvement of transport and passenger communications, the policy of merchant shipping subsidies would not benefit shipping. He could not consider any suggestion for a system of subsidies. Once the Government realized that the Empire produced almost everything needed for its inhabitants the problem was how to bring those products to the markets at rates which did not unduly handicap the colonies in competition with foreign countries. The Government had had no concrete scheme submitted.

Can Be Solved.

The problem was complex and difficult, but not beyond the resources of British statesmanship. He did not purpose to submit a definite plan. It would be better that a scheme or schemes be elaborated slowly, and in detail. After thinking out all ramifications on the subject, and when such schemes had been prepared and presented with the full responsibility of the respective Governments behind them, then each Government could examine them and confer further.

In conclusion President Lloyd George replied to Premier Deakin's charge of lack of official sympathy. He denied that the fiscal system was responsible for such distress as existed in Britain.

TURKS IN FIERCE BATTLE.

Yemen Rebels Annihilate Several Battalions of Troops.

London, May 7.—It was announced yesterday afternoon in a special despatch from Constantinople that several battalians of Turkish troops have practically been annihilated during a battle with rebels in the Province of Yemen, Turkish Armenia. The commander-in-chief of the Turkish forces is urgently calling for reinforcements.

Man Found Poisoned.

St. John, May 7.—James B. Hickey, who, with a companion was arrested in a drunken condition by the police Sunday night and lodged in jail, was found dead yesterday morning in his cell. An empty bottle, which had contained prussic acid, was found nearby. This, the police say, was not on his person when he was arrested. There is some suspicion that his companion knows more about the affair than he lets on. The matter is being investigated.

Three May Have Perished.

Quebec, Que., May 7.—About 11 a.m. on Saturday Captain J. B. Mason left Montmagny wharf with Mr. Eugene Thibault and Mr. Ernest Beuchard in a boat to cross to Grosse Isle. The weather was not very bad when they sailed, but a severe snow squall came up with a strong east wind after their departure. The empty boat was found at Crain Isle yesterday morning, and the general belief is the three have perished.

Chauffeurs In Police Court.

Ottawa, May 7.—Seven auto drivers were before the police magistrate for exceeding a speed of ten miles an hour. Six were fined and one remanded to settle a question of distance. This is the result of a campaign by the police for the safety of the public.

PORT HOPE AND G. T. R.

Commission Enquires Into Complaint Made Against the Company.

Port Hope, Ont., May 7.—Grand Trunk aggrandizement was exposed and Port Hope's grievances thereunder fully ventilated before a special session of the railway commission, held here yesterday. Early in the winter the G.T.R., unknown to the Town of Port Hope, made application to the railway commission at Ottawa for permission to fill in by earthen embankments the most of the railway's viaduct, which spans the southern end of the valley, thus segregating the town from the lake and ruining the town industrially and otherwise. The railway commission however, instructed the railway that before the order was given the Town of Port Hope must be consulted, and this was the first intimation the town received of the application.

An indignation mass meeting of the citizens was immediately held, and strong resolutions of protest were passed by the various boards of the town to the railway commission, coupled with a request that the board should meet at Port Hope to hear and determine the question. As a result of these appeals, word was received that the case would be heard in Port Hope.

The commissioners arrived in their special car yesterday morning, as did also the G.T.R. party in their official car.

The commissioners were first escorted over the ground by the mayor and town solicitor, after which the case was taken up in the council chamber, which was crowded to the doors with interested citizens.

At the conclusion of the evidence, the chairman announced that judgment would be reserved pending a report from the commission's engineer, Mr. Mountain, who would make a report to them before a decision was announced.

IAN MACLAREN DEAD.

Succumbed to Blood Poisoning While on Lecturing Tour.

Burlington, Iowa, May 7.—Dr. John Watson (Ian Maclaren), died at 11.15 a. m. yesterday at Mount Pleasant, Iowa. The cause was blood poisoning from tonsilitis. He was taken ill at Mount Pleasant, April 25.

The Rev. John Watson, as Ian Maclaren, gained world-wide distinction as the author of "The Bonnie Brier Bush," the first of a series of sketches of Scottish character, that placed him in the front rank among latter-day authors. The book came out in 1894 and was followed by "Days of Auld Lang Syne," almost equally popular. Other volumes were, "A Doctor of the Old School," and "Carnegie," the latter of which was subject to considerable criticism. He was also the author of several religious and devotional books and theological studies, "The Mind of the Master," being one of the best known of these.

He was born at Manningtree, Essex, Nov. 3, 1850. Educated at Stirling Grammar School; Edinburgh University (M. A.); New College, Edinburgh. He was licensed by the Free Church of Scotland in 1874. Appointed assistant to Dr. Wilson, Barclay Church, Edinburgh, later minister of several Scottish churches, he finally held pulpit of Sefton Park Presbyterian Church, Liverpool, 1880-1906. He was Lyman Beecher lecturer at Yale University in 1896.

Accuses N. B. Legislator.

St. John, N. B., May 7.—Speaking at an Evangelical Alliance meeting yesterday Rev. Thomas Marshall, president of the New Brunswick Temperance Federation, made a violent attack on Premier Pugsley and the local Legislature, accusing them of being in league with the liquor people. The liquor sellers of St. John, he said, had more weight with the Government than the church of God. He believed the Legislature was simply playing with the temperance federation. Although promising to give it his support, Mr. Marshall called on every loyal citizen to vote for the temperance candidate at the next election.

A Thrilling Escape

Chandos Man Tells of His Expertence in New Ontario With Pack of Wolves.

HUNTER TELLS OF AN EXPERIENCE WITH SIX HUNGRY WOLVES

Jas. Cleary, Trapper, From New Ontario, Visiting in the City, Relates Thrilling Tale of Adventure in Northern Wilds—Now Carries a Gun When He Goes A-Hunting.

SILVER GREY FOX SKIN

Thrilling, and singular, in these days, is the story told by a Peterborough visitor of a hair-breadth escape from destruction from a pack of hungry wolves in the wilds of northern Otario, where he has been pursuing the occupation of a trapper of wild game. The visitor is Mr. Jas. Cleary, whose home is in Chandos township, but who at present is visiting his sister, Mrs. Hart, on Elm street. Mr. Clarry usually makes Peterborough his headquarters when north in the north, and yesterday evening, in conversation with an Examiner representative, related the thrilling tale of an experience with half a dozen timber wolves on the last day of January in the vicinity of Twin Lakes, just beyond the height of land.

As stated above Mr. Cleary has been following the occupation of a trapper and few seasons pass by without the accompaniment of experiences which would make most strong nerved men quake with fear, Mr. Cleary had a lengthy line of traps situated along the shore of a lake in the vicinity of an old game-hunter's shack. Every day he was accustomed to go the rounds for the dead game, yet plentiful in the regions beyond the height of land.

A Great Storm

In the waning days of January there was a heavy fall of rain and sleet, making the tramping through the woods somewhat difficult. Mr. Cleary was on this account forced to leave his rifle at home, and carried nothing but a small hatchet in the game bag, and a short stick in his hand, with which he, cut off the lumbs and twigs loaded with ice, which happened to obstruct his path.

For ten days the same conditions prevailed, and upon each day the trapper went the rounds of his traps, minus his gun. Towards the end of January the weather changed somewhat, and on the evening of the 30th of the month an impulse caused him to decide to carry his rifle the next day.

When morning came he made ready for the trip but happened to leave the shack without the weapon, from force of habit. He had just turned the key in the door, when he was reminded of his silent decision the night previous, but not deeming the trouble to retrace his steps necessary, he picked up his stick at the door, and began the journey which very nearly proved to be his last on earth.

Wolves on the Track

Mr. Cleary had trudged along through the forest for a mile or two and was crossing the spongy land on the shore of the lake around which his traps were set, when, suddenly, he espied a pack of wolves on the bluff to his right. At first glance he thought them to be human beings, but he quickly discovered to his alarm that half a dozen large timber wolves were within a few rods of him.

The crust on the snow was not strong enough to hold up the animals, who for days had had little to eat. The foxes and other animals which they were accustomed to feed upon, could very easily keep away from them, as the latter were too light to break through the covering of crust. The hunter took in the situation in an instant. He knew that the famished beasts would devour him if he were discovered. There were no trees within a mile large enough to bear him up, and, to make matters worse, two of the animals started off down the lake in such a direction as to pass within a few yards of him.

He stood stone still beside a small poplar and the leader passed by. But the sharp eye of the other caught sight of his erect form and instantly halted. The trapper believed that it would soon follow its mate, and breaking off a limb, attempted to scare the animals away. He walked within a few yards of him, and threw the stick. The animal merely erected its forepaws as if to ward offf the blows, but never moved an inch.

Forced to Withdraw

Mr. Cleary then realized that he had met his fate and retreated. He knew that if the fatal call were sounded the rest would be upon him in a minute. The wolf followed in his footsteps, and the hunter heard the first note of the shrill call, it was broken off, however, and to

Continued on page 8.

766 RAZOR STROKES TO SHAVE A MAN

"How many strokes of the razor do you think it requires to shave a man?" asked a knight of the razor and shears, to an Examiner reporter to-day. The newspaper man had to pass, and was informed that on Saturday a "victim" had counted, and when the barber had finished the job, he was informed that he had lifted the razor off the customer's face just 766 times during the operation—the word, operation, is used advisedly.

An ordinary good day's work for a barber is fifty shaves, so that it will be seen that in one day's work he makes no less than 38,300 strokes of the razor, all of which the poor customers have to stand for, with as good grace as possible.

YOUNG LADY HAS A NARROW ESCAPE

Was Almost Caught by Shunting Engine on Hunter Street—Horse Turned Back in Time.

GAVE SPECTATORS A SCARE

Miss Connor, the young daughter of Mr. Hugh Connor, Otonabee, had a hairs breadth escape from serious injury yesterday afternoon, that gave spectators of the incident a bad scare.

She was driving west on Hunter street just east of the siding into the Quaker Oats Company's mills when her horse became frightened at a shunting engine and bolted for the crossing which the train was approaching.

The flagman attempted to wave her back, but the horse went on until he stopped immediately in front of the fast moving engine. To the spectators it appeared as if the outfit would be crushed beneath the train. Just in time, however, the horse seemed to throw itself back off the track as the engine swept by just brushing the animal. Mr. Wm. Quinn with commendable presence of mind averted the danger of any further trouble by seizing the horse's head as the animal seemed inclined to make another bolt.

The young lady was, naturally, very badly frightened.

CEMENT WALLS ARE NOW ALMOST COMPLETED

The New Building at the C. G. E. is Nearly Finished in Outside Work.

The work on the new building at the C. G. E. is progressing steadily and to-day presents a very material appearance. The cement walls are almost completed, and seem to be most desirable from the standpoint of strength, and have not been long in the building. In fact the work has been pushed forward with unusual energy, so that on the inside work, as well as on the other parts, there has been uniform progress. Concrete work is being used in building quite extensively, but time alone will prove its true worth in the construction of walls.

The interior iron work is apparently finished, except the work on the electric cranes. One of these is already in position and the motor is being installed, but according to report there is still another crane to be put in place. If the rest of the work is pushed forward as rapidly as the outer walls have been 1908 should see the shop in activity. The building should be of interest to many of our citizens and a view of it from one of the nearby streets will repay anybody. The roofing is almost entirely laid and all the side windows are in position.

CHEAP LOTS.—Why lots in East City should sell at half the price similarly situated lots in West Peterborough bring no one can explain. Twenty fine lots on Dixon and Roger Streets just South East of Alex. Dawson's residence will be offered by PUBLIC AUCTION at 2 30 p. m. on Wednesday May 22nd on the Ground. Mr. Haggart the Auctioneer can give full information. 2-d-106

SOME PUBLIC LIBRARIES IN THE PROVINCE WHICH FURNISH OBJECT LESSONS ON THE INADEQUACY OF PETERBOROUGH'S LIBRARY

Galt has a population of 8,500 according to the last published figures. It has a Library—a cut of the building is shown above—which compares to say the least, favourably with that in Peterborough. Make a mental comparison yourself.

SIX-YEAR-OLD GIRL BADLY BURNED

Secured Handkerchief But She May Lose Her Life

Terrible Accident Which Occurred Last Evening in East City—Little Child of Mr. C. Quinlan the Victim.

SERIOUS INJURY SUSTAINED

To secure her little handkerchief, which fell into the bonfire ground which she was playing yesterday afternoon, the six-year-old daughter of Mr. Cornelius Quinlan was very seriously burned, and, indeed, the chances for her recovery are said to be about equal with those that the injuries will prove fatal.

The little girl was playing about a fire which had been built in the yard, and in her play her handkerchief dropped into the fire, and, of course, commenced to burn.

She quickly gauged it from the flames and tried to extinguish the fire by rubbing the burning handkerchief against her dress, which, in turn, was set afire, and in a moment the little tot was a mass of flames. Her cries soon brought help, however, and, but for this timely assistance, she would undoubtedly been burned to death.

As quickly as possible the flames were smothered, but not before she had been very badly burned. Dr. McNulty was called, and decided that the sufferer should be placed in the hospital, with the result that the Dan Spence ambulance was called into requisition, and the little girl was taken to St. Joseph's Hospital, where it was discovered that her arms and face and stomach were badly burned.

Of course, everything possible is being done for the little one, and hopes are entertained for her recovery, though it is admitted that the situation is very grave.

The injured girl is a particularly bright child and a great favourite with those living near the family, on account of her bright manner and winsomeness, and the accident of which she has been the victim has cast a gloom over the vicinity.

Inquiry of the doctor this afternoon gave the information that the unfortunate little girl was suffering greatly and that she was in serious danger.

NEW PRESIDENT OF COTTAGERS' ASSOCIATION

MR. R. B. ROGERS

Who was last night elected to the Presidency of the Kawartha Park Association

CITY SHOULD PAINT THE BRIDGE

Correspondent Says City is Neglecting the Hunter Street Bridge

A correspondent writes to the Examiner to state that in his opinion the city authorities are neglecting the bridge over the Otonabee River at Hunter street. When it was owned jointly by the County and Town, before the union of Ashburnham and Peterborough, it was painted regularly, and kept in good repair, but, the correspondent states, since that time it has apparently slipped away from the calculations of the City Council altogether. The result is that the iron work on the bridge is rusting, and, at the present rate it will only be a matter of a few years until it will be useless. It is, he points out, a well known fact that unless iron bridges are kept well cleaned and painted, it is only a matter of a short time until they rust and become weakened. He states that since the bridge became the property of the corporation of Peterborough no paint has been applied to the bridge, and he fears that if things go on the way they are now, the bridge will soon have to be replaced, because of the neglect of the City authorities.

IMPROVEMENT BY-LAWS CARRIED

Norwood Ratepayers in Favour of Building Granolithic Walks and Addition to Town Hall

Examiner Special

Norwood, May 7.—Yesterday the ratepayers voted on bylaws to provide $7,000 to construct granolithic walks in the village, and $3,000 for an addition to the town hall. Both bylaws were carried, the vote for the former standing 43 to 24, and for the latter, 51 to 17. The total majority for both improvements was 53.

City Teamsters' Request Was Not Granted By Council And They Are Now On Strike

Asked for $3.75 Per Day But Majority of Aldermen Were Only in Fsvour of $3.50—Warm Discussion in Council Chambers—Teamsters' Anger Aroused.

NO TEAMS WORKING TO-DAY

"We'll know whom to poll our votes for next year," was the parting shot fired at the City Fathers, last night, as some fifteen teamsters left the council chamber in a disgusted, if not angry, manner.

A big deputation was on hand to add force to the demand for $3.75 per day, but the majority of the council were of the opinion that $3.50 was enough, and hence the cause of the trouble.

As a result of the council's action, the city teamsters are all on strike to-day, and the city gravel pit is empty.

In committee of the whole, Ald. Duncan and Wilson moved that providing the teamsters drew a yard and a half of gravel, they be given $3.50 per day.

Ald. McIntyre and Morgan moved an amendment that the teamsters be given $3.75 per day, providing they drew a yard and a half per load.

Ald. Elliott suggested a sliding scale of wages. He considered that when drawing gravel they should be paid more than when hauling mud off the streets.

Ald. Duncan's motion was carried by eight to five. Those voting against it were Ald. Morgan, McIntyre, Elliott, Phelan and Leary.

In the subsequent council meeting, however, Ald. Leary stated that Mr. McWilliams, one of the teamsters, on behalf of the others, had informed him that they would not accept the $3.50 per day proposed. A similar discussion took place as in the committee of the whole, but the report of the committee was carried. This aroused the ire of the men who rose at the command of their leader.

"Well, there will be no teams in the pit to-morrow morning," said Teamster McWilliams as he arose to leave the council chamber. "All hands up, who will not be there!" he added, and every hand went up.

Another man stated the teamsters had more trouble with the city than with the contractors, and with a few parting shots they departed into the night.

Ald. Leary Resigns From Fire, Water And Light Committee

One of the unexpected happenings at the meeting of the city council last night was the tendering of the resignation of Ald. Leary, as a member of the Fire, Water and Light Committee. It had been placed in the city clerk's hands yesterday, and appeared to come as a shock to most of his colleagues in the council when read last night. No reasons were assigned for the action but it was stated in aldermanic circles that he "did not pull very well with the chairman."

Ald. Elliott and Wilson moved that Ald. Leary be asked to re-consider his decision, which was carried.

Ald. Leary stated he was forced to take this step, and that a reconsideration of his decision would make no change.

It was then suggested that if Ald. Leary would not reconsider it that he change with some member of another committee. The affair, however was left over for further consideration, so that up to the present his resignation has not been accepted.

AN ADDRESS ON Y.M.C.A. WORK IN CALCUTTA

To be Delivered on Thursday Night by Rev. H. J. Keith at Y. M. C. A.

Every active member of the Y.M. C.A. and all other men interested, are urged to be present at the meeting on Thursday evening, May 9th, at eight o'clock, when Rev. H. J. Keith will speak in the Y.M.C.A. Hall on association work in Calcutta. Mr. Keith spent the last two years in India as Y.M.C.A. Bible Study Secretary, and he has a most interesting story to tell.

BICYCLE THIRD VEHICLE COMPLETELY SMASHED

Young Couple Alleged to Have Been Star Gazing.

Last night a young couple, who went driving on George street in the north end of the city, met with an unpleasant experience. They were passing by star-gazing, instead of keeping a vigilant eye on the horse, which came too close to a telegraph pole, and smashed the pneumatic tired vehicle almost into molecules.

DOOMED!

Projecting Sign By-law Amended

DISPLAY STANDS PERMITTED

Committee of the Whole Partially Grants the Merchant's Request—Projecting Signs and Display Tables Will be Allowed—Restricted to Dimensions—Merchants Are Jubilant.

The famous projecting sign problem is settled. The bylaw governing the projection of signs which has been in force, but never enforced, for more than a quarter of a century is doomed and the City Fathers have at last agreed to consent—but not in full—to the request for which the merchants so bravely held out, for so long a time. Last night heard the death knell of the aged bylaw and saw its dying stages after a life of some twenty-eight years. But its death was slow. It had not passed away until after a discussion of at least an hour and a half and then a few of the aldermen still held out for it.

Following the same fate, the bylaw governing the erection of display benches is also doomed and to-day the fruit dealers, the florists and others are making merry.

At the Committee of the Whole Council held last night it was decided to amend the bylaw governing projecting signs so that they be allowed 18 inches from the building and not more than 24 inches in height. It was also decided to amend the bylaw pertaining to display stands. These will now be allowed 12 inches from the the windows, and at least 24 inches above the sidewalk.

A deputation from the Retail Merchants was again on hand and Mr. Fair asked that the Council amend the bylaw allowing the signs to project 24 inches instead of 18 inches.

Mr. D. Minicola was present and his request was in regard to the projection from the windows for displaying goods. Mr. Jas. R. Bell and Mr. Geoffrey O'Brien made the same request and asked for a projection at least 18 inches in width.

Mr. R. B. Routley was in accord with what the other merchants had said. He considered the merchants generally tried to observe the law, and did not see why they were disregarded so by the council in the manner that they have been. They tried to do the best they could towards the council and the citizens in general and believed that the merchants should be given a favour if any person received one.

In Committee of the Whole Ald. Elliott opposed the clause in the box bylaw which prohibited the hanging out of goods over the sidewalk so long as they did not hinder pedestrians. He considered that drygoods men should be allowed to hang out coats, etc., for display.

Ald. Morgan moved that the bylaw be amended allowing the merchants to expose their goods provided they did not project more than 12 inches from the building and that they be placed at least 24 inches above the sidewalk.

Ald. Johnston considered that if a change was to be made that the merchants be permitted 16 inches instead of 12 inches from the buildings.

Ald. Morrow suggested that the old bylaw which was passed 25 years ago be left as it is but that it be not enforced any more than in the past.

Ald. Elliott moved, seconded by Ald. McIntyre, that the permission be to allow benches to project 18 inches from the building and 24 inches above the sidewalk.

Ald. Morgan's motion was then seconded by Ald. Tovey.

Ald. Bradburn considered that the bylaw be prepared to refer only to fruit and flower merchants.

Ald. Elliott then withdrew his motion and Ald. Morgan's motion was carried, all the aldermen voting for it with the exception of two or three.

Projecting Signs.

Ald. Elliott moved, in connection with the projecting sign question, that the bylaw be amended, permitting the merchants and others to erect projecting signs not more than 24 inches from the buildings and high enough to be of no hindrance to the pedestrians.

Ald. Morrow moved that the present signs up be not interfered with and that any new signs to be erected be allowed 18 inches wide and 24 inches high. Ald. Bradburn seconded the latter motion.

Ald. Stevenson was opposed to this suggestion and also to the proposed amendment regarding the display space outside the windows. The Mayor was of the same opinion and believed that the council was moving in the wrong direction.

Ald. Morrow's motion was carried and the projecting signs remain.

ONLY FALSE GODS

The arraignment of the Whitney government by Rev. F. G. Robinson in a letter published in the Ottawa Free Press and reprinted in another column is, says that journal, a powerful one. The sentiments expressed by that gentleman are generally shared in by the temperance people in Ontario. If ever any section of the temperance vote had reason to place confidence in Mr. Whitney or his associates that confidence has been largely destroyed by the unwillingness of the government to abolish the iniquitous three-fifths local clause when the result of the local option campaigns last January showed conclusively that it was unfair in its operations.

Mr. Whitney has expressed the conviction that within four years local option will prevail throughout the province. There can be no doubt these remarks were merely only thrown out to deceive as the failure of so many local option campaigns last January because of the unfair three-fifths have given temperance work a greater set-back than it has experienced within a generation.

Yet plainly as the injustice of the local option law must have appeared to the Whitney government we find Hon. Mr. Hanna in the closing days of the legislative session intervene with an amendment to defeat the motion of Hon. Mr. Graham, Opposition leader, that the act be changed to allow a majority of votes to suffice for the carrying of a local option by-law. There are abundand growing indications that the temperance people have nothing to hope for from the Whitney government, and the sooner they turn from false gods the better.

EDITORIAL NOTES.

The great West is bound to keep the lead in some things. We, in Ontario are well accustomed to getting a partial milk supply from our wells but Calgary goes one better and boasts of a man who struck two seams of bituminous coal in a well he was digging—at a depth of about fifty feet.

The Bureau of Labour at Washington has issued some statistics relating to the increased cost of living. At wholesale prices the increase in cost of 258 commodities in 1906 over 1905 was more than 5 1-2 per cent., and compared with 1897 the rise amounts to 30 1-2 per cent.—in other words about one-third. The commodities include food, clothing, implements and ut nsils and building material. No doubt a similar comparison of prices in this country would show a similar result.

There is, says the Orangeville Sun, (Conservative,) no doubt that the Conservative party in Canada, is divided on the question of protection, the younger and more progressive wing of the family standing out for less protection to "infant" industries, a large measure of public ownership of utilities, and a square deal to the people. The older and disappearing element cling to the protection policy of 1879, which has long since outlived its usefulness. The younger and more lively wing must control the destinies of the party and give the people a policy that every man can cheer for.

THE MARKET CLERK REGISTERS COMPLAINT

Farmers Complain Against Blockading Market With Various Implements, Etc.

Mr. McIlmoyle, the market clerk, wishes to announce that in future, if persons leave articles on the market square over night he will tax them one dollar per article. The farmers complain to him of rigs, agricultural implements and such like, being obstacles in their way, and the only thing left for him is to tax the people who leave articles on the square. He would like them to take this as sufficient warning.

Generally Speaking

CONTRIBUTORY to the growth of a city, are numerous conditions —ease of access and egress, involving good transportation facilities, cheap power and other manufacturing conveniences, good shops, good schools, good churches, good streets and good civic administration, with a careful eye to the beauty of the city generally. We have in Peterborough, nearly all these, except the good streets, and the solicitude for the beauty of civic surroundings.

* * *

THE GENERAL neglect of little details is a fruitful source of the undesirable and, as applied to some parts of the public streets and places, unsightly objects and conditions, which meet and offend the eye, and taken collectively, mar the beauty of the city as a whole. Anybody walking or driving about the city, can see instances of this anywhere, and everywhere, almost, and generally due to neglect of the civic authorities. Citizens gladly spend, taken as a whole, thousands of dollars, to beautify their homes, by laying down lawns and boulevards, planting shrubs, trees, etc., thus adding to the general beauty of the city; and in no case can we find the city co-operating by keeping the frontage and the adjacent streets in a condition that would be considered tidy for a country highway.

* * *

IF A LITTLE water-tabling is, by chance, done on a street, the latter is left in a rough, untidy and littered condition. If a boulevard has been built by a private citizen, who thus does his share in making the streets of the city a credit to the city, the city workmen leave it in a disgracefully untidy state by slovenly work. We never can have things better till we devise and adopt some sort of system in dealing with our streets and public places.

* * *

WHEN THE FIRST arrivals came to Peterborough up the river Otonabee, its banks must have been veritable beauty spots. But the demands of commercialism have converted the most of all this beauty into utilitarian ugliness. However, a few stray stretches of river bank have been undisturbed. One of these is the bank forming a beautiful curve on the west side of the expansion of the river, euphonically dubbed "The Goose Pond." This steep bank, or rather, bluff, is grown with beautiful pines, cedars and shrubs. It plunges down to the clear water, and forms the south terminus of Harvey street north. And another very pretty spot, is on the east side of the river, a short distance south from the Smith street bridge. These beauty spots, in their natural condition, are indeed beauty spots. But what do we see? Vandals, residing in the vicinity, have lately taken to dumping fruit tins and other rubbish, over the bank, and making hideous what nature has made beautiful, and would, if only left alone, keep beautiful. If the banks were kept clean they would in spring be the home of the spring flowers, Hepaticas, Spring Beauties, Trilia, etc.

* * *

WHY IS THIS THING allowed? Alderman Elliott cannot get his Garbage Bylaw in force a moment too soon. Where, in the meantime, are the police? Why do they not look after these things? We have got a respectable police force now, efficient, as far as their look-out for ordinary law-breakers is concerned. But they should be charged with preventing such outrages, as that mentioned. By the way, why not make a scouting force of one of the policemen? Provide him with a wheel, and have him make tours of the town, sometimes in plain clothes. He would see many things that he could make right, and perform much useful service. But this at present, seems impracticable. The condition of most of the streets of the city, forbids a policeman to use them with any speed or comfort. Of course he could not ride on the pavement, and set an example of law-breaking which is done a thousand times a day by citizens; and small blame to them. Wheelmen are driven from the streets by their impassable condition, and if they report their offence to the police they are fined. By all means, put a policeman on wheels. Now that the aldermen have got the wheels out of their heads, in respect of the sign bylaw, there will be wheels to spare.

* * *

(ANOTHER THING. What about the sign by law affecting those signs which indicate the residences of citizens — numbering the streets? In the south part of the city, where building is so rapid, where, as Milton would say, houses "rise like exhalations," there the citizens are taking the street numbering into their own hands, with wondrous results. On Boswell avenue, a new street, the numbers seem to be selected like the drawings of a lottery. The number "15" is placed opposite "40," "11" opposite "25," or in some similar irregular form. A double house on Thomas street has "5" on one door and "6" on the next —evidently indicating a rupture of diplomatic relations with their neighbour over the way.

* * *

WHY? How long?

BY-LAW GOVERNING POLL TAX

All Males Between Ages of 21 and 60 Years, Not Otherwise Taxed, Must Pay

PASSED THE CITY COUNCIL

The finances of the city will this year be increased considerably by money coming in, a dollar at a time, as poll tax. This will have to be paid by every man between the ages of 21 and 60 years, providing they have not already been assessed. Last night the city council passed a bylaw governing this, which is as follows:—

The corporation of city of Peterborough by the council thereof enacts:

Every male inhabitant of the city of Peterborough of the age of 21 years and upwards, and under 60 years of age, and not otherwise exempted by law from performing statute labour, who has not been assessed upon the assessment roll of the city of Peterborough, shall be taxed one dollar per year, to be levied and collected by the tax collector.

The said amount shall become due and shall be payable to the said collector at his office in the said city of Peterborough, within two days after demand thereof by the said collector.

The assessors in making their assessment shall serve on each person liable for such poll tax a demand for the payment of same in the form supplied by the tax collector, and shall enter the name of each person so assessed in the assessment roll, together with the date of the service of said demand.

The clerk shall furnish the Collector with the names of those assessed for poll tax in each year and shall enter the said names on the collector's roll made from such assessment roll.

THE DIRECTORS MAY APPEAL

Decision Given in Case of Peterborough Cold Storage Company at Osgoode Hall Yesterday.

Judgment was given yesterday at Osgoode Hall, Toronto, in another Cold Storage Company case. Four former directors of the company are appealing from a decision given on April 27. The Globe to-day, referring to the appeal says:

Re Peterborough Cold Storage Co. —D. O'Connell, Peterborough, for four former directors of the company, moved for leave to appeal to the Court of Appeal from the order on appeal by the Chancellor of 27th April, 1907. R. E. Wood, Peterborough, for the liquidator, contra. Leave given to appeal, and time for putting in security extended for two weeks. The bond for security to be $5,000 and the bond for costs $400.

FOR SALE.

That well built brick house and lot situated at the corner of George and Dublin Streets, also excellent corner lot. This property is to be sold to wind up an estate, and all particulars may be had at 580 George Street. dtf

YOUNG BOY OF EIGHT BROKE NEIGHBOUR'S WINDOW

Nothing Much Doing at the Police Court To-day

Mrs. Richards was again at the Police Court this morning, appearing, as requested, on a remand from last week. It will be remembered that she and her husband were before Magistrate Dumble for creating a disturbance in the house where they were rooming. She was told to leave the premises and report in a week's time. To-day she said she was still in the same place as she could not afford to pay $3 or $10 a month for a house. The case was once more enlarged for one week. As she was leaving the court she said that she did not believe in this 'ere guttin' off, and wanted to know why she was not allowed to go at once and be done with it.

Another case was of a little boy of 8, who had broken a neighbour's window with a ball he was bouncing. This was also enlarged for one a week, when the father will report at the court. Mr. Dumble said that the boy should have been brought along, as he had first lied about the accident in saying that he did not do it. The magistrate said that he believed there was need for a little moral reform.

A BUILDING PERMIT FOR THE ARMOURIES

Contractor Was Granted One Yesterday —Work Has Commenced

The work on the armouries has now started in earnest. Yesterday afternoon the contractor took out a building permit for the armouries and today a staff of men are at work on the ground which was staked out yesterday. Excavation has commenced and it is expected that the work will be rapidly carried forward.

A MOST IMPORTANT ANNOUNCEMENT

Ontario Department of Agriculture Will Offer Prizes for Farmers in Different Parts of the Province.

MONEY CONSIDERATIONS

The secretary of the Peterborough Agricultural Society has received the following letter from J. Lockie Wilson, the superintendent of Agricultural Societies for the Province:

The Ontario Department of Agriculture, desiring to encourage a high standard in crop raising, has decided to offer financial assistance to those agricultural societies throughout the Province which will undertake to carry on a competition in "Standing Fields of Seed Grain" as per rules and regulations enclosed herewith.

The Main Objects

1—To stimulate a greater interest in the growing of first-class seed grain.

2—To encourage the practice of growing seed for next year's crop separate from the main crop, using only the best obtainable seed, sowing it on the cleanest and best prepared land, allowing it to thoroughly ripen, and threshing and storing separately.

3—To obtain pure grain, i.e., free from other varieties, the presence of which can first be detected when the grain is growing.

4—To encourage the use of seed from heavy yielding strains.

5—To promote the sowing of seed from clean, vigorous crops of uniform stand and with bright, stiff straw, in the case of the smaller cereals.

6—To encourage careful and intelligent farming and the production of grain free from weed seeds.

7—To facilitate, through a competition for sweepstakes prizes, which may also be held in addition to the local competitions, the bringing together at the Seed Department, Provincial Winter Fair, Guelph, samples from the winning fields in the various competing societies throughout the Province. This arrangement, if carried out, while serving an important educational purpose, will afford a clue as to where good, clean, productive seed may be had.

It has been thought best, for this year at least, to limit the number of societies who may compete to ten. It will be necessary, therefore, for you, as secretary, to bring the matter before your society at the earliest possible moment and to decide whether or not you, as a society, will make application to compete. The first ten societies making satisfactory applications as per assompanying letter form will be accepted and given notice of the same immediately. We shall then send to the secretaries of each of these societies a number of application forms for the use of the individual competitors, among whom they may be distributed.

In addition to the above contest, a sweepstakes competition may also be held among the winners of the first prizes in each of the agricultural societies throughout the Province, and for each class of crops. Further notice of this will be given later, should satisfactory arrangements be made.

The plan, as outlined, is a comprehensive one, requiring the hearty co-operation of all concerned to ensure success. We therefore trust that you will do all in your power to promote the movement.

Faithfully yours,

J. LOCKIE WILSON.

Competitions shall be limited to two crops, to be decided upon by the society. It is desired that the society shall decide upon one or two crops for competition that are of most importance to the farmers of the district. Every field entered for competition must consist of not less than five acres.

The following crops are suggested for competition: Spring Wheat, White Oats, Barley, Dent Corn, Flint Corn, Alsike Clover, Red Clover and Timothy.

Competitors

Competition shall be limited to members of the society, and the fields entered for competition must be not more than fifteen miles from the headquarters of the society. Competitors shall be allowed to enter in the competition for only one society. Competitors shall be allowed to make only one entry in each class of crop competition. The annual membership fee in any society shall be sufficient for entry in this competition.

Prizes

Where societies limit their competition to one kind of crop, the prizes shall not be less than the following: 1st, $25; 2nd, $20; 3rd, $15; 4th, $10. In the event of there being not less than ten entries in any society in this competition, the Department will grant $70 to cover the above prizes.

Where societies have competition in two kinds of crop, the prizes shall not be less than the following: 1st, $20; 2nd, $15; 3rd, $10; 4th, $5. In the event of there not being less than ten entries in each competition, the Department will grant the sum of $160 to pay above prizes.

As these special grants will be limited to ten agricultural societies, it is important that the Board of Directors to whom this circular is sent should consider the matter at once. The grants will be limited to the ten societies first filing application with the Department, and agreeing to the terms of this competition.

Judging

All judging must be done by judges approved by the Superintendent of Agricultural Societies. Arrangements have been made whereby expert judges will be furnished by the Seed Division of the Dominion Department of Agriculture.

NORWOOD MUSIC LOVERS ENJOYED CONCERT

Register Has Some Warm Words of Praise for Its Capability.

Referring to the concert recently given in Norwood by the choir of St. Paul's church, the Register says: "The choir of St. Paul's church, Peterborough, under the capable leadership of Mr. J. Crane, gave a delightful sacred concert in the Presbyterian church here on Friday evening. This was not the first occasion upon which this excellent musical organization has visited our village, and many who were privileged to hear them on the occasion of their former visit anticipated a very pleasing programme and were not disappointed. Judging from the hearty applause which greeted each number all present thoroughly appreciated the excellent manner in which the selections were given. The choir is composed of about forty-five members and includes no less than four former members of this village."

THE EPWORTH LEAGUE ELECTED OFFICERS

Semi-Annual Meeting Was Held Last Night, When the Officers for the Year Were Selected

The semi-annual meeting of the Charlotte Street Epworth League was held last evening and was largely attended. Rev. R. H. Manning occupied the chair and opened the meeting. The missionary returns for the year were made last evening. The League contributed $102 to this cause.

The election of officers resulted as follows:

President—Mr. G. E. Hornsby.
First Vice-President — Mr. S. A. Armstrong.
Second Vice-President — Miss B. Sanderson.
Third Vice-President — Miss F. Manning.
Fourth Vice-President — Miss S. Lee.
Secretary—Mr. J. Sanderson.
Corresponding Secretary — Miss Alma Frewde.
Treasurer—Mr. Anderson.
Pianiste—Mrs. A. L. Tremeer.

THE LATEST NEWS OF INTEREST AT GREYSTOCK

Examiner Special.

Greystock, May 6. — The rain and snow storm of the past week put us back in the seeding operations, but the farmers will be busy at it again this week.

Mr. Elmer Wood is again able to be out doors and is improving rapidly.

Mr. John Devell was the guest of Mr. William Rutherford last Wednesday.

Mr. and Mrs. Weaver drove to Millbrook last Wednesday on a visit.

Mr. Sid Rutherford shipped a fine bunch of fat cattle Wednesday of last week.

There were no services held in either of the churches here on Sunday on account of the quarterly meeting which was conducted at Keene in the morning.

Mrs. Fox of Peterborough, is spending a few days visiting friends here.

Mr. William Rutherford is improving his farm by building some two or three hundred yards of new Workman fence and placing several new gates.

Mr. Norman Brankenridge was in our burg last week on business.

Miss Mary Weaver of Hiawatha, is visiting at Mr. J. Robinson's this week.

Mr. Joseph Lynch of Noisy Corners, was a guest of Mr. J. Fitzgerald on Sunday.

Some of the farmers will finish seeding this week providing the weather is in their favour.

Mr. J. Smithson has lost another of his horses recently, being the second one this spring, through accidents.

Mr. William Rutherford has sold his bay driver to Dickson, the horse buyer recently, for a good sum. This will likely be his last deal for the season.

Blood Poison

Speedily and permanently cured by INDIAN SALVE, the greatest remedy ever discovered for BLOOD POISON, GANGRENE, POISONOUS BITES, CANCER, PIMPLES, etc.

OBITUARY.

ANNIE HAYDEN

At an early hour this morning Annie Hayden, relict of the late William Kerr, passed away at her residence, Mark street, East City. Deceased was an early settler in Canada, coming to this country in childhood.

The late Mrs. Kerr was 84 years of age. She was born in Newcastle, Eng., and in the year 1835 came to Canada, settling in Cobourg. She was married 12 years later to Mr. Kerr at Cold Springs. Her husband predeceased her about five years ago. Eighteen years have passed since the family first moved to this city, where they have since lived. The deceased was highly esteemed by the many citizens with whom she was acquainted.

The surviving children are Mr. John Kerr, Peterborough; Messrs. James and William of Cobourg, Ed. of Toronto; Mrs. R. Carter of Otonabee, and Miss Annie at home.

The funeral will take place from the family residence, 434 Mark street, East City, on Thursday, May 9, at 3 o'clock, and proceed to Little Lake Cemetery.

Friends are kindly requested not to send flowers.

Continued from 7th page.

this he searches his life. The others did not heard the sound and he quickly donned his snowshoes and made his way from the scene to safety.

On the afternoon of the same day Mr. Cleary returned with his rifle and found that one of his traps had been robbed of a fox, which had been completely devoured. He also found two dead wolves, that had discovered some fox bait, and he brought down a third wolf with his rifle. Before another day had passed he had captured the other three and their skins were among the furs he brought from camp.

Silver Grey Fox

Mr. Cleary brought to Peterborough with him a silver grey fox skin, one of the rarest prizes of the hunter, which is now at Mr. Thos. Brightman's tannery, on Aylmer street. He trapped it near the Temiskaming and Northern Ontario Railway. The chief fur bearing animals in those regions are the martin, lynx, fisher, mink, fox and wolf.

On Thursday Mr. Cleary leaves the city for Charlton, New Ontario, where he will go prospecting for the summer, until the trapping season again returns.

Child Labor Bill Passed.

Albany, N. Y., May 7.—Governor Hughes has approved the Page Child Labor Bill, desired by the child labor committees and the Consumers' League and embodying recommendations made in his own first message to the Legislature.

It provides that no minor under 16 years of age shall be employed or permitted to work in any factory in this state before 8 a.m. or after 5 p.m., or more than eight hours in any one day.

The act will not take effect until Jan. 1, 1908.

Where Does Town Belong?

Lloydminster, May 7.—This town is half in Alberta and half in Saskatchewan. There are those who favor an alliance with Alberta, others prefer the sister province. All agree that the town should join either one province or the other. A vote of the citizens will be taken on this question and a deputation will be sent to Ottawa.

Canadians Honored.

Montreal, May 7.—A cablegram states that Premier Gouin has been made an officer of the Legion of Honor, and Judge Lancelot, his traveling companion, an officer of public instruction by the French Government.

IN THROES OF STRIKE.

San Francisco Tied Up—Cars Stopped —'Phone Girls Out.

San Francisco, May 7.—San Francisco is again in the throes of a bitter strike. For the third time since the disastrous fire a year ago, San Francisco is walking because of the declaration of a strike on all the street car lines in the city by the car men's union. Added to this tie-up is the strike of the telephone girls and of 8,000 iron workers. Without transportation facilities and with a crippled and inadequate telephone service, business is greatly handicapped.

The car men have organized an extensive picket detail at each car barn. The pickets are changed every four hours, and, according to President Cornelius, have been instructed to permit no violence. Large crowds surrounded the car barns at Tusk and Fillmore street, where 100 strike-breakers are lodged. Beyond hooting and jeering no overt act was attempted. Heavy shutters and iron screens were placed at the windows at all the barns and car houses. At the car barn at Hays and Central avenue, where is situated the company's principal commissary department, intense activity prevailed to prepare for the housing and feeding of a large number of strike breakers.

Notices have been posted in all the car barns that all employes will be expected to report for duty on Tuesday morning or consider themselves discharged.

The situation so far has been peaceful, and there are no indications of impending trouble. At the same time every preparation is being made by the state and civic authorities to prevent any breach of the peace.

After an exciting meeting lasting four hours the electrical workers' union of lineman No. 151 Sunday failed to reach an agreement on a proposition to strike in sympathy with the telephone girls. A compromise was effected whereby definite action was postponed until the executive committee shall have conferred with the officials of the telephone company, when the company will be informed that unless the union of the girls is recognized the linemen and electricians will walk out. The company is giving a little better service than it was able to do during the first days of the strike, and the assertion is made that it will be able to hold its position until the striking operators return to their posts.

MET DEATH IN FIRE.

Couple, of Dissolute Habits, Perish After Night's Carousal.

Palermo, May 7.—Two persons were burned to death near here during Saturday night, the victims being James Clark (white) and Fannie Jones (colored), who had been living together.

There had been a carousal. Thomas Jones, who had been a visitor, says he heard the woman cry out the house was on fire. He crawled out and then apparently sank into a drunken stupor. There is no suspicion of foul play.

It is stated that the shack, the negress and the furniture had been sold to Clark by the man who had been previously living with her for $100.

SHOT THROUGH THE HEART.

Lad Killed While At Target Practice With Friend.

Creemore, Ont., May 7.—Frank Honsberber, 17 years of age, and son of George Honsberger of Banda, was accidentally shot through the heart at noon yesterday, while practising at target shooting with a young Englishman, an employe of his father. It is not known exactly how the accident occurred, as the Englishman was too much overcome to give a clear account of it. But it is presumed that Honsberger, who was acting as marker, accidentally stepped in front of the target, or that the gun was prematurely discharged.

TOTS BURNED TO DEATH.

Mother Left Them Alone After Building Big Fire.

Sault Ste. Marie, May 7.—A special from Blind River says that three children were burned to death in a house there yesterday while the mother was away. The oldest was five years, the youngest six months. The mother, a widow named Dominique, went to a neighbor's after building a big fire in the stove, leaving the children in the house. In a short time the place was discovered on fire by neighbors, but they were unable to rescue the little ones.

Two Hour Shock Recorded.

London, May 7.—Prof. John Milne, seismologist, from the Isle of Wight, and Prof. Belar, an authority on seismic disturbances, at Lasbach, Austria, report to The Daily Mail records of an earthquake shock of two hours' duration on Saturday morning. The distance is given as being six and eight thousand miles from the points of record.

Eighteen Were Killed.

Johannesburg, Transvaal, May 7.—An explosion occurred yesterday at the Modder-Fontein Gold Mine, three whites and fifteen natives being killed.

MARKET REPORTS.

Liverpool Wheat Futures Closed Lower—Chicago Higher—Live Stock Markets—The Latest Quotations.

Monday Evening, May 6.

NEW YORK, May 6.—Butter, firm, receipts, 4374. Street price, extra creamery, 27c to 27½c. Official prices, creamery, common to extra, 21c to 27c; held, common to finest, 22c to 25c; state dairy, common to fancy, 20c to 26c; renovated, common to extra, 18c to 25½c; western factory, common to finest, 19c to 22c; western imitation creamery, common to finest, 19c to 22c.

Cheese, steady; receipts, 623. State, full cream, small colored and white, September fancy, 13c; do., Oct. fancy, 14c to 14½c; good to prime, 13c to 13½c; do. winter made, average best, 12½c; do., large September fancy, 13c; do., October best, 13c to 14½c; do., good to prime, 12¾c to 13¼c; inferior, 11½c to 12¼c; skims, 1½c to 10½c.

Eggs—Firm; receipts, 25,869. State, Pennsylvania and nearby, fancy selected, white, 24c; do., choice, 23c; brown and mixed, extra, 19½c to 20c; firsts to extra firsts, 18c to 18½c; western, regular packing, firsts, 18c (official price 17½c to 18c); seconds, 17c to 17½c; Kentucky and Tennessee, 15½c to 17½c.

CATTLE MARKETS.

Cables Steady—Hogs Are Lower at Buffalo.

LONDON, May 6.—Liverpool and London cables are firmer at 12½c to 12½c per lb., dressed weight; refrigerator beef is quoted at 8c per lb.

Toronto Junction Live Stock.

TORONTO JUNCTION, May 6.—Receipts of live stock at the Union Stock Yards were 70 car loads, composed of 1544 cattle, 15 sheep and 58 calves.

Exporters.

Prices ranged from $5 to $5.40, the bulk selling around $5.15 to $5.25. Export bulls sold at $4 to $4.30 for best quality, and $3.85 to $3.90 for light.

Butchers.

The best quality of butchers' cattle sold at $4.80 to $5.25; medium, $4.75 to $4.80; light, mixed, and common, $4.40 to $4.65; cows, $3.50 to $4.65 per cwt.

Milch Cows.

A few milch cows sold at a wide range, $35 to $70, but only one brought the latter price.

Sheep and Lambs.

Export ewes are worth from $5 to $6.50; rams, $5 to $5.50; yearling lambs, $7 to $8 per cwt.; spring lambs, $4 to $8 each.

Veal Calves.

Prices unchanged at $3 to $8.50 per cwt.

Hogs.

H. P. Kennedy reports $6.50 per cwt. for selects. And $6.25 for lights.

Gunn Bros., Limited, report $6.50 for selects and $6.25 for lights.

Montreal Live Stock.

MONTREAL, May 6.—(Special.)—At the Montreal Stock Yards' week-end market the receipts of live stock for the week ending May 4 were 2260 cattle, 141 sheep, 3760 hogs and 2000 calves. Among the offerings for local trade to-day were 1000 cattle, 250 sheep, 2125 hogs, and 253 calves. There was no important change in the condition of the market for cattle, prices being well maintained, as supplies were not in excess of requirements and the average quality of the stock was generally good. A feature of the trade was the improved demand from exporters, owing to the fact that cable advices from Liverpool on Saturday were stronger and noted a further advance in prices of ½c per lb., as compared with a week ago. In consequence local shippers showed more disposition to operate and they paid 5¼c to 5⅜c per lb. for a few good to choice loads. Another feature of the market was the demand from Quebec butchers for bulls and they bought three loads at prices ranging from 4¼c to 4½c per lb. In addition to the above there was a large attendance of local buyers and as they all wanted some beef at about the same time there was a—Choice steers sold at 5¼c to 5¼c, and at 5c to 5¼c, fair at 4¾c to 4¾c, and lower grades at 3½c to 4¼c per lb. Although cattle arrived on Saturday from some of the leading foreign markets on Canadian hacon were stronger and noted an advance in prices of 1c to 2c per cwt., as compared with a week ago, yet this fact has no influence on the local hog situation, as supplies were fairly large, but there was a good demand from local dealers and packers and an active trade was done, with sales of selected lots at $7 to $7.15 per cwt., weighed off the cars. Receipts of sheep and lambs are increasing some, but not sufficient to affect prices any, as they were well maintained under a good demand for all offerings. Sheep sold at 5¼c to 6c, and lambs at 6¼c to 7c per lb., while spring lambs brought $4 to $8 each. The demand for calves was brisk and an active trade resulted at prices ranging from $2 to $6 each, as to size and quality.

East Buffalo Cattle Market.

EAST BUFFALO, May 6.—Cattle—Receipts, 4700 head; slow and barely steady; prime steers, $6.60 to $6; shipping, $5.25 to $5.60; butchers', $4.75 to $5.25; heifers, $3 to $5.25; cows, $3.50 to $4.60; bulls, $3.50 to $5; stockers and feeders, $3.75 to $4.50; stock heifers, $3 to $3.75; fresh cows and springers, steady to $2 higher; $20 to $60.

Veals—Receipts, 2900 head; active and steady, $5 to $6.75.

Hogs—Receipts, 17,000 head; active and 5c to 10c lower; heavy, $6.60 to $6.80; mixed and yorkers, $6.80; pigs, $6.80 to $6.85; roughs, $5.75 to $6; stags, $4.50 to $5.

Sheep and Lambs—Receipts, 35,000 head; slow and lower; lambs, $6.50 to $7.80; yearlings, $6.75 to $6.85; wethers, $6 to $6.10; ewes, $5 to $5.90; sheep, mixed, $3 to $5.75.

Chicago Live Stock.

CHICAGO, May 6.—Cattle—Receipts, about 22,000; strong to 10c to 15c higher; common to prime steers, $4 to $5.60; cows, $2.25 to $4.50; heifers, $2 to $4.75; bulls, $2.50 to $4.80; calves, $2.75 to $7.75; stockers and feeders, $3 to $5.25.

Hogs—Receipts, 42,000; 5c lower; choice to prime heavy, $6.65 to $6.67½; medium to good heavy, $6.40 to $6.62½; butchers' weights, $6.42½ to $6.67½; good to prime mixed, $6.40 to $6.42½; packing, $6.20 to $6.40; pigs, $5.80 to $6.60; bulk of sales, $6.42½ to $6.47½.

Sheep—Receipts, 20,000; steady; sheep, $4.25 to $6.25; yearlings, $5 to $6.65; lambs, $5.50 to $8.75.

FRANCE AND JAPAN.

Both Powers Trying to Come to An Understanding.

Paris, May 7.—Official confirmation has been obtained by the Associated Press of the report that negotiations are in progress between France and Japan, looking to an understanding mutually guaranteeing the political and commercial interests of the two powers in the far east. The conferences on the subject have been going on in Tokio, and are proceeding harmoniously, but some time will probably elapse before they are concluded. France has recognized her possessions in Indo-China and Siam, as well as her commercial interests in the far east, would be vulnerable in the event of war, and deemed it wise to conclude an arrangement with Japan, which is willing to guarantee French interests in return for the recognition of the Japanese claims in Korea and Formosa.

British Squadron Sails.

Norfolk, Va., May 7.—The British cruiser squadron, passed out of the Virginia Capes Sunday. The squadron, which consists of the Argyll, Good Hope, Roxburgh, and Hampshire, will visit Bermuda, Halifax and Quebec before returning to England. They signalled departing greetings to their American hosts before weighing anchor.

NO PRISONERS TO TRY.

"Malden" Assize At Toronto—London Election Case Goes Over.

Toronto, May 7.—There was not a single prisoner to be tried at the assizes, which opened yesterday, before Mr. Justice Magee, and the panel of over 60 petit jurors was dismissed.

Two prisoners will be disposed of at the sessions next week.

"It's an unusual thing and may happen oftener," said the judge, in commenting on the circumstance.

The London election case stands over. Judgment was reserved on the motion argued at Osgoode Hall yesterday morning to change the venue to London.

The tack combine case also stands. E. A. DuVernet for the Attorney-General, was granted an adjournment till a week from Tuesday, as judgment had not yet been given in the prosecution of the plumbers' supply dealers by Chief Justice Mulock.

Fernie Miners At Work.

Fernie, May 7.—Mackenzie King has just stated that the agreement embodying a new wage schedule for the mine workers has been signed by the miners and officials, and everything is now closed. The men are back to work and the strike is over.

Wallaceburg, May 7.—John Tulloch, a Sombra Township farmer, living near Baober Postoffice, about six miles from here, was fatally injured in a runaway on Saturday last.

C. G. E. ANGLERS SAY FAREWELL

Mr. R. H. Shepherd Presented With Gold Locket by His Fellow Anglers

JOLLY BUNCH OF SPORTS

That Mr. H. R. Shepherd has made many friends during his residence in this city has been substantially proven by the testimonies of good-will with which he has been presented during the past few days. Of the many societies with which he was connected, perhaps he was most widely known as a staunch member of the C. G. E. Angling Club, from its institution some years ago. At this time of departure from the city he occupied the position of secretary-treasurer, and, at a meeting of the Club held in the T. A. S. parlours last night, he handed in his resignation and was presented with an address and a beautiful gold locket, bearing the inscription: "Presented to Mr. R. H. Shepherd by C. G. E. Angling Club, May, 1907."

Presentation.

There was a large attendance at the meeting, with Commodore J. G. M. Wilson officiating as chairman. He called upon Rear-Admiral R. M. Roy to read the address to Mr. Shepherd, and Mr. John Brown to make the presentation. The address was couched in the following words:

C. G. E. Angling Club, affiliated with Ontario Fish and Game Protective Association.

To Mr. R. H. Shepherd—

Mr. Fisherman,—You are about to break ties that no doubt cause you a great deal of sorrow and regret, and we, on our part, feel this as keenly as you do.

Since the days of old, when you went to the brook in bare feet, and with bent pin, you have been a good sportsman, always living up to the "Unwritten Law" of good fellowship and friendship.

To such a comrade we do not like to say farewell, but as you have decided, in the interests of your health to leave Peterborough, we wish you God-speed and all prosperity, the greatest of which is the renewal of good health.

If ever chance you are in Peterborough again there will always be another plate at our camp table and a spare blanket in our tent. Again wishing you God-speed.

Signed:

Rear Admiral—R. M. Roy.
Hon. Member—Jos. Painter.
Commodore—J. G. M. Wilson.
Captain—John Brown.
Official Liar—Ald. Geo. Tovey.
Bard—R. E. Layfield.
Chef—John Trombley.
Cabin Boy—P. L. Allaton.
Scullion—Leo Dineen.
Fishermen—A W Patterson, F A Shannon, J J McCabe, T H Glover, J B Cunningham, F A Taylor, D Carlisle, H Latimer, Walter Greenwood, T J Carson, Percy Blyshe, Percy White, Fred Howson.

Peterborough, Ont., May 6.

The Reply.

Mr. Shepherd replied in an appropriate manner. He recalled incidents that had occurred on many fishing expeditions in the past which had cemented mutual friendships. Of the Angling Club, words failed him, he said, to give voice to his true feelings. The anglers were gentlemen, true sports and good friends, and he would always remember the times that had been spent on the Otonabee waters. His declining health demanded some prompt measures, and it was not on the spur of the moment that he had decided to sever his connections with the C. G. E. and the city. He hoped to return again; God alone controlled that; and, on such occasions, if possible, he would enjoy another outing with the jolly fishermen of the C. G. E. Angling Club.

THE STEAM ENGINEER'S CERTIFICATES

Important Regulation Passed by the Ontario Legislature Recently

The Legislature of Ontario at its recent session passed an act respecting stationary engineers in which engineers and employers are alike interested. Briefly stated, its provisions are that, after the 1st day of July, 1908, no engineer will be allowed to operate or have charge of a stationary steam plant of 50 horse power or upwards who does not hold a Government certificate. There are three classes of engineers to whom certificates will be granted without the applicant having to undergo an examination, first, those who on the 30th of April, 1907, (the date on which the Act was passed) held certificates from an association of stationary engineers in Ontario, or a marine or locomotive engineer's certificate; second, engineers who on the above date were in charge of a plant of 25 horse power or over in Ontario; third, engineers who had at any time previous to the passing of this Act, not less than two years' experience in the operation of such a plant in the Province, those who cannot qualify as above will have to pass the examinations which will hereafter be prescribed by the Board of Examiners.

Those interested may obtain a copy of the Act and application forms for certificates by addressing The Secretary, Department of Agriculture, Toronto.

Congregational Re-union Of St. Andrew's Church

Seventy-Second Anniversary Services Brought to a Close ---Helpful Addresses and Enjoyable Musical Programme Rendered

The seventy-seventh anniversary services in connection with St. Andrew's Church were brought to a close last night, when the annual congregational re-union was held in the church. There was a large attendance of the members of the congregation; and the gathering was one that will do much to promote esprit de corps in the congregation. Helpful addresses were delivered by Rev. Dr. Marsh of Springville, Rev. H. J. Keith of Knox Church, and the pastor, and a most enjoyable musical programme was rendered. The pastor, Rev. J. G. Potter, was in the chair. The programme was opened with the singing of a hymn and a prayer by the pastor.

An anthem was sung in an effective manner by the choir, Mr. F. G. Freeland taking the solo in a manner that displayed his powerful baritone to great advantage.

Growth of the Church

The pastor referred to the early history of the church when St. Andrew's was on the boundary of the town, whereas now it is in the centre of the city. In ten years 450 members have been received into Communion in St. Andrew's, and the present membership was about 525. He spoke of the need for the people of the church to become acquainted with each other, especially in Peterborough, where the population was growing so fast. The people of St. Andrew's should feel gratified at the work done and should feel that they were integral parts of the church.

Miss Mae Edwards sang the old Scotch song, "Mary of Argyle," in a delightfully sweet soprano, that gives great promise for the future of this young vocalist.

Rev. Dr. Marsh's Address

Rev. Dr. Marsh of Springville gave an inspiring address, and his remarks were listened to with close attention. He referred to the history of St. Andrew's, saying that the present edifice was a credit to those people who had built it. It was an honour, he said, to address the congregation. The members of the congregation were doing the work that had long been faithfully done.

To the congregation he gave the advice not to be afraid to work; it was a noble, a glorious thing to work. No man could carry out the object for which he was created unless he was a worker. There was nothing impossible; all things could be overcome, with God's help. In this connection, he referred to the scientific improvements being made, which, he said, he thought had only begun. They were on the threshold of progress in connection with church work.

In conclusion, he gave some well-chosen words of advice to the congregation, urging them to do all in their power to assist their pastor.

Mr. Herb. Morphet rendered a solo, "A Dream of Paradise," in a manner that fully demonstrated the fine qualities of his clear and powerful tenor.

A solo by Mrs. Davidson was given in excellent voice and with much expression, and was greatly enjoyed by the gathering.

Rev. Mr. Keith

Rev. H. J. Keith of Knox Church, in addressing the congregation, stated that he felt it was an honour to be present. On behalf of Knox Church, he extended congratulations to St. Andrew's on their anniversary. An anniversary, he said, should be looked upon in the light of stock-taking; not, however, with a view of resting easily on their oars. He trusted that the time could soon come when the people of Knox Church would have an opportunity of inviting St. Andrew's representative to attend a similar gathering at their church.

Mr. Freeland rendered a solo, "Hosanna in Excelsis," most effectively, his resonant baritone bringing out the full beauty of the selection.

Miss Clara Belleghem, in her usual finished manner and splendid voice, was enjoyably heard in a solo.

In conclusion, the pastor expressed the thanks of the people of St. Andrew's to those who had taken part in the musical programme, to Rev. Dr. Marsh and Rev. Mr. Keith for their helpful words, and to the choir for the assistance rendered.

During the evening the pastor regretted the absence of Rev. Mr. McDonald, who, it had been expected, would address the gathering on the Forward Movement. Engagements in the United States had, however, made it impossible for him to be present in Peterborough.

REPORT ON ROMAINE STREET SEWER

City Engineer Reports on the Cost of its Construction and Difficulties Encountered

WORKMEN NOT TO BLAME

At the meeting of the Committee of the Whole last night the following report was presented by the City Engineer on the work and cost of the much talked of Romaine street sewer:—

To His Worship the Mayor and City Council:

Gentlemen,—As instructed I beg to report herewith on the cost of constructing Romaine and Aylmer street sewer from Lock street to the King Edward School.

Main Sewer.

Wages, including foreman	$1,197 92
1,432 ft. 9-inch pipe at 20 9-10 cents	299 29
64 3-foot junction at 1.07	68 48
1 3-foot junction at 86 0-10	3 40
19 1-2 bbls. cement at $1.90	37 05
6,200 bricks at $7.25	44 95
5 manhole tops at $10.00	50.00
Lumber, tools, etc.,	77 42
	$1,778 57

Total length 9-inch sewer, 1,032 ft. at $1.09 per foot.

9 connections, wages	$ 68 14
6 inch pipe and cement	33 11
	$101 25

Work on the sewer begun Oct. 12, 1906, and was completed Jan. 9, 1907. Great difficulties were encountered from beginning to the end of the work, with water, sand and stormy weather. It was found impossible to keep the water down enough to lay pipe and make joints without more or less sand and slime getting into them, although every precaution was taken to avoid it. Water was found at a level of 20 inches above the grade line of sewer and required constant pumping during working hours and each morning on commencing work it required from 2 to 4 hours to reduce the water to working level before actual operations could begin. The wet and uncertain bottom required a much greater quantity of cement to ensure a close joint than would be required under ordinary conditions. Reports have been circulated that the joints were not made close, which were manifestly untrue as is indicated by the small quantity of water running through the sections now cleared of sand, while the water outside is standing at a level of from 20 to 24 inches higher. The sewer consists of 5 sections of from 275 to 350 feet each. There is a total fall of 4 feet in the whole length. At a point on Romaine street about the centre of the 4th section a belt of clay running north and south was met with which holds back the water, west of it, at a higher level. This area embraces the 5th section including the ground on which the school stands and accounts for the higher level of water at the west end than at the east, and for the difficulty of keeping water out of the basement of the school. On April 4th, Mr. W. H. White began to remove the sand from the sewer. This work is necessarily very slow as only one man can work below and one or two men on top at a time. Each section has to be thoroughly cleaned and plugged before the next is started. Three sections are now done and the 4th almost done. The fifth and last which is the longest will probably be the most difficult to clean on account of the connection from the school having been put in by men employed by the School Board after the sewer was completed.

The total cost of cleaning to date is $120.

With regard to injury to hose which was in almost constant use during construction and afterwards in cleaning, every precaution was taken to prevent injury and it is in as good condition as could be expected.

T. A. S. HAY,
City Engineer.

ANNUAL MEETING OF GEORGE STREET LEAGUE

Officers Were Elected Last Night—Mr. B. Cain, the New President

The annual meeting of the George street Epworth League was held last night when the following officers were elected:—

Hon. President—Dr. Crothers.
President—Mr. B. Cain.

Music and Drama

AS TOLD IN THE HILLS

A clever bit of comedy character acting is done by J. McIntosh Todd, "Gent of the Road," who has a part in "As Told in the Hills," which will appear at the Grand opera house on Saturday, May 11th, matinee and night. In addition to being entirely new in plot and development as well as character, the play is one of the strongest from a dramatic standpoint, that has been produced this season. The original company will be seen in the production. The play is artistically staged, special attention having been given to the details of the scenery, showing the Indian fight on the prairies, and scenes on the Arkansas farm with its picturesque rural surroundings that are in keeping with the general tone of the play.

FIRE DRILL HAS BEEN POSTPONED

Will Not Take Place Until the New Fire Hall is Ready

The drill of the fire brigade, which was to have taken place to-night, has been indefinitely postponed owing to the fact that the approaches to the new firehall are not yet completed. It is the intention that when the new fire engine is taken out of the old hall, it will not be brought back there owing to the bad condition of the floor, but will be taken at once to the new station. It was therefore decided to postpone the drill to-night until the new hall is in condition to bring the engine there.

ROLLER HOCKEY TEAM WILL BE ORGANIZED

A General Practice is Called For Friday Night Next.

An enthusiastic meeting was held at the Charlotte street roller rink last night at the conclusion of the skating, when it was decided to form a roller skating hockey team. The game has proved very popular in Toronto and other places where it has been introduced, and, with the material available in Peterborough, a strong team could be formed and games arranged with outside places. It was decided to call a general practice for Friday night after the skating, when a club will be organized and officers elected.

Prices; nearly all $20.00, some $15.00 and $25.00. *Annex Price*..... **$5.00**

Cressman's

Cottagers' Association Makes Many Requests

New Kawartha Park Association Wants New Wharfs Boat Service, Daily Mail, New Roads and Other Things.

OFFICERS WERE ELECTED

The Kawartha Park Cottagers' Association is the name adopted by the newest association formed among the summer residents at the Lakes. At a meeting held last night in the Y.M.C.A., the association was organized, and officers elected and elaborate plans for the future laid. The new organization starts out with excellent prospects for success and numbers in its membership all the cottagers on that particular section of Clear Lake.

Those present at the meeting last night were, Messrs. R. B. Rogers, E. A. Peck, W. F. Nelson, C. N. Brown, R. E. Harding, G. H. Williamson, H. Stock, W. Pringle and F. H. Dobbin.

The election of officers was held and resulted as follows:—

President—R. B. Rogers.
Vice-President—E. A. Peck.
Secretary-Treasurer—Miss Dobbin.
Executive Committee—W. F. Nelson, G. H. Williamson and H. W. Stock.

A resolution was passed appointing a committee to interview Mr. R. H. Hall, M.P., with a view of securing wharves at convenient points on Clear Lake, for the benefit of the increasing number of cottagers on Clear Lake. Efforts will also be made to secure a daily mail service. At the present time the cottagers have to go to Stony Lake Post Office for their mail, but in the future it is hoped that an office will be established at Clear Lake.

A committee composed of Messrs. Rogers, Peak and Harding was appointed to interview the Dickson Company with a view of getting a road at the rear of the lots in the Park.

The President appointed a committee to arrange with the Navigation Company for a daily boat service.

A discussion took place on the proposition to erect joint boat houses and ice houses, for the use of the cottagers at the Park, and it is probable that the plan suggested will be carried out. This season this section of the Lakes will be a scene of activity, and with the increasing number of cottagers it will, no doubt become more popular than it has been in the past, even.

The new association will work in conjunction with the Stony Lake Cottagers' Association and Juniper Island will still be considered the centre of the gayety of the lake. There is no idea of opposition in any way to the older association but rather to advance the material welfare of those people who spend their summers on the beautiful shores of Clear Lake.

TWO ALMOST FORGOTTEN QUESTIONS

Isolation Hospital and District Steam Heating Sound Familiar Still

A couple of questions which were merely referred to last night, in Committee of the Whole Council, were those of an Isolation Hospital building and the District Steam Heating problem. The Mayor asked that the aldermen consider these during the week, and be in a position to discuss them at the next meeting night. He explained that with regard to the former, the Board of Health had asked that the question be opened again.

In connection with the District Steam Heating question, a letter was read asking what action the council intended to take. If the city did not intend to install the plant the company asked for a franchise of the city streets to do so.

LATEST HAPPENINGS ON THE LOCAL MARKET

Hog Trade a Little Brisker and Some Fine Cattle Bought

Things are looking up in market circles to-day. Messrs. Howden & Thornton purchased eighty hogs this morning, all of them being weighed on the local scales. They were brought in by farmers from the neighbouring townships, who received $6.40 per cwt. for them.

Yesterday Mr. Franks had four fine cattle weighed on the local scales. They were undoubtedly as good stock, if not better, than any that have been seen in the city for some time. Two of them were steers weighing 2500 lbs., and were bought by Mr. George Wheeler, East City. He will use them for butchering purposes and promises a treat for his customers.

NO MANSE AT THE KNOX CHURCH YET

Board of Managers Met Last Night but Did not Discuss Question.

The Board of Managers of Knox church held a regular meeting last night, when the principal business was to pass some accounts. The question of the erection of a new manse was not discussed last night, the opinion of one of the members of the Board to-day being that the congregation would have to get on its feet financially, before such a large undertaking was thought of.

IT NEVER RAINS BUT IT POURS

One Runaway Started Another on Chambers Street Last Night.

A team of horses, attached to one of Mr. R. Gibbs' cabs, caused considerable excitement yesterday afternoon by indulging in a lively runaway, with an abrupt termination, that damaged the vehicle and badly jarred the horses.

They were standing in front of the barns on Chamber street, and, becoming frightened at a rig which came up behind, dashed off at full speed, and, crossing Brock street, entered the narrow lane leading into the Bethany Tabernacle yards, and smashed headlong into the brick wall of the church driving shed. The horses received several cuts, and one of them was knocked off his feet, while the hack was damaged, the pole being smashed.

THE DOG POISONER STILL HARD AT WORK

Valuable Hound Belonging to Mr. Al Spenceley is the Latest Victim

The dog poisoner has not yet brought to a close his campaign on the canine population of Peterborough, and almost every day sees another victim added to his long list. This morning Mr. Al. Spenceley, who is at present in Ottawa, and who left the dog with his father, Mr. Mark Spenceley, had a valuable hound poisoned. The animal was highly prized by its owner and there was no excuse for its untimely death as it had been kept tied up and harmed nobody.

BUILDING PERMITS MUST BE TAKEN

Offenders of By-law Liable to Fine of $50—Ten Days of Grace

The Property Committee reported to the Committee of the Whole last night, that the Building Permit By-law was not being regarded by contractors and builders. Ald. Stevenson considered that the bylaw should be enforced in the usual manner—a fine of $50 for the breaking of it—or else it should never have been passed.

Moved by Ald. Stevenson and McIntyre, that the Chief of Police be notified to take action against all builders who have not taken out permits within ten days after the building is begun.—Carried.

C. G. E. Anglers Decide To Erect Fine Club House Near Rice Lake

Enthusiastic Meeting Held in T. A. S. Rooms Last Night—Club Wants Fish and Game Protective Association to Arouse Itself.

Will the C. G. E. Angling Club erect a club house? This was the chief topic that was discussed at last night's special meeting, held in the T. A. S. parlour. Mr. R. H. Shepherd, the secretary-treasurer, is leaving the city in the near future. His resignation was received last night and Mr. J. J. McCabe duly elected as his successor.

The meeting was largely attended. Every position was occupied from the rear admiral on the hurricane deck, the commodore, down even to the scullion, cabin boy and official worm catcher. It was a happy assemblage. The anglers are all true sports and true friends and it was with feelings of regret that Fisherman Shepherd was leaving the select thirty-five that the members met to bid him God-speed. However, they hope for re-union in the future when the old episodes, now land marks of the buried past, may be recalled and even re-enacted.

Complimentary Speeches

After the presentation to Mr. Shepherd the fishermen rehearsed pleasant experiences that had occurred on various trips, and in which Mr. Shepherd had taken an active part.

Rear Admiral, R. M. Roy, in speaking of the club, said that he had never met with such good sports as the members and he felt honoured when he was permitted to take them on a fishing tour.

Others of the club spoke of Mr. Shepherd's good qualities as a sport and also expressed their appreciation of Mr. Roy's kindness in allowing the club free use of his yacht.

Regular Business

As mentioned above Mr. J. J. McCabe was elected to succeed Mr. Shepherd as secretary-treasurer, and Mr. D. Carlisle was appointed to the office of guide, which Mr. McCabe formerly occupied. Mr. Shepherd handed over the money that was left in the treasury to Mr. Fred Shannon, who was elected pro tem.

On a motion by Mr. A. W. Patterson, Messrs. Geo. A. Dawson, Bert Scott and R. H. Shepherd were appointed honourary members of the club. These gentlemen have acted as treasurers, and, strange to say, they have all vacated the position by departing from the city.

Protecting the Fish

The proper protection of the fish in these waters was next dealt with. The members of the club feel that this duty is being neglected by the local branch of the Fish and Game Protective Association, which is practically in a state of coma. Being a private club the anglers would not take the responsibility themselves, but are willing to assist the branch of the association. The commodore, Mr. J. G. M. Wilson stated that it was in the interests of the community that something should be done at once if the fish are so to be protected. The club would like to see some definite steps taken along these lines, so that true lovers of angling will not have their sport utterly despoiled by the ravages of those who have not the slightest instinct of a true lover of sport.

A Club House

The topic of chief interest to the members was the erection of a club house on some desirable plot along the banks of the Otonabee. The club is now a very pretentious one. The number of its members is limited to thirty-five and there are now twenty-two enrolled. It is not the intention to reach the limit this summer, but a few more will be taken in to swell the ranks before long.

There was a general discussion as to the location of the most suitable spot for a club house, and the general opinion was that Poverty Camp, a place just where the Otonabee branches into Rice Lake, was as good as any place. However, no decision was definitely reached, but a committee was appointed to look over several sites and choose the most desirable. The following composed it: Messrs. Geo. Tovey, A. W. Patterson, D. Carlisle, J. J. McCabe, J. Brown, R. H. Layfield and R. M. Roy.

The club house will be of great use to the anglers in their future trips, as it will be undoubtedly erected in close proximity to Rice Lake and can be used whenever the members are on a holiday down the river.

The coming summer will likely provide many splendid outings for the Angling Club.

AN INVITATION TO SERGT. MAJOR BRITTAIN

Requested to take Charge of 7th. Brigade as Brigade Sergt. Major.

Sergt. Major Brittain has been asked to accept the position of brigade sergt. Major of the 7th Brigade at the annual training at Kingston, beginning on June 17 this year. The brigadier is Lieut.-Col Edwards, R. O., late C. O. of the 57th Regiment. The brigade major is Major A. B. Cunningham, of the 14th P.W.O.R.

It is probable that the sergeant major will be in charge of the 7th Brigade, but nothing definite has yet been decided upon.

TATE OPTICAL CO'Y

G. N. BABCOCK, Eye Specialist

412½ GEORGE STREET, PETERBOROUGH

UNSOLICITED TESTIMONY

The Tate Optical Co., Peterborough:

DEAR SIRS:—During the last three or four years (prior to May last) my eyesight had failed to such an extent that I was unable to read or see anything at close range and could get no glasses that would help me. I tried two different Opticians in Toronto and was told by both that they could do nothing for me, and that my sight would never be better. A replacement of my case was sent to Montreal by a Hastings optician and several pairs of Glasses sent me, but with the same result, my vision could not be improved. Last May, while looking at a Pair of Glasses you made for Mr. John Fife, Keene, and talking with him he advised me to consult your Mr. Babcock, and I am pleased to say that the Pair of Glasses he made for me have given me entire satisfaction and I can do now what I have not done for years past—read any ordinary print and see distinctly at close range. I feel very grateful, not only for the interest you have taken in my case, but particularly so for the blessing of good eyesight. Thanks to your knowledge and skill.

Yours truly,

(Signed) **JOHN CARTER, Sr.,**

[Hastings, Ont.

"THE QUALITY SHOP"

A Big Catch

Is yours if you purchase your Fishing Tackle from

C. R. BANKS

GEORGE STREET, NEAR CHARLOTTE

Personal Mention.

Mr. F. H. Baddeigh Pitcher, Hawthorne Lodge, London, Eng., left Peterborough to-day for Montreal, where he will embark on the steamer Sardinian, of the Allan Line, on his return to the Old Country, after a year spent in Canada.

SUMMER SCHOOL OF LANGUAGES TO BE HELD

A Good Opportunity for Teachers to Improve in Languages.

What promises to be a most timely and profitable undertaking is the Summer School of Languages to be held in the City of Kingston from July 15th to August 16th.

Professor MacGillivray, Ph. D., (Leipzig) of Queens, has associated with himself Prof. Withrofft and Professor J. M. Lanos, and will conduct classes in the study of German and French.

The classes which will be held in the Arts Building of Queen's is designed for teachers and all others who desire to improve the opportunity of reading with masters.

Professor MacGillivray, Queen's, Kingston, promises to give all information.

EQUIPMENT OF THE NEW FIRE HALL

Fire, Water and Light Committee Will Discuss Matter.

The Fire, Water and Light Committee of the City Council will meet to-night, when the matter of equipment for the firehall will be taken up. It is said that a good offer has been received in connection with the equipment, and it is expected that the matter will be concluded to-night. In addition to this meeting there will be a meeting of the Finance Committee at 5 o'clock. The Board of Police Commissioners are meeting this afternoon at 4 o'clock, so that matters are busy around the City Hall to-day.

A "Teddy" Bear

The juvenile population as well as a large proportion of citizens of a more mature age, was delighted this morning by the arrival of two Frenchmen with a large Cinnamon bear. The bruin, a well trained quadruped with a repetoire including dancing, marching and wrestling, proved a great attraction.

News Of The City And District.

Weather To-day—Moderate to fresh north west o north winds. A few local showers, mostly fair. Wednesday—Fair and cool.

German Club

The German Conversation Club will meet on Saturday evening at 8 o'clock at St. Luke's Rectory.

Water Lily up

The steamer Water Lily pulled into port on her return trip from Rice Lake, at 1.30 o'clock this afternoon.

Elks to Meet

The members of Peterborough Lodge of Elks are reminded of the regular meeting of that lodge to-night.

Piano Tuning.

Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 Medonel street. Phones, Bell, 199 A; Machine, 199.

Business Meeting

The regular meeting of the Men's Guild of St. Luke's Church was held last night, when several matters of business were attended to.

Immigrants

Another train load of immigrants passed through the city to-day at 7.30 on the C. P. R. None of them stopped off at Peterborough.

Put on a Good Front

"My Valet" can help you do it by pressing, cleaning or mending men's spring suits and overcoats and ladies' coats, costumes, etc. Wesley Brom, 204 Charlotte street.

Cabbage Lettuce

We are now receiving very fine, large, cabbage-head lettuce. Also rhubarb, radishes, tomatoes and cucumbers. S. A. OKE, 376 George street. Machine 'phone 18; Bell 'phone 18.

Barber's Union

The regular meeting of the local Barbers' Union held last night was largely attended, and great enthusiasm was displayed. Four new members were initiated, and the local union is now very strong.

Instantaneous Bloom

Within six or seven hours of the passing of the bylaw, permitting florists and others to put display stands in front of their shops, the flower shop fronts—Mason's and Jordan's—burst into bloom on George street.

Spanish Sport

Don't fail to see the Great Spanish Bull Fight and the Race for the King's Plate. These moving pictures are to be seen at Scott's Coliseum, 432 George street. Matinee, 2 to 5; evening, 7 to 10. Change of programme Thursday.

Missionary Meeting

All ladies of St. Andrew's Church interested in the home missionary work will meet to-night in the Sunday school hall at 8 o'clock. Mrs. Robt. Hall, of this city, who attended the annual meeting of the Woman's Home Missionary Society in Toronto, has an important message, all are invited.

50 Per Cent. Discount.

Off baby carriages and go-carts. We have just received 65 baby carriages and go-carts to complete our contract for 400 carriages and go-carts. They must be sold in season. Here's your chance to get a snap. Come early if you are interested and see. Children's go-carriers marked net, and the price is right. A. H. Stratton & Co.

Stand For Flowers

Following the decision given last night by the City Council to the effect that stands for the display of fruits and flowers may be placed in the streets, Messrs. Jordan Bros. this morning had a stand, with a beautiful condition of flowers outside their store on George street.

Stewart's Hall Otonabee

Rev. E. A. Langfeldt conducted the Church of England service at Stewart's Hall, last Sunday, when a large congregation was present, almost every available seat being occupied. Mr. Langfeldt announced that his assistant, Mr. Perry, B.A., would commence weekly services on Sunday, May 19, at 7.30, and asked the people to give Mr. Perry the same hearty cooperation and support, that they had given him. Mr. Perry will live in the Otonabee Parish. The services at St. Mark's church, will be held on Sunday mornings at 10.30, commencing Sunday, May 19th.

WILL ORGANIZE THE MACHINISTS

William Boland, Canadian Organizer for International Machinists, in the City for That Purpose

Mr. William Boland, formerly business agent of the machinists of Toronto, has been appointed by the executive of the International Association of Machinists as Canadian Organizer.

Mr. Boland left yesterday for Peterborough, where he will endeavour to organize the machinists. — Toronto News.

ASTONISHING RESULTS

Follow Each New Discovery of Scienc

The great strides that medical science has made in the last few years is due to the germ theory. When the germ of a disease has been discovered, the doctors have not been slow in finding a drug to kill it. In a few years it will be rare to find a bald-headed man or woman. The falling out of hair is due to a dandruff germ, and now it has been discovered how to kill this germ. The remedy used is called Newbro's Herpicide. Its success has been marvelous. Not a failure has been so far reported. It is also a delightful hair dressing, free from oil or sticky substance. Try it, and be convinced of its actual merit.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. The Market Drug Store. Two sizes—50c and $1.

ALL THE CRICKETERS SHOULD BE PRESENT

Important Meeting of the Cricket Club Will be Held To-morrow Night.

There will be an important meeting of the Peterborough Cricket Club to-morrow night in the Y.M.C.A. hall, and all those interested in the game are urgently requested to be present as business of great importance is to come up for discussion. It cannot be expected that the game can be made a success in Peterborough without the co-operation of the officers and members. The officers are doing everything in their power to make the club a success, but if the members do not give their support the project will have to be dropped.

THE RINK COMPANY OFFICERS

Directors Elected Their Officers for the Ensuing Year Last Night

At a meeting of the Directors of the Peterborough Hockey Club, Limited, owners of the Brock street rink last night, the following officers were elected for the ensuing year:—

President—Mr. A. H. Stratton.
Vice-President—Mr. W. H. Hill.
Managing Director — Mr. T. H. G. Denne.
Sec.-Treasurer—Mr. M. J. Hutchinson.

PROGRAMME FOR THE HOLIDAY

Peterborough Turf Club Have Arranged Some Good Races.

The Peterborough Turf Club held a meeting last night for the purpose of arranging the programme for the races on May 24th. It was decided that the programme should consist of a named race, a 2.30 class event and a free-for-all and a five mile foot race, open to amateur runners. This is an attraction that should draw a large crowd on the holiday and the races promise to be decidely interesting.

A committee was appointed to buy the prizes for the foot race. It was decided to offer a gold watch, silver watch and a gold ring for first, second and third prizes, respectively.

Another meeting will be held before the 24th to complete arrangements.

THE SHAMROCKS HAD A GOOD WORKOUT

Big Bunch of Lacrosse Players Out at Riverside Park

The Peterborough Shamrocks had a rattling practice last night at Riverside Park the first general work-out of the season. Considering that it was the first time in harness the team travelled at a rapid clip, which, it kept up, will soon put them in condition. A number of the seniors were also out and altogether there were about twenty players out in uniform. Among those in line were Devlin, Tucker, Seymour, Foenie, Barber, Judd, O'Brien, McGrath and Dobson.

PETERBOROUGH IN THE TRENT VALLEY LEAGUE

The Excelsiors and Night Owls Will Amalgamate

Peterborough will in all probability be represented this year in the Trent Valley Baseball League and a meeting is called for to-night at the Windsor Hotel of the Night Owls and Excelsiors for the purpose of organizing a team which will apply for membership in the League. It is proposed to amalgamate the two teams into one organization. The annual meeting of the Trent Valley League will be held to-morrow at Campbellford and the local club will likely be represented. It is desired that there should be a large attendance at to-night's meeting.

CRICKET

A meeting of the Cricket Club will be held to-morrow night in the Y.M.C.A., which all members are urged to attend. This is the final meeting to get the work under way, so that those who wish to see the game flourish this season must be present.

TENNIS

The annual meeting of the Nicholls Oval Tennis Club will be held to-night in the Y.M.C.A.

LACROSSE

Word has been received from the Toronto Junction Shamrocks that they have made arrangements with St. Thomas for a game on May 24, so that the locals will have to look elsewhere for a game on the holiday. They have not yet decided what team they will play, but there will be a game here on that day, however, if arrangements can be made.

FOOTBALL

The secretary of the Quaker football club to-day received a letter from the captain of the All Saints club of Toronto, Mr. Bert Darlington, asking for a game with the Quakers on May 24th, in Peterborough.

The football team will meet to-night on the exhibition grounds for practice, providing the weather is favourable.

Leo Corrigan, 475 Ferguson Ave., N. Hamilton, had Eczema since childhood. He consulted specialists—lay weeks and weeks in hospitals—and despaired of ever getting better.

"I thought Mira was like other remedies I had tried," he writes, "but, to my delight, a few hours after the first application I felt great relief. It has worked wonders for me."

Don't put it off—get a box of Mira Ointment at once and be relieved. Price 50c.—6 for $2.50. At druggists'—or from The Chemists' Co. of Canada, Limited, Hamilton—Toronto.

The New York Stock Market

(Furnished by J. R. Heintz & Co.)

New York, May 7. — A continuation of yesterday's decline was in evidence for the first two hours today and losses from 1 to 3 points in the active issues were general, while Del. and Hudson dropped 6. There was no news of importance accompanying the decline although a decline of spot copper in the London market had some effect on the copper stocks and smelting. N Y O was hammered down on poor earnings. Money on call was a trifle firmer and caused a little selling. After noon and at the lower level the market grew intensely dull and was disposed to rally. U R T and Atchison ran up to the high of the day. The close was quiet.

"NO USE BRAGGING."

Exaggerated Descriptions of Canada to Intending Emigrants Do Injury.

A recent issue of the weekly paper "Canada," which is published in England, contained a number of pictures of residences of farmers and mechanics in this country, which, on the mind of an Englishman, would tend to leave the impression that in this land of plenty anybody and everybody can prosper and occupy beautiful homes. In fact, those pictures were not at all representative of the dwellings of our farmers and mechanics, but were quite out of the ordinary. The average mechanic in this country does not live in a mansion, and while we have a great many wealthy farmers in older Canada, their wealth usually represents the hard-scraping and close figuring of about three generations of land-tillers.

A Foolish Principle.

Even at that, however, in our rural population are many families who, after three generations of hard, if unintelligent work, are far from having any such residence to live in as the poorest of those shown in the pictures referred to. There is no use bragging in the literature about this country published in England. It is foolish to load new-comers with explanations that cannot be realized. Here is a country where there is a chance of success for every man who has in him the trick of winning success; but here, as everywhere else, there is slippery going and plenty of opportunity for a hard-worker to spend all he can possibly earn without building a family residence that will eclipse that of the squire at home. People leaving the old world for the new should not have their heads filled with the foolish notion that their troubles end when their feet touch our soil. Their troubles begin—new ones that nothing in their experience fits them for.

Fortunes the Exception.

But if they be resolute, industrious and adaptable, they may do very well, and at any rate, establish their children in a country where they will have excellent opportunities. Much is heard about the poor boys who come out here and make large fortunes, but the fact may be worth mentioning that most poor boys who come out here from Europe do not make fortunes, while many of them potter about in a very poor fashion and barely contrive to make a living. Men who come out here and spend their days seeing how little work they can do without losing their jobs, and spend their earnings seeing how much liquor they can drink without drowning themselves—are not likely to admire this country nor make much of a fortune here. Even a newcomer of the very best type may knock around quite a while without happening on the chance that will enable him to attain sucess. But nothing could injure this country more than to bring out shiploads of people who, after getting here, will feel that they have been gold-bricked.—Mack, in Saturday Night.

Farm for Street Beggar.

Through the generosity of a certain woman and man, Charles Ansell, 50 years old, who was charged at Willesden, England, a few weeks ago with singing in the street for alms, took first-class passage with his wife and three children on the steamship Pomeranian for Manitoba, where there is a farm waiting for him to take possession.

When Ansell was brought before Ald. Wright his appearance favorably impressed the magistrate, and Robert Marshall, the court missionary, was asked to investigate the case.

It was ascertained that Ansell was a steady, industrious man and had served under Lord Roberts in India and elsewhere. His wife and three children were starving.

A well-to-do woman took an interest in the unfortunate family, and her husband presented them with a farm of about 200 acres near the town of Whitefield, Canada.

Mallory CRAVENETTE HATS

STYLE and SERVICE

We want you to see this new line of fashionable hats, if for nothing else than to learn what are the latest and most approved metropolitan hat styles

The famous Priestly Cravenette process, which makes the Mallory Cravenette Hat rain-proof, gives it added wearing qualities.

EXCAVATING REVEALS MORE BONES

Relics of the Dead Are Being Discovered in Central Park

As in the case of the Collegiate Institute, the excavation for the new dormories at Central Park is resulting in a number of human bones being unearthed. Already a large number of these relics of the early inhabitants of Peterborough have been discovered, including four skulls and a number of other bones. They are being preserved in a box kept for the purpose, and will be buried again.

SEPTIC TANK TO BE USED AT ONCE

Board of Health Took Up the Matter This Morning—Raceway in East City a Menace.

OTHER BUSINESS WAS DONE

As a result of the Board of Health meeting this morning the septic tank in East City will be placed in use at once. At the meeting of the Board on Monday it was stated that the tank was not being used, and the Sanitary Inspector and Medical Health Officer were instructed to inspect the tank. In company with the City Engineer, they visited East City, and this morning reported to the Board that the tank was not being used.

The City Engineer stated that the arbitration between Mr. Bogue and the city was responsible for the delay, but that there was now no reason why the tank should not be used.

On motion, the City Engineer was instructed to open the tank for use at once.

Sanitary Inspector Ball referred to the condition of the raceway in East City, which, he said, was a menace to the health of the residents in that neighbourhood. The Sanitary Inspector was instructed to inform the Peterborough Hydraulic Company, whose property the raceway is, to have the nuisance remedied.

The City Engineer reported as to what properties along the river bank could be connected with the sewer system. The Sanitary Inspector had previously reported to the Board certain properties along the river, the sewage from which emptied into the river.

It was decided to notify the people, who, the City Engineer stated, could be connected with the sewer, to have the connection made at once.

On motion, the City Council will be requested to provide street car tickets for the Sanitary Inspector when necessary.

There were present Messrs. Wm. Eyres, Chairman; the Mayor, Dr. Burnham, A. Parker, Robt. Neill, Dr. Bingham, M.H.O., and Geo. Ball, Sanitary Inspector.

MANY BARNARDO GIRLS ARRIVE

A party of ninety-three girls arrived this morning on a special train on the C.P.R. for the Barnardo Home, here. They crossed from England on a Dominion liner, and about 150 boys were on the same steamer. These went right on to Toronto. The girls will be sent out during the next few days, places having been secured for all of them.

Two New Methodist Churches Are Proposed

Charlotte Street Congregation May Build In Near Future—New Church for the South End.

MANY METHODIST FAMILIES

The Methodists of Peterborough are increasing to such an extent that a probability of the near future is the erection of two new churches. At the meeting of the Quarterly Board of the Charlotte Street Methodist Church last night, the question of the erection of a new church was discussed. The unanimous opinion of the members present was that a new church should be provided, the membership of the church at the present time being sufficient to fill the building, to say nothing of the other members of the congregation. It has been felt for some time that a new and larger building was necessary, and, as a result of the discussion on the subject last night, a committee was appointed to collect data and full information on the matter and report back to the Board at an early date. It is probable that plans will be prepared in a short time, and, should it be decided to proceed with the erection of the church, active steps will be taken as soon as possible.

It is understood, too, that there is a movement on foot to erect a Methodist church in the south end of the city, in the vicinity of the Exhibition grounds. The establishment of the largest factory has resulted in the springing up of a settlement in that part of the city, and the bordering portion of North Monaghan, and among the new comers is a large number of Methodists. Some of these at present attend the churches up town, but many do not, an estimate of the number of families, the members of which are Methodists, but who do not at present attend any church, giving it is somewhat alarming information that there are fully fifty of these families. It will be seen, therefore, that this number of families would form the nucleus of a church which should flourish from the start.

The matter is at present under consideration, and it is probable that steps will be taken in the near future to establish a church in that part of the city. This will give Peterborough four Methodist churches.

Norwood Man Found In Bed Dead This Morning

Mr. Thos. Elliott Died Suddenly During Last Night—Heart Failure Believed to be the Cause.

HAD SON IN PETERBOROUGH

Examiner Special.

Norwood, May 8.—This morning Mr. Thomas Elliott, a resident of this town for the last 50 years, was Mrs. Wm. Taylor, with whom to made Mrs. Wm. Taylor, with whom he made his home. The deceased had been in good health up to the time of his death, and, in fact, was out on the street yesterday, apparently in perfect health. The cause of his death is supposed to have been heart failure. He leaves one son, Mr. Robt. Elliott, of Peterborough, and four daughters, Mrs. Wm. Taylor and Mrs. J. R. McKelvie, of Norwood; Mrs. Wm. Hubble, of Michigan, Minn., and Mrs. Ed. Lewis, of Alton, Ill.

Arrangements for the funeral have not been made yet, but will be as soon as word is heard from the daughters in the West.

Ladies Organized To Help The Free Hospital

Contributions of Discarded Rubbers is Asked—Former Dominion Bank Premises Secured as Central Depot.

CITIZENS ASKED TO HELP

Mrs. Jas. Kendry, who was appointed secretary of a committee, at a meeting of ladies held to devise means of collecting money for the Muskoka Free Hospital, has sent the Examiner the following statement in reference to the movement:

Never have so many poor suffering ones applied for admission to the Muskoka Free Hospital for Consumptives as during the changeable severity of this winter and spring and it is pitiful to think of the number who have been refused admission for lack of room. This institution for helping the victims of Tuberculosis, and preventing its spread, should appeal to the Christian public in a very practical way. Every one is benefitted by this effort to secure the comfort and care of the patient at the least possible risk to the community.

The wealthy man is in a position to send his son or daughter to a commodious sun parlour in the Adirondacks or some other equally popular health resort, but the man of modern means and the very poor must battle with this dread disease in the crowded rooms of small rates, the invalid, through necessity with some other member of the or ignorance, often sharing his bed family, thus not only lessening his own chances of recovery, but becoming too often the medium for conveying the deadly seeds of the disease to others. This is where the practical and Christ-like work of the sanatorium comes in—providing the best environment for checking the progress of disease, supplying proper care and nourishment and minimizing the danger of contagion.

The number of patients in residence last week at the Muskoka Free Hospital was 77, and of this number 35 are absolutely free patients; 24 pay from $1.50 to $3.50 a week; 9 pay $4; one pays $5; and eight pay $6. The cost of maintenance of each patient is over $9 per week, so it is easy to see how large the shortage must be each week.

In many places branches of the National Sanatorium Association have been organized for the purpose of arousing an intelligent and practical interest in this sanatorium work.

The Belleville branch of the N.S.A. sent as its last contribution $110, and no doubt through its influence the Corporation of Belleville sent $25. The County of Grey contributes $300 annually. It is hoped that a branch of this Association will shortly be organized in Peterborough, but in the meantime money is urgently needed. An extension to the hospital costing nearly $15,000 is already commenced, and the funds must be provided. The value of sanitorium treatment of consumption is becoming so impressed on the minds of patients that applications for admission are increasing at a rapid rate, and more room had to be provided; so the trustees have taken the courageous step of this extension, trusting to the generosity of the Christian public.

Earnestly desiring that the people of Peterborough might help along this very necessary extension fund, a few ladies met together yesterday to talk over some means of raising money for this purpose, and decided to make an effort to collect worn out rubber articles—the ordinary rubber shoe, boot, bag, etc., etc. A prominent citizen conversant with the rubber business, has kindly offered to find a market for all that can be collected. We appeal to the citizens to help us in this undertaking by looking through closets and attics for any of the above articles. As a house to house canvas is manifestly impossible, the store just vacated by the Dominion Bank, next door to the Metropolitan rooery, has, through the kindness of Mr. Richard Hall, been secured as a central place to receive contributions, and will be open from three o'clock p.m. to six o'clock p.m. on Tuesday and Wednesday of next week, May 14th and 15th, when some member of the Acting Committee will be on hand to receive parcels. If any one should find it inconvenient or impossible to deliver the parcel, the committee will gladly send for it, if the address is given to any of the ladies whose names are mentioned below. If any householder has already disposed of her or his worn out rubbers, and would like to help with a money donation, however small, the same will be thankfully received by any of the following ladies: Mrs. Boucher, Mrs. Hughes Charles, Mrs. Dean, Miss Lundy, Miss Morrow, Miss Bella Morrow, or Mrs. Jas. Kendry

HOUSE AND BARNS DESTROYED

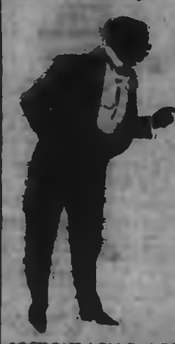
A Disastrous Fire Occurred Last Night in Burleigh Township—Mr. Northey the Loser

LIVE STOCK DESTROYED

Examiner Special.

Mount Julian, May 8.—A disastrous fire occurred last night in Burleigh, when the house and barns of Mr. Wm. Northey were destroyed by fire. The cause of the fire is supposed to have been a defect in the chimney on the house, which set fire to that building, destroying it completely. The flames then spread to the barns, which were also destroyed, together with some fowl and a few calves, the other live stock being saved, though a new binder and a mower were among the articles destroyed. Considerable of the house furniture was destroyed, as well. The fire started about 9 o'clock, and the frame buildings burned rapidly, despite the strenuous efforts of the family and the neighbours to prevent it.

Semi-Ready Wardrobe



Old Style Underwear or Comfort WHICH ?

BY "Old Style" Underwear we mean the two-piece kind, which, in the hot weather, causes you so much discomfort, with two thicknesses round your body when one is all that is necessary.

COMBINATION, altho' not so commonly used, is rapidly taking the place of the two piece underwear with the up-to-date dresser—he realizes what a boon it is on the sultry days when every ounce of unnecessary wearables feels like a pound.

No trouble to put on and take off—when it is on it fits like a second skin.

No more expensive than the old kind.

NOT RIPE FOR PREFERENCE

There seems to be little immediate probability of inter-Imperial trade preference. At the very outset of the proposal the door seems to be closed by the necessities of the Mother Country. In the interests of her people and her manufacturing enterprises, the idea of taxing food stuffs which would directly injure the masses of the population, or taxing raw materials of manufacture, which would injure the employer as well as the artisan and handicap Britain in competing in the world's market with other countries, is not, for a moment entertained by the Mother Country. She, being very evidently the party of the first part, no hope of preferential relations are possible while she maintains this attitude, which seems, for the present, at least, to be a fixed one. The president of the Board of Trade in reference to a resolution asking Britain to grant a preference to the colonies on dutiable articles, said, that the government could not change their position with regard to the tariff of the United Kingdom. The resolution asked what no protectionist country in the world would do, namely, to tax the necessaries of life or livelihood which the Mother Country could not produce for itself, and of which the colonies could not at present, or for some time to come, supply a sufficiency. While recognizing the value of the preference given by the colonies, the answer to what Britain would give in return, consisted in the statement that "Britain was the best customer of the colonies."

SEVERE BLOW FOR BAD ROADS

This is a remarkable, not to say a startling, decision reached by Judge Lynch in Circuit Court at Farnham, P.Q., the other day, and one which, if it be not upset by some higher court, should have an immense effect in waking up the rural corporations to a livelier sense of their duty towards the public highways.

No Canadian township has ever bothered very much about litigation brought by vehicle owners in consequence of damage sustained through improper roadways. As long as such vehicles were merely buggies or farm wagons, the amount recoverable was too small to tempt even the litigious farmer into the hands of lawyers on such a precarious issue. Since automobiles came in, the same contemptuous policy has been pursued, upon the ground that the automobile was too frivolous a vehicle to have any serious rights in law upon a country thoroughfare, and that no court would require a municipality to keep its roads in the state required for automobile traffic.

Judge Lynch's decision does not require the keeping of the roads in any better condition than for ordinary vehicular traffic, but lays down that if they are not in ordinarily good condition the local authority will be responsible for the total damage, whether it be to a mule-cart or a four-thousand-dollar touring car. This introduces an entirely new factor into the domestic economy of the rural municipalities, for the damages they may be compelled to pay for allowing a costly motor to smash itself up are likely to be quite serious. All that is necessary to avoid such misfortunes is to keep the road up to the standard for ordinary vehicles; and the municipalities are now threatened with a considerable group of road-users, who will be far more likely to resort to the law to see that this is done than were the farmers, bicyclists and carriage tourists who used to monopolize traffic.—Montreal Herald.

TREE PLANTING

The following, from the Montreal Star, is deserving of careful reading:

True, it may be, that those who plant trees, seldom live to enjoy their shade, but they have the satisfaction of feeling that they have done something to make their neighbourhood more attractive. And there is a direct and an immediate pecuniary reward for the tree-planter. A row of young trees, planted along a village street, represents invested capital, which will add to the attractiveness of the whole place, make it a more desirable place to live in, and give property an enhanced value. And the same with respect to a farm. Growing trees about the yard, along the lane, or across the farm front, mean a better price should the farmer sell. His work on arbour day means an improvement to his property, that can even in his lifetime, be reckoned in dollars.

There is no question of the correctness of the Star's contention, that trees, and shrubs, and flowers, associated with a residence, increase its value far beyond the trifling expenditure they represent. Take any of the many fine residences of the city; take even a modest residence; suppose that both have elaborate or modest grounds, as the case may be, but both are well-provided with well-grown trees, on the street front and on the grounds. A prospective customer would offer a certain price to-day. If, by some catastrophe, the trees and shrubs were removed, and the decorative improvements that, with the owner's taste would naturally be associated with them. Suppose that next day, a prospective purchaser, with the same taste and judgment as to values, should make an offer for the same residence—the same area of ground—it would be sure to be from $100 to $300 less than was offered for the same properties with their adornment of trees and shrubs, which were originally placed at a cost of perhaps from $10 to $25. Not only are trees on streets and grounds an actual asset of money value, but they have an aesthetic value which cannot be reduced to figures of price. It is generally acknowledged that Peterborough, taken as a whole, is plentifully supplied with trees. We can only estimate their value by supposing the calamity which their removal would represent. If the people of the city were to be consulted, one could hardly put into money their consideration for the sweeping away of all the trees in Peterborough. The beauty of the city would be gone. The grateful shade that they cast upon the pavement in the sweltering days of summer, the singing birds they shelter, the splendid pictures, they present to the eye, would be gone.

Yet how many of these trees have come up to their present condition "through great tribulation?" They have survived the hand of the vandal, at last, though some have had to be replanted many times. In times past, hundreds of young growing trees have been destroyed by vandals using them as hitching posts, leading to their destruction by horses. On King street, two fine young elms have had to be surrounded by spiral bands of hoop iron to save them from destruction by horses tied to them by thoughtless persons. If the city council wants to pass a useful bylaw, let them pass one making it a criminal offence, or one punishable by heavy fine, for any other animal to fasten the animal called a horse, to a growing tree on any of the streets of the city. A growing tree is worth more for what it is, and what it will be, than a bale of hay.

Let us unite to preserve our trees and to plant more. There are streets where they are needed. A new street has been opened—Boswell avenue—and both sides have been built with fine residences, and only half a dozen trees have been planted, and only one or two of the only kind that will thrive on that gravelly soil—elms. Why do not the owners plant trees? A year in the life of a tree is a good gain. They should not wait till next year. Even owners of vacant lots will find it will pay to plant trees on the street in front of them. The lots will bring prices greater by ten or fifty times than the cost of the trees.

A MOST WORTHLY APPEAL

In another column, is printed an appeal in connection with a movement which deserves, and will doubtless receive, active and material sympathy. Consumption, or tuberculosis, or the great white plague, as it is variously known, is one of the most terrible of the affections that come to our population. It counts more victims than any other disease. There is hardly a family, high or humble that escapes this scourge. With the appliances of mitigation, which wealth and expansive homes bring, the outlook is generally dark indeed, but where lack of means and small or sordid homes make the fight against this long-lasting, persistent enemy, a hopeless and drawn-out misery, no words can paint the sombre picture. It is to bring relief for, and in cases of short standing, cure of tuberculosis, that a noble band of city ladies have devised a plan by which general contribution of funds may be made by all classes, without much sacrifice or effort. The reader is urged to read the appeal printed in another column, made by the committee of ladies. Very few can claim exemption from the duty of assisting in the way mentioned. No contribution of the kind requested, can be considered insignificant in making up the total, that may represent relief and cure to some afflicted fellow-being. Modern science has succeeded in waging a successful war against the white plague, if its fangs are not too deeply seated, and in any event bringing relief from the protracted sufferings it entails if favourable conditions such as are provided at Muskoka are made available. Let every citizen feel that he or she can help in bringing relief and, possibly, cure to some or several afflictions. Again the reader is urged to peruse and heed the appeal of the ladies' committee printed in another column.

EDITORIAL NOTES

Great Britain is regarded as slow, but sure, and she generally succeeds. Some may regard King Edward as a "jollier," to employ the expressive slang of the hour; others, as a great peace-maker. By his personal diplomacy and tact he is largely to be credited with the rapprochement between England and France. His "sunny ways" have won the friendship of the great Republic, and it is through these that a new grouping of the powers has been effected, a grouping that makes for peace among the nations. An understanding has been arrived at between France and Japan in regard to mutual interests in the far East. With this alliance, and the Anglo-Japanese and the Russo-Japanese, the understanding creates a new grouping of the powers of extreme significance. It is regarded as very strong evidence of the success of Great Britain's, possibly slow, but sure, success in diplomatic manoeuvring for the isolation of Germany, which can now count with confidence only on Austria, King Edward's recent visit to Italy having made Italy a doubtful quantity. With the grouping of the nations mentioned above, whose interest is peace, there is a probable guarantee of peace, since the sting is plucked out of the great strife-breeder, Germany.

NO FATAL ACCIDENTS ARE REPORTED

Thirty-four Accidents Occurred in This City During Last Year—Factory Inspector's Report

In the nineteenth annual report of the Provincial Inspectors of Factories, there is given a list of the accidents reported to the department as having taken place in the several manufacturing establishments of Ontario, defining the nature and cause of the accidents. The total number of accidents reported was 636, of which 26 resulted in death. Of the total number, there were injured in the factories of Peterborough 34 persons out of 636 in the whole province. None of the Peterborough cases are reported as fatal.

CONSTIPATION CLOGS THE BOWELS

No other cause produces so much sickness as constipation, and therefore it is dangerous to allow the bowels to become clogged up. Bad blood, dyspepsia, headaches, biliousness, boils, pimples, and piles, are all caused by constipation.

Avoid all of these troubles by the use of

BURDOCK BLOOD BITTERS,

nature's remedy for all diseases of the stomach, bowels and blood. It acts on the bowels and promotes their free and regular action, curing constipation and all troubles which arise from it. It has been on the market for over thirty years so you are not using a new and untried remedy. B.B.B. has cured thousands of others and will cure you. Mr. B. Woodcock, Nashwaak Bridge, N.B., writes: "For over two years my wife was troubled with constipation. She tried several physicians but could get no relief, but after taking three bottles of Burdock Blood Bitters she was completely cured and is to-day in good health. My wife and I cannot speak too highly of B.B.B.

Headache

can be cured without the use of drugs. The Japanese cure does not contain a single drug. One ingredient is just plain, ordinary soda. The others are just as harmless. Yet no drug remedy can cure headache more quickly than it can be

MR. ALFRED PLEAU.

PE-RU-NA STRENGTHENS THE ENTIRE SYSTEM.

Mr. Alfred Pleau, an expert machinist, 178 St. John Street, Quebec City, Can., writes:

"Two years ago, an accident necessitated my confinement for several weeks. The good health I had enjoyed was slipping away and there developed a complication of diseases. My physician said my case was one of general debility.

"Among the many ailments which developed was a serious attack of catarrh, which annoyed me considerably and kept me awake whole nights.

"I decided to give Peruna a trial and soon found it acting as a wonderful tonic to my system. The catarrh grew less severe and shortly afterward disappeared, as did also the various other maladies.

"I attribute my prompt relief and ultimate cure entirely to the use of Peruna and gladly recommend it."

Girls In The Public Schools To Be Taught Art Of Cooking

Deputation of Ladies From the Y.W.C.A. With a Proposal to the Board of Education---Collegiate Institute Heating Contract---Teachers Needed for the New King Edward School.

At the regular meeting of the Board of Education last night a deputation of ladies from the Y. W. C. A. waited on the Board for the purpose of presenting the members with a proposal to have domestic science taught to the girls in the various classes of the Public Schools. The following ladies composed the deputation: Mrs. W H Hill, Mrs. A W Creasman, Mrs. T H G Denne and Miss Mayneord. The Y.W.C.A. cooking class was instituted last January and has been very successful. The proposition is to have the girls attend special classes for their benefit in the Y.W.C.A., where a splendid equipment has been supplied. By teaching this department of study, the Association will receive a grant which the Government allows for that purpose. The members questioned the ladies on to details, and left the matter in the hands of the Supervision Committee.

The following members of the Board were present: Mr. Robert Fair, Chairman, and Messrs. D. W. Dumble, W. S. Robinson, W. H. Hill, John Crane, B. F. Ackerman, W Pringle, L M Hayes, and the Secretary, Mr. W G Morrow.

The minutes of the last meeting were read and adopted.

Communications

A communication was received from Mr. W. Stock, baker, Sherbrooke street, asking that the Board give their approval of the construction of a sewer on that street between Rubidge and Stewart streets. The purpose is that Mr. Stock wishes to obtain sewerage for his new bakery.

It was moved by Messrs. Hill and Pringle, that the names of the Chairman and Secretary, in behalf of the Board, be added to the petition for the sewer.

A communication was received from the City Clerk, stating that the assessment against the Board for the sewer on Barnardo avenue amounted to $17 per year. — Received.

Mr. Richard Baker asked that the position of caretaker of the new King Edward School be awarded him. Regarding this matter, Mr. Robinson pointed out that it was necessary that someone be appointed to assume duties as soon as the contractors are finished.

On motion of Dr. Burnham, seconded by Mr. Robinson, the question was left to the Committee on Appointments, with power to act.

Public School Attendance

The report of the attendance for March for the Public Schools was received as follows:

	On Roll.	Av.	P.C.
Central School	401	347	86.6
South Central School	521	469	90.0

City Treasurer, account King Edward school	2000 00
George Gregory, rent to May 18th	6 00
C. Fessenden, fees	$85 00

Testing of Eyesight

Mr. Pringle, chairman of the Supervision Committee, presented the following report:

Your committee beg leave to report in reference to the matter of testing the eyesight of the pupils in our public schools, and recommend that the previous action of your board in connection therewith be hereby rescinded. But owing to its importance the whole question be referred back again to the Supervision Committee to carefully investigate and report to this board as to the best method of dealing with the matter at the beginning of the fall term.

WM. PRINGLE.

Heating Contract

The following report was received from the Collegiate Institute Building Committee:

To the chairman and members of the Board of Education,—

Gentlemen, — Your Building Committee beg leave to report and recommend that the tender of Messrs MacGregor & Reid for the heating of the Collegiate Institute Building, at $4000, be accepted; they to use the Triumph boiler, and the Dominion Radiator Company's goods; they to furnish bonds for the satisfactory performance of the contract, and that the chairman and secretary be authorized to sign the contract on behalf of the board, and that as soon as the contract and bonds are signed, their cheque to be returned to them, their tender to cover temporary heating.

All of which is respectfully submitted.

W. H. HILL, Acting chairman.

New Teachers

Of the general business discussed, Mr. W. H. Hill called attention to the fact that it would be necessary to engage a principal and at least two teachers for the new King Edward school. Of course their duties will not commence until next September, but the speaker thought it advisable to advertise early and thus be sure of their staff.

It was moved by the chairman, seconded by Mr. Pringle, that the Committee on Appointments take steps for this purpose.

OBITUARY.

MRS. THOMAS SULLIVAN

After an illness extending over a period of about two years, but which has not been acute until a few months ago, Mrs. Thomas Sullivan passed away at her home in Douro, last night, at the age of 49 years, the cause of her death being cancer. The late Mrs. Sullivan was a native of Douro, having been born there and she has lived in the same township until her death.

The deceased lady was married to her now bereft husband twenty-four years ago, and leaves in addition to him, a family of three daughters and five sons. The daughters are, Mary, Johanna, and Maggie, who live at home, and the sons, Dennis, Martin, William, Thomas and James, the first four living in Douro, and the latter in Prescott, where he has a position as foreman on the St. Lawerance Canal. Eight brothers and one sister are also living; the former being Messrs. Michael, Dennis, Martin, John Frank, Maurice, James and William, all of whom, except two live in Peterborough or Douro. Her only sister is Mrs. Stratton, of Rochester, who was with the deceased during her late illness.

The funeral will take place to-morrow morning from the family residence, Douro, at nine o'clock, and proceed to St. Joseph's church and the Douro Cemetery.

Falling Eyesight and Torpid Liver

GOOD SIGHT AND GOOD HEALTH RETURNED WHEN THE LIVER WAS SET RIGHT BY

D. CHASE'S KINEY-LIVER PILLS

To persons who have not considered the relationship of eyesight to general health this letter will prove especially interesting.

Mr. A. R. Price, Nose Creek Calgary, Alta., writes:—"I write to tell you how highly we think of Dr. Chase's Kidney-Liver Pills, for they are unsurpassed for torpid liver, constipation and kidney troubles. My husband derived great benefit from Dr. Chase's Kidney-Liver Pills a couple of years ago when he was feeling depressed and regularly out of sorts. His eyesight was failing and the lamplight hurt his eyes so he could not read at all and had made up his mind to see an oculist.

"I advised him to try Dr. Chase's Kidney-Liver Pills, thinking he was suffering from torpid liver. He did so and after using less than two boxes his eyesight entirely returned and he felt quite well again. We would never be without these pills in the house and I cannot speak too highly of them."

Dr. Chase's Kidney-Liver Pills are marvellously prompt and certain as a cure for sluggish action of the liver. While awakening the liver they also regulate the bowels and invigorate the kidney action.

In the way the filtering and excretory systems are thoroughly cleansed of all poisonous impurities and the cause of pain, sickness and suffering removed.

In every family there is need of just such a medicine as Dr. Chase's Kidney-Liver Pills to cure constipation, backache, biliousness, indigestion and prevent dangerous and fatal diseases of the kidneys and bowels. One pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

"They Will Not Shrink"

"Why Won't They Shrink?"

"Because they are not simply sponged before cutting, but the cloth is thoroughly shrunk."

"That will do to tell: but I guess your clothes will shrink just the same as ready-mades."

"Excuse me: One result of our method of shrinking is to so shorten the bolt of cloth, that less Suits can be cut from it than under the cheaper process. That's the only way you can get a Suit that will keep its shape."

Initial March Out Of The 57th Regiment Last Night

Strength of Regiment Was 280, Largest of the Present Season---Both Bands in Attendance---Orders Issued for Next Week

That memorable occasion, the first march-out of the season, was held last night, and for a short time the martial tread of 280 red-coats was heard on the city streets. Both the bands were in attendance, and supplied excellent music for the marching and enhanced greatly the effect upon the citizens. The streets along the line of march were completely filled with interested spectators, who apparently enjoyed, as much as the participants, the initial march-out of the present season.

The route of parade of the regiment began at the drill hall, from where the battalion marched down George street to Charlotte street, and thence along Charlotte street to Water street. From there the route extended to Hunter street, west to George street, and up George street to the drill hall again.

Extra electric lights had been placed in Central Park, where the various companies were put through company drill.

The following orders were issued by Lt.-Col. Miller:

No. 1—Detail of duty for the week ending May 14, 1907—Captain for the week, Capt. McWilliams; next for duty, Capt. McLean; Subaltern for the week, Lieut. Wallace; next for duty, Lieut. Gemmel.

No. 2—The following has been taken on the strength of the regiment, April 30, 1907—G Co.—Pte. G. E. Godden.

No. 3—The Commanding Officer has been pleased to make the following promotions: H Co.—To be sergeant, Corporal F. Richardson; vice, Sergt. K. Leah, left limits.

By Order,
D. WALKER, Capt.,
Adjutant.

New Ladder Truck To Be Bought For Fire Department

Will Cost $1,625 and Will be Bought From the Seagrave Company, of Walkerville---The Fire, Water and Light Committee Discussed Fire Equipment

The Fire, Water and Light Committee of the City Council last night decided to buy a new hook and ladder wagon from the Seagrave Company, of Walkerville. The price paid will be $1,625, and this with the buying of a combination hose and chemical wagon which will be constructed in the city, will bring the expenditure to the neighbourhood of $2,300. The new truck will be of the most modern design and equipped with everything that is necessary to aid the fire fighters, including 6 ladders which, with the 45-foot ladder owned by the city, will make a complete equipment.

There were present last night Ald. Johnston, chairman; the Mayor, Ald. Duncan and Morgan.

Mr. F. W. Doan and Mr. Linton, of the Bell Telephone Company, were present in connection with telephones for Chief Rutherford and Mr. Paskenham, foreman of the fire hall.

Mr. Doan made the suggestion that the Chief be placed on the same line as the fire hall. He wouldn't suggest putting two private 'phones on that line.

The matter was left in abeyance, it being agreed that if it was thought necessary afterward that they be put in later.

The chairman stated that electric door openers for the new fire hall which would open the doors at the same time as the gong sounded, could be furnished for $100. The matter was left over.

It was decided on motion of Ald. Duncan, seconded by Ald. Morgan, that a mechanical bell be placed in the house of Foreman Pakenham.

New Hose Wagon

Ald. Johnston stated that he had ceived a tender from the Seagrave Company of Walkerville through their agent Mr. Cameron, of Toronto, for a nest of ladders for the new fire hall. This includes six ladders and would be supplied for $1,625 f.o.b. at Walkerville.

Ald. Duncan moved that the tender of the Seagrave Company be accepted, and that the committee be instructed to make the purchase. This was seconded by the Mayor and carried.

The truck will contain one 28-foot wall ladder; one 24-foot wall ladder; one 20-foot wall ladder; one 12-foot trussed roof ladder; one 14-foot roof ladder, with folding hooks; two fire axes; 4 lanterns; 2 crow bars; four pike, plaster and lifting poles; one pult down hook, and one 54-foot double rapid hoist trussed extension ladder.

850 BELL TELEPHONES IN NEW DIRECTORY ISSUED

To-day the Bell Telephone Co. is issuing new directories to city subscribers. This issue of the directory is considerably different from those previously published. It is for Central Ontario, and embraces a territory east of Brantford, Berlin, Listowel and Kincardine to Port Hope and Peterborough, including the section of Northern Ontario as far as Orillia.

In the past, two directories have covered the Province, outside of Toronto, but, with the rapid increase in the number of 'phones in use, it was become necessary to publish three, one each for Western, Central and Eastern Ontario.

The new directory shows that Peterborough has now 850 Bell telephones installed, the increase over the number in the last directory being 81, which represents the number of new connections made during the last six months.

The 57th Band Will Soon Be Heard In Victoria Park

Idols of the Music-Loving Public of Peterborough Promise Splendid Programmes—Bandmaster Gliddon Will Wield the Baton in Old-Time Form.

MAY JUPITER PLUVIUS SMILE

The many citizens who are looking forward with pleasure to the re-appearance of the Regimental Band in Victoria Park are no doubt expecting even better concerts, if possible, than those of last year. Last summer the Friday night concerts were ideal, and attracted weekly large crowds. Almost everyone is proud of the 57th, and a few words as to present prospects may not be amiss.

Mr. R. Gliddon, bandmaster, announces that the concerts will commence in June and hopes that weather conditions will be compatible with enjoyment, and will not interfere with the concerts as was the case several times last year. Mr. Gliddon considers that the band, as a whole, is in better condition and is playing finer than at the beginning of any other year. There have been several changes in the composition of the band. Two solo clarinet players have been added, which will materially strengthen the reed section. They are E flat and B flat players. There are several other changes, among them a splendid cornet player from England, whose services will be of assistance.

The band has been faithfully practising and has a varied repertoire to draw upon. Several grand opera selections have been practised and are said to be particularly good. Mr. Gliddon mentioned a descriptive piece, "Under the British Flag," a collection of the national songs of all the countries in the Empire. There are also pieces of the catchy character which could not be neglected.

Someone has mentioned that the selections from the "Gingerbread Man" and the "Royal Chef" would be as popular as those from the "Yankee Consul" and the "Explorers" of last year.

From this it may be seen that the band is going to add new lustre to the reputation it has already acquired in the citizens' estimation.

AGITATION FOR HALF HOLIDAY PLAN

May Begin This Year in June—Popular Among the Clerks

The Thursday half-holiday plan for the clerks, merchants, lawyers, etc., is already being agitated. It is probable that the half-holidays this year will begin in the first week in June and continue through that month, July, and probably part of August. The Thursday half-holiday plan proved quite popular last year, especially among the clerks and lawyers, so that the agitation for it this year will be strenuous.

Piles Cured in 6 to 14 Days

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, or money refunded. 50 cents.

MURRAY STREET BAPTIST LADIES GAVE CONCERT

A Decided Success in Every Way—School Room Was Filled With Appreciative Audience.

The Willing Workers of the Murray street Baptist church gave a delightful concert in the Sunday school room last night. There was a large attendance of friends and members of the church, who expressed themselves as highly delighted with the splendid concert provided. The pastor, Rev. J. R. Webb occupied the chair, and made a few remarks as to the purpose of teh young ladies in giving the entertainment, and on their behalf thanked all those present for their kind assistance. The concert was a financial success, over $50 having been received. A synopsis of the programme is given herewith:

Opening Hymn, Diadem.
Prayer by Rev. J. R. Webb.
Chairman's address.
Piano solo, Miss Frances Routley.
Dialogue, Taking the Census.
Recitation, Miss Greta LeBar.
Solo, Mr. Tronsell.
Instrumental duet, Misses Bessie and Bella Etcome.
Violin solo, Miss Hope Miller.
Solo, Miss Olive Howell.
Recitation, Miss Greta LeBar.
Selection, Mandolin Club.
Instrumental duet, Misses Janet Quinn and Emily Walker.
Dialogue, Bridget's Investment.
Duet, Miss Clara Kidd and Mr. Tronsell.

After the musical part of the programme the young ladies served light refreshments which were greatly appreciated.

The different numbers "caught on" with the audience and several encores were demanded.

MINISTER'S TRANSFER IS RATIFIED

Rev. P. M. Currie Will be the New Pastor at Presbyterian Churches in Warsaw and Dummer

The transfer of the Rev. P. W. Currie of the Hamilton Presbytery, up to the present time pastor of the Port Colborne Presbyterian church to the charge of Warsaw and Dummer, was ratified at a meeting of the Presbytery held at St. Catharines Tuesday. Rev. Mr. Currie, therefore, will be the next pastor of these churches, as he was given a call some little time ago.

SEVENTEEN INMATES IN HOUSE OF REFUGE

Two Recently Entered It From Belmont —Six Women and the Rest Are Men

The number of inmates in the County House of Refuge is increasing rapidly. At the present time there are 17, the largest number since the building was opened. Two recently came to the institution from Belmont, making the number as stated.

There are six women, and the remainder are men.

FOR SALE.

That well built brick house and lot situated at the corner of George and Dublin Streets, also excellent corner lot. This property is to be sold to wind up an estate, and all particulars may be had at 580 George Street. dtf

PECULIAR DIFFERENCE BETWEEN WEIGH SCALES

An East City resident informed the Examiner this morning of a peculiar difference existing between the market scales and an East City weighing scale. He stated that two hogs on the latter weighed 400 lbs., but the same animals only weighed 380 lbs on the market weigh scales.

DELICATE CHILDREN

Advice to Peterborough Mothers Who Have Delicate Children.

If we could only make all fathers and mothers in Peterborough regard what we say there would be fewer sickly, delicate children on our streets.

Rapidly growing children need a great deal of vitality. They grow fast, play hard, and work too hard at school, and many such children are tired, thin, pale and worn when they ought to be robust and rosy.

Every run-down, growing child in Peterborough should take Vinol, our delicious cod liver preparation without oil. It requires almost no digestion at all and cannot upset delicate, weakened stomachs as do old-fashioned cod liver oil and emulsions. Vinol also contains peptonate of iron.

It strengthens the digestive organs, makes new vitality, sound flesh and muscle tissue, strong bone structure and pure, rich, red blood. Vinol fills out hollow cheeks and makes thin little arms and legs plump and round.

Said Mr. McDermid, of McDermid & Jury, our local druggists: "We cannot recommend Vinol too highly for puny, weak and ailing children, to build up the run-down, over-worked, tired and debilitated, or to give renewed vitality to the aged, and we cheerfully refund the money in every case where it fails." McDermid & Jury, druggists, also at The Market Drug Store, (The Ormond & Walsh Old Stand.)

LONDON STREET WEST IN BAD CONDITION

Resident in Neighborhood Complains of Wretched State of Road

A London street resident called at the Examiner office last night for the purpose of expressing indignation at the state of that thoroughfare between Gilchrist and Park street. The road was so bad, he stated, that yesterday a load of lumber became stranded in the mud. The road as it is now, he said, is a disgrace to the city and he thought that something should be done at once to remedy this condition of affairs.

WOMEN'S HOME MISSIONARY SOCIETY RE-ORGANIZED

The Officers Will be Elected a Week From Next Tuesday.

The Woman's Home Missionary Society of St. Andrew's church, was reorganized last night at a meeting at which Rev. J. G. Potter presided as chairman. There was no important business transacted, the election of officers being deferred until after the meeting of the Women's Foreign Missionary Society, a week from next Tuesday.

Mrs. Robert Hall, gave an account, in a well worded address of the annual convention of the Women's Home Missionary Society, held in Toronto last March. Mrs. Hall dealt particularly with the work done by the society in the west, among the newly settled foreigners. Mrs. Hall's address was greatly appreciated.

NEW TENDERS TO BE ASKED FOR SUPPLIES

School Board Have Been Successful in Method of Contracting for Public School Supplies

The scheme of supplying text books and other school-room requirements by the Board of Education has proved a decided success. Not only is it a help to the children that they may readily obtain the best books and other necessities, but it is also most satisfactory to the teachers. They can obtain better results in their teaching since the class as a whole is uniformly provided. There have been no drawbacks to the scheme and it has been readily adapted in all the rooms. It assists very much in promoting proper management in the classes and in every respect has been a decided advantage to the school work.

At the meeting of the Board last night Mr. Pringle made a few remarks about this subject and moved that the Supervision Committee advertise for tenders for new supplies for 1907-8 with power to award the contract. Dr. Burnham seconded the motion. Liberal allowance was made last year so that at present there is a small supply still on hand. Moreover, all expenses have been met and there is yet a surplus showing that financially the scheme has been a success.

The adoption of this means of providing text books, etc., was certainly a wise one and the School Board should feel elated that the scheme proved as they expected. It was an excellent move on the part of the Board and showed that they are pursuing modern methods in every department of the management of the various schools.

Record Millinery Selling At Attractive Prices

AS THE FLOWER-COAXING SPRING DAYS multiply, our Popular Millinery Department Blossoms more profusely than ever, with its marked superior, and clever interpretations of the New York, London and Paris Models. WILL BEAUTIFY SCHOOL GROUNDS

King Edward School Grounds Will be Planted With Young Trees and a Lawn Prepared

The surroundings of the King Edward School received some attention from the School Board last night and measures were taken to beautify the grounds. Mr. Dumble proposed that a sum, not exceeding $150, be set apart to be used in plowing and planting the grounds around the new school. The school garden question was previously dealt with and it was the opinion of Mr. Dumble that young trees be planted and a nice lawn prepared. It is a move in the right direction, as young children should be taught to appreciate natural beauty and it is only by being in constant touch with fine surrounding that they will learn to appreciate them. Unconsciously natural beauty elevates the budding character and a trifle expended in this way generally accomplishes a great deal.

The matter was left in the hands of the Building Committee of King Edward School on motion of Mr. Pringle and Mr. Crane. This committee is given the power to act as they think advisable.

Cement Walks

Mr. Robinson mentioned the fact that the approaches to the new school are altogether too narrow and the steps are even dangerous. Something should be done, he said, to remedy this state of affairs before the opening, next September, and it was best to see to it at once. The Building Committee was asked to make arrangements for widening the walks and steps.

No Worm Medicine acts so nicely as Miller's Worm Powders; no physic is required. Sold by W. Madill.

WELL KNOWN OFFICIAL HAS RESIGNED

Mr. J. F. Junkin Leaving Manufacturers Life Company to Open a Financial Office

Mr. J. F. Junkin, a graduate of teh Peterborough Collegiate Institute, and well known to many persons here by reason of the fact that he lived here at one time, and also by reason of his position as Managing Director of the Manufacturers' Life Company, has resigned from that position and will enter business for himself in Toronto, opening a financial office in that city.

A DEMONSTRATION FOR THE HOLIDAY

Aylmer Fire Brigade Announces a Big Day's Programme of Sports for Victoria Day

The fire department of Aylmer, Ont., announce a grand celebration on Victoria Day, May 24th. A mammoth Calithumpian Parade will be one of the features and one hundred will be offered for prizes in this event. During the afternoon a varied programme will be given, including a baby show. In the evening the Aylmer Minstrels will give an entertainment. The committee of the brigade has sent posters announcing the event to the city.

PETERBOROUGH MEN ARE CLEVER

Bowmanville Statesman Refers to Distinction This City Has in Being the Home of Two Discoverers in Medicine.

The Bowmanville Statesman, in its last issue says:—

Peterborough daily papers are forever launching startling sensations. Thursday's Examiner endeavoured to throw two rays of hope around this diseased world by announcing in flare headlines another "great medicinal discovery made by a Peterborough man," Mr. E. R. Mitchell (men of that name are invariably clever) has discovered a sure cure for catarrh—superior to anything on the market. Isn't it a remarkable coincidence that remedies should be discovered by Peterborough men for both consumption and Catarrh, twos of the most insiduous and difficult diseases to cure known to the medical profession.

THE ENGINEERS ARE NOW AT WORK

An Early Start Made at Trent Canal on the Lake Ontario End—Mr. Brophy at Trenton

Trenton, May 7.— Mr. J. B. Brophy, engineer-in-charge of the Trent Valley Canal construction at the Trenton end, arrived on Saturday along with his assistant engineer, and offices will be immediately opened and construction work be pushed ahead. The rest of the staff engineers will arrive in two or three days.

The big dam, half a mile north of the G.T. Railway bridge will be the first job.

57TH REGIMENT TO GO TO BROCKVILLE

The Regiment of That Place Have Postponed Their Trip to Niagara

The annual trip of the regiment will probably be to Brockville this year. The battalion decided to go there, providing the regiment of that city postponed their proposed trip to Niagara on July 1, and this morning Captain Mills received a telephone message from there stating that they had decided to make the postponement. A meeting of the captains and staff will be held in the mess-rooms of the drill hall to-night to complete arrangements.

The 57th will leave Peterborough on Saturday night, June 29, and remain in Brockville until the night of July 1.

In the event of the Brockville regiment having decided to go to Niagara on July 1, the local battalion would have made St. Catharines their objective point.

MEMBERSHIP OF CHURCH NUMBERS 676

An Increase of Twenty-five Reported for George Street Methodist Church During the Year

The class leaders of the George street Methodist church met last night, when the membership roll of the church was examined. It was found that after deducting 42 from the roll, representing deaths, removals, etc., during the year, the net increase in the membership amounted to 25, and the total membership of the church at the present time is 676. This is the statement that will be reported at the annual district meeting.

BREWING COMPANY CAVANAGH CASE

Appeal Case Was Heard in Toronto and Dismissed—Costs to Defendants.

The case of the Port Hope Brewing and Malting Co. and Mr. T. Cavanagh was up in Osgoode Hall yesterday. The Globe, reporting the case, says: Port Hope Brewing and Malting Co. v. Cavanagh.—A. B. Marine, for plaintiffs, appealed from order of Riddell, J., dated 26th April, 1907, dismissing plaintiffs' appeal from order of Master in Chambers, refusing to set aside notice of abandonment of appeal served by former solicitor for plaintiffs, the taxation of costs, and all subsequent proceedings. R. E. Wood, Peterborough, for defendants, opposed appeal. Appeal dismissed. Costs in cause to defendants. The substantive motion for leave to appeal from judgment of MacMahon, J., notwithstanding service of notice of abandonment of same granted and case directed to be restored to Divisional Court list. Costs of this motion costs in appeal to defendants.

The Chest Pains Of Bronchitis

If the cough is dry and hard, if there is pain, soreness and tightness in the chest, if you have difficulty in getting your breath, you have reason to suppose that you have bronchitis. Lest it should become chronic and lead to serious lung trouble do not delay the use of Dr. Chase's Syrup of Linseed and Turpentine, the most certain cure for bronchitis.

MR. WM. MAY GETS INTO TROUBLE

Appeared as Plaintiff at Police Court—Accused Mr. Martin Connors of Striking Him in the Mouth.

MR. CONNORS DISCHARGED

Said Mr. Dumble this morning to William May: "When you call a man a liar you must expect trouble, and you should feel that you will be able to take the consequences. Your case was a clear breach of the law, and I am not going to fine Mr. Connors, although he did wrong in striking you. Still there are often provocations which human nature finds difficult to withstand. You should have taken your medicine like a man. You broke the law yourself, and then you come here thinking to find refuge after stirring up trouble."

William May charged Mr. Martin Connors with having assaulted him on May 7 in his hotel, but, with the above words, Magistrate Dumble dismissed the case.

Circumstances

Mr. Connors had some graining and paper-hanging to be done, and Mr. May said that he was the best man at that business in the city. Accordingly, Mr. Connors hired him, but he came to work whenever it suited him, and the job was in an unfinished condition when it should have been long completed. The defendant said that he had had enough of that, and told Mr. May to hand in his time. Mr. Connors paid him $10 for his labour and $3.85 for material, and another painter said that a five-dollar bill was all the job was worth.

Another painter was engaged, and May came into the hotel, was refused liquor, and went out and insulted the new man. The next day he appeared again and said to Mr. Connors (this is the latter's evidence): "We're not going to be enemies over this, are we?" Defendant said that he was not mad, neither should the plaintiff be, as he had got all the money owing to him. May replied that he had not, and in the argument, in which he used strong language, he called Mr. Connors a liar.

Hit him on the Mouth

This was all the latter could stand, so he swung around and hit May a back-hand blow on the mouth. A scuffle ensued, which was soon over and done with.

Such was the story related in the Court by the various witnesses, and on this Magistrate Dumble discharged Mr. Connors.

COMPLETE NAVIGATION ARRANGEMENTS ARE MADE

T. A. S. Excursion is Expected to Eclipse All Those of the Past in Numbers and Pleasure.

The committee in charge of the T. A. S. excursion for July 1 have made final arrangements for conveying what they believe will be the largest excursion crowd that ever sailed the Otonabee. The steamer Monarch and barge and the steamer Rainbow have been chartered and should prove ample accommodation for the large crowd that is sure to be present, providing the skies are smiling and clear. The first trip will be made from the Wolfe street wharf and every half hour after the first trip the boats will call at the street railway wharf.

The committee are promising that more means of pleasure are being prepared, and this excursion should be the greatest in the records of the T. A. S.

WERE THEY "PALS" OF CHAMBERS?

Toronto Police Identify Men Charged With Theft in Fort William

The Toronto police evidently believe that Chambers, who was recently sentenced to six years in Kingston Penitentiary by Magistrate Dumble was a member of a bad gang. The Globe to-day says:—

William Tremble and Robert Graham, who were arrested in Fort William recently, charged with stealing $960 on May 3rd, are identified by Inspector Duncan's department as dangerous criminals well known here. They are, it is alleged, members of a gang of which Chambers, the man who was sentenced in Peterborough for injuring three men there, recently, was a member.

MEDICAL EXAMINATION OF THE SCHOLARS

Board of Education Discussed the Matter—Proposition to Have Public School Pupils Examined by Health Officer

Another important question was broached at the regular meeting of the Board of Education last night. On previous occasions the Board has adopted new measures which have invariably been of great advantage to those interested, and have facilitated school work.

Mr. Pringle spoke last night on the subject of the examination of the pupils' sight and thought that the duties of the person appointed for this purpose should be more comprehensive. There is a great deal of disease among the children at present most of which is infectious. Mr. Pringle suggested that someone should be appointed to investigate cases of this character, also to examine the eyesight, and deal with other physical imperfections which the parents may not have noticed, but which a skilled doctor would readily detect.

Mr. W. H. Hill also spoke on the subject. He read an article from the Monthly Review of Reviews which dealt specifically with disease among school children, and showed that 90 per cent. were affected with a particular ailment which the parents were unaware of. This plan has been adopted in many cities in Canada and the United States and the evident result is that it would tend to develop better young men and women, especially in conjunction with domestic science and physical culture.

Medical Health Officer

Mr. Pringle in his remarks suggested that a Medical Health Officer could attend to the duties of the school and not interfere with his regular work. Besides the Board would make a grant thereby increasing his salary. This question was discussed by the other members who were favourably impressed with it.

TATE OPTICAL CO'Y

G. N. BABCOCK, Eye Specialist

412½ GEORGE STREET, PETERBOROUGH

UNSOLICITED TESTIMONY

The Tate Optical Co., Peterborough:

DEAR SIRS.—During the last three or four years (prior to May last) my eyesight had failed to such an extent that I was unable to read or see anything at close range and could get no Glasses that would help me. I tried two different Opticians in Toronto and was told by both that they could do nothing for me, and that my sight would never be better. A statement of my case was sent to Montreal by a Hastings optician and several pairs of Glasses sent me, but with the same result my vision could not be improved. Last May, while looking at a Pair of Glasses you made for Mr. John Fife, Keene, and talking with him he advised me to consult your Mr. Babcock, and I am pleased to say that the Pair of Glasses he made for me have given me entire satisfaction and I can do now what I have not done for years past—read any ordinary print and see distinctly at close range. I feel very grateful, not only for the interest you have taken in my case, but particularly as for the blessing of good eyesight. Thanks to your knowledge and skill.

Yours truly,

(Signed) JOHN CARTER, Sr.,

Hastings, Ont.

Mallory CRAVENETTE HATS

Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again.

"Fruit-a-tives" are the one certain cure for Constipation

because their action is upon the liver, "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a-box—$2.50 for 6 boxes. At all dealers'.

IRISH COUNCIL BICL WAS DISCUSSED

Mr. Birrell's Measure Introduced Before British Commons.

HOME RULE NOT GIVEN YET

Government by Council—Partly Elective and Partly Nominative—Irish Fund of $20,000,000 to Be Created—New Body Will Administer Eight Departments—Imperial Supremacy Is Guarded.

London, May 8.—The Irish Bill, designed to meet the demands for Irish Home Rule, was introduced in the House of Commons yesterday by the Chief Secretary for Ireland, Mr. Birrell, in the presence of an audience which crowded every corner of the Chamber. The bill provides "for the establishment and functions of an administrative council" for Ireland, with headquarters at Dublin. The Irish Secretary and those in his confidence kept their secret well, with the result that the political curiosity was keen to learn the precise details of the scheme, which is likely to create a prolonged controversy.

Object of the Bill.

At the outset Mr. Birrell explained that the object of the bill was to associate the sentiment of the Irish people as a whole with the administration, the statutes and the regulations which directed the conduct of purely Irish affairs. It did not contain any trace of new legislative power. It would not authorize the laying of a single tax or rate. The departments coming under the control of the proposed Irish Council would be the local Government Board, the Department of Agriculture, the congested districts board, the commissioners for public works and national education, the inspectors of the reformatory and industrial schools and the Registrar-General. The Supreme Court judicature, the Royal Irish Constabulary, the Dublin Metropolitan police, the land commission and the prisons board would remain under the control of the Imperial authorities. A representative administrative council, consisting of 82 elected and 22 nominated members, would be established. The latter would be nominated for the first year by the King and thereafter by the Lord-Lieutenant of Ireland.

Modified Form.

Prior to the appearance of the measure it was popularly termed a "Devolution Bill," but to-day its advocates refer to it as the "Irish Council Bill," owing to its creation of a Council to take over a number of the administrative features of Irish rule. But to Ireland and the general public the bill is the "Irish Bill," with Home Rule presented in such new and modified form as to enlist the support of elements hitherto hostile.

The elected members would be elected on a local government board franchise.

The Under-Secretary for the Lord-Lieutenant of Ireland would be an ex-officio member of the Council, which would have complete control of the powers vested in the departments to be handed over to its care.

The exercise of the powers vested in the departments will be controlled by resolutions of the Council and the supremacy of the Imperial Parliament will be safeguarded by the power given to the Lord-Lieutenant of Ireland to reserve his consent to any resolution of the Council. A new education department for primary and secondary education is to be established, and will be placed under the control of the Irish Council. The Council would be elected for three years.

For financial purposes eight departments would be created. A certain annual sum to be fixed by Parliament every five years would be charged to the consolidated fund, and paid into a separate Irish fund. A special Irish fund to amount to a little over $20,000,000 yearly would be created.

The religious disability feature would be removed from the office of Lord-Lieutenant of Ireland.

The Council would have the power to appoint and remove officers from the eight departments above mentioned.

In conclusion, the Irish Secretary said that if the new Council proved a success, it might pave the way for Home Rule.

Balfour Condemns.

Mr. Balfour, the Opposition leader, characterized the bill as grossly unfair, as the Irish members of Parliament were still able to interfere in English and Scotch affairs, while the House of Commons would be unable to say a word in the analogous business about to be transferred to the new council.

The measure would not legitimately relieve the aspirations of the Irish, and would only cause confusion in the administration and entail real grievances on Scotland and England.

London Election Trial.

Toronto, May 8.—The London election charges will be tried here.

That is the decision which Mr. Justice Britton handed out yesterday. E. F. B. Johnston, K.C., on behalf of John O'Gorman and others moved to have the venue changed to London.

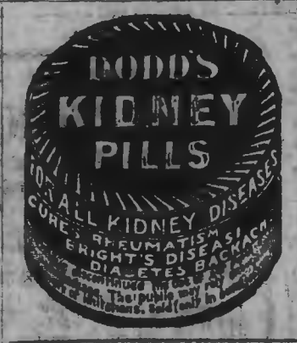
His Lordship admitted the reasonableness of the defence's application to have the venue changed to London on the ground of economy, but decided that as the alleged offences were said to have taken place in Toronto and as there was no suggestion that a fair trial could not be obtained here, it was impossible to change the venue on the grounds laid down in the application.

Negro Lynched.

Dearing, Ga., May 8.—Charlie Harris, a negro farm hand, who Monday shot and seriously wounded Hayden Pearson, a prominent farmer, was lynched that night by a mob of about forty unmasked men. Members of Harris' family then were whipped and ordered to leave the country.

Slays Wife, Babe and Self.

Washington, D. C., May 8.—Wm. O. Rice of this city yesterday shot and killed his wife, mortally wounded their baby, and then committed suicide by shooting.



BOY BANDIT FAILED IN HOLD-UP

Youthful Desperado Shoots Himself to Escape Arrest.

ATTEMPTED HOLD-UP FAILED

Belonged to Good Family — Turned From Home, Tries to Rob Two Conductors—Victims Showed Fight—Young Robber Fled—Shoots at Policeman — Suicides Fearing He Had Killed Him.

Philadelphia, May 8.—Foiled in his attempt to hold-up, with the aid of a companion, two trolley conductors in West Philadelphia yesterday, and fearing that he had killed a policeman in his effort to escape, Harold S. Jones, aged 16 years, shot and killed himself on the street, as he was about to be captured. A companion, G. H. Geddis, aged 18 years, was arrested at his home.

Jones belonged to a good family, his father being a prosperous business man. The boy had some differences with his father Monday, and he was told to "shift" for himself. As the boy was leaving the house his weeping mother asked him what he was going to do, and he replied: "I don't know, and I don't care."

Jones sought out Geddis, and they were not heard of again until they turned up in West Philadelphia and tried to hold up the two conductors, who were on their way home from their night's work. Jones drew a revolver and ordered the conductors to hold up their hands, but instead of complying they showed fight, and Jones and his companion fled. Policemen saw the occurrence and gave chase. After running a block, Jones turned and shot at one of the pursuing policemen. The bullet went wide of the mark, but the policeman, in order to deceive the fleeing youth, dropped to the sidewalk as if he had been shot.

Jones saw him fall and stopped. He did not approach the policeman, but backed up against the side of a house and sent a bullet into his own heart.

INSANE MAN'S TERRIBLE DEED.

Shoots Six People at House Where He Was Staying.

San Francisco, May 8.—Walter Charley Davis, a carpenter, in a fit of insanity yesterday, shot and killed a family of six persons, with whom he resided in Pierres street, in this city.

Orson R. Bush, aged 57, his wife and their young son.

W. S. Bard, carpenter.

M. E. Zinlon, surveyor, recently from New York.

One lodger escaped. She was a girl of 17 years. Davis pointed his gun at her and was preparing to shoot when he said she resembled his daughter, so he spared her life.

Davis and his victims all resided with the Bush family. Davis' home was in Farmersville, this state, where he has a wife and six children. He has been working here as a carpenter since the fire.

The shooting was done with a double-barreled shotgun. Davis, who slept in the same room with young Bush and Bard, arose shortly after 1 o'clock, and after arming himself with the gun, shot his two roommates. Then he visited each room in turn, killing the occupants.

Davis fancied that the people in the house had formed a plot to kill him and take his money.

Newfoundland Right.

St. John's, Nfld., May 8.—The Supreme Court of Newfoundland yesterday gave a majority decision upholding the Colonial Government in its contentions respecting the so-called Bay of Islands herring fisheries' case, in which the right of Newfoundland fishermen to be employed by American vessel owners within the three-mile limit was involved.

Tillsonburg's Bylaw.

Tillsonburg, May 8.—The bylaw granting a loan of $15,000 and exemption from taxation for 20 years, to William Berry, for the establishment of a linen factory in Tillsonburg, was carried by 348 to 6.

THE RECORD CALORIFIC

Our warm air heat producer for churches and large public buildings, possesses a very important feature in the fact that it has two air courses—the air travels up through both the inner and outer castings. All products of combustion and completely come in direct contact with surround the hot air columns, thus making the largest amount of heating surface to every square foot of grate surface ever achieved in a warm air heater. The flue construction admits of heat being forced direct to the most distant and most exposed part of the building to be warmed. 107

BUY
BLUE BELL
LARDER LAKE
NOW 10c PER SHARE.
BEFORE THE BIG ADVANCE.
AFTER MAY 15TH 50c PER SHARE.

SPECIAL REGARDING LARDER LAKE.

We are ready to stake our reputation and standing, both present and future, also our money, on the present conditions of Larder Lake as to its being a wonderful Gold Field in every sense of the word. We are very cautious as to what we recommend for investment. We have many propositions presented to us that do not come up to our requirements.

We have gone to a great deal of expense in ascertaining the true merits and real condition of the Blue Bell properties at Larder Lake. In order to satisfy ourselves beyond question we despatched three different crews of men to make examinations. They were supplied with dynamite to blow out the ore at various localities of the Blue Bell properties and ship direct to us. Neither of the crews knew or were aware of the others being in the field. We have received ore and reports from each crew. We have received hundreds of pounds of ore and can say we are astonished at the results.

There is not a single piece, from the size of a hickory nut to the largest piece, weighing two pounds, that does not contain free visible Gold that will assay anywhere from Two Hundred Dollars ($200.00) to Twenty Thousand Dollars ($20,000.00) to the ton; these are facts which we can verify if required.

Men with large quantities of materials are now on the ground, establishing camps for the Blue Bell Company. There will be no time lost in installing Stamp Mills. We cannot here take space to tell all the pains and expenses we have gone to in order to satisfy ourselves as to the real merits of the Blue Bell properties in order that we would not mislead the investing public in misplacing their investments.

We are satisfied beyond question as to the Blue Bell properties and can recommend without reservation investments therein. We believe that the memberships consisting of 1,000 shares, which can be purchased to-day for One Hundred Dollars ($100.00), will be worth in one year Two Thousand Dollars ($2,000.00) each.

We strongly urge the immediate purchase of these memberships; we are willing to stake our reputation and standing on this proposition; we are placing our own funds in it, and have no fear of the ultimate results.

The rate at which these memberships are being taken exceeds our most sanguine expectations. We appreciate the confidence the investing public place in our recommendations. We pledge loyalty to every client and the near future will demonstrate that their confidence has not been misplaced.

To all our clients and friends we desire to impress upon them this fact: Larder Lake will undoubtedly be one of the greatest, if not the greatest, Gold Districts in the world. We have taken every precaution and have made thorough and systematic investigations and can say that the Blue Bell is the opportunity of a lifetime.

BUY NOW before the big advance. On or about May the fifteenth Blue Bell shares will be advanced to 50 cents per share. They can be purchased now in our Syndicate Pool in 1,000-share lots at 10 cents per share, requiring an investment of $100.00. On or about May 15th (this month) the market value of 1,000 shares of Blue Bell will be $500.00. This is a profit of 400 per cent. We are of the firm belief that within one year 1,000 shares of Blue Bell will be worth $2,000.00. Blue Bell consists of 28 40-acre gold claims (one 40-acre claim having been recently purchased near the Reddick property), 1,120 acres in all. Fully paid for. No indebtedness. Blue Bell shares have no personal liability and are forever non-assessable. Men are now on the Blue Bell properties establishing camps and preparing for the stamp mills. Blue Bell will be sending out gold this summer. Now is the time to buy—before the advance—at bottom prices.

August 1—Peterborough at Orillia.
August 5—Young Toronto at Peterborough.
August 8—Orillia at Beaverton.
August 10—Peterborough at Newmarket.
August 15—Newmarket at Orillia.
August 17—Beaverton at Toronto.

OVAL TENNIS CLUB ELECT OFFICERS

Annual Meeting Held Last Evening—Club Has Proved to be a Popular One.

A CONSTITUTION ADOPTED

The annual meeting of the Nicholls Oval Tennis Club was held in the parlours of the Y.M.C.A. last night when the officers for the year were elected, a constitution adopted and other matters of business transacted. The president, Dr. Middleton, occupied the chair and conducted the business of the meeting. About 25 members were in attendance and all took an active interest in the welfare of that popular club.

A constitution was adopted, one of the conditions of which is that the club will be restricted to 40 members. Several new members whose names were handed in were added to the strength of the Club. This as well as the election of officers was done by ballot.

The secretary-treasurer, Miss W. Dobbin, read the report of the finances of the club for the past year, which was adopted. The following officers were elected for the coming season:—

President—Mr. C E Sisson.
Vice-President—Mr. H. Wareham.
Sec.-Treas.—Miss Birdie Thompson.
Executive Committee—Miss. Winnifred Dobbin, Miss Grace Coolidge, Mr. D B MacRae and Mr. R P Best.

WILL BE POPULAR THIS SEASON

Evidences Point to a Successful Season for Golf in Peterborough During This Year.

Prospects for the success of the Peterborough Golf and Country Club have never been as bright as they are at the present time. Mr. Wm. Bell, the professional, whose services will be given to the members of the Club during the present season has arrived and has entered upon his duties. The links are being thoroughly cleaned up and put in good shape for the season, and, the fact that applications have been received from a number of candidates for membership, is evidence of the increased popularity which the game will enjoy this year. A number of improvements have been made to the club house and grounds, French windows having been built in the former, and the whole building repainted. The boat house is being newly fitted up, and it is understood that a number of the members will keep their canoes there this season.

The tennis courts, too, will be more popular than ever this season, judging by the many who are signifying their intention to play that game, and for these the courts are being put into good shape.

Mr. A. P. Stratton is the energetic captain of the Club this year and is starting out in a way which cannot help resulting in the success of the Club.

A game will be played in Toronto on Victoria Day, with a team representing the Peterborough Club, and by that time the links here will be in good shape.

GOT A PAIN IN YOUR BACK?

You get a pain in your back, and you wonder what is the matter. You perhaps pay no attention to it. Backache is caused by imperfect action of the kidneys, in fact, is the first sign of kidney trouble to follow.

The kidneys, proper, are composed of a close network of fibrous tissue, interlaced with tiny elastic fibres. Their object is the excretion of the uric acid, and other poisonous matter composing the urine, from the blood.

They are continuously at work to preserve the general health of the body and most people are troubled with some form of kidney trouble, but do not suspect it.

Some of the symptoms are: A feeling of weakness in the small of the back, sharp pains in back, puffiness under the eyes, and swelling of the feet and ankles, urinary troubles such as suppressed urination, excessive urination, cloudy, thick or highly colored urine, etc.

Mr. J. L. Whiting, Conshewk Centre, Ont., writes: "I suffered for two years with kidney trouble. I had terrible pains in my back, hips and legs. I could not sleep and had a poor appetite. I took four boxes of Doan's Kidney Pills, and the pains left me, my appetite returned and I can sleep well. I can recommend Doan's Kidney Pills to anyone suffering from kidney trouble.

Doan's Kidney Pills are 50 cents per box or 3 boxes for $1.25 at all dealers or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

TARGET PRACTICE TO BEGIN TO-NIGHT

Rifle Committee Met Last Night to Arrange Nights for the Companies

At a Rifle Committee meeting last night, to make regulations for carrying out the shooting practices with the Morris tubes at the imitation targets, it was arranged that Nos. 1 and 3 Companies will shoot on Saturday afternoons and evenings; Nos. 6 and 8 on Mondays; Nos. 4 and 5 on Wednesdays; Nos. 7 and 2 on Friday evenings. The captains will detail two sections from each company for the practices.

The orderly officers for the week will superintend the shooting. Practice commences to-night and will continue until each man has proved himself efficient.

In order to receive the efficiency pay each man must make 50 per cent. at 25 and 50 yards.

INTERMEDIATE LEAGUE PROSPECTS BRIGHTER

Prospects are becoming brighter every week for a good intermediate ball league. The Karenots are anxious that a league be formed and claim that they will make a few of them go. The Lilies are also game for a league, but the Lakeviews will likely be represented and should assist in making things interesting. The East City is yet to be heard from and the Y.M.C.A. have the material for a fast nine if they will enter the league. It is a good idea, and should be boosted by the young bloods if they want lots of practice and good fun.

HARRIERS WILL HAVE A TWENTY MILE RUN

Will Meet To-night for Practice—Going to Sandy Point

The Harriers leave the Y.M.C.A. to-night at eight o'clock for a three mile run. They intend to get into shape for a twenty-mile run to the Y.M.C.A. camp at Sandy Point this year. The following are requested to turn out to-night at 8 o'clock.

Elliott, Brace, B. Lang, M. Darling, Emmerson, McRae, Dingman, R. Best, E. Best, M. Wilson, P. Wallace, Redgrave, E. Brace, R. Fitzgerald, M. Yelland, G. Finch, Brown, Roe, Barber, J. Collins and others.

SCHEDULE FOR MIDLAND LEAGUE GAMES

Dates of Final Games of Intermediate Series Arranged

In view of the entrance of the Hastings Football Club into the Midland League ranks, the following schedule has been arranged for Group 4:

May 18 — Campbellford at Hastings.
May 24 — Warkworth at Campbellford.
May 28 — Hastings at Warkworth
June 1 — Campbellford at Warkworth.
June 5 — Warkworth at Hastings.
June 8 — Hastings at Campbellford.

The schedule for the semi-final and final rounds is:

June 15 — Winners of Group No. 3, at winners of No. 1.
June 15 — Winners of No. 2 at No. 4.
June 22 — Winners of No. 1 at No. 3.
June 22 — Winners of No. 4 at No. 2.
June 25 — Winners of Nos. 1 and 3 at winners of Nos. 2 and 4.
June 29 — Winners of Nos. 2 and 4 at winners of Nos 1 and 3.

BASEBALL

A meeting of the employees of the Rapid Tool Company is called for to-morrow night for the purpose of organizing a baseball team. A number of good ball players are employed in the plant and a fast team could be placed on the field. The meeting will be held at the National Hotel.

• • • •

The meeting of the Night Owls and Excelsiors called for last night for the purpose of organizing a Trent Valley team was postponed owing to the small attendance, and will be held to-morrow night at the Windsor Hotel, when all members of both teams are asked to be present.

FOOTBALL

A full practice of the Peterborough Quaker football team is called for to-night at the Exhibition grounds at 6.45 o'clock. A team will be chosen to-night for the exhibition game with Norwood on Saturday afternoon in the latter village.

• • • •

The Midland League schedule, has been rearranged to have the Peterborough O.C.W. intermediate team play Omemee here on Saturday, May 18th, the return game to be played in Omemee on May 24th.

That tired languid feeling and indisposition to effort of any sort, will be rapidly removed by the use of Miller's Compound Iron Pills. Sold by W. Madill.

BOWLING

The members of the Lawn Bowling Club are requested to be in attendance at the adjourned annual meeting in the Dominion Bank Chambers to-night, beginning at 8 o'clock.

"Your friend, Mrs. ——— is looking very much improved in health." "Yes; we persuaded her to try Miller's Compound Iron Pills, with the result that you perceive." Sold by W. Madill.

LACROSSE

The Peterborough Lacrosse Club is making arrangements with John C. Miller's team which is to tour Australia this summer for a game here on May 24th, and it is altogether likely that the game will be played. The tourists will have a very strong team and the game should prove a great drawing card for the holiday. The locals will play a return game in Orillia on June 3rd. The team for Australia will sail on June 9th.

Concert Postponed

The concert to be given by St. John's J. W. A., has been postponed until Friday, May 17th. Candy for sale at this concert. It

Collie Dog Gone

Mr. Miller of Aylmer street lost his thoroughbred collie dog yesterday afternoon. The dog poisoner was again responsible for the crime.

Save Money at Bells

Cash customers will save money Thursday, Friday and Saturday by buying at James R. Bell's, 161 Hunter street. Everything fresh. Both 'phones.

Put on a Good Front

"My Valet" can help you do it by pressing, cleaning or mending men's spring suits and overcoats and ladies' coats, costumes, etc. Wesley Bros., 204 Charlotte street.

Want a Sidewalk

Representatives of the various sporting clubs of the city will probably wait upon the Board of Works to-night to obtain a sidewalk from Hunter street to the Riverside Park.

Concert at St. Pauls'

Rev. J. W. Pedley will deliver his popular lecture, "Mrs. Wiggs of the Cabbage Patch," in St. Paul's Sunday school room on Friday evening, May 10, 1907. Admission, 25c; children, 15c. 108

Cabbage Lettuce

We are now receiving very fine, large, cabbage-head lettuce. Also rhubarb, radishes, tomatoes and cucumbers. S. A. OKE, 376 George street. Machine 'phone 18; Bell 'phone 18.

A Social Evening

At the meeting of the Peterborough Lodge of Elks, held last night, it was decided to hold a social meeting on Friday night next, when a social evening, with refreshments, will be held.

Lacrosse Practice

There will be a full practice of the Peterborough Lacrosse Club to-night at 7 o'clock on Riverside Park. All players are asked to be out in uniform at that hour as the team must get in shape as soon as possible.

Finance Committee

The Finance Committee held a meeting yesterday afternoon in connection with the city's debentures.

The Property Committee of the city council will meet to-morrow when the garbage bylaw will be taken up.

20 Per Cent. Discount.

Off baby carriages and go-carts. We have just received 65 baby carriages and go-carts to complete our contract for 100 carriages and go-carts. They must be sold in season. Here's your chance to get a snap. Come early if you are interested and see. Children's go-carriers marked net, and the price is right. A. H. Stratton & Co.

Last day of Races

To-day is the last day you will have a chance of seeing the great moving picture, the "Race for the King's Plate," also the "Bull Fight." See these pictures at Scott's Coliseum, 432 George street, admission, 5 cents; matinees, 2 to 5; evening 7 to 10. Keep your eye on the date for the Great Thaw Trial.

A Warning

A few of the privates of the regiment imbibed a little too freely of the golden goblet after the parade last night, and were almost given a resting place in the Police Court cell. Nothing but the uniform they wore saved them from the grasp of the police officer.

Stewart's Hall Otonabee

Rev. E. A. Langfeldt conducted the Church of England service at Stewart's Hall, last Sunday, when a large congregation was present, almost every available seat being occupied. Mr. Langfeldt announced that his assistant, Mr. Perry, B.A., would commence weekly services on Sunday, May 19, at 7.30, and asked the people to give Mr. Perry the same hearty co-operation and support, that they had given him. Mr. Perry will live in the Otonabee Parish. The services at St. Mark's church, will be held on Sunday mornings at 10.30, commencing Sunday, May 19th.

Personal Mention.

Mr. J. N. Telford of Smith, was in the city to-day.

Mr. R. C. Strickland of Lakefield, is registered at the National.

Mrs. A. E. Dixon, 784 George street, will not receive again this season.

Mr. W. E. Brooks and Miss Geraldine of Young's Point, were in the city to-day.

Mr. William Whitton returned last night from Toronto, where he has spent the last two days.

Mrs. Tisdale, 415 George street, will receive on Friday afternoon May 10th, from 4 to 7 o'clock.

Mr. Wm. Bibby, general road-master of the northern division of the G.T.R., was in the city last night a guest of Mr. Jas. Maher.

Mr. Herbert Faint left to-day for Winnipeg, and will accompany his sister, Mrs. M. G. Walker, who has been visiting here for some time.

Mr. and Mrs. George E. Whitten, announce the engagement of their daughter, Alice M., to Mr. Herson E. Armstrong, manager of the Traders' Bank, Kenora. The marriage will take place early in June. — Kenora Miner and News.

FALSE THEORIES

Lead to Worthless or Harmful Remedies

Stimulating the scalp may allay the itching of the dandruff, but that does not cure the scalp. The disease won't yield to quinine or capsicum nor alcohol, because it is caused by a germ or parasite. To cure dandruff the germ must be destroyed. Until recently there was no hair preparation or dandruff cure, or hair restorer on the market that would kill that insidious germ that dries up the scalp in little scales called dandruff and absorbs the vitality of the hair, causing falling hair, and, finally, baldness. Newbro's Herpicide is the only really scientific preparation to cure dandruff, prevent falling hair and baldness.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. The Market Drug Store. Two sizes—50c and $1.

HAS RETURNED FROM PACIFIC COAST

Mr. Hubert McBain Home After Ten Weeks in the West

Mr. Hubert McBain has returned home after a ten weeks' visit to the Pacific Coast, where he visited the cities of Vancouver, Victoria and Seattle. His trip was of a business and pleasure character combined and while there he made a number of land purchases. He is much taken up with Western Canada and particularly with the climate of British Columbia where already the roses are in bloom.

The effect of *Scott's Emulsion* on thin, pale children is magical.

It makes them plump, rosy, active, happy.

It contains Cod Liver Oil, Hypophosphites and Glycerine, to make fat, blood and bone, and so put together that it is easily digested by little folk.

ALL DRUGGISTS; 50c. AND $1.00.

THE DAYLIGHT STORE

Note These Facts

We're pounding out a fact or two which we would like to impress upon your mind. "Listen!" Vanity exacts heavy tolls. "Made to order" has a ring pleasing to many clothing buyers.

"My Tailor" is a phrase one pays handsomely for. The Suits or Top Coats the Tailor is obliged to ask $25.00 and $28.00 for we duplicate at **$18.00** and **$20.00.**

This statement is literally true. His woollens and findings are the same as ours and come from the same mills. Drop your prejudices this season.

SEE AND SAVE

Spring Suits, Spring Toppers and Spring Toggery. We're ready to spring good things on you, whenever you give us a chance.

Be as cranky as you like about extreme styles, perfect fit, excellent Fabrics and Tailoring—we will satisfy you.

Come in, we will save you money and please you.

LANG & MAHER Clothiers and Furnishers to Men Who Know

409-411 GEORGE STREET, PETERBOROUGH

INDIVIDUAL CUPS TO BE USED

Mr. A. B. Cunningham Presents Communion Service to Charlotte Street Church

HAD A PROSPEROUS YEAR

Commencing at the next Quarterly Meeting service the members of the Charlotte street Methodist church will use the individual communion cups. The service will be a gift to the congregation of Mr. A. B. Cunningham, who has for some time been one of the most enthusiastic advocates of the adoption of this form of communion service

At the meeting of the Quarterly Board held last night, Mr. Cunningham offered to donate to the church this service, and his offer was gratefully accepted, the board deciding by a standing vote to this action, and also expressed its thanks to Mr. Cunningham, as well as its appreciation of its generosity.

At the meeting last night, too, the stewards for the year were elected. They are as follows: Mr. Jas. Stevenson, Mr. R. Neill, Mr. J. C. Elliott, Mr. D. D. C. Dawe, Dr. Morrison, Dr. Neal and Mr. A. Wilson, the Recording Steward again being Dr. Morrison.

Mr. Jos. Batten was elected as representative to the annual district meeting, which will be held on May 22nd.

The annual report of the pastor was presented, and showed that the past year had been the most successful in the history of the church. The membership stands at 441, being an increase over last year, deducting deaths and removals, of 33. The finances, too, are in splendid condition, the missionary offerings of the past year having been the largest in the history of the church. Taken altogether the year just closed is the most prosperous in the history of the church, a fact which will be learned with satisfaction by the members of that congregation.

COUNCIL SHOULD PAY LIVING WAGE

'Citizen" Refers to Action of the Council in Refusing to Pay Teamsters the $3.75 They Demand

To the Editor of the Examiner.

Dear Sir,—What is the reason the name of our fair city should be sullied by the refusal of our city officials to pay our teamsters a living wage?

Our teamsters are certainly a credit to us. They have good horses and outfits, purchased at a large expense; they are all good, industrious, sober citizens, most of them heads of small families, and why should we begrudge them enough to live on?

The very members of the Council who voted against them are all men who won't work themselves unless they receive large pay, and why they should deny the teamsters living wages, I don't understand.

When our Street Commissioner asked for an increase in his salary, he received it, and no one questioned the action. It is plainly seen that the Commissioner and the Chairman of the Board of Works don't approve of working cheap, as shown by the Chairman at a meeting of the Council on April 29, when he stated that he wanted $45 (out of the $50 grant given the little park at the corner of Charlotte and Park streets) for extra hauling of a few loads of street sweepings then. It makes us wonder if there are two treasurers in connection with our city affairs. I have been informed that the Commissioner stated that he could fill all the teamsters' places with teams at $3.50 per day. If so, why did he run around all day yesterday trying to hire teams, offering them $3.75 per day?

We are now living in the twentieth century, and why in the name of common sense can't our Commissioner treat our teamsters as white people? When addressing them (I am told) it is in a tone such as is sometimes used to lower animals. If such is the case, there is only one place for him, and that is on the Pacific Coast amongst the Chinese and Siwash.

CITIZEN.

ECZEMA AGAIN OVERCOME

Zam-Buk Cures a Case Which for Two Years Had Baffled Every Remedy Tried

A FARMER'S GRATEFUL TESTIMONY

No case of eczema, skin disease, or ulceration, should be despaired of until Zam-Buk has been applied. The case of Mr. Francis Pencit, of St. Anne's, Man., is a powerful illustration of Zam-Buk's efficacy. He says: "I suffered from eczema for two years, and tried a great number of remedies. None of them, however, seemed to do me any good. The ailment was mostly in my legs, and both these were actually raw from the knees down. A sample box of Zam-Buk was given to me, and even so small a quantity as that did me a little good. I then obtained a proper supply, and by the time I had used a few boxes I was completely cured."

Zam-Buk differs from ordinary salves and embrocations in containing no animal oil or fat. It is compounded from rich, healing, herbal essences, and is an ideal natural combination of power and purity. It is highly antiseptic, and instantly kills bacilli and disease germs, which settling on to wounds and skin diseases set up festering, blood poison, etc. For cuts, burns, bruises, ulcers, abscesses, pimples, boils, skin eruptions, scalp sores, spreading sores, children's skin troubles, chafing sores etc., Zam-Buk is unequalled. It also cures piles. All druggists and stores at 50c. a box, or from Zam-Buk Co., Toronto, for price, 6 boxes for $2.50.

BIRTH

PERRY—In Peterborough, on Wednesday, May 8, 1907, the wife of Mr. J. G. Perry, Bolivar street, of a son.

PRIZES FOR COLLEGIATE INSTITUTE CADET CORPS

Through the generosity of four citizens, prizes will be presented to the Collegiate Institute Cadets for the best company, half company, and the two best sections, on the day of the annual inspection. The Cadets are now working hard at their drill, and their will undoubtedly be a close race for the first places. They wish to express their appreciation of the action of the business men who have so kindly donated the four prizes.

The following are the prizes and their donors:

For the best company, $5, donated by Captain V. Eastwood, manager of Royal Bank.

For the best half company, $5, donated by Mr. T. F. Matthews.

For the best section $3, donated by Lieut. E. Best, Hardware Merchant.

For the second section, $2, donated by Lieut. W. H. G. Higgins, Hardware Merchant.

BUILDING PERMITS

Notice is hereby given that owners of buildings in course of construction, or of new buildings, or of buildings to be enlarged or repaired, must procure permits therefor from the undersigned and in default prosecutions will be entered.

LATE MRS. RENAUD'S WILL PROBATED

Former Peterborough Lady Died in Toronto Leaving Estate Valued at Over $12,000.

The lady referred to in the following article from the Toronto News of Tuesday night was at one time a resident of Ashburnham, living in the house now occupied by Col. J. Z. Rogers:—

The estate of the late Mary Ann Renaud was valued at $12,288.23. This was made up of stocks, the value of which totalled $11,816.30; cash, $346.98; income from the estate of the late E. T. Renaud, income from Mr. A. H. Campbell, and personal effects. One-third of her estate, being $4,096.07, was bequeathed to her son, John Frederick Renaud, of Montreal, and one-third to her daughter, Frances Mary Sullivan, of Toronto. The other third passes to another son, Alan Campbell Renaud, Quebec.

Romaine Street Sewer Is Still Causing Trouble

Water is Coming in so Fast That the Work of Cleaning It Out Has Been Dropped---Board of Works Took Up the Matter Last Night---Complaints Received

The Romaine street sewer is still causing trouble for the Board of Works. At the meeting of the Board last night, Foreman White was present to say that the water was coming into the sewer so fast that it was impossible to do anything more for the present in the work of cleaning out the sewer. It was decided to suspend the work until the weather is drier, when it is expected that the water will have fallen to such an extent that it will be possible to go ahead with the cleaning out of the sewer.

The Board transacted a large amount of routine business, dealing with a number of complaints, and other matters. Ald. Wilson brought up the question of the numbering of the houses, and suggested that a better system be employed. No action was taken for the present, as the Board have a large amount of work on hand, and not any too much money to do it with. The matter will be taken up again at the end of the year.

There were present, Ald. Duncan, in the chair, and the Mayor, Ald. McIntyre, Wilson, Johnston, City Engineer Hay and Street Commissioner Harry Evans.

Complaints Received

A letter was read from Mr. John Kearney of 21 Bethune street, complaining that Contractor Sheehy had cut off his private drain, when the sewer was put in. The City Engineer was instructed to look into the matter.

A letter was received in connection with a man falling into a sewer connection being made at 802 Aylmer street. The City Engineer's letter stated that the sewer was left in good condition. Planks were laid across the trench and a red light placed there. No action was taken in the matter.

Romaine Street Sewer Again

Mr. W. H. White, foreman of the Romaine street sewer, was present, and stated that owing to the fact that the water was coming into the sewer so fast that it was impossible to do anything more in connection with the work of cleaning it out. "I'm tired of the whole thing!" said Mr. White emphatically. There was three feet ten inches of water in the sewer at present.

The City Engineer said that it would be possible to complete the work of cleaning the sewer out in a couple of months, when the water would be lower. If they waited until the dry weather the water would be at least a foot lower and the pressure would not be so great.

Ald. Johnston moved, seconded by the Mayor, that the work on the Romaine street sewer be suspended until the weather becomes more dry.—Carried.

Ald. Wilson thought that all precautions should be taken to prevent more quicksand from coming into the sewer.

A communication was received from Mr. Harper, complaining of the condition of the walk in front of his property on Charlotte street.

The City Engineer was instructed to write Mr. Harper to the effect that the city could not remedy the matter and telling him what should be done.

Poor Numbering System

Ald. Wilson said that the work of numbering the houses was done in a haphazard manner, and thought that something better should be done in this line. He suggested that porcelain or aluminum numbers should be purchased. Ald. Wilson also referred to the fact that many of the signs giving the names of streets had disappeared. On some of the streets the names were imprinted on the pavements, but these could not be seen in the winter time and he thought that something better should be done.

The Mayor said that the Board had a great deal of work on hand, and not any too much money to do it with. He advised leaving the matter over for the present in view of the large amount of work to be done on the streets.

Ald. Johnston concurred in this opinion.

Ald. Wilson moved that the matter be taken up later on in the year. This was seconded by Ald. Johnston, and carried.

CITIZENS OBSERVED ARBUR DAY

Members of Keene Improvement Society Did Considerable Work on the Streets That Day

ANNUAL MEETING HELD

Examiner Special.

Keene, May 8. — The annual meeting of the Village Improvement Society, was held in the town hall, on Wednesday evening, May 1st.

Mr. Jas. McNeil presided. The minutes of the last meeting were read and on motion of Mr. Wm. Drummond, seconded by Mr. J. C. Read, were adopted.

The financial statement was next read by the secretary, and on motion the report was adopted.

The following officers were elected for the ensuing year:

President—Jas. McNeil.

Sec.-Treas. — Andrew Shearer.

Committee of Management— Wm. Campbell, Dr. Harrison, Jas. Henderson, William Drummond, John C. Read, John Lang and W. Moore.

Entertainment Committee — R. J. McCamus, J. J. Moore, J. R. McIntyre.

A vote of thanks was tendered to Mr. McCamus and the other members of the entertainment committee for their work in the interests of the society; also to Mr. Drummond and Mr. Read for their work in connection with the passing of the cow bylaw.

A discussion then took place as to the work to be done on Arbour Day. Messrs. W. Drummond and Jas. Henderson were appointed to take charge of the work on that day.

A winter road on the west end of Bridge street was also discussed. It was proposed that the township be asked to advance the funds to build a cement sidewalk in front of Stillman Bros. property. The sidewalk on High street will be extended northward this summer.

The financial statement showed a balance on hand of $27.60. For the last year the society has raised $398.39; $111 of this was statute labour tax; $50 was the township council's grant; $61.42 was from the various concerts held under the auspices of the society and the balance was raised by private subscription. On Arbour Day, Friday, May 3rd, there was a fair attendance of citizens cleaning up the streets.

Keene, May 8.—A Sabbath school convention will be held in the Keene Presbyterian Church on Tuesday, May 28. The afternoon session will be open at 2 o'clock, and the evening session at 7.30. A cordial invitation is extended to all to attend.

The Otonabee Agricultural Society have made a deal with Mr. Wm. Wedlock, whereby, through giving Mr. Wedlock part of the hillside east of the race track and taking some land from him in exchange, they have the eastern boundary run straight north and south parallel with Mill street, instead of zig-zag, as before. This will improve the appearance of the grounds and give the society the most beautiful part of the hill. A wire fence will be put between the properties.

Mr. John Dingdale and sons are erecting a solid brick house for Mr. Wm. Miller, on High street, next to Miss McCrae's residence.

Mr. John Hewie of Westwood was in Keene on Saturday.

Mr. John Donnelly was in the village Thursday.

Beginning May 15, all stores in Keene will close at 6 p'clock on Monday, Wednesday and Friday evenings.

Mr. Jas. Edwards, Jr., is dangerously ill with brain fever.

THE WHOLE THING IN A NUT SHELL

Is a nice house or a nice lot in a nice location, desirable as a residence or an investment—something worth the money asked for it. See our list of properties yourself and then deliberately decide if what we have to offer is or is not a Bargain. We also rent, collect rents and insure your house and contents.

Beautiful house on Dalhousie Street, close to George, all modern conveniences, large lot, fine stable, an ideal home, price $4,000.

Beautiful Red Brick House on Lock Street, Crescent commanding a lovely view of the river, lot 50x150, all modern conveniences and improvements, electric light fixtures front and back stairway—a home to be proud of at $3,000.

Nice Brick House, 2 Storey, double parlors, winter kitchen, summer kitchen and woodshed, nice hall, 3 Bedrooms upstairs, lot 52x108, also adjoining lot 50x198, a beautiful garden with Fruit Trees, Currant and Raspberry Bushes, Strawberry Patch, party is leaving, so can be bought at once for $2,100.

Several nice Brick Houses on King Street, all conveniences, for $2,300 each.

A few Choice Lots for sale near the new school at a very reasonable price.

Beautiful homes and Vacan Lots in all parts of the City.

FORTY MEN LEFT FOR SOUTH RIVER

Mr. Geo. Strain the Foreman—Will Drive for Turner Lumber Company

Yesterday morning Mr. Geo. Strain left the city in charge of one of the largest gangs of men for the drive that have this year left Peterborough. In all there were 40, and out of that number 28 were Indians, from Hiawatha, Alnwick and Chemong.

Their destination was South River on the North Shore, where they will be employed by the Turner Lumber Company. The men will receive $2 per day and Mr. Strain expects the work of driving will continue for at least two months. A special train carried them to South River.

A NEW IDEA IN TIME TABLES

Grand Trunk Railway Issues New Time Table Giving Information in Hastily Understood Form.

ARE A GREAT CONVENIENCE

The ordinary railway time table is generally a source of considerable trouble to the travelling public when they are arranging for a trip to any given point, and though the officials of the passenger department have given this subject a considerable amount of thought and labour new ideas suggest themselves from time to time and improvements are made for the benefit of the traveller. The Grand Trunk Railway System is probably one of the most difficult lines on this continent to study, owing to the many ramifications of their branch lines radiating from the main trunk line and the innumerable number of junction points at which connections are made. The company, however, have just issued their complete time table dated April 30th in which are embodied many new ideas that will be appreciated by the public generally. The idea has been to show the time table in such a way that any one may see at a glance the route of their train and equipment that will be at their disposal. In the past the through car service has been shown under the local time table which necessitated a repetition throughout the folder that created a needless amount of study. This has been obviated by the elimination of all this superfluous data, and all the equipment and condensed time of their trains are shown on six pages, so that any person at a glance can find the time of any particular train and the exact through car service that is offered on each train.

Another acceptable feature and one that will be of great help to the travelling public is a series of tables showing the condensed time of trains, these tables being surmounted by a map showing the route of any particular train that is shown in this condensed time table.

Connections via foreign lines, east and west, are also given together with tourist sleeping car service on the Grand Trunk, as well as service from Chicago to points on the Pacific Coast and the south-eastern parts of the United States, other pages are devoted to rail connections from junction points along the main line, steamship connections and barge connections. One page of the folder is devoted to the cab tariff in the cities of Montreal, Toronto, Hamilton, London, Ottawa and Chicago, as well as information as to transfer of passengers and baggage at terminal points. There is also a portion of the folder devoted to information as to baggage which will be of interest to the travelling public.

The folder is an advance on previous railroad timetables in Canada and will be gladly received by those who only occasionally travel or by those who are continually moving from place to place.

OVER NINE INCHES OF SNOW FELL

At Young's Point on Saturday—New Bridge is in Use

Examiner Special.

Young's Point, May 6th. — Miss Nellie Buckley of Lakefield, spent Sunday in the village.

Miss Catherine McMahon of Douro, is visiting her sister, Mrs. Frank Young.

Mr. Isaac Freeburn has sold his house and lot to his brother, Harry, and moved into Mr. Pope's house.

Mr. Richard Devlin of Ottawa, was a guest of Mr. P. P. Young last week. Mr. Devlin gave Mr. Young some instructions with regard to making an inventory of the tonnage, etc., of the steamers passing through here in the future.

On Saturday last snow fell here to the depth of 9 1-2 inches, but it disappeared on Monday. Cattle and horses that were left out over Friday night were glad to let back into their stables again on Saturday.

The first vehicle crossed the new iron bridge on Monday so the old one will be torn down in the course of a few days.

Mr. Bert Hockedy, who has been ill during the past week, is now recovering.

SON OF MR. ALBERT VAIR MET WITH AN ACCIDENT

Fell From Bed on Which He Was Playing and Broke Collar Bone

Arthur, the young son of Mr. Albert Vass met with an accident the other day, sustaining a rather severe fracture of one of his shoulder blades. He was playing in his bed and as young children often do, he fell to the floor heavily and suffered the above mishap. He is rapidly recovering under a physicians care and will be well again in a few weeks, as the many friends of the parents confidently hope.

PRESENTATION FROM THE OLD BOYS

Mr. R. H. Shepherd, the Recipient of Pipe and Address From Old Fellow Workmen

FIRST EMPLOYEES OF C.G.E.

Mr. R. H. Shepherd was pleasantly surprised on Monday night at the Young Conservative Club rooms, when the remnants of the Old Guard of the C. G. E. presented him with an address and an elegant pipe and case.

Sixteen years ago also, most to the day—to be exact, May 16, 1891, Mr. Shepherd came to Peterborough from Sherbrooke, with 72 other men, who came about the same time, to work in the new C. G. E. shops. Those men were literally the Old Boys and their ranks have been depleted in various ways until to-day, there are only six left in the shop.

The address was signed by Messrs. W. H. G. Armstrong, Geo. Tovey, Frank Derrick, William Jones, A. W. Patterson and R. E. Layfield.

Reply

Mr. Shepherd expressed his deep gratitude to the Old Boys for their kindness to him and he felt sure he would never forget them or the days spent in the C.G.E.

The address was a very appropriate one. It was excellently executed; on the outside page was written "Ye Olde Boys," while on the inside pages were photos of the C. G. E., including the first building, and the premises as they will be when the new buildings are completed. It is a good reminder of the C.G.E., and Mr. Shepherd will highly prize it.

NOTES OF INTEREST FROM NORWOOD

Personal Items From the Village—Educational Services

Examiner Special.

Norwood, May 7.—Mrs. W. E. Stephenson returned on Tuesday from Montreal, where she has spent the past few weeks.

Mr. J. L. Squire spent Saturday and Sunday in Toronto.

Mrs. H. Vars, who has been visiting her aunt, Miss Butterfield, returned to her home in Buffalo, N.Y., on Monday. She was accompanied by Mrs. and Miss Butterfield, who will spend some time in Buffalo.

Miss May McCarthy and Miss Louise Smith spent last Friday in Peterborough.

Next Sunday educational services will be conducted in the Methodist church, by Rev. W. Clarke, of Havelock.

Mr. T. Brown, son of Mr. J. C. Brown, I.P.S., was in town for a few days, a guest at the home of Mr. and Mrs. D. Foster.

Mr. M. E. Knox, of Picton, spent last Saturday in Norwood.

Mr. J. E. Code, of Peterborough, was in town this week.

Mr. Bert Huyck spent Saturday and Sunday at his home in Tweed.

Mr. Chas M. Foster, of Trenton, was in town over Sunday, visiting his cousin, Mr. A. S. Harrison.

Mr. and Mrs. Geo. W. Buck were in Hastings on Tuesday.

Mrs. (Rev.) E. W. Plokford, was in Peterborough on Tuesday.

Mr. T. J. Drain is in Toronto on business.

Mr. John Weir has purchased the livery business of Mr. W. Andrews of Havelock, and took possession last week.

Mr. Lisle Mills, of Campbellford, was a guest at the home of his uncle, Mr. Geo. E. Mills on Tuesday.

On the thirtieth of April last, Dr. Bell and Mrs. Bell received congratulations from their host of friends, it being the anniversary of their wedding day.

Mr. Lang, the new Presbyterian student from Queen's, has arrived.

Quite a heavy fall of snow fell Friday night, May 3rd.

A number of cattle have died, owing to the late spring and scarcity of feed.

Dr. Bell drove out in a sleigh to see a patient, 17th of April.

Miss Annie McElvaney has returned home from Montreal.

The Habit of Health

Many people have a habit of ailing. How much better it would be to learn to keep well. For health, after all, is largely a matter of habit, which all may acquire with a little practise.

BEECHAM'S PILLS

teach good habits to Stomach, Liver, Kidneys and Bowels. If you are subject to Bilious Attacks, suffer from Constipation or are troubled with Indigestion, Nervousness or Headache, Beecham's Pills will reform all these bad habits and set an example of good health, which the body will quickly follow. You can break up all sickly habits by occasionally using the health suggestions transmitted by Beecham's Pills.

Prepared only by Thomas Beecham, St. Helens, Lancashire, England.
Sold by all Druggists in Canada and U. S. America. In boxes 25 cents.

The Making of a Successful Husband

By CASPAR S. YOST.

Advice From a Man of Experience on the Difficult Business of Choosing a Wife—Proceed Carefully, Let the Engagement Be Brief and Have the Ceremony as It Should Be.

[Copyright, 1905, by C. S. Yost.]

MY DEAR BOY—I have just received your letter announcing your engagement to Miss Anna May Jackson. I don't know whether to congratulate you or not. So much depends upon the girl, you know. If I could see her and have a ten minutes' chat with her, I could tell whether you have drawn a prize or a blank. As it is, I shall trust to Providence and hope for the best.

Your description is entertaining, but not very informing. You say that she "is as beautiful as Aurora upon a summer morn," that her eyes are "filled with heaven's own blue," that her "hair is a golden aureole surmounting a marble brow," and her cheeks are "like the rosebud kissed by the enamored sun."

There is something reminiscent about this, as the critics say when they want to accuse a writer of plagiarism and are afraid of a libel suit. I distinctly remember writing something of the same sort about a girl I was sweet on before I met your mother. I saw her on the car the other day. She has grown pudgy, her chin has disappeared, and her circumference is greatest at the waist line.

Beauty Not Indispensable.

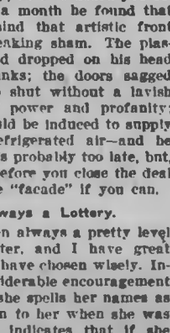
I gather from your poetic if somewhat moldy description nothing more than that the young lady is a blond and a tolerably good looker, and I mention this old flame of mine to impress you with the fact that while Aurora is all right in the spring and summer she begins to look quite different when the time comes to lay in coal. Beauty, my boy, is a mighty good thing. Your mother was the prettiest girl I ever saw or ever hope to see—begging your pardon—and she is still the most beautiful woman this side the pearly gates, in my estimation, but you can't reasonably expect to be as fortunate as your father in that particular. Beauty is a very desirable, but not a necessary attribute of a wife, and a man stands a mighty poor chance of permanent happiness who banks on it alone. It isn't always desirable even. It is likely to produce vanity, and vanity, besides several other disagreeable features, leads to extravagance. I won't stop to tell you what extravagance leads to. It would fill a book, and there would be nothing comfortable in the whole volume.

I saw her on the car.

Reminds me of an old friend, one of these art enthusiasts, who fell in love with a flat because of its impressive "facade." He didn't stop to investigate what was back of the "facade," but took a lease at a pretty stiff figure. He wanted a "facade," and he got it good and plenty, as I've heard you remark. Within a month he found that everything behind that artistic front was a heartbreaking sham. The plaster cracked and dropped on his head in painful chunks; the doors sagged and refused to shut without a lavish expenditure of power and profanity; the furnace could be induced to supply nothing but refrigerated air—and he had a lease. It's probably too late, but, my dear boy, before you close the deal get back of the "facade" if you can.

Not Always a Lottery.

You have been always a pretty level headed youngster, and I have great hopes that you have chosen wisely. Indeed, I get considerable encouragement from the way she spells her names as they were given to her when she was christened. It indicates that if she ever had any silly stage she has passed through it safely. Our Annyes and Mayes and Ellyns are all afflicted with a mental weakness that doesn't do any particular harm if they get over it. As a rule they do, but if they don't Lord help their husbands! After all, though, the average American girl has a mighty good substratum of common sense, and if a man goes into it with his eyes wide open marriage isn't such a lottery as it's cracked up to be. That lottery theory is based on the idea—an idea that all who wear trousers are apt to accept without question — that man, myself in particular, is all right. "The risk is all on my side," says he to himself. "The woman that gets me ought to consider herself in luck." As a matter of fact, there are more masculine than feminine blanks in this world, and when a man contemplates marriage he ought first to consider his own qualifications, get 'em out and look at 'em through a microscope and don't let any personal bias interfere with a proper focus.



The doors sagged.

In the first place, am I able to support a wife—the wife I have in mind? Given the proper financial backing, are my habits and disposition such that a sensitive and sensible woman can live with me for a lifetime with out an occasional desire to jump into the river? Few men stop to consider that side of the proposition, and when the wheels of the matrimonial wagon begin to creak they wonder what's the matter. Talk about the divorce evil! If woman wasn't the most long suffering creature on the face of the earth, all the courts of Christendom would be filled with divorce cases. But that's a digression. As I was saying, take stock of yourself and then consider the girl.

Sense Better Than Learning.

The main thing to be desired in a woman is sense. And by that I don't mean education. It's a mighty fine thing to be on speaking terms with the classics, and a knowledge of the higher mathematics and Browning's poems does no particular harm if it isn't allowed to stick out, but education beyond the grammar school course is not an essential. Don't deceive yourself into thinking learning an indication of brains or occasional silliness a lack of them. Some of the biggest fools I ever knew, male and female, were chuck full of facts and figures and quotations and other mental lumber that didn't do them or anybody else any good. I don't mean to belittle the value of learning. No one appreciates it more than I do. But it doesn't spell sense. On the other hand, all normal boys and girls pass through a silly period, and most all grown people have occasional lapses in that direction, a sort of cerebral vacation, which is sometimes beneficial to the individual if not always edifying to others. But the possession of a practical workaday intelligence will stick out in spite of all that nature or teachers may do to cover it up, and if you can come down from the clouds long enough to take stock you should be able to satisfy yourself on that point if you haven't already done so.

Chuck full of quotations

You notice I don't ask you about Miss Jackson's fortune. I don't care whether she has a red cent or not. In fact, I hope she hasn't, for the poor man who marries a fortune is up against one of the hardest propositions our sex can have to contend with. Unless he has character and strength of purpose far beyond the ordinary he is almost sure to degenerate, to become a mere appendage, of less value to himself and the world than one of his wife's servants. If the girl you expect to marry has money, see to it that she keeps it, and keeps it where you can't get at it. Hoe your own row.

There's only one way to make a man, and digging for a home is the process. If she has nothing, you can start even and pull together, and I tell you, my boy, there's nothing in this world so heartens a man as a willing woman hitched to the same load. If she have sense and love she will pull, too, harder perhaps than you can, but if she be a fool, no matter how she may be veneered with the graces of society, no matter how erudite she may be, she will balk or kick over the traces, and if she doesn't spill the load she'll make it all the harder for you to draw. So I say that a few grains of

Nothing so heartens a man as a willing woman hitched to the same load.

plain common sense are of more importance in a wife than beauty, money or culture. If Miss Jackson has it, then I say go ahead, and your mother and I will give you our blessing and something else.

Don't fool around about it either. I don't believe in long engagements. There is nothing so wearing on a woman as a protracted wedding. If you have no debts and enough money in your pocket or the bank to pay the preacher and furnish up a little flat, don't put off the day any longer than is necessary for her to get ready. As a rule, a girl wants a few months, perhaps a year, for preparation; a man in the first enthusiasm of acceptance wants to be married tomorrow, today, right now. The girl is right. The altar should not be boarded like a delayed trolley car. Take your time, but not too much time. The engagement period has its psychical as well as its material purpose. It is a period of preparation of mind and heart as well as of raiment.

It is an important factor in the making of future happiness, and it should never be skipped unless circumstances are exceptional. But it should not be allowed to linger beyond the reasonable time necessary for preparation. It is the man who wants to marry on the spot, and it is usually the man who causes the repeated postponement of the wedding. Either he grows indifferent or thinks it necessary to increase his financial resources, and the longer he delays the harder it is to fix the date, while the girl can do nothing but wait and wonder and doubt. Then is the time when "hope deferred maketh the heart sick" sure enough. Don't let your engagement continue more than a year. Three or six months should be long enough.

Decently and in Order.

When you get married, have it done right. Don't go frisking out to a suburban justice of the peace to have the knot tied without trouble and without ceremony. Next to your birth and your death it's the most important event of your life. Your funeral may be an imposing one, but you will not be in a position to appreciate it. You will play second fiddle at your wedding, but it's your show nevertheless, and you should make it as impressive as you can. I don't mean by that to encourage lavish expenditure. Gorgeous decorations and all that sort of thing detract from the true feature of the occasion. That, however, is none of your affair. The bride's parents attend to that. The point I am trying to make is that the wedding should take place in the presence of a number of invited guests, as many as practicable. Whether at home or at church doesn't particularly matter, although I prefer a church wedding because it can be made more impressive and because of the deeper religious significance. When I use the word impressive, I don't want it applied to the witnesses, but to you and to the girl you stand up with. It is upon you, both of you, that the impression should be made, and it ought to be strong enough and deep enough to keep you trotting along together for the remainder of your life. I have noticed that these fly by night, "let's go out and get married" weddings are responsible for a large proportion of the divorce cases in our courts. It's like the come easy, go easy money of

Don't go frisking out to a suburban justice.

the gambler. You ought to get the idea of the solemnity and responsibility of marriage pumped into yourself and your sweetheart until you are both saturated with it. Then walk up to the altar with joy in your hearts, and if you can't live happy ever after it won't be the fault of the preacher.

Now, my dear boy, I neither suppose nor expect you will pay the slightest attention to anything I have said. As I heard an alleged comedian remark the other night, "I just had it on my chest, and it had to come off." Yours truly, JOHN SNEED.

Three Man Wine.

The best Rhenish wine is scarcely plentiful enough to furnish an average of one drink for every three Germans. The worst, on the contrary, is so bad that it takes three men to get one drink down its natural channel. Near Gottingen is the little town called Witzenhausen, which has long been famous, or, rather, infamous, for a kind of wine known as the "dreimannerwein," because it requires one man to drink it, a second to hold him and a third to pour it down his throat. Here also is located Germany's first and only colonial school, founded by some wealthy adherents of the colonial policy on which Emperor William has just won a victory over the Socialists in the reichstag. The school was opened in 1899, with room for seventy students, which is not nearly enough for all who apply. A special feature is the segregation of the students in dormitories to keep them out of taverns, as it is well known that nothing is so disastrous to the whites in the tropics as "tropenholler," from habits of alcoholic indulgence. Here is where the "three man wine" helps the temperance cause. —New York World.

Dreaming a Derby Winner.

I dare say that every year one or more people dream of the Derby winner, because thousands of people are guessing in their dreams, and two or three guess right. Take the Favonius case. A man came to an acquaintance of mine and said, "What is the Latin for the southwest wind?" "Favonius," said my friend. "That's the name," said the other. "I dreamed last night that Favonius won the Derby, but I could only remember that southwest wind was the English of the word when I awoke." There was no Favonius in the list of horses, but on reaching the race course the men found that "the Zephyr colt" had been newly named — Favonius. Probably the name Zephyr (west wind) colt had been converted into Favonius (southwest wind) in the sleeping mind of the dreamer, though when awake he could not remember the Latin word for southwest wind. Favonius won. The dream was a good guess, no more.—Andrew Lang in Independent.

A Troublesome Comma.

One more instance of the power of punctuation. Even a comma may play the very deuce. Not many years ago a distinguished graduate of Oxford decided to enter the nonconformist ministry and to wear no sacerdotal garb. And he announced this intention in a manifesto containing the words, "I shall wear no clothes, to distinguish me from my fellow Christians." That delightful comma made him the laughingstock of the university and the joy of the picture shops, whose windows were flooded with illustrations of the Rev. X. Y. Z. distinguishing himself from his fellow Christians. — London Chronicle.

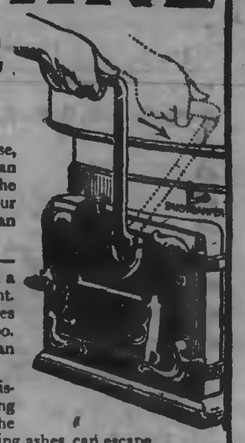
Eat Lots of Almonds.

According to a celebrated health expert, almonds give the higher nerve or brain and muscle food, and whoever wishes to keep her brain power up would do well to include them in her daily bill of fare.

Juicy fruits give the same in less proportion and are eaten by all those whose living depends on their clear headedness.

Apples supply the brain with rest. Prunes afford proof against nervousness, but are not muscle feeding. They should be avoided by those who suffer from the liver. But it has been proved that fruits do not have the same effect upon everybody.

SUNSHINE FURNACE



NOT SHAKING. JUST A GENTLE ROCKING OF THE LEVER.

Shaking is a hard, back-breaking exercise, peculiar to common furnaces, while you can stand erect at the Sunshine—and moving the lever, to and fro, about half the length of your arm, a few times, is mere play. A child can easily do it.

Grates of the Sunshine are in two sections—right and left. By gently rocking the lever, a few times, the ashes are released from the right. Repeat the operation on the left and the ashes from that side drop into the ash-pan, too. You couldn't wish for anything easier than the Sunshine Method.

When this lever is not in use it can be disconnected from the grates and the opening capped. But when connected it fills up the opening so snugly that no dust from the falling ashes can escape.

Every detail is thought of on the "Sunshine"—that's what makes it the best.

If your local dealer does not handle the "Sunshine," write direct to us for FREE BOOKLET.

Away With Food Adulteration

People Have a Right to Know What They Are Eating.

a great attention cannot be given
e food we eat. The health of our
ies depends on this food. Are we
enefit to the atrocities of the food
erators? No. We must have laws
otect us and those laws must be
ed.
is of interest to note that there is
st one article of food about which
an know everything. This is
-Vita, popularly called "The Per-
Food," the pure, all-grain prod-
a which every element of food
sary to the proper nutrition of
uman body is found.
the manufacture of Malta-Vita
whole of the wheat is thoroughly
ed, cooked in the purity of abso-
cleanliness and then mixed with
heat malt extract, made from spe-
selected barley. The cooking and
ing of the wheat gelatinizes the
, and the malt extract, a power-
ve agent, converts this starch
maltose, or malt sugar, in which
-Vita is very rich. Maltose is of
food value, sweetens the wheat
ently to make unnecessary the
any foreign sweetening agent and
eakest stomach digests and assim-
it without effort. Rolled into
-like flakes and baked under in-
heat, Malta-Vita comes from the
crisp and brown, positively the
delicious food in the world. All
ers. 10 cents.

PERILS OF SEAL HUNTING

PURSUIT ENGAGED IN BY MANY ADVENTUROUS CANADIANS.

Battling With Ice-Floes—Loss of Life Among Sealers—Two Hours' Deadly Work—After the "White Coats"—Profits Are Not Large in Proportion to Risk—Indians Frozen to Death.

Seal hunting in the St. Lawrence is a most adventurous occupation. The Newfoundland sealing steamer Greenland was recently lost, her crew narrowly escaping; and alarm is felt in consequence as to the fate of the Canadian sealers who are known to be at the present time battling with the ice-floes of the gulf. The severity of the past winter, the lateness of the present season and the accumulation of ice in the gulf indicate that the annual life and death struggle of the seal hunters is likely to be more protracted and perilous this year than usual.

While the Newfoundlanders go sealing in well equipped steamers, the Canadian sealers from the barren coast of eastern Labrador take their lives in their hands when they set sail from their homes to brave the dangers of the hunt in their little fishing schooners. A week or two should see them home again if they have good luck, but often they are caught in the ice and are absent from home several weeks at a time.

Caught in the Ice.

Not one of the schooners that set out last month from the north shore of the gulf after the seals has yet been heard from but this does not necessarily spell death or disaster, when the character of the ice in the gulf at present is taken into consideration, together with the fact that some years ago a number of these schooners were caught in the ice and took from the month of March until the middle of June to reach open water in the vicinity of the Straits of Belle Isle.

Scarcely a season passes without loss of life among the sealers. In the vicinity of Anticosti some time ago a sealing schooner came across a herd of seals on an ice-floe, and after killing several one of the crew noticed a black object on another floe about a mile distant.

The captain brought the glass to bear upon it and saw that besides being motionless it was far too large for any animal that frequents that gulf. When the object was reached and examined it proved to consist of the bodies of two Indians and two squaws, huddled together and half covered with snow.

They were frozen fast together, stone dead on the lee side of a small mound of ice which they had collected to shelter them from the bitter wind. No doubt they had been blown off the shore while hunting on the batture ice, and had drifted hither and thither in the gulf, until all hope was lost and Indianlike, they had huddled together.

Many others have lost their lives in the attempt to leap over the spaces between floes of breaking up ice fields.

Two Hours' Work.

The amount of seal life destroyed by the Labrador hunters does not begin to compare with the result of the Newfoundland hunt. Nevertheless a crew of eight men have been known to kill five or six hundred seals in a couple of hours.

Much depends upon the opportunity offered of taking the animals by surprise. When a large herd is seen upon an ice field, the men, who usually number from eight to twelve on a schooner, take a small boat and get as near as possible to the part of the ice-floe where the seals are basking, especially if that is the side nearest to the water.

If still unperceived, they crawl upon their hands and knees and spare no efforts to get close up to the herd without being seen. Then the slaughter begins.

Stunned and Disabled.

Each man is armed with a stout stick, six to ten feet long, and seal after seal is struck on the nose with the weapon. A slight blow suffices to fracture the skull and kill the young animals, and many of the others are stunned and disabled, while the hunters hurry on to stun as many more of the herd as possible before they can make their escape into the open water.

Then the hunters' knives are produced. The skin with the adhering fat is rapidly detached from the carcass, which is left on the ice. The ice is soon stained with blood and dotted with the skinless carcasses of the slain.

The great aim of the hunters is to get among the "white coats," as the young harp seals are called in their babyhood, when yet fed by their mother's milk and while they are powerless to escape. The oil then extracted from the blubber is of a much finer quality than that obtained from the full-grown seals.

Perfectly Defenceless.

These ordinary seals of the gulf, commonly known as harp or Greenland seals, are perfectly defenceless. Not so, however, the hood seal, which is frequently met with the others.

The reward of all the perils undergone is very small. The members of a crew divide their profits equally, and these often do not exceed $200 for the season, though formerly the average was at least $400. Seal oil, which was formerly worth 80 cents a gallon, now sells at from 30 to 35 cents, and there has also been a falling off in the value of skins, which are chiefly made into feather and are worth about a dollar apiece.

Their gray or pepper and salt colored fur is by no means unsightly, and they may become more valuable soon, as some have recently been made up into winter overcoats, which retail in Quebec for about $50, or one-tenth the price of Alaska seal.

Makes Ironing Easier—

This cold-water starch gets ironing-day over quicker, with less wear on the ironer's muscles and far less on the starched pieces. Gives a beautiful gloss. Needn't be boiled, yet cannot stick. It's a starch you'll like.

FIRED UPON THE OFFICERS.

Deerslayer In "Soo" District Baffles Pursuers and Gets Away.

Game Warden A. Calbeck returned to Sault Ste. Marie last week from the Batchwana River, where he had been investigating the illegal shooting of deer. That his mission was successful is evidenced by the fact that the carcasses of 14 deer were found, and that one of the parties implicated in the slaughter was brought back to the "Soo."

A Frenchman named Gagnon is known to be the moving spirit in the deer shooting. One day he was given a 35-mile run by Messrs. Calbeck, Thomas McLean, and A. Brown, but was not captured. An associate of Gagnon, one Dunn, said to be equally guilty, was arrested.

The officers spent one night at Talbot's Camp, where six deer were found, and next morning proceeded up the river and located Gagnon's camp. The carcasses of eight more deer were discovered there. Three dogs at the camp were released, and their baying attracted the man Dunn, who came in and was taken into custody at nine o'clock. He said Gagnon had gone to camp 68 for tobacco.

The officers waited at Gagnon's camp until two o'clock, when it is supposed that Gagnon visited the place and enticed the dogs away to camp 68. The officers started for home and reached the company's camp at 9.30 o'clock. McLean, who was ahead, entered the camp in time to see an unknown man make a hasty exit. The dogs were found and taken to the stable. Knowing that Gagnon was about the camp McLean visited the stable to see that the dogs were safe and was fired upon by Gagnon, who was less than 60 yards away. The party then returned to the "Soo."

Killing Off Eskimos.

Dr. Wilfred T. Grenfell, whose missionary work among the Eskimos of Labrador has attracted world wide attention, declared before leaving on the Oceanic for England that the Eskimos as a race are doomed to extinction.

"Whenever I hear of a new exploring party starting out," he said, "I sum it up as another effort to dehumanize a people. Unless these expeditions of white men cease there will not be an Eskimo left in a few years. The white man is killing the Eskimo by liquor and other vices."

Dr. Grenfell will visit his mother in Chester, England, and will then return to his work in the Labrador mission field.

Silage For Beef Cattle.

Feeders of beef cattle have always had a prejudice against silage. Recent experiments have shown that steers will make an excellent growth if fed some rich feed along with corn silage and will gain quite as fast as when on good pasture. The dairy type steer is not so profitable for beef, as he shows a low dressing percentage and a high percentage of offal. Fat on the internal organs increases the weight of the cheaper parts. The beef steer puts on fat on the higher priced cuts.

The Dressmaker.

To press a hem, plaits or a large plain surface, take an old piece of cotton material (a pillowcase would do) and after placing the material to be pressed with the right side down thoroughly wet the muslin and wring it out, place it smoothly over the material and iron until dry. If this is done to one part of a dress, all parts must be treated in the same way or it will be noticeable where it has been pressed.

IN NEWFOUNDLAND.

Private Hospitality Replaces the Hotel—A Simple Country.

I need scarcely say there are no hotels on this coast, and consequently no hotel bills, says The London Standard. The traveler selects his house when he enters a settlement, walks in and sits down by the stove. Indeed he scarcely waits for the invitation to "sit in" when the family goes to meals, the people of this coast being much given to hospitality.

When night comes on he simply takes off his boots and—stays. It may be he will have to share a bunk with one of the household, or perhaps he has a bed in "the room"; that depends on his social position. If room is short he will turn in on a settle, or simply lie down on the floor. I have slept on a settle under which the hens lived in winter and rested as soundly as on any feather bed, the only inconvenience being that now and again I had to grope after the rooster, which persisted in thinking it was morning long before I did.

The first question asked a stranger on his entering a house will not be "What is your business?" It is certain to be, "Have you been to tea?" For our national drink is tea, and a drunken man is seldom or never seen. Indeed, we have become a prohibition coast.

COMMONER AND KING

DESCRIPTION OF JOYS OF BEING HIS MAJESTY'S GUEST.

John Burns Tells of His Visit to Windsor Castle—First Labor Man to Dine and Sleep At Royal Residence—Early Morning Walks In the Grounds—The King a Genial Host.

The recent visit of John Burns to Windsor castle at the invitation of King Edward was unique, inasmuch as the president of the Local Government Board is probably the only labor representative who has been honored with an invitation to dine and sleep at the royal residence by the reigning sovereign of the country, says London Tit-Bits.

It must have been a curious experience for one who was obliged to commence the struggle for a livelihood at ten years of age to be saluted by sentries as the guest of the King and to be relieved of even his hand bag by a royal footman.

By Special Train.

Any one, however, who is invited to dine with Their Majesties is waited upon in practically the same manner as the King and Queen would be themselves. If a large party from London are asked to spend the night at Windsor castle, a special train is provided, and royal servants attend in order to wait upon the guests. In the case of Mr. Burns a special carriage was reserved for him, and a closed carriage, drawn by a pair of horses in charge of a postilion, met him at Windsor.

While of course the ordinary rules of royal etiquette are observed, there is always an absence of rigid formality when commoners dine with the King. His Majesty acts the part of genial host to perfection and with his usual tact never fails to put his guests quite at ease.

Throws Off Reserve.

During the after dinner smoke he throws off all reserve just as an ordinary individual. Their Majesties usually retire from the company about 10 or 11 o'clock, although that does not mean that the guests must do likewise. They may please themselves in exactly the same way as if they were at home. That their movements are in nowise restricted by any form of etiquette is shown by the fact that Mr. Burns the morning following his visit to Windsor castle was up at 6 and was looking round the grounds between 7 and 8.

Their Majesties seldom breakfast with their guests. Sometimes they give their farewell greeting the previous evening if the guest is leaving the following morning. Usually, however, both the King and Queen say goodby to any one who has been staying at the castle just before the guest leaves.

A DUCHESS' MISSION.

New Society Recruit For the Church Army.

The Duchess of Marlborough has decided to add the influence of her social position and great wealth to the forces of the Church Army in the splendid work it does in London.

As marking the close to her recent domestic troubles the Duchess intends to make active social work one of her chief objects in life. For a long

DUCHESS OF MARLBOROUGH.

time past she has aided rescue work from the outside. She is now to become a practical philanthropist.

"About three weeks ago Preb. Carlile visited the Duchess at Beaulieu, Nice," explained Mr. Colin F. Campbell, hon. sec. of the Church Army's social work the other day. "The Duchess has always taken great interest in our work since her marriage.

"Many times her grace has opened sales of work for us, and garden and drawing-room parties have been held at Blenheim. Mr. Carlile has visited Blenheim as the guest of the Duke since the unhappy domestic differences between the Duke and Duchess—indeed, only a few weeks ago."

It is expected that the Duchess will begin her new work as soon as she returns from the South of France, where she is staying with her mother and her two sons.

Captain and a Big Bear.

Capt. Stanley, the British Naval Attache at St. Petersburg, while out bear shooting had a narrow escape from being killed.

He was in a forest near the village of Borokina, between St. Petersburg and Moscow, with a member of the British and a member of the Austrian Embassy, when a large bear suddenly emerged from behind a tree several feet away.

Capt. Stanley fired, wounding the beast in the breast, but the brute continued his rush, knocking the captain down. His gun flew out of his hands, and the bear bit first one leg and then the other. Instead of clawing him, however, the bear then departed hurriedly, and later the other hunters killed it. Capt. Stanley was carried home and had to take to his bed.

English For Japan.

One of the suggestions for the improvement of the Japanese language mentioned by Baron Kikuchi in a lecture at University College, was that it should be abolished altogether, and the English language adopted, with all its irregularities cut out.

OUR WOOD PULP INDUSTRY.

Should Prove a Permanent Source of Wealth and Revenue.

The only extensive supply of good pulpwood left in America is in Canada. There is a considerable amount left in New Brunswick, a much larger quantity in Quebec, and still more in Ontario. Owing to the rapid diminution of the supply and the equally rapid increase of consumption in the United States, Canadian pulpwood is acquiring an unprecedented value. If it does not prove a permanent and important source of wealth and revenue, the failure to do so will be due not to the niggardliness of nature, but to the reckless and obtuse vandalism of the community.

Destruction of Spruce.

In New Brunswick the pulpwood forests have been for many years depleted of the larger spruce trees for the purpose of being manufactured into lumber to be used in shipbuilding. Only by the exercise of the utmost self-denial and intelligence on the part of the lumberman can the surviving trees be reserved to complete their growth, and yet their removal would mean the destruction of what is left of once extensive spruce forests. Once completely destroyed, these could never be effectively restored, for the spruce is in most soils and in northern climates a slow grower.

To Quebec the American pulp maker chiefly resorts for a supply of pulpwood, because in that Province no restriction has been placed on its exportation. There is some reason to fear that the supply of spruce is not as great as at the time the present somewhat reckless policy of alienation was adopted it was supposed to be. How far it may now be possible to substitute for that policy one of conservation by fixing the size of trees to be cut, by replanting burnt areas, and by careful scientific treatment promotive of the increase of the forest as a whole, is a subject for careful consideration by legal experts, administrative officials, practical rangers, and scientific foresters. Certainly the subject should be taken up in earnest and should never be allowed to drop out of sight again.

A Great Public Asset.

In Ontario the obstacles factitiously interposed have checked the exportation of pulpwood to such an extent that the owners of spruce trees complain of being left at the mercy of the local manufacturers of wood pulp. It may be difficult to ascertain precisely how these conflicting interests may be adjusted to each other most advantageously for the general good, but the effort to obtain the necessary information and to base on it some enlightened sort of treatment of a great public asset must be made, and it cannot be made too soon. The very first step is to find out the location of our pulpwood reserves, their extent, the degree of rapidity of their growth, and the best way of alienating them for profitable and interminable exploitation. Anything like a policy of reckless destruction will never again be tolerated in this Province.—Toronto Globe.

Why One Should Laugh.

A good laugh is the best medicine in the world.

If we laughed more we should all be happier and healthier.

True, we are a busy and a very practical people, and most of us probably find more in this life to bring the frown than the smile, but at the same time it is a pity that we do not laugh more—that we do not bring ourselves to the laugh, if need be.

Physicians have said that no other feeling works so much good to the entire human body as that of merriment.

As a digestive it is unexcelled; as a means of expanding the lungs there is nothing better.

It keeps the heart and face young.

It is the best of all tonics to the spirits.

It is, too, the most enjoyable of all sensations.

No More Stroking of Gathers.

The monotonous, nerve trying work of stroking gathers, or laying them, as it is sometimes called, may be entirely done away with by the following method: Use a long, slender needle and fine thread. Fill the needle with gathers almost as full as it will hold. Squeeze these hard together, pressing toward the eye of the needle. When well squeezed, hold firmly in one hand and pull with the other. When the gathers have passed from the needle, they will be found as nicely laid as if done with a pin.

If the gathering has been put in by machine, and none are nicer and more even, a little gentle pulling will make them set like handmade gathers.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing shold be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Synopsis Of Canadian North-West HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land is situate.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act, as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

IN ARMOR CLAD TRAIN.

Dowager Empress Travels to Visit Her Sister Queen Alexandra.

The Dowager Empress of Russia, who has recently been in England on a visit to the Queen, although a sister of Her Majesty, is but little known to the present generation of English people. It is many a long year since her last visit, while her first was as far back as 1863, when, as the then Princess Dagmar, she came to England for the wedding of her sister. Like the present Princess of Wales, the Dowager Tsarina was affianced to the heir to the throne when death parted them. Subsequently, as in the

DOWAGER EMPRESS OF RUSSIA.

case of Princess May of Teck, the Danish Princess married the brother who stood next in succession. It may be noted that until the birth of the Tsarevitch, two and a half years ago, his grandmother, as mother of the Tsar, as well as of the heir to the throne (her youngest son, the Grand Duke Michael), took precedence of her daughter-in-law, the reigning Empress, at all functions.

The greatest precautions were taken by the English police to ensure Her Majesty's safety, and she traveled across the continent in the Czar's armor clad train.

BRITISH NATION'S BILLS.

Civil Service Estimates Run Away With Over $150,000,000.

Great Britain's Civil Service costs more and more every year. For 1907, the estimate, according to the official return just issued is £30,107,034, an increase of £790,405 over 1906.

While the Foreign Office vote remains fairly constant, the votes for all the Home Departments show an increase. That for the Board of Trade has increased from £178,000 in 1898 to £274,484 in 1907. The Home Office vote has increased in the same period from £119,793 to £198,735.

The vote for the Secret Service is £50,000. It has steadily increased since 1898 from £25,000.

The vote for the maintenance of children in reformatory and industrial schools gives interesting comparisons between the three kingdoms. The amounts for the coming year are:—

England and Wales.	Scotland	Ireland.
£172,000	£58,400	£107,360

It will be observed that Ireland's share is quite out of proportion on the basis of population.

Criminal prosecutions will cost the country an estimated amount of £16,267 for England, £15,500 for Scotland, and £13,000 for Ireland.

In the revenue Departments the upward tendency of recent years is maintained. For the coming year the estimates are:—Customs, £958,000; Inland Revenue, £2,299,300; Post-office, £17,367,751.

Since 1898 the total has increased by over £5,000,000.

The nation is pledged to an expenditure of £2,100 to defray the cost of a memorial to the late Marquis of Salisbury.

The cleaning and repainting of the British Museum is estimated at £6,-150.

Tobacco in India.

India is developing a promising tobacco growing industry, which the Government is fostering in every way possible, even to the extent of establishing a Government farm to be devoted exclusively to tobacco research, in the Gangpur District of Bengal, one of the most important producing areas in India. The development of any industry under Government assistance is much more rapid than under commercial stimulus. Extensive plant breeding and seed selection work can only be done on a large scale, and if carried on by the Government the results are shared by the small farmer as well as the large syndicate, while if the work is carried on under the direction and at the expense of any commercial body the results are often kept as secret as possible, and it is only by judicious seed selection that the small farmer can maintain profitable competition.

Dog Saves a Rabbit.

A sportsman on the Huntsham estate, North Devon, had a rabbit brought to him by his spaniel, which had caught it under a hedge.

The rabbit could walk only very feebly, though all its limbs were found to be sound. In its mouth, however, was a thick twig about three inches long, which had become wedged in behind the teeth in the rabbit's rush from some threatened danger. The animal was unable to extract the twig with its paws and was being gradually starved to death when it was found by the dog.—London Evening Standard.

Home of the Icebergs.

Almost all of the icebergs seen in the North Atlantic during June are products of the coast of Labrador, formed from the ice field that had filled the indentations of that coast the previous winter. July's icebergs come from farther north, in the vicinity of Baffin Land, those of August come from still farther north, and though fewer in number than those of the earlier summer are larger individually. From the coast of Labrador may be seen an endless procession of these ice mountains coming out of the north, and taking their way majestically southward until they lose their being in the warmer waters and climate of the South Atlantic.—Marine Journal.

ROBBERY UNDER ARMS

SENSATIONAL ATTEMPT TO LOOT TREASURE IN AUSTRALIA.

Midnight Attack on a Gold Storehouse—Attempt to Bribe Watchman—Police Prepare an Ambush and Lay Wait—Burglars Rounded Up and Fight Desperately—Deadly Revolver Fire—Fugitive Shot Down.

Mr. Gerald Browne, son of "Rolf Boldrewood," the author of "Robbery Under Arms," was one of the actors in a recent sensational attempt to loot the treasure-room of the Tower Hill Gold Mine, West Australia.

According to the details which arrived by mail recently, the watchman of the mine was approached with a view to his "standing in" with persons who intended to commit the robbery. He apparently agreed, but gave information to the manager, who apprised the police. Only four officers were available, and, further assistance being required, the manager got Mr. G. Browne, who happened to be a visitor in the small town, and who is a dead shot with rifle and revolver, to help.

Secreted Themselves.

A sergeant and a constable secreted themselves in the part of the mine buildings where the smelted gold is stored; another constable, with the mine manager, took up a position outside; while Mr. Browne and the fourth officer placed themselves where they could cut off the retreat of the robbers into the bush.

Punctually at the time arranged with the watchman—midnight—two men, afterwards identified as W. F Hansen and E. Marley, noiselessly cycled up, and, taking off their boots, approached the lonely mine buildings. Hansen forced an entrance and was making his way to the treasure-room when he was pounced upon by the waiting policemen.

The burglar, who was a most powerful young man and a locally notorious desperado, violently fought to get his hand to one of his pockets, which contained a loaded revolver. In the course of the struggle the sergeant had his face almost smashed in with a kick, but finally Hansen was knocked down with a blow from the butt-end of a revolver and handcuffed.

Took to His Heels.

The other man, Marley, who had remained outside to watch, took to his heels on hearing the sounds of the conflict inside, and was making for the bush when Mr. Browne stood up from where he was ambushed and called upon him to surrender in the King's name.

The fugitive, however, continued running, and Mr. Browne fired three shots over his head. This failed to bring him to a standstill, so a fourth shot was fired by Mr. Browne. The ball entered the man's back below the shoulder-blade, and he fell to the ground and was subsequently removed to the hospital. It was there found that his spinal column had been severed. The man is paralyzed, and there is no chance of his ultimate recovery.

When the mail left another man had been arrested at Kalgoorlie for complicity in the affair.

Hansen, the man who was captured in the mine buildings, was associated with a charge of cattle stealing in connection with which three men made a remarkable escape from Kalgoorlie Gaol on Christmas Day of 1904.

Sexton Fifty Years.

"I'm ready and willing when the time comes," were almost the last words uttered by the venerable sexton of the quaint West Lancashire church of Hoole, Mr. Thomas Sharples, whose mortal remains now lie in the consecrated ground he loved so well.

Deceased, who was in his 89th year, was widely known and respected. For a period of over half a century he

MR. THOMAS SHARPLES.

faithfully fulfilled his duties, during which time he had assisted at the interment of over 1,000 persons in the precincts of the church famous for its connection with Jeremiah Horrocks, who, when curate there in 1639, predicted and observed the transit of Venus across the sun's disc.

Sharples was of a most amiable disposition, had a very retentive memory, and was fond of recalling stories of his youthful days in which the doings of highwaymen figured prominently.

His quaint mannerisms and entertaining gossip made him an ideal guide to the numbers of tourists visiting the church, whose memorial windows to the memory of Horrocks are greatly admired.

Dog Goes Electioneering.

A dog clothed in a paper suit, upon which were the words in large type: "Vote for Kirk," was sent about the streets of St. Austell, Cornwall, in support of his master's candidature at the Urban Council election.

She Knew Better.

Gerald—I was afraid you would offer to be a sister to me.

Geraldine—Sisters don't get engagement rings.

Three In Motion.

"Does your wife have a great deal of trouble getting servants?"

"Well, that depends upon what you mean by 'trouble.' She always has three servants—one at the house, one going and one coming."

ANALYSTS and Health Authorities strongly emphasize the fact that the Royal Baking Powder is always uniform in leavening strength. It always does perfect work, each spoonful the same as every other. It makes every cake or batch of biscuits uniformly light, sweet and wholesome. This important quality results from a scientific combination of the most highly refined ingredients, and no other powder possesses it. Many of the cheaper-made baking powders, imperfectly combined, have spoiled upon the hands of the grocers.

LORD CURZON'S ELECTION.

Late Viceroy of India Becomes Chancellor of Oxford University.

Lord Curzon's election to the Chancellorship of Oxford University reminds one of the interesting group of men who have the honor of presiding over the great English universities. Lord Rosebery, Lord Curzon's defeated opponent, is Chancellor of the University of London; Cambridge has a kind of hereditary Chancellor in the Duke of Devonshire, and His Grace has just been elected also to the Chancellorship of Manchester University, in succession to Lord Spencer, resigned. Another ducal Chancellor is the Duke of Norfolk, who presides over the University of Sheffield.

LORD CURZON.

Of the rest, Lord Ripon is Chancellor of the University of Leeds; Mr. Chamberlain, of Birmingham; Lord Balfour of Burleigh, of St. Andrews; Lord Kelvin, of Glasgow; Lord Strathcona, of Aberdeen; Mr. Balfour, of Edinburgh; Lord Rosse, of Dublin and Lord Castletown, of the Royal University of Ireland. Last, but not least, the Prince of Wales is Chancellor of the University of Wales, an institution which is also exceptionally honored by having the King as its Protector.

Franklin's Orderly.

There is still living in Gillingham, Kent, a veteran who acted as orderly to Sir John Franklin, the Arctic explorer. The veteran is George Parr, who has just celebrated his ninety-first birthday. Parr joined the Royal Marines in 1834, and accompanied another famous navigator, Sir James Ross, when he took the Erebus and Terror to the Antarctic Ocean in 1839. That was a four year's voyage, and the expedition suffered great privations. Parr vividly recalls the long days when the ships lay fixed in the ice. The monotony was broken by seal fishing and bear hunting, and Parr had several narrow escapes from death. It is interesting to recall that this expedition touched the southernmost point up to that time, discovering Victoria Land, and naming its two volcanoes Erebus and Terror, after the two ships.

Parr had the distinction of going "furthest south" with his intrepid commander. On his return from this voyage he was appointed orderly to Sir John Franklin, and was keenly disappointed when the Admiralty refused him permission to go to the Arctic regions. He was ordered to New Zealand, where he fought in the Maori war, was severely wounded, and had to quit the service.

King Edward is keenly interested in Mr. Parr. When his Majesty visited Chatham last year he had a long chat with the veteran, asking him a number of questions about his Antarctic experiences and he has inquired after him on several occasions since. So marked has been the King's interest that Parr regards himself as his Majesty's "particular" veteran. Many prominent officials have also exchanged a few words with the old soldier, among them Earl Roberts.

Where Sun Gets Its Heat.

Sir Robert Ball, professor of astronomy at Cambridge Observatory, England, delivered an address at the Carnegie's Institute, Pittsburg, recently on "The solution of a great scientific difficulty," in which he explained the maintenances of the heat of the sun during a period of many millions of years. He said the age of the sun appears to be much greater than would be computable with the supposition that its heat was derived only from contraction. He said that in the process of the contraction of the sun from infinity to its present bulk the sun would yield its present amount of heat by contraction for only 9,520,000 years.

But Prof. Joly had shown it would require 1,000,000,000 years for the earth's water to turn from fresh to salt. Therefore, he concluded, that there must be some source of energy in the sun much greater than that arising from contraction. This source, he said, was found in the movement of corpuscles of matter at the velocity of light. The nebula from which the sun had contracted contained these particles, a small quantity of which, such as radium would produce a tremendous energy and heat.

Gen. Nicholson Promoted.

It is announced from London that Lieutenant-General Sir William Gustavus Nicholson will succeed General Sir Neville Gerald Lyttelton as Chief of the General Staff and first military member of the Army Council.

General Nicholson, who entered the Royal Engineers in 1865, has played his part in nearly all the wars in which Britain has been engaged during the last forty years. He served in the Afghan war, and in the march to Candahar in 1879 won his Major's brevet. He was present at Tel-el-Kebir in 1882, and was Assistant Adjutant-General during the Burmese expedition. In South Africa he acted as military secretary to Lord Roberts and as director of transport at headquarters. During the Russo-Japanese war he was chief British military attache with the Japanese army. Since 1905 he has been Quartermaster-General of the forces and third military member of the Army Council.

Dog's Strange Appetite.

A valuable show dog belonging to a lady at Haywards Heath having died, it was suspected that it had been poisoned. A veterinary surgeon made a post-mortem examination, but instead of poison he found a sponge, nailbrush, a piece of red flannel, several stones, hay, leaves and pieces of wood, "Indigestion" was given as the cause of death.

HOCKTIDE AT HUNGERFORD.

When Civic Officials Kiss All the Women.

Describing the quaint old Easter custom of "Hocktide," which is still kept up at Hungerford, a correspondent of The Country Gentleman says:

The ceremony begins with the "macaroni supper," at which macaroni, watercress, and punch are partaken of, among other dishes. But the great day is "Hocken Tuesday," when the high constable and other officials are elected.

First the town crier parades the streets ringing his bell to awake the townsfolk to their duties. Then he goes to the town hall, and from the balcony he blows a long and loud blast on a celebrated horn, which was presented to the town by John o' Gaunt, when he bestowed certain privileges upon the town. (There is also a beautifully carved ebony chair, only used on state occasions, which was presented by him.) Then follows the work of electing the constable and other officials, and when this is done, a lunch at the chief hotel.

But the most curious part of the proceedings is the work of the men called "tutti-men"; they parade the streets carrying decorated staves. They have to visit the houses of every commoner and demand a coin of the realm from every man and a kiss from any woman whom they may encounter. They must be allowed to enter any house and go where they like! If the "fair sex" object to be kissed they must find safety in the streets, for it is only in the houses that the kiss can be demanded!

The meaning of these strange doings seems to be lost, but perhaps in some other part of the country where Hocktide is still observed its meaning may be known and explained.

In Hone's "Everyday Book" one explanation is that it may have been originally intended to celebrate the departure of the Danes from England, though what connection the two things had does not seem to be explained.

POSTAL REDUCTIONS.

British Newspapers May Now Come to Canada At Lower Rate.

The following announcement was made last week by the Postmaster-General in regard to the new postal rates for newspapers, etc. These are to come into force on May 1st.

"The postage from the United Kingdom to Canada on registered newspapers and on bona-fide magazines and trade journals (published at regular intervals of not more than once

RIGHT HON. SYDNEY BUXTON.

a month) is to be reduced to a rate of a penny per pound on each packet, the charges on packets not exceeding two ounces remaining at a half penny. The present limit of weight of five pounds for a packet will be maintained, and certain administrative regulations will be laid down by the British postoffice.

The accompanying portrait is that of Right Hon. Sydney Buxton, British Postmaster-General, who has had much to do with bringing about the change.

Ireland's Big Show.

To many the great Irish International Exhibition, to be opened by the Lord-Lieutenant of Ireland at Herbert Park, Dublin, on May 4, will doubtless prove an irrisistible addition to the Sister Isle's natural attractions.

The exhibition, which is to cover fifty-two acres of grounds, will be devoted to the entire range of art and commerce, giving, of course, special prominence to the features of purely Irish character. An endless round of music, concerts, and novel amusements of nearly every kind will be the fare provided for those on pleasure bent.

As president, the Marquis of Ormonde has the assistance of an influential committee of vice-presidents, including the Marquis of Waterford, the Earl of Pembroke, the Earl of Meath, the Earl of Drogheda, the Earl of Shaftesbury, the Earl of Bessborough, the Earl of Mayo, the Earl of Kenmare, and Lord Strathcona. The secretary and chief executive officer is Mr. James Shanks.

Originating at a large and influentially attended meeting of the then newly-formed Irish Industrial Conference four years ago, the movement has gradually taken shape and developed into existing promising proportions. Men of all classes, creeds, and politics met for the common purpose of doing what they could to better the condition of the country, and the decision to hold an international exhibition was approved by men of the greatest influence. Nearly a thousand enthusiasts, representing every section of the community, subscribed to a guarantee fund, which now exceeds £155,000.

British Drink Bill.

Dr. Dawson Burns, writing to The London Times on "The National Drink Bill," says that the average per head expenditure on liquor, which was £3 15s 11 1-2d in 1905, was £3 16s 3d in 1906—the actual expenditure being £168,425,911 by a population of 43,659,121.

In the Orchard.

Many fruit growers are coming to believe that it is better practice to cut or rub off water sprouts during the growing season than in winter. Many bad cases of water sprouts seem to be caused by overpruning in winter or early spring.

LONDON'S SAILOR RESERVE.

Prince of Wales Inspects Royal Naval Volunteers At Lambeth.

Over 700 strong, and in spick and span condition, the 10 companies forming the London division of the Royal Naval Volunteer Reserve assembled the other day at their drill-hall in Commercial road, Lambeth, for inspection by the Prince of Wales.

A crowd of people awaited the arrival of the Prince, and hearty cheers were raised when his Royal Highness drove up in Naval uniform. Within the gates was a full guard of honor composed of officers and men from Nos. 1 and 2 companies, under Lieut. Wildey.

Commander Guinness, introduced to the Prince, one by one, the officers under his command.

Having been inspected by the Prince the division went through man-

PRINCE OF WALES REVIEWING THE ROYAL NAVAL VOLUNTEERS.

ual and firing exercise, and then "fall in for drills" was piped.

Many of the drills were of a spectacular nature, and carried out with remarkable precision, dash, and unity. The dismembering of field guns and their equipment, and lifting them piece by piece through a "hole in the wall" was at once a good show item and a test of efficiency.

The Prince watched every movement with a professional eye, and asked many questions of the officers on points of detail. The drills completed, the "general assembly" was sounded, and as soon as all the companies had fallen in his Royal Highness addressed them a few congratulatory words.

The next order from the commanding officer was, "Prepare to stand by to give three cheers." Then: "Three cheers for his Royal Highness the Prince of Wales! Hip, hip, hurrah!" The men obeyed heartily, and the crowd outside, hearing the sound, added a fourth cheer on its own account.

This was again repeated as the Prince's two-horse carriage moved off towards Westminster Bridge.

Gift to England.

The statue of William III. of Orange, which the German Emperor is about to present to King Edward, is a bronze figure nine feet in height. It will be shipped to England in June, when an exact duplicate will be erected on the terrace of the royal palace in Berlin.

According to Herr Heinrich Baucke, the sculptor who is making both the figures, the Emperor decided to send the statue to England after seeing the sculptor's rough sketch. "What a capital present that would make for England!" he exclaimed.

His Majesty's original intention was to send a miniature statue as a private present to King Edward, but the idea was given up in favor of a full-sized figure, which, according to the words of the Kaiser's written instructions, is intended "for the English nation."

Herr Baucke relates that the Emperor spent three-quarters of an hour

Could Not Speak Above a Whisper

COLD IN THE CHEST SEEMED TO BE UNMOVABLE, BUT CURE WAS SOON EFFECTED BY

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

It is waste of time to use ordinary cough mixtures for serious colds on the chest, and time is of infinite value when the lungs are in danger.

The risk is too great, especially when you wait to think that Dr. Chase's Syrup of Linseed and Turpentine is for sale in nearly every store that keeps medicines at all.

This letter gives you some idea of the effectiveness of this great medicine.

Mrs. A. Burnum, Ingersoll, Ont., writes: "My husband had a very severe cold on his chest, and got so a whisper. The cough medicines he tried seemed to have no effect, and residing about Dr. Chase's Syrup of Linseed and Turpentine I sent for a bottle. In two days he was cured and is very grateful for such a medicine. He says we will never be (without this medicine in the house."

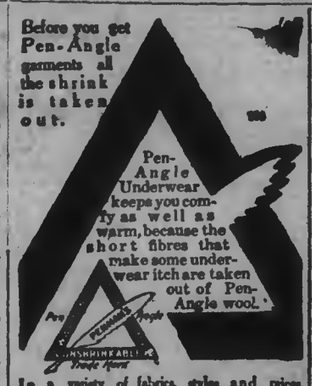
The very name of Dr. Chase's Syrup of Linseed and Turpentine is sufficient to explain the simple and yet powerful and well-known ingredients of which this great medicine is composed.

While linseed sheaths the mouth, tongue and throat with a protective coating to prevent injury from hard coughing, turpentine disinfects and stimulates the ulcerated parts of the bronchial tubes and lungs and is almost specific for bronchitis.

Other ingredients, which, along with these, go to make up Dr. Chase's Syrup of Linseed and Turpentine, soothe the nerves, loosen the cough, aid expectoration, and by thorough action on the whole system, completely cure coughs and colds, bronchitis, asthma, whooping cough and sore throat.

Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle, at all dealers, or Edmanson, Bates & Co., Toronto. To protect you against imitations, the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every bottle.—16

Before you get Pen-Angle garments all the shrink is taken out.



In a variety of fabrics, styles and prices, in all sizes for women, men and children, and guaranteed by your own dealer.

in his studio on his first visit of inspection criticising the details of the historical dress given to the figure. His Majesty seized a paper and pencil, drew an outline of the pose, rapidly filled in each detail and explained the points with his usual vivacity.

He was careful, however, to collect the pieces of paper on which he had made his sketches and carry them away with him when he departed.

Premier's Salaries.

The best paid Colonial Premier is the newest—Gen. Botha, who is to draw £4,000 a year from the Transvaal Government.

The following is a list of the other Premiers' salaries given in the House of Commons recently by Mr. L. V. Harcourt, who was answering questions for the Colonial Office:

Australia	£2,100
Natal	1,346
Queensland	1,300
Victoria	1,400
N. S. Wales	1,570
Canada	1,200
West Australia	1,200
South Australia	1,000
New Zealand	1,600
Tasmania	950

Dr. Jameson, the Prime Minister for Cape Colony, receives no salary. Sir H. Campbell-Bannerman, as Premier, receives no salary; but as First Lord of the Treasury is paid £5,000 a year.

Mummy Up-to-Date.

A correspondent of the Tablet, writing from Egypt, says at Assuit, a little while ago a German lady was much pleased at having secured for a considerable sum the mummy of a sacred cat. She was delighted with her bargain, and the Arab dealer was quite satisfied with the sum he received.

"But with the curiosity inherited from our first poor mother," says the correspondent, "she began to examine her mummy. She looked at it closely, and even picked a hole in it.

"Then, encouraged by what she saw, she proceeded to rip it open. Her mummy was stuffed with the Daily Mail."

His Happy Home.

His salary was £250 a year, and he had just proposed to Miss Clare Lighthead and been accepted, and they were both exquisitely happy until she said:

"And you don't know how lovely our home will be, George. It shall be a place of rest and joy and comfort! I'll ring the housekeeper up every morning and"—

"The housekeeper?"

"Yes, yes, dear. Now, don't interrupt, you naughty boy. I'll tell the housekeeper to tell the cook to"—

"The cook?"

"Of course, and I do hope we can get a French cook. And I'd like the parlor maid to"—

"The parlor maid?"

"Yes, yes. I'd like a brisk, tidy, rosy cheeked girl. I don't care so much about the housemaid."

"Why, my darling, I'm afraid"—

"Now, now, you bad old boy, you must let your little girl have her own way when it comes to the house servants. You can engage the butler if you like, and of course you'll get the coachman, but when it comes to the laundress and seamstress and—why, George, what a dreadfully long face you have! I don't like it!"

It looked longer as he sat in his 10 by 12 room an hour later trying to "figure out" how the wages of the cook and housekeeper and butler and all the rest of them were to be paid on £5 per week. He hasn't calculated it yet.—London Mail.

Girl Masquerades as Boy.

A remarkable story of a girl who was induced by her mother to masquerade as an errand boy in order to rob her employer was told at the Liverpool, Eng., Police Court recently. Emily Barnes, an intelligent girl of fifteen, said that after conversation with her mother she dressed up as a boy some months ago, and obtained work running errands. A few weeks ago, under the name of "Harold Barnes" she found employment in the shop of Mr. Jacobus. Noticing where the money was kept she hid one night in the cellar. In the early hours of the following morning, she broke open the till with an axe and stole £4, subsequently giving the money to her mother. Suspicion, however, fell upon the supposed boy, and she was charged at the Police Court without her real sex being discovered. It was only when remanded to the workhouse that she confessed to being a girl.

New Cruiser Launched.

The British armored cruiser Invincible was launched last week from the Elswick shipyard, Newcastle.

She is one of the trio of largest cruisers in the world, of which the first, the Indomitable, was launched March 16.

Under the admiralty order the greatest secrecy was observed, in order to prevent any details regarding the new warship leaking out.

Her dimensions are the same as those of the Indomitable, namely, she is 17,250 tons, is 530 feet long, exceeding the older armored cruisers by 50 feet; has turbine engines and is expected to attain the high speed of 25 knots an hour.

The armament of these three cruisers includes eight 12-inch guns, almost equaling the main battery of the Dreadnoughts.

LADY CLERKS' SUCCESS.

Displace Nearly 2,000 Male Workers Within Three Years.

The custom of dismissing male clerks and replacing them by cheap lady workers is assuming very serious proportions, not only in the provinces, but in London. Within the last three years, it is estimated by one authority, between 1,500 and 2,500 male clerks have been thrown out of employment in the metropolis, and their positions filled by lady workers. Until recently the movement has been chiefly amongst the smaller firms, but now the larger firms, offices, and companies in the city, whose business makes it imperative to keep large staffs, are beginning to move in the same direction.

Males Get Bounce.

"The competition at present," said the general secretary of National Union of Clerks, recently, "is chiefly amongst shorthand writers, typists, bookkeepers and private secretaries. I have several cases brought to my notice recently in which men have been dismissed wholesale and replaced by lady workers. The change, of course, is said to have been brought about on the score of economy. The male clerks receive on the average from 30s. to 45s. per week; the young ladies generally receive from £1 to £1 10s. per week — about two-thirds the salary of the male workers.

Do They Equal Men?

"If the lady clerks are equal to the men—and this is a matter for discussion—then they should certainly receive the same wages. What my association is insisting upon is that women should not accept positions under a minimum salary, and that this should be equal to a man's salary. In shorthand, writing and typing work I quite admit that the average woman is quite equal to a man, but in bookkeeping, for instance, where exceptional qualities are required, she seems to be much inferior.

"I heard of a firm in the city who a short time back dismissed all their male clerks and substituted ladies, but after a short time the firm became so disgusted with the lack of discipline shown by the girls—if some of them were spoken to they shed tears—that they were glad to revert to their old custom."

Care of Baggage in England.

"So you are going abroad, eh?" said a railroad man. "Well, watch your luggage over there. The system is abominable.

"They don't, you know, have our simple and satisfactory check system. In England, for instance, no one is responsible for your luggage but yourself. You get a porter to put it in the baggage car, and when you reach your destination you pick it out with another porter's help, put it on a cab and drive off. Anyone could steal it. Often luggage thefts occur.

"I often wondered why the English railroads, which in many respects are so good, didn't adopt our American check system. Last year, asking an English railroad man, I found out.

"If the English roads adopted the check system they would be responsible for luggage, as our roads are. The English law does not make them responsible. Therefore, of course, they do nothing that will lay such a responsibility upon them. But they acknowledge that our luggage system is fine, while theirs is execrable. And they have a registering system—a mere begging of the question—for which you have to pay extra."—Philadelphia Bulletin.

English Etchings.

The number of British horses bred is falling off at the rate of nearly 4,000 a year.

Not more than 64 persons can be registered as owners of any one British ship.

Hampstead Heath is the highest part of London. It rises 424 feet, or eighty-four feet above the cross of St. Paul's.

In the year 786 there were three archbishops in England—Canterbury, York and Lichfield. The latter was suppressed within half a century.

As long ago as 1710 handkerchiefs were made on which were printed the map of England, with distances of the principal towns from London.

The Fulham borough council, London, has agreed to allow the use of its public baths for baptisms by immersion. The scale of charges is furnished on application.

A complete skeleton of an okapi, the skull of which is a most remarkable specimen, has been sent to the British museum by Major Powell Cotton. In addition there is a beautifully marked and perfect skin.

Muscles vs. Brains.

"The muscles are of primary importance, brains of secondary importance," declared J. A. Cockburn, who presided at the annual meeting of manual training teachers at Blackpool, England. "Our whole knowledge of the world comes to us through the muscles, and is remembered by them.

"The muscles' memory is the essential part of memory. Not only physical force lies there, but the mind of real man. It marks out his knowledge and defines his character. But for muscular movement people would never have had any brains worth talking about.

"Constructive genius and originality will be the requirements of the future, and the class room ought to be the adjunct of the workshop. Hitherto the cart has been put before the horse. The child instinctively recognised the importance of muscular motion, and despite its teacher exercised its powers in that direction."

Canada's Name.

How did Canada come to be called Canada? Just how many people could answer that simple little question on the spur of the moment? Very few, it is safe to say. Yet Canada is one of the most prized jewels in the British Crown.

The name of Canada comes from a Red Indian name, meaning a collection of huts. Rather a funny appellation for a country bigger than Uncle Sam's very own United States!

It is interesting, and even fascinating, to consider how some of our possessions came to get the names which they bear nowadays. Newfoundland was the first of all the British colonies and it name speaks for itself. It was not merely the first British colony, but was first bit of the "New World," as America was called in the days of its discovery, which Britons took possession of.

CANADA'S DANGERS.

Too Much Partyism and Too Little Patriotism.

Right Rev. Dr. Mills, Bishop of Ontario, addressed the members of the Empire Club, Toronto recently, on "Our Country, its Dangers and its Needs." "Materially," said the reverend speaker, "there is nothing to be desired. In agriculture, minerals, forest and water resources, Canada is abundantly rich. Her lands will undoubtedly show more riches than the Cobalt has revealed. She has 40 per cent. of the world's water power, while the returns in Ontario alone, from the fisheries are nearly two million dollars."

Held In Trust.

"Everything to make a country great had been entrusted to Canadians. These were all given to us in trust; we are stewards of God."

Speaking of the dangers that lie before us in the rapid expansion, the speaker instanced lack of cohesion, the duality of languages, the separate schools, lack of an intense patriotism, the manhood suffrage and the lack of high ideals in the public men as the chief reasons for disintegration.

The one official language in the United States has been a great aid towards holding together the national idea. While manhood suffrage was an ideal system, yet the newcomer had no love for this country beyond what he could get out of it, and most often his vote was looked upon in a financial aspect.

Lack of Ideals.

Again, the lack of high ideals of integrity and responsibility in the public men of the country, tended powerfully towards breaking down those forces that make to the building up of a strong nation. There was too much party politics and too little patriotism. What we want is honest men—men who will stand for purity and righteousness in civic affairs. Our Government was not a truly representative Government, as a few politicians get together and nominated the candidate whom the party feel bound to support.

Dean Farthing of Kingston, who was present as a guest, in a three-minute speech, urged the men to sacrifice themselves as did the men of the old empire, in order to bring about and hold our freedom from the thraldom of vice.

"I consider the man who besmirches my party" said he, "as putting a stain on me, and if I withhold my judgment I am guilty of complicity. I must speak out. We must fight corruption in our own party. Let us have pure men in our parties, and with this personal responsibility we will do much towards making our public life better."

SIR ALEXANDER'S BUSIEST DAY.

A Great Musician Tells of Hustling He Had to Do In Canada.

Sir Alexander Mackenzie, principal of the Royal Academy of Music, was asked to tell the readers of The London Tatler what was the busiest day he ever put in. He replied: "Well, I think that day was one on which I began at 9.30 a. m. with an orchestral rehearsal of two hours and a half in London, Ont. We then proceeded by special train to Woodstock; there, after speaking at a public luncheon of which I had not time to partake, I hurriedly rehearsed the local choir in sight of the incoming audience; then conducted an afternoon concert and returned to London in time for the evening concert. The day ended with another banquet given by the mayor. All this did not prevent me from being at my post at early rehearsal in Toronto on the following morning. I do not think I could have possibly got through such a fatiguing day's work in this country, but the Canadian climate is wonderfully bracing and invigorating. At all events, I found it to be so."

Sir Alexander further said: "In two or three of the smaller Canadian towns I conducted the first orchestral concerts ever given, and as these entertainments took place in theatres I had to direct in the 'house' between the third and fourth rows of stalls, surrounded by the audience. Encores were always numerous enough, but on one occasion the enthusiasm was so compelling that I was obliged to play—with the exception of a short choral work—every item in the program twice over. Truly, the good-will of the listeners helped my staying powers amazingly."

Widows Cheaper Than Maids.

By the old Saxon law a maiden and a widow were of different value. The latter could be bought for one-half the sum which the guardian of maid was entitled to demand. A man, therefore, who could not afford to buy a maiden might perhaps be able to purchase a widow.

MILBURN'S HEART and NERVE PILLS

For Weak People Having Heart or Nerve Troubles.

SYMPTOMS

Palpitation of the Heart, Irregular or Skipped Beats, Dizzy Spells, Smothering Feeling, Shortness of Breath, Bluish Color of the Lips, Pain in the Region of the Heart, Thin Watery Blood, Cold Hands and Feet, Nervousness, Sleeplessness, etc.,

If you have any of these symptoms

MILBURN'S HEART AND NERVE PILLS

will bring the whole system into healthy action, and give power, force and vigor to every organ of the body thereby strengthening the weak heart and unstrung nerves.

Mrs. Harmon Daybell, Welland, Ont., writes: "I write to let you know what good Milburn's Heart and Nerve Pills have done for me.

For over three years I suffered with pains under my left breast and my nerves were completely unstrung. I purchased two boxes of your pills and before I had the first box finished I felt much better and now I am cured."

Price 50 cents per box or three boxes for $1.25 at all dealers or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SHIP RUNS ASHORE: MANY DROWN

French Vessel Meets Disaster Off Coast of Uruguay.

THREE HUNDRED ON BOARD

Reported That Everybody Is Saved—Steamer and Cargo Will Be Entirely Lost—Emigrants Were Panic-Stricken—Leapt Over the Sides Into Water—The Government Is Aiding the Survivors.

Montevideo, Uruguay, May 9.—The French transports Maritimes steamer Poitou from Marseilles April 6 for this port, has been wrecked off San Jose Ignacio, on the coast of Uruguay. She is understood to have had 300 passengers on board, and according to the latest reports which have been received here nearly 200 of these have been rescued and are on their way here.

The vessel and her cargo probably will be a total loss. The casualty list has been placed at 100, but this has not been corroborated. A number of steamers have left here for the scene of the wreck, and the Government is doing everything possible to succor the shipwrecked persons.

San Jose Ignacio, or Punta Piedras Point, is a small rocky promontory surrounded by reefs, 21 miles west of Cape St. Mari, on the southeastern coast of Uruguay and about 150 miles from Montevideo. The vessel was driven on the rocks Tuesday. She lies thirty yards from shore near a town called Rincon de Herrero. A heavy gale has been blowing for several days and it still continues. This renders the work of rescue very difficult.

Tugs from the locality were unable to approach the Poitou and had to run to the nearest harbors for shelter. Despite the heavy sea, however, about 200 of those on board reached the shore in one way or another.

Panic occurred on board the vessel when she grounded and a number of the terror-stricken people jumped overboard. According to one report, a number of women were forced to remain below the hatches. Some of those who jumped managed to swim ashore, but many were drowned.

It is known that customs officers at Rincon de Herrero saved fifty passengers. The dwellers on the coast are doing all possible to help the distressed to get ashore, and are taking the best care of those that reached the land. Those still on board the vessel can be seen from the shore making despairing signals. The Uruguayan authorities have sent a number of doctors to the scene of the wreck.

Word Received In France.

Marseilles, May 9.—According to despatches received here from the agents of the company that owned the French steamer Poitou, wrecked on the coast of Uruguay, all the passengers and crew are safe. There were 160 passengers on board the Poitou, mostly Spanish emigrants.

CHARGES AGAINST CAPTAIN.

Gross Brutalities on Board British Steamer Maori King.

San Diego, Cal., May 9.—It was reported late Tuesday night that two sailors who have escaped from the British steamer Maoriking, which arrived here Tuesday from Shanghai, make sensational charges of brutality against the captain and officers of the ship. Rumors are in circulation to the effect that 15 Chinese were killed during the riot on board and their bodies cast into the sea.

International complications are likely to result and it is believed that the most serious part of the charges remains yet to be told.

35 Injured In Strike Riot.

New York, May 9.—Not since the Brooklyn car riots has there been such street fighting on the other side of the river as happened last night, when nearly 600 Italians and police joined battle in the Italian quarter in Williamsburg. Three patrolmen were severely injured and when their comrades had broken up the riot, 35 rioters had been sent to the Williamsburg Hospital and 12 more locked up in a police station. Under cover of darkness an attempt was made by the steamship companies to bring in non-union men and the rioting followed.

Volcano Active In Sicily.

Messina, Sicily, May 9.—The Stromboli volcano has been intermittently active since April 28. Cinders and stones, accompanied by loud explosions, have been frequently thrown out of the crater. The vegetation in the vicinity of the mountain has been destroyed. The people continue to leave the island.

MOTOR CAR IN A WILD RACE WITH TRAIN

Automobile Overturned While Running 55 Miles An Hour.

TWO WOMEN THROWN OUT

One of Them Instantly Killed—Other Seriously Injured—Car Became Unmanageable Just as It Was About to Pass the Engine—Swerved and Went Over an Embankment Into a Swamp.

Asbury Park, May 9.—While racing with a Jersey Central Railroad train between Point Pleasant and Asbury Park yesterday, a racing automobile in which Mrs. G. W. Boyce and Miss A. Milda Mass of Point Pleasant, were riding, was overturned and Miss Mass was instantly killed. Mrs. Boyce was rendered unconscious.

The train had just left Point Pleasant, bound for Asbury Park, when the automobile going at a terrific pace, came along the road way which parallels the railroad track, and attempted to pass the train. Passengers on the train witnessed the attempt and crowded to the platforms and windows, cheering the two women as their machine steadily forged by the train. Just as the automobile was abreast of the locomotive, and when both were going at the rate of 55 miles an hour, Mrs. Boyce lost control of the automobile. The machine swerved from the roadway, went over an embankment into a swamp and overturned, crushing Miss Mass.

FIRE AT HAILEYBURY.

Seven Business Houses Destroyed—Loss Amounts to $40,000.

Cobalt, May 9.—Yesterday morning in the block of buildings opposite the Vendome Hotel, seven business houses in Haileybury were burned out. The fire started about two o'clock, and raged till four, when, mainly through the efforts of the Haileybury fire brigade, which worked effectively, the flames were stayed.

The fire originated in a baker's shop on Browning street and very quickly spread as the buildings were of wood and flimsy.

The principal buildings destroyed were Trimby's bakehouse, where the fire started; D. John's assayers' office; A. J. Carson's grocery store; A. P. Budd's drugstore; a plumbing shop, a Chinese restaurant, and a laundry; O'Gorman's general store, P. Whelan's barber shop and several other smaller buildings.

It was only last fall that Haileybury was almost completely devastated by fire.

Mr. O'Gorman had no insurance at all on his stock, but a considerable amount of it was saved. It is stated that there was a small insurance on Budd's drugstore, and almost all their goods were saved. The loss will amount to about $40,000.

INUNDATION IN RUSSIA.

108 Villages Are Flooded—Prisoners Escape With Difficulty.

Krementchug, Russia, May 9.—The high water on the Dnieper, has inundated no less than 108 villages.

Dwellings, stores of grain and cattle have been swept away by the flood. The people of this town are in fight. The prison has been inundated and it was with difficulty that the prisoners were removed to Poltava.

At Alexandroveck the tracks of the Southern Railroad are submerged for a distance of many miles.

Flour Prices Advance.

Winnipeg, May 9.—The price of flour has advanced. Announcement was made by the Ogilvie Milling Co. yesterday morning that Royal Household flour had gone up 20 cents a barrel, making it now $3.40 a sack.

The Glenora patent has advanced 10 cents, and it is now $3.10, instead of $3 a sack.

The other mills in the city have advanced their grades in a like manner. There has been no change in the price of flour since last September. The millers claim that they have been forced to boost the price owing to the soaring of wheat prices. They look for further advances in the price within the very near future.

Burns Is the Champion.

Los Angeles, Cal., May 9.—Jack O'Brien and Tommy Burns met last night for a purse of $30,000 and the heavyweight championship. During the first round Referee Eyton called off all bets without giving a reason. O'Brien is said to have been injured. Burns won the fight, getting the decision after the twentieth round.

FAVOUR RESTRICTION IN VOTING

Premiers Pass Resolution to Limit Imperial Coasting Trade.

LLOYD GEORGE IS OPPOSED

Says Such a Policy Would Likely Lead to Reprisals—All Avenues of Trade Should Be Kept Open—Would Raise Cost of Carriage—Vote on Navigation Laws—May Finish This Week.

London, May 9.—(C. A. P.)—The Imperial Conference is sitting twice daily in order to finish by the end of the week.

Yesterday Premier Deakin brought forward a resolution drawing attention to the navigation laws in the Empire to the advisability of refusing the privileges of the Imperial coasting trade to countries whose corresponding trade was confined to ships of their own nationality, and requesting the Home Government to take the necessary steps for the revision of any commercial treaties which would prevent preferential treatment being accorded to British goods carried in British ships.

Premier Ward stated that action had been taken with New Zealand on the lines of the resolution. New Zealand felt keenly the restrictions placed upon her trade with Honolulu by the United States.

Mr. Lloyd George said that the transactions involved in the proposition involved a great complication of difficulties. Traders within the Empire would find a restriction to their choice of transport, and would raise the cost of carriage. A positive advantage would be given to foreign trade and goods from foreign countries would have a choice either of British or foreign ships.

Australia's Duty.

The benefit to British shipping was uncertain, because the bulk of foreign shipping engaged in inter-imperial trade was either Norwegian or German, neither of which countries had excluded us from their coast or inter-imperial trade. The only countries excluded under the resolution was Russia and the United States. Of the Empire's trade from the United Kingdom ports in 1906, Russia had one-third per cent. and America nil. If the principle was extended further there might be a danger of our shipping being exposed to reprisals. It was to Britain's advantage to keep open every trade possible to British shipping. Foreign ships excluded would not be destroyed, but would compete more keenly than ever in the foreign trade still open to them. This foreign trade largely exceeded colonial trade in magnitude.

Home Government Dissents.

Having given figures to illustrate this point, Mr. Lloyd George referred to the proposed merchant shipping legislation in Australia, and said Australia ought to give this country equality in treatment before discussing the preference.

Premier Deakin pointed out that these proposals were those of a commission, not the Government, which still had to decide upon a policy, and also that conditions were intended to raise the standard of shipping in conformity with Australian opinion.

Premier Laurier, in reply to Mr. Lloyd George, said the Conference was discussing a policy for the Empire, and although the United Kingdom might not have a serious interest in the matter, and might not desire to alter the existing state of things with the colonies, with interests in the Pacific which were adversely affected in a very direct and serious manner, the United States had extended their coasting trade to embrace Honolulu and the Philippines, and though Canada had offered to reciprocate in connection with the coastwise trade, the United States would not listen to the proposal. He pointed out that the resolution simply asked for attention to the matter.

Mr. Lloyd George said he could not accept the resolution as it stood, but was willing to accept it with the omission of the words dealing with the trade between the Mother Country and the colonies, so that the resolution would only cover an enquiry into the position of the matter respecting inter-colonial trade.

King's Good Wishes.

London, May (C. A. P.)—The King gave a dinner to the Colonial Premiers, Ministers and High Commissioners at Buckingham Palace. Several members of the royal family and a number of Cabinet Ministers and distinguished persons were present.

The King gave a hearty welcome and wished prosperity and happiness to the distinguished statesmen from his dominions overseas, and trusted they would carry away with them an agreeable impression of the mother country. He wished them godspeed on their voyage home.

LLOYD GEORGE CRITICIZED.

No Benefit Will Be Derived From Subsidy to Big Line.

London, May 9.—(C. A. P.)—The News wishes Lloyd-George had been less accommodating to the Premiers. Referring to the question of subsidies, he says the Canadian Pacific subsidy is a working model, which deserves to be studied. "We are subsidizing a great line, which competes with other lines, and the net result will be, if it enables this line to crush others out, that rates will not be cheaper or the consumer benefited."

That reasoning applies in double force to a highly speculative line via Vancouver and Australia.

Powell For Sheriff.

Ottawa, May 9.—The executive of the Conservative Association on a vote have agreed to recommend C. Berkeley Powell, ex-M.P.P., for sheriff of Carleton County, instead of ex-Mayor Fred Cooke. This has caused considerable surprise in the capital.

Engineer Badly Scalded.

St. Stephen, N. B., May 9.—Allan Bartlett, a driver of a C. P. R. shunting engine, was frightfully scalded yesterday as a result of a collition of two locomotives.

ENTOMBED MINER RESCUED.

Taken Out Exhausted After Being Imprisoned Nine Days.

Victoria, B. C., May 9.—The steamer Manuka, from Australia, has brought news of the rescue of an Italian miner, Varischetti, from an Australian mine by divers under circumstances similar to the rescue of Hicks at Bakersfield, California, a few months ago.

He was nine days imprisoned in the mine, which flooded during a heavy rain, cutting off his retreat. Pressure of water gathered a reservoir of air, where the Italian took refuge, and he cruised there for nine days in a living tomb, while divers tried heroically to rescue him by wading in the flooded mine.

Hughes and Hearn divers of the Bonnie Vale Mine, made many trips, supplying the Italian with light and food and writing material, with which he sent a pathetic message to the outside world.

After nine days his rescue was accomplished by Hughes, whose gallantry has been applauded throughout Australia.

The miner was almost dead — too weak to stand and unable to get from the cage without assistance.

TWO WOMEN MURDERED.

Brutally Attacked and Slashed to Pieces With Razor.

New York, May 9.—Mrs. Maria Vito, a comely Italian matron of 24 years, and her mother, Mrs. Maria Brignoli, aged 55, were literally slashed to pieces with razors in their East Side home yesterday. Giovanni Vito, the husband of the younger woman, is under arrest, charged with the crime.

It is alleged that he killed the women after a quarrel which followed their refusal to give him money. Vito, however, stoutly maintains that the women were killed by two men who broke into the house, and with whom he himself had a fierce struggle. In support of his story he exhibited to the police a cut on one of his hands, which, he declares, was inflicted by one of the men. His story is substantiated by his three-year-old daughter.

FOUGHT OVER SWEETHEART.

Two Prominent Men Fight Duel—Both Mortally Wounded.

San Antoine, Texas, May 9.—A special from Pueblo, Mexico, says: Lauro Jandero, millionaire, owner of several haccands, and Jos Maria Beltram, municipal director of Tlatenul, both aspirants for the hand of the daughter of a prominent planter of this district, fought a duel with pistols in the street, in which both were mortally wounded.

The men had quarreled repeatedly and when they met yesterday, following an encounter of the night before, Beltram opened fire. Jandero returned the fire and both men fell, badly wounded. From their recumbent positions they continued firing until each had received wounds which physicians say are mortal.

TRAIN OFF TRACK.

Broken Rail Is Responsible for Injury to Five People.

Winnipeg, Nov. 19.—At 8.50 yesterday morning mixed train No. 154 had two coaches derailed two miles east of Pettipiece on the C.P.R., caused by a broken rail. The following passengers received cits and bruises: W. F. Ellis, Hamiota; Mrs. W. F. Ellis Hamiota; Geo. L. Stone, Rapid City; Allen M. Stewart of Winnipeg, and Mrs. Rosby of Hamiota, also received some scratches and were badly shaken up.

Passenger Train Derailed.

Ottawa, May 9.—An eastbound C. P.R. passenger train was delayed two hours at the station at Hull last night through taking the wrong switch. It collided with several carloads of lumber, smashing two slightly, and damaging the front of the engine. A new one was sent over from Ottawa, and the train left for the east at 7.10. No one was hurt, and the damage is slight.

The passenger train, just leaving the station, was going quite slowly at the time.

Roller Rink

Skating Contest at the Roller Rink

Friday Night of this week

A prize worth $5.00 or over will be given to the best gentleman skater.

The contest will be open to all gentlemen skaters who have not won a prize at the Roller Rink this season.

Building Permits For Nine Days In May Total About $222,290

A Grand Commencement to What Promises to be the Banner Building Year for Peterborough —Nine Days' Record.

TWENTY-ONE BUILDINGS

The Armouries Are the Big Item in the Permits — Details of the Buildings With Cost and Contractors.

Judging by the number of building permits being issued, there will be a very large amount of building done in the city this summer. Already 21 permits, representing an estimated expenditure of $221,290, have been taken out since the bylaw came into force on May 1, and the season will be an especially active one from the viewpoint of building.

Among the large contracts are the Armouries, the Collegiate Institute and the Southern Hotel. The permit for the Armouries states that the building will be completed about February 1, 1909.

Following is a list of the permits already issued:

Duncan McNevan, enlarging No. 274 Sherbrooke street, $225.

Miss C H Smith, new house, McDonel street; estimated value, $2,200. Contractor T M Caldwell.

Mrs. Hugh Davidson, enlarging No. 565 Aylmer street; estimated cost $335. Contractors, McIntyre Bros.

Francis Mason, new house, corner Aylmer and McDonel streets; estimated value, $3,000. Contractor, A A McIntyre.

Mrs. Robt. Nelson, new house, Dublin street; estimated cost, $2,200. Contractors, McIntyre Bros.

R. H. Leary, verandah, 182 McDonel street; estimated cost, $400. Contractor, Noble Graham.

John Rowe, re-building No. 87 Smith street; estimated cost, $500.

Chamberlen estate, altering Southern Hotel; estimated cost, $10,000. Contractors, McIntyre Bros.

Mrs. Thomas Morrow, repairing No. 178 Edinburgh street; estimated cost, $900. Contractor, W J Johnston.

Thomas Donaldson, new house, London street; estimated cost, $1,850. Contractor, W J Johnston.

A. W. Turner, new house, Gilmour street; estimated cost, $2,600. Contractor, W J Johnston.

Dominion Government, new Armouries; estimated cost, $125,190. Architect, D Ewart; Contractor, Geo A Proctor.

Board of Education, Collegiate Institute; estimated cost, $60,000. Contractors, Sheehy and Lamford.

L D Letellier, new dwelling, Gilmour street; estimated cost, $1,600.

Jas. Grady, new dwelling, Smith street; estimated cost, $1,300.

Frank Smith, new dwelling, Gilchrist street; estimated cost, $1,900. Contractor, J Haywood.

Jas. Payton, new dwelling, Maitland avenue; estimated cost, $2,000. Contractor, R G Hudson.

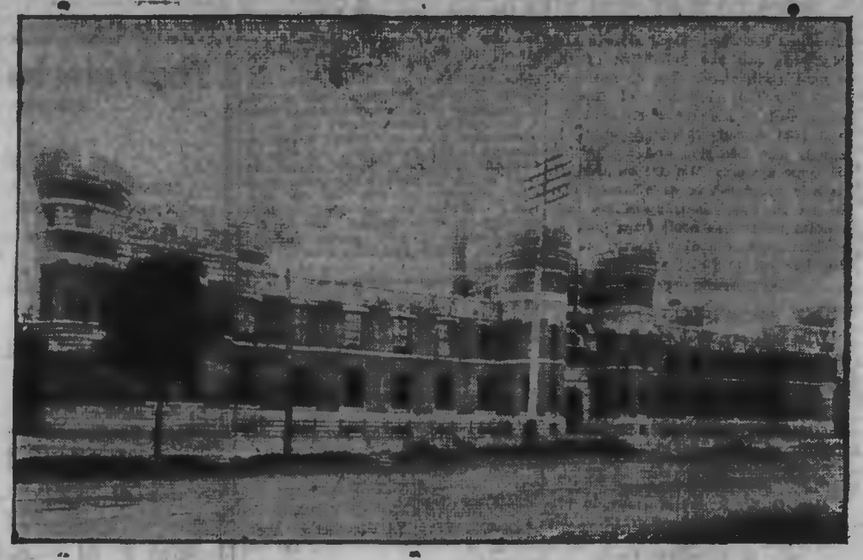
Jas. Colleman, new dwelling, Sherbrooke street; estimated cost, $1,000. Contractor, R. G. Hudson.

C H Huffman, new dwelling, Boswell avenue; estimated cost, $1,700.

Warren Hall, new dwelling, Hart avenue; estimated cost, $1,200. Contractor, R G Hudson.

Warren Hall, new dwelling, Hart avenue; estimated cost, $1,200. Contractor, R G Hudson.

OVER 1,000,000 BRICK WILL BE USED IN THE NEW ARMOURIES, WHICH WILL LOOK LIKE BUILDING PICTURED BELOW



A WARSAW LADY DROWNED

Mrs. (Captain) May

Wife of Capt. May, of Steamer Wrecked in Lake Michigan, was With Her Husband When Wreck Occurred.

WAS A NATIVE OF WARSAW

Was Daughter of Mr. John Middl e ton, of That Village — Misfortnne Has Come to the Family.

Examiner Special.

Warsaw, May 9.—If the report that appeared in the press of Friday last, to the effect that Captain May's steamer had been wrecked the day previous on Lake Michigan, is true, and that all on board have gone down with the ill-fated ship, there is no doubt that Mrs. May, daughter of Mr. John Middleton, of this place, and who, it was reported, accompanied her husband, was among the lost.

Captain and Mrs. May have resided at Cleveland, O., for some years, yet the last letter received here from them stated that they were about to move to Manistee, Mich., for the summer, and it was from this port that the despatch was sent. Mr. Middleton has been making inquiry, but has not yet received any definite information.

Much sympathy is felt for Mr. Middleton and family, as it is only six weeks since Mrs. Middleton died of pneumonia, after a very short illness. Two weeks ago the family was again shocked to receive a message to the effect that the late Mrs. Middleton's sister had died at Minden, Ontario.

Rev. Dr. Cody May Be New Co-Adjutor Bishop

Belief in Anglican Circles That Present Rector of St. Paul's, Toronto, Will be Elected.

A VERY CLEVER PREACHER

In Anglican circles there is considerable talk of the forthcoming meeting of the Synod, when the election of a Co-adjutor Bishop will in all probability be taken up. It is generally conceded that Rev. Dr. Cody, rector of St. Paul's church, Toronto, will be the one selected to fill that important position. Dr. Cody has been heard in Peterborough on different occasions, and impressed those who heard him with his ability as a speaker. During his rectorate of St. Paul's church, the congregation has grown to such an extent that it became necessary to increase the seating capacity, which was done at a cost of $60,000, and this amount was raised. The givings of that church to Missions last year amounted to $10,000. Evidence of the fact that the church appreciates the services of the Rector is furnished by its action in increasing his salary to $5,000 last year.

Rev. Dr. Cody is also Professor in Old and New Testament Exegesis, in Wycliffe College, which position he would have to resign should he be elected as the assistant to the Bishop. His elevation to the co-adjutorship would mean, from a financial standpoint, a considerable personal loss, since his salary would be but half that received by him as rector of St. Paul's, but it is understood that he would accept the office should he be elected.

MOTHER SENDS BOY TO SCHOOL WITH A STICK

The appointment of the Truant Officer is having its effect. Yesterday a lady was seen driving her hopeful to school with a stick about three feet long. The boy had evidently been given a taste of the rod before he left the house, for his cries were loud and long as he ran up the street pursued by his wrathful parent.

Between his tears he informed his mother that he was going, and she "needn't follow me with a stick."

The new regulations, which throw the responsibility for the children's attendance upon the parents, make the latter more careful of the actions of their boys.

Warsaw Family Has Chain Of Troubles

Rev. G. Nickle and His Wife Lost Brother and Sister Respectively Inside Three Days of Each Other.

THE SAD CIRCUMSTANCES

Warsaw, May 9.—A chain of particularly sad circumstances befell Rev. G. Nickle, Mrs. Nickle and family this week, when messages were received within three days of the death of Mr. Nickle's brother, and Mrs. Nickle's only sister. On Saturday morning Rev. Mr. Nickle received word of the death of his brother, William Nickle, which occurred at Colorado Springs, Colo., where he had gone to regain his health, and was preparing to attend the funeral, which took place at Madoc on Tuesday, when a message was received by Mrs. Nickle to the effect that her only sister, Mrs. Emma Moren, was dangerously ill at her home in Frankford, Ont.

Mr. and Mrs. Nickle left on Monday night to drive to Madoc, where the latter took train to Frankford, but arrived too late to see her sister alive. The funeral took place on Thursday afternoon.

GOOD SEASON FOR THE LOCAL TRAPPERS

Mr. Thomas Barrie, the George street furrier, has bought more mink, musk-rat, coon and lynx pelts this season than ever before and they will all be used in his work shops here.

The biggest musk-rat catch of the season in this district was undoubtedly that made by Mr. A. Crewe, of Hiawatha, who obtained 650 during the season and got 35 in one night. For these he was paid 35c. a piece so that his season was a financial success.

Merriam Brothers of Rice Lake, got about 1,289 skins and these were also purchased by Mr. Barrie, who this spring has bought 11,400 musk-rat skins, 1,567 mink skins, 850 coon skins and 46 lynx skins.

The trappers have had a very busy season and the prices were never better than they have been this spring.

Catalogues and full information regarding Steinway & Nordheimer Pianos at McDermid & Jury's Drug Store. 2-d-107

TELEPHONES INSTALLED IN THE PRINCIPALS' ROOMS AT SCHOOL

The Machine Telephone Company has installed automatic 'phones in the rooms of the principals of the different schools in the city. In future if a mother has doubts as to whether her boy is at school, all she has to do is to call up the principal and find out. This step on the part of the Board of Education sounds the death knell to the practice of playing hookey. It will be pretty risky in future for a boy to declare to his mother that he has been at school, when he has not, because it will be an easy matter for the mother to find out if he is telling the truth.

NEW FIRE ALARM SYSTEM COMPLETE INSTALLATION; ITS OPERATIONS VERY SIMPLE

Twenty-five Alarm Boxes Placed at Convenient Points Through the City—Method of Operation Explained.

LOCATION OF THE BOXES

Tests of the new fire alarm system were made yesterday afternoon and it was found that the new alarm worked perfectly. The city is now provided with a much better equipment for sending in a fire alarm than it has ever been before, and with the removal to the new hall the whole fire-fighting system will be placed on a much higher plane of efficiency.

Twenty-five telegriphic alarm boxes have been installed, covering the different parts of the city, and with the installation of these, there should be no more delays in sending in the alarm, such as there have been in the past, and as a result of which valuable time has been lost at the beginning of a fire, when it is most important that the brigade should be on the spot.

The alarm system has been installed by the Northern Electric Co., of Montreal, and the alarm boxes have been distributed throughout the city in such a way that it is well covered, and no one will have far to go to reach a box.

The list of alarm boxes, with their numbers and locations, is as follows, and it would be well if the public would cut this list out and preserve it, since, when an alarm is sent in it will be an easy matter, by consulting the list, to ascertain the location of the fire. The boxes are placed at the intersection of the following streets:

Ward One

Lock and McGill..... 12
Westcott and Aylmer..... 14
Percy and George..... 15
Perry and Bethune..... 16
Park and Townsend..... 17
George, at C. P. R..... 18

No. Two Ward

George and King..... 21
Simcoe and Queen..... 22
George and Hunter..... 23
Hunter and Quaker..... 24
Water and McDonel..... 25

No. Three Ward

Park and Sherbrooke..... 31
Charlotte and Stewart..... 32
Park and Hunter..... 33
McDonel and Reid..... 34

No. Four Ward

Park and London..... 41
George and Dublin..... 42
Edinburgh and Stewart..... 43
George and Smith..... 44
Water and Hilliard..... 45

No. Five Ward

Burnham and James..... 51
Rogers and Sophia..... 52
Hunter and Mark..... 53
Concession and Hazlitt..... 54
Auburn..... 55

For the benefit of the public the explanation of the method of operating the alarm is given. It will be noticed that the keys to the boxes are enclosed in small metal boxes beside the large alarm box. Should a fire occur and an alarm is to be sent in, all one has to do is to break the glass, take out the key, and, with it unlock the large door on the alarm box and pull down the lever inside. This action sends in the alarm to the fire hall, firemen's houses, and pump house, and will in addition strike on the fire bell the number of the ward, also the number of the box from which the alarm has been sent in. Thus, should the fire be reported from box 45 in the fourth ward, the bell will strike four, and after a pause, four, and then five, indicating that an alarm was sent in from box 45 in ward 4. This will be repeated four times, and there will be no more prolonged ringing of the bell in future.

It will still be possible to send an alarm in by telephone, and, should one be more convenient than an alarm box, it would be advisable to adopt this means of sending in the alarm. Simply telephone Bell 'phone number 24, and give the location of the fire to the person answering the call. The alarm will then be sent in from the hall, and the bell will ring in the usual way, at the same time the alarm will be given in the firemen's homes.

The operation of the system is extremely simple, and it will only be a matter of a short time until the public will be able to familiarize itself

Continued to page 2.

RETIRING PRESIDENT OF THE PETERBOROUGH LAWN BOWLING CLUB

MR. D. H. MOORE

IS FROSTY

Discouraging Report From the West

SNOW FELL LAST NIGHT

Despatches From Different Wheat Districts State That Conditions are Decidedly Unfavourable.

(J. R. Heintz & Co. Special.)

Chicago, May 9.—Winnipeg wires: "Had very hard frost last night. Ground hard as a board. Will not seed any to-day as far as I can find out. Think there is about six per cent. seeding in the ground up to present. What confirms my opinion that things are certainly bad in country is the buying orders for our wheat, we are getting, and it is covering all sections of the country."

Snowing in the West

Chicago, May 9.—Following from Winnipeg:—Mr. McWilliams, Imperial Elevator Co., received the following message from Rennick at Oroik, S.D.: "Practically no seeding between Regina and Winnipeg except around Indian Head. A little farm work going on between Condie and Regina. Nothing doing up this way. Snowing hard here now."

Through at Brandon

Brandon, Man., May 9.—Seeding in this district is completed and acreage is only a little less than the normal.

Cold Weather Still

Chicago, May 9.—Price Current says: The agricultural situation outlook has made but little change during the week. Cold and unseasonable weather has continued. In Western and northern sections some snow has fallen and there have been freezing temperatures at night with cold and cloudy days. Under such conditions the winter wheat has not made seasonable progress and where the appearance of the plant is not promising the conditions have not been calculated to bring to light the amount of vitality in the plant, and to furnish an indication of what may be expected under propitious weather.

Plowing for corn continues and considerable ground has been broken, but planting is delayed as the soil is too cold to receive the seed.

Packing for 510,000 against 460,000 last year.

The Teamsters' Strike Has Not Yet Been Settled

Board of Works Offered $3.60 Per Day But the Teamsters Would Accept Nothing Under $3.75---Matter Was Taken Up Again.

The teamsters' strike is not yet settled, although the matter was carefully considered at the meeting of the Board of Works last night. The teamsters still hold out for $3.75 per day, while the best the Board of Works will give is $3.60, while they feel that they are straining a point in going above $3.50. A deputation, consisting of ten teamsters, was present last night, and the matter was gone into again without any change being effected in the situation. There was considerable argument as to the cost of maintaining a team, etc., but when it was all through the trouble was not removed. The Board offered $3.60 per day, and the teamsters withdrew to consider the matter. Shortly after, their spokesman, Mr. Jas. Brisbane, returned to the committee room and stated that the teamsters would accept nothing less than $3.75. He was advised to have the matter re-considered, but did not seem to think that it was of any use. The matter was taken up by the committee before the deputation was heard.

Ald. McIntyre thought that the demand of the teamsters was not unreasonable, and that $3.50 was pretty small pay. It would cost $1 per day to feed a team and that 75 cents a day might be allowed for wear and tear, which left but $1.75 per day for the man.

Ald. Johnston said that he had been informed on good authority that a team might be fed and all repairs, etc., made for $1.40 per day.

The Mayor thought that if the teamsters could get $3.75 for their work, the city should not pay a lower rate. If, on the other hand, they could not get higher than $3.50 elsewhere, the city should not pay higher. The Board of Works should not create a precedent. He suggested that the Board meet the teamsters half way and give them $3.60 per day, which would be 40 cents per tour.

On motion, the deputation from the teamsters was heard.

Mr. Jas. McWilliams, on behalf of the teamsters, said that they could not live on the wages being paid. The cost of feeding a team per day was $1.30. In answer to the Mayor, Mr. McWilliams said that the average cost of a wagon and team was $550. The depreciation in value of the outfit would be 10 per cent. per year.

The Mayor did some calculating, and announced that it would amount to about 30 cents per day.

After some further discussion along the same line, the Mayor said that the Board wanted to act as fairly as possible in the matter, and still to have the interest of the city as a whole, at heart. He stated that the Board was willing to give $3.60 per day, but that they regarded $3.50 as fair price. He advised the deputation to retire and talk the matter over. They did so, and returned, as stated above, saying that they would not accept anything under $3.75.

No Change To-day

There is no change in the situation to-day. It is said that all the striking teamsters are at work and that six of them are to receive $4 per day.

Thirty-five Injured In A Riot Among Longshoremen

Examiner Special.

New York, May 9.—A riot occurred between striking Longshoremen and strike breakers last night, in which many were injured on both sides. The police charged the rioters and carried away twelve well battered prisoners and 35 injured. Two or three of the latter are in a critical condition. One policeman was dangerously and two others seriously injured.

Cobalt Shipments Already Exceed Those Of Klondyke

Special to The Examiner by J. R. Heintz & Co.

New York, May 9. — The Cobalt camp is said to be shipping ore at the rate of $1,000,000 per month. It is understood that the mines so far developed do not extend over one-quarter of the ground where it is said silver values are to be found. One authority points out that this production is more than the Klondyke is producing annually.

READ JOHN SNEED'S ADVICE TO HIS SON ON GETTING A WIFE

To-day the second of the series of letters on "The making of a successful husband," is published on Page 2 of the Examiner. In this letter, John Sneed talks to his son on the problem of obtaining a wife, and advises him to proceed carefully. He does not think much of long engagements. Read this letter, and those which follow. You will be interested in them.

COMMITTEE INSPECTED FIRE ALARM SYSTEM

The Fire, Water and Light Committee accompanied by the Mayor and City Clerk were inspecting the installed fire alarm system this afternoon. They drove around the city in an omnibus, beginning in the south ward their tour of inspection.

BIRTH

BRACE.—In Richmond Hill, Ont., on Tuesday, May 7, 1907, the wife of Rev. A. E. Brace of a son.

HE INHALED GASOLINE FUMES

Lindsay Youth With Relatives Here Was Almost Asphixiated

It was stated in the city to-day that a young man by the name of Elliott, who has relatives here, was almost asphixiated by gasoline fumes in the Sylvester works at Lindsay. The accident occurred this morning, and the young man is said to be in a very precarious condition.

THE ANNUAL GATHERING OF CLAN FIFE

Members of This Family Will Gather on Victoria Day at Home of Mrs. Margaret Fife

The annual gathering of the Clan Fife will be held on Victoria Day, May 24th, at the residence of Mrs. Margaret Fife, Otonabee. The usual picnic features will characterize the gathering, which is looked forward to with pleasure from year to year by the members of this Clan.

NOT INDIGESTION BUT INTEREST

A member of the Board of Works inquired of a representative of this journal, if some member of the Examiner staff was not troubled with indigestion, which, in his opinion, would account for the criticisms of the manner of street management which sometime appear in the Examiner. No; the only indigestion is in relation to the plans of the moving spirit of the Board of Works. It must not be thought that the Examiner calls attention to these matters for the mere sake of finding fault. As representing its readers, a very large proportion of the citizens, it calls attention to defects in street management with the sole purpose of bringing public opinion to bear upon the civic authorities, in order to bring about improvements in the matter of dealing with the expenditure of money on our streets. It is working in the interests of good streets, and, consequently, in the interests of the ratepayers. It is safe to assume that people who use the streets of Peterborough for business purposes, on account of the rough condition of many of our streets, pay more, in some cases, in wear and tear of horseflesh, if that were capitalized; pay more in repair of wear and tear of vehicles, than they do in straight taxes for street purposes. Therefore, a journal which stands for the protection and promotion of the public interests, is quite within its rights, and quite within its duty, to call attention to the astonishing, and regrettable lack of system, in dealing with our streets, that has prevailed for years, and still prevails. It seems that nobody is responsible for any particular part of the service.

The member of the Board referred to inferentially admitted that our streets did not receive justice, but said that there were not sufficient funds available to put the streets in good condition—the excuse was lack of funds. There would be sufficient funds, if the money were spent in some systematic manner; in doing more permanent work, and less patch work; if the money were spent on business principles, as a business man would spend it, and not as a schoolboy would waste it.

A greater part of the causes which keep our streets in a disgraceful condition, do not require the expenditure of a cent, or comparatively litle money to remove. It wouldn't cost a cent to prevent the destruction of the roadbed which results from allowing sewers and water services to be put in, and the street piled high with dirt mounds. No man should be allowed to "sink a pick" into the street surface without a permit from the city authorities, and without signing a guarantee that he would leave the street as he found it. That wouldn't cost the city any money, and would prevent one great cause of the ruin of some of our streets. The specifications of sewer contracts require that the contractor shall, in doing his work, leave the street in the same condition he found it on beginning his work. Has this condition ever been enforced? Never. Yet contractor after contractor has been paid for doing work which he did not do. And the taxpayers have had to put their hands into their pockets, and pay for putting the streets in decent condition; in doing work for which a contractor has been paid. But often the street is left in the abominable condition which results from filling a trench with horses and scrapers. Is this good business?

It takes a little money to keep streets in good repair, after once put in fairly good condition. A barrowful of metal here and there where depressions develop, would keep a street smooth, whist, under the prevailing practice of neglect, is allowed to go from bad to worse, until it is destroyed. Take the intersection of Hunter and George streets. A small wagon-load of street metal would level the uneven surface seen there, and make the street at the very centre of the city decent, instead of a disgrace. The whole city could be gone over, with similar examples of where a stitch in time would save nine—and with very little expenditure of money. The aldermen themselves know how things are. Two of the aldermen who took the recent civic jaunt to "inspect" the streets, told the Examiner that they could hardly get out of bed the next morning after bumping over the city streets, so sore were they from the pounding they got.

It is not lack of money that is the difficulty with treating our streets properly—it is lack of system, lack of looking after little things, instead of letting bad go to worse. If there were less talking in Council and more practical work, things would go better. Hon. Mr. Emmerson made a splendid Minister of Railways and Canals because he took his responsibility seriously. He took the trouble to go over the work he had to do with, and he knew what he was doing. He discharged his duties in conformity with the demands of business principles. Our aldermen should do likewise—see for themselves what there is to do, and — do it.

The course of the Examiner's frequent references to our streets is dictated, not by indigestion, but by interest in the welfare and good name of the city. Good streets and highways are the hall-mark of advanced civilization. We do not find fault for the mere sake of finding fault, but to bring about a remedy, and that remedy is suggested. It is simply the adoption and application of some system. We are as anxious as any alderman to save money and to get the best results; and the best results never can come from lack of system, and spending money is a hap-hazard, perfunctory way!

EDITORIAL NOTES

Who will say that the Senate is a morgue, when from its scarlet benches comes a jaunty bridegroom?

Ellen Terry the actress has been married the third time. Probably a matter of habit—taking stage love-making seriously.

Hon. G. W. Ross has shown in the past that he has the courage of his convictions. He also has, it seems, the courage of his affections.

In one way a suitable site has been chosen for the Peterborough armouries. In digging the foundations, a cemetery is being emptied. It is some compensation that it is to be replaced by a building whose function is to fill cemeteries.

Sir Wilfrid Laurier is noted for saying the appropriate thing at the right moment, the Globe remarks. Addressing Frenchmen from France at a banquet in London, he said the sentiments of the French-Canadians came "from Canada which preserved them, from France which inspired them, and from England which respected them." The Canadian Premier will undoubtedly get a phenomenal reception when he visits France ten days hence.

The Examiner begs to extend its most cordial congratulations to Hon. Senator Ross, on the occasion of his marriage. He is only sixty-six years of age and, judging by the length of years usually accorded to distinguished statesmen, he may have many years of wedded life, which, the Examiner hopes, may be happy. He has devoted nearly half a century to strenuous and fruitful work in the public service, and has well earned the reward of a happy life in his declining years.

TORRENS LAND TRANSFER

The activity in real estate exchange which we experience in Hamilton, naturally leads many persons to wish that some more simple system of effecting transfers should be adopted than that which now generally prevails. The general adoption of the Torrens system would be a great benefit to buyers and sellers and a convenience to all who have to do with the handling of property. There seems to be no reason why the legal part of a land deal should in this young country be made much more costly or difficult than the transfer of a horse or a load of wheat. Under the Torrens system it would be rendered simple, easy and inexpensive. The Real Estate Board of Detroit is moving to have it adopted in Michigan. It is now in force in Illinois, Massachusetts, Minnesota, Oregon, California and Idaho, and the real estate men of New York, through the medium of the Real Estate Board of Brokers, have adopted a resolution favouring the system.

The delay, trouble and expense caused by the system in general use here, is an obstacle to transfers, and a heavy tax on the buyer and seller. The searching of titles is a matter consuming much time. In Manitoba, where the Torrens system was brought into force by the Greenway Goverament in 1889, the Free Press says that it has given uniform satisfaction. Our contemporary, speaking of the searching of titles, says: "It would seem reasonable that when a labour of this character is once done thoroughly to the satisfaction of all parties, there ought to be some method of placing it on record, so that the work might not be needlessly repeated. Such a method is supplied by the Torrens system, which, in addition to being economical and inexpensive, offers the additional advantage of a Government guarantee, as well as that of celerity in execution.

The importance of this latter feature cannot be over-estimated, as it renders real estate as available as stocks or bonds in sudden emergencies in the money market. The Torrens system has proved an unqualified success wherever it has been introduced. It presents enormous and certain advantages, with no defects so serious that they ought to prevent its receiving a fair and thorough test in every progressive community. The difference between the ease with which transfers can be made in the west, and the amount of labour and expense involved in such transactions in Ontario and Quebec, is so marked, that every westerner wonders why these provinces have not adopted the system long ago."

The machinery for the bringing into force of the Torrens system exists here, but the process is, of course, less easy in the older provinces than in the new. The Torrens system requires the recording of land titles, instead of transferring of the deed every time a change of ownership occurs. With the first transfer the title or abstract is placed on record, and a new abstract does not have to be paid for every time the property is transferred. There is no tedious and costly search of registry office records every time a transaction takes place; the work is reduced to a minimum; safety is assured to the purchaser, and ease of transfer is served. Would it not be well to try to secure the more general adoption of the Torrens system? Would the securing of uniformity in this respect not be for the benefit of real estate dealers, and the public generally? — Hamilton Times.

NEW ASPLEY CHURCH CONSECRATED

By His Lordship Bishop Sweatman—An Impressive Ceremony.

Examiner Special.

Apsley, May 7.—His Grace Archbishop Sweatman consecrated the new church. It was a beautiful and impressive service. The Archbishop, in his address, said that the act of giving up the church to God for all time to come meant that no kind of amusement or concerts were ever to be held in the church, and he counselled his hearers to look upon it like the temple of old, a spot where, in all trials and difficulties, they could come and offer up prayers. He gave an address to those who had just received the rite of confirmation, advising them that they should henceforth feel that they had given themselves to God. Rev. Mr. Creighton, Lakefield; Mr. Batisbey, of Young's Point; Mr. Bagshaw, of Haultain; Rev. C. Lord, rector, and Mr. Booth of Apsley, assisted His Grace.

Miss Hattie Eastland has returned home from her recent visit, and her friends will be sorry to learn that she and her sister, Miss Emma, intend going to Thornbury to reside with their brother, Mr. Tom Eastland, jr., who has just purchased a general store there. The young ladies will be missed very much in Apsley, as they are so well and favourably known.

UNHAPPINESS DISPELLED

Men And Women Unanimous About It

Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men indolize to profanity because the flies bite through the thin patch on their cranums. It will be good news to the miserable of both sexes to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ, or microbe, that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. The Market Drug Store. Two sizes—50c and $1.

SEVERE BURNS PROVED FATAL

Luella Quinlan Passed Away Yesterday Afternoon—Clothes Caught Fire From Bonfire

The injuries which Luella, the six year old daughter of Mr. Cornelius Quinlan, received on Monday last by her clothes catching fire from a bonfire, proved fatal yesterday afternoon. It will be remembered that a full account of the unfortunate accident was given in Tuesday's issue. She has been in St. Joseph's Hospital under the doctor's care, but all efforts were unavailing and the end came yesterday.

Luella was one of a family of five children, two girls and three boys. Her sister's name is Mary, and the brothers are John, Edwin and Leonard. The funeral took place this afternoon at three o'clock to the St. Peter's Cemetery.

Latest News Of Various Sports

Prizes Presented To The Winners Of Bowling Contests

Annual Meeting Lawn Bowling Club Last Night---Officers Elected for the Year---Dr. Greer, the New President ---Will Adopt a Constitution---Secretary's Report

The Peterborough Lawn Bowling Club held its adjourned annual meeting last night in the Dominion Bank Chambers, when the business of the past year was wound up and the election of officers held. One of the prominent features of the meeting was the presentation of prizes to the winners of the various events for which they were donated. Dr. Boucher, Dr. Greer and Mr. John Crane each presented a pair of handsome bowls for single competition, and Mr. C. E. Frost donated a silver cup to the winners of the rink competition. The successful contestants were Messrs. W. S. Robinson, R. Cotterel, J. E. A. Fitzgerald and Mr. Intyre's rink.

Besides the above-mentioned business, the club decided to construct bylaws governing the actions of the club. They also, by a motion, made it necessary for members to wear rubber soles on their boots, or tennis shoes while playing the game, in order to protect the grounds from injury.

In the absence of the president, Mr. D. H. Moore, the chair was occupied by the vice-president, Dr. Greer, who was elected to the office of president for the coming year.

Secretary's Report

The secretary, Mr. G. H. Giroux, presented the following report of the business of the club and its financial standing:

Gentlemen,—I beg to lay before you the financial statement of the Peterborough Lawn Bowling Club from April 1, 1906, to April 30, 1907. It will be observed that the membership has slightly fallen off from that of previous years. The membership for 1905 was 84, while that of last year had fallen to 75. I cannot say that this falling away of members is in any way due to the lack of interest which has been manifest in the game, as shown by the large numbers that thronged the bowling lawn, both afternoons and evenings, during the whole of the summer. I think it is probably accounted for, in a large measure, to the lack of interest by the members, as a whole, in not prosecuting a more lively canvass for a larger membership. I feel quite confident that in a city the size of Peterborough (a great sporting city, I may say) that at least 100 members could be found to participate in the great game of bowls—one of the grandest to be found on the calendar of out-of-door sports.

I wish to draw your attention to the deficit, amounting to $160, as shown by the statement in your hands. It must be remembered that this shortage is not entirely due to the expenditure incurred during the past year. The club was being carried on a note for about $100 by the Ontario Bank for expenditures incurred during the previous year. This amount had to be met out of the monies received during 1906, so that the actual deficit for the season of 1906 was $60.

In conclusion, let me say that it behoves the members of the Peterborough Lawn Bowling Club to "get a move on" if they wish to make the Club a success—numerically and financially.

G. H. GIROUX,
Financial Secretary.

This report was adopted by the members.

Prizes Presented

The presentation of the prizes was then made by Dr. Boucher, Hon. President of the Club. Messrs. Robinson and Cotterel received the bowls donated by Drs. Boucher and Greer for the Scotch doubles, and Mr. J. E. A. Fitzgerald received the bowls given by Mr. Jno. Crane for the singles.

In making the presentations Dr. Boucher stated that it was a pleasant duty to make the presentations to the Lawn Bowling winners of last year. The idea of making presentations, he said, belonged to Mr. John Crane and afterwards Dr. Greer and himself had become infected with the same idea. He considered that the idea was an excellent one as it had the effect of producing a greater interest in the competition and he hoped that the infection would be extended to others during the present year.

In conclusion he hoped that the winners would always uphold the honour of the Peterborough Lawn Bowling Club by continuing to play a winning game wherever they might be.

Messrs. Robinson and Cotterel responded thanking the donators and wishing the club every success in the future. Mr. Pratt received Mr. J. E. A. Fitzgerald's pair of bowls and spoke on his behalf.

Mr. A. H. Stratton on behalf of Mr. C. E. Frost, who was absent, presented to Mr. McIntyre and his successful rink the beautiful silver trophy donated by Mr. Frost for annual rink competition. The cup is a large and handsome one, standing upon an ebony pedestal about 8 inches in height.

Election of Officers

Hon. President—Dr. R. P. Boucher.

Patrons and Patronesses—Hon. J. R. and Mrs. Stratton, Mr. and Mrs. Jas. Kendry, Mr. and Mrs. R. R. Hall, Mr. and Mrs. Jno. Crane, Mr. T. E. Bradburn.

President—Dr. Greer.

Vice-Pres.—Mr. J. E. A. Fitzgerald.

Sec.-Treas.—Mr. Alex. Weddell.

Executive and Committee of Management—Messrs. D. H. Moore, R. M. Waddell, A. E. Stratton, D. Bellegham, G. H. Giroux, Wm. Aitchison, Dr. Marshall.

Membership Committee — Messrs. O. E. Frost, W. E. Talbot, R. Cotterel, Wm. O'Brien, T. E. Pratt, A. E. Runnels, D. H. Moore, L. Potvin, Green, W. S. Robinson, Jno. Crane and J. E. Olea.

Schedule Committee—Messrs. Alex. Weddell, G. H. Giroux, A. E. Runnels.

Membership Fee

In the subsequent discussion it was decided to place the membership fee at $4.00 for this year. The placing of lockers in the Club House for members was left in the hands of the Executive.

Before the meeting adjourned Messrs. R. M. Waddell and W. E. Talbot moved that the thanks of the club be tendered to the retiring officers for their efficient services of last year, and also to Mr. Crane for the use of the Bank Chambers. The motion was carried with hearty applause.

The next meeting of the club will be held on Wednesday night, May 22nd.

CRICKET CLUB HAS EXCELLENT PROSPECTS

An Enthusiastic Meeting Was Held Last Night—Games With Teams Out of the City

An enthusiastic meeting of the members of the Peterborough Cricket club was held last night in the Y.M.C.A. It was attended by a number of cricketers, and the increased interest which is being taken in the game is very gratifying. There now seems no reason to doubt that the present season will be a most prosperous one for the game in Peterborough. Dr. Burnham presided at the meeting last night, and it was decided to purchase the equipment for playing. The first practice will be held on Saturday afternoon at the Nicholls Oval. There are a number of youngsters connected with the Club, and, in addition to the senior team it is probable that a colts' team will be organized as well.

A number of letters were read from clubs outside the city, asking for games, and it is probable that games will be played in the near future with Toronto, Lindsay and Port Hope. The requests for dates were referred to the Executive Committee to deal with.

EAST CITY TEAM FOR CITY LEAGUE

Would Put an Intermediate Team in a League—Practice Hours Arranged

The East City Baseball Club would like to enter a team in an Intermediate City League, should one be formed. At a meeting of the club held held recently this action was decided on, and nights for practice were arranged. The team will practice on Tuesday, Thursday and Saturday afternoons at the Nicholls Oval.

LACROSSE

The Peterborough Shamrocks have made arrangements for a game in Millbrook on May 24th. The team is practising and will be in good shape for the holiday game.

• • • •

The first practice of the seniors for the season was held last night and big bunch of players chased each other around Riverside Park. Pat McDonough was a spectator, but is under the doctor's care and cannot practice for a few days. Among those out were Derocher, Boyle, Saunders, Barber, Tucker, Rush and Dumble.

FOOTBALL

The Quakers will practice again tonight on the Exhibition Grounds. The team for the game in Norwood will be chosen from the following:—McFadden, Doris, Deforge, Elson, Sullivan, C. Fitzgerald, Crough, Coleman, Baker, Thomas, Robert Evans and Hamilton.

BASEBALL

All members of the Night Owls and Excelsior Baseball Clubs are asked to remember the meeting to-night at the Windsor Hotel for the purpose of amalgamating the two clubs and placing a team in the Trent Valley Baseball League. The meeting will be called at 8 o'clock and it is important that as many members as possible of the two teams should be on hand.

• • • •

The employees of the Rapid Toot Company will meet to-night at the National Hotel for the purpose of organizing a baseball team. There should be a large attendance.

• • • •

A full attendance of the Y.M.C.A. Intermediate Baseball Club is requested at their regular practice tonight at 6.45, sharp. An important business meeting will be held immediately after the practice in the Y.M.C.A.

SPECIAL EXCURSION TO TORONTO FOR KING'S PLATE DAY, MAY 18

One week from Saturday, May 18, will be the opening of the Ontario Jockey Club races at the Woodbine, Toronto, and the day on which the King's Plate race, the event of the year in jockey circles in Canada, will be run. Every year a number of Peterborough persons go to Toronto for this day, and this year, in order that they may do so at as little expense as possible, an excursion will be run to that city by special C.P.R. train, which will leave Peterborough at 10 a.m., and will return at 11.30, after the theatres close. Those who wish, however, may remain in the city over Sunday, the tickets being good to return on any regular train up to Monday night.

The return fare for this trip will be $2.05. Leaving at 10 o'clock, the passengers will arrive in Toronto about noon, which will give them ample time to lunch and get to the Woodbine for the opening race in the afternoon.

A number of attractions are billed for that day in the city, and those who do not care to attend the races will have an opportunity of spending the day pleasantly in other ways.

The low price of this trip will no doubt be taken advantage of by many persons to spend the day or the week-end in Toronto. The train will be a solid vestibuled train, and good time will be made on the trip.

Couple Were Married In Peterborough 50 Years Ago

Parents of Mrs. Walker, who was Injured in Guelph Wreck, Celebrated Golden Wedding Recently

A QUIET CELEBRATION

Peterborough persons will be interested in the following reference to a golden wedding, which appeared in the last issue of the Christian Guardian:

On March 5, 1857, William Ivison and Fanny Edgar were married at Peterborough, by Rev. W. H. Poole, attended by Miss H. Ivison, niece of the groom, and William Milburn, cousin of the bride. Mr. Ivison brought his bride to the farm he had previously purchased on the north boundary of Hay Township, Huron Co., which was then almost a forest. Here they continued to reside until about fourteen years ago, when they bought a comfortable home in the village of Kippen. Their family consisted of seven daughters and three sons. One son died in infancy, and about three years ago their second daughter died in Dakota. The surviving members of the family planned a re-union for March 5, 1907, but owing to illness in the home of their daughter, Mrs. (Rev.) Barnby, she was unable to be present, and on account of the railway accident at Guelph, in which another daughter (Mrs. Walker) was injured, and her little daughter killed, she was compelled to remain in Guelph Hospital. On account of these things the celebration was a quiet one. Those present were: Mrs. Card and son, of Alice, North Dakota; Mrs. Potter, Zion City, Ill.; Mr. and Mrs. McPhail, Porter's Hill; Mr. and Mrs. Brownlee and children, of Tuckersmith; William and wife, of New York; Henry, wife and three daughters on the farm; Mrs. Whiteman, sister of the bride; Mr. Whiteman and son, Herbert; Mrs. R. Dinsdale, neice, and Mr. Dinsdale; Rev. J. Hart, pastor, and Miss Hart. After partaking of a dainty breakfast the younger son, William, read a very loving and appreciative address, and the eldest daughter, Mrs. Card, presented them with a purse of gold. Several short speeches were made, and congratulations offered. The Methodist Church, of which both are valued members, has always had a warm place in their affections, and we rejoice because the influence they exerted in their home is seen in the lives of their children, all of whom are living exemplary Christian lives.

Citizens Commend Work of Ladies For Free Hospital

Letters To-day Second the Appeal Made by Them to Suyport a Worthy Cause.

A COMMENDABLE EFFORT

The action of the band of ladies in collecting rubbers in aid of the Free Hospital in Muskoka is apparently meeting with warm approval. To-day the Examiner received two letters commending the splendid spirit displayed by the ladies, and appealing to the citizens to give them the support they deserve. The letters are as follows:—

To the Editor of the Examiner:

Dear Sir,—I am very glad indeed that the ladies of Peterborough, who have always been noted for their many ways of doing good, have made up their minds to do something for the Muskoka Free Hospital for Consumptives, which is in much need of funds to carry on their good work.

The plan adopted by the ladies to raise money appears to me to be one which will not prove a burden to anyone, and yet, if all the boys and girls in our city will do their duty and collect all the old rubbers around their homes, the sum total realized from the sale of these old rubbers will be so large that it will surprise everyone. I wish the ladies every success in their work.

Yours truly,
D. HUGHES CHARLES.

To the Editor of the Examiner:

Dear Sir,—The good ladies of Peterborough, who on many occasions have given their support to a good cause, have once more decided to aid the finances of the Free Hospital for Consumptives. Their plan of campaign is unique in that it does not put anyone to any expense to give the required donations. At house-cleaning time many things are found, among them old rubbers, which we are glad to get rid of. The institution is worthy to be aided, and the many sufferers from the white plague de-serve our hearty support. May there be such a hunting for rubbers in Peterborough that the receiving room on Simcoe street might be literally too small to contain the donations.

Yours truly,
"Sympathizer."

NEW FIRE ALARM SYSTEM COMPLETED

Continued from page 7.

with the new method, and will be able to tell at once the location of the fire.

It will be noticed, that to facilitate this the numbers of the boxes begin with the number of the ward in which they are placed; all boxes in ward one being numbers in the tens, in the second ward, the twenties, and so on.

Following the official test yesterday afternoon the system was declared in perfect working order, and the new method will be in force at once.

"Nerves" in London.

London is suffering from an epidemic of "nerves," due to a plague of wornout motor omnibuses, noisy steam lorries, and traction street trains, which are making life well-nigh intolerable in many part of the metropolis, according to The Express. On four days every week from two hundred to three hundred people are treated in the out patient department of the Hospital for Paralysis and Epileptics, Bloomsbury, and their ailments are mainly the result of the noise and bustle of London streets. "Most of the patients are clerks, governesses, shop workers, and even solicitors and doctors, who have found the strain too much for their delicate nerves." "The ordinary rattle and din of motor omnibuses have increased tenfold since they began to deteriorate owing to usage, but the worst offenders are undoubtedly clumsy steam lorries, with their iron shod wheels. Sometimes those clattering vehicles haul three or four groaning wagons behind them, and the noise they make is not only deafening, but unnerving to a degree."

SWETTENHAM'S SUCCESSOR.

Mr. Sydney Olivier Is Highly Popular With the Jamaicans.

Mr. Sydney Olivier, who succeeds Sir. J. Alexander Swettenham as Governor of Jamaica, is highly popular with the Jamaicans, and enjoys their confidence in a marked degree. From 1899 to 1904 he was Colonial Secretary in Jamaica, and during three years of that period he was acting Governor of the colony. So greatly were his services esteemed that when, following the calamitous earthquake that destroyed Kingston recently, Sir Alexander Swettenham asked for permission to retire, there was a unanimous wish on the part of the press and the people that Mr. Olivier should receive the post. In the quarter of a century during which he has been associated with the Colonial Office Mr. Olivier has filled various positions connected with the West Indian colonies, and has undertaken several important missions, one of which was as secretary to the late Field Marshal Sir Henry Norman's Royal Commission on the West Indies. In 1890-91 he was acting Colonial Secretary of British Honduras, in 1895-6 Auditor-General of the Leeward Islands, and in 1898 was sent to Washington to assist in reciprocity negotiations on behalf of the West Indian colonies. Apart from his distinguished services as a colonial statesman, Mr. Olivier is a writer of graceful verse and prose. In 1881 he published a volume of "Poems and Parodies," but his work in prose has been confined to brilliant essays and magazine articles on Socialism, economics and art. He has been from the beginning one of the leading lights of the Fabian Society, and was its secretary from 1886 to 1890. He was one of the contributors, with Mr. George Bernard Shaw and others, to the famous Fabian essays, which represent, perhaps, the greatest effort of the society in the popularisation of Socialism.

Prune Salad.

Prunes served as a salad are a novelty that is decidedly worth trying. The prunes after cooling are soaked in sherry and then candied with walnuts or pecans, put on the crispest, palest lettuce leaves and dressed with a dressing having twice the amount of lemon juice that it has of oil and mustard, celery salt and pepper. It is a delicious salad.

LADY VOCALIST'S WORK WAS ENJOYED

Mrs. Wilmot, Who is Well Known in This City, Wins Warm Praise for Her Work

The Mrs. Wilmot referred to in the following extract from the Belleville Ontario, is a daughter of Major Howden of Port Hope, and is well known to many in Peterborough, who will read of her success with interest:—

Belleville has always been proud of its musical talent and of the generous manner in which it has always been given for any public entertainment. We have lately had a notable addition to it in Mrs. Chas Wilmot. The brilliant manner in which she portrayed the character of Yoyera in Zephra has won for her a warm place in the hearts of the citizens. Her rendering in such a perfect manner of that difficult role shows that she is not only an accomplished actress but a more brilliant vocalist. We are glad to add Mrs. Wilmot to the list of our musical celebrities and to feel that she, like our other musical talent, is ready to give of her time and talent generously to all laudable public entertainments. • • • •

During the second act of Zephra on Saturday night, Mrs. Wilmot received no less than five bouquets, Little Cupid gave her one, a couple came from downstairs and one came from the balcony and as she was leaving the stage she received a beautiful bouquet of roses and carnations. Her arms were practically full of posys and the general verdict was that she deserved them all.

VALUABLE IRISH SETTER IS DEAD

Miss Lundy, East City, Loses a Dog by Poison—Got it on Way Home From Church

The dog poisoners are still busy. Last night evidence was furnished, pointing to the fact that the poison is placed on the streets at night. This information will be valuable, inasmuch as it would seem that if the dogs were kept in at night there will not be as much danger of them getting the poison.

The Irish setter, belonging to Miss Lundy, in East City, was the latest victim of the poisoner's work, and a generous dose must have been given. The dog, accompanied Miss Lundy home from St. Andrew's church, and was to all appearances, all right. This was about nine thirty, but when another member of the household came in at ten o'clock, just half an hour later, the dog was found lying dead before the door. The person or persons who are administering the poison are evidently more careful now than they were at first, since the greater number of dogs dying recently have gotten the poison at night.

Mr. A. E. Coulthard's valuable Irish terrier, Paddy, was one of the victims last night and was found dead this morning in an alleyway. He was prized very highly by the owner, Mr. P. Grady's thoroughbred coach dog a general favourite, and one of the best dogs of its kind in the city, despite a strenuous fight to save him, also died last night as the result of a dose of poison.

Another victim was Mr. Jack Fraser's fox terrier, which died last night. A week ago the dog was poisoned, but was saved on that occasion, only to meet death last night.

BUILDING COTTAGE AT CHEMONG

Mr. W. J. English Has the Contract for the Erection of One for Mrs. Popham, of New York

Mr. W. J. English, of this city, has commenced work on the erection of a house at Chemong for Mrs. Popham, of New York, who is so pleased with this delightful spot that she has decided to make her residence there every summer. The cottage will be of ample proportions, and will be ready for occupancy, it is expected, about June 1st.

Trades And Labour Council's Resolution On The Strike

Reference is Made to the Strike of the Harnessmakers in Ackerman's Factory at Meeting.

SIDES WITH THE STRIKERS

A meeting of the Trades and Labour Council was held last evening, in the Labour Hall, with President Alexander in the chair.

Mr. Henry Carveth was elected by acclamation to the position of Financial Secretary.

The strike of the city teamsters was the first business of importance to be considered, and a committee was appointed to investigate the matter, gather information, and report on Friday evening.

A Convention

A communication was read from the Labour Educational Association of Ontario, asking the Trades and Labour Council to send representatives to the fifth annual convention to be held in Hamilton on Friday, May 24th. Mr. T. J. Begley was appointed to represent the local Labour Council at the convention.

Harnessmakers' Strike

A representative from the Harnessmakers' Union was present, and addressed the council in reference to the strike in the B. F. Ackerman harness works. The situation was discussed at considerable length, and the following resolution was unanimously adopted:—

"We, the members of the Trades and Labour Council of the city of Peterborough, representing the labour sentiment of this city, desire to extend the sympathy and cooperation of organized labour to the local harnessmakers union in their fight against the sweat shop methods as existing in the above named industry.

"We desire also to condemn the unfair and uncharitable spirit manifested by the representative of this industry in his interview with the men, as well as his treatment of the International representative, whose mission it was to bring about a satisfactory solution of the trouble. We feel that the treatment accorded the men, in the ridiculous wage rate paid, is an outrage, when the enormous profits realised by this industry are considered and altogether at variance with our definition of justice and equality.

"We further condemn the practice of giving bonuses and exemptions to industries locating in the city without the interests of the toilers being considered and safeguarded."

More Building Value In The City Than In 1906

This is the Opinion of a Well Known Local Contractor—No Scarcity of Building Labour.

MANY RESIDENCES AGAIN

With the erection of the large buildings now in course of construction, the building operations in Peterborough this year will exceed those of 1906. The impression was made earlier in the year that the buildings this season would not equal in value those erected during the last year, but later it was found that in addition to the large buildings work on which has already been commenced there were a very large number of private residences—more than had been anticipated—to be erected during 1907.

This is the information given the Examiner to-day by one of the largest contractors and builders in the city, and the information is very gratifying. It means that the year 1907 will see buildings to a greater value erected than ever before in the history of Peterborough.

The brick yards will have a busy season. The armouries alone will require at least a million brick, and, with the other large buildings, the great majority of which will be of brick the manufacturers will have a good demand for their product.

In spite of the fact that there are so many new buildings under construction, there does not seem to be any scarcity of men, a contractor, stating to-day that there were plenty of bricklayers, and, so far as he knew, the employing carpenters were not suffering from any scarcity of men. A large number of Englishmen who can take the place of carpenters at a pinch, have arrived in the city during this spring, and the advent of these men has prevented what would probably have been a scarcity of carpenters.

RESIDENCE FOR JACKSON PARK CONSTABLE

No Public Meetings Allowed in the Parks on Sunday—The Nicholls Park Commissioners Met

The Nicholls Parks Commissioners met last night in the office of Messrs. Hall & Hayes, when there were present Messrs. Richard Hall, Jno. Crane and E. H. D. Hall. Mr. Richard Hall was appointed chairman, and Mr. Jno. Crane secretary-treasurer. In addition the routine business transacted, a resolution was passed prohibiting any public meeting to be held in the parks under the jurisdiction of the commissioners, on Sundays.

It is the intention of the commissioners to have special constables placed in each park to maintain order and efficiency. They also expect to have in the near future, a residence erected in Jackson Park for a constable and caretaker.

The commissioners also decided not to define where each club shall play their games but left this for the clubs themselves to do. They must, however, keep off the cricket crease.

Any club requiring to play on the Oval must first get permission from the commissioners.

The Nicholls Park Commissioners have jurisdiction over the East and West Nicholls Parks and Jackson Park.

OBITUARY.

CATHERINE EAGEN

Miss Catharine Eagen died on Wednesday morning at seven o'clock after lingering with paralysis for five months. The deceased was 67 years of age and was born in the township of Otonabee, where she lived until two years ago, when she moved to Peterborough, and has lived since with Mrs. Wm. Redmond, Gilmour street. The late Miss Eagen was well known in the community where she spent her life and had many friends there.

Her parents Mr. and Mrs. Thos. Eagen passed away some years ago, and the only relatives living are John, New York, and Mrs. Wm. Redmond, of this city.

The funeral will be held from the residence of Mrs. Wm. Redmond, 97 Gilmour street, on Friday, May 10th, at 9 a.m. to St. Peter's Cathedral and thence to the Roman Catholic Cemetery.

ELIZA CAMPBELL

Another old and highly respected citizen passed away at the family residence last night in the person of Eliza Campbell, relict of the late John Lowry.

The late Mrs. Lowry was born in North Monaghan near Springville and was 79 years of age. Her father, the late Mr. Geo. Campbell, was born in the County Monaghan, Ireland. In the year 1850 the deceased was married to John Victor Garner Lowry, who passed away two years ago.

The following children survive: Mrs. Alex. Calder, Smith; Mrs. Geo. Clemens, Cottesloe; Mrs. J. A. Fairburn, Peterborough, and four sons, William Henry, Montreal; Samuel and R. J., Peterborough, and T. J., of Highland Grove, Bancroft. There are also three brothers, Mr. J. H. Campbell, Nassau; Dr. R. E. Campbell, Buffalo, and Rev. Jas. Campbell, San Francisco.

The late Mrs. Lowry was a member of the Church of England.

Her death was no surprise to the family; she has slowly declined during the past few years, but always displayed the true Christian fortitude which characterized her whole life.

The funeral will be held on Friday morning at 11 o'clock from the residence of Mr. J. A. Fairburn, at 760 Water street. Rev. Canon Davidson will conduct the services at the home. Interment will take place at St. Mark's Cemetery, Warsaw. Rev. F. H. Battersby will officiate at the services held there.

The Chest Pains Of Bronchitis

If the cough is dry and hard, if there is pain, soreness and tightness in the chest, if you have difficulty in getting your breath, you have reason to suppose that you have bronchitis. Lest it should become chronic and lead to serious lung trouble do not delay the use of Dr. Chase's Syrup of Linseed and Turpentine, the most certain cure for bronchitis.

A RUNAWAY RIVALS FAMOUS BEN HUR

Team of Horses Belonging to Mr. Wm Crough Ran From Flynn's Hotel to Mark Street

WAS AN EXCITING DASH

One of the most exciting runaways that has stirred the business portion of the city in a long time, was that which occurred on Hunter street this morning about 11 o'clock. A team belonging to Mr. William Crough of Ennismore, had just been driven out of the American Hotel yard by Mr. Elphinstone, when for some reason, known only to the animals themselves, they suddenly became frightened, and made a desperate plunge to get away, as they raced out on Hunter street towards George at a furious pace. The driver with admirable pluck and courage held on with all his strength and kept his seat as the wagon bounced over the street railway tracks.

Upset Express Wagon

They swerved slightly to the north side of the street, and one of the wheels of the wagon caught the Dominion Express Company's rig, which was standing in front of the express office, dragged it a short distance and threw it to the opposite side, in front of the Bank of Commerce, upsetting it, and throwing the horse off his feet. Luckily he was not hurt, and the express rig escaped undamaged. The short board part of the crossing just at Hunter and Water street was struck by the wagon and the boards broken. A number of ladies standing there, quickly fled into the post office out of danger. As the wagon hit the crossing it bounced four or five feet loosening the seat and throwing the driver to the bottom.

Excellent Driving

Laying on the bottom of the wagon, bounced with every jolt, Mr. Elphinstone gave an exhibition of daring driving that could not be improved upon. The team was plunging at a rate that would make a fire team envious, and yet the driver guided them in their mad flight through the street, where other vehicles were passing. Witnesses of the runaway thought that the horses and driver would come to grief at the Hunter street bridge, and few considered that they would get over in safety. Yet that is just what happened; and with other rigs on the bridge, too. One of the men who met the team on the bridge, driving, said that he never expected to escape the furious beasts.

The Finish

The last stage was just as exciting as the first. The driver, with excellent judgment, guided the horses towards Armour's Hill, where he expected to exhaust them. However, just at the corner of Mark and Hunter street east, one horse turned south, thus upsetting their combined force and hurling the otter to the ground. It was a fine finish to one of the most exciting dashes that could be desired.

The horses were uninjured, the wagon showed no signs of the run, though the axles may have been hot, and the harness was intact. The driver, Mr. Elphinstone, was exhausted. He was unable to do anything, and trembled from the excitement. It was certainly a trying ordeal, and yet he should feel elated that he had the presence of mind and the courage necessary to control the flying animals. Mr. Elphinstone is an Englishman, just out a short while, and is working for Mr. Crough, and his employer owes his team and wagon to the quick working mind of the hired man, who was complimented by many horsemen, who said that it was the best exhibition of nerve they had ever witnessed.

BOUND WITH TWO GOLDEN BANDS

Mr. R. H. Shepherd Presented With Two Gold Signet Rings by Some More of His Friends

DEPARTED FOR MONTREAL

Mr. H. R. Shepherd left last night on the midnight C.P.R. train for Montreal, but did not get away until he had been presented with two elegant, gold signet rings. His many friends in the C. G. E. gathered at Mr. Laroque's hotel last evening and gave him a signet ring with his initials engraved on it, and on the inside was inscribed the date and place.

Mr. Robt. Hay was appointed chairman, and in a few appropriate words stated the purpose of the gathering. He called upon Mr. Wm. McLagan to read an address, and Mr. John Brown presented a heavy gold signet ring. Mr. Shepherd expressed his appreciation of the kindness of the men, and mentioned the good times he had enjoyed with them.

Songs were sung, stories told, and a good time resulted. Mr. Laroque assisted greatly in making the evening as enjoyable as possible.

S. O. E. Ring

Mr. Shepherd was bound with more than one golden band last night, for at the same time and place the members of the local lodge of the Sons of England gathered and presented him with a beautiful signet ring, with the letters, "S.O.E.," raised, the whole an excellent piece of work. Mr. Shepherd has been lionized during the past two weeks and will be greatly missed by his many friends. He has not determinded where he will locate, but Montreal will be his headquarters for a while.

ANOTHER OF PIONEERS PASSES AWAY

Mrs. Philip Giles Dead at Age of 86 Years—Had Lived Near Peterborough for 60 Years

One of the pioneer residents of this district passed away at the residence of her son, Joseph a Giles, "Fairview," North Monaghan, yesterday afternoon in the person of Jane Adair, relict of the late Philip Giles. The deceased, who was 86 years of age, was born in Castlebiney, County Monaghan, Ireland, and came to Canada when but seven years of age, her father settling near Cobourg. Soon after, her father passed away, but the deceased continued to live near Cobourg, until 1847, three years after she was married, when she moved near Peterborough, and had lived in North Monaghan ever since, a period of 60 years. She was very well known and respected in the district.

Her death was due to old age. She was only ill a few days. The deceased is survived by two sons, Joseph of North Monaghan and Orlando of Manitoulin Island. Two sisters, Miss Bessie Adair and Miss Anna Fenton, reside near Cobourg.

The funeral will take place tomorrow afternoon from "Fairview," lot 18 con. 12, North Monaghan to Little Lake Cemetery.

Music and Drama

TOM MARKS AT THE GRAND

Tom Marks will open a week's engagement at the opera house, on Monday night, in the Rose of Killarney. The press and the public are high in their praise of the Tom Marks Stock Company, and no doubt Tom will be greeted with a crowded house on Monday night. The prices during the engagement will be within the reach of all—10, 20 30 cents. This is a dollar show at 10c., 20c., and 30c., prices. The management of the show has disposal of the ladies. One ticket and 30 cents will admit two persons, if the tickets are exchanged at the box office before five o'clock on Monday, May 13th. Plan open on Friday morning.

GIRLS' GUILD ENTERTAINS ST. JOHN'S CHOIR

A Delightful Evening Was Spent at School Rooms Last Night.

The Girls' Guild of St. John's Church entertained the choristers last night in the school room. About forty sat down to a beautifully prepared lunch, laid on gayly decorated tables, and a very happy time was spent until 10 p.m. Speaking for the Guild, Rev. Canon Davidson said that the members wished to show their hearty appreciation of the work of the choir in the church services, and expressed the pleasure he felt at being present at such a pleasant gathering.

Mr. R. J. Dovey voiced the thanks of the choir to the Guild for their kindly thought and brilliant hospitality, and also thanked the whole choir for their faithful work during the past year.

Short speeches from Messrs. Kingscote, Brown, Greenbright and Chandler followed, and a truly pleasant evening ended by the singing of "Auld Lang Syne" and "God Save the King."

WAITING TO HEAR FROM KINGSTON

If Tents Can Be Procured There the Regiment Goes to Brockville.

The officers of the 57th Regiment held a meeting last night in the mess rooms of the drill hall, in connection with the Dominion Day trip. They will try to obtain the tents and other camping equipment from Kingston, as these will not be needed there after the end of June, and, if so, the local regiment will go to Brockville.

If these cannot be obtained at Kingston, the regiment will probably go to St. Catharines, as they can obtain the tents, etc., from the Niagara military grounds.

THE READERS ACCEPTED POSITIONS

Mr. and Mrs. R. J. Todd Will Act in That Capacity in Church of Christ Scientist.

The members of First Church of Christ, Scientist, held a meeting after the service last night. Mr. Turnbull, the new president, occupied the chair. After hearing the secretary's report from Concord, N.H., Mr. and Mrs. Todd decided to accept the positions as readers.

LOST IN GRAND CENTRAL BLOCK

Dick McBride Fell at Lady's Feet as She Opened the Door.

"Whisky must have flowed freely last night," remarked His Worship as five drunks faced him, and over filled the prisoners' dock.

One of them was Mr. Richard McBride, better known as "Dick." He was rambling around George street early this morning, and unknowingly entered the hall-way of the Grand Central block, and slowly crawled up stairs. He must have fallen asleep leaning against a door, for a lady, hearing some commotion in the hall, opened the door and in fell Dick, in a rather comatose condition. Needless to say, he was ejected and with the help of the police. He said that he was not guilty of committing any wrong, and in fact he said he never thought of such a thing. Mr. Dumble decided to let him go, and he departed in a grateful mood.

Fred Turner, James Anderson and Jas. Shaw went out on a toot last night, tried to paint the town, became disorderly and were finally locked up. They were warned to leave the barley essence alone, and they would not wake up after a night's debauch, singing, "Put in the Morning."

William Doyle was the last of the quintette who were led into court with their "stomachs churning." He trembled almost as if attacked with palsy; he wanted 20 days to sober up and had no trouble in obtaining his request.

THE SALVATION ARMY ANNUAL EXCURSION

Will be Held on May 24th; An Enjoyable Day is Promised.

The Salvation Army intends to run their annual excursion to Idyl Wild on Victoria Day, May 24. The band will be in attendance, and a most delightful time is promised at the beauty spot of Rice Lake. The steamer Water Lily has been chartered, and will take along a barge, so that ample provision has been made for conveying a bumper crowd. Games and sports will be features of the day, besides a concert in the hotel park, and music on the boat. This is Self-Denial Week for the Salvationists, and the band and all the members are making a united effort to obtain a large sum. It is spent in the social interests of those who need it most, namely, the poor, the orphans, and the friendless.

TATE OPTICAL CO'Y
G. N. BABCOCK, Eye Specialist
412½ GEORGE STREET, PETERBOROUGH

UNSOLICITED TESTIMONY

The Tate Optical Co., Peterborough:

DEAR SIRS.—During the last three or four years (prior to May last) my eyesight had failed to such an extent that I was unable to read or see anything at close range and could get no Glasses that would help me. I tried two different Opticians in Toronto and was told by both that they could do nothing for me, and that my sight would never be better. A statement of my case was sent to Montreal by a Hastings optician and several pairs of Glasses sent me, but with the same result my vision could not be improved. Last May, while looking at a Pair of Glasses you made for Mr. John Fife, Keene, and talking with him he advised me to consult your Mr. Babcock, and I am pleased to say that the Pair of Glasses he made for me have given me entire satisfaction and I can do now what I have not done for years past—read any ordinary print and see distinctly at close range. I feel very grateful, not only for the interest you have taken in my case, but particularly so for the blessing of good eyesight. Thanks to your knowledge and skill.

Yours truly,

(Signed) **JOHN CARTER, Sr.,**
Hastings, Ont

Specialist will be at Peterboro

May 15th to 30th

After a most successful visit in his capacity as Teacher of Opticians, **J. W. BROWETT, Specialist,** will return from Toronto on Wednesday next, to his home office at our store. Hundreds of persons took the opportunity of his visit to have their eyes examined for glasses, and now we bespeak **Two Busy Weeks in Peterboro.** Mr. Browett's work is thoroughly satisfactory, and is getting to be known in this city, where he has made his home and headquarters. We are booking appointments for May 15th to 30th.

McDERMID & JURY'S DRUG STORE, PETERBORO

News Of The City And District.

Weather To-day—Fair, a few light scattered showers during the night. Friday—Fresh to strong, cool, northwesterly to northerly winds.

Division Court

His Honour Judge Weller is in Lakefield to-day presiding at Division Court sittings.

To Montreal

Messrs. Morris and Brown shipped two car loads of cattle from Millbrook to Montreal to-day.

Just Arrived

Just arrived, fresh caught trout and whitefish, at Harry Bradshaw's, Telephone, 271. Fruit, vegetables, groceries and provisions. We have the goods and are after the business. Bradshaw's, 352-354 Charlotte street. 2d109

20 Per Cent. Discount.

Off baby carriages and go-carts. We have just received 65 baby carriages and go-carts to complete our contract for 100 carriages and go-carts. They must be sold in season. Here's your chance to get a snap. Come early if you are interested and see. Children's go-carriers marked net, and the price is right. A. H. Stratton & Co.

An Interesting Story

Is that to be told by Rev. H. J. Keith at the Foreign Work meeting at the Y.W.C.A. to-night at eight o'clock. He will speak on Calcutta, where he has spent the past two years as Bible study secretary. All active members and all women interested in this work are urged to be present.

Unlucky "13"

Is the Fire Department and Light Committee superstitious? In preparing the list of fire alarm boxes in No. 1 Ward, the numbers begin at 12, and, skipping 13, proceed in regular order. Is "13" regarded as an unlucky number by the Committee? No wonder, as a cynic suggests, it is an unlucky number, when our City Council consists of thirteen members. Who is the Jonah the Fire, Water and Light Committee would suggest to drop out to assure the numerical luckies?

Personal Mention.

Mr. R. B. Rogers went to Toronto yesterday.

Rev. Father Fitzpatrick of Enniskore was in the city to-day.

Mr. F. D. Kerr was in Lakefield to-day attending Division Court.

Mrs. R. R. Hall and Mrs. E. A. Coulthard were in Toronto yesterday.

Mr. Fred Whiteroft returned last night after a week's visit in Toronto and Detroit.

Mr. R. J. Munro, proprietor of the Munro House, is at the Star of the East mines this week.

Miss Eileen Blair returned to the city last night after spending a few days in Toronto visiting friends.

Miss (Rev.) E. A. Langfeldt is in Toronto Junction visiting Mr. and Mrs. E. R. Rogers for a few days.

Rev. Canon Davidson and Rev. E. A. Langfeldt were in Toronto attending Synod Committee meetings this week.

The friends of Miss Beatrice Blewett will be pleased to learn that she was able to be out driving last evening.

Messrs. Gordon McClannan and Harold McCrea left on Tuesday for Toronto where they have secured positions.

Mr. Macfarlane Wilson, who has been spending a few days in London on business returned to the city last night.

Rev. T. H. Perry, B.A., who is to assist Rev. E. A. Langfeldt in his work, will arrive in the city next Wednesday.

Miss Laura Hartley who has been visiting her sister, Mrs. Ashley, Jersey City, for the last eight months, has returned home.

Mr. and Mrs. H. Rush, sr., left this morning for Montreal where they will sail on the Allan Liner Virginian, for a three months' tour of the British Isles and the Continent.

Mrs. (Dr.) Munro, of Essex, has arrived in the city and will visit in Lakefield before going to Warsaw to join her husband. She was registered at the Munro House to-day.

Mr. and Mrs. H. Rush left this morning for Montreal, from which port they will sail for England to-morrow on the Allen liner Virginian.

J. W. Browett, Doctor of Optics, who has been lecturing to opticians during the past few weeks, will return from Toronto next week. 1d1w

Miss Ethel Pakenham, who was attending the Woman's Auxiliary meetings in Toronto as a delegate of St. Luke's Church, has returned home.

Mrs. T. H. Adams and Mrs. G. R. Brownrigg, who have been in Toronto attending the Woman's Auxiliary meetings as representatives of St. Luke's, have returned home.

His Lordship Bishop O'Connor, of Peterborough, and Ven. Archdeacon Casey, of Lindsay, were the guests of Rev. Father O'Sullivan, Walton street, yesterday.—Port Hope Guide.

Mr. G. T. Bell, general passenger agent, and T. D. McDonald, district passenger agent of the Grand Trunk, were in the city last night, the guests of Mr. W. Bunton, local ticket agent.

Mr. Ernest Ainly and Mrs. Ainly and Master Ernest, of Jersey City, New Jersey, are visiting at the home of Mrs. Ainly's parents, Mr. and Mrs. J. J. Hartley, 234 Antrim street, city.

Mrs. M. O'Brien and Master Austin, Gilmour street, leave to-morrow for Belleville to attend service next Sunday at the Deaf and Dumb Institute, at which Gerald O'Brien is one of the 14 who is taking first communion.

Mr. W. E. Brooks, of the Park Hotel and summer resort, South Beach, was in the city yesterday, accompanied by his daughter, Geraldine. Mr. Brooks says that rapid progress is being made with the work on the additions to his house, the first one of the annexes being already built.

His many friends will regret to learn that Mr. Arthur Gardner left the city this morning. He has taken a good position in Connecticut in a large paper mills. He has been a resident of Peterborough for about two years and has made himself very popular during his stay here. He has been an employee at the C. G. E. for the past twelve months, where he has made quite a number of friends. They all wish him success in his new position.

DRIVER HAD A NARROW ESCAPE

Horses Scared at Auto—Pavement Torn Up and Tie Post Broken

Runaways are fashionable these days, and to-day was no exception to the rule.

On Brock street about one o'clock this afternoon, the team belonging to Mr. Hoben became frightened at Dr. Frederick's new motor car, and attempted to climb on to the pavement with a load of gravel. One wheel of the wagon ran along the sidewalk for some distance, broke a tie post and tore up a considerable amount of the granolithic pavement. Mr. Hoben did not allow his fiery team to get away but escaped unhurt, contrary to all expectations from the onlookers' standpoint.

Varicose Ulcers Cured

Miss Elizabeth Campbell, 20 Sheridan avenue, Toronto, states: "About eight years ago, I hurt my leg near the ankle and the result was what doctors call varicose ulcers. I was treated in two Toronto hospitals and sent away without being cured. From the very start Dr. Chase's Ointment helped me and by persistent use it has entirely cured me."

SUNDAY SCHOOL OFFICERS WERE ELECTED

At Adjourned Annual Meeting of the Sunday School Committee of the Mark Street Methodist Church

At the adjourned annual meeting of the Sunday School Committee of the Mark Street Methodist Church, held last night after the prayer meeting, the secretary presented his report for the past year. It showed a very gratifying state of affairs. The finances of the school are in excellent condition, with a good balance to its credit, and from every standpoint the past year has been satisfactory.

The election of officers which took place resulted as follows:

Superintendent—Mr. J. C. Miller.

Assistant Superintendent — Mr. M. Canton.

Secretary - Treasurer, — Mr. A. J. Throop.

Assistant Secretary — Mr. W. Dartnell.

Superintendent of Home Dept. — Mr. W. Crowe.

Pianist—Miss Speer.

All the teachers who officiated last year were re-appointed, and some vacancies in the staff were filled. The teachers this year will be: Mrs. Campbell, Mr. M. W. Matchett, Mrs. J. Speer, Miss M. Speer, Miss M. Howson, Miss Adamson, Mrs. W. K. Payne, Miss Bessie Crowe, Mrs. McDonald, Mrs. Lewis and Mrs. McCarthy.

FOR SALE.

That well built brick house and lot situated at the corner of George and Dublin Streets, also excellent corner lot. This property is to be sold to wind up an estate, and all particulars may be had at 580 George Street. dtf

THE AWNING GAVE HIM BEST OF SATISFACTION

J. J. Turner & Sons Receive Warm Praise for Work Done for Firm.

Messrs. J. J. Turner & Sons to-day received the following postal card communication from Kingston. It speaks for itself:

Am awfully pleased with my awning. Every day I like it better. Your man did a good job.

T. McAULEY.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Dear Sir, — Who is practising auctioneering without a license? The city council, according to what an aldermen told me to-day, are doing a lot of bidding. The town teamsters wanted a boost from $3.25 to $3.75 per day. The council bid $3.50 and then, in a spasm of generosity, raised the bid to $3.60, and as a last resort went as high as $3.65. This seems to be the reserved bid, as the teamsters held out for the looking ten cents to make up $3.75. To-day the striking teamsters are working for citizens and getting $4 per day.

Yours, etc.,
HORSEMAN.

WEDDING BELLS

WRIGHT-PREECE

A quiet wedding took place at St. John's church this afternoon at 2.45 o'clock, when Miss Florence Elizabeth Preece, who has just arrived from Kidderminster, Eng., became the bride of Mr. Alfred Wright, late of Kidderminster. Mr. Wright has only been in Canada about one year. The ceremony was performed by Rev. Canon Davidson.

FRANCO-JAP ENTENTE.

Japanese Minister Denies That It Is Aimed at United States.

Paris, May 9.—M. Kurino, the Japanese Minister here, in an interview yesterday is quoted as making the important statement that the series of treaties between Great Britain, France, Russia and Japan, guaranteeing the territorial status quo in the Far East implied an engagement to prevent other countries from acquiring territory there.

Minister Kurino denied that the Franco-Japanese entente was in any way aimed at the United States, adding: "Japan, in spite of the San Francisco incident, has always been most sympathetic to the United States, because she was the first to treat the Japanese people on a footing of equality. If Japan could obtain advantages from an understanding with the United States, it is entirely probable that the Government at Tokio would not hesitate to negotiate with Washington."

Continuing, M. Kurino said that as Germany had no possessions in the Far East, Kiaochow being simply leased Chinese ground, a treaty with her similar to the one between Japan and France would be useless.

HERRING FISHERY CASE.

Decision of Court In Favor of Newfoundland Government.

St. John's, Nfld., May 9.—The Supreme Court of Newfoundland, in upholding the Colonial Government in its contentions respecting the so-called Bay of Islands' herring fisheries case, in which the right of Newfoundland fishermen to be employed by American vessel-owners within the three-mile limit was involved, has also decided that the treaty of 1818 and the modus vivendi of 1906 between the United States and Great Britain, had no bearing on the issue.

The Newfoundland Government regards the decision as a great victory, but its final effect on the American frozen herring industry will not be determined until the points involved are passed upon by the highest court of Great Britain.

TRAGEDY AFTER TRAGEDY.

Survivor of Palermo Holocaust Shoots Himself Dead.

Palermo, May 9.—Crazed by the story that had got abroad, that he was connected with the burning of the shack where "Black Fannie" and the man Clark were cremated last Saturday night, Thomas Dunn, known as Young Tom Jones, shot himself in the mouth with a revolver yesterday morning and died instantly.

Dunn committed suicide in an outhouse on the farm of John Dorland, where he was employed.

Although public opinion was strong against the young man, no evidence could be had. As his death removes the only witness at the scene of the tragedy, there will be no inquest.

ADMIRALTY WAKING UP.

Cruiser Scylla Selected to Be Stationed In West Indies.

London, May 9.—In view of the recent rioting at Castries, Island of St. Lucia, and the fact that a British warship was not available for relief purposes at the time of the earthquake at Kingston, Jamaica, the British Government has decided to station a second cruiser in the West Indies.

The Scylla, a third-class cruiser, having a speed of 20 knots, and carrying a crew of 273 officers and men, has been selected.

Hon. Geo. Ross Married.

Toronto, May 9.—The marriage of the Hon. G. W. Ross to Miss Mildred Peel took place very quietly yesterday afternoon at Mr. Ross' residence, Elmsley place, only the immediate relations being present. Rev. Dr. Milligan officiated. The bride entered on the arm of her brother-in-law, Mr. Belden, who gave her away. She was dressed in a French gown of cream lace over cream taffeta, with short train, and carried a shower bouquet of bridal roses. After the ceremony the wedding breakfast was served, and later Mr. and Mrs. Ross left for their honeymoon, the bride traveling in a plum-colored tailored suit with hat to match.

Negro Officer Shot.

Beaumont, Tex., May 9.—As the result of two attempts at assassination from ambush at Orange Tuesday night one man was killed and two seriously wounded. The dead man is Major Boykin, a negro officer, who was fired on by unknown persons as he was leaving a negro saloon. He was shot five times, all the bullets entering his body and producing instant death. It is thought the shooting was done by negroes and several arrests have been made.

Jealousy Ends In Murder.

Independence, Mo., May 9.—Clyde St. Clair, aged 22, son of George St. Clair, a prominent citizen, was shot and killed on the public square early yesterday by Van Tappan, aged 23 years, his intimate friend. The two young men had attended a party together at the home of a young woman with whom both were in love and were returning home when they engaged in a quarrel over her, which resulted in the tragedy.

Drayman Seriously Injured.

Lindsay, May 9.—John Kearns, a local drayman, met with a serious accident yesterday. He was driving around the corner of Lindsay and Queen streets, near the C. P. R. Depot, when his horses became frightened and ran away. Mr. Kearns was thrown out of the wagon on to the pavement, falling on his head. At present he is in Ross Memorial Hospital, in a very critical condition.

Thaw Home Mortgaged.

Pittsburg, May 9.—"Lyndhurst," the pretentious home of Mrs. William Thaw, in the east end section of this city, has been mortgaged for $100,000, according to The Pittsburg Leader. The mortgage was secured some time ago and extraordinary efforts were made to keep the mortgage secret.

To Relieve Mr. Fisher.

Ottawa, May 9.—During Hon. Mr. Fisher's absence in Europe, Hon. Mr. Lemieux will be acting Minister of Agriculture, and Hon. Mr. Aylesworth will be acting Minister of Public Works.

Eggs, firm, unchanged; receipts, 27,071.

CATTLE MARKETS.

Cables Steady—Buffalo and Chicago Prices About Unchanged.

LONDON, May 8.—Liverpool and London cables are steady at 11¼c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9c per lb.

Montreal Live Stock.

MONTREAL, May 8.—(Special)—Receipts of live stock were 250 cattle, 75 milch cows, 1800 calves, 100 sheep and lambs and 800 hogs. The butchers were present in large numbers and the prices of cattle had an upward tendency, but there were no choice beeves on the market. A few of the best beeves sold at 5¼c per lb. Pretty good cattle 4¼c to 5c and the common stock at 3c to 4c. Milch cows sold at from $20 to $50 each. Calves sold in large lots at from $1.50 to $2.25 per head, while a few of the best sold up to $8 each. Sheep sold at 3c to 4c per lb.; lambs, at $3 to $6 each. Good lots of fat hogs sold at 7c to 7¼c per lb.

East Buffalo Cattle Market.

EAST BUFFALO, May 8.—Cattle, steady; prime steers, $5.65 to $6.

Veals—Receipts, 500 head; active and 25c higher; $5 to $7.25; a few, $7.50.

Hogs—Receipts, 4300 head; fairly active on light; slow on heavy; heavy, $6.60 to $6.75; mixed, $6.75 to $6.80; yorkers, $6.80 to $6.85; pigs, $6.80 to $6.90; roughs, $5.90 to $6.10.

Sheep and Lambs—Receipts, 9000 head; steady; sheep, active; lambs, slow; wethers, $6 to $6.15.

New York Live Stock.

NEW YORK, May 8.—Beeves—Receipts, 2447; steers, slow, to 10c lower. Fat bulls, easy, others, steady; medium and fat cows, 10c off. Steers sold at $4.80 to $6.15 per cwt.; bulls, $3.50 to $4.70; one car choice western bulls, at $5; cows, $2.20 to $4.50.

Calves—Receipts, 3698. Veals, steady to 25c higher. Common to prime veals sold at $5 to $7.80 per cwt.; one lot of choice do., at $7.85; culls, at $4 to $4.50.

Sheep and Lambs—Receipts, 7917. Sheep, steady; lambs, shade lower. Clipped sheep sold at 6¼ to 6¾ per cwt.; clipped lambs, at $7 to $7.75; no choice here; Indiana spring lambs, at $8 per head.

Hogs—Receipts, 8480. Market steady. Pennsylvania and state hogs, $7 per cwt., including choice light weights.

Chicago Live Stock.

CHICAGO, May 8.—Cattle—Receipts, 28,000; market strong to 10c higher; common to prime steers, $4 to $6.50; cows, $2.25 to $5; heifers, $2 to $5.50; bulls, $2.40 to $4.60; calves, $2.75 to $5.75; stockers and feeders $3 to $5.25.

Hogs—Receipts, 34,000; steady to 5c lower; choice to prime heavy, $6.45 to $6.50; medium to good, heavy, $6.40 to $6.42½; butchers' weights, $6.45 to $6.50; good to prime mixed, $6.40 to $6.42½; packing, $6.20 to $6.40; pigs, $5.50 to $6.45; bulk of sales, $6.40 to $6.45.

Sheep—Receipts, 13,000; firm; sheep, $6.25 to $6.15; yearlings, $6 to $6.85; lambs, $5.80 to $8.75.

Cut Off Seven Licenses.

Ottawa, May 9.—The license commissioners for Russell County have decided to cut off seven licenses, making 29 instead of 36 licensed places at the present time.

At St. Louis—St. Louis v. Detroit game declared off, rain.

Train Derailed.

St. Paul, Minn., May 9.—The Winnipeg Limited, on the Great Northern Railroad, for St. Paul, was wrecked yesterday near Robinsdale. Spreading rails caused the accident. No one was injured.

Fatal Leap From Train.

Ashcroft, B. C., May 8.—Paul Mannarino, a prisoner from Nelson on his way to the penitentiary, in charge of Constable Webster jumped through a car window on a train yesterday afternoon. The train was running at the rate of forty miles an hour. Mannarino landed head first on the rocks, 30 or 40 feet below, where he was picked up insensible and died a few minutes later.

Charged With Perjury.

St. Louis, May 8.—H. Clay Pierce, chairman of the board of directors of the Waters-Pierce Oil Co., surrendered himself yesterday on the indictment returned against him in Texas, charging perjury in an affidavit to reinstate the company in Texas, from which it had been ousted.

Tug Sunk In Collision.

New York, May 9.—While leaving her dock in the North River yesterday afternoon, the Morgan Line steamer Monres ran into and sank the tug Anna J. Kip. The tug's cook was drowned. The other members of the crew were rescued.

Civil Servant Suicides.

Ottawa, May 9.—William H. Butland, electrician in the employ of the Government and living at Janeville, a suburb of the capital, hanged himself in a fit of despondency yesterday morning.

More Snow At the Soo.

Sault Ste. Marie, Ont., May 9.—All reports of late snow were broken yesterday when this end of the peninsula was visited by a fall of snow, which continued several hours. Navigation is affected by ice coming down from Lake Superior. The river is filled at times from shore to shore and the canal is packed.

Bond Is Confident.

London, May 9.—(C. A. P.)—Premier Bond states that the assurances he has received from Sirs. Grey and Churchill lead him to believe that the fisheries question will be settled before he leaves London in a manner entirely satisfactory to Newfoundland.

Australia Released.

London, May 9.—(C. A. P.)—The Chronicle states Tweedmouth yesterday gave Premier Deakin permission to break the agreement by which Australia contributes £200,000 annually to the cost of a naval squadron. The matter will probably come before the Commonwealth Parliament in June.

Arrested For Stealing.

London, Ont., May 9.—Frederick Maudesly, a young man who has been sought by the city police for nearly a year, was arrested on a charge of having stolen $[illegible] from a man named Joseph Ward, on May 22, 1906, in the yard of a King street hotel.

Farmer Killed by Train.

Lucan, Ont., May 9.—Allan McGinnes, a farm laborer living with John Seale, McGillivray Township, was killed Tuesday night by express No. 7 on the main line of the Grand Trunk Railway, two miles west of here.

Immigrant Suicides.

Baldur, Man., May 9.—C. Ellis, a Scotch immigrant, who has been working on farms around here, hanged himself yesterday.

Concessions to Newspapers.

Ottawa, May 9.—Postmaster-General Lemieux promised to give the press delegation stamped wrappers at the price of stamps, and it is likely that a flat rate will be given later on outside zones. At present it is one-half cent, and one-quarter cent; it is probable that in the future it will be made a flat rate of one-quarter cent, but legislation will be required for this.

The Soft Coiffure.

No matter whether a woman's face is thin or fat, long or short, she invariably looks better with her hair dressed softly. Hair that is drawn back tight from the face would tax the good looks of the prettiest woman ever seen.

Whether it is arranged high or low, however, depends entirely on the shape of the head and the lines of the face.

Colored Morning Dresses.

Have a couple of morning dresses made of some dark or half dark colored dimity or lawn or gingham.

Pretty little dresses of pink and white check or of the cool figured grays and dark blues can be made (lightened up with embroidery or lace), which do wonders in the way of saving laundry work.

Queen Alexandra's Diplomacy.

Very recently while at Buckingham Palace it came to the Queen's knowledge that one of the upper housemaids, who had been in the royal service for years, was very unhappy over a love affair.

The Queen sent for the girl and after advising and consoling her sent her to Sandringham for a change. Then the Queen summoned the lover and after a good natured homily with humorous tact sent him to Sandringham too. The couple have since returned, and there will be a wedding at Buckingham Palace soon.—From P. T. O.

Better digestion and a sweeter stomach follow quick upon the daily use of York Springs Potash Water. Sparkling, zestful, wholesome and without marked flavor. Try it for your dyspepsia. At good bars and from all merchants who discriminate.
